Heavy duty meets high tech.

Get the job done with the BradyPrinter i7100 label printer. No matter the demands of your labeling jobs—from higher volumes to precise printing and more—this reliable, heavy-duty and high-accuracy label printer gets it all done.

The i7100 offers unparalleled benefits, including:

- **Material choice.** Print on the widest range of materials with confidence, including difficult-to-print materials, like heat-shrink sleeves, thick cable tags, push button materials, high-temperature electronics labels and even basic materials.
- **Precision printing.** Ultra-sharp, high-accuracy printing and center alignment allows you to print reliably on labels as small as 0.125".
- **Workhorse performance.** Designed to print thousands of labels per day, every day, this printer features a high-speed processor, solid cast frame, durable components and a variety of connectivity ports.
- **Ease of operation.** Adjust printer settings quickly and easily with an ultra-intuitive color touchscreen. To make material loading and adjustments easier, there are bright-green touchpoints inside the machine.
- **Speed to label.** With print speeds up to 11.8 inches per second, the i7100 prints labels in no time. Additionally, the "peel" configured printer saves you time by automatically peeling labels from the liner.

i7100 Printer
