HI-BRIGHT LED LIGHT MODULE

The LED Light Module has housing made of ABS plastic with a transparent epoxy seal around the LED's. This provides a robust construction with excellent light distribution and IP-65 sealing, (splashproof and dustproof). The LED Light Modules are available in 3 LED rectangular or 4 LED square configurations. The 50/50 ultra bright LED chip in all standard colors. The modules can be daisy chained for back lighting of signage, illuminating letters and designs, under cabinet lighting, stair lighting and a wide variety of other applications where direct lighting is required. Both 3 LED and 4 LED are supplied with an adhesive backing for quick and permanent installations or can be mounted with wood screws. All are available in bulk packed, as well. To specify bulk packed, please add suffix letter "B" to part number.

NEW PRODUCTS 2012

Right Angle HDMI Cable (HDMI High Speed with Ethernet)

Molded 90° HDMI standard type A connector on one end to straight HDMI connector on other end. Choices of 4 different 90° angle connector to ease the installations where space and clearance behind components is limited. Eliminate the needs of additional expensive right angle adaptor. Available in 3 ft. and 6 ft. Length.

Right Angle, Downward Position

No. 45-7413 - 3 FT.
No. 45-7416 - 6 FT.

Right Angle, Left Elbow

No. 45-7433 - 3 FT.
No. 45-7436 - 6 FT.

Right Angle, Right Elbow

No. 45-7453 - 3 FT.
No. 45-7456 - 6 FT.

Retractable HDMI Cable (HDMI High Speed with Ethernet)

Whether at home or traveling, HDMI cables that can be shortened to eliminate the excess length(s) are a practical and tidy solution to the usual messy scramble of cables we have never quite gotten used to. Available in either 3 or 6 foot lengths when fully extended; both sizes retract to a few inches at your command.

No. 45-7463 - 3 FT. Extended (6" Retracted)
No. 45-7466 - 6 FT. Extended (13" Retracted)

Right Angle Audio Adaptors

A wide selection of Right Angle Adaptors from 2.5mm to 6.3mm (1/4") in both mono and stereo for any devices with phone jack.

SPLASH PROOF ROCKER SWITCHES

IP65

Current Rating:	20A-12VDC
Contact Resistance:	50m Ohm max
Insulation Resistance:	DC 500V 100m Ohm min.
Dielectric Strength:	AC 1000V for 1 minute
Body Material:	Nylon 66 (94-V2)
Actuator Material:	Clear, PC (94-V2), with black silicone cover.
Terminal Material:	Silver plated, Copper Alloy
Terminal Type:	.187" Quick Connect

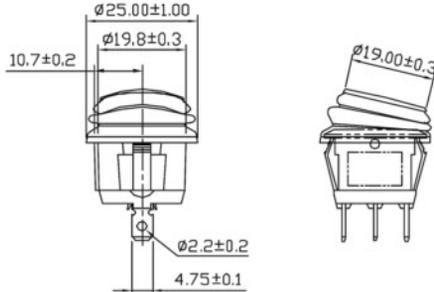

Mounting Hole: 0.51" x 0.764"

Part. No.	Type	Action			Actuator
		ON	-	OFF	
30-12320	SPST	ON	-	OFF	Black
30-12322	SPST	ON	-	OFF	Red LED
30-12324	SPST	ON	-	OFF	Green LED
30-12326	SPST	ON	-	OFF	Blue LED
30-12328	SPST	ON	-	OFF	Amber LED

SPLASH PROOF SNAP-IN ROUND ROCKER SWITCHES

IP65

Current Rating:	20A-12VDC
Contact Resistance:	50m Ohm max
Insulation Resistance:	DC 500V 100m Ohm min.
Dielectric Strength:	AC 1500V for 1 minute
Body Material:	Nylon 66 (94V-2)
Actuator Material:	PC (94-V2), with black silicone cover
Terminal Material:	Silver plated, Copper Alloy
Terminal Type:	.187" Quick Connect

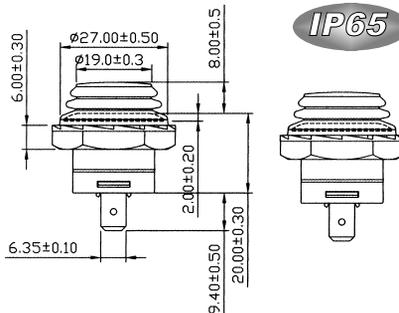

Mounting Hole: 0.795"

Part. No.	Type	Action			Actuator

UL US

NEW PRODUCTS 2012

A series of handy switches that will switch on night lights for safety and security. Simple two-wire packages make this an easy series to use; each has six inches long insulated wires with stripped ends. These switches are made to be mounted in a case or behind a control panel with the photo-sensor protruding through a mounting hole.

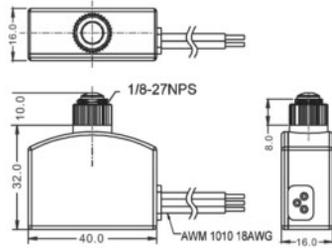

PHOTO-ELECTRIC ON-AT-DARK SWITCHES

25 Watt, 125 VAC Photo-Switch

A small switch inside a plastic case with two lead wires. Normal usage might be with incandescent, Halogen or LED lamps not to exceed the 25 watt, 125 VAC rating. This switch is intended for indoor use only.

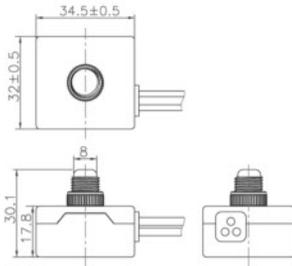

No. 30-10825

100 Watt INDOOR/OUTDOOR Photo-Switch

A handy switch rated for 100 watts maximum (@125 volts AC) when used to control an incandescent light or 39 voltamps if used with a fluorescent lighting assembly. The case assembly is best used inside a protected case but the 8mm diameter sensor can protrude through the mounting hole to either an indoor or outdoor environment. Built in a protective plastic shell with three lead wires.

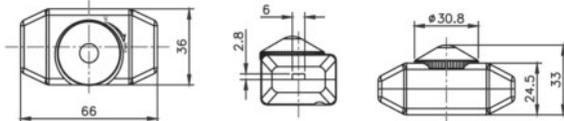

No. 30-10830

250 Watt INDOOR/OUTDOOR Photo-Switch

Used when a large lighting load is required (generally for large areas) such as in dark warehouse areas, protected loading docks and can handle an incandescent or Halogen lamp up to 250 watts (@125 volts AC) or could be used with fluorescent lamp assembly up to 60 watts. Built in a protective plastic shell with three lead wires. It can be used for both indoor or outdoor environment.

No. 30-10835

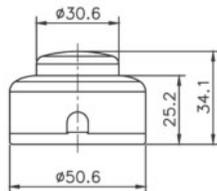

Cord Mount Dimmer Switch

SPECIFICATIONS:

Current Rating:	1.2 A @ 125V AC
Material:	Plastic housing
Terminal Type:	Solder
Wire Gauge:	Up to 18 AWG, SPT-1 or SPT-2

No. 30-10190

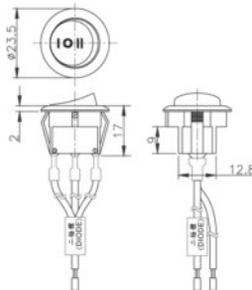

Cord Mount Push Button Switch

SPECIFICATIONS:

Current Rating:	2A-125VAC, 1A-250VAC 1A-125VL
Material:	Plastic housing
Terminal Type:	Screw
Wire Gauge:	Up to 18 AWG, SPT-1 or SPT-2

No. 30-10198

HI-LO Rocker Switch

SPECIFICATIONS:

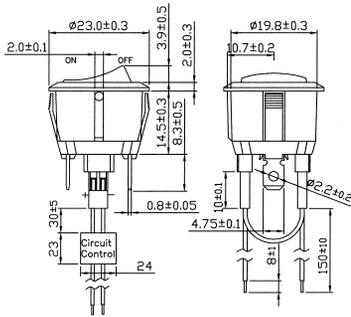

Current Rating:	10A-125VA, 5A-250VAC 3A-125VL
Action:	LO-OFF-HIGH
Actuator:	Black Rocker with white Legend
Material:	Plastic housing
Terminal Type:	6" Wire Leads

No. 30-9167

Mounting Hole: 0.80"

NEW PRODUCTS 2012

12V LIGHTED SNAP-IN ROUND ROCKER SWITCH

Mounting hole: 20.2mm (.79")

Current Rating:	20A-12VDC
Contact Resistance:	50m Ohm max
Insulation Resistance:	DC 500V 100M Ohm min.
Dielectric Strength:	AC 1500V for 1 minute
Body Material:	Nylon (UL 94V-2). Blue
Terminal Material:	Silver plated brass
Terminal Type:	12V Lead Wire Assembly

Part. No.	Type	Action	Actuator
30-12340	SPST	ON - OFF	Blue LED Illuminated body. Red LED Rocker*

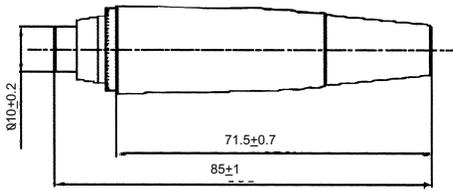

* Red LED illuminates when switch is in ON position

IN-LINE PUSH BUTTON SWITCH

No. 30-825

(Maximum cable O.D. 6.0mm)

Current Rating:	3A-125V
Contact Resistance:	30 Ohm max
Insulation Resistance:	100m Ohm min.
Terminal Type:	Solder

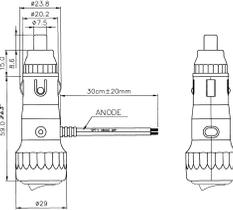

Sizes: Overall Length 3.3"
Body/handle Length 2.8"
O.D. .75"

12V ACCESSORIES

CIGARETTE LIGHTER PLUG WITH ON-OFF SWITCH

No. 48-790

Current Rating:	8A-12VDC
Housing Material:	ABS (UL94-HB)
Contact Material:	Tip - Nickel Plated Brass Ground - Nickel Plated Steel
Switch:	SPST Rocker Switch with LED
Wire Size:	SPT-1 Type up to 18 AWG
Fuse:	8A Standard 3AG type (included)

12V SOCKET TO 2 POSITION FLAT CONNECTOR

This 10" long Adaptor has 2 position flat trailer harness connector on one end. On other end is standard 12V cigarette lighter socket. Allows 12V connection from 2 pin trailer connector.

No. 48-1276

12V SOCKET TO 2 PIN CONNECTOR

This 4" long Adaptor has two pin connector on one end that connects with any of the 12V power supplies with interchangeable DC plugs feature. On other end is standard 12V cigarette lighter socket.

No. 48-1274

SPLASH PROOF HOLDER WITH LED INDICATOR LIGHT

IP66

Rating 20A 32V DC, holds 1/4"-1-1/4" 3AG type fuse. Can be used in panel up to 3/8" thick, mounts in .63" (16.0mm) mounting hole 94V UL material, LED indicates when fuse is blown.

No. 64-2015

IP66

Rating 20A 12V/24 V DC, holds standard blade type ATC fuse 14 AWG loop wire, LED indicates when fuse is blown.

No. 64-2020

NEW PRODUCTS 2012

12V EXTENSION CORD

A 10 ft. extension cable with fused 12V cigarette lighter plug on one end to 12V socket with dust cover. 18 AWG wire with 2A fuse.
No. 48-485

WEATHER PROOF 12V SOCKET

SPECIFICATIONS:

* RATING: 20A-12V/24V DC

* MATERIAL:

Housing nylon with glass fiber(UL 94-HB).

Top contact: nickel plated spring brass.

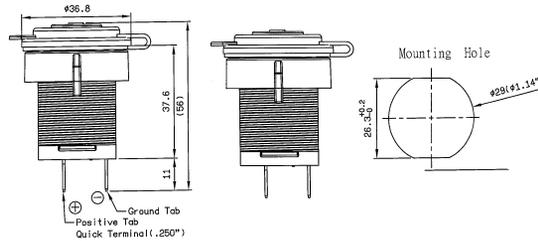

* Watertight sealing cap.

* 10A uses 18 AWG.

* 15A uses 16 AWG.

* 20A uses 12 AWG.

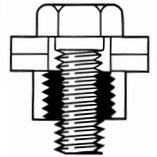

No. 48-782

THREAD LOCKERS

ANAEROBIC ADHESIVES/SEALANTS THREADLOCKING

The **TORQUE THREADLOCKING SERIES** represents state of the art anaerobic technology, with world class performance. The **TORQUE THREADLOCKING SERIES** is manufactured to provide specific viscosities, strengths, and cure speeds to meet any application requirement. These anaerobic resins prevent against vibration loosening, while locking and sealing threaded assemblies and metal parts. They have excellent resistance to extremely harsh environments. **TORQUE THREADLOCKING** products are used in a wide range of assembly applications: from delicate electronic devices to heavy industrial equipment. They distribute the load on a fastener over the entire engagement length of the assembly, greatly reducing or completely eliminating fastener and material fatigue. They protect threaded areas by preventing rust and corrosion. These products significantly reduce production cost while enhancing the reliability of the finished product.

TORQUE TL SERIES™
 Locks/seals threaded fasteners

Part No.	Description	Color	Viscosity	Breakaway Prevailing Torque	Temp Range	Cure Speed (FIXTURE/FULL)	Specific Gravity
50-8522	Low strength threadlocking. Ideal for small screws, 1/4" and smaller. Controlled lubricity for accurate clamp loading. Easy disassemble.	Purple	1,200 cps MT	75/50	-60 to 350°	10 Min/8 Hours	1.05
50-8542	General purpose, medium strength, removable, ideal for fastener 3/4" or smaller. Controlled lubricity, for accurate clamp loading.	Blue	1,200 cps MT	150/75	-60 to 350°	10 Min/8 Hours	1.07
50-8571	High strength, permanent threadlocking. Ideal for fasteners up to 1".	Red	500 cps MT	250/350	-60 to 350°	10 Min/8 Hours	1.12
50-8590	High strength, wicking grade. Ideal for post application to pre assembled fasteners. Penetrates threads by capillary action. Secures screws, bolts, seals welds, porous metal parts.	Green	12 cps LT	150/275	-60 to 350°	10 Min/8 Hours	1.08

NEW PRODUCTS 2012

CAT5 to AUDIO ADAPTORS

The growing popular use of CAT (category five) twisted-pair data cables in audio applications has created a need for adaptors that will facilitate using that popular cable type for connecting amplifiers, speakers etc. These adaptors are wired to provide a twisted pair for each (left and right) stereo signal. Connectors have on one end an RJ-45 female jack, the CAT5 twisted-pair standard, and standard audio connectors on the other ends. The left channel is fed to pins 1 & 3 and the right channel is on pair 6 & 2 of the RJ-45 connector. This popular application is often suggested as a method of reducing electromagnetic interference to susceptible audio systems, particularly when the cable lengths will be more than a few feet in length.

No. 70-027 - CAT5 to 3.5mm phone plug Adaptor (7" overall length)

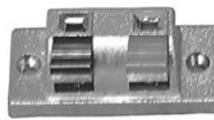

No. 70-037 - CAT5 to two RCA Male phone plugs (6.5" overall length)
Both adaptors are predominantly black in color.

STEREO "Y" ADAPTOR WITH IN-LINE VOLUME CONTROL

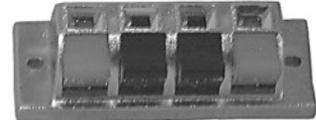

3.5mm Stereo Plug to (2) 3.5mm Stereo Jacks with 10" cords. Each 3.5mm stereo jack has in-line volume control to control audio output on each jack.
No. 70-039

NICKEL PLATED SPEAKERS TERMINAL WITH PUSH-IN CONNECTION

2 Position

4 Position

Bright Nickel plated body, solder terminal.

No. 45-1978 - 2 Position

No. 45-1979 - 4 Position

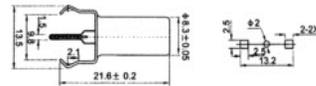

PCB MOUNT RCA JACK

Printed circuit board mount RCA Jack with Black and Red insulation.

No. 2103 - Black insulation, Package of 2

No. 2104 - Red insulation, Package of 2

No. 2105 - Package of 2, 1 Red & 1 Black Insulation

RIGHT ANGLE MINI EXTENSION CORD

A foot long of SJT16/3 Cord with Right Angle 3 Prong Plug on one end and Receptacle on the other. Use with wall outlet where space is limited between wall and equipment.

No. 48-127

TELEPHONE JACKS & ADAPTORS

MODULAR TELEPHONE CONNECTORS and ADAPTORS

These carefully made modular telephone products, all approved for use in domestic telephone systems, greatly expand the capabilities of existing phone installations. They provide for extension, creation of multiple outlets, basic modular installations, and conversion of old four-wire installations to modular.

All are available bulk packed as well. To specify bulk packed, please add suffix letter "B" to the part number.

DUAL ADAPTORS

Dual adaptor jack connects any two devices, in any combination desired, from a single standard modular outlet. Perfect for telephones, answering devices, or amplifiers. Wired reverse for telecommunications.

- No. TEC19 - Female to 2 Females - 4 Conductor - Ivory
- No. TEC29 - Male to 2 Females - 4 Conductor - Ivory
- No. 75-729 - Male to 2 Females - 4 Conductor - White
- No. TEC296 - Male to 2 Females - 6 Conductor - Ivory
- No. 75-6257 - Male to 2 Females - 6 Conductor - White
- No. TEC298 - Male to 2 Females - 8 Conductor - Ivory

MODULAR 'T' ADAPTOR, for DATA

One male to two female jacks. Wired straight thru for data applications. (Pin 1 to Pin 1)

- 6 Conductor
- No. 75-730 - Ivory
- 8 Conductor
- No. 75-732 - Ivory

THREE-WAY JACK

Adds two single-line phones (RJ11) to two-line telephone jack (RJ14). Also good for 3 phone devices to same line.

- No. TEC37 - 4 Conductor - Ivory  
- No. TEC37WH - 4 Conductor - White
- No. 75-6268 - 6 Conductor - IVORY

2 Line "T" Adaptor

This device plugs into 2 line wall jack and affords user Line 1, Line 2 or both Line 1 & Line 2 Female Jacks. On 6 conductor version (No. 75-6258) Plugs into 3 Line wall jack and gives Line 1 & Line 2, Line 2 & Line 3 and all 3 Lines.

- No. TEC73 - 4 Conductor
- No. 75-6258 - 6 Conductor

MODULAR EXTENSION COUPLERS

Modular cord extension coupler. Female modular jacks at either end allow two separate modular cords to be connected to form an extension. Wired reverse for telecommunications.

- No. TEC34 - 4 Conductor - Ivory
- No. TEC34V - 4 Conductor - White
- No. TEC55 - 6 Conductor - Ivory  
- No. 75-6262 - 6 Conductor - White
- No. TEC84 - 8 Conductor - Ivory
- No. TEC50 - 4 Conductor for Handset Plug - Ivory

MINI MODULAR EXTENSION COUPLER

Slim design Female coupler, almost half the size of TEC34.

- No. 75-725 - 4 Conductor - Black 

.57" W x 1" L

MODULAR INLINE COUPLER, for DATA

Wired straight thru for data applications. (Pin 1 to Pin 1)

- 6 Conductor
- No. 75-726 - Ivory
- 8 Conductor
- No. 75-728 - Ivory

SINGLE WALL-MOUNT JACK

Single wall-mount jacks converts a 4, 6 or 8-wire location to a modular telephone outlet. The mounting block is wired to the modular jack. It is necessary only to screw-mount the block and attach existing color-coded wire to the appropriately identified screw terminals. A convenient snap-on protective cover finishes the installation.

- No. TEC30 - 4 Conductor - Ivory
- No. TEC30V - 4 Conductor - White
- No. 75-3038 - 4 Conductor - Light Almond
- No. 75-3040 - 4 Conductor - Almond
- No. 75-3042 - 4 Conductor - Black

INSTALLER PACKS

- Box of 10 Jacks
- No. 76-028 - Ivory
- No. 76-030 - White
- No. 76-032 - Light Almond

- No. TEC66 - 6 Conductor - Ivory
- No. 75-6269 - 6 Conductor - White
- No. TEC88 - 8 Conductor - Ivory
- No. TEC89 - 8 Conductor w/ shorting bar RJ31X - Ivory

MINI SURFACE MOUNT JACK

Same as No. TEC30 (4 conductor) & No. TEC66 (6 conductor) but only 1-11/16" W x 2-1/4" L x 1" H. Available in White and Ivory.

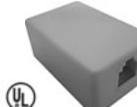

- 4 CONDUCTOR
- No. 75-266 Ivory
- No. 75-267 White

- 6 CONDUCTOR
- No. 75-6266 Ivory
- No. 75-6267 White

TINY SURFACE MOUNT JACK

A real space saver for surface mounting telephone jacks. The Philmore tiny jack is almost half the size of standard surface mount jacks. Mounting screws and 2 way adhesive foam tape are included. Color is Ivory and is UL listed.

1.25" W x 1.97" L

- No. 75-265 4 Conductor
- No. 75-6265 6 Conductor

SURFACE MOUNT MODULAR CONVERTER

To convert an existing 4-wire telephone mounting block to a modular outlet. A modular jack may also be created from running wire, but the No. TEC30 is recommended if there is no mounting terminal block.

- No. TEC33 - Ivory

DUAL WALL MOUNT JACK

Same design as No. TEC30 except two modular jacks are provided instead of one, so that more than one instrument or accessory may be served from a single location.

- No. TEC31 - 4 Conductor - Ivory  
- No. 75-311 - 4 Conductor - White

FOUR PRONG to MODULAR ADAPTOR

- No. TEC32 - Converts existing 4-prong jack for use with 4-wire modular plugs. Ivory.

MODULAR JACK REDUCER

Allows user to use telephone equipment equipped with handset plug (4P4C or 4P2C) with standard 4 conductor (6P4C) or 6 conductor (6P6C) modular jacks.

- No. TEC64 - Ivory (10 per package)

- From 8 Conductor (RJ45- 8P8C) to 4 and 6 Conductor (6P4C or 6P6C)
- No. TEC68 - Ivory (10 per package)

TELEPHONE TOOLS & TOOL KIT

FLUSH MOUNT OUTDOOR MODULAR TELEPHONE JACK

4 CONDUCTOR
 Flush-mount. Weatherproof RJ11/RJ14. Mounts in any standard electrical box. Mounting hardware provided.
No. TWP67

VOICE & DATA PLATE (6P6C / Top & 8P8C Keyed/Bottom)

6 conductor jack for voice and 8 conductor, keyed for data on the same flush mount wall plate.

No. TWP68 (Ivory)
No. 75-3682 (White)

PUNCH DOWN TOOLS

These tools are among the most popular tools in the installers caddy today. They are used in the installation of telephone systems, and computer networking all over the world. Philmore offers two (2) types of tools and several types of replacement blades. The most common is the impact tool which has a spring which forces the wire into the connector. With the non impact tool the same blades may be used, however, the power is provided by the installer.

Non-impact Tool

- No. 75-228** Non-impact for 110 Style (punch & cut)
- No. 75-229** Non-impact for 66/110 Style (punch only)
- No. TEC227** Non-impact for 66 style (punch & cut)

Impact Tool

- No. 75-238** Impact for 110 Style (punch & cut)
- No. 75-239** Impact for 66/110 Style (punch only)
- No. TEC230** Impact for 66 style (punch & cut)

REPLACEMENT BLADES

For Philmore Impact and Non-Impact Punchdown Tools

- Hardened SNCM-21 Steel • No Tools Required when changing • Interchangeable
- All Blades work for Nos. 75-228, 75-229, TEC227, 75-238, 75-239 and TEC230**

No. TEC231
 For 66 Type Terminating Blocks (Punch and Cut)

No. TEC232
 For 110 Type Terminating Blocks (Punch and Cut)

No. TEC233
 For 66 & 110 Type Terminating Blocks (Punch Function Only)

No. TEC234
 For 630A Type Modular Phone Jack (Punch and Cut)

TELEPHONE MODULAR PLUGS & CRIMPING TOOLS

PROFESSIONAL MODULAR CRIMPING TOOL

- No. **WS468** - Crimps 4-6-8 Conductor
- No. **WS446** - Crimps 4-6 Conductor & Handset Plugs
- No. **WSB4** - Replacement Cut & Strip Blade Set

This truly professional, durable crimping tool allows crimping of 4, 6, and 8 conductor (keyed or non keyed) modular plug. (No. WS468 will not work with handset plug - 4P4C) Tool allows cutting and stripping guides for the proper cable preparation. This crimping tool compares to other tools costing twice as much. The unique cam design of this tool gives straight down pressure on contacts to insure proper seating of contacts each time. Will give you thousands of trouble free connections.

10 CONDUCTOR CRIMPING TOOL

This quality, durable tool allows user to assemble 10 conductor modular plugs. The tool is equipped with separate cutter blades, stripping blades and plug crimping to allow complete job. No other tools required.

No. **WS210**

CRIMP MODULAR PLUGS The Professional Way

2-4-6 CONTACT

Heavy, soft plastic grip, with unbreakable steel body, enables professionally assembled telephone cables without fear of bad connections. Crimps all plug sections simultaneously for maximum reliability. Crimps 6 Position 2 Contact, 6 Position 4 Contact, and 6 Position 6 Contact modular plugs for telephone instruments.

Supplied with 10 modular plugs - 4 Contact

- No. **WS23**
- No. **WS23B** - Crimping Tool only - Bulk
- No. **WB23** - Replacement Blades (4) per Package

8 CONTACT

8 contact crimper for multiple telephone installations in commercial settings. Most useful where computer interconnecting is required.

Supplied with 10 modular plugs - 8 Contact

- No. **WS24**
- No. **WS24B** - Crimping Tool only - Bulk
- No. **WB23** - Replacement Blades (4) per Package

TELEPHONE MODULAR PLUGS

UL LISTED (UL 94V-0 Material)

With 50 micro inches of gold plating and UL94V-0 flame retardant plastic. For stranded Flat Modular Line Cord. Available in Bulk Only.

Plug to plug modular telephone cables are wired in two ways, as extension cords or as interconnect cords. Extension cords by definition advance the contact positions of the jack into which it is inserted. This means the color-coded wires run straight through, each color maintaining its physical position from one end of the cord to the other. Therefore, if the color blue is on the left looking into the plug, it will appear on the right at the other end. The interconnect cords are used when hooking up equipment whose jacks have been wired to standard color sequence. In most such devices, these color sequences are used for terminal identification and accurate wiring. In such cases, the same left to right color sequence must appear at both ends. This is accomplished by rotating the cable 180° before the second modular plug is attached.

CAUTION: There may be terminal color variations or errors in some types of equipment. Please verify terminal sequencing if possible before making interconnects.

TELEPHONE ACCESSORIES

INDUSTRIAL EXTENSION TELEPHONE BELL RINGER for Indoor / Outdoor Use

A weather-resistant bell loud enough to be heard in the noisiest factory or over extended distances outdoors, but has an adjustable loudness control that makes it ideal for a quiet patio or home. A real necessity for those with a hearing impairment.

This ringer can work in conjunction with your present phone ringer or independently, if so desired. Installation is simple, just use a 4-conductor extension cable (not supplied) with 4 contact modular plugs at both ends. Plug one end into the jack on the No. TEC49 ringer and the other into any modular jack on the line. If no spare jack is available, a dual adaptor, such as Philmore's No. TEC29, will enable it to share a jack with an existing telephone.

SPECIFICATIONS:

Sound Pressure Level: +95dB (excitation 20 Hz., 60 V, rms)

Minimum Operating Voltage: 40 Volts rms (20Hz) rated; average less than 40 volts.

Ringer Impedance: more than 8K ohms at 20 Hz.

No. TEC49
FCC Listed, REN 0.8A

TELEPHONE ACCESSORIES

TELEPHONE LINE JUNCTION BOX

A convenient, easy method of interfacing modular telephones to the system in the home without going through complicated wiring. Attachments are made at one to four color coded connecting points. A modular plug and 24" cable connects to the standard interface jack usually supplied by the telephone company.

No. TEC38 - Ivory

No. TEC38AB - Same as above without 24" cable, Ivory Bulk Packed Only.

5-WAY MODULAR OUTLET BOX

TELEPHONE • RECORDING DEVICE ANSWERING MACHINE EXTENSIONS

Connects up to 5 telephones or related equipment to an existing single modular jack. 4 Contacts.

Self-adhesive backing for convenient and easy installation, 6 ft. cable.

No. TEC39

MECHANICAL TELEPHONE RINGER

If it's inconvenient to have a phone in remote location but do not want to miss a call, this ringer "sounds off," enabling someone to pick up the nearest phone. A plastic enclosed ringer produces a loud noise like the older, standard telephones. In noisy areas, where an electronic bell isn't loud enough to be heard, this mechanical ringer assures important calls won't be missed. It also can be connected between the telephone and the wall plate if a ring louder than normal is required. When someone doesn't want to be bothered by a ring in remote areas, a built-in, "ON-OFF" switch is provided. Installation is easy and fast. Merely insert the plug into an existing modular jack.

No. TEC43

FCC Reg. No. CEP8EQ-15519-RG-N

Ringer Equivalence 0.5 amp

UNIVERSAL TELEPHONE PICK-UP COIL

Will pick up both sides of a telephone conversation for recording or amplification, on either the old type phone or the modern new type phones. Comes with rubber suction cup to enable easy attachment to any telephone receiver, securely. Complete with 5 ft. of shielded cable.

No. M81

TELEPHONE MODULAR JACK and LINE TESTER

Tester inserts into modular jack. Provides visual indication of the type and location of the phone line problem, fast detection of incorrect jack wiring. LED indicator light will indicate a reversed polarity or no contact.

No. 75-4650

MICROCASSETTE TAPE

60 minute microcassette tape for answering machines and microcassette recorders. This is a good quality tape that will give long service.

No. TEC98

TELEPHONE RECORDING CONTROL

Record all telephone calls automatically as soon as you pick up the receiver. When receiver is hung up, recorder stops. If recording is not desired, turn power switch to "OFF" position. Operation is quick and simple. Insert plugs into cassette recorder and modular plug into No. TEC29 dual adaptor jack and the telephone into the other adaptor jack. (Philmore's No. TEC29 is supplied.)

Its compact 2-1/2" x 2-1/2" x 1-1/4" size permits unobtrusive placement next to the phone.

FCC-Approved.

No. TEC36

DE-TANGLER

No more tangled telephone cords

NO TOOLS REQUIRED

You will never have another tangled telephone cord with the DE-TANGLER. Simply unplug your telephone cord from the handset and plug in the DE-TANGLER. It can be plugged into the telephone handset or into the telephone base. Fits all standard telephones with removable cords and attaches in seconds.

No. UT24

PHONE STROBE LIGHT FLASHER and BELL RINGER

This FCC registered unit will visually alert when phone rings. Works from phone line voltage. No batteries or external power source required. This device is excellent for:

- The hearing impaired
- In Noisy factory or shop environment
- When TV, radio or stereo are at high volume.

Easily installed on modular phones. Simply plug unit into phone wall jack and plug phone into strobe.

No. TEC48

TELEPHONE ACCESSORIES

PHONE LINE RF FILTER & ADSL FILTER

This device will eliminate hissing, humming, scratching, False rings and radio interference. It provides noise suppression and reduces electromagnetic interference. Ideal for cordless phones, answering machines, fax machines, data communication and modems. Also can be used as ADSL filter.

No. TEC200

ADSL FILTER

An ADSL Filter is a must if you have a digital subscriber line for your internet connections and use the same line for regular telephone communications. The ADSL Filter will prevent interference to your telephone and facsimile from the ADSL signals. It also prevents your fax and voice signals from interfering with the data moving in and out of your computer via the DSL connection.

No. 75-211

Dual Flush Mount Wall Plate With ADSL Filter

4 Conductor jacks, one jack for a regular phone line and second jack has a built - in DSL line filter. The ADSL filter jack will prevent interference to your telephone. Color is white.

No. 75-215

Modular Feed - Thru Jack

Female on each end and snaps into standard Keystone Type wall plate. May be used in line as a coupler as well. UL material, 50 micro inches of gold on contacts.

No. CAT5126 - 6 conductor (6P6C)

No. CAT5128 - 8 conductor (8P8C)

UNIVERSAL USB SWITCHING POWER SUPPLY

A 5V DC power supply for digital cameras, cellphones, battery chargers, GPS receivers, MP3, PDA, Apple devices and other devices requiring 5V DC power through USB ports. Use with Philmore (70-series) USB, Mini USB and Micro USB cables.

No. 48-1212 - 5V DC charger with 2 flat pin US plug

No. 48-1215 - 5V DC charger with interchangeable US, UK, Australia and Schuko plugs.

Features:

- * Short circuit protection.
- * Automatic thermal cut - off.
- * Automatic overload cut - off.
- * Interchangeable UK, Australia and Schuko (Europe) plugs (optional).

Specifications:

Input Voltage: 100 - 240V AC 60 Hz
Output Voltage: 5V DC
Maximum Current: 1,000 mA

WORLD WIDE USB CHARGER (USB Charger for Home / Auto)

An easy way to connect your USB powered devices anywhere in the world.

AC or DC to USB power adaptor, charges most USB powered devices from an AC outlet or from a DC outlet (cigarette lighter socket).

No. 48-1214 is compact size, perfect for home office or travel. It has a sturdy protective cap when cigarette lighter plug (DC input) is not used and foldable 2 flat pin when AC input is not used. Large blue glow indicator light when unit is in use (both AC & DC).

No. 48-1214

AC or DC, 5V DC USB Charger

Specifications:

Operation Voltage: 100 - 240V AC
47-63Hz 0.15A
12-24V DC 0.5A
Output Voltage: 5V DC
Maximum Current: 1,000 mA

Features:

- * Foldable input AC wall plug.
- * Cigarette lighter plug.
- * Jack for USB A Male plug.
- * Workable with AC or DC in one unit.

ECONOMY USB SWITCHING POWER SUPPLY

Jack accommodates USB A Male plug for powering or charging any USB device.

Specifications:

Input Voltage: 100 - 240V AC
Output Voltage: 5V DC
Maximum Current: 1,000 mA

No. 48-1209

5V DC charger with AC plug
Note: not compatible with Apple® products.

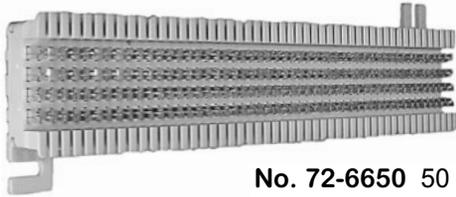

TELEPHONE "66" STYLE BLOCKS & ACCESSORIES

"66" Style Blocks

The Philmore "66" Blocks and accessories are fully compatible with all industry standards. These blocks have 100 contacts which are divided into 50 pairs. The spacing is CAT5 spacing. The "66" Block provides an economical solution for terminating our network cable. These blocks are used in Telephone installations as well as Networking installations.

Features

- 50 Rows of two pairs of connectors
- Allows quick and easy installation
- Uses "66" Style Punch-down Tool
- Dimensions: 10" H X 3.31" W X 1.18" D

No. 72-6650 50 Pair "66" Block

"66" Block Standoff Mounting Bracket

With these mounting brackets it is easy to make a clean, efficient, and space-saving installation. They are designed so that the installer may lay the cable before the block is snapped into position. The Philmore mounting bracket is compatible with all industry standard "66" blocks. They will accommodate one (1) 6650 block or two (2) 6625 blocks. These blocks conform to the industry's #89D standard.

Dimensions:
10" H X 3.40" W X 1.50" D

No. 72-6689 "66" Block Standoff Mounting Bracket

Heavy Duty 22 AWG Round Wire used for inside installation. Solid Conductors

Low Voltage Wall Plate Bracket

This bracket is designed for ALL Low Voltage applications. It fits into **NEW CONSTRUCTION** by attaching it to a stud, dry walling over the bracket, and then the wall plate is mounted on this bracket.

No. 72-4102B New Construction Low Voltage Bracket

BULK PACKED ONLY

"66" Block Bridging Clips

The clips press onto the center slots of the "66" Block and allow the left pair and the right pair to be connected together. Example; If you terminate the incoming station cable pairs on the left and the equipment wiring on the right hand pair, then by use of the bridging clip they are connected.

No. 72-6602 Bridging Clips (100 pk)

Wire Distribution Spools

These mushroom shaped plastic spools are used to facilitate the routing of wire and cable. They are used on cross connections, fanning cable. By using the proper screw they can be mounted to almost any surface including 19" Racks. They are constructed with high impact plastic. They are compatible with EIA/ TIA Industry Telecommunication #20A standards.

Dimensions:
3" High X 1.5" Diameter

No. 72-2231B Wire Spool without screw

Uses # 10 wood screw.

BULK PACKED ONLY

Designation Strips

These designation strips mount easily and quickly to any "66" Block and provide a place to mark the usage of the pair(s) involved. They are constructed of durable plastic with painted lines between the rows. They are usually purchased in pairs.

No. 72-6610 White lined designation strip.

Retrofit Low Voltage Wall Plate Bracket

This bracket is designed for ALL Low Voltage applications. It fits into **EXISTING CONSTRUCTION** by cutting a hole in the wall and bending the tabs securing the bracket. Then the wall plate is mounted on this bracket.

No. 72-4100B Retrofit Bracket

BULK PACKED ONLY

Dimensions = 7.0" X 19" (4 RMS)

RMS units are the Rack Mounting System Units. Each unit is 1.75" wide

CAT3 Voice Grade Jacks

These jacks are used to connect Telephone systems, FAX machines and other voice grade equipment to your premise wiring system. They will fit a standard keystone cutout (.58" X .76") which is compatible with AMP, Hubbell, Kron, ICC & others. The Jacks accept 22-26 AWG solid or stranded cable.

6 conductor CAT3 Jacks
(fits 4c & 6c)

- No. 72-3060** 6c Black
- No. 72-3061** 6c Ivory
- No. 72-3069** 6c White

110 TYPE ECONOMY PUNCHDOWN TOOL

A very low cost plastic tool for light use. OK for the casual user.

No. CAT5400

Keystone Jack Shield

The optional shield is used where there is a high noise area and shielded cable (STP) is necessary. The two piece unit snaps around the jack once the cable has been attached and the jack is in location.

No. CAT5110
Metal Shield

S-VHS Feed Thru Jack

This 4 pin Mini-Din Female coupler is designed to snap into the standard keystone cutout (.58" x .76"). It allows you to run Home Theater cable through the home easily.

No. 70-478
MD4 (F) / (F)

CATEGORY 5 FEED THRU JACK

These CAT5e jacks are fully compliant with EIA/TIA 568 A & B and TSB40A specifications. They can be snapped into standard, Keystone opening (.58" X .76"). They have a RJ45 8 conductor jack on each end which are offset at 90°.

No. 70-5128

Voice Grade Feed Thru Jack

Female on each end and snaps into standard Keystone Type wall plate. May be used in line as a coupler as well. UL material, 50 micro inches of gold on contacts.

- No. CAT5126** - 6 conductor (6P6C)
- No. CAT5128** - 8 conductor (8P8C)

CAT5e In - Line Coupler

RJ45 (8 conductor) jack on both ends. Allow two separate CAT5e patch cords to form an extension. It is fully compliant with CAT5e specifications, color is white.

No. 72-5588

180° CAT5e 110 Style Jacks

These keystone jacks are designed for high speed data requirements and meet EIA/TIA 568A & B and TSB40A specifications. They are constructed of UL 94V0 plastic and have 50 micro inches of GOLD on the contacts. With 180° jacks the contacts are at right angle to the front of the jack.

Features
50 Micro Inches GOLD
Uses 110 Style Punch Down Tool
Passes frequencies up to 350 MHz
Accepts 22-26 AWG Solid Cable

- No. 72-5500** 8c Black
- No. 72-5501** 8c Ivory
- No. 72-5509** 8c White

Tool-less CAT5e Jacks

These CAT5e jacks are simple and convenient to install. There is no need for a punch-down tool. The hinged cover (when snapped down) forces the wire into the contact, completing the connection. These jacks are tested and verified to meet the EIA/TIA 568A & B and TSB40A specifications. They are backward compatible to CAT4 & CAT3 equipment. The jacks are constructed to accept 22-26 AWG cable and are of enhanced PCB construction.

- No. 72-5070** 8c Black
- No. 72-5071** 8c Ivory
- No. 72-5075** 8c Blue
- No. 72-5079** 8c White

90° CAT5e 110 Style Jacks

These jacks are enhanced CAT5 jacks with a bandwidth of up to 350 MHz. They meet EIA/TIA 568A & B and TSB40A specifications. They are constructed of UL 94V0 plastic and have 50 micro inches of GOLD on the contacts. With 90° jacks the contacts are in-line (horizontal) with the front of the jack. They are backward compatible to CAT4 & CAT3 equipment.

Features
50 Micro Inches GOLD
UL Listed
Uses 110 Punch-down Tool
Accepts 22-26 AWG Solid Cable
No. 72-5580 8c Black
No. 72-5581 8c Ivory
No. 72-5589 8c White

CATEGORY 5 - NETWORKING PRODUCTS

CAT5e LAN Cables

Our cables are made of stranded CAT5e cable using a RJ45 UL Listed Modular plug on each end with 50 micro" GOLD and a snag-free boot. All cables have been tested and verified to meet the EIA/TIA standards. These cables are wired to meet the WESCO, AT&T 258A and EIA/TIA 568B specifications. The Applications include 10Base-T and Token Ring Networks. The cable is 24 AWG 4 pair UTP (Unshielded Twisted Pair). These cables are available in both packaged and bulk put-ups.

COAX BALUNS (93 ohm)

These baluns, or adaptors provide a fast way to use twisted pair telephone wire in place of coax cable. BNC on one end to both screw terminals and RJ11 telephone jacks.

No. 70-5002 BNC Male / RJ11

No. 70-5004 BNC Female / RJ11

COMPUTER - IEEE 1394 & LAN CABLES

LAN CABLE ASSEMBLIES for ETHERNET

BNC Connectors each end

Philmore LAN cables are manufactured using fine quality RG58A/U (50ohm) coaxial cable, which employs a stranded center conductor for increased durability.

- No. 70-5801 - RG58A/U BNC (M)/(M) - 18 inch
- No. 70-5800 - RG58A/U BNC (M)/(M) - 3 ft.
- No. 70-5802 - RG58A/U BNC (M)/(M) - 6 ft.
- No. 70-5803 - RG58A/U BNC (M)/(M) - 12 ft.
- No. 70-5804 - RG58A/U BNC (M)/(M) - 25 ft.
- No. 70-5806 - RG58A/U BNC (M)/(M) - 50 ft.
- No. 70-5808 - RG58A/U BNC (M)/(M) - 100 ft.

LAN CABLE ASSEMBLIES for ARCNET

BNC Connectors each end

This is standard cable used in networks supporting Novell and LANtastic. RG62/U (93 ohm) coaxial cable with BNC connectors each end.

- No. 70-5850 - RG62/U BNC (M)/(M) - 3 ft.
- No. 70-5852 - RG62/U BNC (M)/(M) - 6 ft.
- No. 70-5853 - RG62/U BNC (M)/(M) - 12 ft.
- No. 70-5854 - RG62/U BNC (M)/(M) - 25 ft.
- No. 70-5856 - RG62/U BNC (M)/(M) - 50 ft.
- No. 70-5858 - RG62/U BNC (M)/(M) - 100 ft.

PHILMORE FIREPIPE IEEE 1394 Cables

Cables for very fast IEEE 1394 (Firewire™) standard, used primarily for Video and Graphics. This system is the fastest one at this time. It was designed by Apple Computer and Sony. These cables are made from the highest quality materials and connectors. The six pin and four pin cables comply with the standard for data rated 400 Mbps and above. The maximum length to a single peripheral is suggested to be 15' (4.5 meters) but daisy-chains can be longer as data is buffered and than passed on FIFO (first in-first out).

Features	
GOLD Plated Contacts	
Cable Size: 24-22, 28-30	
6 Pin is for PC Device	
4 Pin for Audio/Video Device	
Power contacts mate before data	
Long Lasting 1500 Duty cycle minimum	
Positive Latching	
Isochronous Data Transfer	
Compressed and Uncompressed Video Support	
High Performance Data Transfers 400 Mbps

- No. 70-1515 - 4c (M)/(M) 15'

MINI COAX, VIDEO & CCTV CABLES

A quality feel in a 75 Ohm cable which features a standard pure Copper center conductor and a 93% precisely woven braid coverage (equal to 100% shield). Cable O.D. is only 0.150", our Super-flex outer jacket is tough but supple and will last a lifetime. For use with virtually all consumer or broadcast video equipment. RoHS compliant.

No. 70-318 HD15 (F) / (F)

36 Pin Centronics Gender Changer

This fully shielded unit provides the ability to connect 2 male ends of a parallel printer cable together. All lines are wired straight thru. All contacts GOLD plated.

No. C114 CEN36 (F) / (F)

VGA Monitor Adaptors

These adaptors are used to adapt S-VGA cables to EGA, CGA, and VGA monitors. They will not adapt a VGA monitor to an older computer. This requires a new video controller card.

These adaptors are molded and fully shielded.

No. 70-090 DB9 (M) / HD15 (F)

No. 70-092 DB9 (F) / HD15 (M)

No. 70-094 DB9 (F) / HD15 (F)

No. 70-096 DB9 (M) / HD15 (M)

NULL Modem Adaptors

These adaptors are included to help you connect DCE (Data Communication Equipment) and DTE (Data Transmit Equipment) together. There are several popular types with special pin configurations available. Philmore has included the most popular ones for your convenience.

No. C140 Standard NULL Modem

Male to Female DB25 Connectors

This is the most common adaptor.

No. C141 No Handshake NULL Modem

Male to Female DB25 Connectors.

This device is used where No handshake is needed.

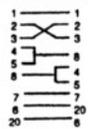

No. C142 Full Handshake Null Modem

Male to Female DB25 Connectors.

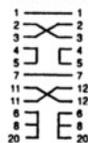

This device is used where a Full Handshake connection is needed.

COMPUTER DATA SWITCHES, MAINTENANCE PRODUCTS

DATA Switches

Data switches are a necessity for computer users when sharing modems, printers, computers or other peripheral devices. The switches are intended to be used for low current data connections. The connections are wired to all pins and in most cases straight through. The "X" switch is the exception to the straight through wiring because it is cross wired. The Philmore Data Switches are constructed with high quality components and are fully shielded. They are available in both Automatic and Manual models in both 2-way and 4-way models.

Manual RS232 Switches

No. DSS-252 2-Way (A/B) w/ (3) DB25 (F) Connectors **No. DSS-254** 4-Way (A/B/C/D) (5) DB25 (F) Connectors

No. DSS-25X Cross Switch (4) DB25 (F) Connectors **No. DSS-094** 4-Way (A/B/C/D) (5) DB9 (F) Connectors

Keyboard & Monitor Switches

These switches allow the user to use multiple keyboards & monitors with a single CPU.

No. 70-7155 2-Way (A/B) AT Style D5 (F) + HD15 (F) **No. 70-7156** 2-Way (A/B) PS/2 Style MD6 (F) + HD15 (F)

No. 70-7455 4-Way (A/B/C/D) AT Style D5(F) + HD15(F)

Manual KVM (keyboard-monitor-mouse) Switches

These KVM switches are fully shielded and use a high quality make before break switch. The connectors are color coded and marked with a symbol for easy user identification.

No. 70-7220 2-Way (A/B) HD15 (F) + 2 MD6 (F) **No. 70-7240** 4-Way (A/B/C/D) HD15 (F) + 2 MD6 (F)

ESD Wrist Strap

Protection against Static Discharge

For the discharge of Electrostatic Voltage from the Human Body during assembly, repair, or service of sensitive components. Never work on a computerized system without one. The unit has an adjustable strap which can fit any wrist. An internal resistor is incorporated within the device to insure that the harmful charges are bled away safely. The retractable (coiled) cord extends to a maximum of 6' to permit plenty of freedom to the user.

No. ICP

Anti-Static Mats

This is a conductive mat designed to disperse static charges away from any equipment placed on it from the person touching the mat. It is constructed of flexible conductive rubber that may be rolled for carrying or storage. The mat was designed to be large enough to fit under a PC or other ESD sensitive electronic circuits. The unit is equipped with a grounding strap (retractable coiled cord) 6' long.

No. 70-3150 23.5" X 19.5" + 6' Grounding cable

No. 70-3154 23.6" X 47.2" + 6' Grounding cable

Diskette Drive Cleaner

This Wet /Dry cleaner provides the user with proper cleaning capability to assure the proper maintenance of their 3.5" disk drives. Cleans the read / write heads thoroughly. Saves on costly repairs and extends the life of the heads and disks.

No. 70-035
3.5" Cleaning Kit

Mouse Pads

These mouse pads reduce friction, dust, and improve tracking of mice which improve the speed and efficiency of a mouse. Each is 10-5/8" X 8-9/16" X 1/4" and is backed with conductive foam rubber.

No. 70-3220 Blue
No. 70-3230 Red
No. 70-3240 Beige

COMPUTER STANDARD COMPUTER CABLES

RS232 CABLES

Philmore RS232 (recommended standard 232 established by TIA/EIA) cables meet or exceed the industry standards and are suitable for commercial and personal use. They are constructed with 28 AWG stranded cable and fully shielded. The PVC jacket is molded to the connector with a built-in strain relief. The contact points are GOLD plated to resist oxidation. All Cables are wired straight through.

DB9 Cables

- No. C190 DB9 (M) / (F) 3'

- No. 70-2560 DB25 (M) / (M) 100'

NULL Modem Cables

These cables are wired especially for the connection of two communication devices such as DCE & DTE in order for them to communicate to each other. The Windows95 Rev. II had an inexpensive small network program using DB9 NULL Modem cables.

- No. 70-176 DB9 (F) / (F) 6'
- No. 70-179 DB9 (F) / (F) 10'

AC POWER CONVERTER CORD

A short AC cord that connects to the monitor AC jack on the back of a PC to provide a standard, 3 prong socket (NEMA 5-15S) on one end and a shrouded male plug on the other.

- No. 70-256 AC Female / Shrouded Male 1'

RIGHT ANGLE AC POWER CORD

These power cords are ideal for flat screen TV installation where space is limited. Molded right angle is 3 prong plug on one end and right angle molded IEC type 3 prong female receptacle on other end. They are UL listed and constructed of SJT type 18 AWG cable. They are available in 4 lengths, color is black.

- No. 70-249 - 1.5 Ft.
- No. 70-250 - 3 Ft.
- No. 70-252 - 6 Ft.
- No. 70-255 - 12 Ft.

AC POWER CORD

These power cords are the most common power cord used on computers, copiers, and other office machines in the U.S. today. They consist of a molded 3 prong female receptacle on one end and a NEMA plug on the other end. They are UL listed and constructed of 18AWG cable which is rated at 13A.

- No. C250 NEMA 5-15P / Molded Female 6'
- No. C252 NEMA 5-15P / RT Angle Molded Female 6'
- No. 70-251 NEMA 5-15P / Molded Female 12'

AC POWER EXTENSION CORD

For IBM & MAC computers. This cord is widely used for extending a standard computer power cord or hooking a monitor into your computer. They are constructed with a shrouded 3 prong male on one end and a molded female receptacle on the other. UL Listed. 250V Rating.

- No. 70-254 Shrouded (M) / Molded (F) 6'
- No. 70-260 Shrouded (M) / Molded (F) 10'

Internal Power "Y" Adaptor

These cables are extremely important when you are installing a new peripheral device such as a DVD, CDR Drive, Zip Drive or other such devices. They allow you to plug into an existing cable and hook an additional device to the same power supply. 18 AWG cable.

- No. 70-5293 Power "Y", 5.25" (M) / (2) 3.5" (F) 8"

Drive Power Cables

These cables connect the power to the 5.25" & 3.5" disk drives. They have 4 pin connectors.

- No. 70-5290 5.25" (M) - (2) 5.25" (F)
- No. 70-5295 5.25"(M) - 3.5" (F)

COMPUTER KEYBOARD & MONITOR CABLES & ADAPTORS

KEYBOARD & MOUSE CABLES

These cables allow the user to move the keyboard and mouse further from the CPU to make the environment more efficient for the operator. They are available in two basic configurations. With 5 PIN DIN connector which is used with IBM-AT and compatible computers, and a Mini-DIN 6 connector which is used on IBM/PS2 style computers. The Mini-Din (MD6) connector is about half the size of the DIN (D5) connector.

DIN (D5) Style Cables

- No. C160 D5 (M) / (F) Coiled 6'
- No. 70-162 D5 (M) / (F) Straight 6'
- No. 70-164 D5 (M) / (F) Straight 10'
- No. 70-163 D5 (M) / (M) Straight 6'

Mini-Din (MD6) Style Cables

- No. 70-5030 MD6 (M) / (F) 6'
- No. 70-5032 MD6 (M) / (F) 10'
- No. 70-5036 MD6 (M) / (F) 25'
- No. 70-5131 MD6 (M) / (M) 6'
- No. 70-5034 MD6 (M) / (M) 10'

KVM (keyboard-monitor-mouse) Cables

These cables are especially designed to work with the KVM switches, however, they work equally well with independent computer hookups. They have a high density 15 pin connector for the VGA monitor with (3) mini RGB coaxial cables and 9 drive cables, (2) PS2 cables for the keyboard and mouse.

Features

- >Super VGA HD15 cable w/ ferrite core
- >RGB Cable w/ (3+9) wiring
- >(2) PS2 Cables with MD6 connectors on each end
- >Color coded connectors for easy identification

- No. 70-5406 KVM Cable, HD15 (M)/(M) + (2)MD6 (M)/(M), 6'
- No. 70-5410 KVM Cable, HD15 (M)/(M) + (2)MD6 (M)/(M), 10'
- No. 70-5446 KVM Cable, HD15 (M)/(F) + (2)MD6 (M)/(F), 6'
- No. 70-5450 KVM Cable, HD15 (M)/(F) + (2)MD6 (M)/(F), 10'

KEYBOARD & MOUSE ADAPTORS

With these adaptors you can use an AT style keyboard & mouse with a PS/2 style computer and vice / versa depending on your needs. Allows the user to upgrade their computer or use a device which they are more comfortable with on their current system.

- No. 70-5040 MD6 (M) / D5 (F) 6" Flex Cord
- No. 70-5045 MD6 (F) / D5 (M) 6" Flex Cord
- No. 70-5055 Universal D5 (M) + (F) / MD6 (M) + (F) 1'

IBM-PS/2 to DB9 Mouse Adaptor

This adaptor permits a Microsoft or compatible mouse to be used on a PS/2 PC. The adaptor has a DB9 male connector on one end and a MD6 male on the other and is molded.

- No. 70-5070 DB9 (M) / MD6 (M)

Microsoft Mouse Adaptor

Adapt Microsoft compatible mice to a serial computer port. It has a DB9 female connector on one end and a DB25 male connector on the other.

- No. 70-5060 DB9 (M) / DB25 (F)

RGB Monitor Cables

These monitor cables especially designed for use with RGB Monitors, LAB equipment, or other devices that use separate RED, GREEN, & BLUE screen drive inputs for your color monitor. Philmore's cables are double shielded with a ferrite bead to give the user added RF shielding which is especially critical in Medical applications.

Specifications:
Mini-coax cables used with BNC's
Double shielded Mylar + Braided Shield
Super flexible PVC Outer Jacket
Ferrite Bead molded onto cable

- No. 70-5523 RGB Cable HD15 (M) / (5) BNC (M) 6'
- No. 70-5527 RGB Cable HD15 (M) / (5) BNC (M) 10'
- No. 70-5529 RGB Cable HD15 (M) / (5) BNC (M) 25'

Double shielded, triple coax designed especially for Hi - Resolution monitors, long cable runs, high speed data transfer and high noise areas. Provides superior EMI interference protection by using ferrite cores on each end of cable, near the connector. Molded HD15 (High Density 15 pin D-sub) connectors, cables are UL & CL2 rated for in-wall installation.

S-VGA Cable

S-VGA + Audio Cable
(3.5mm Stereo Male - Male)

COMPUTER - SPECIALTY CABLES & ADAPTORS

SPECIAL MAC CABLES

Apple is the leader in print media. For that reason Philmore offers some of the most popular MAC cables for your convenience.

Imagewriter Cable

These Mini-Din 8 pin male to male cables are for connecting the MAC+IIGS (etc.) to the ImagewriterII printer or the LQ Personal Modem.

- No. 70-336 MD8 (M) / (M) 6'
- No. 70-338 MD8 (M) / (M) 12'

Universal MAC Cables

These Mini-Din 8 pin cables are wired straight through and may be used between Data switch boxes and some peripherals. Philmore offers both male to male and male to female for easy extending.

- No. 70-340 MD8 (M) / (F) 6'
- No. 70-342 MD8 (M) / (F) 12'
- No. 70-341 MD8 (M) / (M) 6'
- No. 70-343 MD8 (M) / (M) 12'

Right Angle S-VHS Cables For Notebook

Right Angle S-VHS Male on both Ends
No. 44-447 - 6 FT

Stereo & Right Angle S-VHS dubbing cables (3.5 mm stereo Male - MD4 male/S-VHS)

- No. 44-448 - 6 FT

"Y" Adaptors

These cables are constructed to allow you to use two monitors, keyboards, mice and trackball or any other I/O device without disconnecting the other.

No. 70-568 Monitor "Y"
HD15 (M) / (2) HD15(F) 6"

No. 70-569 Keyboard "Y"
MD6 (M) / (2) MD6 (F) 6"

IBM PC / AT Modem Cables

These cables have a DB25 male connector on one end and a DB9 female on the other. They are wired specifically for modem connection. They allow you to use a standard serial cable to connect your modem.

- No. C165 DB25 (M) / DB9 (F) 3'
- No. 70-167 DB25 (M) / DB9 (F) 6'
- No. 70-169 DB25 (M) / DB9 (F) 10'

Monitor Cables

These cables are used with monitors requiring an HD15 Cable.

- No. 70-5020 HD15 (M) / (F) 6'
- No. 70-5022 HD15 (M) / (F) 10'
- No. 70-5024 HD15 (M) / (M) 6'
- No. 70-5026 HD15 (M) / (M) 10'

For COMPUTER USE.... MULTI media Headsets with microphones.

Two headsets are available for use at the computer, the major difference being that one has a single earpiece and the other is a stereo unit.

Foam ear pads allow some outside sound to enter so that you will be able to hear a telephone and other office sounds. A comfortable fit will permit long hours of use. Both units are supplied with two plugs, one for the microphone and the other for the earphone(s).

Standard 42" length cables on both units. Earpiece impedance 32 ohms, microphones are a standard high impedance for use with computer sound cards

No.	Model Name	Driver Magnet	Sensitivity	Notes
71-1891	Business	Cobalt	100 db	Monaural
71-1892	MultiMedia	Cobalt	100 db	Stereo

Mini-Din Adaptors

These mini-din adaptors are designed to allow you to couple two similar cables in order to extend the length. Philmore offers these items in several configurations for use with Computers, Audio Equipment, Video Equipment, etc.

- No. VHS4 MD4 (F) / (F)
- No. 70-348 MD6 (F) / (F)
- No. 70-344 MD8 (F) / (F)

COMPUTER MICE & ADAPTORS

High Resolution Wireless RF Mouse

State of the art mouse is great for those who have limited desk top room or hate the wire that limits your mobility. It is compatible with Windows 95/98/2000/ NT / Me. and comes complete with software. The receiver connects at the PS2 port for easy installation.

No. 70-3218 RF Wireless Mouse 800dpi

Features

- >Reliable RF radio technology design
- >Two separate operating channels in 27MHz band. FCC compliant
- >High-Resolution 800dpi.
- >Operating distance 5ft. (1.5M) minimum.
- >Ergonomically designed to fit hand.
- >Two Buttons + Scroll wheel
- >Requires (2) AAA batteries (included)

High Resolution Wireless IR (infrared ray) Mouse

State of the art mouse is great for those who have limited desk top room or hate the wire that limits mobility. It is compatible with Windows 95/98/2000/ NT / Me. and comes complete with software. The receiver connects at the PS2 port for easy installation.

No. 70-3216 IR Wireless Mouse 520dpi

Features

- >Reliable IR infrared technology design
- >High-Resolution 520dpi.
- >Operating distance 8ft. (2.5M) minimum.
- >Ergonomically designed to fit hand.
- >Two Buttons + Scroll wheel
- >Requires (2) AAA batteries (included)

IEEE1284 PRINTER CABLES

These cables are fully HP1284 compliant and meet industry standards. They are compatible with most printers, scanners, and Bi-tronic switch boxes, and are recommended for ALL Ink Jet and Laser Jet Printers.

18 Twisted Pairs w/ >35 Twists/ft.
Double Shielded w/ Heavy Duty Mylar Foil & Braid
28 AWG w/ Stranded Conductors

Standard Printer Cable

- No. 70-1206 DB25 (M) / CEN36 (M) 6'
- No. 70-1210 DB25 (M) / CEN36 (M) 10'
- No. 70-1225 DB25 (M) / CEN36 (M) 25'
- No. 70-1250 DB25 (M) / CEN36 (M) 50'

PORT RECONFIGURATION KIT

This kit provides a simple way to either reconfigure to compensate for non-standard wiring or to customize and add additional components such as surge protection. There is no continuity from one end to the other without wiring the jumpers to the device.

No. C125 DB25 (M) / (F)

WIRING ADAPTOR BREAKOUT BOX

This device allows you to wire the DB25 connector to your PC through the use of the internal printed circuit board and included jumper wires. The unit is reusable and requires NO soldering.

No. C130 DB25 (M) / (F)

RS232 TESTER DEVICE

This handy item allows quick checking of data signals. Seven LED's monitor the status of the standard RS232 lines to determine if the trouble is emanating from the equipment or the cable.

No. C120 DB25 (M) / (F)

COMPUTER MULTIMEDIA

MULTIMEDIA MICROPHONE Goose Neck with Stand

Here is a convenient microphone for the computer user. Mounted on a small, self adhesive stand, the microphone can be pushed out of the way during periods of non-use, pulled toward you for speaking. The gooseneck mounting permits adjustment to allow for different height users as well. The cord has a standard 3.5mm stereo plug.

Specifications:

Frequency Response: 50Hz to 13KHz

Sensitivity: 58db +/- 2db

Operating Range: 1.0 to 10 volts, standard = 3 volts

S/N Ratio: 40db

No. 70-020 - Microphone complete with stand and 4.5 ft. cable.

MULTIMEDIA MICROPHONE and HEADSET COMBINATION

This combination permits hands-free conversations over the Internet or an Intranet. A sensitive microphone with a quality headset will allow you undistorted communications. Balanced nicely for weight distribution and comfort. The unit is supplied complete with cable and connectors standard for use with today's PC's sound cards. Volume control.

Specifications:

Microphone

Freq. Response: 20-18,000Hz

Impedance: 32 ohm

Sensitivity: 101db +/- 2db

Max. Power Input: 100mW

Headphone

20-16,000KHz

24 ohm

0.4 mA

No. 70-025 - Microphone complete with 5.5 ft. cable.

MediaStar™ Audio/Multimedia Cables from Philmore

Simply a better cable for conventional Audio and for the Audio equipment used with Personal Computers. We are receiving better audio reproduction from practically all equipment today, ranging from your personal CD player to the Multimedia Speakers connected to your Personal Computer. Interconnecting these components with cables that are just as capable as your equipment assures that you receive full value and pleasure from your equipment.

Philmore **MediaStar™** cables employ better materials throughout. Pure copper conductors receive a refined tin plating to prevent chemical degradation which commonly begins to occur to raw copper within months of manufacture. This plating assures true fidelity without losses in the mid and high audio ranges for years. The inner cable is heavier than most (26ga. vs 28ga.) to reduce electrical resistance; shielding has also been increased. The outer PVC insulation is advanced (SRPVC) material that will increase life and durability by years. And the light grey color blends practically unnoticed into your home or office. Cable assemblies are molded for toughness.

MediaStar™ cables may be used with complete confidence for your Personal Computer's multimedia system, your personal stereo or your home audio system.

MediaStar™ Monaural Cable

3.5mm mono miniplug on each end. Use between powered and slave multimedia speakers, input from tape player or radio to auxiliary jack etc. Color: Multimedia grey

No. 70-001 - 3 ft. Length

No. 70-002 - 6 ft. Length

MediaStar™ Stereo Extension Cable

A stereo 3.5mm plug on one end, to a stereo 3.5mm jack on the other. May be used wherever you need a longer cable between PC multimedia speakers, CD and sound card inputs, or simply your Walkman and amplified speakers. Color: Multimedia grey

No. 70-008 - 3 ft. Length

No. 70-009 - 6 ft. Length

No. 70-012 - 12 ft. Length

No. 70-016 - 25 ft. Length

MediaStar™ Stereo CD Cable

These adaptors are simply very short cables, 3.5mm stereo plugs on each end. They are intended for use when connecting a CD with a PC multimedia sound card. May also be used where a long cable is not necessary or inconvenient. Color: Multimedia grey

No. 70-003 - 6" Length

No. 70-004 - 1 ft. Length

MediaStar™ Stereo Cable

3.5mm stereo miniplug on each end. Use between subwoofer and powered stereo pair in PC multimedia. Use between personal CD player and multimedia or other powered speakers. Connect to auxiliary input on multimedia speakers system from FM stereo radio or CD player; many other uses. Color: Multimedia grey

No. 70-005 - 3 ft. Length

No. 70-006 - 6 ft. Length

No. 70-007 - 12 ft. Length

No. 70-018 - 25 ft. Length

MediaStar™ Stereo "Y" Adaptor

One 3.5mm stereo plug to two 3.5mm stereo jacks. Used in several brands of PC multimedia speaker systems to split right and left outputs. May be used for two sets of headphones for personal stereo or CD player etc. Color: Multimedia Grey

No. 70-010 - 6" Length

MediaStar™ Stereo "Y" Adaptor

One 3.5mm stereo plug to two RCA males. Used by some makes of PC multimedia speakers to split left from right. May be used to connect an amplifier to personal stereo or CD player etc. Color: Multimedia Grey

No. 70-011 - 6 ft. Length

No. 70-019 - 12 ft. Length

ROLL - UP COMPUTER CABLES

ROAD WARRIOR'S

Pocket COMPUTER CABLES

Store perfectly for travel or just occasional use. Philmore Roll-Up Cables extend easily for use and retract perfectly for easy-to-carry storage in your laptop carry-on case. Roll-Up Cables will also extend just as much as needed, keeping excess wire out of your way. Blister card packaging.

USB CABLES & ADAPTORS

USB 2.0 Cables

These cables are to be used with USB devices. They are four conductor cables with two different size of connectors. USB "A" connector is a rectangular connector and somewhat larger than the USB "B" connector which is more square in design. Both are available in male and female versions. The "A" connector is usually used where the connection is to be more permanently connected, where as the "B" connector is used where the peripheral may be plugged and unplugged frequently.

USB "A" / "A" Cables (Male - Male)

- No. 70-8113 "A" / "A" 3'
- No. 70-8116 "A" / "A" 6'
- No. 70-8110 "A" / "A" 10'
- No. 70-8115 "A" / "A" 15'

- No. 70-8123 "A" / "B" 3'
- No. 70-8126 "A" / "B" 6'
- No. 70-8120 "A" / "B" 10'
- No. 70-8135 "A" / "B" 15'

USB Extension Cable

No. 70-8136 - USB "A" Male - USB "A" Female 6 Ft.

USB Dual Port Adaptor

With this dual receptacle bracket you can update your computer to enable the use of USB peripherals. You must have Windows '95 Rev. B or later. The device is equipped with two (2) USB "A" Female receptacles with leads which can be plugged onto the computers motherboard.

No. 70-8405

USB 2.0 HUB

The HUB makes connections of a series of USB devices "Downstream" (away from the computer or controlling device) much easier. There is one (1) USB "B" receptacle Upstream (to connect toward the computer or controller) and four (4) USB "A" receptacles for down stream devices. With the use of this HUB you can connect more USB peripherals without needing more ports on the computer. The tiered star topology supports up to 6 tiers and 127 USB devices.

Features

- USB Revision 1.1 Compliant
- Tiered Topology
- Supports up to 127 Devices
- LED Activity lights
- Power LED Light
- Support full speed 12Mbps & Low-speed 1.5Mbps

No. 70-8804

Economy USB 2.0 Hub

Pocket size USB Four Port Hub

No. 70-8805

USB 2.0 PCI Controller Card

This is a complete controller Card for USB devices. It is designed to be plugged into the PCI slot on your motherboard. This allows you to upgrade your computer and provides you with two (2) USB ports. You can use any USB device such as keyboards, mice, scanners, and digital cameras.

Features

- Universal Serial Bus Interface
- Dual USB Port
- Intel UHCI (Universal Host Controller Interface)
- Normal & Low Power Operating Mode
- PCI Interface
- Fully Plug & Play Compatible
- Both MAC & PC Compatible

No. 70-8402

Mini USB 2.0 Cables & Adaptors

Mini USB version 2.0 cables for connecting hundreds of cameras, personal music MP3 players etc. All connector shells are nickel plated.

Part No.

Description

- No. 70-8023 - Mini USB 2.0 4-pin Male to USB type B Male, 3 ft. cable

USB 2.0 Video Adaptor

This USB Video adaptor is the ideal video capture device. It has both S-Video connector and RCA connector and is a bridge between PC and analog cameras, VCR's and Camcorders. It captures both still and full motion video.

Features

- Video Input 1 RCA , 1 S-Video
- Snap shot mode: 640 X 480 pixels
- 30fps @ CIF size (352 X 288 pixels)
- Converts analog Video to AVI file
- USB 1.0 Compliant
- Supports both NTSC & PAL systems
- Supports both MAC & PC formats

No. 70-8807

USB 2.0 Adaptors

These adaptors allow the user to change the style, gender or couple a cable or cables together to fit their needs. These adaptors are ALL passive devices.

USB CABLES & ADAPTORS

USB 3.0 (USB SUPER SPEED)

Developed by Intel, USB 3.0 is ten times faster than the 480 Mbps limit of the current USB 2.0 version (maximum speed 4.8 Gbps). Additional lines added to cable (the cable is noticeably thicker) allows USB 3.0 to both read and write at the same time from your portable storage devices. Bi-Directional data transfer will be useful for synging up information on PDAs and storage backup.

USB 3.0 is backwards compatible with USB 2.0 but you won't be able to maximize your bandwidth unless you are using it with superspeed devices and ports.

What the maximum speed of 4.8 Gbps can do?

- * Transfer 27 GB HD movie to your future media player takes 70 seconds (min. 15 minutes on USB 2.0) with compatible portable storage device.
- * More power to charge portable devices (cellphones, MP3 players, digital cameras), boosted the power output from approx. 100 mA to 900 mA.

USB 3.0 A - A (Male - Male)	
No. 70-8160	6 Ft.
No. 70-8165	12 Ft.

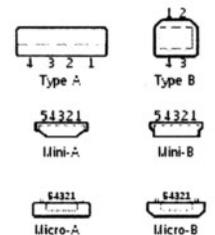

MICRO USB CABLES

The new Micro USB connectors are designed to allow up to 10,000 cycles of insertion and removal between receptacle and plug, compare to 500 for the standard USB and mini USB receptacle. Micro USB is designed so that the connector on the cable (inexpensive) would bear the most wear instead of the Micro USB device. Micro USB plugs have a similiar width as mini USB but about half the thickness, enabling their intergration into thinner portable devices such as PDAs, mobile phones, digital cameras or battery chargers.

No. 70-8038	6 Ft.

Schematic diagram of Standard, Mini, and Micro USB receptacles.

Micro USB connectors are intended to replace the mini plugs in new devices including smart phones and personal digital assistants. The open mobile terminal platform (OMTP) group have endorsed Micro USB as the standard connector for data and power on mobile devices.

Philmore USB Charger Power Products

Here is an idea who's time has come! The following cables and adaptors will provide all of the connections that you will need to charge, or simply operate, your cell phone, MP3 player, Bluetooth earpiece, cameras, etc. from the USB port on your computer. Use your desk-top PC, notebook or netbook computer to power virtually any of your tools or toys that use a USB port for a power connection and/or for charging. Leave all of those clumsy chargers in a drawer as a Philmore cable with the right adaptor will charge any USB device. Plug the Philmore cable into your computer, and attach the USB plug that mates with your device. You can even charge two devices at one time with the "Y" cable listed below.

The Philmore USB Power/Charger CABLES for USB

Select the length of cable from the listing here that will best fit your usage. HINT: the smaller cable no. 70-8101 might be the best one for the frequent traveler as it will stash-away with your netbook and weighs almost nothing. One end of these cables plugs into your PC's USB port and the other end has a two-pin connector for any of the adaptors listed on next page. You will want to pick at least one adaptor from the adaptor section. Cables can be used with any PC, desktop, notebook or netbook etc. (Note: this series of cables will supply power or charge, and they are not intended for other USB use, transferring data, etc.)

USB Y Cable
USB A Male to (2) 2 Pin Socket

USB A Male to 2 Pin Socket

Part No.	Cable Description	Cable Length
70-8101	Power only Cable, USB Male A to 2-Pin Socket	12 Inches
70-8103	Power only Cable, USB Male A to 2-Pin Socket	3 Feet
70-8106	Power only Cable, USB Male A to 2-Pin Socket	6 Feet
70-8108	Power only Y- Cable, USB Male A to Two 2-Pin Socket Sockets for charging / Powering two devices at one time	12 Inches

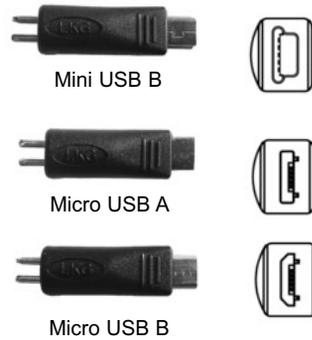

USB CABLES & ADAPTORS

The Philmore USB Power/Charger Adaptors for USB

The Philmore USB Power/Charger Adaptors for USB

This series of adaptors plug into the 2-pin socket on the cables listed on the previous page. You can buy just one or get the set of three so that you will be ready to charge/power virtually ANY USB device. With all three adaptors and a cable in your notebook case, it won't matter when you discover you left the cell phone charger at home on your next business trip!

Part No.	Adaptor Description
70-8015	2 Pin to Mini-USB B Male plug
70-8016	2 Pin to Micro-USB A Male plug
70-8017	2 Pin to Micro-USB B Male plug
70-8020	All Three adaptors, listed above includes Mini B, Micro A and Micro B Male plugs to 2 pin plug

The Philmore USB Power/Charger TRAVELER'S KIT.

These kits are intended for travel, but will be just as handy at your desk in your office. Included are one 12" power cable and all three (70-8015, 70-8016, 70-8017) USB adaptors. The kits, packed in a handy zip-locking clear plastic bag, will fit in any pocket of your notebook PC case and be ready to go when you (or a travel companion) forget to pack that charger for a cell phone, Bluetooth earpiece or other device. (Note: cable connects only for power and charging and are not intended for other USB use, transferring data etc.)

Part No.	Description
70-8022	USB Traveler's power kit, includes one 12" cable (No 70-8101) and all three USB adaptors
70-8024	USB Traveler's kit with Y cable includes one 12" cable (No 70-8108) and all three USB adaptors

And Yes.....! Use this series of USB powering cables with that separate USB power charger too! Use Philmore USB power cables with any USB compatible charger.

New types! USB 2.0 CABLES and ADAPTOR

Responding to demand, Philmore has added a number of new cables and an adaptor which feature right angle Micro USB connectors as well as other new configurations. All of this series meets USB 2.0 standards and will also work with earlier (i.e. they are "backward compatible") USB equipment for any USB function. As USB has increasingly become a standard mode for computer/equipment connection, the right angle connectors are finding more uses every day. PLUS: new USB specialty cables below.

USB 2.0 "A" Female to Right angle Micro USB "B" ADAPTOR.

May be used on the end of the common A to A USB cable when a right-angle Micro USB "B" connector is needed.

No. 70-8060 - 3 Ft.

USB 2.0 MICRO to MICRO CABLE

A six foot length cable with MICRO USB B connectors on both ends.

No. 70-8068 - 6 Ft.

MICRO USB ADAPTOR

Mini USB B (5 pin) Female to Micro USB B Male.

No. 70-8012

USB CABLES & ADAPTORS

USB 2.0 MALE "A" to Micro Cables

A series of NEW cables with standard USB Male "A" connectors on one end and a Right Angle Micro USB "B" connector on the other; available in three lengths.

Part No.	Cable Description	Cable Length
70-8062	"A" Male to Micro "B" Right Angle	12 Inches
70-8064	"A" Male to Micro "B" Right Angle	3 Feet
70-8066	"A" Male to Micro "B" Right Angle	6 Feet

Mini and Micro "Y" CABLE

A handy new "specialty" cable and "Y" adaptor with a standard USB Male "A" connector on one end leading to one Mini USB "B" male as well as one Micro USB "B" male on the other end. A useful cable for the user with several devices that need to be connected to a PC, such as sophisticated Odometers, GPS units, blood pressure readers, cameras, etc. This one can save you from fumbling around in the drawer looking for the right cable.

Part No.	Cable Description	Cable Length
70-8070	USB "Y"	3 Feet

USB Dual-Micro "Y" CABLE

Another very handy cable to help you put those Personal Computer devices to good use easily. The cable has a standard USB "A" Male connector on one end leading to TWO Micro USB "B" connectors on the other.

Part No.	Cable Description	Cable Length
70-8072	USB "Y"	6 Feet

ECONOMY USB SWITCHING POWER SUPPLY

Specifications:

Input Voltage: 100 - 240V AC
Output Voltage: 5V DC
Maximum Current: 1,000 mA

Jack accommodates USB A Male plug for powering or charging any USB device.

No. 48-1209 - 5V DC charger with AC plug
NOTE: Not compatible with Apple® products.

UNIVERSAL USB SWITCHING POWER SUPPLY

A 5V DC power supply for digital cameras, cellphones, battery chargers, GPS receivers, MP3, PDA, Apple devices and other devices requiring 5V DC power through USB ports. Use with Philmore (70-series) USB, Mini USB and Micro USB cables.

Features:

- * Short circuit protection.
- * Automatic thermal cut - off.
- * Automatic overload cut - off.
- * Interchangeable UK, Australia and Schuko (Europe) plugs (optional).

Specifications:

Input Voltage: 100 - 240V AC 60 Hz
Output Voltage: 5V DC
Maximum Current: 1,000 mA

No. 48-1212 - 5V DC charger with 2 flat pin US plug
No. 48-1215 - 5V DC charger with interchangeable US, UK, Australia and Schuko plugs.

WORLD WIDE USB CHARGER (USB Charger for Home / Auto)

An easy way to connect your USB powered devices anywhere in the world.

AC or DC to USB power adaptor, charges most USB powered devices from an AC outlet or from a DC outlet (cigarette lighter socket). No. 48-1214 is compact size, perfect for home office or travel. It has a sturdy protective cap when cigarette lighter plug (DC input) is not used and foldable 2 flat pin when AC input is not used. Large blue glow indicator light when unit is in use (both AC & DC).

Specifications:

Operation Voltage: 100 - 240V AC
47-63Hz 0.15A
12-24V DC 0.5A

Output Voltage: 5V DC
Maximum Current: 1,000 mA

Features:

- * Foldable input AC wall plug.
- * Cigarette lighter plug.
- * Jack for USB A Male plug.
- * Workable with AC or DC in one unit.

No. 48-1214 - AC or DC, 5V DC USB Charger

USB CABLES & ADAPTORS

USB to USB Link Adaptor

This device provides an economical solution for a small business / home office two (2) station network. It allows Windows'95 Rev. B or Windows 98 or later PC with a USB Port to connect directly to a similarly equipped PC. Provides same resource sharing like a 10Base-T Ethernet network.

Includes
Instruction Manual
Required Software
USB Device Cable

No. 70-8808

USB to USB SmartNet Cable

This is a USB to USB network bridge. The device provides a quick and easy solution to construct a network environment, share resources such as files, printers, and storage devices. It is very useful for SOHO users, mobile users, and network gamers. Software included

Features
Supports USB network up to 17 PC's
Share resources such as Printers, scanners, modems, CD-Roms, etc.
Supports TCP/IP, NetBEUI, IPX/SPX Protocols
Suitable for SOHO & Mobile Network

No. 70-8806

USB Ethernet Adaptor

The USB Ethernet adaptor performs USB "HOT" Plug & Play operations to the Ethernet network. There is no need to open your computer to connect to the network. The unit requires a CAT5 or higher cable (not included) for Ethernet operation. Maximum cable length between the adaptor and supporting Ethernet HUB is 300' and requires an RJ45 plug on each end of a cable wired straight through.

Features

Advanced 16 bit Processor for USB transaction and control data processing
USB interface version 1.1 compliant
USB BUS I/O base address, along with interrupt number, assigned by Plug & Play system.
Upstream Port is USB "B" receptacle
Downstream Port RJ45 Jack

Includes

USB Ethernet adaptor
USB "A" / "B" Cable 6'
USB Ethernet driver CD
User's Manual

No. 70-8800

USB to Parallel Cable

USB Parallel Cable allows PC's with a USB port to print to any parallel printer. It provides truly Bi-directional, USB Plug & Play capability. Just plug the USB "A" connector into the computers USB Port and the other end into a IEEE1284 Printer using a CEN36 connector. It is fully compatible with Windows 95/ Rev. B, Windows 98 or higher.

No. 70-8010 USB "A" / CEN36 (M) 10'

USB Repeater Cable

USB Repeater cable allows the cable length on a USB device to be extended up to an additional 80 feet. You can connect up to (5) 16 foot cables serially. This is an active cable with USB "A" connector on each end that acts as a transparent buffered HUB.

Features

Compatible with MAC & IBM PC's
Compatible with Windows 95 Rev 2.1, or higher

No. 70-8150 USB "A" (M) / (F) 16'

USB to PS/2 Active Adaptor

This Active USB Adaptor makes it possible for PS/2 I/O devices such as keyboards and mice to enjoy USB Plug & Play features. Both the mouse and keyboard may be plugged in at the same time.

Features

Cable length 2.5'
(1) USB "A" Connector
(2) Downstream PS/2 Connectors
Supports Microsoft IntelliMouse
Sleep mode Power Management

No. 70-8803 USB "A" (M) / (2) MD6 (F) 2.5'

USB Serial Converter

This USB serial converter is ideal for cellular telephones, digital cameras, modems, and PDA's providing the advantages of USB Plug & Play and faster data transfer.

Features

Host Drivers Included
Advanced 16 bit processor for USB & Control Data Processing
Compatible with USB 1.1 Specifications
Upstream port USB "B" Female
Downstream port DB25 Male

No. 70-8802 USB "B" (F) / DB25 (M)

PERSONAL SECURITY DEVICES

Recordable Motion Detector with External DC Power Jack

This entry alarm allows user to play recorded message upon sensor interruption. Recordable message length is about 20 seconds. Detection area up to a distance of 20 feet with a radius of 100 degrees. Supplied with mounting bracket that allows 120 degrees swivel adjustment. Powered by (4) AA batteries (not included). External jack: 6V 600mA regulated DC adaptor (not included) or 3-4.5V 500mA non-regulated DC adaptor (not included).

No. PV1000

RECORDS VOICE MESSAGE UP TO 20 SECONDS

Volume Control Entry Chime with External DC Power Jack

This entry alarm allows user to select volume of entry chime upon sensor interruption. Detection area up to a distance of 15 feet with a radius of 100°. Supplied with mounting bracket that allows 120° swivel adjustment. Powered by (4) AA batteries (not included). External jack: 6V 600mA regulated DC adaptor (not included) or 3-4.5V 500mA non-regulated DC adaptor (not included).

No. SH588A

Electronic DOOR KNOB ALARM

Hang the unit on a door knob and give it a half-minute to "look" at its surroundings. After that, it will sense anyone touching the knob and sound a loud alarm. Use while traveling or monitor unwanted door opening. The alarm will operate for days on a nine volt transistor battery. Note that it works best on wood doors with metal knobs (practically any door) but may not perform as well on a metal (steel) door.

No. PV500

Electronic WINDOW or DOOR ALARM

This is probably the fastest and least costly way to protect a window or door from an intruder. Attach the magnet to the window and the sounder module to the window frame. Both attach easily with double stick foam tape. When you have the unit switched "ON", it will sound if the window is opened, even just a couple of inches. The alarm can monitor a window or door for months on one set of batteries (unless the alarm sounds a lot, which takes more energy.) The LR44 batteries are included and replacements are easily available.

No. SH555

Infrared Automatic SENSOR LED LAMP

When you enter a darkened room where this device is located, it turns on its own light. Use in a closet, spare room, outdoor shed, garage etc. batteries can last for months. No wiring is necessary, the unit runs on four AA batteries (or, an AC adaptor such as Philmore No. BE226). Batteries are not supplied with the unit.

No. PV2000

PERSONAL ALARM

It looks like a computer mouse, but is a very loud personal alarm that may be carried by a jogger, night-shift worker or just someone that might be threatened getting across the parking lot. If the loud sound does not frighten off an assailant, it will at least attract plenty of attention. A bonus feature is a "penlight" flashlight that may be used to locate a lock, foot path etc. Operates on two AAA batteries, which are included.

No. SH999

Magnetic DOOR ANNUNCIATOR

Provides an electronic "ding-dong" to announce someone entering a door. This may be the least expensive door annunciator, and the most easily installed. Attach the magnet to your door and sounding device to the door frame (or vice versa), if you like. Double sticky foam tape makes mounting quick work. A sophisticated sound announces the entry of a customer each time the door is opened.

No. SH333

MULTI - CONTACT CONNECTORS

INSULATION DISPLACEMENT CARD EDGE CONNECTORS

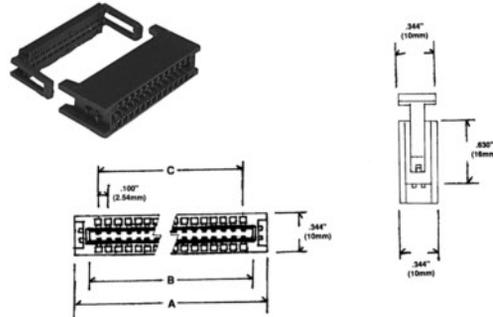

FEATURES:

- 14, 20, 26, 34, 40, & 50 Contact available
- Contacts adjust to compensate for P.C. board thickness
- Contact design assures positive connection, assures long cycle life and good self cleaning wipe on P.C. pad

SPECIFICATIONS:

Contact Resistance: 30m ohm max. at DC 100mA
Insulator Resistance: 1000m ohm min. at DC 500V
Current Rating: 1 Amp Dielectric Withstanding
Voltage: AC 500V for 1 minute
Operating Temperature: -55°C - +105°C
Contact: Phosphor Bronze
Housing: PBT & 30% Glass Fiber (UL 94V-0)

*NOTE: Metric dimensions in Parentheses				
Dimension				
Part No.	Position	A	B	C

INSULATION DISPLACEMENT DUAL ROW CONNECTORS

FEATURES:

- 6, 8, 10, 12, 14, 16, 20, 24, 26, 30, 34, 40, 50, 60, 62, 64
- Fully interchangeable with competitive models
- Easily removable molded cable strain relief
- Meets Mil-C-83503 Specifications
- 100" Spacing

SPECIFICATIONS:

Contact Resistance: 30m ohm max. at DC 100mA
Insulator Resistance: 1000m ohm min. at DC 500V
Current Rating: 1 Amp Dielectric Withstanding

BREAK-OFF KEY

Break off pin is used to Key the connector so that it may be connected only with the correct orientation. The pin is inserted into a socket and a corresponding pin is removed from the male connector.

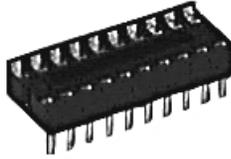

No. 70-4200 - 100 Pcs. per package

MULTI - CONTACT CONNECTORS

P.C. BOARD MOUNT DIP IC SOCKETS

FEATURES:

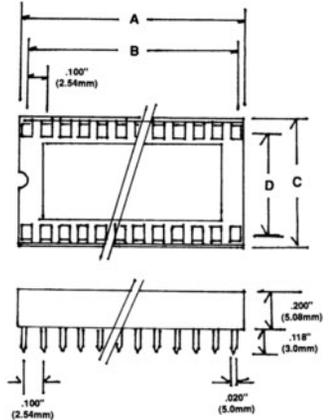

- 8, 14, 16, 18, 20, 24, 28 & 40 Contact available
- Tin Plated contact
- Industry standard spacing

SPECIFICATIONS:

- Contact Resistance:** 30m ohm max. at DC 100mA
- Insulator Resistance:** 1000m ohm min. at DC 500V
- Current Rating:** 1 Amp Dielectric Withstanding

INSULATION DISPLACEMENT DIP CONNECTORS

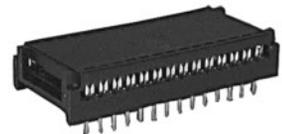

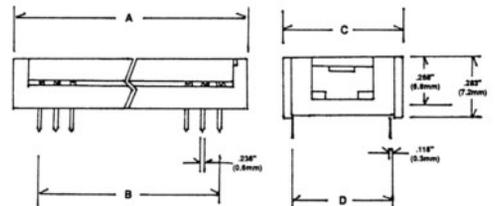

FEATURES:

- 14, 16, 18, 20, 24, 28 & 40 contact available
- Mates with .050" centered round conductor flat wire
- .100" Contact Spacing
- Accepts 28-30 ga. wire
- Fits all standard DIP Sockets or direct soldering to P.C. board

SPECIFICATIONS:

- Contact Resistance:** 30m ohm max. at DC 100mA
- Insulator Resistance:** 1000m ohm min. at DC 500V
- Current Rating:** 1 Amp Dielectric Withstanding

MULTI - CONTACT CONNECTORS

0.10" VERTICAL HEADERS, DUAL ROW

PC board open headers mate with Philmore 70-4200 series flat cable female connectors. Designed to be mounted on PC boards and available in either straight or right angle types. Drawn, 4 side .025" posts are industry standard and mate with nearly any brand of dual row female connectors on a .010" grid. Contact surface is gold plated for maximum resistance to oxidation; carry current 3 amps. Terminal ends are tinned for solderability.

SHROUDED (PROTECTED) DUAL ROW HEADERS

Center Polarizing with Side Latches

These multiconductor headers are designed for use with female flat cable connectors, such as those in the Philmore 70-4200 series. Compatible with virtually all IDC specifications. Quick, secure connection/disconnection of multiline data cables. The contacts are completely protected by surrounding walls, or 'shrouding'. Side latches (removable) secure the mating female in place.

The contacts are standard .025" square posts. Contact areas are gold plated; the termination areas are tin-lead. Insulation material is a black thermoplastic, 94V-0 rated. Available in ten thru sixty contacts and in straight or right angle versions.

100 ft. in cardboard spool.

MULTI - CONTACT CONNECTORS D-SUB

Solder Type High-Density D-Subminiature Connectors

Hi-density types pack more contacts into the standard D-sub configuration. Solder cups are tinned for soldering. Contact areas are gold plated, resist corrosion. Steel shells and glass-fiber reinforced plastic insulator (UL94-V-0).

SPECIFICATIONS:

Current rating: 5 amps

Contact Resistance max: 10 milliohms

Insulation Resistance: 500 megohms

Pin Count	Male No.	Female No.
15	HDP15	HDJ15
26	HDP26	HDJ26
44	HDP44	HDJ44
62	HDP62	HDJ62
78	HDP78	HDJ78

Crimp-type High-Density D-SUBMINIATURE CONNECTORS

Higher density permits more circuits in the same size shell as D-Subs.; about an increase of 60%. Pins are supplied separately; be sure to order them as well as these shells. Crimp pins are crimped onto 22 or 24 AWG wire and then inserted into shell body, snapping in place.

Shells are steel, Insulator is glass-fiber reinforced plastic (UL94V-0).

SPECIFICATIONS:

Current rating: 5 amps

Contact Resistance max: 10 milliohms

Insulation Resistance: 500 megohms

NOTE: For bulk package, pins are not included and must be ordered separately.

Pin Count	Male Shell No.	Female Shell No.
15 Pin	HDPC15	HDJC15
26 Pin	HDPC26	HDJC26
44 Pin	HDPC44	HDJC44
62 Pin	HDPC62	HDJC62
78 Pin	HDPC78	HDJC78

CONTACT PINS for High-Density D-Sub Connectors

Gold plate contact areas, tinned on crimping areas, brass pins.

No. HDPP - Male pin - Bulk Pack

No. HDJP100 - Female pin-100 Pack

No. HDJP - Female pin- Bulk Pack

D-Subminiature Hoods (shells) for High-Density D-Subminiature Connectors

The grey plastic hoods are the most economical; made of a high impact and durable plastic. Die cast hoods are solid metal and the most costly type but provide RF/EMI shielding and are nearly indestructible. Metalized plastic hoods are silver in color and provide shielding at a lower cost than the die cast hoods. Finally, the black plastic hoods with captive thumb screws provide some convenience (the metalized plastic hoods also have captive thumb screws). All hoods are complete with assembly hardware. *Asterisk items have captive thumbscrews (picture above).

Note: Add "B" suffix to a number for bulk package

Size	Grey Plastic	Black Plastic	Metalized Plastic	Die Cast all-Metal

DB Connector Kits

The Philmore DB connector kits are available in both Crimp type & Solder type. Whether you need to move pins, jumper pins or disconnect some of the terminals will depend on which type you choose. All kits come with the connector shell which is metalized plastic for EMI / RFI shielding and GOLD Plated Pins.

Solder Type

High Density D - Subminiature Crimping Tool

Hand held tool crimps High - Density D-sub pins (Male & Female). Also will work with Philmore locking connector pins (No. 70-4800). Has built-in wire cutter.

No. 63-603

MULTI - CONTACT CONNECTORS D-SUB

Solder-type D-SUBMINIATURE CONNECTORS

Solder cup contacts are tinned for positive soldering of wire. Contact areas are gold plated. Steel shell with glass-fiber reinforced plastic insulators (UL94V-0).

SPECIFICATIONS:

Current rating: 5 amps

Contact Resistance max: 10 milliohms

Insulation Resistance: 500 megohms

Pin Count	Male Shell No.	Female Shell No.
9 Pin	DP9	DJ9
15 Pin	DP15	DJ15
25 Pin	DP25	DJ25
37 Pin	DP37	DJ37
50 Pin	DP50	DJ50

Ten Packs of the above D-Subminiature Connectors, display packages, excellent economy.

Pin Count	Male Shell No.	Female Shell No.
9 Pin	DP9-10	DJ9-10
15 Pin	DP15-10	DJ15-10
25 Pin	DP25-10	DJ25-10

D-SUBMINIATURE Crimping Tool

Simple hand tool for crimping D-Sub pins onto wire.

No. WS26

Crimp-type D-SUBMINIATURE CONNECTORS

Male shell indents assure positive contact, firm grip to mating female. Crimp contacts are precision formed brass; contact areas are gold plated and crimp areas are tinned. Typically used with 24 or 22 gauge wire.

Pins are not supplied with these shells when ordering in bulk, be sure to order them as well.

Pin Count	Male Shell No.	Female Shell No.
9 Pin	DPC9	DJC9
15 Pin	DPC15	DJC15
25 Pin	DPC25	DJC25
37 Pin	DPC37	DJC37
50 Pin	DPC50	DJC50

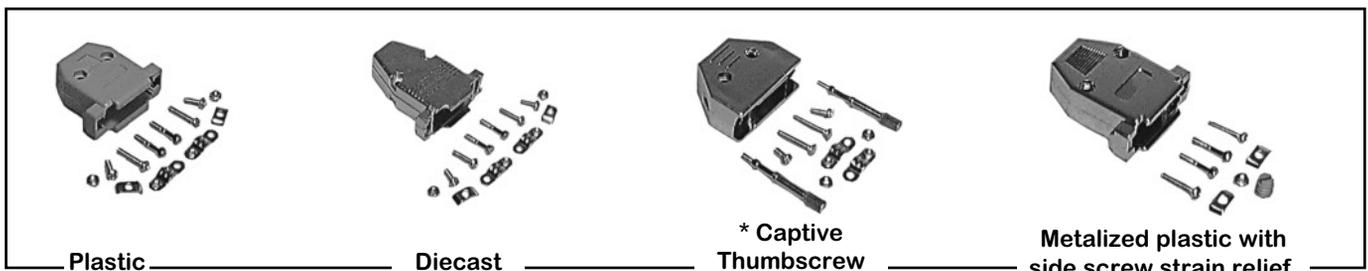

Note: Add "B" suffix to part number for bulk package.

CRIMP CONTACTS for the above D-sub connectors. Precision stamped contacts; extra tabs grip insulation. Accommodates wire 22 thru 28 AWG. Gold plated contact areas, tinned in crimp areas. Supplied on continuous, break-off strips.

Description	Part No.

** No. DT9 & DMT9 are for solder type D - Sub connectors only

MULTI - CONTACT CONNECTORS D-SUB

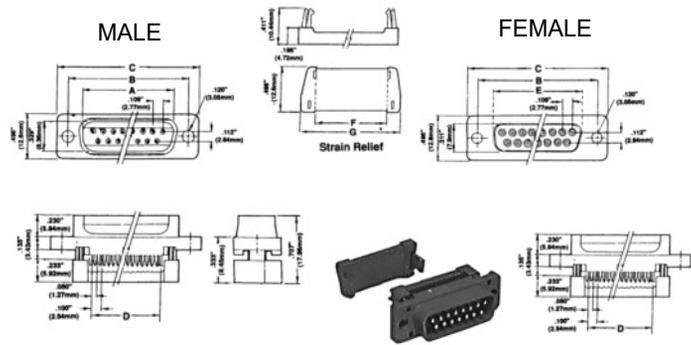

INSULATION DISPLACEMENT D-SUBMINIATURE CONNECTORS

FEATURES:

- 9, 15, 25 & 37 Male and Female available
- No exposed metal
- .050" offset contact spacing for standard flat "ribbon cable"
- Accepts 28 ga. solid, 30 ga. stranded
- Easily removable cable strain relief

SPECIFICATIONS:

Shell: Thermoplastic
Insulator Resistance: 1000m ohm min. at DC 500V
Current Rating: 5 Amp
Number of Contact: 9, 15, 25, 37
Dielectric Strength: 1000V for 1 minute
Operating Temperature: -55°C - +105°C
Temperature: Phosphor Bronze Gold Plated over Nickel
Pin Contact: PBT & 30% Glass Fiber (UL 94V-0)
Insulator:

Ratchet Crimp Tool:

Full cycle Ratchet mechanism with Quick Release & Safety lock. Will crimp both .062" & .093" Male Pins & Female sockets.

No. 61-394

Pin Extraction Tools

These tools are designed for the extraction of pins from Philmore "61" Series housings. They are compatible with Molex® Housings.

PIN EXTRACTION TOOL

61-390 for .093 diameter pins
61-392 for .062 diameter pins

Combo Packs

Packages of one (1) each male & female free hanging housings plus pins.

TERMINAL BLOCKS & BARRIER STRIPS

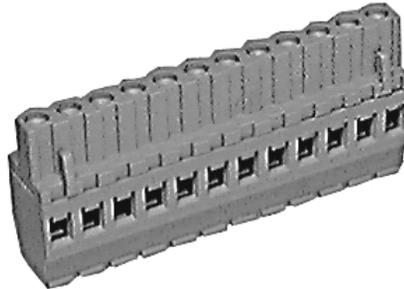

EURO MAG TERMINAL BLOCKS

VERTICAL FEMALE DePLUGGABLE TERMINAL BLOCKS

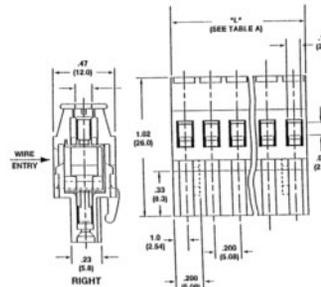

These handy connectors are designed for quick and easy connection of wire to wire or wire to board configurations and are then unpluggable when needed and are equipped with a sturdy latch to prevent accidental disconnect. The wire entry is through the right side of the connector or vertical (right angle) to the mating connector.

Specifications:

Rating: 15A @ 300V
 UL Listed & CSA Certified
 Center Spacing: .2" (5.08 mm)
 Wire Size: #12 - 22 AWG
 Housing Material: Type 6/6 Polyamide 94VO
 Screw Size: 3 mm X 5 mm Zinc Plated Steel
 Operating Temperature: 105°C (221°F) max.
 -40°C (-40°F) min.

Part Number	# Positions	Length
13-2502	2	10.16 mm
13-2503	3	15.24 mm
13-2504	4	20.32 mm

EURO STYLE BARRIER STRIP

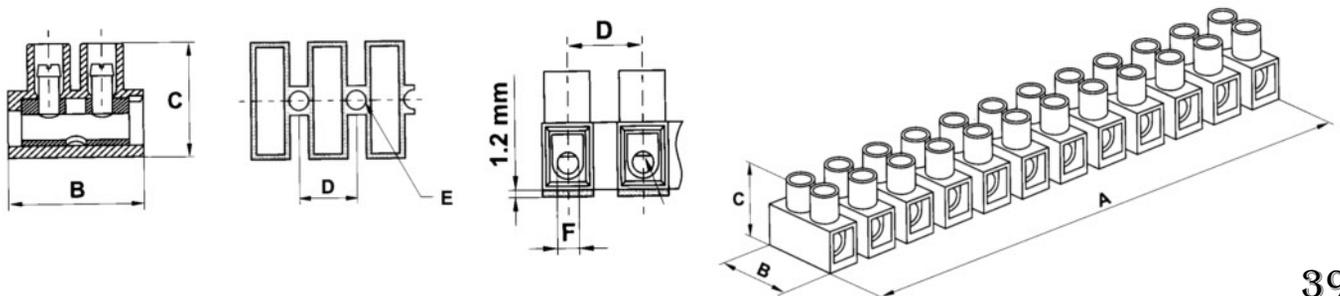

These Euro style barrier strips are available in several sizes depending on your carry current needs. They are cuttable to almost any desired length. These terminal blocks are available in 20A, 30A, 35A, and 50A versions.

Description:

Base: With 1.2 - 2.5mm raised base
 Housing Material: Polyamide 66 (Nylon 66), UL 94V-2
 Temperature Rating: 105°C (UL), -30°C to 110°C (VDE)
 Terminal Insert: Brass metal alloy, nickel plated
 Screw: Zinc plated

TERMINAL BLOCKS & BARRIER STRIPS

30 Amp Dual Row Terminal Blocks

Specifications:

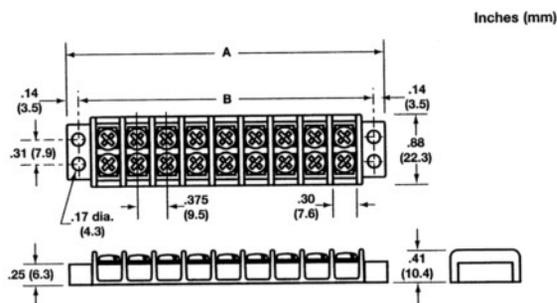

Rating: 30A, 300V
Center Spacing: .375" or 3/8" (9.52 mm)
Wire Range: #14-22 AWG CU
Screw Size: #6-32 philslot screws
Torque Rating: 9 in-lb
Distance Between Barriers: .30" (7.62 mm)
Mounting: #6 screws
Operating Temperature: 130°C (266°F) Max.
 -40°C (-40°F) Min.

Materials: Molded base: Black, UL rated 94VO thermoplastic

Terminal plating: Tin over brass; Screws: Zinc plated steel

Breakdown Voltage: 3600V

Agency Information: UL/CSA; IEC Compliance; CE Certified

VIDEO ADAPTOR SYSTEM

999 CONNECTOR ADAPTOR KIT

Never be without the right adaptor. This kit allows user to make up any combination of TNC, UHF, Mini-UHF, SMA, BNC, "N" TYPE, "F" and RCA adaptor. 136 adaptor combinations possible.

- .GOLD PLATED BODY
- .GOLD PLATED CONTACTS
- .TEFLON INSULATION

KIT INCLUDES 2 EACH MALE AND FEMALE FITTINGS AND 8 ADAPTOR FITTINGS. TOTAL 40 Pcs.

THE FOLLOWING ADAPTOR COMBINATIONS CAN BE MADE FROM No. 999 KIT

N Male to N Male (1)	Mini UHF Male/SMA Female (2)	BNC Male to BNC Female (2)	UHF Female to UHF Female (1)
N Male to N Female (2)	Mini UHF Male to TNC Male (2)	BNC Male to F Male (2)	UHF Female/Mini UHF Female (2)
N Male to UHF Male (2)	Mini UHF Male/TNC Female (2)	BNC Male to F Female (2)	UHF Female to SMA Female (2)

RG59	for Belden 8281	FC59N
RG6/QUAD	for quad shield	FC59Q

FOIL SHIELD CRIMP-ON "F" CONNECTORS

Suitable for all wires but a longer crimping ferrule is meant especially for cables with a foil type shield.

Wire Type	Part No.
RG59/U	FC57
RG6/U	FC57A
RG6 Teflon/Plenum	FC86
RG6/U Quad Shield	FC88
50-pack of FC57	FC57-50
50-pack of FC57A	FC57A-50

CRIMP - ON "F" CONNECTOR FOR RG 11/U

No. FC11

(Recommended Crimping Tool No. WS29)

Foil Shield Crimp-On "F" Connectors

Wider Hex, for easy installations
Brass material, Nickel plated

Wire Type	Part No.
RG59/U	FCD57
RG6/U	FCD57A

Push-On

Male "F" for RG59/U with separate 1/4" crimping ring.

No. FC80

"F"-Type GROUND BLOCK

In line ground with females on each end and ground connecting screw.

No. FC55

DUAL "F" GROUND BLOCK

for two lines, females on each end, with mounting screws.

No. FC25

TWIST-ON PUSH-ON "F" CONNECTOR

For RG59/U cable.

No. FC58A

Female "F" TERMINATOR

75 ohms; to eliminate reflections.

No. FC2 - half watt terminator

10 Pack "F" CONNECTORS

Common crimp type and twist-on type "F" connectors for both RG59/U and RG6/U. Both are packaged in an attractive space saving blister card (2-7/8" x 3-3/4"). Blister cards are printed with a full description and clear terminating instructions on back of card.

"F" CONNECTORS & TOOLS

PRO-CRIMP "F" CONNECTORS

For the perfect hex crimp every time. The PRO-Crimp "F" connectors have a machined hex crimp barrel surface that will provide a professional looking crimp every time used. Use of the Philmore No. WS29 crimp tool is recommended, but any hex crimp tool with a diameter of 0.358" will accomplish the task. These PRO-Crimp "F" connectors have the added bonus of an internal "O" ring to keep out the effects of harsh environment without the need of the messy gel found in other weather proof connectors. The PRO-Crimp "F" connectors feature a wider hex ring for a smoother look and ease of connection, to the point of being able to use a hex wrench for tightening. The PRO-Crimp "F" connectors are available with nickel or gold plate finishes and in sizes for RG59/U, RG6/U and RG6/U quad shield cables.

Part Number	Qty. / Pkg.	Wire Size/Type	Plating/Finish
No. FC759	4	RG59/U	Nickel
No. FCG759	4	RG59/U	Gold
No. FC756	4	RG6/U	Nickel
No. FCG756	4	RG6/U	Gold
No. FC766	4	RG6/U Quad Shield	Nickel
No. FCG766	4	RG6/U Quad Shield	Gold

These connectors are available in bulk, just add the letter "B" to the end of the part number.

Note: We recommend using the Philmore No. WS29 crimp tool for these connectors. This crimp tool will also crimp RG11/U (0.476" hex) and RG59/U - RG6/U (0.358" hex).

ADJUSTABLE PROFESSIONAL COMPRESSION CONNECTOR TOOL

Features

- Heavy-duty Steel Construction
- Hand adjustment for different length connectors
- Works with: Augat, T&B Snap-N-Sealtm, Paladin SealTite, and AIM CATV F weatherproof connectors

No. 63-512 Professional Compression Tool for "F", BNC, & RCA

T-TOOL

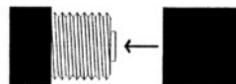

Easy assembly of screw-on or regular "F" connectors. Great finger saver for assembly of twist-on or regular crimp-on "F" connectors. Just assemble "F" connector by threading on to T-TOOL, then assemble connector.

No. WS70

The PRO-Crimp "F" Environment Rubber Seal

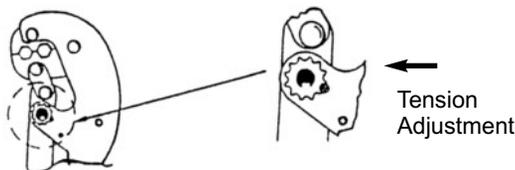

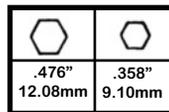

This 3/8" wide rubber seal will protect the PRO-Crimp "F" connectors from harsh environment when placed over the screw-on connection point of the "F" connector and jack. Just slip over the jack and connect the cable plug in the normal manner. The seal will then cover the connection point, insulating from outside environments.

No. FC700 - 4 Pcs./Pkg

PROFESSIONAL HEX CRIMPING TOOL with TENSION ADJUSTMENT for large O.D. Cable

Makes a perfect hex in "F" type and BNC connectors. Works for all Philmore PRO-Crimp "F" connectors, RG6/U Quad Shield, and RG11/U.

No. WS29 - Crimps RG59/U, RG6/U (Pro-Crimp F Connectors) and RG11/U

COMPRESSION CONNECTOR TOOL

This tool is especially designed for installation of "F" style compression connectors. It works with the Philmore FC306, FC346, & FC359 as well as the LRC, Augat, T&B, Paladin, AIM and other compatible connectors.

No. 63-508

COMPRESSION TYPE CONNECTORS

Compression RCA MALE Connectors

RCA male connectors for Home Theatre, Digital Audio and Car Stereo applications. They work with the Philmore 63-512 tool. The compression connector is a tough weather-tite connection that is easy for the consumer or installer to use. They are color coded for easy identification.

Part Number
 45-1359 RD RCA (M) for RG59, Red Insulator, Nickel Plated
 45-1359G RD RCA (M) for RG59, Red Insulator, Gold Plated
 45-1359 YL RCA (M) for RG59, Yellow Insulator, Nickel Plated
 45-1359G YL RCA (M) for RG59, Yellow Insulator, Gold Plated
 45-1359 WH RCA (M) for RG59, White Insulator, Nickel Plated

Rt. Angle Compression RCA MALE Connectors

RCA male connectors for Home Theatre, Digital Audio and Car Stereo applications. They work with the Philmore No.63-512 tool. The compression connector is a tough weather-tite connection that is easy for the consumer or installer to use. They are color coded for easy identification.

Part Number
 45-3507 RD Rt. Angle RCA (M) for RG59, Red Insulator, Nickel Plated
 45-3507 YL Rt. Angle RCA (M) for RG59, Yellow Insulator, Nickel Plated
 45-3507 WH Rt. Angle RCA (M) for RG59, White Insulator, Nickel Plated
 45-3507 BU Rt. Angle RCA (M) for RG59, Blue Insulator, Nickel Plated
 45-3507 GR Rt. Angle RCA (M) for RG59, Green Insulator, Nickel Plated

Part Number
 45-3607 RD Rt. Angle RCA (M) for RG6, Red Insulator, Nickel Plated
 45-3607 YL Rt. Angle RCA (M) for RG6, Yellow Insulator, Nickel Plated
 45-3607 WH Rt. Angle RCA (M) for RG6, White Insulator, Nickel Plated
 45-3607 BU Rt. Angle RCA (M) for RG6, Blue Insulator, Nickel Plated
 45-3607 GR Rt. Angle RCA (M) for RG6, Green Insulator, Nickel Plated

Economy "F" Compression Tool

A handy compression connector tool. A patented design to work with "F" connectors for both RG59 & RG6 coaxial cables.

No. 63-505

Compression In-line RCA FEMALE Connector

These RCA female connectors are great for Home Theatre, Digital Audio and Car Stereo applications. They work with the Philmore No.63-512 tool. The compression connector is a tough weather-tite connection that is easy for the consumer or installer to use. They are color coded for easy identification.

Part Number
 45-2107 RD RCA (F) for RG59, Red Insulator
 45-2107 YL RCA (F) for RG59, Yellow Insulator
 45-2107 WH RCA (F) for RG59, White Insulator
 45-2607 RD RCA (F) for RG6, Red Insulator
 45-2607 YL RCA (F) for RG6, Yellow Insulator
 45-2607 WH RCA (F) for RG6, White Insulator

COMPRESSION "F" MALE CONNECTOR

These commercial grade snap-and-seal connectors are great for Cable Companies, Commercial Broadcast Networks, as well as Residential application where a high-reliability connector is needed. They are constructed of Tin Plated Brass and are fully weather sealed.

No. FC359 - RG59 Coaxial Cable (4 pack)
 No. FC306 - RG6 Coaxial Cable (4 pack)
 No. FC346 - RG6 Quad Shield Cable (4 pack)

Compression BNC MALE Connector

These BNC male connectors are great for Home Theater, and commercial video applications. They work with the Philmore No.63-512 tool. The compression connector is a tough weather-tite connection that is easy for the consumer or installer to use.

45-980 BNC (M) for RG59
 45-979 BNC (M) for RG58
 45-992 BNC (M) for RG6
 45-994 BNC (M) for RG6 Quad

Rt. Angle Compression BNC MALE Connector

These BNC male connectors are great for Home Theater, and commercial video applications. They work with the Philmore No.63-512 tool. The compression connector is a tough weather-tite connection that is easy for the consumer or installer to use.

45-3959 Rt. Angle BNC (M) for RG59
 45-3906 Rt. Angle BNC (M) for RG6

Compression BNC FEMALE

These BNC male connectors are great for Home Theater, and commercial video applications. They work with the Philmore No.63-512 tool. The compression connector is a tough weather-tite connection that is easy for the consumer or installer to use.

45-2944 BNC (F) RG59
 45-2945 BNC (F) RG6

These "F" male connectors are great for Home Theater, Digital Audio and Car Stereo applications. They work with the Philmore No.63-512 tool. The compression connector is a tough weather-tite connection that is easy for the consumer or installer to use.

Rt. Angle Compression "F" MALE

45-5759 "F" male RG59
 45-5706 "F" male RG6

Compression In-line "F" FEMALE

45-6759 "F" (F) for RG59
 45-6706 "F" (F) for RG6
 45-6764 "F" (F) for RG6 Quad

Economy Adjustable Compression Tool

Hand adjustment for different length connectors. Philmore No. 63-514 will work with "F", BNC and RCA compression type connectors.

No. 63-514

BNC CONNECTORS

BNC MALE, 2-Piece

with fixed center pin.
Nickel plated body,
delrin insulator,
gold plated
center pin

(Display pack of 1; for bulk add a "B" suffix, e.g. 920B)

Wire Type	Part Number
RG59 & 62 PVC Jacket	980
RG59 & 62 Teflon Jacket	920
RG58/U	979
RG6/U	929

BNC MALE, 3-Piece

with separate
pin. Nickel plated body,
delrin insulator, gold
plated pins.

Wire Type	Package Quantity	Part Number
RG58/U PVC	One Per	974
RG58/U	Display Ten Pack	974-10
RG58A/U	One Per	996
RG58 Teflon	One Per	997
RG62 & RG59/U PVC	One Per	973
RG62 RG59/U	Display Ten Pack	973-10
RG59/U with Teflon	One Per	998
RG59/U with 20 ga. pin	One Per	994
RG6/U (.275" O.D.)	One Per	989
RG6/U (.275" O.D.)	Display Ten Pack	989-10
RG8X & mini 8	One Per	926
RG174, 179, 187, 188 & 316	One Per	927

BNC MALE, one-piece

with separate pin.
Nickel plated body,
delrin insulator, gold
plated center pin.
Packed 1 per blister; add "B" suffix for
bulk packaging.

Wire Type	Part Number
RG58/U	964
RG59/U	969NP
RG6/U (.275 O. D.)	988

Right Angle, BNC MALE

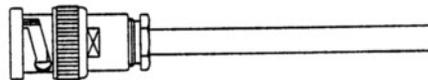

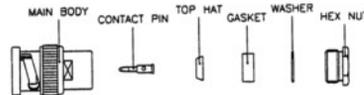

Handy in tight
places. Conductors
attach via screw
connections. For
coax under .275"

Such as RG58, 59, 62, 6

No. 967

UG-88/U SCREW-CLAMP STYLE BNC MALE CONNECTOR

No. 954NP - For RG58/U
nickel plate, Delrin insulator

No. 961NP - For RG59/U
Nickel Plated, Delrin Insulator

No. 975 - For RG6/U
For commercial RG6/U cable such as
Belden type 9290 (dual braid, commercial
type) etc. For cables with O.D. .275" to
.290"

One-Piece, Crimp Type BNC Male with Insulating Boot.

Separate center pin. Quick and
weather tight. Nickel plated Brass,
gold plated center pin.

Wire Type	Part Number
RG59/U & RG62/U	938
RG58/U	937

BNC MALE RIGHT ANGLE

Crimp-on Two-piece connector for
RG59/U and RG62/U cables.

No. 980RA

BNC Center Contact Pins.

Bulk packed only.

Wire Type	Part Number
RG58/U	RG58PIN
RG59/U	RG59PIN
RG6	RG6PIN
RG58/A	RG58APIN
RG59 20 Ga.	RG59LPIN

BNC Crimping Rings

Bulk packed only.

This series of rings are all
1/2" in length.

Wire Type	Part Number
RG58	RG58RING
RG59	RG59RING
RG6	RG6RING

NOTE: All connectors on this page are available in bulk. Add "B" to part no. when ordering.

MULTI-PIN MOBILE CONNECTORS

Multipin Mobile Connectors

Although these connectors are generically identified as microphone connectors, they are used in a wide variety of applications which require reliable, economical multi-pin connections, particularly for rugged mobile use. The positive screw-on retaining ring, & built-in strain relief, provide reliable contact under extremes of shock and vibration.

IN-LINE FEMALE

MALE CHASSIS SOCKET

IN-LINE MALE

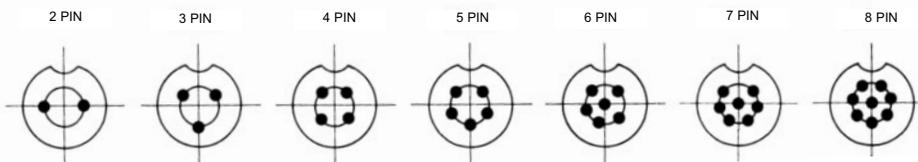

IN-LINE RIGHT ANGLE FEMALE

SCREW-ON CAP

No. PCP2

Protective closure cap for chassis socket. 3 1/2" chain with eyelet clip for screw mounting.

DIN / MINI DIN CONNECTORS

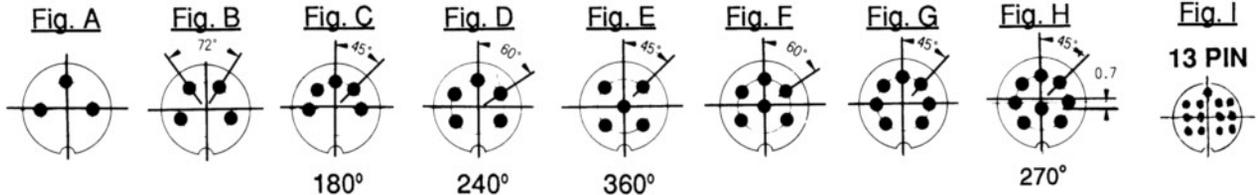

IN - LINE MALE

CHASSIS MOUNT FEMALE

IN - LINE FEMALE

Originally a European Audio Connector design, these DIN Connectors have found acceptance in computer and other electronic connector applications. A combination of reliability and economy has prompted their widespread adoption. Philmore DIN Connectors are now offered in two series. The original "E" series is of Japanese origin...a factory with a world-wide reputation for quality. The new "ET" series is a lower cost product from Taiwan, also carefully selected to meet exacting Philmore qualification and incoming inspection standards.

E SERIES - JAPAN

The "E" Series, color: light beige, from Japan is designed to meet exacting manufacturing requirements...ease of assembly and long-term physical and electrical reliability...particularly when subject to frequent connect-disconnect and/or movement. Some of the particular design features:

EA AND EL --

Heavier gauge metal & thicker plating on terminals and structure. Better solderability. Terminal numbers molded into insulator.

EA-

Shield clamp integral in structure. Superior finish on pins provide thousands of additional reliable connections. Plastic handle designed to cover the retention mechanism, leaving no exposed metal. Molded-in key facilitates assembly alignment.

EL-

Ground springs are well-formed spring brass with minimal tendency to fatigue and longer firm retention. Superior fit of shells makes assembly quicker and easier. A more rigid shell provides greater protection of terminal connections.

ET SERIES - TAIWAN

The new "ET" Series, Color: Black, from Taiwan provide a fully satisfactory lower cost alternative for many DIN connector applications. The basic design and quality of production assure serviceable performance, and our own QC overview adds to that assurance.

MINIATURE DIN CONNECTORS

These miniature din connectors (9 mm. diameter contact face) are in-line with standard contact configuration for the type. These fine quality products are ideal for a variety of multi-pin applications requiring reliable contact in confined space. Full specifications available upon request.

Mini-Din Adaptors

These mini-din adaptors are designed to allow you to couple two similar cables in order to extend the length. Philmore offers these items in several configurations for use with Computers, Audio Equipment, Video Equipment, etc.

No. VHS4 MD4 (F) / (F) 4 Pin
 No. 70-348 MD6 (F) / (F) 6 Pin
 No. 70-344 MD8 (F) / (F) 8 Pin

RCA TYPE (PHONO) CONNECTORS

PHONO PLUG MALE RCA type

Solder terminals; body and shell molded plastic; integral strain relief. Handles available in six colors.

- No. **MS16** - display pkg, 2 red & 2 black
- No. **MS16B RED** - bulk packed, red
- No. **MS16B BLK** - bulk packed, black

- No. **MS16B YEL** - Bulk Packed, Yellow
- No. **MS16B WHT** - Bulk Packed, White
- No. **MS16B BLU** - bulk packed, blue
- No. **MS16B GRN** - bulk packed, green
- No. **MS161** - display package, 1 red & 1 white for audio
- No. **MS162** - display package, 1 each of red, white, yellow for A/V
- No. **MS163** - display package, 1 each of red, green, blue for component video

- No. **70-013** - grey handle, display pkg. of 2
- No. **70-013B** - bulk packed

PHONO PLUG MALE RCA type

Gold plated on contacts and solder terminals; body and shell molded plastic; integral strain relief. Available in red or black.

- No. **MSG16** - display pkg, 1 red & black
- No. **MSG16B RD** - bulk packed, red
- No. **MSG16B BL** - bulk packed, black

PHONO PLUGS Male RCA type

Solder terminals; body and shell molded plastic. Available in four colors.

- No. **MS14** - display packaged, 2 each red, black,
- No. **MS144** - display packaged, 2 each red, black, green, yellow
- No. **MS14B RED** - bulk packed, red
- No. **MS14B BLK** - bulk packed, black.
- No. **MS14B GRN** - bulk packed, green
- No. **MS14B YEL** - bulk packed, yellow

RIGHT ANGLE PHONO MALE RCA TYPE:

Solder terminal, integral strain relief for cable up to 4.0 mm O.D. available in four colors.

Right Angle Plugs

- No. **70-036B** - Black
- No. **70-030B** - Red
- No. **70-032B** - White
- No. **70-034B** - Yellow

NOTE: Bulk pack only

AUDIO/VIDEO GRADE PHONO PLUG

RCA MALE, fully shielded. Twist-on, solderless connection. Gold plated for best audio and video performance. Use with either RG58 or RG59 coaxial cable.

- No. **MDL2** - package one connector
- No. **MDL2B** - bulk pack

RG59/U SCREW - CLAMP STYLE RCA PLUG

A perfect connector for use with RG59 cable in video or audio systems; high tech look too. Noise-free, dependable connections. Available with either black or red color band on gold body.

- No. **2101DL** - package one black only
- No. **2102DL** - package one each red & black
- No. **2101DLB BL** - bulk packaged black
- No. **2101DLB RD** - bulk packaged red

GOLD plated RCA PLUG

Solder type with spring strain relief. A quality general purpose audio connector, gold plated for performance. Color bands on body identify left and right channels. Use with most audio wires.

- No. **MSG10** - disp. package 1 red & 1 black
- No. **MSG10B BL** - bulk packed, black
- No. **MSG10B RD** - bulk packed, red

RCA or PHONO PLUG

Nickel plated crimp type with 1/4" crimping ring for RG59/U cable.

- No. **2101A** - display packaged
- No. **2101AB** - phono plug bulk packaged only

PHONO PLUG

A standard, very low cost; phono plug.

- No. **2101P** - phono plug, bulk packaged only

Shielded RCA type PHONO PLUG

A tough, nickel-plated connector for general purpose audio usage. Solder lugs connection.

- No. **MS10** - five connectors in display package
- No. **MS10B** - connector bulk packaged

SHIELDED PHONO PLUGS MALE RCA TYPE

Fully shielded RCA plug for Audio & Video, Nickel plated body with color coded band & strain relief (maximum cable O.D. 4.0mm). Knurled handle for a secured grip. Available in 4 colors.

- No. **70-132** - display package, 1 red & 1 black
- No. **70-130B** - bulk packed, black
- No. **70-134B** - bulk packed, red
- No. **70-136B** - bulk packed, white
- No. **70-138B** - bulk packed, yellow
- No. **70-135** - display package, 1 red & 1 white
- No. **70-137** - display package, 1 red, 1 white & 1 yellow

SHIELDED PHONO JACKS FEMALE RCA TYPE

Fully shielded RCA jack for Audio & Video, Nickel plated body with color coded band & strain relief (maximum cable O.D. 4.0mm). Knurled handle for a secured grip. Available in 4 colors.

- No. **70-221** - display package, 1 red & 1 black
- No. **70-220B** - bulk packed, black
- No. **70-224B** - bulk packed, red
- No. **70-226B** - bulk packed, white
- No. **70-228B** - bulk packed, yellow
- No. **70-225** - display package, 1 red & 1 white
- No. **70-227** - display package, 1 red, 1 white & 1 yellow

Shielded RCA type PHONO JACK

Durable, nickel-plated connector for general purpose audio usage. Solder lugs connection.

- No. **MS9** - five connectors in display package
- No. **MS9B** - connector bulk packaged

RCA TYPE (PHONO) CONNECTORS

PC MOUNT RCA JACK

Printed Circuit board mounting. A durable part, nylon body and nickel plated contacts. The mounting design affords considerable strain relief to protect PC board.

- No. MS11 - single jack, package of five
- No. MS13 - dual jack, Package of one
- No. MS19 - triple jack, Package of one

* For bulk, add suffix letter "B" to Part No.

GOLD-PLATED, TEFLON INSULATOR RCA JACK

Panel mounting phono jack is gold plated and designed to be electrically superior as well as very durable; this is our best jack. Color bands for channel identification. Ground lug and nut also gold plated. Bushing measures 5/16" diameter with 9/32 across a flat.

- No. MTG12 - display pack 1 red & 1 black
- No. MTG12B BL - bulk packed black
- No. MTG12B RD - bulk packed red

GOLD PLATED ISOLATED RCA JACK

Panel mounting phono jack is gold plated, mounts in a 3/8" dia. hole (shoulder washers included). Color bands for channel identification. Ground lug and nut are also Gold plated. Bushing measures 5/16".

- No. 45-108G - display pack, 1 red & 1 black
- No. 45-128G - display pack, 1 red & 1 white
- No. 45-138G - display pack, 1 red, 1 white & 1 yellow
- No. 45-148G - display pack, 2 yellow
- No. 45-108GB BL - bulk packed, black
- No. 45-108GB RD - bulk packed, red
- No. 45-108GB WH - bulk packed, white
- No. 45-108GB YE - bulk packed, yellow

PHONO JACKS Female RCA type

Solder terminals; body and shell molded plastic; integral strain relief. Available in red or black.

- No. MS17 - display pkg, 1 red & 1 black
- No. MS17B RED - bulk packed, red
- No. MS17B BLK - bulk packed, black
- No. MS17B YEL - bulk packed, yellow
- No. MS17B WHT - bulk packed, white
- No. MS17B BLU - bulk packed, blue
- No. MS17B GRN - bulk packed, green
- No. MS171 - display package, 1 red & 1 white for audio
- No. MS172 - display package, 1 each of red, white, yellow for A/V
- No. MS173 - display package, 1 each of red, green, blue for component video
- No. 70-022 - grey handle, display pkg. of 2
- No. 70-022B - bulk packed

RCA or PHONO JACK

An industry standard and popular style jack that mounts in a 1/4" dia. hole; up to 3/16" panel thickness. Mounting hardware is included.

- No. MS12 - nickel plated, pack of five
- No. MS12B RED - nickel plated, bulk pack, red
- No. MS12B BLK - nickel plated, bulk pack, black
- No. MS12B WHT - nickel plated, bulk pack, white
- No. MS12B YEL - nickel plated, bulk pack, Yellow
- No. MSG12 - gold plated, pack of 2
- No. MSG12B RD - gold plated, bulk pack, red
- No. MSG12B BL - gold plated, bulk pack, black
- No. 45-270B WH - gold plated, bulk pack, white
- No. 45-270B YE - gold plated, bulk pack, yellow
- No. 45-270B BL - gold plated, bulk pack, blue
- No. 45-270B GR - gold plated, bulk pack, green
- No. 45-270B OR - gold plated, bulk pack, orange
- No. 45-270B BK - gold plated, bulk pack, black
- No. 45-270B RD - gold plated, bulk pack, red

REAR MOUNT RCA JACK

Mounts in a 3/8" mounting hole into panels up to 3/16" thick.

- No. MS22 - Display packaged of one
- No. MS22B - Bulk packed

CHASSIS MOUNT RCA JACKS

Traditionally used in audio applications, the RCA connector is often used for video and low voltage power as well. This series is made to be mounted in panel or chassis. Color coded insulators for left or right channel, video etc.. Connector surfaces are nickel plated brass, solder lug surfaces are tinned. The insulator material is black plastic.

- No. MS30 - single jack, white insulator
- No. MS35 - dual jacks, red & white insulators
- No. MS45 - triple jacks, red, white & yellow insulators
- No. MS40 - four (quad) jacks, white, red, white, red insulators

* For bulk, add suffix letter "B" to Part No.

PHONO JACKS Female RCA type

Solder terminals; body and shell molded plastic; Available in red or black.

- No. MS15 - display pkg, 1 red & 1 black
- No. MS15B RED - bulk packed, red
- No. MS15B BLK - bulk packed, black

RCA FEMALE ADAPTOR, or Coupler

Phono jacks on both ends, for mating cables with RCA males.

- No. SAG13 - gold plated
- No. SAG13B - gold plated, bulk packaged
- No. 45-311G - shielded, Gold plated
- No. SA13 - nickel plated
- No. SA13B - nickel plated, bulk packaged
- No. SAG23 - 2 RCA-2 RCA, gold plated
- No. SAG23B - bulk packaged
- No. 45-333G - 3 RCA-3 RCA, gold plated
- No. 45-333GB - bulk packaged

RCA FEMALE, BULKHEAD

Isolated RCA to RCA feed thru jacks for audio & video. Mounts in a 3/8" (.375") Mtg. hole. Colored insulation (Black, Blue, Green, Orange, Red, White and Yellow).

- No. 45-162G - Gold plated. Package of 3 (1 red, 1 white & 1 yellow)
- No. 42-362 - Nickel plated. Package of 3 (1 red, 1 white & 1 yellow)
- No. 45-166G - Gold plated. Package of 3 (1 red, 1 blue & 1 green)
- No. 42-366 - Nickel plated. Package of 3 (1 red, 1 blue & 1 green)

PHONE PLUGS & JACKS

1/4" (6.3mm) MONO PHONE PLUGS

DELUXE COLOR CODED PHONE PLUGS

2 conductor, all-metal 1/4" plug set, color coded in 5 colors: Red, Black, Yellow, Blue and Grey. A knurled braided grip, Solder Terminal.

- No. 520K** - one each of 5 colors, packaged
- No. 520 RED** - display packaged, red
- No. 520 BLK** - display packaged, black
- No. 520 YEL** - display packaged, yellow
- No. 520 BLU** - display packaged, blue
- No. 520 GRY** - display packaged, grey
- No. 520B RED** - bulk packed, red
- No. 520B BLK** - bulk packed, black
- No. 520B YEL** - bulk packed, yellow
- No. 520B BLU** - bulk packed, blue
- No. 520B GRY** - bulk packed, grey

MONO 1/4" PHONE PLUG SCREW TERMINAL

Two conductor phone plug, screw terminals for solderless connections, and cable clamp strain relief. May also be used as solder type.

- No. 527 BLK** - packaged, black
- No. 527 RED** - packaged, red

1/4" SOLDERLESS SHIELDED Screw terminals.

- No. 523WS** - package of one

1/4" SOLDER TYPE PLUG

Solder lug type with cable clamp terminal. Supplied with red or black plastic handle. All parts nickel-plated. Fits all standard 1/4" jacks.

- No. S623 BLK** - bulk packaged only, black
- No. S623 RED** - bulk packaged only, red

1/4" PHONE PLUG- SHIELDED

- No. S624** - bulk packaged only, shielded, all metal

1/4" (6.3mm) MONO PHONE JACKS

2 CONDUCTOR JACK - INLINE

Two conductor solder terminal jack 2" long. 7/16 dia., black plastic handle.

- No. 519** - display packaged

1/4" SHIELDED JACK - INLINE

Shielded metal handle - Mono 1-1/2" x 9/16" dia.

- No. 519M** - display packaged

1/4" CHASSIS MOUNT JACKS - MONO

Compact size. Mounts in 3/8" dia. hole in panels up to 5/32" thick. Mounting hardware included.

- No. 2283JP** - display packaged
- No. 2283J** - bulk packaged
- Two conductor with normally closed circuit switch.
- No. 2284JP** - display package
- No. 2284J** - bulk packaged

1/4" PHONE JACK - MONO ISOLATED (Plastic Bushing)

2 conductor, open circuit isolated from panel.

- No. 2280P** - display packaged
- No. 2280** - bulk packaged

1/4" (6.3mm) STEREO PHONE PLUGS

1/4" STEREO PHONE PLUG

Supplied with a black handle. All parts nickel-plated. Fits all standard type 1/4" jacks. Solder type strain relief.

- No. 524W** - display packaged

1/4" STEREO PHONE PLUG - SHIELDED

Solder type phone plug has shielded nickel-plated barrel.

- No. 524WS** - display packaged

.206" DIAMETER 3 CONDUCTOR PHONE PLUG

"Aircraft microphone" type plug.

- No. 524WTP** - Display packaged
- No. 524WT** - bulk pack only, black plastic handle, Solder lug connections.
- No. 521JT** - bulk pack only, mating in-line jack.
- No. 521JTP** - Display packaged

1/4" STEREO 3 CONDUCTOR INLINE JACK

Three conductor dual open circuit jack with solder terminals. Has metal internal shield. Overall size: 2" - Diameter: 7/16"

- No. 521S** - black

STEREO CHASSIS MOUNT JACKS

3 CONDUCTOR 1/4" JACKS

1/4" dia. 3 conductor phone jacks in 3/8" dia. hole in panels up to 1/8" thick. Mounting hardware is included. Open Circuit, stereo.

- No. 2287P** - display packaged
- No. 2287** - bulk packaged

STEREO 1/4" JACK

3 conductor jack enclosed in black plastic housing.

Normally closed switches on both circuits - tip, ring.

- No. 2288CP** - display packaged
- No. 2288C** - bulk packaged

ISOLATED (Plastic Bushing)

The jacks mount in a 0.46" hole. 3 conductor (stereo) switching barrel is not grounded.

Normally closed switches on both circuits - tip, ring.

- No. 2281P** - display packaged
- No. 2281** - bulk packaged

3 conductor (stereo). Two single pole, double-throw switches operate when plug is inserted. Totally isolated from phone plug connections.

- No. 2282P** - display packaged
- No. 2282** - bulk packaged

PHONE PLUGS & JACKS

Note: Unless otherwise specified, plug and jack exposed metal parts are normally bright nickel plated, Soldering tabs and lugs are usually tinned brass for best solder joints; except in case where gold or silver is used.

STEREO 3.5MM MINIATURE PHONE PLUGS

Stereo MINIATURE PHONE PLUG

3.5MM 3

Conductor. Solder terminals, black plastic body with molded in strain relief. Body 3/8" diameter, overall length 2 1/8"

- No. 502P - display package of one
- No. 502PB - bulk packaged
- No. 502GP - display package, gold plated
- No. 502GPB - bulk packaged, gold plated
- No. 70-017 - gray handle, display pkg. of 2
- No. 70-017B - bulk packaged

RIGHT ANGLE STEREO 3.5 mm PLUG

Black plastic body with molded strain relief, solder terminal. Maximum cable O.D. - 4.0 mm.

- No. 70-097 - right angle, display pkg. of 1
- No. 70-097B - right angle, bulk packed

SHIELDED STEREO 3.5 mm PLUG

Handle is nickel plated steel for shielding. Metal spring strain relief.

- No. 502M - display pack of 2
- No. 502MB - bulk packed

LOCKABLE 3.5mm STEREO PLUG & JACK

Shielded 3.5mm stereo plug with coupling ring that can be threaded to mating shielded 3.5mm In-Line jack or panel mount jack after plug has been fully inserted into mating jacks. Both in-line plug & jack has molded strain relief for cable up to 4.0mm (.157") in diameter. Panel mount jack mounts in 10mm (13/32") hole in panel up to 3.5mm (.14") thick. Both jacks can be used with standard 3.5mm plugs where no locking feature is required.

In-Line Male In-Line Female Panel Mount Female

- No. 70-075 - In-Line Male
- No. 70-065 - In-Line Female
- No. 70-055 - Panel Mount Female

SHIELDED 4 CONDUCTOR 3.5mm PLUG

- No. 70-050 - Display Pack of 1
- No. 70-050B - Bulk Pack

4 Conductor 3.5mm MINIATURE PHONE PLUG & JACKS

- No. 70-047 - in-line male, display pkg. of 1
- No. 70-047B - in-line male, bulk packaged
- No. 70-086 - in-line female, display pkg. of 1
- No. 70-086B - in-line female, bulk packaged
- No. 70-088 - chassis mt. female, display pkg. of 1
- No. 70-088B - chassis mt. female, bulk packed

STEREO 3.5 mm MINIATURE PHONE JACKS

Stereo MINIATURE PHONE JACK

3.5MM, 3 Conductor. Solder terminals, black plastic body with molded-in strain relief. Body 3/8" diameter, overall length 2 1/8"

- No. 502V - display package of one
- No. 502VB - bulk packaged
- No. 70-026 - gray handle, display pkg. of 2
- No. 70-026B - bulk packaged

Stereo MINIATURE PHONE JACK

Chassis or PC board mounting. 3.5mm, 3 Conductor. Solder terminals, Completely sealed jack, switching. Mounts in 15/64" hole in panels up to 1/16" thick.

- No. 502J - display package of one
- No. 502JB - bulk package

Stereo MINIATURE PHONE JACK

Chassis or Panel mounting. 3.5mm, 3 Conductor with solder terminals. Completely sealed jack, non-switching. Mounts in 1/4" hole in panels up to .075" thick. With hardware, attractive knurled nut.

- No. 504K - display package of one
- No. 504KB - bulk packaged
- No. 502NUT - Round knurled Nut

STEREO FEED-THRU JACK

Panel mounting 3.5mm, 3 conductor jack on both ends. Mount in 3/8" hole.

- No. 45-233 - display package of one
- No. 45-233B - bulk packaged

TWO CONDUCTOR (MONO) MINIATURE PHONE PLUGS

Mono 3.5mm PHONE PLUG

This miniature phone plug has molded-in strain relief. Other specifications are same as for No. 501P shown below. Two black plugs per package.

- No. 501PS - package two black
- No. 501PSB - bulk packaged
- No. 70-015 - gray handle, display pkg. of 2
- No. 70-015B - bulk packaged

RIGHT ANGLE MONO 3.5 mm PLUG

Black plastic body with molded strain relief. Solder terminals, Maximum cable O.D. 4.0 mm.

- No. 70-095 - display pack of 1
- No. 70-095B - bulk packed

Mono 3.5mm PHONE PLUG

Two conductor miniature phone plug. Solder lug terminals. Overall length is 1-5/8" Dimensions are 9/16" x 1/8".

- No. 501P - packaged one black and one red
- No. 501PB-BL - bulk packaged, black
- No. 501PB-RD - bulk packaged, red

SHIELDED MONO 3.5 mm PLUG

Handle is nickel plated steel for shielding. Metal spring strain relief.

- No. 115P - display pack of 2
- No. 115PB - bulk packed

TWO CONDUCTOR (MONO) 3.5mm MINIATURE PHONE JACKS

TWO CONDUCTOR (MONO) 3.5 mm MINIATURE INLINE PHONE JACK

Molded body (black plastic), solder terminals.

- No. 501VS - display package of one
- No. 501VSB - bulk packaged
- No. 70-024 - gray handle display pkg. of 2
- No. 70-024B - bulk packaged

TWO CONDUCTOR (MONO) MINIATURE PHONE JACK

An in-line (or cord mounting) standard 1/8" (3.5mm) miniature phone jack; two conductor monaural. Open circuit (non switching). Black plastic shell, solder connections.

- No. 501V - display package of one
- No. 501VB - bulk packaged

PHONE PLUGS & JACKS

Note: Unless otherwise specified, plug and jack exposed metal parts are normally bright nickel plated, Soldering tabs and lugs are usually tinned brass for best solder joints; except in case where gold or silver is used.

TWO CONDUCTOR (MONO) 3.5mm MINIATURE CHASSIS MT. PHONE JACK

Economy model miniature jack, closed circuit. Mounts in a 1/4" dia. hole in chassis up to 1/16" thick. Supplied with knurled, slotted round nut and washer.

No. 702JP - display package of one
No. 702J - bulk packaged

ISOLATED PHONE JACKS

Plastic body for both 2.5mm & 3.5mm with solder terminals. Mount in 5/16" mounting hole (front mount) in panel up to 1/8" thick.

2.5 mm JACKS

No. 70-626 - Mono (2 conductor)
display package of one
No. 70-626B - Mono (2 conductor)

2.5 MM (SUB MINIATURE) PHONE PLUGS

STEREO 2.5mm PLUG

Solder lug. Overall length 1-1/4"

No. 666PP - package of two
No. 666P - bulk packaged

Shielded 3 Conductor STEREO 2.5mm PLUG

Handle is Nickel plated & steel for shielding. Metal spring strain Relief.

No. 70-053 - Display Pack of 2
No. 70-053B - Bulk Packaged

RIGHT ANGLE STEREO 2.5 mm PLUG

Black plastic body with molded strain relief. Solder terminals, maximum cable O.D. - 4.0 mm

No. 70-093 - right angle, package of 1
No. 70-093B - right angle,
bulk packaged

MONO 2.5mm PLUG

2 conductor plug solder terminals 1" length, 3/32" dia. black.

No. 660PP - package of two
No. 660P - bulk packaged

Shielded 2 Conductor MONO 2.5mm Plug

Handle is Nickel plated steel for shielding. Metal spring strain relief.

No. 70-052 - Display Pack of 2
No. 70-052B - Bulk Packaged

RIGHT ANGLE MONO 2.5 mm PLUG

Black plastic body with molded strain relief. Solder terminals, maximum cable O.D. 4.0 mm.

No. 70-091 - right angle,
package of 1
No. 70-091B - right angle,
bulk packaged

2.5 mm (SUB MINIATURE) PHONE JACKS

STEREO 2.5mm Chassis Mount Jack

shielded, mounts in 15/64" hole for panel up to .075" thick

No. 666JP - package of two
No. 666J - bulk packaged

STEREO 2.5mm JACK

Inline female, solder terminals.

No. 666VP - package of two
No. 666V - bulk packaged

MONO 2.5mm JACK

Closed circuit female, mounts in 5/32" hole and panels up to 1/16" thick.

No. 660JP - package of two
No. 660J - bulk packaged

MONO 2.5mm INLINE JACK

Solder contacts.

No. 660VP - package of two
No. 660V - bulk packaged

KNURLED NUT TOOL

No. NT500

Tool is used to tighten slotted knurled nuts on 3.5mm and some 2.5mm jacks. (i.e. Nos. 502JB, 504KB, 501JR, 702J, 666J)

STEREO HEADPHONE ADAPTOR KIT

Kit includes all of the popular mini-stereo adaptors. Fill most all connection needs with Philmore No. 4100.

Kit contains the following adaptors:

- (1) 3.5mm mini-mono plug to 1/4" stereo jack. (549A)
- (1) 3.5mm mini-stereo plug to 1/4" stereo jack. (558A)
- (1) 3.5mm mini-mono plug to 3.5mm stereo jack. (560A)
- (1) 1/4" stereo plug to 3.5mm stereo jack. (559A)

250L	2.5mm	5.5mm	215, 325, 2512, 248	1-7/16"

COAXIAL POWER PLUG ADAPTOR

All adaptors in this series have a 3.5mm, 2 conductor jack. Permits you to use an AC adaptor (i.e. power supply) with other types of electronic equipment.

No. 216 - 1.3mm I.D. X 3.5 mm O.D. DC PLUG
No. 217 - 2.1mm I.D. X 5.5 mm O.D. DC PLUG
No. 218 - 2.5mm I.D. X 5.5 mm O.D. DC PLUG

Coaxial Power Plug

A coax power plug for Satellite radio's, AC / DC power supply and others. Solder terminal, sizes: 1.1mm I.D. x 3.0mm O.D. rated .5A - 12VDC.

No. 1130 - 1.1mm I.D. x 3.0mm O.D.

3mm COAXIAL POWER PLUG

No. 206
No. 206B - bulk packaged
 This size coaxial power plug fits the late model Panasonic and JVC devices. 3.0mm I.D. x 5.5mm O.D.

3mm COAX POWER PLUG For Video Camera Battery Packs

No. 208 - Black
No. 208B - bulk packaged
 A coax power plug for video battery packs for Panasonic, RCA etc. 3.0mm I.D. x 6.3mm O.D. solder terminals and flexible strain relief.

COAXIAL POWER PLUG

for Cellular Phone Battery Charger
 Solder Lug terminals and flexible plastic strain relief.

No. 1135 - 1.1mm I.D. x 3.5mm O.D.
No. 1438 - 1.4mm I.D. x 3.8mm O.D.

DC POWER PLUG/JACK ADAPTOR With 6 ft. Cord

Permits use of a DC power supply with a wide variety of equipment that does not have a compatible connector. Select an adaptor (below) with a jack that will mate with your power supply and, on the other end, a plug that will mate with your equipment.

No. 278 0.7mm x 2.35mm DC Plug-No. 257 Jack
No. 280 0.7mm x 2.35mm DC Plug-No. 258 Jack
No. 282 0.7mm x 2.35mm DC Plug-No. 501VS Jack
No. 284 1.7mm x 4.0mm DC Plug-No. 257 Jack
No. 286 1.7mm x 4.0mm DC Plug-No. 258 Jack
No. 288 1.7mm x 4.0mm DC Plug-No. 501 VS Jack
No. 290 1.7mm x 4.75mm DC Plug-No. 257 Jack
No. 292 1.7mm x 4.75mm DC Plug-No. 258 Jack
No. 294 1.7mm x 4.75mm DC Plug-No. 501 VS Jack

DC POWER PLUG For Dell & HP

Commonly used on power supplies for Dell & HP laptop computers it can be used on 2 wire or 3 wire power cord.

No. 274

7.4mm O.D. x 5.0mm I.D. x 0.6mm Center Pin

Rating:

18.5V - 19.5V @ 4A Max.

LOCKABLE DC PLUGS & JACKS

New design DC plug and jack to hold the connector securely with a slight turn (clockwise) of the plug. Both new design plugs and jacks can be used with regular DC jacks and plugs.

LOCKABLE DC PLUGS

These DC plugs are designed to mate with Philmore DC jacks **No. 2475** and **No. 2485** and other DC jacks of the same size. Solder terminals with 9.5mm plug length.

No. 2150 - 2.1mm x 5.5mm plug, display pack of one
No. 2150B - 2.1mm x 5.5mm plug, Bulk packed
No. 2550 - 2.5mm x 5.5mm plug, display pack of one
No. 2550B - 2.5mm x 5.5mm plug, Bulk packed

Locking DC Power Plugs

The locking collar threads onto the mating jack (Philmore #2112 & #2512) to hold the connection securely. The Plug has solder terminals with a black plastic handle.

Part No.	Diameter (I.D.)	O.D.	Overall Length	Mating Jack
2160	.083" (2.1mm)	(5.5mm)	1.65"	2112
2560	.098" (2.5mm)	(5.5mm)	1.65"	2512

BULK DC POWER CORD

24 AWG BLACK TWO CONDUCTOR UNSHIELDED CABLE (ZIP CORDS). One conductor is marked with white line for polarity identification, make your own DC coaxial plugs and jacks with same quality cable used on our DC plug cable assemblies with 24 awg wire. Available on 100' and 500' spool.

No. 48-210 - 100 ft. spool
No. 48-250 - 500 ft. spool

LOCKABLE DC JACKS

Plastic housing, mount in 0.515" (33/64") mounting hole panel up to 0.25" thick solder terminals.

No. 2475 - 2.1mm center pin, display pack of one
No. 2475B - 2.1mm center pin, Bulk packed
No. 2485 - 2.5mm center pin, display pack of one
No. 2485B - 2.5mm center pin, Bulk packed

DC PLUGS

DC coaxial power plugs with 9.3mm long barrel, plastic handle with molded strain relief (Max. cable O.D. 4.5mm). Solder terminals.

No. 219 - 2.1mm x 5.5mm plug, display pack of one
No. 219B - 2.1mm x 5.5mm plug, Bulk packed
No. 259 - 2.5mm x 5.5mm plug, display pack of one
No. 259B - 2.5mm x 5.5mm plug, Bulk packed

DC Feed - Thru Jacks

A unique design DC coaxial jack for panel mounting with jack on both ends, mount in 3/8" (.375") hole. Overall length is 1.72". It can also be used as an in-line female coupler.

No. 45-257 - 2.1mm center pin, Gold plated. Mate with 2.1 x 5.5mm plugs.

No. 45-258 - 2.5mm center pin, Nickel plated. Mate with 2.5 x 5.5mm plugs.

DC COAXIAL PLUGS & JACKS

DC POWER PLUGS

Complies with Electronic Industries Association of Japan (EIAJ) RC-5320 Standards. Solder Lug Terminals and flexible plastic strain relief. Available in both straight and right angle color black.

Straight plug

R/A plug

Interchangeable DC Jacks

Right angle DC jacks exclusively designed for Philmore to be used with AC/DC power supply, DC extension cords. You can make your own DC patch cords, DC extension cords or DC adaptors. Combinations are endless (see Philmore extension cords No. 48-1202, No. 48-1208).

No. 48-3155 - 2.1mm center pin.
Mate with 2.1 x 5.5mm plugs.

No. 48-3555 - 2.5mm center pin.
Mate with 2.5 x 5.5mm plugs.

DC COAXIAL CABLES AND ADAPTORS

DC EXTENSION CABLES

- No. 48-1023 - 6 ft. 2.1x5.5mm, Male - Female
- No. 48-1024 - 12 ft. 2.1x5.5mm, Male - Female
- No. 48-1027 - 6 ft. 2.5x5.5mm, Male to Female

2.1mm & 2.5mm DC POWER ADAPTORS & EXTENSIONS

DC Extension cords & Pig-Tail adaptors allows the user to adapt a variety of our interchangeable DC power plugs & jacks to an existing DC power supply with 2.1 x 5.5mm or 2.5 x 5.5mm DC plug or jack. Turn your common 2.1 or 2.5 DC plugs or jacks to 17 different size DC plugs in seconds. Not only can you change the size of the plug, you can also change the polarity of the plug with ease. No need to buy multiple adaptors or power supplies.

2 Pin Socket to DC Jack.

DC COAXIAL CABLES & ADAPTORS

POWER SUPPLY (WALL-WART) ACCESSORY ADAPTORS

Philmore offers a number of small power supplies, both regulated and multi-voltage types, that are equipped with a two-pin, in-line connector so that different "tips" (connectors) may be used. This provides the user with flexible Power Supplies that may find a wide variety of uses around the home or office. In addition to the usual "standard" connectors that the user is familiar with, Philmore is now making several new adaptors that can be attached to the two-pin connector and will expand the variety of ways that Philmore's power supplies can be used. The adaptors shown below have connectors that will allow them to be attached to the following Philmore power supplies: MW41 series, MW48-1250A, 48- Series, BE226, BE240 and BE227.

2 PIN ADAPTORS

TERMINAL BLOCK ADAPTOR

Any time that you want to connect bare wires to a Philmore power supply, this adaptor will be handy. One end of this 4" long adaptor is a two-pin connector for attachment to any of the power supplies mentioned above. The adaptor is terminated in a two conductor Terminal Block that will accommodate any bare wires up to 14 awg in size. Polarity is marked clearly and a small screw-driver will make fast connections.

No. 48-1271 -
4" Terminal Block Adaptor

Bare-WIRES ADAPTOR Thousands of uses

If you need to apply power to a PC board, home-made circuit of some kind (etc.), a couple of bare wires will be handy. This adaptor has the Philmore two-pin connector on one end and may be used with any of the power supplies listed above. On the other end of a 6" cord is a pair of bare wires (clearly marked for correct polarity), pre-stripped and tinned for connection to your circuit.

No. 48-1272 -
6" Long Bare-Wires Adaptor

GATOR-CLIP ADAPTOR

For quick, temporary attachment to any circuit, battery connectors in a radio, alarm or wherever needed, nothing beats standard alligator clips for quick, easy connections. This 6" long adaptor has a Philmore 2-pin connector on one end that connects with any of the power supplies listed above. On the other end is (one red, one black) a pair of alligator clips.

No. 48-1273 -
Gator Clip Adaptor

ACCESSORY ADAPTOR KIT

Contains all 3 Adaptors

All three of the power adaptors, listed on this page, each having the Philmore two-pin plug connects to any of the power supplies listed above, or any AC or DC power supplies with 2 pin Female connector for interchangeable DC plugs. This is a "must" package for the DIY guy (you know: "gadget guy"). Contains Nos. 48-1271, 48-1272 and 48-1273 adaptors. With one of the Philmore variable voltage power supplies (listed above), there is hardly a small electronic device that you cannot get powered up and running.

No. 48-1275 - 1 Each of NO. 48-1271, 48-1272 & 48-1273

Solderless DC Plugs & Jacks

Inexpensive and time saving for installers to terminate cable with DC plug or jack of their choice. Only a small Phillips screw driver is needed to do the job. Molded connector on one end with 2" cord for flexibility, solderless terminal on the other end. Solderless terminal has a polarity marking and will accommodate up to 14 AWG wires.

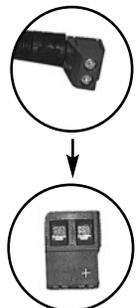

Solderless Plugs
No. 48-1259
2.1 x 5.5mm plug to solderless terminal.

No. 48-1262
2.5 x 5.5mm plug to solderless terminal.

Solderless Jacks
No. 48-1265
2.1 center pin jack to solderless terminal.

No. 48-1268
2.5 center pin jack to solderless terminal.

HOME THEATRE CONNECTORS & ADAPTORS

LKG Home Theatre connectors and adaptors are the superlative connectors for audio and video perfectionists. There are no better connectors. Both design and machining are attended to with great care. Only the purest metals and plastics are used for body materials. Gold is used extensively for both highly reliable electrical contact areas as well as to provide an unequalled, even luxurious, appearance.

HOME THEATRE AUDIO - VIDEO CABLES

SUPER-FLEX DOUBLE SHIELDED AUDIO CABLES

SUPER-FLEX cable was designed to be the best audio cable that we could possibly make. Both home theatre and automotive environments were considered; the cable is made to last indefinitely in either application. Highly pure OFC (oxygen free copper) is used throughout. Double shielding blocks external magnetic noise; heavy PVC outer jacket is resistant to chemicals, abrasion and heat. The RCA connectors are made from the best materials and then gold plated to assure a resistance-free, quality connection. In any audio application, you are not going to be able to find a better cable for pure audio and great longevity.

OFC-AIR INSULATION DIGITAL AUDIO/VIDEO CABLES

Gold Plated RCA Plugs both ends

LKG oxygen free copper with air insulation digital audio cables minimize signal loss and achieve generous stereo imaging, proper focus and uniform frequency reproduction. With LKG you hear more of the

music the way it was meant to be heard and receive interference free video signal. LKG Digital Audio/Video Cables are insulated with highly flexible PVC jackets that makes them easy to use yet extremely durable.

All LKG Digital Audio/Video Cables are handmade and pretested before packaging. All metal connector parts are gold plated for the best connection.

LKG Digital Audio/Video Cables come attractively packaged for display and are available in the following lengths:

LOW LOSS S-VHS CABLES WITH GOLD CONNECTORS

A heavily shielded, strong and durable S-VHS cable that is possibly the best available. Multiple strands of synthetic fibers reinforced for strength, a heavy rubber insulation jacket. Connectors Gold plated, standard S-VHS four pin type. A 95% copper braid shield coverage is effectively 100% shielding in electrical terms, low loss. Available in preassembled S-VHS cables and bulk as well.

Bulk cable user information: Cable is comprised of two fully shielded (1 red and 1 yellow) 75 ohm coaxial cable. Coaxial cable outside diameter .122", inner insulator is PE foam .087 O.D. (24 awg stranded center conductor) with a nominal capacitance of 16.9 picofarads per foot. Shield is copper braid woven for 95% coverage. Total cable O.D. is .315" outer insulation dark grey in color.

Home Theatre has become a serious pastime for many people, who strive to have electronic entertainment media as close to perfect as possible. 'Perfect' is definitely obtainable with today's electronic equipment. And the way to get top performance from your audio and video equipment is to use only the best cables available. Anything less, and you may as well not buy serious equipment.

The following series of cables has been developed with perfection in mind. Only pure gold is used on contact surfaces; it will maintain ideal electrical characteristics indefinitely. OFC (oxygen free copper) is used as the best possible choice for inner conductors. The virgin plastics used as insulators were selected both for excellent electrical characteristics as well as for very long life expectancy. When you use LKG Home Theatre Cables, there will be no doubt that your equipment is delivering every ounce of performance that it was designed to provide for you.

CAMCORDER A/V CABLES:

HOME THEATER BULK AUDIO & VIDEO CABLES

MEDIA STAR™ AUDIO/MULTIMEDIA CABLE

LKG MediaStar™ cables employ better materials throughout. Pure copper conductors receive a refined tin plating to prevent chemical degradation which commonly begins to occur to raw copper within months of manufacture. This plating assures true fidelity without losses in the mid and high audio ranges; for years. The inner cable is heavier than most (26ga. vs 28ga.) to reduce electrical resistance; shielding has also been increased. The outer PVC insulation is advanced (SRPVC) material that will increase life and durability by years. And the light grey color blends practically unnoticed into your home or office. Bulk MediaStar™ Cable is ideal for custom audio connections. Available in 100 ft. and 300 ft. spools.

HOME THEATRE DIGITAL AUDIO CABLES

LIGHT - LINK AUDIO CABLES

Digital audio fiber optic with universal connectors

Toslink "Flipper" Cable.

It's three cables in one!

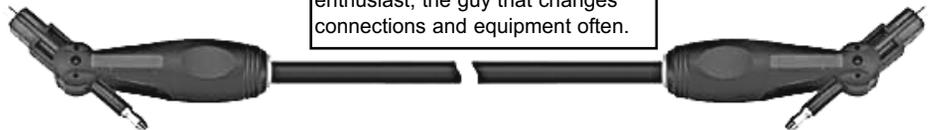

Either end of the Toslink-flipper can be a 3.5mm optical connector or a standard Toslink optical connector. Simply flip the tip and you can have:

- * Toslink to Toslink cable
- * Toslink to 3.5mm cable
- * 3.5mm to 3.5mm cable

This is the cable for the active audio enthusiast; the guy that changes connections and equipment often.

Part no.	Length
45-6203	3 ft (1M)
45-6206	6 ft (2M)
45-6215	15 ft (4.5M)

PREMIUM LIGHT-LINK AUDIO CABLE:

Digital Audio Fiber Optic with Toslink connector. LKG Premium series has 6mm diameter cable, gold plated connectors with rubber grip on handle, and Toslink connectors at each end.

- Endurance
- Transmission Increase
- Expandability

- Fiber Optic Advantages:
- Versatility
 - Noise immunity

- No. 45-2203 - 3 ft. (1M)
- No. 45-2206 - 6 ft. (2M)
- No. 45-2215 - 15 ft. (4.5M)
- No. 45-2230 - 30 ft.

LIGHT-LINK AUDIO CABLES

Digital Audio Fiber optic with connectors

These fiber optic cables are perfect for the transmission of newest standard of digital audio broadcasts. The high purity center core of these fiber optic cables will permit the entire spectrum of visible light to pass carrying true sound fidelity with nearly zero loss. When used with DVD Players, Digital Audio (D/A) converters and CD changers, these cables will provide the purest sound possible.

The TosLink connector/cabling is compatible with most DVD players, DISH Network 4720 & DVHS series receivers. The mini plug (3.5mm) will fit most Discman® and mini-disc players that are equipped with optical outputs.

LIGHT - LINK PLUS:

Light - Link Plus cables, with new connection glow.

A step further in fiber optic cables for digital audio players and amplifiers, the Light - Link Plus cables have two major features that set them apart from ordinary Light - Link or Toslink cables. First is the easy - connect design that permits easy and sure insertion without having to line up keyed plugs to the Toslink jack; it will fit without rotating the plug! in any position! which means a lot less hassle when you have to reach behind equipment to make or move connections.

The second new feature is the connection glow, the connector actually glows when properly lined up and connected (equipment must be turned on). If the connector does not have a gentle glow, you need to redo the connection.

HOME THEATRE AUDIO CONNECTORS & ADAPTORS

Coax to Toslink Converter

These devices are used to convert coaxial cable to POF (plastic optical fiber) for use with DVD's, DAT's, Digital Headphones, and other Digital equipment. This device has an active IC circuit which takes the coaxial signal and converts it to a digital signal. There is a Toslink receptacle on one end and an RCA jack on the other end. The unit uses a 6V DC @ 250 mA power supply. (INCLUDED)

Dimensions: 2 3/4" W x 1 3/4" L x 7/8" D

No. 45-1251

CONVERTS COAXIAL TO OPTICAL SIGNAL

24 bit
192 kHz

No. 45-1245

CONVERTS OPTICAL TO COAXIAL SIGNAL

Optical Fiber Splitter

This item is designed to either couple or split an optical signal. Use this device to combine two accessories such as DVD, DAT, or Digital headphone into a piece of equipment with only one input. You may also use the device to split your digital signal and direct it to two similar devices. There are two (2) POF (plastic optical fiber) receptacles on one (1) end and one receptacle on the other end.

Dimensions: 2 1/4" L x 1 1/2" W x 3/4" D.

No. 45-1258

Optical Coupler

Use these connectors to extend your optical cables. They are designed to couple two (2) Toslink cables together. They are designed with two (2) Toslink jacks, one on each end of the barrel shaped connector so the optical signals are not refracted.

No. 45-1250

DESIGNER PLATE STYLE STEREO VOLUME CONTROL

LKG in-wall volume attenuator will benefit surround sound, home theater and multi-room installations. No matter how complex the system is. All controls work with 4 or 8 ohm speakers. Frequency response for all units is 35Hz-20 KHz at rated power. Fits standard electrical box.

- Number of steps, 12.10 steps of attenuation at 3dB each, and at 6dB for the last two steps. Total attenuation at 30dB and off.
- ABS plastic knob
- Accepts up to 12 AWG wire.

Toslink to 3.5mm Adaptors

Use these adaptors to convert between mini phone plugs and optical fiber (Toslink) connectors. These devices are to be used with equipment that use 3.5mm mini phone jacks as the optical connection. If the mini phone jack is not an optical input, you will have to use LKG 45-1251 to convert the signal.

No. 45-1252

Toslink Plug/3.5mm Mini Jack

No. 45-1259

Right Angle Optical Connector, Toslink. Male to Female.
Gold Plated Contacts.

No. 45-1253

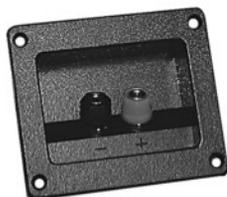

3.5mm Mini Plug/Toslink Jack

HIGH POWER SPEAKER TERMINALS

Recessed Banana Plug/Binding Posts

Dual banana jack style, will accept dual banana plug, up to 10 or 12 gauge wire or tip jacks. Intended for high audio power: 150 watts and above. One red and one black post, angled upward for easy access.

No. 1996

Dual Banana Plug/Binding Posts

Dual banana jack style, will accept dual banana plug, up to 10 or 12 gauge wire or tip jacks. Intended for high audio power: 100 watts and above. Popular round style is easy to mount. One red and one black post, angled upward for easy access.

HOME THEATRE DIGITAL AUDIO CONVERTER

The Music Lover's USB - Digital to Analog Converter No. 45-1255 DAC for short

Hear all of the music, the way that it should sound.

Music from a computer is frequently not as good as we'd like to hear; often, something is missing. Very simply put, the music is "there", in all of its digital glory. But when most computers convert the digital files to produce the analog sounds that we hear, they "sample" parts of the digital file, and generate analog audio from only part of the file. Your computer sound card is 'guessing' at what the music should sound like.

The Philmore Digital to Audio Converter, "DAC", is nothing more or less than a very high quality sound card that will give you all of the fine sound contained in any digital audio file, and it leaves nothing out! (And when you change computers, take the Philmore DAC along.)

NO special connections are required. Plugged into the USB port you can listen to your music files (or a CD or even an optical disk) on headphones. The Philmore DAC also has line-level outputs (left and right) that can be connected to your favorite amplifier or amplified speakers. Your PC using Windows XP, Vista or Windows 7 will immediately recognize the Philmore DAC when connected to the USB port. The DAC will also accept Optical input such as TOSLINK from Blu-ray, a cable box, DVD (etc.). There is a coaxial input connection for use with some cable boxes, Blu-ray equipment, game consoles and more.

A volume control is provided for controlling sound to headphones. When using the DAC at your USB port, no other power supply is required.

Philmore part no. 45-1255.....Digital Audio Converter. 3 Ft. USB Cable & an AC / DC Adaptor are included.

The Philmore no. 45-1255 DAC can 'travel' from your desktop to be used with your notebook as well. And, will stay with you when you upgrade computers.

24 bit
192 kHz

TECHNICAL

Word lengths supported: Up to 24 bits

Digital inputs: S/PDIF Optical TOSLINK 44.1~192kHz., S/PDIF Coaxial on RCA 44.1~192 kHz IEC-60958, S/PDIF Compatible. Supported Sample rates: 44.1, 48.0, 88.2, 96.0, 176.4, and 192.0 kHz. USB Audio Max 24 bit/96kHz USB 1.1 with sample rate 44.1, 48.0 and 96.0 kHz. Line out RCA type, level 1.35 Vrms, 10K ohms imp.

Headphones: 1/8" stereo phone jack, 16 or 32 ohms.

Power supply: DC 5V @ 100 mA max. (Included)

Power consumption: 90 mA.

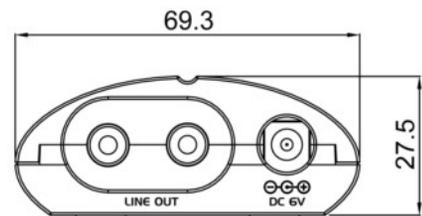

Size: 111mm x 105mm x 30 mm

SIMPLE DAC (Digital Audio Converter)

Same specifications and sound quality as No. 45-1255 but without USB Input and Stereo Jack Output / Volume control. Small compact size (80 x 69 x 28 mm) and lower cost.

No. 45-1260 - Digital Audio Converter.

24 bit
192 kHz

Audio Inputs: Optical Toslink & SPDIF Coaxial.

Audio Output: Stereo (RCA Jacks).

Power Supply: 6V DC (included).

Weight: Approx. 58 grams.

HOME THEATRE COMPONENT VIDEO CABLES

PREMIUM COM-V VIDEO CABLE:

Component Video Cable is designed to provide an excellent video signal transfer and a high degree of protection against unwanted electromagnetic interference. The Premium Com-V video cables from LKG have two layers of shielding. To protect against high frequency noise and interference, an aluminum mylar shield covers 100% of the polyethylene dielectric surface. Oxygen free cables are used to protect against low frequency noise and interference. The Premium Com-V video cable has color-coded molded RCA connectors (Green, Red, & Blue) with gold plated contacts for better contact resistance.

No. 45-3703 - 3 ft.

No. 45-3706 - 6 ft.

No. 45-3712 - 12 ft.

Com-V Video Cables

DVD Component Video Cables

For TV & DVD players equipped with Component Video jacks. Component video connectors bypass the TV's Y/C separator and Color Decoder, routing the color (Y, Cr, Cb) directly into TV's matrix decoder. Sending the pure DVD component Video signal to an input-equipped display device (such as a TV) the DVD signal forgoes extra processing that normally degrade the image. This vastly improved video can result only if cables have been designed for use in this application.

LKG Com-V Video Cables are supplied with three (3) color coded RCA male connectors on each end. These cables are fully in compliance with industry standards and compatible with DVD players from makers such as Panasonic, Pioneer, Toshiba, Sony etc.

Note: these letters are screen drive signals, "Y"=Green, "Cr"=Red, "Cb"=Blue

Component video = red, blue, green
Audio cables = white, red

COMPONENT VIDEO with AUDIO CABLES

Flexible, and soft is now a standard in almost all newer Philmore cables. This series is PVC jacketed, industry standard Video/Audio cables. Soft black in color. Five color-coded RCA males on each end for connection of DVD players (etc.) to both component Video and Audio inputs of your television. RCA male connectors for Video are color-coded red, green and blue and the Audio connectors are (industry standard) red and white. Quality construction with virgin materials throughout assures the best picture and sound that your equipment can deliver.

MINI COAX, VIDEO & CCTV CABLES

A quality feel in a 75 Ohm cable which features a standard pure Copper center conductor and a 93% precisely woven braid coverage (equal to 100% shield). Cable O.D. is only 0.150", our Superflex outer jacket is tough but supple and will last a lifetime. For use with virtually all consumer or broadcast video equipment. RoHS compliant.

MEDIA STAR™ AUDIO & VIDEO CABLES

MediaStar Plus™ audio and video cables and adaptors.

Today's marvelous electronic equipment can be enjoyed fully only if you make certain to have equally good cable and adaptor interconnections. The *MediaStar Plus* series of products is certain assurance that your equipment will be able to deliver its very best listening and viewing performance.

MediaStar Plus cables begin with a process that refines copper and refines it again until only pure, oxygen-free copper remains. Precision drawn and spun, the copper is wound into extraordinary, double-shielded cables. All connection surfaces are absolutely pure 24K gold because only very pure gold can promise to deliver the same, excellent electrical characteristics from the start and for decades. Spacing between conductors is perfect, conductivity is precise, and the precision of this construction is your guarantee that you have the very best cables and adaptors that can be found. Signals are transmitted perfectly, noise pickup and transfer is eliminated and your equipment can deliver the pure pleasure that you had in mind when you bought it.

Distinctive in appearance, *MediaStar* double molded connectors are not only attractive but easier for your fingers to handle during equipment set up.

MediaStar Plus Audio-Video Cables.

Shielding in your audio and video cables is very, very important. Double shielding, and the best in the business, is standard inside every MediaStar Plus cable.

Impedance match is important too. Electronic equipment makers adhere to precise industry standards. Signals from one piece of equipment to the next cannot be produced accurately if your cables are not made to match those industry standards. We take great care to make certain that MediaStar cables will match industry specifications precisely.

MEDIA STAR™ AUDIO & VIDEO ADAPTORS

Media Star Plus Audio and Video adaptors provides discriminating users with a wider range of adaptors for home sound and video systems. Precise manufacturing and pure, virgin materials continue the practice of Media Star top performance products with only a small increase in cost over most ordinary connectors, cables and adaptors. 24K Gold plating on contact surfaces and precise assembly guarantee life long, perfect connections.

Adaptors are color coded for easy user identification: black for monaural, red for stereo and yellow indicates video use. Why not use the best, so that the best that your equipment can do will not be diminished by the connections. Look for Media Star Plus products on display at better electronics parts suppliers.

HDMI™ DIGITAL CABLES

HDMI™ High Speed with ETHERNET

The HDMI standard just got a lot more powerful, with new capabilities designed to push the boundaries of the HD experience. The Future-Ready way to connect HD. Consolidation of HD Video, Audio and Data in a single cable, enables high speed bi-directional communication, IP-based applications and transfer speeds up to 100 Mb/sec.

MEDIA STAR™ HD offers HDMI 1.4 with triple shielded cable for isolation from EMI and RFI noise. 24K Gold contacts for enhanced conductivity. Cable is UL-CL3 rated for custom In-Wall installation. Eye catching clam shell packaging for cables from 1 meter (3.28 ft.) to 6 meters (19.68 ft.)

- **HDMI Ethernet Channel (HEC):** High speed, transfer speeds up to 100Mb/ sec.
- **Audio Return Channel (ARC):** Eliminate the need for a separate audio cable.
- **3D:** Gaming & Home Theater, supporting resolutions up to 1080p in 3D.
- **4K Support:** 4K x 2K, four times the resolution of a 1080p display.
- **Content Type:** Automated picture setting selection with no user intervention.
- **Additional Color Spaces:** SYCC601, Adobe RGB and Adobe YCC601 colors.

BULK - BAG DISPLAY PACKAGE

HDMI High Speed with Ethernet

The Philmore High-Speed HDMI cables are of the best quality and meet industry standards and then some. Each cable is made of materials expected to last for decades and assembled to very high standards. As the cost of packaging cables in fancy and expensive plastic bubble packages has continued to increase at an incredible rate, Philmore has begun supplying a rather simple poly bag packaging that seriously reduces the retail cost.

Equal to our Philmore *MEDIA STAR™* HD series, this economically packaged group provides ten lengths of cable and all are CL3 rated so that they comply with regulations if they are to be used for inside-wall installations. Look for these bright blue and highly dependable cables at your local electronics store.

HDMI™ DIGITAL CABLES

(High Definition Multimedia Interface)

With the launch of HDMI version 1.3, HDMI continues to increase its overall capabilities to meet the needs of the High - Definition marketplace. HDMI 1.3 will deliver the finest quality digital video & audio transmitted over a single cable. More manufacturers will make use of capabilities added in HDMI 1.3, digital television will be able to present images that are close to real life than previously has been possible. These will include LCD TV's, Plasma displays, Rear projection microdisplays, PS3 displays, new Hi - Definition DVD players (HD-DVD & Blu-Ray), game machines (including the Sony Play station® 3) and A/V receivers.

HDMI 1.3 is fully backward compatible with all prior releases of the HDMI versions (1.0, 1.1 and 1.2) as well as DVI compliant devices.

Version 1.3 19 Pin A connector

HDMI HIGH SPEED

- Higher speed 340 MHz (10.2 Gbps)
- Deep color support 30-bit, 36-bit and 48-bit color depths
- Broader color space 1.8 times as many colors as existing HDTV signals
- Lip sync correction, automatically
- Lossless audio formats

Philmore Part No.	Description	Cable DIA.	Length (feet)

MEDIA STAR™ HDMI HIGH SPEED (High Definition Multimedia Interface)

HDMI 1.3 delivers higher speed, it increases a single - link bandwidth from 165MHz (4.95 Gbps) to 340 MHz (10.2 Gbps) to support the demands of future high definition display devices such as higher resolutions, Deep Color™ and high frame rates. HDMI 1.3 supports 30-bit, 36-bit and 48-bit (RGB or YCbCr) color depths.

MEDIA STAR™ HD offers HDMI 1.3 with triple shielded cable for isolation from EMI and RFI noise. 24K Gold contacts for enhanced conductivity. Cable is UL-CL3 rated (all lengths) for custom in wall installation. Eye catching clam shell packaging for cables from 1 meter (3.28 ft.) to 6 meters (19.68 ft.) and 4-colored installer box from 8 meters (26.24 ft.) to 20 meters (65.6 ft.)

High Speed:	340 MHz (10.2 Gbps)
Deep Color™:	30-bit, 36-bit and 48-bit (RGB or YCbCr) to billions of colors
Broader Color Space:	Removes all limits on color selection
Lip Sync:	Video / Audio synchronization automatically with total accuracy
Lossless Audio Formats:	Dolby digital and DTS, Dolby true HD and DTS-HD
Supports:	480p, 720p, 1080i, 1080P resolutions

No. 45-7532	2 meter (6.56')
No. 45-7533	3 meter (9.84')

DISPLAYPORT CABLE

DisplayPort connections are the next generation digital display interface standard design to replace DVI, LVDS and eventually VGA.

DisplayPort delivers higher performance, enables new monitor designs and improved digital display connectivity. DisplayPort delivers High-Definition and provides both digital video and audio in one cable, provides up to 1080P resolution and supports HDCP (High-Definition Content Protection). Smaller connector foot print than either DVI or VGA.

No. 45-7512	12 Ft.

PHILMORE 45-100 HDMI CABLE TESTER

The Philmore 45-100 is designed to quickly test and troubleshoot standard HDMI 1.2v & 1.3v cables. There are 19 wires present inside the HDMI interface cable, and 9 complete circuits which the 45-100 HDMI tester checks and reports to the user via a pass/fail series of LED's on the top of the unit. The perfect addition to your test bench.

The model 45-100 Tester is intended for in-store use for assuring that all internal cable connections are wired correctly. The cable tester may also be used to test DVI cable assemblies: simply use a DVI to HDMI adapter (not included). Requires one 9 Volt battery (not included).

Tests Cables:

HDMI A Male to A Male

HDMI C Male to C Male

HDMI A Male to C Male

Note: Unit Can Not Test Cables with a Built-In Repeater

PHILMORE 45-200 HDMI INSTALLERS CABLE TESTER

The Philmore no. 45-200 HDMI Remote Cable Tester has been designed for installers! Allows easy "pre-testing" of HDMI cables at the "rough wire" stage of installing, and again after the HDMI cable is installed. Know that your HDMI cable installation is working before the walls are "closed" and before there is power or equipment at the Job Site.

The Philmore 45-200 is designed to quickly test and troubleshoot any standard HDMI 1.2v or 1.3v cable. Inside the HDMI interface cable there are 9 complete circuits and the 45-200 HDMI tester selectively measures each sub circuit within the tester and displays a pass/fail by way of LED's on the top of the receiver. The 45-200 HDMI cable tester may also be used to test DVI cable assemblies; simply use a DVI to HDMI adapter(s) (not included). Main unit requires two AA batteries (not included).

No. 45-100 - HDMI Cable Tester

No. 45-200 - Installers HDMI Cable Tester

HDMI™ DIGITAL CABLES & ADAPTORS

HDMI™ EXTENSION CABLES HDMI 19 Pin / Male - HDMI 19 Pin / Female

Philmore HDMI extension cables use industry standard 28 AWG cable. Both HDMI 19 Pin Male & Female connectors are Gold plated and come with dust covers to protect connectors from damage during transit and showroom environment. HDMI does not specify a maximum cable length but it specifies the required performance of a cable by their licensed manufacturers. We do not recommend to use or extend HDMI 28 AWG cable in total length to exceed 6-7 meters (19.7 - 23.0 feet). These extension cables can be used with our No. 45-7131 thru No. 45-7135 (1 meter thru 5 meters).

Philmore Part No.	Description	Cable DIA.	Length (feet)
No. 45-7231	HDMI 19 PIN, 28 AWG Cable	7.3 mm	1 meter (3.28')
No. 45-7232	HDMI 19 PIN, 28 AWG Cable	7.3 mm	2 meters (6.56')

HDMI™ FLAT CABLES

A perfect solution for a traveler or an installer with limited space with which to work. Philmore HDMI flat cable is easy - to - carry and store. Cable is approximately 1/8" (.125") thick, 1 meter (3.28') cable weighs less than 4 oz. and can be folded to fit inside your shirt pocket. These flat cables are manufactured to meet HDMI specifications.

Philmore Part No.	Description	Cable Width	Length (feet)
No. 45-7101	HDMI 19 PIN, Flat Cable	13 mm (.51")	1 meter (3.28')
No. 45-7102	HDMI 19 PIN, Flat Cable	13 mm (.51")	2 meters (6.56')

HDMI™ CABLE WITH REPEATER

Philmore HDMI cable with repeater will allow you to customize your installation where extra cable lengths are needed. It works by regenerating the high definition video and digital audio it receives from the source and transmitting it to HDMI display. Cable is CL3/CMG rated for In-Wall installation.

Specifications:

- * Self powered active circuitry
- * Supports HDMI audio & video
- * Resolutions: 1080P, 1080I, 720P, 480P, & 480I
- * Supports computer resolutions: UXGA, SXGA, XGA, SVGA, & VGA
- * Total transmitting range:
 - 1080P - 25M total length
 - 1080I / 720P - 30M total length

* Status indicator lights

HDMI Male - Male

- No. 45-7140 - 15 meters (49 ft.)
- No. 45-7141 - 20 meters (65.5 ft.)
- No. 45-7143 - 30 meters (98 ft.)

NOTE: will also work with DVI (requires DVI adaptor No. 45-7047)

HDMI TO DVI-D CABLES & ADAPTORS

Used for connecting High Definition Multimedia to Digital Video Interface devices. All cables below are 19 HDMI pin male to DVI-D (18+1) male connectors. Some manufacturers may use DVI-D Dual link (24+1) connector on other end but 6 pins in the middle are not connected.

HDMI MULTIMEDIA TO DVI-D CABLES

One meter is equivalent to 3.281 feet

Philmore Part No.	Description	Cable Dia.	Length
45-7031	HDMI to DVI-D Single Link	7.3mm	1 Meter
45-7032	HDMI to DVI-D Single Link	7.3mm	2 Meters
45-7033	HDMI to DVI-D Single Link	7.3mm	3 Meters
45-7034	HDMI to DVI-D Single Link	7.3mm	4 Meters
45-7035	HDMI to DVI-D Single Link	7.3mm	5 Meters

HDMI MULTIMEDIA TO DVI-D ADAPTORS

HDMI Multimedia to DVI-D adaptors can be useful when changing a cable end or port on your equipment. NEVER force these connectors, there are many variations in pin configurations and you might break connector pins.

Philmore Part No.	Description
45-7045	HDMI Female to DVI-D Single Link Male
45-7047	HDMI Male to DVI-D Single Link Female

HDMI™ & DVI CABLES & ADAPTORS

HDMI Coupler & Repeater

Use HDMI coupler (HDMI jack - HDMI jack) to extend a short length of HDMI cables (MFG. recommended total cable length not to exceed 5 meters or 16.5 ft.) With HDMI repeater you can extend length of cables up to 30 meters (98 ft.). HDMI repeater regenerates the high definition video and digital audio it receives from the original source and transmits it along to the connecting cable to HDTV display.

HDMI Coupler

No. 45-7049

Specifications:

- * Self powered active circuitry
- * Supports HDMI audio & video
- * Resolutions: 1080P, 1080I, 720P, 480P, & 480I
- * Supports computer resolutions: UXGA, SXGA, XGA, SVGA, & VGA
- * Total transmitting range:
 - 1080P - 25M total length
 - 1080I / 720P - 30M total length
- * Status indicator lights

HDMI Repeater

No. 45-7051

NOTE: will also work with DVI (requires DVI adaptor No. 45-7047)

DVI DIGITAL VIDEO CABLES

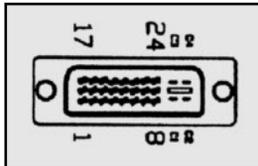

DVI, or Digital Video Interface cables are used to connect very high quality flat panel LCD monitors and high-end video graphic cards. Be sure that you use the correct type. There are DVI-A used for analog to analog, DVI-D used for digital to digital, and DVI-I works either an analog or digital signal.

Generally a DVI-I port will be marked as "DVI-I". The DVI-D is most often used between a high quality video card and an LCD monitor. To make matters more confusing, there are single-link and dual-link DVI-I cables; check your equipment's specifications to be sure to select the correct cable. Video quality will be diminished if cable length exceeds the industry standard of five meters (about 16 ft.). If you are not sure which you need, single or dual link, use the dual link. The dual link is "downward compatible" and will handle either job.

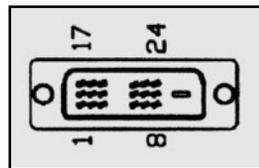

DVI-I SINGLE LINK (18+5)

HDMI™ ACCESSORIES

HDMI™ Splitter with HDCP Decoding

WHAT IS HDCP?:

High-bandwidth Digital Content Protection (HDCP) is a technology developed by Digital Content Protection, LLC (A subsidiary of Intel) to protect digital entertainment content. HDCP has been implemented across both DVI & HDMI interface, the HDCP specification provides a cost effective and transparent method for transmitting and receiving the highest quality digital entertainment content to DVI / HDMI compliant digital displays.

DO YOU KNOW?:

The most common compatibility problem among devices with HDMI connections have to do with HDCP. Probably the most common failure is the lack of HDCP repeater function or failure to perform the authentic reliability in all types of usage scenarios.

The Philmore HDMI 2 - way, 4 - way splitter allows satellite set-top boxes, DVD players, and other HDTV devices with a HDMI output to be connected to up to two HDTV displays. It is a flexible distribution hub that can accommodate multiple displays when more HDMI splitters are connected to create a larger distribution. Ideal for conventions, conferences, presentations and other digital visual - audio applications, No. 44-512 & No. 44-514 are also perfect for home theater use. The HDMI 2 - way, 4-way splitter supports 720i, 720p, 1080i and 1080p resolutions.

No. 44-512 - 1 Input - 2 Outputs
Power Supply: Input - 120V / 60 HZ:
Output - 12VDC 0.8A
Size: 4.7" x 2.6" x .79"
Weight: .40 lb

Specifications:

- **Video Amplifier Bandwidth:** 1.65 GHz
- **Single Link Range:** 1080P / 1920 x 1200
- **Vertical Frequency Range:** 60 Hz
- **Audio / Video Input / Output Connectors:**
HDMI 19-pin Type A
- **Power Consumption:** 10 watts (max)
- **HDMI Output:** DC5V, 500MA
- **Fully HDMI compliant**
- **Fully HDCP compliant**

No. 44-514 - 1 Input - 4 Outputs
Power Supply: Input - 120V / 60 HZ:
Output - 12VDC - 1.5A
Size: 8" x 4.5" x .79"
Weight: 1.1 lb

HDMI™ Converter Box

Philmore No. 44-545 converts component video signal and analog audio signal into a complete HDMI digital A/V signal. No. 44-545 converter box has 3 RCA jacks (red, blue & green) input for component video and 2 RCA jacks (red & white) input for audio, the output has 19 Pin HDMI female jack. No. 44-545 has ability of buffering, amplifying and creating the highest precision digital conversion technique to ensure digital picture quality. Philmore HDMI converter box offers an inexpensive solution to turn your analog A/V devices into a digital entertainment center.

No. 44-545 - Converts component video & analog audio to HDMI signal
Contents: 1) Main Unit
2) 12V DC Power Adaptor
3) Operating Instructions

FEATURES:

- **Easy To Use:** Install in seconds, no need for setting
- **Conversion:** It could convert component and audio into complete HDMI
- **HDCP Compliant.**

Specifications:

- **Video Amplifier Bandwidth:** 140 mHZ
- **Input Video Signal:** 0.5-1.0 volts p-p
- **Input DDC Signal:** 5 volts p-p (TTL)
- **Maximum Single Link Range:** 1280 x 1024. 1080i
- **Maximum HDMI Transmission Distance:** 15 meters (49 Ft.)
- **Output Video:** HDMI + HDCP 1.0 / 1.1
- **Vertical Frequency Range:** 60Hz
- **Power Consumption:** 10 watts (max.)
- **Power Supply:** 6-12VDC
- **Dimensions:** 7.9" W x 1.6"H x 7.9"L
- **Weight:** 2.9 Lb.

HDMI™ ACCESSORIES

Digital HDMI™ Switches

Philmore HDMI switch is a compact, time saving device. For connecting multiple digital A / V input devices (DVD players, set-top Satellite box etc.) to one HDTV display. Easy operation.

3 - Way Switch

No. 44-560
Inputs: 3 HDMI
Output: 1 HDMI

5 - Way Switch

No. 44-565
Inputs: 5 HDMI
Output: 1 HDMI

**SUPPORTS
RESOLUTIONS:
up to 1080P**

Economy HDMI™ Switches

Philmore 2 - way and 3-way HDMI selector is a low cost solution for Home Theater integration. Select between two or three Home Theater multi-media devices such as DVD players, PS3 etc. to one HDMI display. Supports resolutions up to 1080p-60Hz.

No. 44-562 -
HDMI 2 - Way A/B Switch

No. 44-563 -
HDMI 3 - Way A/B/C Switch

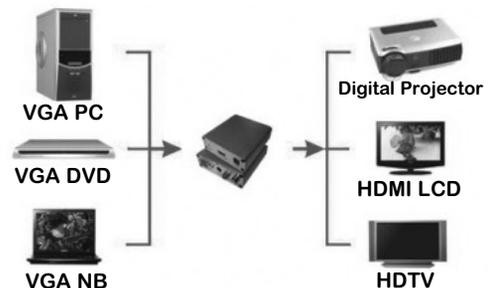

Specifications:

- **Input:** HDMI A sockets
- **Output:** 24" Pigtail cable, HDMI A plug
- **Supports 480i, 480p, 720i, 720p, 1080i, 1080p Resolutions, up to 60Hz.**
- **Selector Slide Switch**
- **Plug and Play**

VGA - HDMI CONVERTER BOX

Philmore 44-540 converts VGA video signal and analog audio signal into a complete HDMI Digital A/V signal. No. 44-540 converter box has VGA (HD15) jack input for video and 2 RCA jacks (red & white) plus 3.5mm stereo jack input for audio; the output has HDMI female jack.

No. 44-540 has ability of buffering, amplifying to achieve long distance transmission of HDMI signal more than 15 meters (over 49 Ft.).

No. 44-540 - VGA - HDMI CONVERTER BOX

HOME THEATRE A / V SELECTORS

HDMI and/or DVI A/B SWITCH WITH AUDIO

For connecting two digital input devices, such as a DVD and a set-top satellite box, to one HDTV. Inputs can be either two HDMI or two DVI or one of each to an HDMI or DVI output. Audio may be handled separately via single digital RCA audio jack or two (left and right) conventional stereo jacks. Saves a lot of cable switching when you want to use more than one input device with one HDTV monitor. Easy operation.

Outputs: 1 HDMI
1 DVI
1 Audio/Stereo (RCA jacks Red & White)
1 Digital Audio (RCA jack)

No. 44-555

Inputs: 2 HDMI
2 DVI
2 Audio/Stereo (RCA jacks Red & White)
1 Digital Audio (RCA jack)

Remote Controlled HDMI (with repeater), Component Video, VGA & Audio Selector

Philmore 45-570 has it all. The Component Video, VGA and HDMI (w/repeater function) selector remote control is a digital switcher with Component Video, A/V, VGA and HDMI A/V connections. Features highest quality circuitry for no signal loss at any point. It features 3 Component Video, 3 VGA, 3 HDMI A/V, 3 A/V inputs, 1 Component Video, 1 VGA, 1 HDMI A/V, 1 A/V outputs, for HDTV source switching using a single high definition display. The HDMI ports provide fixed 8 db input equalization and 3 db output de-emphasis to compensate HDMI cable for up to 17M (55 ft.). A simple and reliable solution, the Component video and HDMI A/V selector links any HDTV source (DVD players and satellite set tops) to one HDTV display. You simply select which source you want to view on the display using the remote control.

Specifications;

- * Connects 3 HDMI A/V, 3 VGA and 3 component A/V devices (DVD players and satellite set tops, etc.) to one HDTV
- * The HDMI ports provide fixed 8 db input equalization and 3 db output de-emphasis to compensate HDMI cable for up to 17M.
- * 12 input ports (Component RCA, VGA, HDMI, A/V RCA) to 4 output ports (Component RCA, HDMI, VGA & A/V RCA)
- * HDMI -19 pin HDMI jack
VGA - HD 15 jack
Component video - 3 RCA jacks (Red, Blue & Green)
A/V RCA (Yellow, White & Red)
- * 6V - 400MA AC/DC power supply

No. 45-570

2 IN 1 COMPONENT/COMPOSITE A/V SELECTOR EASY SELECTION OF INPUT DEVICES FOR YOUR HDTV

Switching for up to five accessories to one HDTV! The back of the selector has provisions for three Component video device inputs plus audio left & right as well as input for one Composite/S-Video input plus audio left & right. Output is also located on the back of the unit. There is an additional Composite/S-Video and audio inputs block on the front of the selector for those momentary hook-ups such as your games, camera etc. Select any five inputs with the push of a button.

No power is required to operate the 44-535 selector; it is completely passive. A 3.5mm stereo audio jack on the front permits easy monitoring of the sources audio. 75 ohm integrity is maintained throughout for your best video performance. A nice looking unit that will sit comfortably on your set top. Dimensions 10-3/4" x 4-1/4" x 1-1/2"

A/V Selector One

- Inputs : 3-component Video (RCA jacks, Red, Green & Blue)
: 3 Audio/Stereo (RCA jacks, Red & White)
- Output: 1 component Video (RCA jacks, Red, Green & Blue)
: 1 Audio/Stereo (RCA jacks, Red & White)
: 1 3.5mm Stereo jack

A/V Selector Two

- Inputs : 2-S-VHS Video (4 pin Mini din)
: 2 Composite Video (RCA jack, yellow)
: 2 Audio/Stereo (RCA jacks, Red & White)
- Output: 1-S-VHS Video (4 pin Mini din)
: 1 Composite Video (RCA jack, yellow)
: 1 Audio/Stereo (RCA jacks, Red & White)

No. 44-535

AUDIO / VIDEO COMPONENT SELECTORS

These Audio/Video Selectors can be used with Satellite systems, VCR's, DVD Players, Laser Disc Players, Cable Boxes, Multimedia Speakers, Video Games, and much more. The unit will allow you to connect up to four (4) inputs to one Television. They are equipped with both S-VHS Jacks (MD4) and RCA jacks for separate Audio & Video inputs. There is also an extra (front mounted) mini stereo jack for stereo Headphones, or Multimedia speakers.

FOUR INPUTS / ONE OUTPUT

No. AV413YC

Specifications:

Frequency: 20 Hz-10 MHz
 Insertion Loss: Audio 1 dB
 Video 1 dB
 Isolation: 30 dB minimum
 Inputs: Audio (4) Sets of RCA Jacks/switch
 Video (4) S-VHS Jacks (MD4 female)*
 + (1) RCA Jack / switch
 *S-VHS Jack is used for both Audio & Video
 Outputs: Audio (1) Sets of RCA Jacks (Left & Right)
 Video (1) RCA Jack + (1) S-VHS Jack
 Dimensions: 7" x 4.3" x 1.9"
 Weight: 14 oz.

FIVE INPUTS / TWO OUTPUT

No. AV521YC

Specifications:

Frequency: 20 Hz-10 MHz
 Insertion Loss: Audio 1 dB
 Video 1 dB
 Isolation: 30 dB minimum
 Inputs: Audio (5) Sets of RCA Jacks/switch
 Video (5) S-VHS Jacks (MD4 female)*
 + (1) RCA Jack / switch
 *S-VHS Jack is used for both Audio & Video
 Outputs: Audio (2) Sets of RCA Jacks (Left & Right)
 Video (2) RCA Jack + (2) S-VHS Jack
 Dimensions: 9.65" x 5.5" x 1.9"
 Weight: 1 lb 7 oz.

Economy Audio / Video selector

Slide switch selector can be used with VCR, CATV, Satellite TV, DVD, Laser Disk Player. The unit will allow you to connect up to three inputs to one television

No. AV31

3 inputs - 1 output

INPUTS: (3) RCA Jacks (Audio left & right + Video)

OUTPUT: (3) RCA Jacks (Audio left & right + Video)

MP3 FM-BROADCASTER FOR HOME & AUTO

Simply plug the MW700 into the earphone jack on your IPOD or any MP3 player, CD player (etc.) and broadcast pure, beautiful music to your Home stereo! Or, take your MP3 music collection with you and play through your Car stereo FM receiver or poolside boom box. It works like a miniature FM broadcasting station.

Listen to your:

IPOD
 MP3 PLAYER
 CD & MD PLAYERS
 PDA's LAPTOPS etc.

No. MW700

Listen ON your:

HOME STEREO SYSTEM
 CAR FM RADIO
 BOOM BOX
 POOL-SIDE FM RECEIVER

FEATURES

There are four user-selectable frequencies to choose from; find an unused channel on your FM receiver. Simple connection: plugs into your player using a 3.5mm stereo plug (just like the one on headphones) Requires two AA batteries

HOME THEATRE A / V SELECTORS

RF MODULATOR

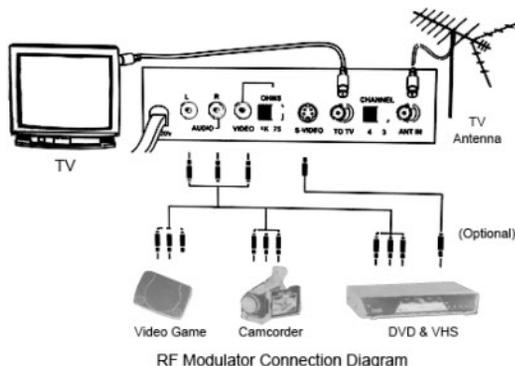

An RF Modulator permits viewing DVDs, Video Games, and home videos on a TV that is not equipped with Audio/Video inputs. Simply use the Antenna input on your TV set as the input from the RF Modulator and connect AV equipment, games, DVD Players etc. to the RF Modulator.

Specifications

RF Output Level: 69db \pm 3.5dB uv
 RF Output Channels: 3 or 4
 RF Output Impedance: 75 ohms
 Video Input Impedance: 75 ohm / 1K ohms
 Audio Input Impedance: 13 \pm 3K Ohm

REMOTE CONTROL AUDIO & VIDEO SELECTOR 3 INPUTS/1 OUTPUT

LKG 44-531 allows you to connect up to 3 inputs (Toslink-Optical, S-Video and RCA audio/video) to one television or Home Theatre System. It can be used with DVD players, video games, satellite receivers, VCR's, Laser Disc Players, VCD's, Camcorders, CD's, Multimedia Speakers, MDS and other digital A/V equipment. Small and easy to operate, the 3 button remote control allows you to select one of three inputs from anywhere in your room.

No. 44-531

Specifications:

Inputs: Audio (3) Sets of RCA Jacks (L&R)
 (3) Toslink Optical Jacks
 Video (3) S-VHS Jacks
 (3) Composite Video Jacks (RCA)

Output: Audio (1) Set of RCA Jacks (L&R)
 (1) Toslink Optical Jack
 Video (1) S-VHS Jack
 (1) Composite Video Jack (RCA)

Dimensions: Selector 9.37"W x 4.25"D x 2"H
 Remote Control 1.75"W x 3.30"L x .25"H

Weight: 2lbs. 10oz.
 Power Supply: 9VDC @ 500mA

REMOTE CONTROLLED COMPONENT VIDEO/AUDIO SELECTOR

Connect up to three different input accessories to one output for your TV or home theatre system; and control the input switching with a shirt-pocket sized remote. Connect DVD's, Satellite receivers, laser disk players and virtually the whole range of audio and video equipment that has matching connectors. Connectors for all three (3) inputs and one (1) output are your choice of RCA jacks for component video (Red, Blue and Green), a toslink jack and 3.5mm stereo jack. Switch either manually at the set or remotely with the remote controller. Supports resolutions 480i, 480p, 720p & 1080i

NOTE that the unit is a switching device and not a converter; you cannot input a toslink and output that signal on one of the other connectors.

No. 44-533

SPECIALTY WALL PLATES

CANOPY WALL PLATE (Removable & Reversible)

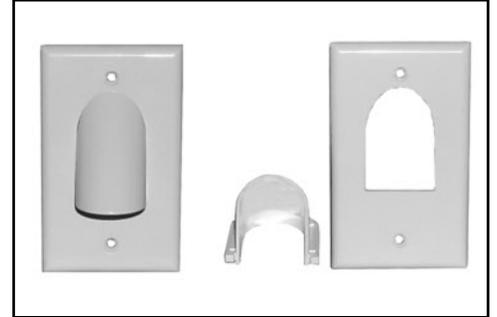

The Canopy Wall Plate is intended for use in situations where installing preassembled cables with molded - on connectors is mandatory. Cables such as HDMI, VGA, S-VHS and so forth can be fed through walls so that they will extend through Canopy Wall Plate. New design will allow installers to remove the canopy portion of the wall plate to allow larger connectors to pass through. Multiple cables can also be fed through at the same time. Available in four different styles and colors.

Canopy opening

Decorator style:	A = 1.10"
	B = 1.25"
Single gang standard:	A = 1.25"
	B = 1.0"
Single gang raised:	A = 1.20"
	B = 1.30"
Double gang standard	A = 2.90"
	B = 1.30"

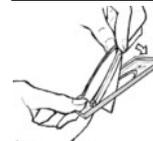

Canopy may be removed / reversed for new connectors if necessary.

With the back of wall plate facing you, hold the plate as shown in the illustration. With a finger putting a little pressure on the canopy from behind, pushing it toward your face.

Flex (bend) the wall plate firmly until the canopy pops out.

Apply the canopy to the back of the plate as shown. Insert canopy tabs first and then rotate canopy into place.

Flexing wall plate and pressing together until the canopy seats on the plate. It will be obvious when the canopy has snapped firmly into place.

SPECIALTY WALL PLATES

QUIK-PLATE®

The QUIK-PLATE®
On the job wall plate creation!

For the:

**PROFESSIONAL
INSTALLER**

HOBBYIST

**DIY HOME
HANDYMAN**

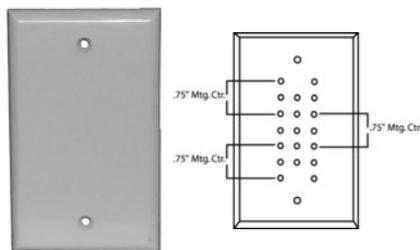

When was the last time that you had just about wrapped up a custom installation and you (or your local supplier) were out of the wall plate needed to finish up? The Quik-Plate® from Philmore can save the installer both time and delayed pay checks. Quik-Plate® lends itself to those last-minute job-site changes when you (or your customer) decide that "one additional connector" is needed at a couple of outlet locations?

It won't matter what type of installation you are working on, the Quik-Plate® can be on-site drilled with the step drill to accommodate just about any assortment of connectors that you need. The Philmore Quik-Plate® assortments will provide you not only with the needed connectors, but excellent (spelled: low-cost) economy as well.

Quik-Plate® is available to you in STANDARD, Designer or 2 piece Designer wall plates and in White or Ivory. All Quik-Plates® have the correct spacing (on the back of the plates), of course, as well as an accurately-placed "drilling dimple" so that you can place the hole(s) in the correct spot every time. Simply check the Philmore listing for hole size and pop a new connector into a clean, correctly sized hole made with your step drill.

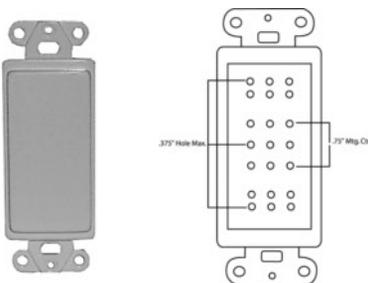

"PRESPACED DRILLING DIMPLES" For Quick and Accurate Hole Locations

HDMI WALL PLATE W / 360° JACK

Great for tight spaces behind the wall. Keystone like design allows installer to adjust input HDMI jack to any 90° directions.

No. 75-1049 - Single HDMI Wall Plate, White
W / Power Indicator Light

HDMI WALL PLATES

HDMI Female to HDMI Female with approximately 2" of flexible cable, mounted on wall plates. Cable pigtail can be bent in any direction, eliminates problem when HDMI cables come from different directions behind the wall. It will also reduce a strain on contacts inside HDMI jack caused by large & heavy cables (26 AWG - 24 AWG) needed on a longer run. Output jack has a LED indicator light available in standard and designer style wall plates, both in single and dual HDMI jacks. Light assembly is required, available in white only.

CUSTOM DESIGN WALL PLATES HDMI, VGA, USB

HDMI / VGA / USB

Introducing a new exclusive design HDMI and USB Female Feed - Thru Jack. Each jack has a built-in LED power indicator light. Both new designs HDMI & USB jacks will give installers more choices of wall plate colors and make it more affordable for a typical Do-It-Yourself user. A space saving design will allow other common Audio & Video jacks on the same wall plate. Choose from a standard wall plate or Designer style wall plate to fit home decor or installation needs.

(2) 3.5mm Stereo

NOTE: (*) = RCA jack is isolated from stainless steel plate and available in 6 colors insulation (Red, White, Yellow, Green, Blue and Orange). You can request (special order) any color or combinations to meet your installation needs. No minimum order requirement on special order just specify color (s) after part number.

CUSTOM DESIGN WALL PLATES QUICK FIT™

These wall plates are made of the finest components which assure the user to get the optimum performance from their equipment. These inserts allow mixing different types into a multi-outlet box and covering them with a single (multi-port) Designer wall plate cover. For this reason Designer Wall Plates are extremely popular for Media Rooms, & Equipment Closets.

CUSTOM DESIGN WALL PLATES KEYSTONE + A/V

Designer Style Keystone Inserts

These inserts are intended for use with Designer style covers and may be installed by themselves or ganged in a multi-gang electrical box. They can be used with Keystone telephone jacks, network jacks, BNC connectors, "F" connectors, and Audio connectors. The mounting hole is the standard keystone cutout (.58" X .76"). Choose from 1, 2, 3, 4, or 6 ports, color is white. Spacing of 4 ports & 6 ports might be too tight to accommodate a multiple RJ45 jacks.

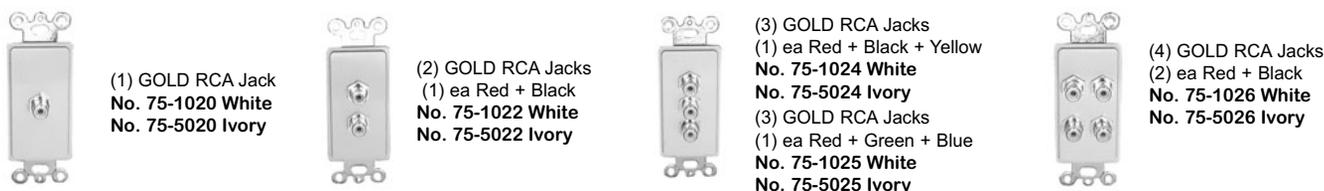

Wall - Plate Adaptors

These adaptors can be used with Philmore Designer style Keystone inserts, color is white.

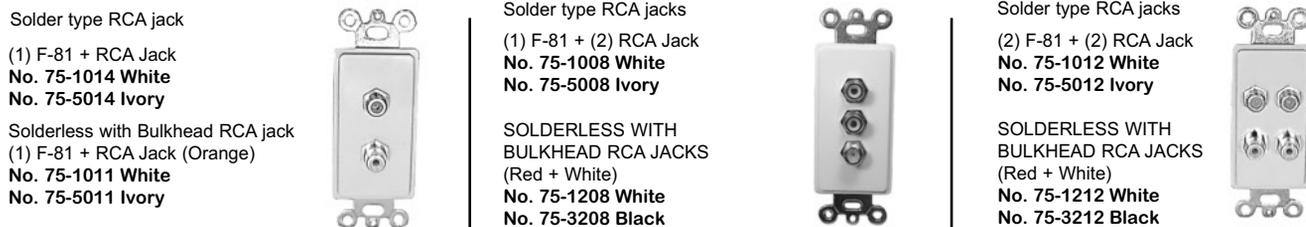

RCA Jack Inserts

These inserts use the standard solder type RCA jacks which are High Quality and color coded for easy identification. Solder Terminal.

"F" + RCA Combo

These Wall Plates have both GOLD RCA jacks & "F" connector Available in solderless & solder type.

PROS FIT SOLDERLESS CONNECTORS

RCA Feed Thru Inserts

These Wall Plates have Bulkhead GOLD RCA jacks for easy Plug "n" Play installation

Converter "F"/RCA Inserts

Convert standard "F" Connector on the rear to RCA Jack on the Front of the wall plate. This configuration allows you to use video coaxial cable for both audio & video.

STEREO HEADPHONES

MediaStar Headphones and Earbuds. Made for Music

The MediaStar™ product group is comprised of consistently superior products, engineered for today's better equipment and particular consumer. When you select a MediaStar™ audio product, you should expect a richer sound experience from base through the high range and as close to real life as your equipment can deliver.

Media Star™ units are not expensive; but we do rate them as among the best units made. There are two general categories of Media Star Earphones, in-the-ear style Earbuds and Headsets.

MediaStar™ Earbuds are intended specifically for use with personal stereos such as Walkman style radios and portable CD players. The Earbuds compact size make them ideal for the traveler, hiker and student. The Media Star™ Headsets will work wonderfully with personal stereos and may be used equally well with your home stereo system.

MediaStar Earbuds.

Engineered by some of the finest engineers in the field, this series can provide you with the finest sound that you will find in Earbuds at any price. MediaStar™ Earbuds provide that intimate world in which you will feel completely "away" with your favorite music. We offer three models, each a slight improvement over the one before.

Earbuds are supplied with a 1.2 meter (47") length cord terminated in a right angle miniature phone plug. Impedance is 32 ohms (all units). The more sensitive Neodymium magnet driver structure will have a better response at the very low (Base) and hi-treble ends of the spectrum. All models responsive from 14 through 20,000 Hz.

Catalog No.	Model Name	Driver Magnet	Sensitivity	Notes
71-1834	Melody	Cobalt	110 db	Excellent replacement
71-1836	Harmony	Cobalt	110 db	In-line volume control
71-1837	Symphony	Neodymium	113 db	Live performance

Our ConcertHall *MediaStar* Headset.

Light and comfortable and very serious about sound; our very best unit. Originally intended for home audio system use but so sensitive that the ConcertHall may be used with the smallest portable personal stereo radios, CD's and MP3 Players. In addition to a full range sound, the ConcertHall has the most accurate base range we have measured in a headset.

The ConcertHall features large, 40mm Neodymium magnet speaker assemblies. Frequency response from 14hz to 20 KHz; maximum input power up to 100 mW. Impedance, 32 ohms @ 1000 Hz. Supplied with a 1.2Meter (47") cord terminated in a 3.5 mm mini phone plug. Use with MediaStar extension cords no. 70-012 (12 ft. length) or 70-016 (25 ft. length) when using with home Sound System, TV etc..

Catalog No.	Model Name	Driver Magnet	Sensitivity	Notes
71-1859	Concert Hall	Neodymium	110 db	Top of the line

MediaStar™ The Guitarist.

Someone suggested that a Guitarist would love this headset; it stays on exceptionally well (even during a rough practice session) and our critic thought that it did an exceptional job with guitar music. Which may be true, but we like it period.

The head-band fits behind the head and then loops over each ear. The speakers are suspended just inside the ear openings; outside sound may also be heard when the volume is not too high. A comfortable, firm fit.

115 dB sensitivity, frequency response at 14 Hz. through 22,000 Hz. with terrific, musical impact across that range. A match with any personal music player or your home sound system. Supplied with a 1.2 meter (47") cord with 3.5mm miniature stereo phone plug.

Catalog No.	Model Name	Driver Magnet	Sensitivity	Notes
71-1857	Guitarist	Cobalt	115 db	Behind Head band, secure fit

STEREO HEADPHONES

MediaStar™ COOL Headset.

A style that has become very popular, the head-band is worn behind the head, and loops over each ear for a comfortable feel. A 47" cord for use with personal/portable stereos or use with an extension cord (such as 70-016) when using with a home sound system.

Ear pieces cover entire ear but foam pads do permit some outside sound to enter if volume is not set too high.

frequency response: 14 to 22,000 Hz.

Sensitivity: -115dB

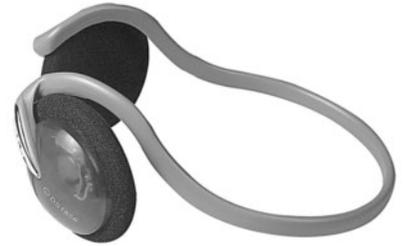

impedance: 32 ohms

maximum input: 110 mW

Magnets: Cobalt Drivers

Cable: 47" w/3.5mm miniature phone plug

Hi-fi Electroacoustics system

Catalog No.	Model Name	Driver Magnet	Sensitivity	Notes
71-1856	Cool	Cobalt	115 db	Electroacoustics

No. 71-1850 MediaStar™ the REPLACEMENT

Standard lightweight headphone for general replacement for the unit that arrived with your personal stereo; usually will outperform the original. This feather weight still has a 100 dB sensitivity and provides excellent sound via the pure cobalt earpiece speakers; range 18 Hz to 20 KHz. Standard 47" cord and mini stereo plug, 32 ohm impedance.

71-1853 MediaStar™ GRADUATE

An improvement over just about any headset that is included with a personal stereo. Standard fit, over the head band, 47" cord. The Graduate is light in weight which, combined with foam ear pads, allows for long periods of use; on walks or at your desk.

Rated at 14 to 20 KHz. frequency range and a sensitivity of 110 dB. Maximum input power, 100 mW. Impedance 32 ohms

Catalog No.	Model Name	Driver Magnet	Sensitivity	Notes
71-1850	Replacement	Cobalt	110 db	Adjustable head band
71-1853	Graduate	Cobalt 27 mm	110 db	Adjustable head band

MediaStar Headphones and Earbuds.

For COMPUTER USE.... MULTI media Headsets with microphones.

Two MediaStar headsets are available for use at the computer, the major difference being that one has a single earpiece and the other is a stereo unit. The Stereo Unit, "the MultiMEDIA", delivers music quality sound fidelity while the "BUSINESS" unit is for pretty straight-forward computer use, dictation to your word processor, Internet telephone calls and so on.

Foam ear pads allow some outside sound to enter so that you will be able to hear a telephone and other office sounds. A comfortable fit will permit long hours of use. Both units are supplied with two plugs, one for the microphone and the other for the earphone(s). If a longer cord is needed, please do use one of the MediaStar™ stereo cables so that sound quality is not lost in an ordinary cable.

Standard 42" length cables on both units. Earpiece impedance 32 ohms, microphones are a standard high impedance for use with computer sound cards

Catalog No.	Model Name	Driver Magnet	Sensitivity	Notes
71-1891	Business	Cobalt	100 db	Monaural
71-1892	MultiMedia	Cobalt	100 db	Stereo

STEREO HEADPHONES & ACCESSORIES

Stereo Extension Cord w / In-Line Volume Control And Mono / Stereo Switch

10' extension cord with 3.5 mm Male on one end and 3.5 mm Stereo Female on the other. Small 3 Cond. cable (2.0 mm O.D.) has an in-line switch to change from stereo to mono and a thumb wheel volume control.

No. 70-023

STEREO HEADPHONE LUXURY MODEL WITH BUILT-IN VOLUME CONTROLS STEREO/MONO SWITCH

A luxury model for a Professional Listener: Volume controls on each phone permit the selective reproduction of sound levels to personal preference on both right and left channels. A mono switch is provided for TV, radio and musical instruments. Two moving coil driver transducers are used for speakers, producing a full range frequency response of 20-20,000Hz power handling capacity of 0.5 watts. Impedance: 8 ohms. Sensitivity: 110 db at 1000Hz with 1mW.

No. HD3030

MINI STEREO HEADPHONES STEREO HEADPHONES with EXTENSION CABLE

This quality headphone is the perfect replacement for all personal stereo, cassette and CD players. The adjustable headband provides for comfortable use and is provided with an adaptor (1/4" to 3.5mm) to allow easy hook-up to regular stereo equipment.

- Type: 27mm Mylar Speaker
- Frequency Range: 20-18,000 Hz
- Impedance: 32 ohms
- Sensitivity: 96db S.P.I. at 1 KHz
- Max. Input Power: 100mW

No. SP26 - 4 Ft. cord

No. SP26-10 - 10 Ft. cord

No. 40-430 Stereo Mini Headphones (4' CORD) with 10 ft. extension cable. (Blister Card Packing)

EAR CUSHIONS for MINI STEREO HEADPHONES

The perfect replacement cushions for mini-stereo headphones. Made of the same quality material as cushions supplied with standard headphones to take the extra wear and tear that mini-headphones are subject to. They slip over ear cups 1-3/4" diameter. 2 per package, in charcoal gray color. O.D. size of cushion is 1.90".

No. EP1

No. EP4 - Larger than No. EP1 (2.05" O.D.)
Slip over ear cups 2-1/2" diameter

REPLACEMENT FOAM EAR PADS

Use for several types of mini headphones. Choose from selection below.

No. EP2 - Charcoal Gray
No. EP3 - Orange

REPLACEMENT FOAM EAR PADS

For ear buds (in-the-ear-style) type earphones. Fits Media Star earbuds (No.71-1834, No. 71-1836 & No. 71-1837) and others, including most earphones for MP3 player. Color is light Grey.

No. EP5 - Package of 4

EARPHONE AND MICROPHONE ACCESSORIES FOR FRS, PERSONAL RADIOS

EARPHONE/ MICROPHONE for Cobra FRS Radios (secret service style, black color) Specifically designed for use with FRS two way radios made by Cobra. Provides private listening via a single, monaural earbud that will fit into either ear.

No. 70-233 - 47" cord

The microphone may be clipped on to the users collar with a built - in clip and is activated by a Push-to-talk (PTT) switch on the microphone assembly. The radio could be worn on the users belt or hidden in a pocket; run the wire under a shirt or jacket to keep it out of the way (cord is long enough for a loop at the Microphone). This is a very convenient arrangement for hikers, fishermen, spies and other outdoorsmen; as well as for keeping in touch with each other at the mall, in the city etc. Standard 32 ohm impedance.

UNIVERSAL MONAURAL EARBUD

FOR FRS, GMRS, WALKMAN, TV etc..

Made to be used with just about any portable radio, some two - way radios and TV; use for private listening (also saves battery power). Compatible with Cobra FRS and Ham radio HT's if they have a separate 3.5mm earphone jack. Use with a walkman or other portable stereo radio when listening to news, talk shows or other broadcasts. Comfortable foam earpad, fits either ear. The 3.5 mm plug fits the earphone jack on almost any portable; 42" cord is plenty long to reach to a beltmounted radio or one stashed in pant's pocket. Standard 32 ohm impedance, color Black.

No. 70-222 - 42" cord

EARPHONES & PILLOW SPEAKERS

MICRO-STEREO EARPHONES

Fit Comfortably in Your Ear

Tiny "BUDS" fit your ears and produce outstanding results. Comes with handy plastic case. Truly private listening, Ideal for TV in bed. 3 ft. cord and 3.5mm right angle stereo plug. Ferrite magnets with mylar cones. 60mW. With extra set of earpads. Bubble carded for impulse sale.

No. SP426

STEREO EARPHONES W / EXTRA LONG CORD

Earbuds fit comfortably in your ears and produce outstanding sounds. Comes with 18 Ft. cord and 3.5mm right angle stereo plug.

No. 70-1818 - 18 Ft. Length

DeLUXE PILLOW SPEAKER

A larger speaker for the best audio when used under a pillow. Low impedance for use with nearly any A.M. radio etc..., great for night time talk shows. This is monaural, of course and not for use with stereos, CD's etc.. Six foot cord is terminated in standard mini-plug (3.5mm). 8 OHM Impedance

No. R60
No. R60B bulk packed

PILLOW SPEAKER

Use under a pillow for private listening to A.M. radio etc.. won't disturb your spouse. Low impedance magnetic transducer is fully protected in molded case; employ's bone conduction for excellent reproduction. Just 2 - 1/2" in diameter and 11/16" thick. Cord length is six foot with mono (3.5 mm) mini plug. 8 OHM Impedance.

No. R49
No. R49B bulk packed

DYNAMIC EARPHONES

Ideal for private listening on transistor sets, hearing aids, radio sets and TV sets. These compact earphones are equipped with slim metal ear support for comfortable listening. Twisted stranded wire provides reliability and maximum flexibility. An extra plastic earpiece is provided.

Miniature (1/8" Dia.) Plug

	Impedance	Cord Length
No. P78	8	10 ft.
No. P77	8	6 ft.
No. P7	8	3 ft.
No. P10	2000	3 ft.

Subminiature (3/32" Dia.) Plug

	Impedance	Cord Length
No. P76	8	3 ft.
No. P79	8	10 ft.

For Bulk packed add suffix letter "B" to the part number.

MOLDED SINGLE-PIECE CONSTRUCTION

This molded white earphone has 15 ohm impedance. Unitary construction eliminates need for a detachable earpiece. Miniature (1/8" D) plug termination. Used widely in hospitals and other institutions.

No. P8W - 7 ft. cord
No. P8BW - Bulk Packed
No. P8-20 - 20 ft. cord
No. P8-20B - Bulk Packed

CRYSTAL EARPHONES

Crystal earphones have a very high impedance (over 100 megohms) for a variety of receiving and listening applications. All have molded plastic shell

	Termination	Cord Length
No. 747	Mini (1/8") Phone Plug	7 ft.
No. 748	Stripped and Tinned	7 ft.
No. 748SP	Std. (1/4") Phone Plug	7 ft.

Nos. 747 and 748 are display packaged. For bulk packed add suffix letter "B" to the part number. No. 748SP is available in bulk only.

MICROPHONES ACCESSORIES

COMMUNICATION DYNAMIC MICROPHONE

for CB and Amateur Applications

Everyone can now enjoy a microphone with superior specifications at a moderate price. Features four (4) conductors, (1 shielded), in a 6-ft. coiled cable designed for relay or electronic switching in transmitters, transceivers and PA amplifiers.

Full size, press-to-talk switch extends over half the length of this hand-held mike. High impact shockproof case is attractively styled in matte finish midnight black. Supplied with rear hanger button.

Specifications:

Directivity: Omni - Directional

Sensitivity: -72dB ± 4db at 1KHz

Frequency Response: 200Hz - 5KHz

No. CM43A

RETRACTABLE MULTI-CONDUCTOR CABLE

These retractable cables have stranded copper conductors consisting of 15 strands of 37 AWG wire. The shield has 48 strands of 37 AWG copper wire. Cable O.D. of shields are extended and tinned for grounding.

MULTI - COLOR MICROPHONE WINDSCREEN SETS

Each soft foam screen adds depth and beauty that the entertainer will find hard to resist. Instant color is added to his/her act. Unwanted "breath" noise due to close talking is eliminated when windscreen is slipped over microphone.

POP and WIND Noise usually associated with outdoor use is filtered out as the foam material is made of open pore urethane foam.

Indoors or out, any microphone can now look different each time - and sound the same every time. A tip for users of mike mixers - avoid mike mix -ups. Identify each mixer control with the color of the windscreen on the microphone it controls.

NOISE FREE MICROPHONE CABLE

500 ft. Reel

Fully shielded, two conductor cable with heavy copper braid for balanced line microphones. Heavy-duty black rubber jacket to meet all service requirements. This 500 foot cable, spooled and supplied with a plastic axle, is contained in a display / dispenser box for ease of distribution.

No. EMC160T - Two Conductor

No. EMC95T - Single Conductor

Same Specifications as No. EMC160T

SOLID-STATE STEREO PRE-AMPLIFIER

Convert from a crystal to magnetic cartridge.

This high quality Stereo Pre-Amplifier will allow you to replace a Crystal or Ceramic stereo cartridge with a better quality magnetic stereo cartridge while using the original Stereo amplifier supplied with your turntable. The use of this Pre-Amplifier in conjunction with a magnetic cartridge will give you CD quality sound out of your vintage turntable. Improved circuitry and filtering in the power supply results in lower hum while maintaining an isolated ground loop.

No. PRE600

SPECIFICATIONS:

Circuit Design: Low noise Silicon transistor, Printed Circuit

Frequency Response: 30-20,000Hz equalized RIAA.

Input Impedance: 50k ohms

Max. Output: 1.8V (less than 1% distortion)

Output Load: 50k ohms

S/N Ratio: Over 60db

Power Supply: 117 VAC, 50-60Hz .1 watt

FOUR SETS OF INTERCHANGEABLE WIND SCREENS -BOTH FUNCTIONAL AND DECORATIVE-

No. MW1 - Contains four 1-3/4" high windscreens to fit over 1" to 1- 3/8" Dia. microphones. Colors: Red -Yellow - Green - Black.

No. MW2 - Contains four 2-3/4" high windscreens to fit over 1-3/8" to 1- 3/4" Dia. microphones. Colors: Red -Yellow - Green - Black.

No. MW3 - Contains two 2-3/8" high windscreen to fit over 1-3/4" to 2" Dia. microphones. Colors: Red - Green.

No. MW4 - Contains one 2-3/8" high windscreen to fit over 1-3/4" to 2" Dia. microphones. Color: Dark Grey

MICROPHONES & CABLES

Tie-clasp Microphones

Designed to be inconspicuous, these microphones can be worn like a tie-clip, on the lapel, suspender or even concealed by a corsage. Typical uses are with a pocket-sized tape or digital recorder, FM transmitter during interviews, for news report recording or in a classroom. Highly dependable, durable and designed to eliminate background noises while still being very sensitive to sounds in the immediate vicinity. Two types available: Uni-directional and Omni-directional, both stereo microphones with standard (3.5mm dia.) phone plugs. Use the Uni-directional type when wanting to keep left/right as much separated as possible; recording person on both left and right. Use the Omni-directional when you want a natural sounding stereo sound and wish to have pick up from as wide an area as possible. Separation is sharp and clear on playback.

No. CM57

No. CM58

Part no. CM57.....uni-directional Stereo Lapel Microphone, Imp. 680 ohms. Sensitivity: -46 ~54dB, S/N ratio >58dB, with 1 meter cord and 3.5mm stereo plug.

Part no. CM58.....omni-directional Stereo Lapel Microphone, Imp. 1.5Kohms, Sensitivity -42 ~ 46 dB, S/N ratio >60 dB, with 1 meter cord and 3.5mm stereo plug .

OMNI-DIRECTIONALS

(Condenser Cartridge Type)

No. EM300 - All new version of the popular tie clasp microphone has pickup element and amplifier built into tie clasp housing. The battery (easy to find, 1.5V AA) is minated with 3.5mm plug which plugs into battery housing. Unit is not supplied with battery.

Electrical specifications for Omni-Directionals:

Frequency Response: 40-16,000 HZ

Sensitivity: -64 ± 3db.

Impedance: 600 ohms

No. EM300

The **No. EM300** is packaged on an attractive display card.

TAPE RECORDER MICROPHONE REPLACEMENT for MOST PORTABLE RECORDERS

Low impedance, dynamic "mic" with dual plugs, (3.5mm and 2.5mm) for any tape recorder input. With remote ON-OFF switch, desk stand, approx. 3-1/2 ft. cord, 200 ohm impedance for excellent speech and music reproduction. Will improve recording quality on any low-cost recorder with built-in microphone.

NO. RC1

LAPEL CRYSTAL MICROPHONE

A low-priced replacement microphone for PA amplifiers, cassette and open reel portable tape recorders. With approximately 3 ft. shielded cable. Lapel microphone is equipped with molded 3.5mm plug. A clip is provided to assure firm attachment on the lapel. A sensitive high impedance cartridge reproduces crisp clean sounds. Simply plug 3.5mm plug into "mic" jack on amplifier or recording equipment.

NO. LM101S

Frequency Response: 70-8,000 Hz

Sensitivity: -50 db

Size: 1-1/2" dia. x 1/2"

UNBALANCED CABLES

Cables with 3-pin XLR female on one end, 1/4" phone plug on the other.

Number	Cable Description
71-1590	6 ft. XLR F to 1/4" Male phone plug cable
71-1592	12 ft. XLR F to 1/4" Male phone plug cable
71-1593	17 ft. XLR F to 1/4" Male phone plug cable

BALANCED CABLES

Cables with a 3-pin XLR connector on each end, male to female, for use with balance amplifiers. For any MediaStar microphone.

Number	Cable Description
71-1570	6 ft. length cable, 3-pin XLR Male to Female
71-1573	12 ft. length cable, 3-pin XLR Male to Female
71-1575	17 ft. length cable, 3-pin XLR Male to Female
71-1577	25 ft. length cable, 3-pin XLR Male to Female
71-1580	50 ft. length cable, 3-pin XLR Male to Female

MICROPHONES CONNECTORS & ADAPTORS

MICROPHONE CONNECTORS

These cannon type three contact microphone connectors are of die-cast zinc alloy with Nickel plate finish. In-line connectors have rubber strain relief. Locking detent action is incorporated in the design of the Female connectors.

3 Pin XLR Female To 3 Pin XLR Male Adaptor (CROSS WIRE PIN 2 & 3)

No. 44-122

3 PIN XLR ADAPTOR Mini XLR plug to standard XLR jack.

No. 30-662

3 PIN XLR ADAPTOR Mini XLR plug to standard Plug.

No. 30-664

FEMALE CONNECTOR

For cable connections with spring protector to prevent sharp bending of cable. Includes coupling ring. Brass, nickel plated. Single contact. Coupling ring is removable. Standard 5/8" - 27 thread.

- No. 2317J**
- No. 2317JB BULK PACKAGED**

BALANCED MICROPHONE MATCHING TRANSFORMER

Low - z to Low - z

This matching transformer adapts all balanced line, low-impedance microphones (150 ohms to 600 ohms) to a standard low impedance phone jack. It is terminated with a CANNON or Switchcraft type 3 -pin female connector and a 1/4" phone plug for inputs requiring low impedance, unbalanced sources. The center tapped primary is grounded to maintain all the advantages of a balanced line low noise pickup and excellent frequency response. Pin one is grounded: Pins 2 & 3 connect to the microphone circuit.

No. HL7

MICROPHONE ACCESSORIES

FLANGE-STYLE MICROPHONE MOUNTS

Designed for mounting on a table top, side wall etc., will accommodate a gooseneck or microphone extension pipe. Made for use as a permanent mount. The larger diameter is suggested for better strength if use will be constant and rigorous. Chrome plated finish; 5/8"-27" standard threads.

71-4001

71-4005

71-4007

- No. 71-4001** - 1-3/4" diameter, male threads
No. 71-4005 - 2-3/4" diameter, male threads
No. 71-4007 - 2-3/4" diameter, female threads

MICROPHONE GOOSENECKS

Flexible "gooseneck" may be used with Flange mounts, Table top mounts or on top of a floor microphone stand. Provides quick, easy repositioning of the microphone. Available in two lengths and in standard chrome or dull, non-reflective black. Male one end, female on the other.

- No. 71-4030** - 6" length Gooseneck, black
No. 71-4031 - 6" length Gooseneck, chrome
No. 71-4040 - 13" length Gooseneck, black
No. 71-4041 - 13" length Gooseneck, chrome

MICROPHONE HOLDER

This adjustable microphone holder adapts to the bodies of microphones from small cassette types to larger professionals. A squeeze of the handle, and the holder grips the microphone with a secure grooved ridge contact. Accommodates microphone handles from 5/8" to 1-3/8" diameter. Tilts a full 180 degrees. Standard microphone stand fittings, 5/8" - 27 threads.

No. SM85

MIKE PIPE

Use with the flange mounts (No. 71-4007) with bases for table microphone stands etc..

The 3" "pipe" is chrome plated, threaded on each end with standard 5/8"-27 threads to mate with standard microphone holders and bases. Included is a star nut that can be used to tighten the pipe against a mike holder, prevents loosening.

No. 71-4010.....3" Mike Pipe

MICROPHONE HOLDER ADAPTORS

Microphone holders and stands are supplied with one of two different size threads. The 5/8" -27 size is one and 3/8"-17 is the other. If you have a mike holder of one size and a stand with the other, you'll need an adaptor to use them together. One of these small adaptors will solve the problem; road groups should carry a few of each.

71-4015

71-4016

- | Part no. | Description |
|--------------------|----------------------------------|
| No. 71-4015 | - 3/8"-17 female to 5/8"-27 male |
| No.71-4016 | - 5/8-27 female to 3/8" -17 male |

ADD - ON MICROPHONE BOOM

This is a handy accessory for use with microphone floor stands in this section. An adjustable boom that can accommodate a second microphone for an instrument, other vocalists etc., or simply to hold a set of stereo microphones on one stand and boom. The 32" long boom may be adjusted and tightened "in" or "out" as well as angled up or down to any useful angle.

The boom shaft has a standard 5/8"-27 thread to accommodate standard microphone holders. Positive-locking cam for quick, quiet adjustments. The boom is available in conventional chrome plating or in dull black (non-reflective) finish to match microphone floor stands on this page.

- No. 71-4666**.Microphone Boom, Chrome
No. 71-4667.....Microphone Boom, Black

UNIVERSAL MICROPHONE HOLDERS

Holds microphone firmly - No Compromise. Slide in any microphone having a 3/4" to 1-1/4" diameter handle. This black holder is sharp looking with all microphones. Firm swivel adaptor tilts through 180 degrees. Has standard 5/8" - 27 threads.

No. SM70

MICROPHONE STANDS

STANDARD DESKTOP ADJUSTABLE MICROPHONE STAND

This is all-time standard desktop style, a 5-1/4" diameter, round, die-cast iron base (black finished) with an adjustable chrome shaft. Height may be adjusted from approximately 7.5 to 13.5 inches. Sure-locking Collett prevents slipping and will last indefinitely. Standard 5/8"-27 threads at top accepts threaded microphone holders.

No. 71-4512.....Standard desktop mike stand

DESKTOP STOWAWAY MICROPHONE STAND

It looks like a miniature space probe when collapsed for travel, but it's actually a tough little stand that can be set up in a few seconds. The leg assembly unscrews from the upper cone and the legs collapse and store inside. Made of a tough, fiber filled plastic. Reduces to a 5-1/4" long cone. Standard 5/8"-27 thread on top, accommodates standard microphone holders.

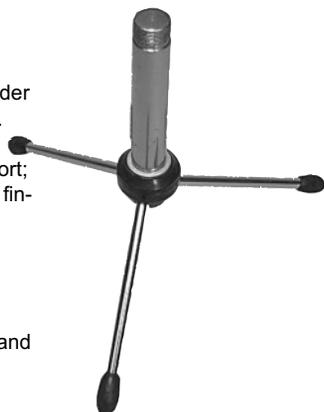

Part no. 71-4503.....Stowaway mike stand.

DESKTOP TRIPOD MICROPHONE STAND

A very portable little stand that will accommodate any microphone holder that has a standard 5/8"-27 thread. The legs may be collapsed for easy storage and protected transport; sets up again in seconds. Chrome finish and soft rubber feet.

No. 71-4502...tripod desktop stand

DESKTOP GOOSENECK MICROPHONE STAND

An iron, die-cast base and flexible gooseneck microphone stand. Rubber feet and a vinyl clad base provide for quiet use. The 5/8"-27 thread on top accommodates standard microphone holders. The entire stand is a low reflecting black finish. The gooseneck may be unthreaded from the base for transport or use with other stand parts. Total height 13.5"

No. 71-4507 - Gooseneck mike stand, black

DELUXE DESKTOP MICROPHONE STAND with BOOM

For very serious use, such as interviews, recording commercials or radio work, this is a fine stand with several very important features. The boom is removable if there are occasions to use the stand and shaft alone; height adjusts from about 9" to 15" and will accommodate any standard 5/8"-27 microphone holder (not included). The boom is 17" long and may be adjusted "in" or "out" as well as set at any angle necessary; a secure cam will hold a microphone exactly where you place it. The die-cast iron base is nicely finished (soft black) and has rubber feet to prevent marring table surfaces. May be silently readjusted/repositioned for changing users. Heavy, not usually recommended for portable use. This is a professional quality microphone stand and priced far below professional cost.

No. 71-4517.....Deluxe desktop Microphone Stand w/boom.

STANDARD MICROPHONE FLOOR STANDS

This is a familiar microphone stand with die-cast iron base and adjustable in height. The upright may be adjusted from approximately 32" in height up to 60". (The addition of a microphone and holder will usually take the mike up to about 5-1/2 feet max. height) The 5/8"-27 thread on top will accommodate standard microphone holders. Heavy rubber feet eliminate floor noise; and positive locking collets assure that the height will stay where you have placed it. Two finishes are available, traditional chrome mirror finish shaft with a black base or non-reflective black shaft and base.

No. 71-4652.....Floor Stand, Chrome
No. 71-4653Floor Stand, all Black

TRIPOD MICROPHONE FLOOR STANDS

An innovative idea in microphone stands, light in weight and collapsible for easy transport or storage. The stand may be adjusted from a height of only 31" up to 64" and is very stable. The collapsed package is only 31" long; easy to transport and much lighter than die-cast base units. The top accommodates standard (5/8"-27 threads) microphone holders. Constructed of steel tubing and nylon molded parts. Rubber feet.

Two finishes are available, traditional chrome mirror finish shaft with black molded parts; or non-reflective black shaft and black molded parts. (Black for low reflection of spotlights and camera flash units.)

No. 71-4682.....Floor Stand, Chrome
No. 71-4683Floor Stand, all Black

AUDIO CABLES

Stereo Jumper Cables

Fully shielded stereo (two conductor plus grounding shield) jumper cable with color-coded RCA-type phono plugs at each end. Newly introduced are gold plated connectors for reduced contact resistance and elimination of oxidation and/or corrosion. The gold plated cable assemblies have black insulating jackets and are blister packaged for display. The nickel plated cable assemblies have black jackets.

Male to Male

No. CA32	Nickel	18 in.
No. CAG34	Gold	3 ft.
No. CA34	Nickel	3 ft.

No. CA24	- 12 ft. - Nickel
No. CAG24	- 12ft. - Gold
No. CA26	- 25 ft. - Nickel
No. CA52	- 50 ft. - Nickel

CRYSTAL CLEAR AUDIO CABLES:

High quality cables with bright Gold plated RCA plugs with molded strain relief on each end. The center conductor and spiral shield are oxygen free copper for better conductivity. Encased in a clear jacket.

Single RCA - RCA

No. 70-503	- 3ft
No. 70-506	- 6ft
No. 70-512	- 12ft
No. 70-525	- 25ft

Dual RCA - RCA

No. 70-603	- 3ft
No. 70-606	- 6ft
No. 70-612	- 12ft
No. 70-625	- 25ft

Y - Adaptor

No. 70-4010	- RCA/M - (2) RCA/F
No. 70-4000	- RCA/F - (2) RCA/M

SPEAKER EXTENSION CABLE

Extra long length POLARIZED 2 conductor, 22 gauge unshielded speaker cable, allowing the listener to position their speakers in any desired location for maximum HI-FI sound.

RCA type phono plug at each end.

No. EC1	- 25 ft.
No. EC5	- 40 ft.

RCA type phono plug to RCA type phono jack.

No. EC4	- 40 ft.
---------	----------

MEDIA STAR™ AUDIO/MULTIMEDIA CABLE

LKG MediaStar™ cables employ better materials throughout. Pure copper conductors receive a refined tin plating to prevent chemical degradation which commonly begins to occur to raw copper within months of manufacture. This plating assures fidelity without losses in the mid and high audio ranges. The inner cable is heavier than most (26ga. vs 28ga.) to reduce electrical resistance; shielding has also been increased. The outer PVC insulation is advanced (SRPVC) material that will increase life and durability by years. And the light grey color blends practically unnoticed into your home or office. Bulk MediaStar™ Cable is ideal for custom audio connections. Available in 100 ft. and 300 ft. spools.

Single Conductor with Shield:

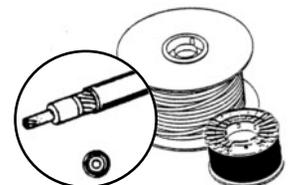

No. 70-1100	- 100 ft. Spool
No. 70-1300	- 300 ft. Spool

Two Conductor with Shield:

No. 70-2100	- 100 ft. Spool
No. 70-2300	- 300 ft. Spool

Dual Shielded Conductors:

No. 70-3100	- 100 ft. Spool
No. 70-3300	- 300 ft. Spool

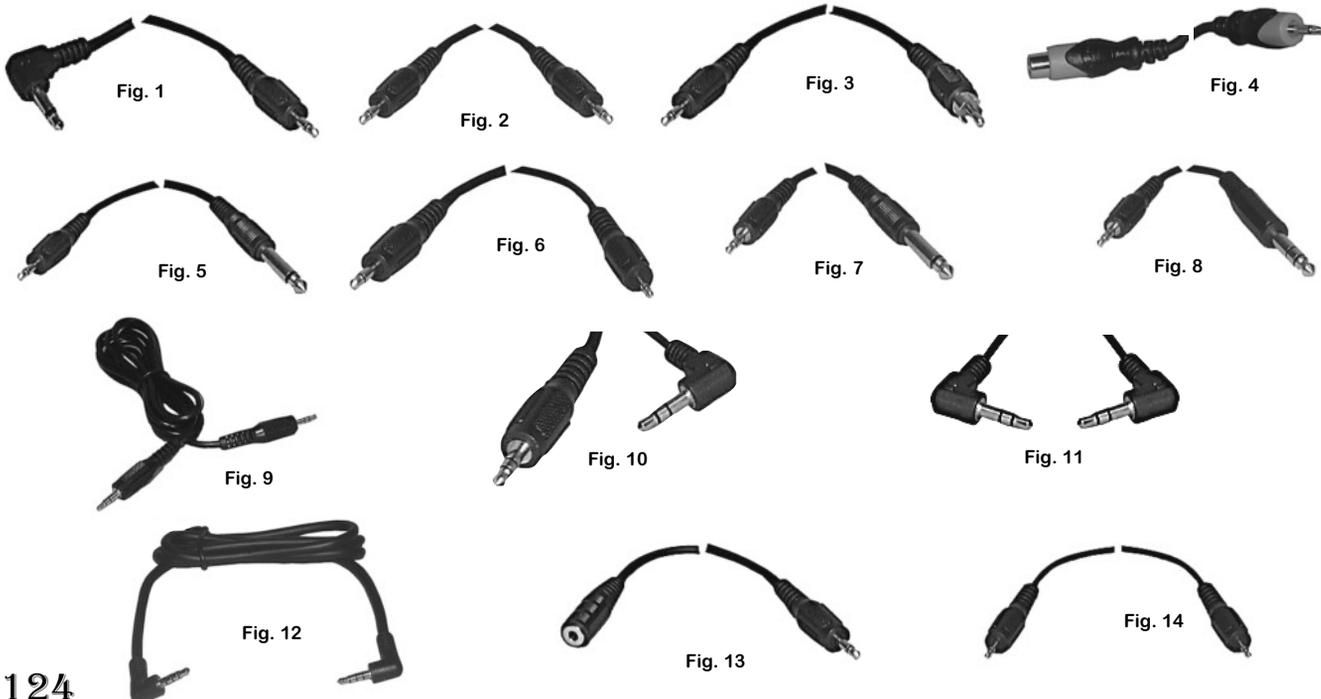

No. 70-1100

AUDIO CABLES AUDIO PATCH CORDS & EXTENSION CABLES

Fully shielded audio cable with flexible black jacket. Unless otherwise stated, all connectors are Nickel plated.

AUDIO CABLE TRI-AUDIO ADAPTORS

Philmore's new line of adaptors allows the user to combine two inputs into one or to split one input to feed into two different devices. Philmore Tri - Audio Cable Adaptors are new combinations of audio adaptors in variations never before thought possible. Philmore Tri - Audio Cable Adaptors will give the user extra plug or jack needed and solves the problem of having multiple audio adaptors or not enough jacks available for a hook - up problem. Some of these combinations will also combine a stereo signal for a mono device or vice-versa; the possibilities are endless. All cables are 12 inches long.

AUDIO MAINTENANCE ACCESSORIES

MULTI-PURPOSE CASSETTE CLEANER

- For Home and auto
- Cleans head, capstan and pinch-roller of tape deck in one operation
- Magnetic cleaning tip cleans left to right and rotates 360 degrees

No. CC126

No. CC125 - 10 Replacement tips

No. CC127 - Replacement fluid

COMPACT DISC COURIER

Simple • No Wiring • No Batteries

This unique adaptor provides user with ability to connect compact disc player to any portable audio player or car cassette system. This adaptor requires no wiring or permanent installation. Insert the cassette portion of this adaptor into player and plug the wire into headphone jack of CD player and user is ready to enjoy CD thru the cassette player system. Operates on front and side loading cassette players. Compatible with all in-dash, under-dash, boom boxes, etc. Comes with easy to follow instructions.

- New, improved model with auto reverse
- Play portable CD player thru car stereo cassette
- Plugs into headphone jack on CD
- Use also for boom box, portable cassette, or home stereo
- Patent #4734897

No. CD419

CASSETTE HEAD CLEANER and DEMAGNETIZER

Cleans and demagnetizes without any external power source. Safe and effective. Removes dirt and residual magnetism from tape heads. Use in home, auto, etc...

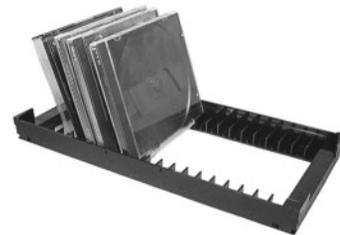

No. CC130

COMPACT DISC STORAGE/ORGANIZER "Flip File"

No. CD435

Holds 20 CDs in standard jewel cases or in LIFT-LOCK case. The most convenient

storage rack available anywhere. Permits quick viewing of front, backside or spine of disc case. Easily places on a shelf or cabinet, or even in a drawer.

CD LASER LENS CLEANER

CD players utilize a special laser to retrieve the digitally encoded information on CDs. This laser is focused by small optical lens. This cleaner is very effective in cleaning the lens and should be used monthly.

No. CD450

MP3 FM-BROADCASTER FOR HOME & AUTO

Simply plug the MW700 into the earphone jack on your IPOD or any MP3 player, CD player (etc.) and broadcast pure, beautiful music to your Home stereo! Or, take your MP3 music collection with you and play through your Car stereo FM receiver or poolside boom box. It works like a miniature FM broadcasting station.

Listen to your:

IPOD
MP3 PLAYER
CD & MD PLAYERS
PDA's LAPTOPS etc.

No. MW700

Listen ON your:
HOME STEREO SYSTEM
CAR FM RADIO
BOOM BOX
POOL-SIDE FM RECEIVER

FEATURES

There are four user-selectable frequencies to choose from; find an unused channel on your FM receiver. Simple connection: plugs into your player using a 3.5mm stereo plug (just like the one on headphones). Requires two AA batteries

PA AMPLIFIER & LINE MATCHING TRANSFORMERS

MOBILE FIXED LOCATIONS

AC-DC P.A. Amplifier

30 WATTS RMS
2 LOW IMPEDANCE
MICROPHONE INPUTS

USE IT ANYWHERE

45 WATT (PEAK POWER)

- 12 Volt DC for MOBILE USE
- 117 Volt AC 50/60 HZ for FIXED LOCATIONS

No. PA503

The versatility of this powerful P.A. Amplifier enables the user to operate it anywhere: For mobile use - 12VDC (with positive or negative ground). For auditoriums or other fixed stations -117VAC 50-60 cycles.

Its versatility does not end as WHERE it can be used - but also as to HOW it can be used: Two low impedance microphone inputs, auxiliary input for cassettes, reel-to-reel tape recorders, phonos and CD players. Special music input for musical instruments, tuners and audio decks. The brushed aluminum front panel has gain controls for 3 different sources of audio including 2 independent mike mixing controls.

FEATURES

- Sturdy Adjustable Mounting Bracket
- Convenient Mike Input on Rear and Front Panel
- Fused Line
- Ideally suited for both crisp and clean sound whether using amplifier for voice or music.
- Size: 10-3/4" W x 6-3/8" D x 2-3/4" H (Less Feet)

SPECIFICATIONS:

Power Output: 30 watts RMS @ 2% THD

Frequency Response: 50 - 18,000 Hz

Line Outputs: 25 volts & 70 volts

Output

Impedance: 4-8-16 ohms

Power

Requirements: 12VDC and / or 117VAC 50-60Hz

MINI AMPLIFIER

Philmore mini Amp PA305 is built to deliver powerful music sound. Great for boosting the signal from a CD player, MP3 or Ipod or any line-level signal device. Simply connect your stereo source to audio input jack (3.5mm stereo jack) on the back of PA305 or use auxiliary RCA jacks. It has two channel outputs, easy to connect push button speaker terminals. Don't let the small size of this little power house fool you. Delivers 10 watts per channel into 8 ohm speakers. Separate Bass/Treble controls. Operated on 15V DC, wall power supply included

Specifications:

Power per channel: 20 watts RMS x 2 (into 8-ohm speakers from 20 to 20,000 Hz with 0.2 percent THD); 40 watts RMS x 1 (into 8-ohm speakers from 20 to 20,000 Hz with 0.2 percent THD)

Input sensitivity: 1.5Vrms

Signal-to-noise ratio: 107 dB A-weighted

Frequency response: 5 to 65 kHz, +/- 3 dB

Audio inputs: one 3.5mm input and one stereo analog (left/right) RCA input

Audio outputs: 2 sets of stereo (left / right) speaker - level outputs;

Speaker terminals: Push Button

Size: 4-3/4" x 2-1/2" x 1-1/2"

No. PA305

High Quality Speaker Wire

This speaker wire has clear jacket, and is polarity marked for your convenience. We offer speaker wire in varying gauges and put-ups to suit your particular needs. All on plastic spool.

Length	24AWG	22AWG	20AWG	18AWG	16AWG	14AWG

Dual Line Matching Transformer

Eliminate power loss caused by long distance between Amplifier and speaker. For 8 ohm speakers, 70 volt / 25 volt dual voltage. Mounting Centers - 2 7/16".

No. MT2570

Specifications:

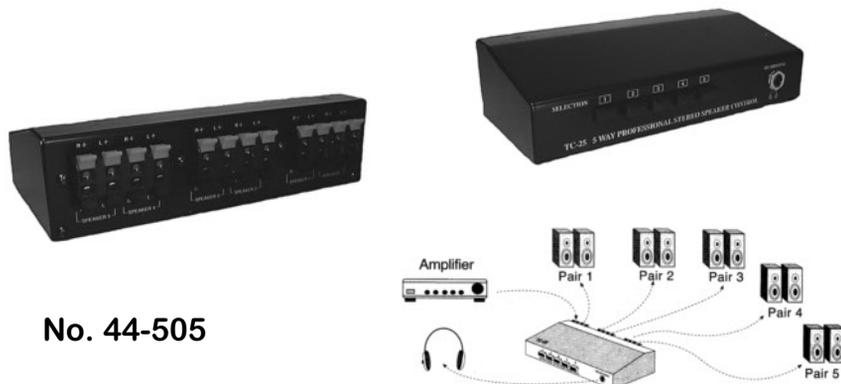

- * Full range frequency response
- * ± 1.2 db 50-15000HZ
- * High efficiency design
- * Insertion loss .6 db
- * Primary taps .63, 1.25, 2.5, 5, & 10W
- * Secondary impedance: 8 ohms
- * Primary terminations: 6" color coded leads
- * Secondary terminations: 6" color coded leads
- * Power rating: 10 watts

For bulk add suffix letter "B"

PA SPEAKERS

5 WAY STEREO SPEAKER SELECTOR

This professional quality selector box is designed to help distribute quality sound throughout your complete Home Theater System. There is built-in protection for your amplifier. The switch can control up to five (5) stereo pairs of speakers in any combination and maintains a constant impedance load to the amplifier.

Specifications:

Power: 50 Watts RMS per Channel
 Max Power: 75 Watts per Channel
 Load Protection: Non Inductive 50 Watts
 Outputs: 5 Stereo Speaker Pairs
 + 1 1/4" Headphone Jack
 Size: 8" W x 4" D x 2" H
 Case: Black Metal

No. 44-505

6" ALUMINUM PA SPEAKER WEATHER PROOF

No. WP10

- HORN MATERIAL - Aluminum - Baked Gray Enamel Finish
 - Weather proof sealed
 - Heavy duty metal mounting bracket
 - Rubber edge guard on metal horn
- FREQUENCY RESPONSE 250-15,000 Hz.
- POWER RATING 15 Watts Maximum
- SENSITIVITY 105 dB / 1W / 1M
- VOICE COIL IMPEDANCE 8 ohm
- SIZE 6" Diameter
6" Length

REFLEX TRUMPET 5-1/4" INDOOR / OUTDOOR

A compact speaker for all purposes

No. WP4

UNIVERSALLY DESIGNED FOR:

- BOATING PAGING HORN
- FIXED OR MOBILE COMMUNICATIONS
- SECURITY

MODERATELY PRICED - IDEAL WHERE WIDE FREQUENCY RESPONSE IS NOT A FACTOR

ALL EXPOSED METAL STAINLESS STEEL

This highly efficient speaker is a true re-entrant horn design. The speaker is totally weatherproof and has a white plastic casing of high impact, rugged construction. Can be mounted anywhere, with the 110° adjustable swivel bracket and screw flange.

Supplied with 12 ft. length weatherproof leads with 3.5mm phone plug on lead.

SPECIFICATIONS:

Power Handling Nominal Capacity: 8 watts (Handles up to 15 watts)
 Frequency Response: 700 to 7000Hz
 Impedance: 8 ohms
 Overall size: 5-1/4" dia. x 6" depth

HORN 30 WATT 8" OUTDOOR

No. WP20

- HAILING
- PA
- PAGING

- WATERPROOF
- RUST/SHOCK RESISTANT
- STAINLESS STEEL MOUNTING HARDWARE
- COMPLETELY SEALED FOR MARINE & MOBILE APPLICATIONS

A smooth, wide frequency response of 450-10,000Hz assures excellent dispersion of music and voice. 30W of continuous power (60W peak) makes it capable of reproducing clear and crisp sound over long distances in noisy terrain. A rubber sealing gasket is provided for sealing mounting base to wall.

Its sleek white lines make this rugged plastic horn ideally suitable for marine craft of all sizes.

SPECIFICATIONS:

Input power: 30W continuous, 60W peak
 Impedance: 8 ohms
 Freq. Resp.: 450-10K Hz.
 Magnet: 10 oz. ferrite
 Size: 8" x 4-1/2" x 9-1/4" long

PA SPEAKERS & VOLUME CONTROLS

INDOOR/OUTDOOR TRUMPET SPEAKERS WITH PLENTY OF POWER TO SPARE

No. WP13 25 WATTS RMS

No. WP12 15 WATTS RMS

- ALL WEATHER • RUST RESISTANT • SHOCK RESISTANT • SWIVEL MOUNTING BRACKET • PAGING: SPORTING EVENTS • MARINE • AUDITORIUM

Hot or cold, the smooth response will hold because these reflex horn speakers can withstand extreme climatic conditions without any loss.

Lightweight heavily enameled ABS plastic has a rubber, sound-dampening ring around the outside edge and is attached to a 24" color-coded connecting cord, stripped and tinned.

SPECIFICATIONS:

Model No.	Horn Opening	Frequency Response	Impedance	Power Rating
WP12	5" x 8"	350-13,000 Hz	8 ohms	15 Watts
WP13	6" x 11"	300-12,000 Hz	8 ohms	25 Watts

No. WP7 5" REFLEX TRUMPET HORN

NEITHER SLEET,
NOR SNOW, NOR
RAIN STOPS
THIS TRUMPET
HORN SPEAKER

Construction is of ABS plastic and the driver is protected by a rubber seal for weather and weatherproofing. The efficient sound displacement is consistent, whether used indoors or out.

The beautiful, metallic blue horn is mounted on a stand, fully adjustable through 90°

Power Rating: 10 Watts (RMS) **Frequency Response:** 450-10,000 Hz
Impedance: 8 Ohms **Cable:** 1 Ft. **Size:** 5" x 5" x 5" **Weight:** 1 Pound

WEATHER RESISTANT ELECTRONIC SIREN

No. SH12

- Provides sharp blasts of high and low whoop tones
- 115 db/m sound pressure level
- No moving parts
- Protects homes, cars and boats
- 10 Watts
- 12V DC
- 5-1/4" Diameter x 5-3/4" Length

"L" Pad Level Controls

2-1/8" dial plate finished in matte silver and black is supplied. Mounts in 3/8" panel hole 1" long threaded bushing complete with mounting nuts. Includes black plastic contour knob 15 watts RMS at 8 ohms.

STEREO

No. SLP8 8 ohms

MONAURAL

No. LP8 8 ohms

Mono L Pads

No. LP100 100 Watts RMS at 8 Ohms

No. LP50 50 Watts RMS at 8 Ohms

Stereo L Pads

No. LP200 Dual Ganged Attenuators, each 100 Watts RMS at 8 Ohms

No. LP75 Dual Ganged Attenuators, each 50 Watts RMS at 8 Ohms

Control speaker volume in remote high power Hi-Fi or commercial sound installations. Maintain constant loading on amplifier at all volume settings. 3/8" bushing mounts in 3/8" diameter hole.

In addition to reliable operation at full rated load, these attenuators are beautifully styled to be an attractive addition to any sound system. The brushed aluminum face plate is calibrated from 0 dB to infinite attenuation in eleven steps.

ECONOMY 100W STEREO

This lower cost L-Pad has electrical and mechanical specifications similar to those of the No. LP200. Smooth low-noise action provides long lasting sound adjustment capability.

The No. SLP10 is not precisely calibrated to match the decibel markings on No. LP200. A black face plate and knob are supplied as illustrated.

No. SLP10

STEREO 100 WATTS RMS AT 8 OHMS

SPEAKERS & SPEAKER WIRE

4" SPEAKER

No. TS40

Fine quality replacement speaker. 4" speaker with 1.7 oz. ceramic magnet. Speaker is 8 ohm impedance rated at 5 watts.

6" SPEAKER

No. TS60

Fine quality replacement speaker. 6" speaker with 3.0 oz. ceramic magnet. Speaker is 8 ohm impedance rated at 10 watts nominal 15 watts peak.

8" SPEAKER

No. SP800

This quality 8" speaker is well-suited for public address systems and background music installations. Metal frame has mounting holes for line matching transformers. Power rating: 20W; 10 oz. magnet; 1 "voice coil; 8-ohm impedance.

High Quality Speaker Wire

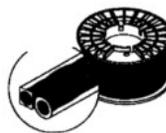

This speaker wire has clear jacket, and is polarity marked for your convenience. We offer speaker wire in varying gauges and put-ups to suit your particular needs. All on plastic spool.

POWER TAPS & SURGE PROTECTION

Power taps add convenience and additional outlets to existing sockets.

6 Outlet Economy Power Tap

This solidly constructed outlet strip is both UL and CUL listed and comes with a 3 ft. power cord, circuit breaker and switch combo.

No. 43-7060

Expander I Duplex 6 Outlet Tap

This economical and convenient 6 position AC power tap plugs into a standard AC duplex outlet. A center screw is provided to insure unit holds securely to duplex outlet. This Unit is UL Listed and rated 15A @ 125V AC (1875 watts)

No. 70-8000

6 Outlet Heavy Duty Economy Power Strip

Economy 6 outlet strip with a heavy duty plastic housing and a 4 foot power cord. Separate On -Off switch and circuit breaker. UL and CUL Listed.

No. 70-405

3 Outlet Economy Power Tap

This wall Tap lets the user maximize the use of the existing AC Receptacle by adding 2 additional sockets. This unit can be used two per AC receptacle. Ivory.

No. 43-333

Metal 6 Outlet Power Tap

Durable metal housing construction. Separate lighted On-Off switch and 15 Amp circuit breaker with a 6 or 15 foot cord.

No. 70-6000 6' cord
No. 43-6015 15' cord

Power Taps with BASIC Surge Protection

Basic surge protection has (1) MOV (metal oxide varister) wired from HOT to Neutral

6 Outlet Heavy Duty Economy Surge Strip

Economy 6 outlet strip with a heavy duty plastic housing and a 4 foot power cord. Separate lighted On -Off switch and circuit breaker.

Features

- 4' Power Cord
- Lighted On-Off Switch
- Thermal Fuse
- (1) MOV 70 joules
Hot to Neutral
- Peak Amp Rating 4000
- EMI/RFI -5 - -40dB

No. 70-661

6 Outlet Economy Surge Strip

This solidly constructed outlet strip is both UL and CUL listed and comes with a 3 foot power cord, circuit breaker and switch combo.

Features

- 3' Power Cord
- Circuit Breaker & Switch Combo
- Surge Indicator Light
- (1) MOV 70 joules Hot to Neutral

No. 43-7061

POWER TAPS & SURGE PROTECTION

Power Taps with FULL Surge Protection

Full surge protection has ALL AC lines protected with a (3) MOV's

3 Outlet Wall Tap with Full Surge

This unit has all 3 AC lines protected plus EMI / RFI filtering. It also has ground and surge indicator lights.

Features.

- 3 MOV's (210 joules)
- Surge Indicator Light
- Ground Indicator light.

No. 43-335

Expander III Duplex Wall Tap with Full Surge

The Expander III economical yet complete protection for all sensitive electronic equipment. The 3 MOV's protection featured in this unit will provide worry-free protection. Unit features LED indicator to show that protection circuits are functioning. This unit is UL approved and rated at 15 amps, 125V AC (1875 watts)

No. 70-8030

6 Outlet Heavy Duty Surge Strip

This 6 outlet strip is constructed with a heavy duty plastic housing and a 4' or 15' power cord. Separate lighted On-Off switch and circuit breaker and 3 MOV's (210 joules), and EMI/RFI filtering.

Features

- 4' or 15' Power Cord
- Lighted On-Off Switch
- Thermal Fuse
- (3) MOV's 210 joules
- All AC Lines Protected

No. 70-406 4' Power Cord

No. 43-6415 15' Power Cord

Single Outlet With Full Surge + Noise Filtering

This compact single outlet surge protector is compact enough that two can be placed in a single electrical outlet.

Features:

- 210 Joules
- EMI / RFI Filtering
- ALL lines Protected
- Clamping Voltage 330 V
- LED Surge Indicator Light

No. 43-1205 Surge Cube

Metal 6 Outlet Surge Strip

Durable metal housing construction. Separated Lighted On-Off switch, circuit breaker, 6 or 15' power cord.

Features:

- 6 or 15' Power Cord
- Lighted Switch
- (2) Thermal Fuses
- (3) MOV's 210 joules
- ALL AC Lines Protected
- EMI/ RFI Filter

No. 70-6030 6' Power Cord

No. 43-6615 15' Power Cord

MINI EXTENSION CORD

A foot long of SJT16/3 cord with 3 prong plug on one end and receptacle on the other. Use with wall outlets or power strip, Use with AC wall transformer & Power supplies to prevent blocking adjacent sockets.

No. 48-123

BEST Single Outlet Surge Protection for AC Line, TV, & Computer

This series of AC line protectors provides 3-mode protection against surges and spikes and these three units have additional circuitry for the protection of other paths of damaging surges. The small size is not an indication of the power capacity, these are full power surge protectors and are single socket devices

Features:

- ALL AC Lines Protected
- 210 joules protection
- Indicator Lights for Surge and Ground
- EMI / RFI Filtering

No. PT07 AC Line Protection Only

No. PT07V AC Line + Coax Protection for TV / VCR

No. PT07

No. PT07V

AC CONNECTORS

DEAD FRONT GROUNDING CAP

UL Listed &
CSA
Approved
No. 8515P

UL and CSA Approved. This three-prong AC plug can take wires up to #12. Removable insert used for thinner wire. Steel armor clad. New dead front design completely encloses the housing, eliminating need for insulator and insuring against accidental short circuit.

ARMORED GROUNDING CONNECTOR

3-Contact AC Female Receptacle with Removable Cord Clamp

This yellow vinyl connector mates with our No. 8515P dead front grounding cap. It takes 3 #12 wires. Each circuit is separated by vinyl divider. Uses heavy duty, double wipes contacts. **UL Listed and CSA Approved.**

No. 8515J

RUBBER AC 3 WIRE PLUG

UL Listed &
CSA Approved

No. 8520

For .225" - .600" cord rubber plugs and female receptacles resist chemical and petroleum by-products. Have low temperature flexibility and resist high heat.

3 WIRE FEMALE CONNECTOR

UL Listed &
CSA Approved

No. 8525

For .225" - .600 cord.

JIFFY PLUG

No. 8901

No tools, no stripping. Perfect contact in 5 seconds. Cords extends from side of plug.

Non Polarized. Color: White

BAKELITE FLAT GRIP CAP

No. 1051B - Brown
No. 1051V - Ivory
10A-250V
15A-125V
UL Approved
Non Polarized Plug

PARALLEL GROUNDING ADAPTOR

No. 8419

Convert three-prong to two-prong caps. Polarized blades and rigid grounding lug. Compact design extends only 1" from socket.

VINYL CUBE TAP

No. 8400

Heavy-duty, durable brown cube tap. One-piece construction. Brass spring prongs. Rated: 15A - 125V

Hospital Grade AC PLUG and CONNECTOR

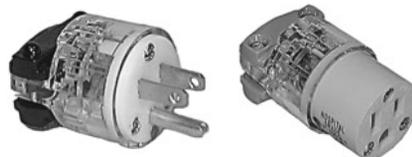

Figure 1

15A 125V
NEMA 5-15

Figure 2

A.C. power connectors meeting all federal specifications for hospital use, as required by the National Electric Code (article 517). Verified by UL to latest federal specifications. Both devices feature terminals separated by insulating barriers, captive speed-screws assembly and integral strain relief. Both accommodate cords with an O.D. from .250" to .685". The connector configuration is NEMA 5-15 and rated at 15 amps at 125 volts AC.

OFFICE EQUIPMENT AC CONVERTER (IEC STANDARD)

No. 8522

No. 8922

No. 8523

No. 8923

No. 8527

No. 8529

Three prong power cord connector (like industry type IEC320-13) used on nearly all personal computers, printers, copy machines and other office equipment.

No. 8522 In-Line Female (Rated 10A @ 250VAC)

No. 8922 - Right Angle In-Line Female (Rated 10 @ 250 VAC)

No. 8523 In-Line Male (Rated 10A @ 250VAC)

No. 8923 - Right Angle In-Line Male (Rated 10A @ 250 VAC)

No. 8527 Panel Mount Male, Snap-In Type. (Rated 15A @ 250VAC)

No. 8529 Panel Mount Male, Screw Mt. Type (Rated 15A @ 250VAC)

TRIPLE GROUNDING TAP

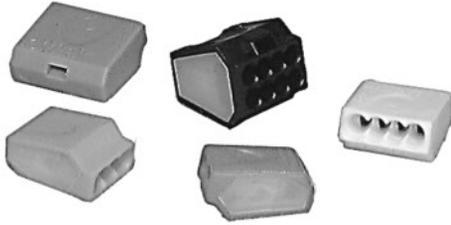

No. 8147V Ivory
No. 8147B Brown

Accepts 3 standard grounding plugs into a single grounding outlet. Ample room even for right angle type plug.
Size of bakelite case: 3" x 1-3/32" x 1" deep.

AC CONNECTORS

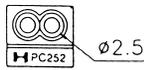

The LKG Wire Knutt, A push - in wire connector, fast, alternative to wire nuts.

The LKG Wire Knutt accommodate wire sizes from 22 to 12 AWG (solid conductors). Fast assembly! Strip wire (0.43" or 11 mm strip length) and push it into the knutt. Fast and secure; use in machinery, house wiring etc. for fast and secure connection of wires of same size or various sizes. Available in sizes for joining from two to eight wires.

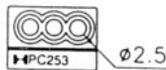

Specification:
 Housing Material: Thermoplastic, UL 94V-2 flame retardent
 Current: 24A (VDE)
 Voltage: UL-600V, VDE-450V.
 Temperature Rating: 110°C
 UL file No.: E - 113650

VINYL PLASTIC ELECTRICAL TAPE

UL LISTED

66 ft. rolls x 3/4" wide, black vinyl tape, with a dielectric strength of 12,000 volts, and tensile strength of 15 lbs. per inch. Thickness 7-9 mils. Flexible stretch, waterproof, and will resist oil, gasoline, salt water, alkalis, and sunlight.

No. PT2
No. PT2B -bulk packaged

CONVENIENCE RECEPTACLE

UL Approved

No. R118J

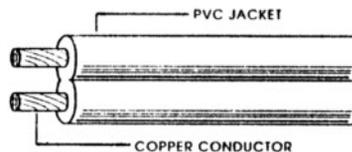

Suitable for accessory equipment power outlets on amplifiers, pre-amplifiers, clock radio chassis, etc. Requires 1-1/16" x 7/16" rectangular cutout.
 Non Polarized Receptacle.

AC CORDS & REPLACEMENT CABLES

18 AWG SPT-1 PARALLEL POWER CORD UL listed

A standard insulated, two conductor cord with a rib on one conductor for polarity indication. Available in popular colors. The 25 foot lengths are supplied in blister display packages. The longer lengths are supplied on spools with a clear, protective shrink-wrap.

COLOR	25 ft.	100 ft.	250 ft.	1000 ft.	2000 ft.

Insulation Thickness: 0.030"
Insulation Material: PVC

AC CORD SET - for Cassette Recorders

A direct replacement for the new Panasonic Cassette Recorders, as well as for other recorders and many portable TV sets and Laptops Power Supply. Two Pin cords mates with male receptacles having 3/32" diameter pins on 0.275" centers. Rated 7 amps at 125V AC, this cord set is UL Approved. 6 feet long.

- No. 2464P** - 2 Pin
- No. 2465P** - 2 Pin
- No. 2467P** - 2 Pin
- No. 2466P** - 3 Pin for Laptop Power Suppliers.

AC POWER CORD SETS for OEM and Replacements

SPT cord sets are typically used in light duty applications, such as table radios, household lamps and so forth. SPT cords are two conductor, 18 gauge. SJT cord sets are three conductor, counting the ground wire, and regarded as hard service cord sets, frequently used with bench tools such as grinders, saws etc.. This is a popular cord set for equipment of all kinds. SJT cord sets are supplied with a standard NEMA 5-15P power plug. Both of these series are of fully molded construction, the plug and cord are permanently connected.

AC / DC ADAPTORS

REGULATED POWER SUPPLIES

When in doubt of the amount of current being drawn by your electronic equipment, using a regulated power supply is the best course of action to avoid damage to your valuable equipment. These regulated supplies, however, will 'hold' very close to the rated voltage. For, example, a five volt **regulated** power supply, rated at 300mA will deliver five volts when used with a device drawing 10mA, 50mA or the full 300mA (A non-regulated 5-volt unit would vary from 9 to 4.8 volts.)

In short, non-regulated power supplies are good when used at or near their full current rating, and can vary widely in voltage. These regulated power supplies are going to be supplying a steady (regulated) voltage and will always be a better selection at a modestly higher cost.

We offer popular voltages that are most commonly needed for small electronic devices. Included with each power supply is a set of six adaptors that will permit easy connection to numerous popular consumer electronics devices. Polarity (+/-) may be easily reversed to match your devices. Different sizes of interchangeable DC Plugs are available see below.

Philmore Part No.	Voltage and maximum current rating
MW41-350A	3 Volts DC @ 500mA
MW41-650A	6 Volts DC @ 500mA
MW41-730A	7.5 Volts DC @ 300mA
MW41-945A	9 Volts DC @ 450mA
MW48-1250A	12 Volts DC @ 500mA

Plug sizes: 5.5 x 2.5mm, 5.5 x 2.1mm, 5.5 x 1.5mm, 5.0 x 2.1mm, 3.5 x 1.35mm, 3.5mm. (O.D. x I.D.)

AC to AC Adaptor

For phone answering machine. An exact replacement for many name brands.

2.1 x 5.5mm DC Plug

INPUT: 120VAC

OUTPUT: 13.8VAC, 800mA

No. BE260

Nintendo® Power Adaptor Cord

The male connector on this adaptor mates with the power jack on Nintendo® games. The other end mates with the power plug found on numerous, miscellaneous power supplies; this makes replacing a power supply easy. **2.1mm x 5.5 DC Power Jack to 7mm x 1mm DC Power Plug.**

No. 298

AC to AC ADAPTOR

For any device which requires 18V AC. Power with 300mA rating. Such as cable box etc. UL Listed with 6 ft. cord and 3.5mm plug.

3.5mm

No. 48-414

AC to DC POWER SUPPLIES wall adaptor style

120 Volts AC, 60Hz, power input to various DC outputs for operating small circuits of any kind. Terminated with a 3.5mm plug, tip positive. User could remove plug and replace with his own when needed or use an adaptor. Cord is six foot. Output is clean, adequate for use with radios and other audio equipment as well as calculators, for charger's and an endless list of small devices.

3.5mm

Part No.	DC volts	Maximum Current
MW310	3	100 mA
MW450	4.5	500 mA
MW630	6.0	300 mA
MW930	9.0	300 mA
MW950	9.0	500 mA
MW1230	12.0	300 mA
MW1250	12.0	500 mA
MW1280	12.0	800 mA
MW1830	18.0	300 mA

MINI BATTERY TESTER

No. BC148

Check power on all types of batteries - D, C, AA, AAA, 9 volt, N and Button Cells. Fits in pocket or purse. Requires no outside power source. Great gift, promo item, or give away.

6 in 1, DC Power Adaptor Set

Many AC power supplies shipped with electronic devices (e.g. calculators, radios etc.) are equipped with the same size coax power plug (2.1mm I.D. x 5.5mm O.D.). The cord in this set mates with that connector and the other end of the cord can accommodate six different size coax power plugs, which are included.

PLUG SIZES: 1.) 5.5x2.5mm 2.) 5.5x2.1mm 3.) 5.5x1.5mm 4.) 5.0x2.1mm 5.) 5.0x2.5mm 6.) 3.5mm

No. 296

AC / DC ADAPTORS

MULTIPLE CHOICE SELECTION - 300mA

OUTPUT: 1.5, 3, 4.5, 6, 7.5, 9, 12VDC @ 300mA

Here's a device that conserves batteries conveniently and reliably on most equipment. Adaptor plugs into ordinary 120VAC 60Hz house current. Choose any of the above voltages. Has built-in polarity reversal switch. Employs a full wave bridge rectifier, with 1000mfd filter capacitor for good regulation and lowest hum level. Six interchangeable plugs are included with the unit to serve most power-up needs. The plugs are: 2.5mm, 3.5mm, 2.1mm x 5.5mm, 2.5mm x 5.5mm, 1.35mm x 3.5mm, 1.7mm x 4.0mm & 9 volt snap adaptor. **UL Listed.**

No. BE226

EXTRA HEAVY DUTY MULTIPLE CHOICE SELECTION - 800mA

OUTPUT SELECTION:

OFF, 3, 4.5, 6, 7.5, 9, 12VDC @ 800mA

Six interchangeable plugs are included with the unit to serve most power-up needs. The plugs are: 2.5mm, 3.5mm, 2.1mm x 5.5mm, 2.5mm x 5.5mm, 1.35mm x 3.5mm, 1.7mm x 4.0mm & 9 volt snap adaptor.

- Plug-in Polarity Reversal
- Plugs into 120VAC / 60Hz house current
- 6-1/2 foot cord
- Circuit employs full range bridge rectifier with filter capacitor for excellent regulation and elimination of AC "hum".

No. BE240

DIGITAL CAMERA POWER SUPPLY

Casio, Epson, Fuji, Kodak, Minolta, Ricoh, Toshiba, Viviter, Hewlett Packard, Olympus, Nikon, Konica, AGFA,

This innovative Hi-Tech product is ideal for most **Digital Cameras** which require a 3.0, 3.3, 5.0, 6.0, 6.5, or 7V supply and any current up to 2100mA. It comes with 4 different individual adapter plugs.

Features:

- Constant Voltage
- Independent of load
- Short Circuit Protection
- Automatic Thermal Cut Off
- Automatic Overload Cut Off
- UL/CUL Listed

Specifications:

Inputs: 100-140V AC @60Hz
Output: 3, 3.3, 5.0, 6.0, 6.5, 7V DC
Current: 0-2100mA

No. 48-1190 Digital Camera Power Supply

Plug sizes: 4.0 x 1.7mm, 4.75 x 1.75mm, 3.5 x 1.35mm, 2.35 x 0.75mm (O.D. x I.D.)

WORLD TRAVELER AC/DC ADAPTOR (600mA)

This model is designed for travelers. Dual voltage 110/220V with two flat pin and additional two round pin adaptor plug. Enables the traveler to use this adaptor in parts of most continents e.g. North and South America, Asia, Middle East and Europe. 1.5, 3, 4.5, 6, 7.5, 9, 12VDC with LED indicator and six most common detachable single plugs. Fits most all appliances e.g. radios, cassette recorders, handheld games, calculators, portable phones, toys, office equipment and other electronic products.

No. 48-140

Plug sizes: 5.5 x 2.5mm, 5.5 x 2.1mm, 5.5 x 1.5mm, 5.0 x 2.1mm, 3.5 x 1.35mm, 3.5mm. (O.D. x I.D.)

HEAVY DUTY MULTIPLE CHOICE SELECTION - 500mA

OUTPUT: 3, 4.5, 6, 7.5, 9, 12VDC @ 500mA

- Plug-in Polarity Reversal
- Ideal for Large Audio Equipment

Conserve batteries that are commonly used with giant portable stereos, video games, 2-way radios and mobile rigs. A full wave bridge circuit with a 2200mfd filter capacitor is built-in to eliminate unwanted "hum". Includes adaptor for Walkman type players. Six interchangeable plugs are included with the unit to serve most power-up needs. The plugs are: 2.5mm, 3.5mm, 2.1mm x 5.5mm, 2.5mm x 5.5mm, 1.35mm x 3.5mm, 1.7mm x 4.0mm & 9 volt snap adaptor. **UL Listed.**

No. BE227

Universal Regulated Switching Power Supply 1000mA Switchable Power Supply

This Hi-Tech product is ideal for all Electronic consumer products which require DC voltages of 3, 4.5, 6, 7.5, 9, or 12V DC and current up to 1000mA. Use with such products as CD players, Radios, Cassette Recorders, Electronic games, mini TV, Palm Computer and many other battery appliances.

Features

- Constant Voltage
- Independent of load Short Circuit Protection Automatic Thermal Cut Off Automatic Overload Cut Off
- Folding AC Plug for Travel
- 6 Different Adaptor Plugs
- Concealed Voltage selector
- UL/CUL Listed

Plug sizes: 3.5mm, 2.35 x 0.75mm, 3.0 x 1.0mm, 3.5 x 1.35mm, 4.0 x 1.7mm, 5.0 x 2.5mm, 5.5 x 2.1mm, 5.5 x 2.5mm, (O.D. x I.D.)

Specifications:

Inputs: 100-140V AC @60Hz
Output: 3, 4.5, 6.0, 7.5, 12V DC
Current: 0-1000mA

No. 48-1088 Multi-voltage Power Supply

Universal Regulated Switching Power Supply 1700mA Switchable Power Supply

This Hi-Tech products is ideal for all Electronic consumer products which require, DC voltages of 3, 4.5, 6, 7.5, 9, or 12V DC and current up to 1700mA. Use with such products like CD players, Radios, Cassette Recorders, Electronic games, mini TV, Palm Computer, Digital Cameras, and many other battery appliances.

Features

- Constant Voltage
- Independent of load Short Circuit Protection Automatic Thermal Cut Off Automatic Overload Cut Off
- Folding AC Plug for Travel
- 6 Different Adaptor Plugs
- Concealed Voltage selector
- UL/CUL Listed

No. 48-1189 Multi - Voltage Power Supply

Specifications:

Inputs: 100-140V AC @60Hz
Output: 3, 4.5, 6.0, 7.5, 12V DC
Current: 0-1700mA

Plug sizes: 3.5mm, 3.5 x 1.35mm, 5.5 x 1.5mm, 5.5 x 2.1mm, 5.5 x 2.5mm, 4.0 x 1.7mm, 4.75 x 1.75mm, 2.35 x 0.75mm (O.D. x I.D.)

STEP UP/STEP DOWN TRANSFORMERS

TRAVELER'S POWER CONVERTERS HEAVY DUTY STEPUP & STEPDOWN TRANSFORMER

Whether a tourist or for business, it can greatly enhance the trip if you take along your favorite small appliances including hairdryers, laptops, cell phone chargers and any of the other dozens of electrical appliances that we might use everyday.

WHEN TRAVELING TO THE STATES. It's much the same story as above. The tourist or businessman can use a Philmore travel voltage converter so that he can use his appliances on U.S. voltage without damages or worry.

WHENEVER TRAVELING one travel converter will do the job for your country's appliances. Just be sure to pick one that is "big" enough (has a high enough wattage rating) to do the job. How do you do that? Simply add up the wattage listed on each appliance that will be connected at one time. Example, if your hair dryer and portable coffee maker each have a 700 watt rating (and you will connect and use them both at one time), then you have a total of 1400 watts. So, you need the 2,000 watt unit to get the job done. (If you were to run only one of these at a time, the 1,000 watt unit can get the job done nicely.)

Very small items, such as your cellphone charger, will be fine with the smallest of these converters. But if you will be operating your laptop, a projector and perhaps a public address amplifier as well, you will want to add the wattages together to be sure that you have selected a big enough unit.

Wattages still too big? That is unusual, but you can always use more than one converter if you exceed the 2,000 watt model.

TRAVEL CONVERTERS that allow you to USE YOUR U.S. APPLIANCES WHEN TRAVELING IN FOREIGN COUNTRIES, AND THE SAME CONVERTER WILL PERMIT USE of FOREIGN APPLIANCES IN THE STATES!

100W to 750 Watts

1000W to 2000 Watts

3000W to 5000 Watts

110VAC TO 220VAC
OR 220VAC TO 110VAC

Part No.	Weight (lbs.)	Std. Pack Carton	Power Rating Watts

ST2000	25	2	2000
ST3000	30	2	3000
ST5000	51	1	5000

- 110V AC to 220V AC or 220V AC to 110V AC
- Heavy Duty Transformer for safety and reliability
- ON/OFF switch with indicator light
- Universal output receptacles (will accept European 2 round pin plug, North American 2 flat pin and 3 prong plug)

- SAFETY FEATURES INCLUDE:
- Built-in (non-detachable) power cord with strain relief
 - Fused Protection
 - Safety polarized input switch (100V AC, 200V AC, 220V AC and 240V AC)
 - Non slip rubber feet

WARNING! This device is an autotransformer. Primary and secondary winding are NOT isolated from each other. USE WITH CARE: AVOID USE IN WET AREAS or on bare earth or concrete floors

Front View

Rear View

JAPAN - U.S.A.

Japan's standard voltage is 100VAC, and appliances made for use in the US will not operate there or vice versa, unless you have a travel converter.

Philmore Model No.	Weight (LBS)	Std. Pack Carton	Power Rating Watts
STJ300	4	6	300
STJ500	5	6	500
STJ1000	8	4	1000
STJ2000	24	2	2000

How do you use one? It's easy; just set a switch to "USE IN USA" when in the United States or set it to "USE IN JAPAN" when in that country. Then, just plug your appliance(s) into the converter; just like home.

POWER SUPPLIES, CHARGERS & ADAPTORS

Single Phase 110 to 120 Volts Variable AC Transformer

The Philmore variable AC transformers permit user to operate equipment on AC voltage anywhere between a few volts and a voltage about 10% above the normal AC line voltage. Available in four different current ratings (VA).

INPUT: 110 -120VAC @ 60Hz
OUTPUT: < 4 V AC-130 VAC,
 500V Amps
No. 48-1205
 (Weight 9 Lbs)

INPUT: 100 -120VAC @ 60Hz
OUTPUT: < 4 V AC-130 VAC,
 1000V Amps
No. 48-1310
 (Weight 19 Lbs)

INPUT: 110 -120VAC @ 60Hz
OUTPUT: < 4 V AC-130 VAC,
 2000V Amps
No. 48-1320
 (Weight 22 Lbs)

INPUT: 100 -120VAC @ 60Hz
OUTPUT: < 4 V AC-130 VAC,
 3000V Amps
No. 48-1330
 (Weight 28 Lbs)

50 Watt Step-up / Step-down Transformer

The input is selectable from either 110/120 VAC or 220/240VAC @ 60/50 Hz. The unit comes with universal round pins and two adapters are included. The output has a standard 3 prong NEMA receptacle. Both 120V & 220V input are fused for protection. There is a power indicator LED on the front of the unit.

No. 48-550 50 Watt Up-Down Transformer

50 WATT VOLTAGE CONVERTER (Stepdown)

- Changes 220/240V AC to 110/120VAC (stepdown)
- Round two prong plugs
- Flat outlet for U.S. plugs
- Ideal for small appliances; razor, recorder, radio etc..

No. 48-500

WORLD TRAVELER AC/DC ADAPTOR (600mA)

No. 48-140

Plug sizes: 5.5 x 2.5mm,
 5.5 x 2.1mm, 5.5 x 1.5mm,
 5.0 x 2.1mm, 3.5 x 1.35mm,
 3.5mm. (O.D. x I.D.)

This model is designed for travelers. Dual voltage 110/220V with two flat pin and additional two round pin adaptor plug. Enables the traveler to use this adaptor in parts of most continents e.g. North and South America, Asia, Middle East and Europe. 1.5, 3, 4.5, 6, 7.5, 9, 12VDC with LED indicator and six most common detachable single plugs. Fits most all appliances e.g. radios, cassette recorders, handheld games, calculators, portable phones, toys, office equipment and other electronic products.

1600 WATT VOLTAGE CONVERTER (Stepdown)

- Changes 220/240VAC to 110/120VAC (step-down)
- Round two prong plugs
- Flat outlet for U.S. plugs
- Ideal for larger appliances; (motorized) that draw more than 50W but under 1600W hair dryer, iron, curler etc.

REGULATED POWER SUPPLIES & CHARGERS

12 VOLT DC REGULATED POWER SUPPLY

Ideal for operating any 12-14 VDC equipment from 117VAC AC power outlet. For use with CB radio, car radio, Ham transceivers, tape players, mobile scanners and other DC equipment requiring 3 amp continuous (5 amp surge) at 13.8 VDC. The design of this unit incorporates an automatic overload circuit that shuts unit down. The unit will automatically reset. No troublesome fuses to replace. The No. MW123 is also protected against damage caused by accidental short circuit.

FEATURES:

- 3 Amp Continuous (5 Amp Surge)
- LED Indicator Light
- Fail-Safe Over-Voltage Circuit
- Short Circuit Protected
- Overload Protected with Auto Reset

SPECIFICATIONS:

RIPPLE: 40 MV Max
 REGULATION: Better than -5% @ 3 Amps
 FOLDOVER CURRENT: 4.5 Amps
 INPUT POWER: 117VAC, 60 HZ

No. MW123

CASE SIZE:

6" X 4-1/2" X 3-1/2"
 (including rubber feet)

WEIGHT: 4-3/4 lbs.

- Solid State Reliability
- Filtered Output
- Binding Posts

Two (2) Hour Rapid Charger

for Ni-Cd/Ni-MH Batteries

Charge 2 or 4 AA or AAA from Home or Auto

This charger has a built-in microprocessor that can detect the change process when the battery reaches 90% and switches to trickle change mode until the batteries are fully charged. It has automatic polarity protection and minus voltage cut-off.

No. 48-2098 2 Hour Charger

Specifications:

Power: 120V AC @3.5W
 Charge Rate: Repid = 900mA
 Trickle = 50-60mA

Features

AC Power Supply
 LED status indicator
 Folding AC Plugs for Travel
 UL/CUL Listed

Battery Charger

This plug-in wall type AC/DC Power supply & Charger is ideal to power cellular telephones as a DC battery eliminator and plug-in saver / charger up to 1000mA. Input voltage is 120V AC @ 60 Hz, 17.5W and output is 12VDC @ 1000mA. There is a cigarette lighter socket with a dust cover. The unit is UL listed and non - regulated.

No. 48-1210

6 ft. POWER CABLE with Assorted Coaxial Plugs

The cord has spade lugs to be attached at terminals on power supplies such as No.MW122A or No. MW123. The jack on the other end of the cord can accept any one of the six coaxial plugs included with this set. You can power almost any radio, calculator etc. with this accessory set and Philmore power supply.

No. 48-400 - Power Cord and Plug set

Overnight AA Battery Charger

This economical battery charger is for Ni-Cd batteries and will charge 2 or 4 AA size batteries. This is a trickle charge rate charger and works off of 120V AC @ 60 Hz.

Features

AC Power Supply
 LED status indicator
 Folding AC Plugs for Travel
 UL/CUL Listed

No. 48-1298 Economy Charger

Specifications:

Power: 120V AC @3.5W
 Charge Rate: Trickle = 60mA/35VA

12 Volt DC POWER SUPPLY with CIGARETTE LIGHTER SOCKET

A desk top power supply for operating automotive equipment in the home or office. Use your house AC power to operate items such as spotlights, CB and Ham radios, coolers, video equipment and so on. The unit plugs into an AC outlet and has a lighter socket.

No.48-130

SPECIFICATIONS:

INPUT POWER: 100 - 140 volt AC
 Output Power: 12 - 14 VDC
 Current: 4.1 amps continuous
 5 amps surge

FEATURES:

- * Fully regulated low ripple
- * Light weight & compact
- * Short circuit protection
- * Automatic thermal cut off
- * Automatic overload cut off
- * UL approved

AUTOMOTIVE POWER SUPPLIES

REGULATED AC - DC POWER SUPPLY

This compact sized regulated power supply is ideal for all devices drawing up to 2 amperes. It is fully regulated to assure that a constant, accurate DC power is delivered to different kinds of electronics and electrical appliances. The rotary selector for choice of 6 voltages (3, 4.5, 6, 7.5, 9, 12VDC), with any currents not more than 2000mA e.g. portable TV sets, video games, tape recorders, radios, scanners, boom boxes etc. The red and black binding posts enable easy connection. In addition, an optional cable is available for easy hook-up to devices with a DC input receptacle. (PHILMORE No. 48-400).

FEATURES:

- (No. MW122A) Operates on 110/120VAC
- (No. MW2122A) Operates on 220/240VAC
- Multi-Voltage Output: 3, 4.5, 6, 7.5, 9, 12 VDC
- Provides constant current from 0-2000mA
- Fully regulated, low ripple
- Short circuit protection
- Automatic thermal cut off
- Automatic overload protection
- Heavy Duty Red and Black Binding Posts
- "LED" red lamp indicates power
- 3-3/4" Wide x 5-1/4" Long x 2-5/8" High
- Net Weight 2 lb. 14 oz.

- No. MW2122A** **No. MW122A**
 • 220/240 VAC Input • 110/120VAC Input
 • Round Pin Plug • 2 Flat Pin Plug

REGULATED DC to DC CONVERTER, 2 Amps

A power converter that will provide any one of six different DC voltages in your automobile. It plugs into the cigarette lighter socket. Full regulation assures that the voltage is accurately controlled to protect your equipment. The user may select one of the following voltages: 3, 4.5, 6, 7.5, 9 or 12. A set of six different coaxial power plug adaptors will allow this device to connect to almost any equipment you have, including CD's and scanners.

SPECIAL FEATURES:

- Integrated Circuit Regulation
- LED pilot light
- Fuse in lighter plug
- Valuable power plug set
- Safety features such as short circuit and overload protection

Plug sizes: 5.5 X 2.5mm, 5.5 X 2.1mm, 5.5 X 1.5mm, 5.0 X 2.1mm, 3.5 X 1.35mm, 3.5mm (O.D. x I.D.)

No. 48-150

Regulated Mobile DC-DC Converter

3-6-9-12 VOLTS DC

Designed to power battery operated equipment drawing up to 1 amp. current (1000mA). Completely regulated and maintains voltage constant within 1 Volt despite wide variations in load current. Accepts 12-16VDC input from conventional negative ground.

Maximum Current Specifications:

- 12VDC - 1Amp. (1,000mA)
- 9VDC - 500 mA
- 6VDC - 500 mA
- 3VDC - 300 mA

Comes with 6 adaptor plugs to match nearly all applications. Polarity reversal achieved by rotating adaptor plugs 180°.

Plug sizes: 5.5 X 2.5mm, 5.5 X 2.1mm, 5.5 X 1.5mm, 5.0 X 2.1mm, 3.5 X 1.35mm, 3.5mm(O.D. x I.D.)

No. BE19

DC CONVERTER

Use in auto, boat, truck, camper, van etc..

INPUT: 12VDC @ 800mA
OUTPUT: 1.5, 3, 4.5, 6, 7.5, 9 and 12
No. BE164

Two in One, 800 mA Regulated DC/DC CONVERTER

Because most converters "block" the cigarette lighter socket during use, this well planned unit has TWO of these sockets so that you may use a converter and other devices such as a scanner or radar detector as well as the converter. Full regulation assures protection for your electronic equipment.

SPECIAL FEATURES:

- IC Regulation Circuit
- LED pilot light
- Fused (inside plug)

- Voltages: 1.5, 3, 4.5, 6, 7.5, 9 and 12
- Valuable coax power plug set
- Safety features such as short circuit, overload protection and thermal cutoff

No. 48-160

Plug sizes: 5.5 x 2.5mm, 5.5 x 2.1mm, 5.5 x 1.5mm, 5.0 x 2.1mm, 3.5 x 1.35mm, 3.5mm (O.D. x I.D.)

CB & AUTOMOTIVE ACCESSORIES

COMMUNICATION DYNAMIC MICROPHONE for CB and Amateur Applications

Everyone can now enjoy a microphone with superior specifications at a moderate price. Features four (4) conductors, (1 shielded), in a 6-ft. coiled cable designed for relay or electronic switching in transmitters, transceivers and PA amplifiers. Full size, press-to-talk switch extends over half the length of this hand-held mike. High impact shockproof case is attractively styled in matte finish mid-night black. Supplied with rear hanger button.

Specifications:

Directivity: Omni - Directional
Sensitivity: -72dB ± 4db at 1KHz
Frequency Response: 200Hz - 5KHz

No. CM43A

S.W.R. Bridge and Field Strength Meter

Perfect dual-purpose meter for checking SWR measurements, as well as reading the field strength in both mobile and home station rigs. Can monitor transmitter outputs in the circuit continuously.

Specifications:

SWR: 1:1 to 1:3
RF Power: 0.5-10W and 0.5-100W Switchable
Accuracy: SWR: +5% Power: +-10%
Impedance: 52 ohms
Meter Sensitivity: 200 u A
Freq. Range: 1.7 to 150 MHz
Size: 5-3/4"H x 2-1/4"D x 1-15/16"

No. FS45

Attractive black metal cabinet supplied with detachable antenna, and set of instructions.

Automotive Power Cord No. TC3640

5 ft.; 16 Ga. red and black leads with fuse holder in-line in red lead with 10 amp fuse. Both ends stripped.

In-Line Fuse Holder for Blade Type Fuses

No. FH101
• Material - Bakelite
• Max. Rating: 250VAC/30A
• Color - Black

Screw Cap Fuse Holder No. FH55

No. FH55B - bulk packaged
Rating 15A @ 250VAC
Holds 1/4" x 1-1/4" fuses. Can be used in panels up to 1/4" thick. Mounts in 19/32" hole. Overall length of holder 2", behind panel 1-3/8".

FUSE HOLDER (Screw Type Cap)

No. 526 - For 3 AG Type Fuse (1/4" x 1-1/4")
No. 525 - For GMA Type Fuse (5mm x 20mm)

Fuse Mounting Bases

No. H108A - Single Fuse
No. H108B - Double Fuse

Will accommodate the 3AG cartridge type auto fuse. Clips are made of spring brass, and mounting board is made of 1/8" XP laminated phenolic insulating material.

MICROPHONE HANG-UP HOLDER with mounting hardware

Stainless Steel

No. H200SS
No. H200SSB bulk packed

Heavy Duty In-Line Fuse Holder 10A @ 250V AC

No. 506 - for 3AG type fuse (1/4" x 1-1/4")

No. 507 - for GMA type fuse (5.0mm x 20mm)

In-Line Fuse Holder

No. FH65
No. FH65B - bulk packaged
Holds 1/4" x 1-1/4" fuses. Spring loaded, twist lock design. Plastic housing provides full insulation. 10" heavy duty #18 gauge stranded insulated wire at each end.

REPLACEMENT SCREWS for CB's, PA's, Car Mounts, etc.

No. K40 Size 4 mm

No. K50 Size 5 mm

No. K60 Size 6 mm

For connecting mounting brackets to metal cases. Made of machined brass with a heavy nickel plated finish. Length of threaded portion is 3/8". Packed two per package.

Add suffix "B" to part number for bulk pack.

SMA TO UHF HT ADAPTOR CABLE

For hand-held Ham or Business Transceivers (HT) with SMA antenna connectors; adapts the antenna connection to a UHF female for connection to mobile or base antennas with a PL-259 termination. The cable is 16" long miniature 50 ohm coaxial cable (RG174/U). Using an adaptor cable will help to reduce strain on the radio's SMA antenna jack.

No. CA740

GRAIN of WHEAT BULBS

Subminiature lamps used in many automotive units including tape players, CB radios etc. These are supplied with an 8-3/4" lead wire.

No. 480 -12 Volt, 75mA
No. 480B - bulk packaged
No. 495 - 14 Volt, 80mA
No. 495B - bulk packaged

AUTOMOTIVE POWER ACCESSORIES

Heavy Duty 3 ft. Extension Cable

No. 48-470
Cigarette Lighter Plug (2 amp fuse) with LED indicator light to cigarette lighter socket and Panasonic type battery clip.

Cigarette Lighter Plug Socket

No. TC660

Double the DC power applications from cigarette lighter socket in cars, trucks and vans. Fused lighter plug to 2 lighter sockets.

SAFETY DUAL ADAPTOR CIGARETTE LIGHTER SOCKET

Converts a single cigarette lighter socket into a dual input. Fused lighter plug (2 amp fuse) with two side spring contacts to two lighter sockets with safety dust cover and LED indicator light on both sockets. Cable length is 10".

No. 48-660

Automobile Accessory Power Cord

No. TC6111
Plugs into any automobile cigarette lighter or accessory socket. Molded phenolic body with nickel plated brass contacts. 3-1/2 ft. two conductor cable is stripped for polarity; and stripped and tinned. 22 AWG Wire.

Universal DC Power Cable

No. TC6115

Supplies 12VDC power to portable VCR or some camcorders etc. from automotive or marine cigarette lighter outlet. With fused lighter plug 4 Amp, 125V fuse, negative ground, 6 ft. cord, 22 GA. wire with 4-way adaptor plug (3.5mm and 2.5mm phone plug, 2.1mm and 2.5mm DC plug).

Universal Power Cord with Six Detachable Plugs

No. TC6106

Heavy duty 10 ft. coiled cord. (26 AWG) 2 Amp fuse. LED indicator light plug.

PLUG SIZE'S (1) 5.5 X 2.5 mm (2) 5.5 x 2.1 mm (3) 5.5 x 1.5 mm (4) 5.0 x 2.1 mm (5) 3.5 x 1.35 mm (6) 3.5 mm

Six Foot Auto Battery Power Cord

No. 48-450

Clips on one end, connect to car's battery terminals; other end is a cigarette lighter socket for a scanner, CB etc. Socket has an LED pilot light power indicator. 18 AWG Wire.

Insulated and Color Coded Battery Clips (5/8" Max. Opening) to Two Pin DC Socket

No. 48-460

Includes the six most popular DC power plugs:

- 3.5mm
- 2.1mm x 5.0mm
- 2.1mm x 5.5mm
- 1.3mm x 3.5mm
- 2.5mm x 5.5mm
- 1.5mm x 5.0mm

Cigarette Lighter Plug Socket

No. TC600

Assemble your own power cords. 10 AMP

Panel Mount Cigarette Lighter Socket

No. TC610

For use with 12VDC. Allows user to install a second jack in cars, RV's and boat for auxiliary use with radar detectors, CB radios and more.

CIGARETTE LIGHTER SOCKET PROTECTIVE DUST COVER

Fits any standard panel mount cigarette lighter socket. Made of black flexible Nylon. Safety protection for lighter socket when not in use.

No. 48-610

Auto Power Plug with 10 Amp Fuse

No. TC777

- Plugs into cigarette lighter of car and protects against burn-outs of 12 volt accessories. Protects car's electrical wiring where fuse is not provided in cigarette lighter circuit.

No. 48-780 - With fuse and LED indicator light.

Right Angle Cigarette Lighter Plug with 8 Amp Fuse

Protects your 12 volt accessories with this compact size fused lighter plug. Will accept up to 18 AWG wire (SPT1-18/2). Housing is made of UL-94 ABS material, rated 8A - 12VDC.

No. 48-785

Cigarette Lighter Plug

No. TC644

Fits into cigarette lighter receptacle for a convenient source of 12 volts DC. Plated spring-loaded center contact and dual side contacts assure minimum voltage drop. Unscrews for ease in fastening wires. Made of high impact plastic. Rated @ 10A

LIGHTER SOCKET TO BINDING POSTS ADAPTOR

No. 48-521

The adaptor plugs into the automobile cigarette lighter or accessory socket; binding posts make for easy attachment of bare wires for hundreds of 12 - 14 volt devices. Binding posts are color coded red (+) and black (-) and also accept banana plugs, spade lugs etc... The adaptor is fused with a ten ampere fuse for safety and in case of overload.

Automotive Power Cord

No. TC3670

16 gauge - 6 ft. cable with in-line fuse on red wire. 2-pin plug fits many DC power requirements in automotive applications.

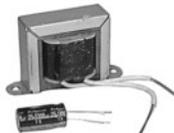

Car CB and Radio NOISE ELIMINATOR KIT

No. NF72

7 Amperes

Static and other noise interference coming from the ignition system or alternator can now be eliminated. The RF choke and the electrolytic capacitor supplied with this kit are all that's required. Simple installation instructions come with kits.

AUTOMOTIVE ACCESSORIES

ANTENNA ADAPTOR

Motorola type plug to "F" Female, 6.5" coaxial cable

No. 64-3017 - 6.5"

ANTENNA CABLE

Motorola type plug to "F" Male, 48" coaxial cable

No. 64-3019 - 4 Ft.

DIPOLE ANTENNA with MOTOROLA TYPE PLUG

No. 5035

The 300-Ohm twin leads has measurements of 6 feet. The ends of each lead are secured with plastic tabs for easy mounting, same design as our No. 5031TV but with Motorola type plug for connection instead of two spade lugs.

Car Stereo Wiring Harnesses

64-2410	24 Ga.	100 Ft.	11 / 0.16mm (34 AWG)

AUTOMOTIVE ACCESSORIES

Volkswagen to Motorola Adaptor

This shielded adaptor cable converts the Volkswagen/ Audi flat antenna plug to a standard Motorola antenna jack. It has Volkswagen/Audi antenna jack on one end and a standard Motorola antenna plug on the other.

No. 64-3050

Motorola to Volkswagen Adaptor

This shielded adaptor converts a standard size Motorola plug to the Volkswagen/Audi antenna jack. It has Volkswagen/Audi antenna plug on one end and a standard Motorola antenna jack on the other.

No. 64-3045

Nissan to Motorola Adaptor

Converts the plug on antenna cable in newer Nissan vehicles to standard size Motorola plug for connection to a radio having a standard Motorola jack.

No. 64-3030

Ground Loop Isolator

The Philmore ground loop isolator is a low level filter which isolates the ground between amplifier and radio. It eliminates the ground path which can cause alternator whine and ignition pop. The 64-4005 is equipped with two RCA Females for interconnection with cable adaptor / components. The all metal case will give additional shielding and create better isolation between the head unit and amplifier.

No. 64-4005

High / Low Impedance Adaptor

Effectively balances the low impedance of your car radio / stereo to adapt to the higher impedance of your high powered car amplifier. Protects your car radio by loading the output while balancing to your amplifier's input. For low powered car radio .5 watts per channel.

No. 64-4015

Noise Eliminator & Fixed Output Reducer

The 64-4020 converts car stereo speaker output to preamp level for input to separate amplifier. It is used to add an amplifier to a stereo with 9 - 15 watts of power per channel--up to 30 total watts. This product will adapt any stereo, even those with floating or bridged output, to Pre-Amp level for input to amplifier or equalizer / booster-amplifiers with RCA connector inputs. It also isolates stereo output and ground for noise elimination. No. 64-4020 is metal shielded to prevent radiated noise interference. Stereo output reduction ratio is 10:1. The 2 RCA plugs are 24 Karat Gold plated.

* Use with stereo having 9 -15 watts of power per channel.

No. 64-4020

Signal Noise Eliminator & Adjustable Output Reducer

The 64-4010 converts car stereo speaker outputs to Pre-Amp level for input to a separate amplifier. It is used to add an amplifier to a stereo with 2 to 40 watts of power per channel. The 64-4010 output channels are independently adjustable from zero output to 1200mv or higher. This product will adapt any stereo, even those with floating or bridged output, to preamp level for input to an amplifier or equalizer / booster-amplifier with RCA connector inputs. The 2 RCA jacks are 24 Karat Gold plated. The line output converter also isolates stereo output and ground for noise elimination; PLUS it is fader compatible.

* Use with stereo having a maximum of 40 watts of power per channel.

No. 64-4010

AUTOMOTIVE ACCESSORIES

12V Relay

This relay is equipped with a removable mounting tab and can be used with Philmore power relay socket. Part No. 64-1217 12VDC - 30 / 40A, SPDT.

No. 64-1240

Relay Socket & Harness

Heavy duty relay socket with 17" Leads, is intended for use with Philmore No. 64-1240 12V relay, SPDT.

No. 64-1217

Top Mount Battery Terminal

This Battery Terminal is made of Solid Brass and is plated with pure 24 Karat Gold for Maximum Power and Corrosion Free Connection. Tighten wing-nut onto connector for snug fit.

No. 64-2000

Post Extender for GM Battery Side Post

Allows easy hookup of accessories that require uninterrupted power from the battery, such as car alarms, cellular phones, etc. The post extender can be used on either positive or negative terminal.

No. 64-2005

Antenna Adaptors

Antenna Extension Cord

Motorola Type Plug to Motorola Type Jack

These antenna lead extension cords have a Male connector on one end and a Female on the other. It is 100% shielded with braided Copper and has abrasion resistant insulation. Standard size Motorola Connectors.

No. 64-3008 - 8 Ft.
No. 64-3012 - 12 Ft.

Chrysler Antenna Adaptor

This 7-inch shielded adaptor cable with snap-lock, converts a Chrysler Vehicle Antenna, 2002-up, to an Aftermarket Radio.

No. 64-3015

GM to Motorola Adaptor

Converts the Mini-GM Plug on Antenna Cable in Newer GM Vehicles to Standard Size Motorola Plug for Connection to a Radio having a Standard Motorola Jack. Six inches. If necessary, the Right-Angle Plug may be straightened.

No. 64-3020

Motorola to GM Adaptor

Converts a Standard Size Motorola Plug to the Mini GM Size. Connects a Motorola equipped Antenna to a GM Radio Equipped with a Mini Jack. Six inches. If necessary, the Right-Angle Plug may be straightened.

No. 64-3025

Ford to Motorola Adaptor

Converts an antenna plug found in 1995 or newer Ford vehicles into a standard size Motorola plug for connection to a radio having a standard Motorola jack. Six inches.

No. 64-3035

Motorola to Ford Adaptor

Connects a standard size Motorola antenna cable plug to a radio equipped with a jack in 1995 and newer Ford vehicles. Six inches.

No. 64-3040

DC TO AC POWER INVERTERS

Provides house current power in your automobile or camper.

A POWER INVERTER can provide 115-117 VAC power while on the road, camping or anywhere else that you have access to an automobile battery. The inverter will convert the 12-14 volt battery power, electronically, to 115-117 VAC house current. Philmore inverters produce a modified sine wave, which is close to a duplication of actual house power from your electric company. Inverters are available in various sizes. The smallest inverter in this series is plenty big enough to operate the "wall wart" power supply to keep your notebook, cell phone chargers, etc. up to a full charge and the inverter can run for a long time without depleting a good battery (your engine will recharge the battery when you drive). Other small equipment, such as radios and black & white TV's, may be used (check the wattage rating of your equipment to be sure).

How to choose an inverter. Pick the inverter model that is rated at least 30% higher than the appliance that you intend to operate. The inverters are rated by their absolute "peak" output and the continuous operating voltage is about 25% less (details below). Motors, such as in drills, grinders, etc. will require about twice the power as they are inductive loads and draw huge power at start up. Philmore inverters do produce a modified sine wave so they should work with most frequency-sensitive appliances and motors.

100 Watt Power Inverter

For use powering a small light, B&W TV, radio or the power supply ("wall wart") for your laptop and cell phone to keep their batteries topped off. The unit has one AC socket; connects to your car battery simply by plugging into the automobile's cigarette lighter or accessory power socket.

Part no. MWDAP100.....100 watt peak power Inverter.

Continuous power rating (4 hours): 80 watts
Peak (5 min.) power: 100 watts Surge maximum: 150 watts

(Clamshell Packaging)

300 Watt Power Inverter

The 300 watt unit may be operated by connection to your automobile's cigarette lighter socket. It is advisable to use a direct connection to the battery (attach in seconds) for larger loads. An additional cable with battery clips is included. The unit has two AC sockets.

Big enough for TV's, lighting, small sound systems and other small appliances.

Part no. MWDAP300.....300 watt peak power Inverter.

Continuous power rating (4 hours): 230 watts
Peak (5 min.) power: 300 watts Surge maximum: 500 watts.

(Clamshell Packaging)

700 Watt Power Inverter

This is our largest inverter, and will operate many large appliances including larger color TV's. It is capable of running more than one small appliance at once, including some lighting. As the current needed is larger, your automotive engine should run at idle during use; or, you may want to have two or three batteries in parallel to provide power. Connection directly to your battery via the included power cable and battery clips is required (power is too great to use the cigarette lighter jack).

The unit includes Automatic Protection Circuitry which includes overheating automatic shut down as well as low battery voltage shut down to prevent deeply discharging your battery.

Part no. MWDAP700.....700 watt peak power inverter

Continuous power rating (4 hours): 500 watts
Peak (5 min.) power: 700 watts Surge maximum: 950 watts

(Clamshell Packaging)

Mini Blade Type Fuses

These mini blade type fuses are suitable for automotive or wherever mini blade type fuses are specified. They are perfect for car stereo, marine or automotive use. The plastic housing for each rating is color-coded for easy amperage identification.

Display Package of 5 Pcs.

Part No.	Current	Color
64-6002	2A	Grey
64-6003	3A	Purple
64-6004	4A	Pink
64-6005	5A	Tan
64-6007	7.5A	Brown

FUSE HOLDERS

FUSE HOLDERS

**Fuse Block
for 5.0 x 20mm Fuses**

Specifications:
Electrical: Rated for currents, up to 6.3A
Clip/terminals: Nickel-plated tin-plated spring Brass ear type
Base: Phenolic laminate or glass fiber
No. FH501

**Fuse Block
for 5.0 x 20mm Fuses**

Specifications:
Electrical: Rated for currents, up to 6.3A
Clip/terminals: Nickel-plated tin-plated spring Brass ear type
Base: Phenolic laminate or glass fiber
No. FH503

**Fuse Block
for 3AG Fuses**

Specifications:
Electrical: Rated for currents, up to 10A
Clip/terminals: Nickel-plated tin-plated spring Brass ear type
Base: Phenolic laminate or glass fiber
No. FH551

**Fuse Block
for 3AG Fuses**

Specifications:
Electrical: Rated for currents, up to 10A
Clip/terminals: Nickel-plated tin-plated spring Brass ear type
Base: Phenolic laminate or glass fiber
No. FH554

Automotive Trailer Harnesses

Specifications

Connectors: .156" Bullet plugs & sockets
Wire: 16 AWG Automotive Primary wire
Body Material: Molded Vinyl

These molded trailer harnesses are manufactured with a loop of 16AWG primary wire between the mating ends. We offer the most popular sizes for your custom installation needs.

No. 65-1602
 2 position flat, 12" loop
 (Brn, Red)

No. 65-1603
 3 position flat, 12" loop
 (Grn, Yel, Brn)

No. 65-1604
 4 position flat, 12" loop
 (Grn, Yel, Brn, Wht)

AGU Heavy Duty In-line Fuse Holder

Heavy Duty Spring loaded Fuse holder for AGU or AG Glass fuses. It has machine brass contacts in a bakelite housing with a 12" loop of 8 AWG wire.

No. FH8600

ATC Style In-line Fuse Holder

This is a heavy duty fuse holder to be used with ATC, ATO, and ATG blade type fuses. The wire is 10 AWG automotive primary wire in a 12" loop.

No. FH1040

Maxi Style In-line Fuse Holder

A heavy duty in-line fuse designed for the MAXI style fuses. It is constructed from 8 AWG automotive power cable, and has a screw hole for easy mounting. The fuse holder is rated for up to 80A.

No. FHMAXI

ANL High Power Fuse Block

24 Karat Gold Plated, Solid Brass ANL Fuse Block comes complete with sturdy Plastic Base, crystal clear Plastic Cover, and two hold-down nuts. Holds one High Power ANL Fuse. (Fuse not included). Accepts 1/0, 2 & 4 gauge power cable.

No. 64-1006

CLEAR AGU FUSE HOLDER

Each Clear Fuse Holder from Philmore accepts one AGU fuse from 20 amps to 120 amps. This unique Fuse Holder is made for 4-8 or 10 Gauge power cable. It has 24 Karat Gold Plated contacts.

No. 64-1009

FUSE PULLER and INSERTION TOOL

Durable plastic tool for removal of all 5mm and 1/4" diameter glass fuses. 2nd end allows user to remove and insert blade type fuses.

No. P100

VIDEO WALL PLATES & ACCESSORIES

TV/FM WALL PLATE for 75 ohm Coaxial Cable

Designed for 75 ohm antenna and/or cable systems. These wall plates may be used flush or without box. An F-81 coupler is mounted in the plate. Mounting brackets and hardware are included.

- No. TV41 (Ivory)
- No. TV41V (White)
- No. TV41S (Brown)

With mounting Screws Only:

- No. TV41N (Ivory)
 - No. TV41VN (White)
 - No. TV41SN (Brown)
 - No. 75-3418 (Light Almond)
 - No. 75-3420 (Almond)
 - No. 75-3422 (Black)
 - No. 42-741 (Stainless Steel)
- INSTALLER PACKS
BOX OF 10 Wall Plates
- No. 76-102 (IVORY)
 - No. 76-104 (WHITE)
 - No. 76-106 (LIGHT ALMOND)

MID-SIZE FLUSH MOUNT TV WALL PLATE (with F-81)

Size: (3-1/8" x 4-7/8")

- No. 42-250 - Ivory
- No. 42-252 - White

DESIGNER "F" CONNECTOR WALL PLATE

Includes:

- Flush mount "F" Coupler • Wall Plate
- Mounting Hardware • Metal Mounting Bracket

- No. TV48 (Ivory)
- No. TV48V (White)
- No. TV48S (Brown)

DECEP TV/FM WALL PLATE

One-piece designer look alike wall plate.

- No. TV40 (Ivory)
- No. TV40V (White)

Dual Wall Plate F-81 Coupler Modular Female Jack

Enables user to make two totally different connections: (A) 4-wire modular phone jack to accept a modular telephone plug. (B) An F-81 jack to accept "F" male connector attaching video devices with 75 ohm cable. With mounting screws.

- No. TWP11 (Ivory)
 - No. TWP11V (White)
 - No. 75-3168 (Light Almond)
 - No. 75-3170 (Almond)
 - No. 75-3172 (Black)
- Mid-Size Wall Plate
(3-1/8"W x 4-7/8"L)
- No. 75-850 - (Ivory)
 - No. 75-852 - (White)

Black and White Fastening Clamps for Wire and Cable

- Hardened nail can be driven into plaster, mortar or concrete block.
- U/V resistant black plastic for outdoor uses.

For RG59/U(.242"); 6 pair Telephone and Speaker Wire (.250").

- No. 2060WH - White (20 per package)
- No. 2060BL - Black (20 per package)

For #12 Ground Wire, 4 Conductor Station Wire (.140")

- No. 2062 - Beige (20 per package)
- No. 2062WH - White (20 per package)

For RG6/U(.275")

- No. 2064WH - White (20 per package)
 - No. 2064BL - Black (20 per package)
- For Bulk Order add suffix letter "B" to end of the part number

INSULATED STAPLES

No. 5 size - 1/4" x 5/8". Furnished with fibre insulation. Designed for securing lead-in, ground and other wires for installation.

Packed 100 to a box, 1000 to a master carton.

- No. 2059 - Package of 1000
- No. 2059-100 - Package of 100

FEED-THRU BUSHINGS

Protect and secure cable through brick, concrete or wood walls. Gives your installation a professional look.

- No. 3059B WH - RG59/U Cable-White (Bulk Only)
- No. 3059B BL - RG59/U Cable-Black (Bulk Only)
- No. 3059 - RG59/U Cable - 4 per package (2 Black and 2 White)
- No. 3006B WH - RG6/U Cable - White (Bulk Only)
- No. 3006B BL - RG6/U Cable - Black (Bulk Only)
- No. 3006 - RG6/U Cable - 4 per package (2 Black and 2 White)

WALL PLATE with SPLITTER

Philmore standard White and Ivory wall plates with 2-way right angle splitter assembled for convenient installation.

- No. 42-320 - Ivory
- No. 42-322 - White

DUAL "F" TYPE WALL PLATE

- No. TV45 (Ivory)
- No. TV45V (White)
- No. 75-3428 (Light Almond)
- No. 75-3430 (Almond)
- No. 42-745 (Stainless Steel)

- Two "F" connectors
- Includes mounting screws

INSTALLER PACKS

BOX OF 10 Wall Plates

- No. 76-108 (Ivory)
- No. 76-110 (White)
- No. 76-112 (Light Almond)

BLANK TV/FM WALL PLATE

Ivory colored wall plate accepts "F-81" receptacle in non-slip hexagonal hole. With mounting hardware.

MATV - CATV - SPLITTERS

MULTI-COAXIAL INDOOR/OUTDOOR HYBRID SPLITTERS CHANNELS 2-83 VHF/UHF/FM and ANY VIDEO RECORDER

All Philmore hybrid splitters are now housed in hematic zinc die-cast cases for both indoor and outdoor use. Display packed. For bulk-packed splitters, please add suffix letter "B" to part number.

Specifications:

Freq. Range: 5-900
 Impedance Input: 75 ohm
 Impedance Output: 75 ohm
 Insertion Loss: UHF 4 dB- VHF 3.5 dB
 Return Loss: UHF 15 dB - VHF 20 dB
 Isolation: UHF 25 dB - VHF 30 dB

Miniature 2-Way Hybrid
No. CS12

2-Way Splitter
 for wall plate mounting

No. 42-120 - 20 db
No. 42-123 - 23 db

DROP TAPS

Zinc die-cast housing, AC and DC isolated ports, straight through-line conductor. 75 ohms impedance, 20 db return loss. Bulk packed only.

Single Output Taps

- No. CS16B** - Tap isolation 12dB (Insertion loss 1dB)
- No. CS17B** - Tap isolation 17dB (Insertion loss 0.8dB)
- No. CS18B** - Tap isolation 23dB (Insertion loss 0.5dB)

Two Output Taps

- No. CS19B** - Tap isolation 12dB (Insertion loss 2.2dB)
- No. CS20B** - Tap isolation 17dB (Insertion loss 1.2dB)
- No. CS21B** - Tap isolation 23dB (Insertion loss 0.6dB)

Four Output Taps

- No. CS22B** - Tap isolation 12dB (Insertion loss 3.5dB)
- No. CS23B** - Tap isolation 17dB (Insertion loss 3dB)
- No. CS24B** - Tap isolation 23dB (Insertion loss 1dB)

Satellite Multiswitches

These switches are designed to provide composite Video signals from two (2) LNB (low noise amplifier/converters) to multiple receivers. They feature (2) LNB inputs + a TV input (either Antenna or Cable) and either four (4) or eight (8) Receiver Outputs. The composite video signal is mixed with the Satellite signal and distributed through a single coax cable. These voltage controlled switches may be used in individual reception systems or SMATV System Star Distribution Networks. The LNB is powered by 14-18 VDC from Satellite Receiver supplied via the coax cable.

Specifications:

Inputs: (2) LNB 950-2050 MHz + (1) TV 47-860 MHz
 Connectors: female "F" connectors
 Case is Zinc Die Cast, Nickel-Plated
 Isolation \geq 20 dB

No. 4688 3 inputs X 8 outputs w/external power jack*
 Insertion loss=6 dB (Sat.), 18dB (TV) \pm 3db

*Power supply 18V @300mA optional extra

No. 4684B 3 inputs X 4 outputs
 Insertion loss=14 dB \pm 2 dB (TV) 2 dB \pm 3dB (Sat.)

VIDEO CABLES & MATCHING TRANSFORMERS

QUAD-COMPRESSION, QUAD SHIELDED RG6 CABLES WITH WEATHERPROOF COMPRESSION 'F' CONNECTORS

There is no better RG6 video cable. The series is quad-shielded (100% shielding several times) and the center conductors are pure 18 gauge copper. We do NOT use steel for the center as it is less conductive at lower frequencies, less reliable for composite video applications and much less flexible than pure copper. This series may be used with all RF (television) as well as composite video and even with audio using F to RCA or F to BNC adaptors.

The compression "F" connectors are fully weatherproof; and these assemblies are very durable and reliable. The outer jacket is CMX and CL1 UL rated. The compression connector is our FC346B, the original and only completely reliable design that we have seen.

All of the following cables are black in color, male to male quad-shielded with "F" male compression connectors on both ends. All cables may be ordered bulk packaged by adding suffix letter "B" to the part number.

Part No.	Description
No. 45-601	- Male to Male, Quad RG6 cable, 1' length
No. 45-603	- Male to Male, Quad RG6 cable, 3' length
No. 45-606	- Male to Male, Quad RG6 cable, 6' length
No. 45-612	- Male to Male, Quad RG6 cable, 12' length
No. 45-625	- Male to Male, Quad RG6 cable, 25' length
No. 45-650	- Male to Male, Quad RG6 cable, 50' length
No. 45-675	- Male to Male, Quad RG6 cable, 75' length
No. 45-685	- Male to Male, Quad RG6 cable, 100' length

CCTV Power/Video Cable

Closed Circuit TV combination VIDEO & POWER in one cable assembly.

Philmore CCTV video cables are true 75 ohm cable* with an additional universal power cable. The video cable is terminated in BNC males; may be used with Philmore No. 957 (BNC female to RCA male adaptor) if your system has RCA connectors. The power cable section is terminated in male and female (universally used 2.1 x 5.5mm) DC coaxial connector. These are very flexible cables, and are exceptional in delivering low loss signals over even the very longest cable runs.

*Most of our competition uses simple audio cable in place of true 75 ohm coaxial video cable, which always results in at least some degradation in picture quality. Our video cable is 100% Aluminum foil shield plus Copper braid. Center conductor is pure copper.

Part No.	Description
No. 42-2025	- CCTV Power/Video cable 25 ft.
No. 42-2035	- CCTV Power/Video cable 35 ft.
No. 42-2050	- CCTV Power/Video cable 50 ft.
No. 42-2075	- CCTV Power/Video cable 75 ft.
No. 42-2100	- CCTV Power/Video cable 100 ft.
No. 42-2150	- CCTV Power/Video cable 150 ft.

COAXIAL IN-LINE CONNECTOR

This in-line device allows user to splice coaxial cable to repair breaks or extend length of cable. For all coax cables up to O.D. of RG6/U cable.

No. CCS1

BALUNS, MATCHING TRANSFORMERS No. 75-300 OHM UHF/VHF/FM BALUN

Superior three-capacitor design for effective blocking.

- No. MT73 Packaged
- No. MT73B Bulk
- No. MT73-4-Economy 4 pack of No. MT73 75-300 ohm Matching Transformer

OUTDOOR MATCHING TRANSFORMER 300-75 OHM UHF/VHF BALUN

Hermetically sealed, molded PVC case assures complete resistance to all weather conditions. Superior three-capacitor design for effective blocking.

Supplied with protective plastic removable boot.

No. MT74 Packaged
No. MT74B Bulk

WEATHER BOOT

Weather resistant black rubber boot. For RG59/U and RG6/U cable

No. MTB Bulk Only

PUSH-ON BALUN MATCHING TRANSFORMER Matches 75 ohm Input to 300 ohm Lead-In

- No. MT80 Individually Packed
- No. MT80B Bulk
- No. MT80G-Gold Plated

75-300 MATCHING TRANSFORMER for "Mini Televisions"

Special Plug permits hook-up of external antenna. Inserts into "ext. ant" jack on back of set. With 300 ohm terminals to attach to flat lead or for 75 ohm cable hook-up.

No. MT82

CCTV POWER / VIDEO HOOK UP CABLE

BNC Male and 2.1 x 5.5mm DC coaxial male connector on both ends with short 18" cables. Use Philmore 42-2118 between wall plate and camera for a quick connect or disconnect installation. Works with Philmore Video & DC power wall plates No. 75-1009, 75-606 and 75-703.

No. 42-2118

VIDEO CABLES & VIDEO SWITCHES

A/B SWITCH BOX

The ultimate design in a video selector- For Styling and Performance. Select perfect viewing from TV or VCR with this RF slide switch. Mount conveniently anywhere with durable, two-sided tape (supplied). 100% shielding assures removal of external interference. High isolation of 90db over the entire TV band. **Impedance:** 75 ohm.

No. AB8

COAXIAL SWITCHES

2-Way Coaxial
Push Button Switch
No. AB6

3-Way Coaxial
Push Button Switch
No. AB7

SELECTS 75 OHM VIDEO DEVICES FOR VIEWING ON TV SET. ELIMINATES INTERFERENCE BETWEEN SIGNALS BECAUSE OF A HIGH ISOLATION OF 950-890mHz.

NO BLEEDING - NO STATION INTERFERENCE - NO PICTURE LOSS

A coaxial switch offers the user numerous other capabilities, such as; switching between directional antennas; cable and outside TV antenna; computer inputs; etc.

A zinc diecast inner case gives this switch complete internal protection. Fully shielded with low conductivity gaskets.

Supplied with double sided tape and connecting screws for ease of mounting.

COAXIAL GAME SWITCH

This convenient coaxial switch allows the user to quickly change from standard TV programming to other video devices such as VCR, Videodisc and games. Switch operates in the 54-890 MHz range. Return loss 20db, isolation 60db.

No. CS2

Input: 2 x 75 ohms
Output: 75 ohms
Insertion Loss: 0.2 db

Size is 2" x 2-3/4" x 1"

VIDEO DUBBING CABLE ASSEMBLY

Gold Plated Connectors, for mono recording

No. VCK43T - 3 ft.
No. VCK4T - 6 ft.
No. VCK412T - 12 ft.
No. VCK420T - 20 ft.

Heavy duty paired cables, coaxial video and fully shielded audio. Terminated with molded RCA phono plugs, gold plated with built-in strain relief for reliable long term use.

Video Dubbing Cable Assembly

for stereo recording
MALE TO MALE

No. VCK81T - 1.5 ft.
No. VCK83T - 3 ft.
No. VCK84T - 4.5 ft.
No. VCK8T - 6 ft.
No. VCK812T - 12 ft.
No. VCK820T - 20 ft.
No. VCK825T - 25 ft.
No. VCK850T - 50 ft.
No. VCK875T - 75 ft.
No. VCK810T - 100 ft.

MALE TO FEMALE

No. 45-3603 - 3 ft.
No. 45-3606 - 6 ft.
No. 45-3612 - 12 ft.

Security Camera Adaptors:

DC Power Adaptor cables use a video dubbing cable, such as LKG'S VCK series on page 68, to make an extension cable for CCD Video Cameras. These unique 6" adaptor cables allow you to use one of the audio cables with RCA male connectors to extend the DC power to the camera. Converts RCA male plugs to 2.1x 5.5mm DC power connectors.

No. 42-210 RCA Jack-2.1mm x 5.5mm DC Plug Adaptor.

No. 42-257 RCA Jack-2.1mm x 5.5mm DC Jack Adaptor.

No. 42-467 ADAPTOR KIT

Kit contains the following adaptors:

- (1) No. 42-210 RCA Jack-2.1mm x 5.5mm DC Plug Adaptor.
- (1) No. 42-257 RCA Jack-2.1mm x 5.5mm DC Jack Adaptor.
- (2) No. SA13 (RCA Female Coupler)

RG58/U Cable Assemblies

No. CA898 - 6 ft. BNC Male to UHF Male

No. CA890 - 3 ft. UHF Male to UHF Male

No. CA892 - 6 ft. UHF Male to UHF Male

BNC - UHF

UHF - UHF

VIDEO AMPLIFIERS & SPLITTERS

BAND SEPARATORS, SPLITTERS

....perfectly designed and matched for TV and FM signals coming from the UHF-VHF-FM BANDS. Heavy duty wire and cable prevents broken connections. Non-strip piercing screws are made of plated brass for corrosion-free reliability. Add suffix letter "B" to part number for bulk pack.

No. MT77 75-300 OHM BALUN WITH UHF/VHF/FM SPLITTER

Matches impedance between 75 ohm coaxial cable and 300 ohm TV and FM antenna inputs. It separates the three signals from the 3-way antenna into individual signals for UHF, VHF and FM. Two outputs connect to the UHF, VHF antenna terminals on rear of the TV set. Separate screw terminal connects 300 ohm twin lead to the FM receivers. For VCR's too.

No. MT78 75-300 OHM BALUN AND UHF/VHF/FM BAND SEPARATOR

Separates incoming signals from a 75 ohm antenna downlead into UHF, VHF and FM bands. The coaxial 75 ohm cable is fitted with an "F" connector to accommodate the VHF terminal on rear of TV set or VCR. The 300 ohm output for UHF connects to the receiver with heavy, hook terminated wires.

SEPARATOR/COMBINER BALUNS

Designed expressly for TV sets with "F" coaxial jack input, these baluns will accept 75 ohm coax or 300 ohm twin lead input and combine them, feeding them to the set through a push-on "F" connector on the back of each type. These combiners may be used as separators because they can function with signal fed in either direction. Individually packaged for display rack, they may be obtained bulk packed by adding suffix letter "B" to the part number.

No. MT86

75 ohm VHF + 75 ohm UHF to 75 ohm push-on male.

No. MT87

300 ohm VHF + 300 ohm UHF to 75 ohm push-on male.

No. MT88

75 ohm VHF + 300 ohm UHF to 75 ohm push-on male.

(Back View)

300 OHM JUMPER CABLE

300 ohm cable, twin lead, with spade lug on both ends for extension lead between VCR and TV, 6ft.

No. CA280

UHF/VHF/FM HIGH GAIN DISTRIBUTION AMPLIFIER (with FM TRAP)

No. DA27B

Traps out strong FM interference from TV.

SPECIFICATIONS:

Band Width:	50 to 900 Mhz.
Output Capability:	40 dbmV
Gain:	VHF-25db, UHF - 21db
Noise Figure:	4 db
FM Trap Attenuation:	-20 db (switchable) 95 - 108 MHz.
Input:	75 ohm, "F" type coax connector
Output:	75 ohm, "F" type coax connector
Power Source:	120VAC 60Hz
Dimensions:	3" x 5 7/8" x 1-5/8"

10 db VCR/TV SIGNAL AMPLIFIER 50-900MHz

Sharpens and improves picture quality by restoring signal loss that occurs in some 75 ohm connections. Standard "F" connectors; 117 volt @ 1.2 watt operation. Boosts both TV and FM radio systems.

No. DA10B

6 db VCR/TV SIGNAL AMPLIFIER with 2 OUTPUTS 50-900MHz

Single 75 ohm input from antenna or cable system with two 75 ohm outputs. Standard "F" connectors; 117 volt @ 1.2 watt (10mA) operation.

No. DA12B

10 db VCR/TV SIGNAL AMPLIFIER with 4 OUTPUTS 50-900MHz

Single 75 ohm input from antenna or cable system with four 75 ohm outputs. Standard "F" connectors; 117 volt @ 1.2 watt (10mA) operation.

No. DA14B

*ALL PHILMORE Signal Amplifiers cover to 900 MHz and can be used to amplify cable signal.

TV - FM ANTENNAS

ULTRA MODERN ALL - CHANNEL VHF/UHF/FM ANTENNA

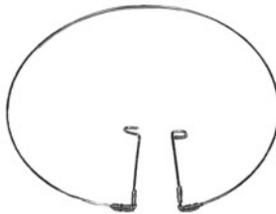

New stream lined design of this antenna provides low profile, pleasing appearance. The unit has 12 position tuning circuit to maximize signal strength.

No. 46-600

UHF LOOP ANTENNA

Ideal replacement for use on most TV's... Color or black and white. Provides excellent reception for all local UHF channels. Universal mounting bracket with swivel adjustment for back-of-set mounting.

No. 46-200

VHF ANTENNA

Attractive top-of-set antenna. 4-section, telescoping dipoles extend a full 38". Extra high impact polystyrene base with felt padded bottom. Complete with lead wire and terminals.

No. 32300

PANASONIC TYPE ANTENNA

Replacement antenna for: Panasonic, RCA, Quasar and others

No. 46-500

• Five section • Approximately 39" extended

"T" SHAPED DIPOLE ANTENNA

The flexibility of this folded dipole antenna enables it to be placed anywhere in back of the TV or FM set-even if hooked up out of sight, the signal comes in strong and sharp. The 300-ohm twin lead has measurements of 6-1/2 feet. The ends of each lead are secured with plastic tabs for easy mounting, while bottom of section has two spade lugs for attachment to TV or FM set.

No. 5031TV

No. 5031TVB - Bulk packed

DIPOLE ANTENNA with MOTOROLA TYPE PLUG

The 300-Ohm twin leads has measurements of 6 feet. The ends of each lead are secured with plastic tabs for easy mounting, same design as our No. 5031TV but with Motorola type plug for connection instead of two spade lugs.

No. 5035

UHF BOW-TIE ANTENNA

For color or black and white, this unique universal snap-on type antenna is for UHF channels 14-83. Snap on to VHF antenna rod. With lead wire and terminals.

No. 46-202

AUTOMATIC ROTOR

Heavy-Duty antenna rotor for all TV antenna applications. The automatic antenna control indicates the position of the antenna.

- **Power Requirements:** 115VAC, 60 Hz., .5 Amp
- **Rotation:** 360° in 78 seconds
- **Mast Diameter:** 1-1/8" - 1-3/4"
- **Motor Voltage:** 18VAC
- **Zinc Die-cast weatherproof motor housing**

No. AR-303

VHF/UHF/FM ANTENNA

This VHF/UHF/FM antenna is great for use with mini dish systems to pick up local stations, as a replacement for a built-in antenna or to improve FM reception

No. 46-320

Features

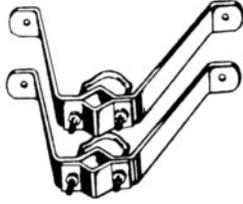

Output: 75ohm
VHF/FM Ant: 5 sections 36" Rod
VHF Ant: 6" Loop

ANTENNA HARDWARE

WALL MOUNT

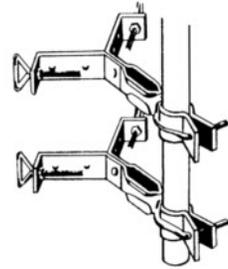

Made of heavy gauge steel. Supplied with 2 brackets and mounting hardware. For masts up to 1-1/2" diameter. Wall clearance of 3-3/4".

No. 15-9023

CHIMNEY MOUNT

fits masts up to 1-1/2" diameter complete with heavy duty strap clamps, 18 ft. stainless steel strapping and necessary hardware.

No. 15-1218

UNIVERSAL INSULATOR (STANDOFF) Woodscrew Type

No. 15-853 - 3-1/2" Long (4 Per Package)

No. 15-854 - 5-1/2" Long (4 Per Package)

MASONRY DRIVE-IN STANDOFFS

Universal Insulator - Hardened steel with 3" nail. Double welded construction.

No. 15-820 - (2 Per Package)

MAST STANDOFFS

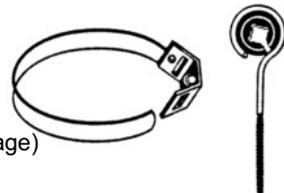

Universal Insulator - Snap Type for 1-1/4" Masts

No. 15-822 - (2 Per Package)

STRAP-ON STANDOFFS

Universal Insulator 10" Straps

No. 15-823 - 10" Straps (2 Per Package)

3 1/2" Stand off

ANTENNA GUY WIRE

50 ft. - 6 Strand - 20 Gauge wire. Heavy Galvanized Steel. Rustproof.

No. 15-620

ALUMINUM GROUND WIRE, for TV ANTENNA SYSTEMS

No. 15-625 - 9 gauge (1/8" Dia.)
50 ft. Coil Solid
Aluminum Ground
Wire

ROTOR WIRE

3 Conductor

UL Listed 

No. 15-127 - 50 ft.

No. 15-128 - 75 ft.

No. 15-129 - 100 ft.

PURE COPPER ANTENNA WIRE

No. 15-630 - 14 gauge 50 Ft. Copper
Antenna Wire

No. 15-635 - 14 gauge 100 Ft. Copper
Antenna Wire

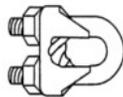

CABLE CLAMPS

Guy wire clamps to hold wires securely.

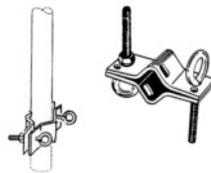

Galvanized Steel - 1/8" wire size.

No. 15-850 - (4 Per Package)

GUY RING and CLAMP For 1-1/4" Diameter Masts

No. 15-835

2-WAY GUY WIRE MAST CLAMP

Two screw eyes for attaching guy wire to masts up to 1-1/2" diameter.

No. 15-827 - (1 Per Package)

LAG SCREWS

Steel slotted hex washer head lag screw. (1/4" x 2") For installation of TV antenna mounts and brackets.

No. 15-833 - (4 Per Package)

SCREW HOOK

Steel - Zinc Plated

1/4" x 3-3/4" - 1" I.D.

No. 15-825 - (3 Per Package)

MAST CLAMP ASSEMBLY

U Bolt Assembly. Serrated edges to prevent twisting.

No. 15-826 - (1 Per Package)

TURNBUCKLES

Galvanized steel for installing guy wires. Closed 4" - Open 5-5/8"

No. 15-829 - (2 Per Package)

VIDEO MAINTENANCE ACCESSORIES

LCD and PLASMA SCREEN CLEANER

A non-flammable cleaner for the TV and Computer Monitor Screens. The cleaner is safe on non-glare screens and provides streak-free cleaning. Use with a lint-free cloth and never use ordinary window cleaners on your modern video screens. For safety sake, turn power off and be careful not to spray toward face and eyes. Non-aerosol, 6 oz. pump spray.

No. 50-8730 LCD and PLASMA SCREEN CLEANER

VHS TAPE REWINDER

- Saves time and wear on VCR's
- Automatic shut-off system when tape is rewound
- Automatic start when lid is closed
- Indicator light during rewinding
- One touch operation

No. UV520

VIDEO TAPE REPAIR KIT

Easy to use kit to repair VHS or BETA tapes. Includes both leader tapes, splicing jig, cutting blade, adhesive tape and instructions. Also use for editing.

No. CB8 - Complete Kit

VCR HEAD CLEANER

Safely cleans video and audio recording heads. Foam-tipped swabs provided to apply cleaning fluid. For use on all types of video and audio recording heads. Contains 2 oz. bottle of special cleaning solution and assortment of swabs. Use to prevent flutter, distortion, head wear, tape damage etc. Instructions included.

No. CB460 - Complete Kit

No. CB402 - 2 oz. Fluid only

FOAM CLEANING SWABS

By keeping heads clean on recorders, the equipment will operate longer. These swabs are not cotton but soft foam, making them lintless, as well as reusable. 6" long with 20 to blister card.

No. SC20

No. SC20B - Package of 100 Swabs

ULTRA-CHEM Swabs

No. 50-150

Double Tipped 6" (100 pk)

No. 50-288

Chamois 3/8" X 3 1/2" (25 pk)

VHS WET-TAPE VIDEO HEAD CLEANER

Place cleaning solution on tape per instructions, run VCR 10 seconds on "PLAY" and video heads, rollers etc. are safely cleaned providing a sharper picture...plus saving wear and tear on unit. Do not rewind.

No. CB2 - Economy VHS Video Cleaner

ALL-PURPOSE DUST CLEANER with 4 SLIP-ON ADAPTOR TOOLS blows away dust particles from: VCR's, Computers & Cameras

No. BL6

With a push button, blow away dust, oxide particles and simple dirt from hard to reach areas without damage to delicate equipment. Merely attach the appropriate adaptor from the tools furnished and Blow Master cleans VCR heads, computer keyboards, terminals, disk drives, camera optics and dozens of other delicate devices where normal cleaning is required. Includes a brush attachment where blown air is not enough. Uses 2 "AA" batteries (not included).

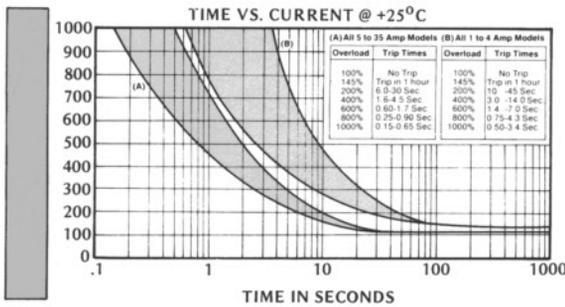

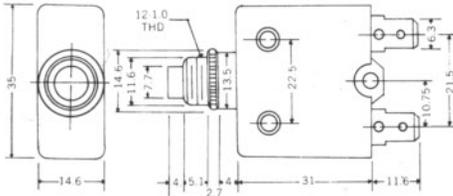

CIRCUIT BREAKERS

PUSH BUTTON CIRCUIT BREAKER

B7000 Series PUSH BUTTON THERMAL CIRCUIT BREAKER

"B7000" Series breakers are UL 1077 recognized as Supplementary protectors, File E99607, and CSA Certified as appliance Components protectors, File LR62590.

B7000 Series are single pole, thermal circuit breakers that feature a recessed reset button which cannot be manually pulled out to disconnect the circuit. When an overload occurs and the breaker opens, it allows the reset button to "pop out" for visible trip indication.

Specifications:

- * **Input Power:** 125 VAC / 250 VAC / 50 VDC.
- * **Dielectric Strength:** 1500 VAC / 1 minute.
- * **Interrupt Capacity:** 125 VAC x 1000 A,
250 VAC x 2000 A.
- * **Insulation Resistance:** > 100 M
- * **Calibration:** 25 C-100% of rated current-continuously carried.
25 C-between 101% to 145%-may trip or not.
25 C-150% of rated current- trip within 1 hour.
25 C-200% of rated current-trip within 1 minute.
- * **Contact Endurance:** 125 VAC x 150% of rated current - 500 cycles

Part No.	Amps.	Maximum Resistance in ohms	Trip time@ 200% of Rating

POTENTIOMETERS

Miniature Potentiometers (16 mm)

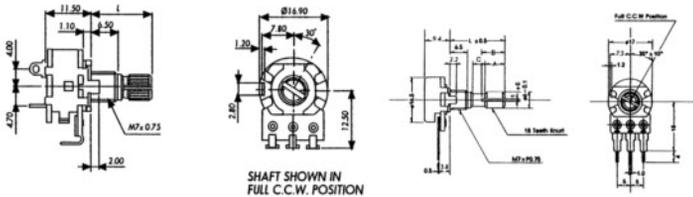

These potentiometers are used in a lot of consumer electronics applications such as stereos, TV's, two-way radios, and many more. They are now available in solder lug type and universal terminal which may be inserted into PC boards or wrapped with wire and solders. They are available in resistance values from 1K (1000) ohms to 1 Meg (1,000,000) ohms and in both Audio and Linear tapers and with or without switches.

Specifications:

Total Resistance: 1K - 1 Meg Ohm
 Resistance Tolerance: 20%
 Maximum Voltage: Linear = 150V AC
 Audio = 200V AC
 Power Rating: Linear = 200 mA, .2W
 Audio = 100 mA, .1W
 Switch Rating: 1.0 A @ 12V DC or 125V AC
 Total Rotation: 300°
 Rotation life: 15,000 cycles
 Bushing Diameter: 7 mm
 Shaft: 30mm w/ flat 12 mm

SUB-MINIATURE TRIMMER POTENTIOMETER

- No. PC300 300 ohms
- No. PC500 500 ohms
- No. PC1K 1000 ohms
- No. PC2K 2000 ohms
- No. PC5K 5000 ohms
- No. PC10K 10000 ohms
- No. PC30K 30000 ohms
- No. PC50K 50000 ohms
- No. PC100K 100000 ohms
- No. PC500K 500000 ohms

- Very small; well suited for the low profile sets
- For printed circuit board mount
- Control is linear
- Ideal for volume and tone control for compact audio products

SWITCHES APPLIANCE & SPECIALTY

PUSH BUTTON CANOPY SWITCH

Mounting Hole: 0.375"

SPECIFICATIONS:

Current Rating:	3A @ 125V AC, 1A @ 250V AC
Initial Contact Resistance:	DC 2.5V-1A, 20 Meg ohm (Min.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1500V AC for 1 minute
Contact Material:	Brass - Bright Nickel Plate
Terminal Material:	6" 18 AWG 105 C° Wire
Terminal Type:	Stripped Wire Leads

Part No.	Type	Action			Actuator
30-1885	SPST	ON	-	OFF	METAL

PUSH BUTTON CANOPY SWITCHES

Mounting Hole: 0.400"

SPECIFICATIONS:

Current Rating:	6A @ 125V AC, 3A @ 250V AC, 6A @ 30 VDC, 3A @ 15VDC
Initial Contact Resistance:	50 Meg ohm (Max.)
Insulation Resistance:	100 Meg ohm (Min.) @ 500V DC
Dielectric Strength:	1000V AC 60/50 Hz for 1 minute
Terminal Material:	Brass/Nickel Plate
Actuator Type:	Plastic

Part No.	Type	Action			Terminal
30-19164	SPST	ON	-	OFF	Solder
30-19886	SPST	ON	-	OFF	Wire Leads

ROTARY CANOPY SWITCH

Mounting Hole: 0.375"

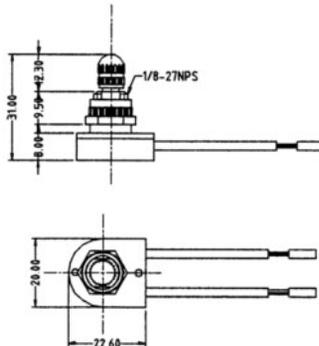

SPECIFICATIONS:

Current Rating:	3A @ 125V AC, 1A @ 250V AC
Initial Contact Resistance:	DC 2.5V-1A, 20 Meg ohm (Min.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1500V AC for 1 minute
Contact Material:	Brass - Bright Nickel Plate
Terminal Material:	6" 18 AWG 105 C° Wire
Terminal Type:	Stripped Wire Leads

Part No.	Type	Action			Actuator
30-9159	SPST	ON	-	OFF	Knurled Plastic

ROTARY CANOPY SWITCH

Mounting Hole: 0.406"

SPECIFICATIONS:

Current Rating:	6A @ 125V AC, 3A @ 250V AC
Initial Contact Resistance:	DC 2.5V-1A, 20 Meg ohm (Min.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1500V AC for 1 minute
Contact Material:	Brass - Bright Nickel Plate
Terminal Material:	6" 18 AWG 105 C° Wire
Terminal Type:	Stripped Wire Leads

Part No.	Type	Action			Actuator
30-9161	SPST	ON	-	OFF	Knurled Plastic

SWITCHES APPLIANCE & SPECIALTY

SPECIFICATIONS:

Current Rating:	6A @ 125V AC, 3A @ 250V AC
Initial Contact Resistance:	DC 2.5V-1A, 20 Meg ohm (Min.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1500V AC for 1 minute
Contact Material:	Brass - Bright Nickel Plate
Terminal Material:	6" 18 AWG 105 C° Wire
Terminal Type:	Stripped Wire Leads

Part No.	Type	Action	Actuator
30-1887	Two Circuit	3-Way (L-1, L-2, L-1&2, OFF)	Black Nylon

PUSH BUTTON CANOPY SWITCH (Two Circuit)

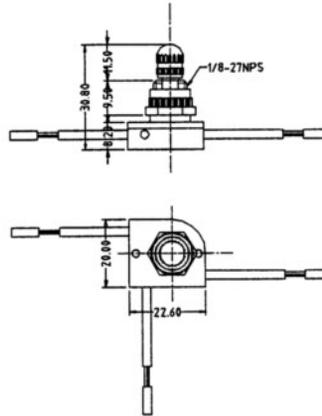

Mounting Hole: 0.406"

SPECIFICATIONS:

Current Rating:	6A @ 125V AC, 3A @ 250V AC
Initial Contact Resistance:	DC 2.5V-1A, 20 Meg ohm (Min.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1500V AC for 1 minute
Contact Material:	Brass - Bright Nickel Plate
Terminal Material:	6" 18 AWG 105 C° Wire
Terminal Type:	Stripped Wire Leads

Part No.	Type	Action	Actuator
30-9160	Two Circuit	3-Way (L-1, L-2, L-1&2, OFF)	Knurled Metal

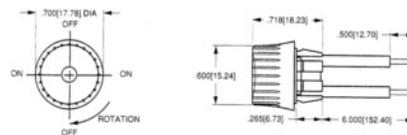

Mounting Hole: 0.400"

ROTARY CANOPY SWITCH (Two Circuit)

SPECIFICATIONS:

Current Rating:	3A @ 125V AC, 1.5A @ 250V AC
Initial Contact Resistance:	DC 2.5V-1A, 20 Meg ohm (Min.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1500V AC for 1 minute
Contact Material:	Brass - Bright Nickel Plate
Terminal Material:	6" 18 AWG 105 C° Wire
Terminal Type:	Stripped Wire Leads

Part No.	Type	Action	Actuator
30-9162	SPST	ON - OFF	Black Plastic Knob
30-19163	SPST	ON - OFF	White Plastic Knob

Mounting Hole: 0.500"

FRONT MOUNTED ROTARY SWITCHES

SPECIFICATIONS:

Current Rating:	6A @ 125V AC, 3A @ 250V AC
Initial Contact Resistance:	50 Meg ohm (Max.)
Insulation Resistance:	100 Meg ohm (Min.) @ 500V DC
Dielectric Strength:	1000V AC 50/60 Hz for 1 minute
Contact Material:	Brass - 6" 18 AWG, 105 C° Wire
Terminal Material:	Brass - Bright Nickel Plate
Terminal Type:	Stripped & Tinned Wire Leads

Part No.	Type	Action	Actuator
30-1720	SPST	ON - OFF	Metal

LIGHT DUTY BALL HANDLE TOGGLE SWITCH

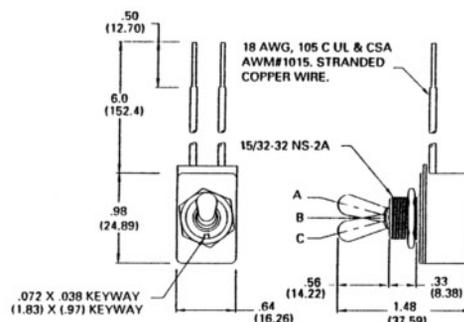

Mounting Hole: 0.500"

SPECIFICATIONS:

Current Rating:	8A @ 125V AC, 4A @ 250V AC 10A @ 125V AC, 1/3 HP @ 125V AC
Initial Contact Resistance:	50 Meg ohm (Max.)
Insulation Resistance:	100 Meg ohm (Min.) @ 500V DC
Dielectric Strength:	1000V AC 50/60 Hz for 1 minute
Contact Material:	Brass - 6" 18 AWG, 105 C° Wire
Terminal Material:	Brass - Bright Nickel Plate
Terminal Type:	Stripped Wire Leads

Part No.	Type	Action	Actuator
30-350	SPST	ON - OFF	Metal

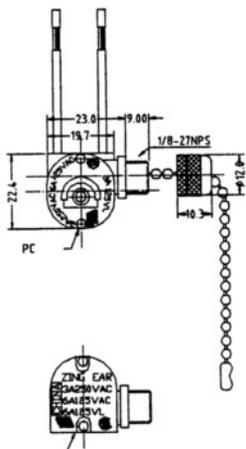

Mounting Hole: 0.500"

UTILITY BAT HANDLE TOGGLE SWITCH

SWITCHES APPLIANCE & SPECIALTY

PULL CHAIN SWITCH

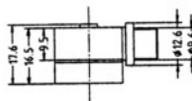

Mounting Hole: 0.406"

SPECIFICATIONS:

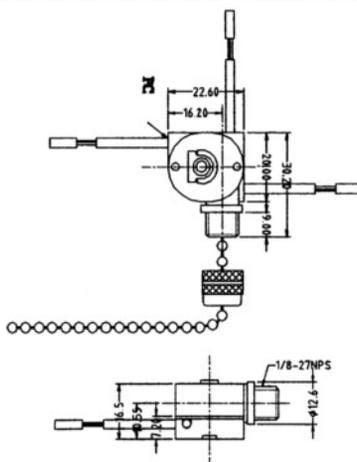

Current Rating:	6A @ 125V AC, 3A @ 250V AC
Initial Contact Resistance:	DC 2.5V-1A, 20 Meg ohm (Min.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1500V AC for 1 minute
Contact Material:	Brass - Bright Nickel Plate
Terminal Material:	6" 18 AWG 105 C° Wire
Terminal Type:	Stripped Wire Leads

Part No.	Type	Action	Actuator
30-9157	SPST	ON - OFF	Pull Chain

NOTE: Rope chain (No. 9157PCB) must be ordered separately.

PULL CHAIN SWITCH (Two Circuit)

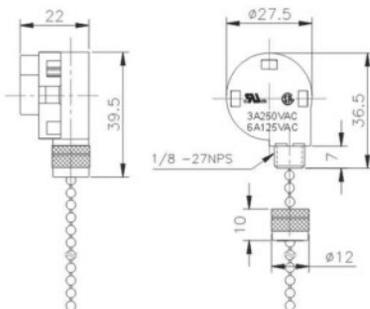

SPECIFICATIONS:

Current Rating:	6A @ 125V AC, 3A @ 250V AC
Initial Contact Resistance:	DC 2.5V-1A, 20 Meg ohm (Min.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1500V AC for 1 minute
Contact Material:	Brass - Bright Nickel Plate
Terminal Material:	6" 18 AWG 105 C° Wire
Terminal Type:	Stripped Wire Leads

Part No.	Type	Action	Actuator
30-9158	Two Circuit	3-Way (L-1, L-2, L-1&2, OFF)	Pull Chain

Mounting Hole: 0.406"

Pull Chain Switches

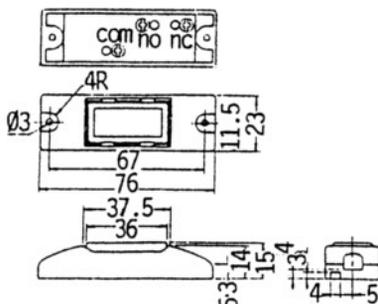

SPECIFICATIONS:

Current Rating:	6A @ 125V AC, 3A @ 250V AC
Initial Contact Resistance:	DC 2.5V-1A, 20 Meg ohm (Min.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1500V AC for 1 minute
Contact Material:	Brass - Bright Nickel Plate
Terminal Type:	Push-In Slot

Part No.	Type	Action	Actuator
30-9150	Two Circuit	OFF, L-1, L-2, L-3	Pull Chain
30-9152	Two Circuit	L-1-2-3, L-2-3, L-1-3, L-1-2	Pull Chain

SURFACE MOUNT PANIC SWITCH

SPECIFICATIONS:

Current Rating:	2A @ 125VAC, 1A @ 250VAC
Mounting Centers:	2.625"
Mounting Hole:	.12"
Dimensions:	.90" W x 3" L x .60" H
Terminal Type:	Screw

Part No.	Type	Action	Actuator
30-17076	SPST	O.N. or N.C. Momentary	Plastic

SWITCHES APPLIANCE & SPECIALTY

FEED THRU CORD SWITCH

SPECIFICATIONS:

Current Rating:	6A @ 125V AC, 3A @ 250V AC
Initial Contact Resistance:	DC 2.5V-1A, 20 Meg ohm (Min.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1500V AC for 1 minute
Contact Material:	Brass
Terminal Material:	Spring Brass
Terminal Type:	Insulation Piercing

Part No.	Type	Action			Actuator
30-10098	SPST	ON	-	OFF	Round Plastic Dial

HI-LO INLINE DIMMER SWITCH

SPECIFICATIONS:

Current Rating:	6A @ 125V AC, 3A @ 250V AC
Initial Contact Resistance:	DC 2.5V-1A, 20 Meg ohm (Min.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1500V AC for 1 minute
Contact Material:	Brass
Terminal Material:	Spring Brass
Terminal Type:	Insulation Piercing

Part No.	Type	Action			Actuator
30-10196	SPDT	ON	ON	OFF	Round Plastic Dial

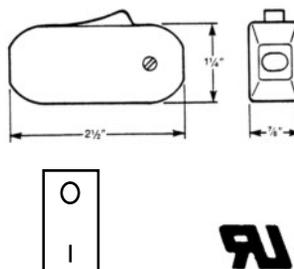

FEED THRU CORD SWITCH

SPECIFICATIONS:

Current Rating:	10A @ 125V AC
Dielectric Strength:	300 Volt
Terminal Material:	Brass
Terminal Type:	Screw
Wire Type:	Flat or round cords Flat: 18/2 & 16/2, SPT-1, SPT-2, HPN Round: 18/2 type SVT, up to 9/32" O.D.

Part No.	Type	Action			Actuator
30-9851	SPST	ON	-	OFF	Black W/White Legend

CORDED INLINE DIMMER SWITCH

SPECIFICATIONS:

Current Rating:	1.2A @ 125V AC
Initial Contact Resistance:	DC 2.5V-1A, 20 Meg ohm (Min.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1500V AC for 1 minute
Contact Material:	Brass
Terminal Material:	UL SPT-1 18AWG 2 Cond. Wire, Stripped
Terminal Type:	120V AC Plug/Stripped Ends

Part No.	Type	Action			Actuator
30-10192	SPST	ON	-	OFF	Roller Ball

(6 ft. Overall Length)

SWITCHES AUTOMOTIVE & MARINE

Automotive-Heavy Duty TOGGLE SWITCH-w/boots

A heavy switch that includes four different colored boots, use one of your choice black, blue, red, or yellow. The boot protects against dust and splashes.

Electrical Rating:

SPST snap action toggle, ON-OFF, die cast metal case. Rated at 12-14 volts DC 50 amps. Terminals: Copper with screws. Mounting hole: 1/2" diameter.

No. 30-12244

ILLUMINATED DUCKBILL TOGGLE SWITCHES

for automotive applications. Rated 20 amps at automotive (12-14 VDC) voltages, all but one in the series have illuminated handles which light when power is "on". These are three terminal devices, needing one connection for ground to power the LED "Glo" light in the handles. Actuators are the stylish "Duckbill" shape. All in this series are SPST, ON-OFF with .250" terminals for push-on lugs. Mounting hole size: 1/2"

No. 30-12170

Part No.	Illumination Color
30-12170	Not illuminated
30-12174	Red Glo
30-12176	Amber Glo
30-12178	Blue Glo
30-12179	Green Glo

Part No.	Handle Color
30-12240	Black
30-12242	Red
30-12245	Chrome

High-Current Automotive TOGGLE SWITCHES

High current switches for automotive use, ideal for autos with arrays of spot lights, heavy sound system equipment or radios. Switch body is die-cast metal, terminals pure copper. Available with red, black or bright chrome actuator.

Electrical Rating:

type: SPST Toggle, ON-OFF
50 amps at 12-14 Volts DC
Contacts: silver plated.
Terminals: Copper, screw terminals
Actuator: 1 1/16" length
Mounting hole: 1/2"

LED Illuminated TOGGLE SWITCHES STYLISH NEW LOOK with LED's in actuator handle tips.

Part No.	LED Color
30-12050	Red
30-12055	Green
30-12060	Blue

This is a SPST, ON-OFF switch and designed for use at automotive (12-14V DC) voltages: rated at 30 amps. This is a popular new look in actuator styles. The handle (actuator) is Black and tipped with an LED; three color choices. The LED will draw only 20 mA at normal automotive voltages. Mounting hole diameter: 1/2" Terminals will accept 1/4" push-on solderless connectors or may be soldered.

All switches in this group are ON-OFF SPST
All rated @ 20 amps/12-14 volts DC

Part No.	Color
30-12145	BLACK
30-12147	RED
30-12149	GREEN
30-12150	AMBER
30-12153	BLUE

AUTOMOTIVE APPLICATION ON-OFF TOGGLE SWITCHES WITH ILLUMINATED WEDGE HANDLES

With plastic handles, heavy (20 amp) switch for various uses at automotive voltage of 12 to 14 volts. Choose from different colored handles. These are three terminal switches, connect to ground, power and your appliance. (The ground connection is needed for power to the light.)

SWITCHES AUTOMOTIVE & MARINE

Stylish Automotive TOGGLE SWITCH with LED

Brushed and tapered bat handle gives this switch a "classy" look; perfect for custom dash. LED (red) lights to indicate power is "on". The 20 amp rating is plenty for many automotive accessories.

Terminals accept standard .250" push-on terminals or may be soldered.

This is a three terminal switch with one connection for ground which is needed to light the LED.

Electrical Rating:

SPST snap action toggle.
 Rated at 12-14 volts DC, 20 amps.
 Terminals: .250" push-on terminals or solder.
 Mounting hole: 1/2" diameter round.
 Metal actuator 1 1/16" length
 Construction: polycarbonate UL94-1 rating

Part No.	Circuit Type
30-12180	ON - OFF SPST

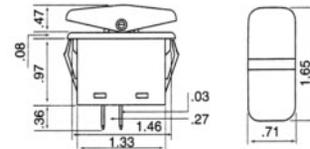

"Surf and Turf" GUARDIAN SWITCHES

The Guardian series is dust and moisture resistant, designed for use in a marine environment or dusty equipment such as construction equipment, off-road vehicles and farm equipment. This is a tough switch and designed to meet or exceed IP66 requirements. Snap-in mounting requires a rectangular cut-out

Electrical Rating:

SPST or SPDT snap action toggle
 Rated: 12-14 volts DC 20 amps.
 Terminals: accept .250" push-on terminals.
 Mounting hole: rectangular .60 X 1.450 (+/- .004") hole in panels up to .050" thickness.

Part No.	Rocker Color	Action	no. of Terminals	Type
30-12280	Black/Black	ON-OFF	2	SPST
30-12281	Black/Red Dep.	ON-OFF	3	SPST
30-12282	Black/Black	ON-OFF-ON	3	SPDT
30-12284	Black/Black	(ON)-OFF-(ON)	3	SPDT

Note: () = Momentary

Auto Alarm Style MINIATURE TOGGLE SWITCH

A switch often used by alarm installers to set/un-set alarm systems; mounting is typically under or in the dash. The alarm switch comes with an attached "pigtail" that is 24" long, red and black insulated, stranded 20 gauge wire.

Rated at 6 amps at 12-14 VDC, this ON-OFF SPST switch could easily be used for any number of appliances, as well as for arming alarms. Included is a miniature escutcheon plate with the legends ON and OFF. Mount hole: 1/4" diameter round.

No. 30-10005

MODULAR PANELS (Switch Brackets)

Modular panels, or switch mounting brackets, permit mixing of switch types and easy mounting of switches in general. Two brackets will accommodate switches that need either round or rectangular holes.

Part No.	Description
30-12575	for switches needing a 1/2" X 1" rectangular hole
30-12585	for switches needing a 1/2" dia. round hole

Big PUSH-BUTTON SWITCH (HORN SWITCH)

Surface mounting switch commonly used for fog-horn or siren. Momentary action, horn will sound only as long as button is depressed. The switch is designed for typical mobile and marine 12-14 volt DC applications.

The actuator is black plastic button, and the frame is chrome plated brass construction. Overall length is 2-5/8" by 1-1/2". Rated at 5 Amps 12-14 VDC. SPST, (ON)-OFF

Mounting Center 2 1/16"

No. 30-12465

* () = Momentary

Extra Heavy Duty PUSH BUTTON (Starter) SWITCH WITH WEATHER-BOOT NUT

A heavy-duty (50 amps) push-button momentary switch that is dust and moisture resistant; rubber boot-nut is included for enhanced protection. Contacts are silver/copper for long life.

Electrical and mechanical

5/8" x 3/2" mounting bushing, panels up to 1/2" thickness.
 SPST Momentary action, (ON)-OFF
 Screw Terminals (X2)
 Rated 50 amps @ 12-14 VDC
 Rubber dust boot/nut included.

No. 30-12475

* () = Momentary

SWITCHES AUTOMOTIVE & MARINE

Round Hole Automotive ROCKER SWITCHES Illuminated

The round hole design makes installation much easier than for most rocker switches, requiring only a 1/2" diameter hole. One of this series is non-illuminated, but the others have one extra terminal (total: 3 terminals) to connect to ground for the light. This is an attractive series; lighted switches having a "glo" that is available in four different colors. Incandescent bulb

Electrical Rating:
30 A @12-14 V DC
Mounting hole: 1/2" diameter round
SPST, ON-OFF
.250" Quick Connect Terminal

Part No.	COLOR	no. of Terminals
30-12310	not illuminated	2
30-12312	Red	3
30-12314	Amber	3
30-12316	Blue	3
30-12318	Green	3

HEAVY-DUTY 12 VOLT WINDOW SWITCH

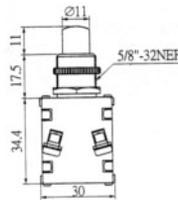

Current Rating: 20A @ 12VDC
Initial Contact Resistance: <50Meg Ohms @12VDC
Insulation Resistance: >100Meg Ohms
Dielectric Strength (Open Contacts): >1500V for 1 minute
Contact Material: Silver Plated Brass
Terminal Material: Copper Alloy
Body Material: Nylon (UL 94V-2)
Actuator & Bezel: Nylon (UL 94V-2)
Terminal Type: .187" Quick Connect

Part No.	Type	Action	Lamp / Actuator Color
30-16579	DPDT	(On)-Off-(On)	Black Actuator

Panel Cut-out: 22mm (.87") X 30mm (1.18") () = Momentary

AUTOMOTIVE PUSH BUTTON SWITCH

15A 12V DC

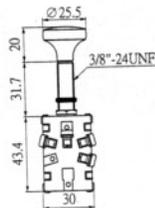

Mounting Hole: .625"

SPECIFICATIONS:

Current Rating:	15A @ 12V DC		
Terminal Material:	Brass		
Terminal Type:	Screw		
Part No.	Type	Action	Actuator
30-19484	SPST	OFF - (ON)	Brass/Nickel Plate

NOTE: () = Momentary

AUTOMOTIVE PUSH/PULL SWITCH

30A 12V DC

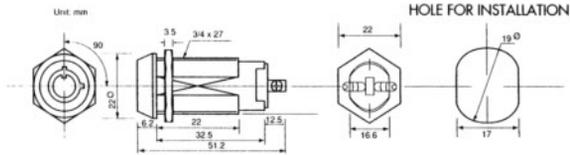

Mounting Hole: .375"

SPECIFICATIONS:

Current Rating:	30A @ 12V DC		
Terminal Material:	Brass		
Terminal Type:	Screw		
Part No.	Type	Action	Actuator
30-17408	SP3T	OFF ON ON	Brass/Nickel Plate

KEY SWITCH

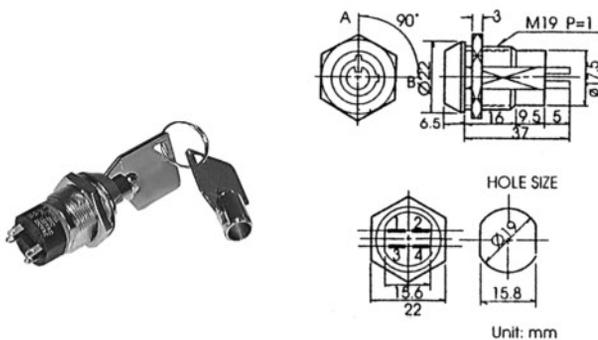

SPECIFICATIONS:

Current Rating:	4A @ 125V AC, 2A @ 250V AC
Initial Contact Resistance:	10 Meg ohm (Max.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1500V AC for 1 Minute
Contact Material:	Brass - Silver Plate
Terminal Material:	Brass - Silver Plate
Terminal Type:	Screw

Part No.	Type	Key Pull	Actuator
30-10078	SPST	ON or OFF Position	Barrel Key (All keyed Alike)

KEY SWITCHES

SPECIFICATIONS:

Current Rating:	4A @ 125V AC, 2A @ 250V AC
Initial Contact Resistance:	10 Meg ohm (Max.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1000V AC for 1 Minute
Contact Material:	Brass - Nickel Plate
Terminal Material:	Brass - Nickel Plate
Terminal Type:	Solder

Part No.	Type	Key Pull	Actuator
30-10076	DPST	OFF Position Only	Barrel (round) Key
30-10077	DPST	ON or OFF Position	Barrel (round) Key

Note: May be used as either DPST or SPST.

PLATE TUMBLER KEY SWITCHES

Mounting Hole: 0.75" (3/4")
Made in USA

SPECIFICATIONS:

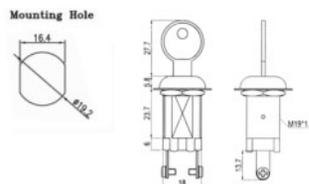

Current Rating:	2.5A @ 120V AC, 2.1A @ 46V DC
Contact Material:	Brass
Terminal Material:	Brass
Terminal Type:	Screw
Hardware:	Cylinder Ring, Hex nut, 2 Screws, 2 Keys

Part No.	Type	Key Pull	Actuator
30-1190	SPST	ON or OFF Position	Metal Key #HC530
30-1191	SPST	ON or OFF Position	Metal Key #HC531
30-1192	SPST	ON or OFF Position	Metal Key #HC540
30-1193	SPST	ON or OFF Position	Metal Key #HC550
30-1194	SPST	ON or OFF Position	Metal Key #HC553

KEY SWITCHES

Mounting Hole: 0.75" (3/4)
Made in China

SPECIFICATIONS:

Current Rating:	3A - 125 V AC, 1.5A - 250 V AC
Contact Resistance:	50m Ohm Max.
Insulation Resistance:	DC 500V 100 M Ohm Min.
Dielectric Strength:	AC 1000V 1 Minute
Terminal Type:	Screw

Part No.	Type	Key Pull	Actuator
30-1196	SPST	On or Off Position	Flat Key A2133
30-1197	SPST	On or Off Position	Flat Key A2213

SWITCHES SUB-MINIATURE PUSH BUTTON, PC MOUNT

Electrical Rating:

Rating: 3 Amps with resistive load @ 120 VAC or 28 VDC
 or 1 Amp with resistive load @ 250 VAC
 Life expectancy: 60,000 cycles @ full load
 Contact Resistance: 20 milliohms Max, initial @ 2-4 VDC
 100 mA
 Insulation resistance: 1,000 Megohms minimum
 Dielectric Strength: 1,000 V RMS @ sea level
 Operating Temperature: -30 to 85 degrees Celsius

Mechanical:

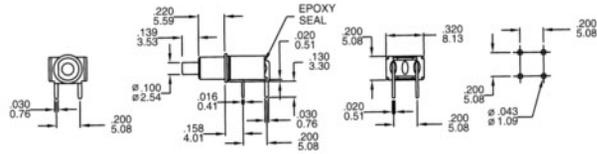

Case: Dially phthalate (DAP) UL94-0
 Plunger: Thermo Plastic Polyester (Black)
 Housing: Stainless Steel
 Bushing: Brass N.P.
 Contacts: Silver
 Terminal: Brass, Silver plated.

SWITCHES PUSH BUTTON

SEALED MINIATURE PUSH BUTTON SWITCHES (M-Series)

Philmore is pleased to introduce the new fully shielded M-Series miniature push button switches. The M-Series features complete IP67 protection. IP67 (Ingress protection) is the top rating classified for the level of protection that electrical appliances provide against the intrusion of solid objects (including dust & liquids). M-series switch mounts in 0.50" mounting hole in panel up to .157" thick.

ENVIRONMENTAL:

Degree of protection:	IP67
Operating Temperature:	-40° to +85° C

ELECTRICAL & GENERAL:

Max. current / voltage rating with resistive load:	
400mA 32V AC-100mA 50V DC-125mA 125VAC	
Initial Contact Resistance:	50m max
Insulation Resistance:	1G min. at 500V DC
Dielectric Strength:	1,000 V AC rms
Electrical Life at Full Load:	500,000 cycles
Panel Thickness:	.059" Min. - .157" Max.
Total Travel:	1.5mm (.59)
Operating Force:	2N - 5N
Mechanical Life:	1,000,000 cycles
Torque:	1.5Nm max. applied to nut
Soldering:	300° C max. for 3 seconds

MATERIAL:

Case:	Thermoplastic UV94-VO
Plunger:	Polyamide 6/6
Bushing / Bezel:	Polyamide 6/6
Contacts:	Silver, Gold plated
Terminal Seals:	Epoxy

Part No.	Type	Action			Actuator

SWITCHES PUSH BUTTON

SUB-MINIATURE PUSH BUTTON SWITCHES

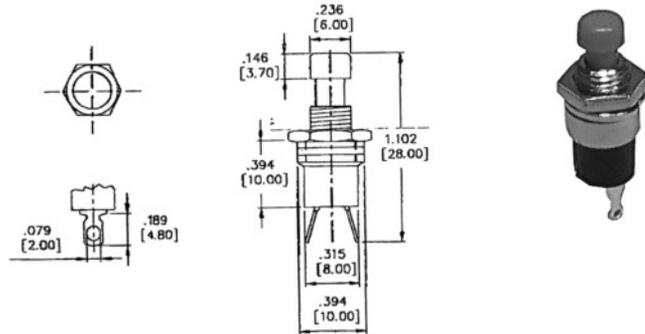

SPECIFICATIONS:

Current Rating:	1A @ 125V AC
Initial Contact Resistance:	DC 2.5V-1A, 10 Meg ohm (Min.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1000V AC for 1 minute
Contact Material:	Brass - Silver Plate
Terminal Material:	Brass - Silver Plate
Terminal Type:	Solder

Part No.	Type	Action	Actuator
*30-2289	SPST	OFF - (ON)	Red Nylon
*30-2299	SPST	(OFF) - ON	Black Nylon

NOTE: () = Momentary

* = 2 Pieces per blister pack

Mounting Hole: 0.265"

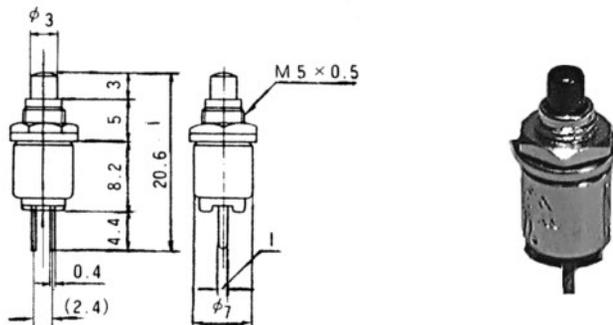

MINIATURE PUSH BUTTON SWITCH

SPECIFICATIONS:

Current Rating:	1/2A @ 125V AC
Initial Contact Resistance:	20 Meg ohm (Max.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1000V AC for 1 Minute
Contact Material:	Brass - Silver Plate
Terminal Material:	Brass - Silver Plate
Terminal Type:	Solder

Part No.	Type	Action	Actuator
30-040	SPST	OFF - (ON)	Black Button

NOTE: () = Momentary

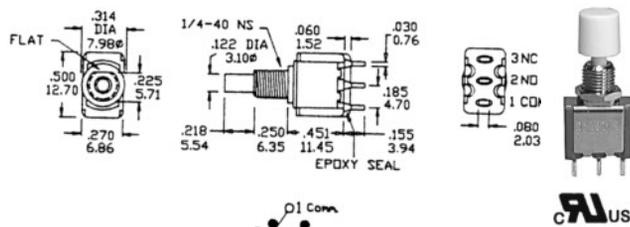

Mounting Hole: 0.250"

MINIATURE SNAP ACTION PUSH BUTTON SWITCH (SPDT)

SPECIFICATIONS:

Current Rating:	1A @ 125V AC, 38V DC
Initial Contact Resistance:	10 Meg ohm (Max.), Initial @2-4V DC
Insulation Resistance:	1000 Meg ohm (Min.)
Dielectric Strength:	1000V RMS @ Sea Level
Contact Material:	Brass w/Gold Plate over Nickel Plate
Terminal Material:	Brass - Nickel Plate
Terminal Type:	Solder

Part No.	Type	Action	Actuator
30-2700	SPDT	Snap Action Momentary	White Nylon
Terminal Connection	1-3	-	1-2

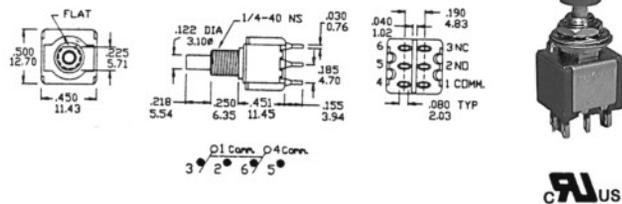

Mounting Hole: 0.250"

MINIATURE SNAP ACTION PUSH BUTTON SWITCH (DPDT)

SPECIFICATIONS:

Current Rating:	1A @ 125V AC, 38V DC
Initial Contact Resistance:	10 Meg ohm (Max.), Initial @2-4V DC
Insulation Resistance:	1000 Meg ohm (Min.)
Dielectric Strength:	1000V RMS @ Sea Level
Contact Material:	Brass w/Gold Plate over Nickel Plate
Terminal Material:	Brass - Nickel Plate
Terminal Type:	Solder

Part No.	Type	Action	Actuator
30-2750	DPDT	Snap Action Momentary	White Nylon
Terminal Connection	1-3, 4-6	-	1-2, 4-5

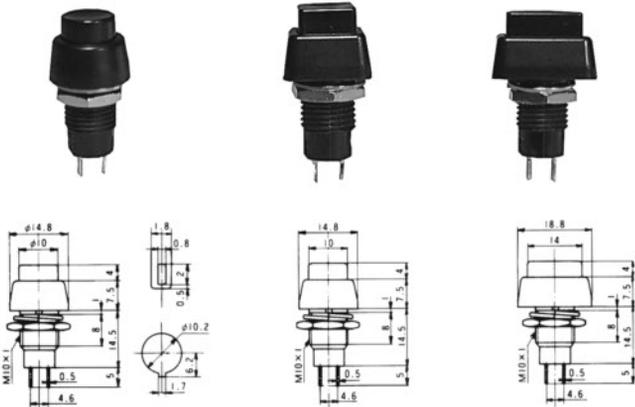

Mounting Hole: 0.250"

NOTE: Nos. 30-2700 and 30-2750 are supplied with red cap; also available black, green and yellow.

SWITCHES PUSH BUTTON

MINIATURE PUSH BUTTON SWITCHES

Mounting Hole: 0.406"

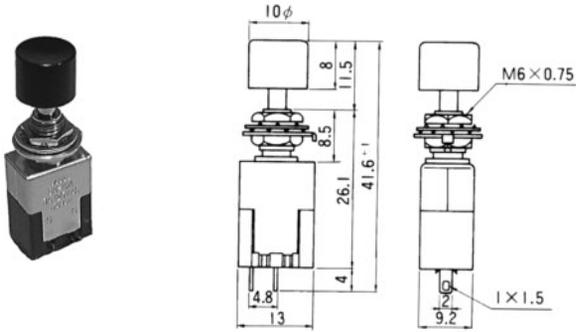

SPECIFICATIONS:

Current Rating:	3A @ 125V AC, 1A @ 250V AC
Initial Contact Resistance:	DC 2.5-1A, 20 Meg ohm (Max.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1500V AC for 1 Minute
Contact Material:	Brass - Silver Plate
Terminal Material:	Brass - Silver Plate
Terminal Type:	Solder

Part No.	Type	Action			Actuator
30-111	SPST	OFF	-	(ON)	Round Black Nylon
30-112	SPST	OFF	-	(ON)	Square Black Nylon
30-113	SPST	OFF	-	(ON)	Rectangular Black Nylon
30-14114	SPST	OFF	-	(ON)	Rectangular Red Nylon

NOTE: () = Momentary

MINIATURE PUSH BUTTON SWITCHES

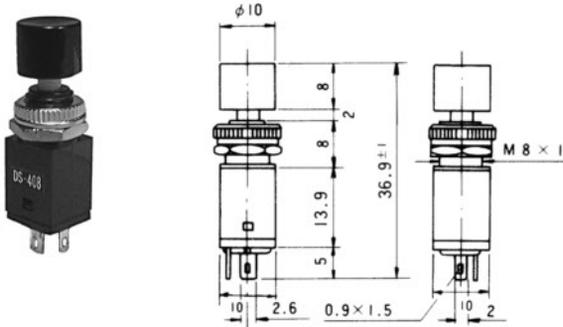

Mounting Hole: 0.250"

SPECIFICATIONS:

Current Rating:	3A @ 125V AC
Initial Contact Resistance:	20 Meg ohm (Max.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1000V AC for 1 Minute
Contact Material:	Brass - Silver Plate
Terminal Material:	Brass - Silver Plate
Terminal Type:	Solder

Part No.	Type	Action	Actuator
30-003	SPDT	Push ON Push ON	Black Button
30-005	DPDT	Push ON Push ON	Black Button

MINIATURE PUSH BUTTON SWITCHES

Mounting Hole: 0.328"

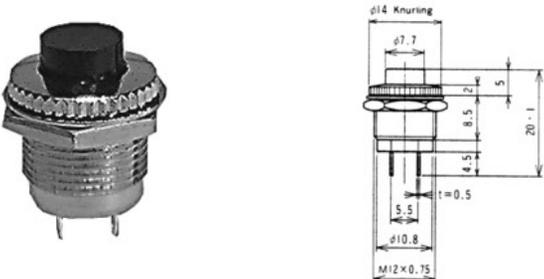

SPECIFICATIONS:

Current Rating:	3A @ 125V AC
Initial Contact Resistance:	20 Meg ohm (Max.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1000V AC for 1 Minute
Contact Material:	Brass - Silver Plate
Terminal Material:	Brass - Silver Plate
Terminal Type:	Solder

Part No.	Type	Action			Actuator
30-006	SPST	Push ON Push OFF			Black Button
30-008	SPDT	Push ON Push OFF			Black Button
30-009	SPST	OFF	-	(ON)	Black Button

NOTE: () = Momentary

MINIATURE PUSH BUTTON SWITCH

Mounting Hole: 0.50"

SPECIFICATIONS:

Current Rating:	1A @ 125V AC
Initial Contact Resistance:	20 Meg ohm (Min.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1500V AC for 1 minute
Contact Material:	Brass - Silver Plate
Terminal Material:	Brass - Silver Plate
Terminal Type:	Solder

Part No.	Type	Action			Actuator
30-146	SPST	OFF	-	(ON)	Black Plastic

NOTE: () = Momentary

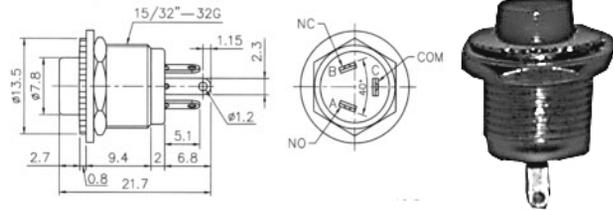

SWITCHES PUSH BUTTON

N.O. / N. C. MINIATURE PUSH BUTTON SWITCH

SPECIFICATIONS:

Current Rating:	1A - 125 V AC
Initial Contact Resistance:	20m Ohm (Max.)
Insulation Resistance:	DC 500V 100 M Ohm Min.
Dielectric Strength:	AC 1500V 1 Minute
Electrical Life:	30,000 Make & break cycles at full load
Terminal Type:	Solder

Part No.	Type	Key Pull	Actuator
30-148	SPDT	Normally Open (Momentary ON) Normally Closed (Momentary OFF)	Red Plastic

SPECIFICATIONS:

ELECTRICAL RATINGS:		
12A	125-250V AC 85C	UL E45221
1/2HP	125V AC 1HP 250V AC	UL E45221

30-10066	SPST	OFF - (ON)	Red Nylon

NOTE: () = Momentary

SWITCHES PUSH BUTTON

MOMENTARY PUSH BUTTON SWITCHES

Mounting Hole: 0.500"

SPECIFICATIONS:

Current Rating:	6A @ 120V AC, 3A @ 240V AC
Initial Contact Resistance:	10 Meg ohm (Max.)
Insulation Resistance:	200 Meg ohm (Min.)
Dielectric Strength:	1000V AC
Contact Material:	Brass - Nickel Plate
Terminal Material:	Brass - Nickel Plate
Terminal Type:	Screw

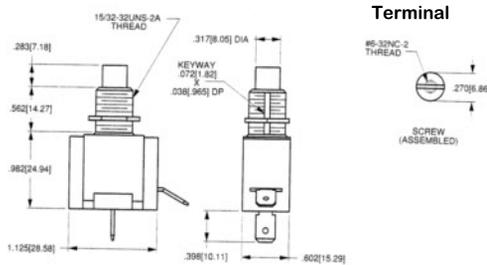

Part No.	Type	Action			Actuator
30-457	SPST	OFF	-	(ON)	Black Nylon
30-458*	SPST	(OFF)	-	ON	Red Nylon

NOTE: () = Momentary

NOTE: Switches must be installed with a hex nut behind panel to prevent damage during installation.

*30-458 Rated 3A @ 120VAC, 1.5A @ 277VAC

HEAVY DUTY PUSH BUTTON SWITCH

Mounting Hole: 0.500"

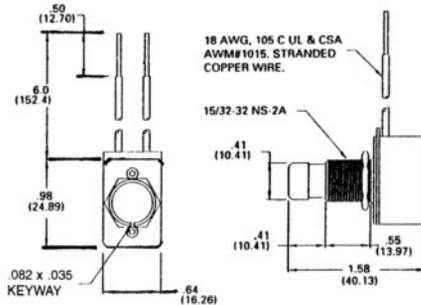

SPECIFICATIONS:

Current Rating:	15A @ 125V AC, 10A @ 250VAC
Insulation Resistance:	100 Meg ohms. (Min.)
Dielectric Strength:	1000V (Min.)
Base Material:	Phenolic
Bushing Material:	Brass/Nickel Plate
Terminal Type:	Screw (#6-32NC-2 Thread)

Part No.	Type	Action			Actuator
30-14455	SPST	ON	-	OFF	Brass/Nickel Plate

UTILITY AC/DC PUSH BUTTON SWITCH (Snap-ON Snap-OFF)

Mounting Hole: 0.500"

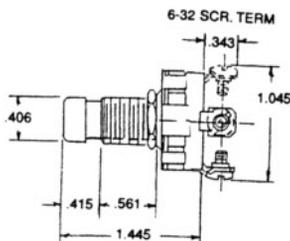

SPECIFICATIONS:

Current Rating:	8A @ 125V AC, 4A @ 250V AC 10A @ 125V AC, 1/3 HP 125V AC
Initial Contact Resistance:	10 Meg ohm (Max.)
Insulation Resistance:	100 Meg ohm (Min.)
Dielectric Strength:	1000V AC
Contact Material:	Brass - Nickel Plate
Terminal Material:	Brass - Nickel Plate
Terminal Type:	6" 18 AWG Wire Lead

Part No.	Type	Action			Actuator
30-354	SPST	ON	-	OFF	Black Plastic

NOTE: Switches must be installed with a hex nut behind panel to prevent damage during installation.

HEAVY DUTY UTILITY AC PUSH BUTTON SWITCHES

Mounting Hole: 0.500"

SPECIFICATIONS:

Current Rating:	15A @ 125V AC, 10A @ 250V AC
Dielectric Strength:	1000V RMS Min.
Contact Mechanism:	Slow-Make, Slow-Brak Butt Contact
Contact Material:	Copper Alloy/Silver Plate
Terminal Type:	Screw

SWITCHES PUSH BUTTON

SEALED ILLUMINATED PUSH BUTTON SWITCHES

Tamper proof push button switch mounts in 16.0 mm (5/8") hole in panel up to .50" thick. Bushing & button is made from brass, nickel plated for durability. Features IP67 protection and illuminated ring around actuator. Switches can be used in both illuminated and non-illuminated application (12V DC LED).

SPECIFICATIONS:

Contact Rating:	3A @ 250V AC, 2A @ 24V DC
Electrical Life:	50,000 cycles
Contact Resistance:	50m-ohms max (initial).
Insulation Resistance:	1,000M-ohms min @ 500V DC
Dielectric Strength:	2,000V RMS 50 ~ 60Hz
Operating Temperature:	-20° ~ +70° C
Switching Circuit:	ON - ON (latching)
IP Class:	IP67 protection
Torque:	5 ~ 14Nm max. applied to nut
Operating Force:	5.5N max.

Part No.	Type	Action			Actuator
		(ON)	or	(OFF)	
30-12646	SPDT	(ON)	or	(OFF)	Brass w / Red LED

30-12650	SPDT	(ON)	or	(OFF)	Brass w / Blue LED
30-12652	SPDT	Push ON	-	Push OFF	Brass w / Red LED
30-12654	SPDT	Push ON	-	Push OFF	Brass w / Green LED
30-12656	SPDT	Push ON	-	Push OFF	Brass w / Blue LED

NOTE: () = Momentary

MATERIALS:

Bushing & Button:	Brass Nickel plated
Contacts:	Silver, alloy
Nut:	Nickel plated Brass
Base:	PBT.

WHAT IS AN IP CODE?

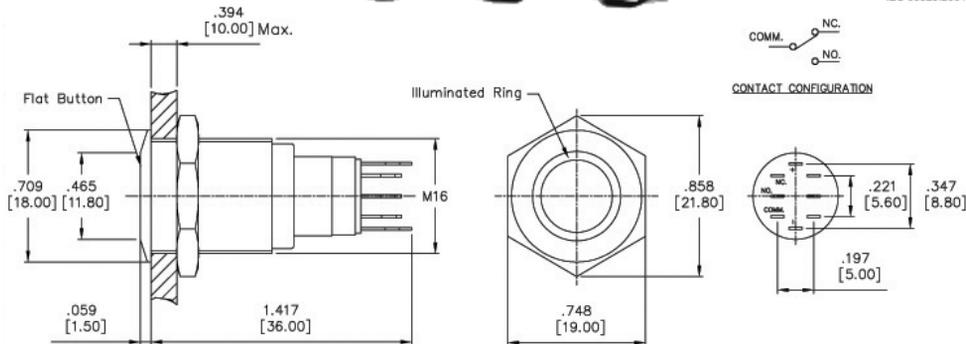

An IP code refers to the different levels of protection an enclosure provides. A worldwide standard has been established by the International Electrotechnical Commission (IEC). The code contains two separate numerals, the first numeral indicates protection against access to hazardous parts and protection of equipment against ingress of solid foreign objects, including dust. The second numeral indicates protection of equipment against harmful ingress of water.

IP67: 6 = complete protection against entry of dust (rating 1 to 6)
7 = protection against temporary immersion (rating 1 to 8)

IP 67

compliant

Using an LED

LED with DC (Direct Current)

An LED (light emitting diode) requires about two volts to operate and twenty milliamps of current. A current limiting resistor must be used in series with an LED to prevent current over 20 mA from flowing; otherwise, your LED will be damaged. You may simply use Ohm's law to calculate the resistor value. Here is an example: We have a circuit operating at 12 volts DC, and need to know the value of a resistor to use. The LED "wants" two volts to operate; so subtract 2 from the 12 volts which, is of course, ten. Plug the "ten" in at "E" and divide by "I" or .020 amps. The result is 500 ohms for the resistor value. If you forget to subtract the two volts, the resistor value will be 600 and the LED will not be at maximum brightness. However, it will last much longer (about double normal life)! Another formula you can use is $R=50(V-2)$. The R is for resistor, the V for voltage. We like this one as it is easy to recall and do in your head.

LED with AC (Alternating Current)

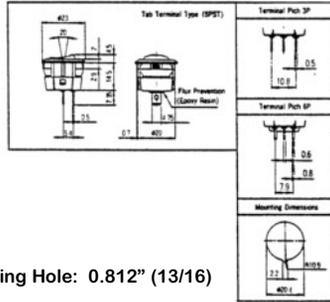

When using an LED with AC, a diode must be placed in series with the LED. Because AC will only be flowing 1/2 the time, we use a variation on the easy formula shown to the left(bottom). Use $R=25(V2.7)$, which includes the voltage drop across the diode. So, if you have a circuit using 28 volts AC, multiply 25.3 (or 28V -2.7), times 25 equals 632 ohms. We need to use a standard value resistor, so use 680 ohms for "R".

Typical voltages used in electronics and resistor values (rounded to nearest standard resistor).

DC Volts	5V	6V	12V	24V	AC Volts	6V	12V	24V	48V	117V
Resistor (ohms)	150	180	470	1200	Resistor (ohms)	82	220	560	1200	3K

SWITCHES ROCKER

ROUND ROCKER SWITCHES

Mounting Hole: 0.812" (13/16)

SPECIFICATIONS:

Current Rating:	5A @ 125V AC, 3A @ 250V AC
Initial Contact Resistance:	DC 2.5V-1A, 20 Meg ohm (Max.)
Insulation Resistance:	500V DC 100 Meg ohm (Min.)
Dielectric Strength:	1500V AC for 1 minute
Contact Material:	Copper - Silver Plate
Terminal Material:	Copper - Silver Plate
Terminal Type:	Solder

Part No.	Type	Action			Actuator
30-10055	SPDT	ON	-	ON	Red Nylon

Panel Cut-out: 20.2mm (.79") Maximum Panel thickness 3.0 mm

Switch Covers

No. 30-1600 - fits Round Rocker switches up to 23mm (.90") dia.

No. 30-1450 - fits SP Rocker switches up to 15mm (.59") X 21mm (.82")
No. 30-1455 - fits DP Rocker switches up to 24mm (.94") X 21mm (.82")

Using an LED

LED with DC (Direct Current)

An LED (light emitting diode) requires about two volts to operate and twenty milliamps of current. A current limiting resistor must be used in series with an LED to prevent current over 20 mA from flowing; otherwise, your LED will be damaged. You may simply use Ohm's law to calculate the resistor value. Here is an example, We have a circuit operating at 12 volts DC, and need to know the value of a resistor to use. The LED "wants" two volts to operate ; so subtract 2 from the 12 volts which is of course, ten. Plug the "ten" in at "E" and divide by "I" or .020 amps. The result is 500 ohms for the resistor value

$$R = \frac{E}{I}$$

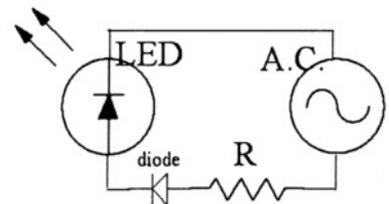

If you forget to subtract the two volts, the resistor value will be 600 and the LED will not be at maximum brightness. However, it will last much longer! (about double normal life).

Another formula you can use is $R=50(V-2)$. The R is for resistor, the V for voltage. We like this one as it is easy to recall and do in your head.

LED with AC (Alternating Current)

When using an LED with AC, a diode must be placed in series with the LED. Because AC will only be flowing 1/2 the time, we use a variation on the easy formula shown to the left(bottom). Use $R=25(V-2.7)$, which includes the voltage drop across the diode.

So, if you have a circuit using 28 volts AC, multiply 25.3 (or 28V -2.7), times 25 equals 632 ohms. We need to use a standard value resistor, so use 680 ohms for "R".

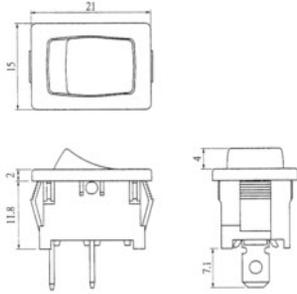

Typical voltages used in electronics and resistor values (rounded to nearest standard resistor).

DC Volts	5V	6V	12V	24V	AC Volts	6V	12V	24V	48V	117V
Resistor (ohms)	150	180	470	1200	Resistor (ohms)	82	220	560	1200	3K

SWITCHES ROCKER

MINIATURE ROCKER SWITCHES

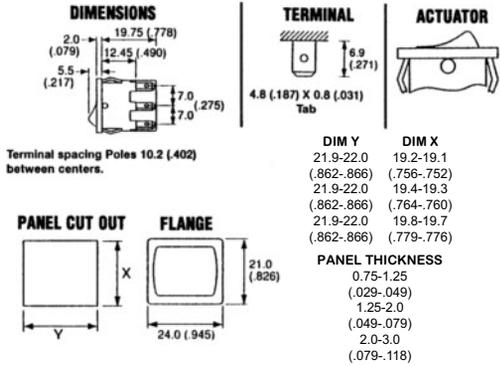

Mounting Hole: .51" x .751"

SPECIFICATIONS:

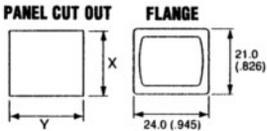

Current Rating:	10A @ 125V AC, 6A @ 250V AC
Initial Contact Resistance:	50 Meg ohm (Max.)
Insulation Resistance:	DC 500V 100 Meg ohms (Min.)
Dielectric Strength:	AC 1500V 1 min.
Base Material:	Nylon UL 94V-2
Terminal Material:	Brass/Silver Plate
Terminal Type:	.187" Quick Connect

TINY ROCKER SWITCHES

Ideal for small appliances or controls with limited space. The mini rocker switch is capable of handling high currents as the traditional larger switches. This product range is electrically approved in thirteen countries.

PANEL THICKNESS
0.75-1.24 (.030-.049)

MINIATURE POWER ROCKER SWITCHES

For applications such as computers, audio, medical, office instrument and appliance products.

Note that Dimension "Y" mounting hole varies with panel thickness as below. Dimension Z is 9.2mm for all.

Electrical Ratings:
 SPST snap action Rocker.
 6A @125 VAC or 3A @250 VAC (UL)
 3A@250 VAC (CQC)
 Rating: 3A@125 VAC, 250 VAC pending for VDE
 Initial Contact resistance: 20m ohm Max.
 Insulation Resistance: 100 Ohm @500 VDC
 Dielectric Strength: 1,000 VAC for 1 minute
 Electrical/mechanical life: 10,000 cycles
 Temperature range: 0 to 88 degrees centigrade
 Base: Nylon66, UL rated 94V-2 min.
 Spring: Piano wire
 Stationary contact: Silver Alloy

Micro Rocker Switches

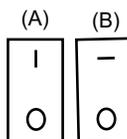

A very small Rocker with a good "feel" in the action, excellent for small appliances, battery operated portable devices. This is a SPST switch and the black and white activators are marked with the "universal" digital "1" and "0" to indicated ON and OFF. The red actuator is plain, no markings.

Part No.	Type	Action	Actuator
30-870	SPST	On-Off	White (with 0 - markings in black)
30-872	SPST	On-Off	Black (with 0 - markings in white)
30-874	SPST	On-Off	Red (plain, no marking on actuator)

SWITCHES MINIATURE SLIDE, PC MOUNT

Printed Circuit Mounting Miniature SLIDE SWITCHES Digital Circuit Service.

Gold contacts will assure constant dependability throughout the entire service life of the switch, even at very low voltage/currents. These are not power switches (see group below) but designed for digital and other low current applications.

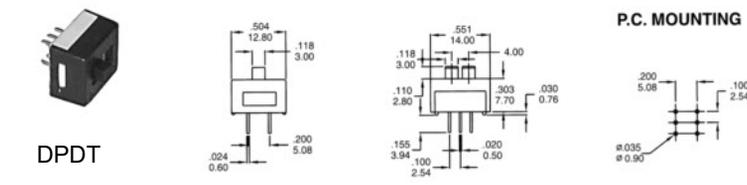

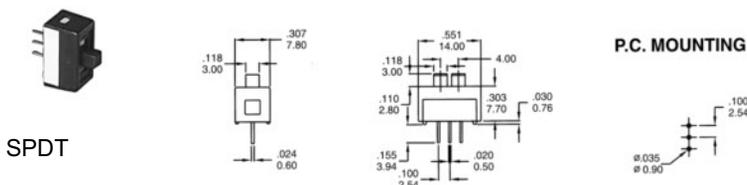

Electrical Rating:

Contact rating: 0.40 VA max. @ 20 V max. (AC or DC)
Life expectancy: 20,000 make-break cycles
Contact Resistance: 50 milliohms Max, initial
Minimum Load: 10 mA 50 mV
Insulation resistance: 1,000 Megohms minimum
Dielectric Strength: 1,000 V RMS @ sea level.

Mechanical:

Case: Nylon, white
Housing: Black Nylon. Actuator: Nylon, black
Terminals: Gold Plated.
Contact materials: Gold

Part No.	Circuit	Application
30-20280	SPDT ON-ON	DIGITAL, low voltages
30-20284	SPDT ON-OFF-ON	DIGITAL, low voltages
30-20290	DPDT ON-ON	DIGITAL, low voltages
30-20292	DPDT ON-OFF-ON	DIGITAL, low voltages

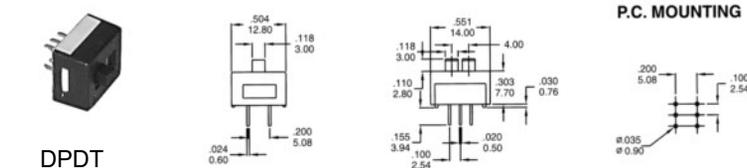

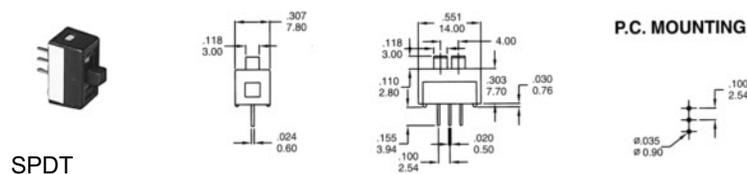

Printed Circuit Mounting Miniature SLIDE SWITCHES for Power Use.

Silver coined contacts are designed to handle power. This is the same switch as above, but with contacts made for power applications, either 125 VAC or DC voltages. Use same PC layout patterns and physical dimensions; the only differences are internal to the switch.

Electrical Rating:

Contact rating: 3 Amps @ 120 VAC or 28 VDC (resistive)
1 Amps @ 250 VAC (resistive load)
Life expectancy: 20,000 make-break cycles
Contact Resistance: 50 milliohms Max, initial
Minimum Load: 100 mA 10 VDC
Insulation resistance: 1,000 Megohms minimum
Dielectric Strength: 1,000 V RMS @ sea level.
Contacts: Silver Terminals: Gold

Part No.	Circuit	Application

Current Rating:	1A @ 150VAC			
Power Rating:	20W			
Breakdown Voltage:	200V DC			
Operating Time (MS):	2.5			
Contact Material:	Rhodium			
Pull-In Range (AT):	15-30			
Terminal Type:	Leads			
Part No.	Type	Action		
30-17154	SPDT	Normally Open or Normally Closed		

RECESSED MAGNETIC REED SWITCH

Mounting Hole: 0.25"

SPECIFICATIONS:

Current Rating:	.2A @ 12VDC		
Terminal Type:	12" Leads, 22 AWG		
Part No.	Type	Action	
30-17060	SPST	N.C. (Normally Closed) When Magnet is within actuation Range.	

SPST N.C. Door Jam Reed Switch.

Designed for use with alarm systems. The switch will remain closed as long as the magnet is within 1/2" of the switch. Magnet is mounted in the door. Both magnet and switch will fit tightly in 3/8" holes in wood or aluminum door jams and doors (may not work at all with steel doors). Fits flush with surface; glue in place with adhesive.

Pigtail lead wires are 11" long. Switch case is high impact plastic. Contacts (reed switch) rated at 0.2 amps at 12 VDC. Life approximately two million cycles.

Part No.	CIRCUIT	NOTES
30-17059	SPST Normally Closed reed switch	Normally closed when magnet is within 1/2" or closer

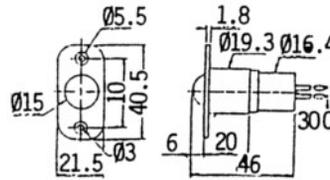

SWITCHES SPECIALTY & SECURITY

ROLLER BALL SWITCH

SPECIFICATIONS:

Current Rating:	.2A @ 12VDC				
Mounting Centers:	1.16"				
Mounting Hole:	.765" (49/64")				
Dimensions:	.85" W x 1.6" L x 1.8"H				
Terminal Type:	10" Leads, 24 AWG				
Part No.	Type	Action			Actuator
30-17070	SPST	OFF	-	(ON)	Roller Ball

Note: () = Momentary

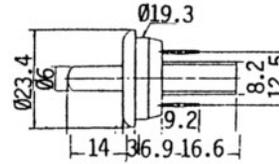

SPECIFICATIONS:

Current Rating:	1A @ 125VAC				
Terminal Type:	.250" Quick Connect				
Part No.	Type	Action			Actuator
30-17074	SPST	OFF	-	(ON)	Plastic (.55" H.)

Note: () = Momentary

SNAP-IN TAMPER SWITCH

Mounting Hole: 0.75"

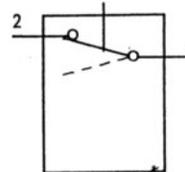

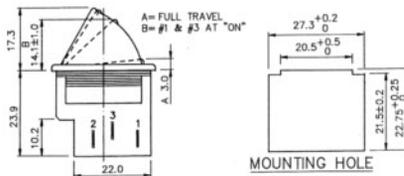

ELECTRICAL RATING; UL Listed SPST Switch.
 Current Rating: 5A @125 VAC
 Insulation Resistance: @DC 500V 100 Megohms
 Withstand Voltage: AC 1500V 1 minute
 Contact Resistance: DC 2-4V 1A 100 milliohms-ohms or less.
 Life: 100,000 cycles at 5 Amps
 Minimum stroke to open contacts is 0.5mm from full open position
 Action: SPST, (OFF) - ON

Note: () = Momentary

FRIG SWITCH

Designed for use in a refrigerator as a light switch, turning "on" when the door is opened. Switch is normally on until the activator is depressed; or pushed down by a closing door. For mounting in metal panel. Can be used in "dead mans" switch applications. Applications could include alarm systems, hood up indicator switch etc.

No. 30-17065

FOOT OPERATED SWITCHES

Foot operated switches may be used for starting and stopping light-weight motors, keying paging systems or intercoms and transceivers; useful just about anywhere that a person hands are occupied. Also for applications in music.

These two switches are fundamentally the same, but one is push-on, push-off. The other is 'momentary' and the switch will be closed only as long as the user keeps the switch pressed down with his foot.

Both units are supplied with a ten foot, two conductor wire terminated in a standard 1/4" phone plug. Color black, momentary unit has red foot pad on top.

Part No.	Type	Action			Actuator
30-17090	SPST	(ON)	-	OFF	Foot Pedal
30-17092	SPST	Toggle	ON	OFF	Foot Pedal

Note: () = Momentary

Electrical Rating:

5 Amps @125 VAC, 3 Amps @250 VAC
 Initial contact resistance: less than 50 milliohms
 Insulation resistance: >100 Megohms @ 500 Volts.

SWITCHES PRINTED CIRCUIT TACTILE

P.C. MOUNTING

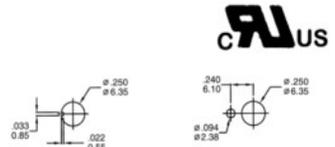

SWITCHES MINIATURE TOGGLE, PC mount

Printed Circuit-vertical mounting Miniature TOGGLE SWITCHES UL E 187490

Vertical mounting PC board switches with either a plain (smooth) bushing or with a threaded bushing and assembled hardware. Integral mounting brackets provide strength and prevent switching action from stressing PC board pads

Part No.	Circuit	Bushing
30-20038	SPDT ON-ON	1/4"-20 threaded
30-20037	SPDT ON-ON	Smooth
30-20048	DPDT ON-ON	1/4"-20 threaded
30-20047	DPDT ON-ON	Smooth

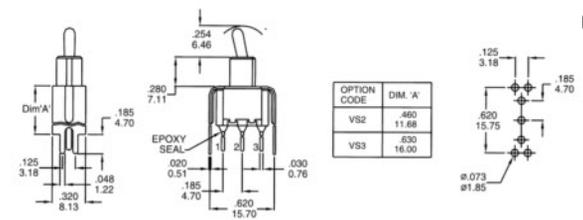

Panel mounting dimensions for PC board miniature switches

Electrical Rating:

Contact rating: 5 amps @ 120 VAC or 28 VDC
2 amps @ 250 VAC resistive load
Life expectancy: 40,000 make-break cycles @ full load.
Contact Resist.: 10 m ohm Max, initial @ 2-4 volts @100 mA
Insulation resistance: 1,000 Megohms minimum
Dielectric Strength: 1,000 V RMS @ sea level.
Operating temperature range: -30 to +85 degrees Celsius

SPDT

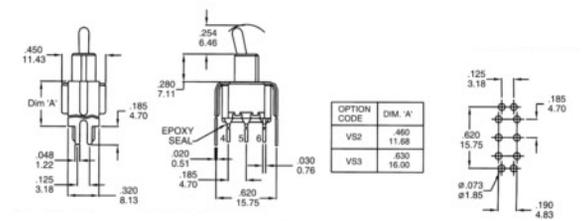

Mechanical:

Case: Dially phthalate (DAP) (UL94V-0), epoxy sealed terms.
Actuator: Brass, Chrome plated.
Bushing: Brass, nickel plated
Housing: Stainless steel.
Switch support: Brass, tin plated
Terminals: Gold plated
Contact materials: coin silver.

DPDT

Printed Circuit Sealed Miniature Toggle Switches Vertical Mounting

Vertical mounting PC board switches with a (smooth) bushing. This series is SEALED with special "O" rings in the actuator neck and EPOXY is applied around terminals where they enter the switch case. Switches sealed with epoxy around the terminals are impervious to solder fluxes and cleaners. The "O" rings provide very good, long term resistance to environmental contamination.

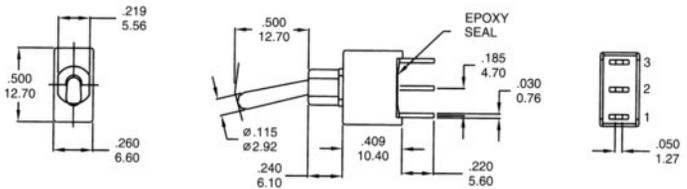

Part No.	Circuit
30-20150	SPDT ON-ON
30-20153	SPDT ON-(ON)
30-20156	SPDT ON-OFF-ON
30-20160	SPDT ON-OFF-(ON)

NOTE: () = Momentary

Electrical Rating:

Contact rating: 5 amps @ 120 VAC or 28 VDC
2 amps @ 250 VAC resistive load
Life expectancy: 30,000 make-break cycles @ full load.
Contact Resistance: 10 m ohms Max, @ 2-4 volts. @100 mA
Insulation resistance: 1,000 Megohms minimum
Dielectric Strength: 1,000 V RMS @ sea level.
Operating temperature range: -30 to +85 degrees Celsius

HORIZONTAL RIGHT ANGLE MOUNTING - SEALED

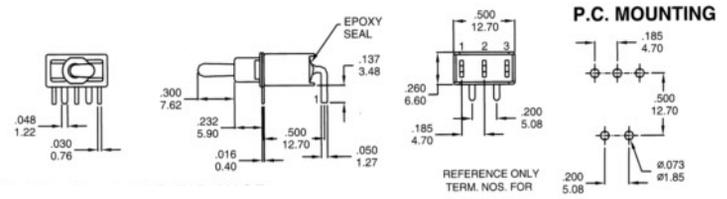

Mechanical:

Case: Glass-filled Nylon 66 (UL94V-0)
Actuator: Brass, Chrome plated w/internal "O" ring seal.
Switch support retainer: Stainless steel.
Terminals: Gold Plated.
Contact materials: coin silver.
Special: Epoxy seal at contacts (against solder, flux remover)

SWITCHES MINIATURE TOGGLE, PC mount

Printed Circuit Miniature Toggle Switches

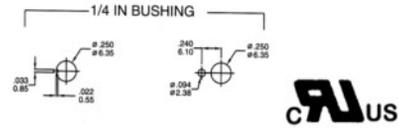

Philmore PC mounting miniature switches are available in two bushing styles. When offered with a threaded bushing, hardware (nut and washers) are included and assembled. Smooth, non-threaded bushings are also offered and the buyer needs to watch for this distinction to be sure to get the correct style.

Philmore Printed Circuit board layout patterns include both conductor mounting holes and the mounting holes for mechanical supports which are an integral part of toggles and some of the other styles, where they are needed.

Printed Circuit-horizontal mounting Miniature TOGGLE SWITCHES

Right angle and horizontal mounting PC board switches with either a plain (smooth) bushing or with a threaded bushing and assembled hardware. Coin silver contacts for current capacity; gold plated terminals.

Part No.	Circuit	Bushing
30-20004	SPDT ON-ON	1/4"-20 threaded

ROUND PADDLE LEVER TOGGLE SWITCHES

Using an LED

LED with DC (Direct Current)

An LED (light emitting diode) requires about two volts to operate and twenty milliamps of current. A current limiting resistor must be used in series with an LED to prevent current over 20 mA from flowing; otherwise, your LED will be damaged. You may simply use Ohm's law to calculate the resistor value. Here is an example, we have a circuit operating at 12 volts DC, and need to know the value of a resistor to use. The LED "wants" two volts to operate ; so subtract 2 from the 12 volts which is of course, ten. Plug the "ten" in at "E" and divide by "I" or .020 amps. The result is 500 ohms for the resistor value
If you forget to subtract the two volts, the resistor value will be 600 and the LED will not be at maximum brightness. However, it will last much longer! (about double normal life).
Another formula you can use is $R=50(V-2)$. The R is for resistor, the V for voltage. We like this one as it is easy to recall and do in your head.

LED with AC (Alternating Current)

When using an LED with AC, a diode must be placed in series with the LED. Because AC will only be flowing 1/2 the time, we use a variation on the easy formula shown to the left(bottom). Use $R=25(V2.7)$, which includes the voltage drop across the diode.
So, if you have a circuit using 28 volts AC, multiply 25.3 (or $28V - 2.7$), times 25 equals 632 ohms. We need to use a standard value resistor, so use 680 ohms for "R".

Typical voltages used in electronics and resistor values (rounded to nearest standard resistor).

DC Volts	5V	6V	12V	24V	AC Volts	6V	12V	24V	48V	117V
Resistor (ohms)	150	180	470	1200	Resistor (ohms)	82	220	560	1200	3K

STANDARD SIZE BAT HANDLE TOGGLE SWITCH

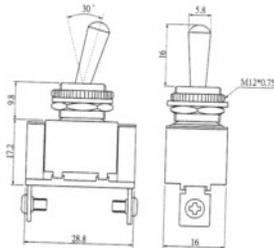

Mounting Hole: 0.500"

SPECIFICATIONS:

Current Rating:	6A @125V AC, 3A @ 250V AC
Initial Contact Resistance:	5 Meg ohm (Max.)
Insulation Resistance:	100 Meg ohm (Min.) @500V DC
Dielectric Strength:	1000V AC 50/60 Hz for 1 minute
Contact Material:	Brass - Nickel Plate
Terminal Material:	Brass - Nickel Plate
Terminal Type:	Screw

Part No.	Type	Action			Actuator
30-226	DPDT	ON	OFF	ON	Metal

STANDARD SIZE BAT HANDLE TOGGLE SWITCHES

Mounting Hole: 0.500"

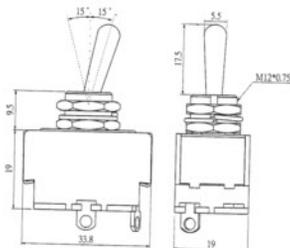

SPECIFICATIONS:

Current Rating:	10A @125V AC, 6A @ 250V AC
Initial Contact Resistance:	50 Meg ohm (Max.)
Insulation Resistance:	DC 500V 100 Meg ohm (Min.)
Dielectric Strength:	AC 1500V 1 minute
Bushing Material:	Brass - Nickel Plate, M12-.75 Threads
Terminal Material:	Brass - Nickel Plate
Terminal Type:	Screw

Part No.	Type	Action			Actuator
30-10124	SPDT	ON	-	ON	Brass Nickel Plate
30-10126*	SPDT	ON	-	ON	Brass Nickel Plate

(* 30-10126 has .250" Quick connect terminal.)

STANDARD SIZE BAT HANDLE TOGGLE SWITCHES

Mounting Hole: 0.500"

SPECIFICATIONS:

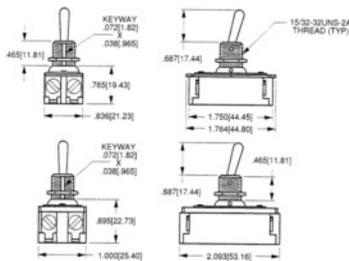

Current Rating:	15A @125V AC, 10A @ 250V AC
Initial Contact Resistance:	50 Meg ohm (Max.)
Insulation Resistance:	DC 500V 100 Meg ohm (Min.)
Dielectric Strength:	AC 1500V 1 minute
Bushing Material:	Brass - Nickel Plate, M12-.75 Threads
Terminal Material:	Brass - Nickel Plate
Actuator Type:	Metal (Brass Nickel Plate)

Part No.	Type	Action			Terminal

STRAIN RELIEFS & WIRE

STRAIGHT-THROUGH STRAIN RELIEF BUSHINGS

UL Listed; Sizes for most popular AC power cords. Recognized under Component Program of Underwriters' Laboratories File No. E-10793. Certified by Canadian Standards Assoc. File No. LR-66162.

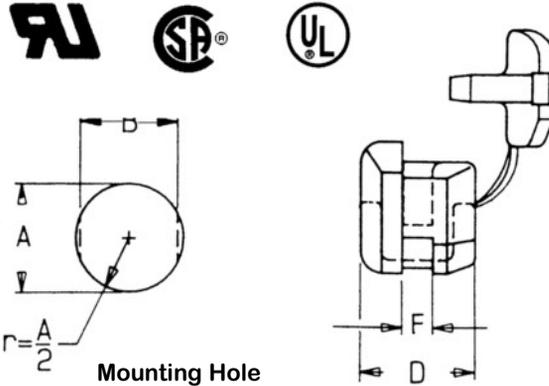

This series of AC cord bushing provides the most accepted method of securing AC power cords at the point where they enter/exit the chassis or cabinet. These bushings are generally regarded as permanent and will prevent damage to the wire as well as securing the wire against any possible in-out motion.

Select the type needed first by wire type and gauge and then the maximum panel thickness. In cases where the wire is a special, not listed in the chart, use the approximate wire size column.

Molded of Nylon; the two pieces of these strain reliefs are permanently connected by an integral tether to prevent them from becoming separated.

Part no. shown is for one package containing ten pieces. For bulk package add a "B" to the end of number and order in standard package multiples of 50 pieces.

STRAIN RELIEF TOOL No. 63-640

PHILMORE STRAIN RELIEF TOOL

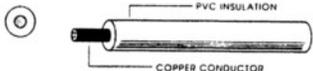

High quality assembly tool for Nylon strain reliefs. Adjustable for all Philmore & other Heyco - Type strain relief bushings, that assemble into holes up to 7/8" diameter. Spring loaded action (replaces Philmore WS40).

No. 63-640

HOOKUP or LEAD WIRE

22 gauge, solid copper hookup wire with PVC insulation; UL listed 1007/1569. This is the standard at board level and also fits our Prototype Boards, both solderless and solder types. Supplied in 25 foot hanks in various colors and also in an assortment.

SPECIFICATIONS:
UL 1007/1569
Insulation: .016" thk. PVC 105°C
300-volts nominal O.D. .0626"

- No. 12-2211 - black
- No. 12-2214 - white
- No. 12-2216 - red

- No. 12-2218 - yellow
- No. 12-2276 - 5 piece kit, 1 each of 5 colors

232

MAGNET WIRE

Commonly used for winding R.F. coils and transformers and general lab or school classroom assembly. This is a standard round, pure copper wire with a polyimide enamel inner-coat and polyurethane over coat; Thermo Class 130. The insulation will stand up and not crack during winding of tight coils, high speed winding etc..

HOOK - UP WIRE

Philmore Hook-up Wire
UL Style 1007/1569
Insulated copper wire
Solid and stranded types.

Philmore offers all of the most called for gauges in UL listed, 300 volt hook-up wire for use in electronic and electrical circuits. Ten colors in wire gauges 26 through 16 AWG and your choice of 25 or 100 foot spools.

GROUND WIRES & SHIELDING

Grounding & Shielding Tinned Copper Braid

Product Construction

Conductor:

- * Woven tinned copper wire construction
- * Each wire meets specification QQ-W-343 type S and ASTM B-33
- * 95% minimum shield coverage

Applications:

- * Shielding
- * Ground straps
- * Bonding Cable

Flat Tinned Copper Braid

Tubular Tinned Copper Braid

Standard 50 Ft. Spool

12-1323	1/2	36	528	48	528 x 36	9	13,200	62

* Capacity in amperes is a general guideline. User should determine appropriate size based upon voltage, current and copper conductivity when intended for use in critical applications. The "approx. AWG" provides nearest copper wire-size equivalents which can be helpful in determining current capacity for your application using standard industry methods.

ALUMINUM GROUND WIRE, for TV ANTENNA SYSTEMS

An excellent wire for the ground connection in TV antenna systems, heavy enough to bleed off even in major charges from tower, masts, mount etc. Will never rust or deteriorate and remains conductive virtually forever. A 9 gauge (1/8" dia.) 50 ft. wire, easy to handle. Can also be used for elements in home made UHF antennas etc.

No. 15-625 - 50 Ft. Coil Solid Aluminum Ground Wire

PURE COPPER ANTENNA WIRE

The best wire for most outdoor antennas or attic antennas. Used for making SWL (short wave listening), crystal set and ham radio dipoles, long wire antennas etc. Pure copper stranded 14 gauge. Includes basic instructions for making a long wire antenna and specific information for home brew ham radio dipoles. Pure copper wire will deliver more signal than any other wire available.

No. 15-630 - 50 Ft. Copper Antenna Wire
No. 15-635 - 100 Ft. Copper Antenna Wire

20-pc. PERSONAL COMPUTER TOOL KIT

DELUXE TOOL KIT for complete field service work. Contains all the tools you need to add or remove parts, peripherals and printed circuit boards. All packaged in deluxe black vinyl zipper case (13" x 7-1/4" x 1-3/4") folded size.

CONTENTS:

1/4" nut driver • 3/16" nut driver #0 Phillips screwdriver
 #1 Phillips screwdriver • 1/8" std. screwdriver
 3/16" std. screwdriver • T-10 torx driver • T-15 torx driver • Mini long-nose plier
 6" adjustable wrench • 4-3/4" long tweezers • 3-prong parts holder • 30W soldering iron •
 Desolder pump • Rosin core solder • Brush Anti-static wrist strap • I.C. insertion tool •
 I.C. extractor tool
 7-1/4" 4-way crimper

No. CT225

PERSONAL COMPUTER TOOL KIT

A complete kit for servicing plus adding peripherals and printed circuit boards to your PC. In addition to being heat treated, these tools are shot peened, making them extra tough so as to avoid chipping and distortion.

The IC extractor, tweezers and retriever are fully insulated. Each tool handle is shaped for comfort while designed to give more power and extra torque.

The feature of the torx driver is its reversible bit having two sizes on a single handle: T-10 and T-15.

THE KIT HAS:

1/4" nut driver • 3/16" nut driver • 3-prong parts retriever/extractor
 • 4-5/8" long assembly tweezers • T-10/T-15 reversible torx driver • 14-16 Pin I.C. Inserter
 • #1 Phillips screwdriver, 6" overall • 3/16" slotted screwdriver, 6" overall
 • Integrated circuit extractor • #0 Phillips screwdriver, 5-1/2" overall
 1/8" slotted screwdriver, 5-1/2" overall

These tools are neatly secured in elastic straps enclosed in a compact, padded vinyl zipper case.

No. CT813

COAXIAL TOOL KITS

All the tools needed to cut, strip and install RG58, RG59, RG62 (Tool Kit No. WS600) plus RG6 (Tool Kit No. WS604) and center pin in a convenient storage and carrying case.

Tool Kit No. WS600 (for RG58, RG59 & RG62)

Includes:

(Fig. 1) **No. WS28** (Ratchet Crimp Tool)
 (Fig. 2) **No. WS145** (Stripping Tool)
 (Fig. 3) **No. WS50** (Cable Cutter)

Tool Kit No. WS604 (for RG58, RG59, RG62 & RG6)

Includes:

(Fig. 1) **No. WS36** (Ratchet Crimp Tool)
 (Fig. 2) **No. WS145** (Stripping Tool)
 (Fig. 3) **No. WS50** (Cable Cutter)

5 PIECE CHASSIS PUNCH SET

No. 110E

Complete set of punches in a leatherette carrying case. All precision machined of top grade steel. Following sizes: 5/8", 11/16", 3/4", 1", 1-3/16", plus burring reamer. (.47")

IDC CRIMPING TOOL

This all-steel construction tool with cushioned handle grips provides good short run production capabilities for all insulation displacement connector assembling. Works for D-Sub and Centronics.

No. HT214

No. HT214R - Replacement Crimping Block

TOOLS

CRIMPING TOOL for "D" SUBMINIATURE CONNECTORS

Hand held tool crimps D-Sub pins (male and female) with a single squeeze on the contact material. Has built-in wire cutter.

PVC handle allows crimping in comfort.

No. WS26

PROFESSIONAL D-SUB CONTACT RATCHET CRIMPING TOOL

No. YAC4
D-Sub Contact Crimping Tool

- 18-22 AWG, 24-30 AWG
- Six section pressure adjustment
- For female and male D-subminiature contacts

- Precision
- High Quality
- Durable

Crimping Tool for Small Pins & Sockets

Hand held tool crimps High - Density D-sub pins (Male & Female). Also will work with Philmore locking connector pins (No. 70-4800). Has built-in wire cutter.

No. 63-603

ECONOMY HEX CRIMPING TOOL

For a tight and permanent crimp. Designed for coaxial fittings on RG59/U, RG62/U and RG6/U. PE insulation grip handle for comfort and maximum crimping force. Made of tempered steel. 8" long.

No. 12-170

PROFESSIONAL RATCHET COAXIAL CRIMPING TOOL

For CATV, MATV, and TVRO installations. This economically priced tool is just right for the professional installer and hobbyist alike. Small enough to fit in the tool belt and rugged enough for any job. It works with most "F", BNC, TNC, UHF, Mini-UHF, SMA, & RCA connectors

PROFESSIONAL HEX CRIMP TOOL

Perfect for CATV, MATV and TVRO installations, when heavy duty crimping is required. It's light enough to fit conveniently in an installers belt. Features cushion plastic handles for comfortable gripping. 9" overall length.

No. WS25 - Crimps RG59/U, RG6/U
No. WS27 - Crimps RG58/U, RG59/U and Pin Crimping Position
No. WS29 - Crimps Philmore Pro-Crimp UHF, SMA.

Features

- Heavy-duty Steel construction
- Insulated Handle
- Non-replaceable Drop-forged jaws
- Overall length 9" (229mm)
- Hex Crimp for RG 59, RG62 (.255") RG6, (.322")

No. 63-116

Professional Ratcheting Hex Crimp Tool RG59, RG62, and RG6

CRIMPING TOOL for "F" CONNECTORS

For a tight, permanent crimp, this ferrule tool does the proper job every time. Two slots are provided for RG59/U and RG58/U coaxial cable. **No. WS17**

Professional Ratchet Crimp Tool w/ Interchangeable Dies

- Full cycle ratchet mechanism with quick release safety lock
- High carbon steel ratchet frame
- PE insulation grip handle for comfort and maximum crimping force
- Interchangeable dies for F, BNC, TNC, N, Teflon, Thinnet-PVC / Teflon and Fiber-Optic connectors

No. WS28 - (RG58/U, RG59/U and 1/16" pin)

No. WS34 - For Insulated Terminals:

(22-18 AWG, 16-14 AWG and 12-10 AWG)

No. WS36 - (RG58/U, RG59/U and RG6/U)

Heavy Duty Crimp Tool

This crimp tool is designed for the person who needs a combination tool that will cut, and crimp all in one tool.

Features:

- Cuts #10 - 22 AWG Wire
- Precision Matched Dies
- Chrome Vanadium Steel
- Double Dipped Handles
- Crimps Insulated and Uninsulated terminals

No. 63-601

Heavy Duty Crimp Tool

Economy "F" Compression Tool

A handy compression connector tool. A patented design to work with "F" connectors for both RG59 & RG6 coaxial cables.

No. 63-505

Economy Adjustable Compression Tool

Hand adjustment for different length connectors. Philmore No. 63-514 will work with "F", BNC and RCA compression type connectors.

No. 63-514

COMPRESSION CONNECTOR TOOL

This tool is especially designed for installation of "F" style compression connectors. It works with the Philmore FC306, FC346, & FC359 as well as the LRC, Augat, T&B, Paladin, AIM and other compatible connectors.

No. 63-508

ADJUSTABLE PROFESSIONAL COMPRESSION CONNECTOR TOOL

Features

- Heavy-duty Steel Construction
- Hand adjustment for different length connectors
- Works with: Augat, T&B Snap-N-Seal™, Paladin SealTite, and AIM CATV F weatherproof connectors

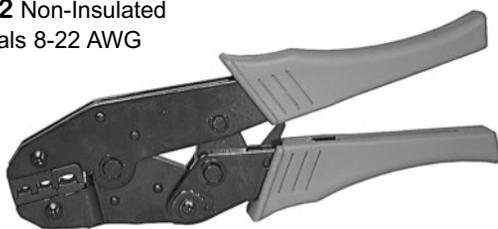

No. 63-512 Professional Compression Tool for "F", BNC, & RCA

Solderless Terminal Ratcheting Crimp Tools

Philmore offers two ratcheting tools especially designed for solderless terminals. These tools give the user uniform pressure on ALL crimps. They are forged of high carbon steel. The ratchet has a release, and the crimp pressure is adjustable.

No. 63-622 Non-Insulated Terminals 8-22 AWG

Professional Ratchet Crimp Tool For Solderless Terminal

No. WS34 - For Insulated Terminals: (22-18 AWG, 16-14 AWG and 12-10 AWG)

- Full cycle ratchet mechanism with quick release safety lock
- High carbon steel ratchet frame
- PE insulation grip handle for comfort and maximum crimping force

No. WS35 - For Insulated Flag Terminals: (22-18 AWG, 16-14 AWG)

Deluxe Swivel Base Bench Vise

This deluxe, swivel base bench vise has a one touch locking level for easy positioning.

Features

- 3" wide jaw with rubber pads
- Ball Joint swivel for Maximum Performance
- Jaw opening 2 1/4"
- All Metal Construction
- Clamp Opening 2"

No. MUV-1 Large Swivel Vise

Swivel Base Bench Vise

Features

- 1 1/2" wide Nylon jaw
- Ball Joint swivel for Maximum Performance
- Jaw opening 2 3/4"
- All Metal Construction
- Clamp Opening 2"

No. MUV-2 Small Swivel Vise

TOOLS

COAXIAL CABLE STRIPPER

FAST - EFFECTIVE - NEAT - SINGLE ACTION

With an easy twirl of the finger, this stripper prepares cable at once for attaching coax connectors. A convenient changeover method using a reversible V-block assembly switches the cable size effortlessly between RG58/U, RG59/U and RG6/U.

The cutters are easily adjusted for non-standard cables by turning two set screws using the hex wrench stored in the handle. After the cable is cut, it is automatically stripped in a single action by removing the tool from the cable. Spare cutting blades are available and are readily installed.

No. WS145 - Strips RG6/U, RG58/U, RG59/U & RG62/U

No. WSB - Package of (4) Replacement Blades

Coaxial Cable Stripper

A precision one blade coax wire stripper. For RG58, RG59 / RG62 and RG6. Body is made of durable ABS material. A simple adjustment for different cable O.D.

No. 63-229

Coaxial Cable Stripper

A multi-purpose two blade coax wire stripper. A patent design for RG174, RG58, RG59 / RG62 and RG6.

No. 63-232

TWO STEP COAXIAL CABLE STRIPPER

New patented design for RG59/U, RG62/U, RG6/U including Teflon insulation. Easy to use, perfect for compression type connectors.

No. 63-235 - Two Step Coaxial Cable Stripper

WIRE STRIPPER

Stripper automatically holds wire and strips in one cycle. For wire sizes 8 thru 22 gauge. An optional strip-length setting stop is included.

No. 63-369

PROFESSIONAL WIRE STRIPPER

This compact, self-adjust wire stripper is especially designed for smaller wire. Easily handles 16-30 gauge wire without adjustment. Tool has built in cutter. It is compact and operates with low force. Will strip stranded and solid wire with out nicking. Has adjustable stop for strip length.

- PATENTED
- PRECISE
- DURABLE
- FINE QUALITY

No. YY78318

WIRE STRIPPER & CUTTING TOOL

Dial-A-Wire Size

12-24 Gauge for Precision Stripping

Flush Cutting

The dial assures perfect stripping without a nick or break.

The tool has a black oxide finish with plastic cushion grip handles.

No. WS18

CABLE CUTTER

This heavy duty cable cutter features hardened carbon steel cutting blades and cushion handle grips. Cuts cable to 3/8" diameter. Perfect for coax and electrical cable. Length - 6-1/2" with closed lock feature.

No. WS50

5-WAY ALL-PURPOSE WIRE TOOL

The overall length of the tool is 9" and is made of hardened steel. Matte black permanent finish with bright, clear markings makes it an attractive and easy-to-use product.

Features large comfortable plastic grip handles

A one piece tool that shapes and cuts wire 5 different ways:

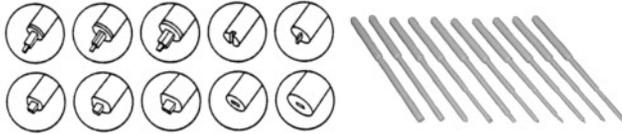

- Standard wire cutter
- Crimps insulated terminals 22-14 • 12-10 AWG
- Shears 5 bolt sizes: 4-40 • 6-32 • 8-32 • 10-24 • 10-32
- Crimps non-insulated terminals 10-12 AWG • 14-16 AWG • 18-22 AWG
- Strips wire 10 to 22 AWG

No. WS16

10 pc. TOOL SET

A tool for all applications for trimmer adjustments. Set includes square tips, hex tips, different size screwdriver blades and recessed blades. Manufactured with tough celcon material.

No. 63-910

10 PIECE ELECTRONIC COMBINATION WRENCH SET

This fine quality set of 10 combination wrenches is excellent for electronic repair and service. The size and thickness are especially suited for technician needs. The wrenches are the following sizes: 5/32", 3/16", 1/4", 7/32", 15/64", 5/16", 9/32", 3/8", 11/32", and 7/16". All are hot forged and chrome plated.

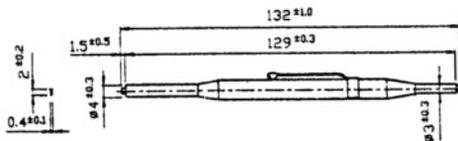

No. 63-608

ALIGNMENT TOOLS

MINIATURE POTENTIOMETER, "TRIMPOT" TOOL

One end is a recessed blade for non-slip adjustment of miniature potentiometers that have a protruding adjustment screw. The other end has a protruding metal blade for pots with flush screw-slot adjustment. Small steel tips have negligible flux-effect; body is molded of anti-static plastic. Replaces types 8608, AS8608.

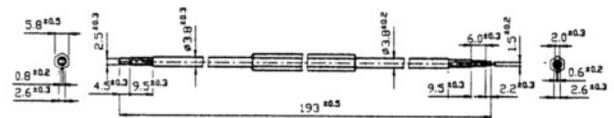

No. 63-8608

DOUBLE HEX ALIGNMENT TOOL

A broad usage tool with stepped .078" hex and 0.10" hex on one end, preceded by a fine .020" x .065" flat blade. The opposite end is a 0.10" hex preceded by a .030" x .10" flat blade. Overall length is 7-9/16", molded of durable Nylon.

No. 63-9297

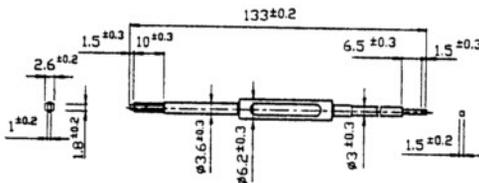

SQUARE and HEX ALIGNMENT TOOL

Square: .060" Hex: 0.10"

A double-ended, anti-static alignment tool for ferrite core transformers. One end is a square .060" tip with an additional protruding flat (.024" thick) blade. The other end is a 0.10" hex with a protruding (.039" thick) blade. Replaces types 9440 and AS9440..

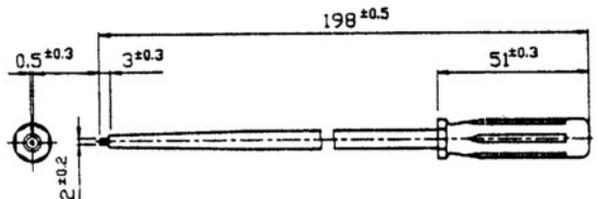

No. 63-9440

LONG REACH ALIGNER, WITH HANDLE

A plastic alignment tool with a .02" x .080" steel tip. Length of shaft from tip to handle is 5-3/4". overall tool length is 7-7/8". Shaft is somewhat flexible for tight spots; handle provides better grip than regular alignment tools.

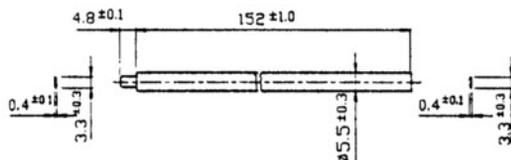

No. 63-5001

STEEL TIP DUAL ALIGNMENT TOOL

Recessed steel tip one end, protruding steel tip on the other. Tool shaft dia. 7/32" (5.5mm). The recessed tip fits a no.6 slotted shaft common to many I.F. transformers. The protruding tip is .130" wide and protrudes .190". Molded of anti-static material. Replaces types 8276 and AS8276.

No. 63-8276

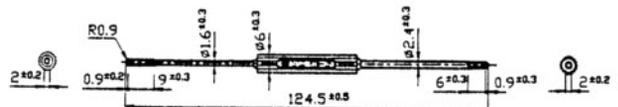

DOUBLE 078 HEX ALIGNER

HEX: .078"

A Nylon tool .078" hex on both ends; one end undercut for reaching through to a bottom slug, the other with a stop to prevent over-reaching. Replaces type 9300.

No. 63-9300

TOOLS

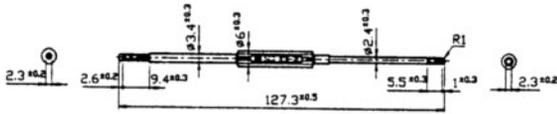

ALIGNMENT TOOLS

SPECIAL HEX-TIP TOOL

Hex: 0.10"

On one end, flat tip (0.025" thick x 0.10" wide) is followed by a 0.10" hex. The opposite end is an undercut 0.10" hex. Overall length, 5". Replaces type 8606.

No. 63-8606

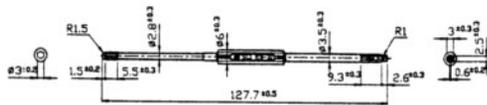

DOUBLE END HEX TOOL

Hex: .125"

One end is an under cut .125" and other is a .125" hex preceded by a flat (.025" thick x .10" wide) blade. Entire tool is molded Nylon. Replaces type 9091.

No. 63-9091

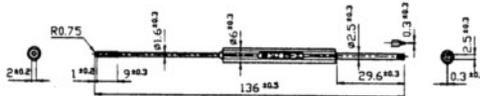

SCREWDRIVER-HEX COMBINATION TOOL

Hex: .078"

One end is an undercut 0.078" hex tip and other is a screwdriver style tip that is 0.10" in diameter and tapers to 0.015" thick. Overall length: 5-5/16", molded Nylon. Replaces type 9304.

No. 63-9304

TECH'S ALIGNMENT TOOL KIT

A general purpose kit containing four tools with a variety of needed tips. Includes tools for most common ferrite core adjustments used in today's circuits. Supplied in a plastic pouch. Contains tool Nos.: 63-8603, 63-9301, 63-9442, and 63-9297.

No. 63-8420

TELEVISION ALIGNMENT TOOL SET

Kit contains the five most commonly needed tools for television service. Also included is an extender that may be used as an extension handle when a longer reach tool is needed. Kit is supplied in a segmented pouch to keep tools together.

Contains: 63-9300 63-8606
63-8282 63-9091
63-9304 Extender

No. 63-8454

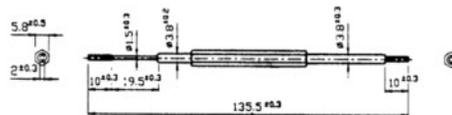

SQUARE and HEX ALIGNMENT TOOL

Square: .060" Hex: 0.10" & Blade

A double-ended, molded nylon tool: overall length is 4-3/4" One end is a square .060" tip with protruding blade from a 0.10" hex. The other end is a flat (.039" thick) blade which is followed by an undercut .10" hex. A tool frequently needed in color copier maintenance

No. 63-9442

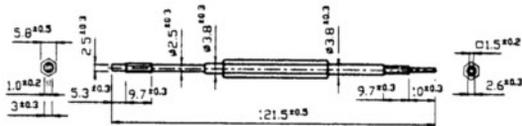

DOUBLE ENDED HEX TOOL

Hex: 0.078"

Undercut .078" hex on one end and on the other the hex is stopped with a larger diameter shaft. Overall length is 5.33". Molded Nylon.

No. 63-9301

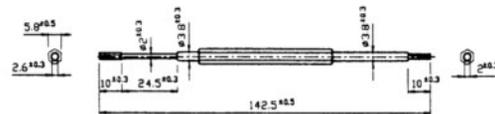

DOUBLE ENDED HEX TOOL

Hex: 0.10" & .087"

A dual ended tool with an undercut 0.10" hex on one end and a standard .087" (for 2.2mm cores) hex on the other. Overall length is 5.6". Molded Nylon.

No. 63-8603

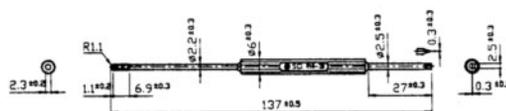

SCREWDRIVER-HEX COMBINATION TOOL

Hex: .092"

One end is an undercut 0.092" hex tip and other is a screwdriver style tip that is 0.10" in diameter and tapers to 0.015" thick. Overall length: 5-5/16", molded Nylon. Replaces type 8282.

No. 63-8282

Pocket Hex Wrench Set with Pouch

This folding tool set opens like a pocket knife and has 6 of the most popular sizes of hex wrenches, open end wrench, socket set, phillips & slotted screw driver. Made of nickel chrome alloy steel and comes in a handy carrying case.

Features

Nickel Chrome Steel Alloy

Sizes: 3/32", 1/8", 5/32",
3/16", 1/4", 5/16"

Wrench: 8mm, 10mm,
15mm

Sockets: 1/4", 5/16", 3/8"

Screwdrivers: #0 phillips
3/16" Slotted

Pouch: Vinyl

No. 63-15098 Pocket Hex set w/pouch

PRECISION KNIFE SET

No. 10250

This kit is a must for the hobbyist or anyone working with P.C. artwork. Very handy for many uses in the lab. Packaged in attractive four color box.

Kit Contains:

- (3) Knife Handle Sizes
- (1) Blade Holder
- (10) Assorted Blades
- Durable Solid Case for easy storing

HEX KEY WRENCH SET

The set contains US-SAE standard hex-wrenches in the most common sizes. For set screws used in electronics assemblies, for knobs and shaft couplers as well as numerous household and automotive products. Included is a molded plastic holder to help keep your wrench set together.

Sizes included are: 5/64, 3/32, 1/8, 5/32, 3/16,
7/32, 1/4, 5/16, and 3/8"

No. 63-10117

NUT TIGHTENING TOOL

No. NT500

Tool is specifically designed to tighten slotted knurled nuts on 3.5mm and some 2.5mm (i.e. Nos. 502JB, 502KB, 501JR, 702J and 666J).

NIBBLING TOOL

Unique hand-operated tool cuts metal and non-brittle plastic. Will cut any size or shape contour, starting from the edge or from a 3/8" inside hole. Tool cuts up to 18 gauge (0.046") as well as copper, brass, aluminum and plastics up to 1/16" (0.062").

No. 10150

PRECISION KNIFE

- Knurled aluminum handle
- Precision ground blade

No. 10260

No. 10265 - Package of 10 replacement blades

D-SUBMINIATURE PIN INSERTION TOOL

Tool is designed for insertion and extraction of crimp type pins for D-Subminiature connectors. Tool body is made of plastic; and ends are metal.

No. D004

INSPECTION MIRROR

A 1.25" diameter magnifying mirror, similar to a dentist's mirror except that this one has ball joints for adjusting to just about any angle. Makes seeing the problems while servicing in tight spots much easier. Length - 6"

No. 63-390

V.35 PIN EXTRACTION TOOLS

These tools are designed to remove the pins from Cisco Systems V.35 connectors. They are made of steel construction and have a manual operated plunger which pushes the pin from the housing.

Features

- Steel Construction
- Manual Push Plunger
- Designed for V.35 Connectors

No. 61-396

For V.35 Male Pins

No. 61-395

For V.35 Female Pins

TELESCOPING MAGNETIC PICK-UP TOOL

No. 63-322

This handy magnetic pick-up tool telescopes from 4" to 16". Very strong magnetic tip. Will pickup 4 oz. weight.

SPRING HOOK TOOL

No. 63-317

The perfect tool for assembly of drive belts or assembly and disassembly of springs. One end is hook design for pulling. 2nd end is designed for pushing. Length is 8-1/2".

TOOLS

PRECISION SCREWDRIVER SET

- 6 pc. flat blades 1.0, 1.2, 1.4, 1.8, 2.4, 3.0mm
- 3 pc. Phillips #00, #0, #1
- 1 Pick Up Tool and Pin Tip
- Molded Plastic case

No. JS7

JEWELERS' SCREWDRIVER SET

Set of six screwdrivers with free-turning heads, precision made for jewelers, watchmakers, gauge makers, hobbyists etc.. Sizes are 1.0, 1.4, 2.0, 2.4, 3.0 and 3.5mm. Packed in clear plastic case.

No. JS6

MINIATURE PRECISION NUTDRIVER SET

No. JS5

- 5 pc. nut driver
- 1/8", 9/64", 5/32", 11/32", 3/16"
- 1 piece cross bar

PRECISION TWEEZERS 4-1/2"

These quality, stainless steel tweezers are excellent for electronic and fine assembly.

- No. 10132 - 4-1/2"
- No. 10134 - Regular Fine Point 4-1/2"
- No. 10136 - Curved Fine Point 4-1/2"
- No. 10138 - Self Closing Fine Point 4-1/2"
- No. 10140 - Self Closing 7"
- No. 10130 - Kit of 4 Tweezers 4-1/2" (Nos. 10132, 10134, 10136 & 10138)

Electronic FORCEPS Stainless Steel

These are fine, high-quality forceps, or surgical hemostats, which have become a standard in electronic service and assembly. Small parts can be handled easily, solder will not stick to these Stainless Steel tools. Serrated jaws provide a good gripping surface and all models have a locking feature when needed. Smaller size is intended for persons with smaller to average hand size.

Part no.	Size	Style
63-382	5-1/8"	Straight
63-384	5-1/8"	Curved
63-386	6-1/4"	Straight
63-388	6-1/4"	Curved

HEAT GUN

The Philmore No. HD866 is a dual range gun. The low range covers 500° F and the high range covers 900° F - 1100° F. This fine quality product can be used for:

- Heat shrink tubing
- Paint removal
- Drying metal
- Drying ignition systems
- Bending plastic/plexiglass
- Window shrink films
- Frozen locks

UL LISTED
No. HD866 117VAC
1100 Watts
Includes (2) tips and tip removal tool.

VACUUM SOLDER REMOVAL TOOL

Makes removal of molten solder from p.c. board easy. One hand operation. Nose is removable for easy clean-out. All-metal construction provides long, trouble-free service.

- No. 10320
- No. 10325 - Replacement Anti-Static Tip and "O" Ring

The BIG BLUE SolderSucker

This is an imported copy of a favorite American solder removal tool. It is an effective and economical tool for use in desoldering rework.

Replacement "O" rings and tips are available for the only parts that will have noticeable wear.

Part no.	Description
10340	Big Blue Solder Sucker tool
10350	Anti-static version of "Big Blue" (all black color)
10342	Pack of three (3) replacement "O" rings
10341	Replacement Big Blue desoldering tip for no. 10340
10351	Replacement A/S desoldering tip for no. 10350

Dental Probe Sets

Philmore offers two dental probe sets for parts removal, lead bending, pc board cleaning and many other uses.

No. 63-376 (5) pc Set
(5) screw in probe + Handle 8.5"

STAINLESS STEEL PROFESSIONAL TOOLS

These finely machined stainless tools are durable and long-lasting. Extremely comfortable in user's hand. The cushioned handle grips provide very high insulation. All three tools are furnished with spring for ease-of-use. Philmore feels there is no finer value available today.

No. SA703 - side cutter

No. SA704 - needle point pliers

No. SA705 - curved needle point pliers

COOLING FANS

40 mm (1.56") Square Cooling Fans

These miniature cooling fans are quite popular in small electronic equipment including computers where heat is a problem or can cause problems. The fans are available with brushless DC motors which are polarity protected.

Part No.	Thickness mm	Speed RPM	Max. CFM	Noise db	Bearing Style	Voltage	Current (ma)
70-4012	10	6500	7.7	29	Sleeve	12V DC	130
70-4128	10	6500	7.7	29	Ball	12V DC	130

Specifications:
 Motor: DC Brushless
 Case & Impeller: 94V-0 Plastic
 Operating Temp.: -20° C - 80° C Ball Bearing
 -10° C- 50° C Sleeve Bearing
 Life Expectancy: 70,000 Hours
 UL, CUL, CSA Approvals

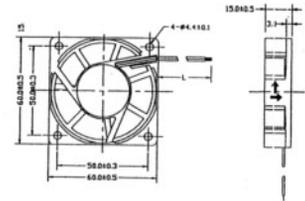

60 mm (2.36") Square Cooling Fans

These cooling fans are quite popular in electronic equipment. They are available in several voltages and CFM (cubic feet per minute) air flow types. The fans have brushless DC motors which are polarity protected.

Part No.	Thickness mm	Speed RPM	Max. CFM	Noise db	Bearing Style	Voltage	Current (ma)
70-6128	15	3900	15	28	Ball	12V DC	140
70-6012	25	4000	24	29	Sleeve	12V AC	140

Specifications:
 Motor: DC Brushless
 Case & Impellers: 94V-0 Plastic
 Operating Temp.: -20° C - 80° C Ball Bearing
 -10° C- 50° C Sleeve Bearing
 Life Expectancy: 70,000 Hours
 UL, CUL, CSA Approvals

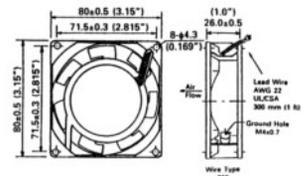

80 mm (3.15") Square Cooling Fans

These cooling fans are quite popular in electronic equipment including copiers, and computers. They are available in several voltages and CFM (cubic feet per minute) air flow types. The fans are available with brushless DC or AC motors which are polarity protected.

Part No.	Thickness mm	Speed RPM	Max. CFM	Noise db	Bearing Style	Voltage	Current (ma)
70-8275	25	3200	29	34	Sleeve	12V DC	190
70-8128	25	3000	22	35	Ball	24V DC	120
70-6275	25	3000	24	28	Ball	120V AC	140

Specifications:
 Motor: AC or DC Brushless
 Case & Impellers: 94V-0 Plastic
 Operating Temp.: -20° C - 80° C Ball Bearing
 -10° C- 50° C Sleeve Bearing
 Life Expectancy: 70,000 Hours
 UL, CUL, CSA Approvals

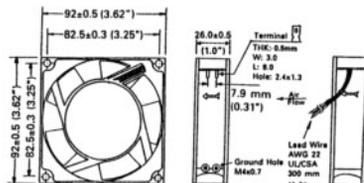

92 mm (3.62") Square Cooling Fans

These cooling fans are quite popular in electronic equipment including copiers, computers, & data processing. They are available in several voltages and CFM (cubic feet per minute) air flow types. The fans are available with brushless DC or AC motors which are polarity protected.

Part No.	Thickness mm	Speed RPM	Max. CFM	Noise db	Bearing Style	Voltage	Current (ma)
70-8325	25	2400	36	39	Sleeve	12V DC	220
70-9128	25	3000	50	33	Ball	24V DC	180
70-6325	25	2900	31	30	Ball	120V AC	140

Specifications:
 Motor: AC or DC Brushless
 Case & Impellers: 94V-0 Plastic
 Operating Temp.: -20° C - 80° C Ball Bearing
 -10° C- 50° C Sleeve Bearing
 Life Expectancy: 70,000 Hours
 UL, CUL, CSA Approvals

AMD K6-II CPU COOLING FAN

This CPU cooler is designed to fit the AMD K6-II processor with speeds up to 550MHz. The device has low acoustical noise, quick easy installation, and a ball bearing motor.

- Features**
- >Fan size 50 x 50 x 10 mm
 - >Thermal interface: Chomerics T-725
 - >Operation Voltage: 7-12VDC
 - >Operating Current: 1.32W
 - >Noise Level: <30.4dB
 - >Rated Speed: 4800 RPM
 - >Air Flow: 11.5CFM
 - >Electrical Connection: 4 pin plug
 - >Dimensions w/ heat sink: 50x50x42mm

No. 70-8156 AMD K6-II CPU Cooler

120 mm (4.72") Square Cooling Fans

These cooling fans are quite popular in electronic equipment. They are available in several voltages and CFM (cubic feet per minute) air flow types. The fans have brushless DC motors which are polarity protected.

Specifications:
 Motor: DC Brushless
 Case & Impeller: 94V-0 Plastic
 Operating Temp.: -20° C - 80° C Ball Bearing
 -10° C- 50° C Sleeve Bearing
 Life Expectancy: 70,000 Hours
 UL, CUL, CSA Approvals

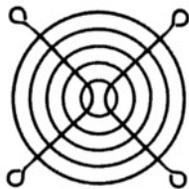

Part No.	Thickness mm	Speed RPM	Max. CFM	Noise db	Bearing Style	Voltage	Current (ma)
70-8415	25	2400	69	35	Sleeve	12V DC	340
70-1128	25	3000	86	42	Ball	12V DC	240
70-1248	25	3000	86	42	Ball	24V DC	240
70-6412	25	2900	105	33	Ball	120V DC	140

COOLING FAN ACCESSORIES

Fan Guards

These guards are designed to fit the fans Philmore offers as well as other standard size models. They are to be used to keep foreign objects from interfering with the operation of the fan as well as for safety purposes.

Part Number	Fan Size	Dimensions	
		Dia.	Mt. Centers
70-6340	40mm	1.24"	1.26"
70-6360	60mm	1.97"	2.09"
70-6280	80mm	2.81"	3.02"
70-6330	92mm	3.25"	3.52"
70-6415	120mm	4.125"	4.31"

Specifications:

Nickel Chrome Steel Wire
Welded Joints
Meets UL & CSA Standards

Plastic Fan Filter Kits

These kits are designed to reduce noise, and remove impurities up to 45 PPI (Parts Per Inch). These kits consist of three parts. A Fan Guard, Media Filter, and a Retainer.

Part Number	Fan Size (mm)	PPI Filtering
70-5340	40mm	45
70-5360	60mm	45
70-5380	80mm	45
70-5392	92mm	45
70-5312	120mm	45

Specifications:

Guard;
UL94V-0 Plastic
UL .25 Spacing
Reduces Noise Level
Media Filter;
PU (polyurethane) Foam
45 PPI
Easy Clean
Retainer;
UL94V-0 Plastic
Low Air Resistance
Snap-on Installation

Fan Power Cords

These fan power cords fit Philmore models and other competitor fans with plug-in terminals. Philmore offers several configurations for your convenience.

HEAT SHRINK TUBING

Polyolefin Heat Shrink Tubing

This grade of heat shrink tubing is rated for general purpose Electrical & Mechanical Insulation. The construction is "Thin Wall Crosslinked Polyolefin". Thin wall heat shrinkable tubing is used in a variety of applications including: harness and strain relief, insulation and protection of electronic components, and Identification.

SOLDERING IRONS

TEMPERATURE CONTROLLED SOLDER STATION

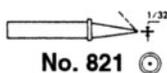

The electronic temperature control soldering station has been developed to meet the present and future needs of the electronics industry. It incorporates a sophisticated electronic circuit which enables the user to change the tip temperature from 300° F (150°C) to 790°F (420°C) without the need to change the tip or heating element. The temperature is maintained within $\pm 10^\circ\text{F}$ of its preset temperature. This is made possible by a unique temperature sensor that is located near the tip, resulting in rapid response and little temperature variation. The tip of the unit is isolated from the AC line by a transformer. Low voltage (24 Volts) is utilized to power the heating element. Completely electronic switching protects voltage and current sensitive components against transient spikes sometimes caused by other units utilizing mechanical switching circuits. This unit incorporates a linear LED array readout which accurately indicates the temperature of the tip.

REPLACEMENT TIPS

Iron Plated Copper for: **No. S4240** Philmore Solder Station

No. 821

No. 827

No. 828 Knurled Nut Barrel Assembly

SOLDERING IRON for

Industry, Serious Experimenters and Serviceperson

Designed for safe, fast heating power up to 620° F at 30 watts. Heats up within 95 seconds. Ideal for printed circuit wiring, or where only thin tips are workable. Comfortable grip.

Well constructed, heavy-duty replaceable tip and element. Weighs only 4 oz.; 100-120 volts AC/DC; 10" long.

No. S530UL

No. S531UL - Replacement Tip

SOLDERING and TOOL KIT

This kit is ideal for the hobbyist.

Kit includes

UL Approved 30 watt soldering iron, one package of .062" solder, solder aid tool, 4-1/2" diagonal cutter and 4-1/2" needle nose pliers.

No. S540

TEMPERATURE COMPENSATING SOLDERING IRON

- Temperature Compensating Design
- Ceramic Heater
- Fast Soldering
- Extra Long Life
- High Performance
- 40 Watt 117V

No. S4140

The Temperature Compensating Design used on this iron controls damage to iron when left on for long periods of time. This well made soldering iron is designed for long life on the production line or in the engineering lab. The 40 watt rating guarantees being able to handle most soldering jobs. The iron is lightweight and compact for those delicate soldering applications. Handle has comfort grip for increased ease of use. Replacement tips for this iron are same tips as used on No. S4240 Solder Station.

117V AC
3 WIRE GROUND

This unique combination tool provides the user with soldering iron and solder removal tool for fast one hand operation. The vacuum pump is tightly sealed to provide thorough solder removal. Easy removal of vacuum pump for removal of solder. Also available are replacement tip and replacement "O" ring for solder pump.

No. S2157 - Solder/Desolder Tool

No. S2158R - Replacement Tip

No. S2159R - Replacement "O" Ring

SOLDERING AIDS

Reamer & Scraper Tip

Reamer and scraper tips for scraping joints or reaming out lug holes.

No. S969 - Plastic Handle 7" length

Brush & Forked Tip

Brush on one end, forked tip on the other is for twisting or holding wires.

No. S973 - Plastic Handle 7" length

Brush & Scraper Tip

Brush on one end for dusting away excess solder chips, and scraper tip for scraping joints.

No. S974 - Plastic Handle 7" length

Straight Reamer & Forked Tip

Made from stainless steel, solder will not stick to it. Forked tip on one end, straight reamer on the other.

No. S975 - Plastic Handle 7" length

Angle Reamer & Forked Tip

Heat treated tool steel prevents solder from sticking to tool. Forked tip for twisting or holding wires, angle reamer on the other.

No. S976 - Plastic Handle 7" length

Fyberiod "Fish Paper"

The insulating properties of this "Fish Paper" make it ideal for many uses. It is commonly used around the shop where electrical insulation is needed. It is tough, flexible, and combined with its edge-tearing resistance and high dielectric strength make it a great product for slot car insulation. It is also very absorbent of insulating varnishes.

Specifications:

Color: Blue Gray
 Thickness: .010" ± 10%
 Material: Vulcanized Cellulose Fiber
 Tensile Strength: 15,000 PSI Typical
 Insulating Properties: 300V/mil
 Tearing Strength: 375 grams
 Zn Cl Content = <.05%
 UL94 Flame Class: 94HB UL file #E55656
 Mil Spec # MIL-1-695A type F

No. 12-5600 10" x 26" rolled
No. 12-5602B 10" x 53" Flat

FiberGlass PrepPen®

The PrepPen® is a tool that has thousands of uses around the workbench and home. The PrepPen® will ready a spot on a PC board to receive solder, clean rust off your side cutters, remove oxidation from a bulb socket, clean corrosion off a battery connection, remove grit from a card edge contact finger, prepare a surface for solder or paint plus thousands of more uses too numerous to mention.

The 20,000 glass fibers in the PrepPen cartridge are finer than human hair yet stronger than steel when it comes to cleaning power.

PrepPen's ample sized body and finger grip makes it easy to hold for a comfortable, secure grip.

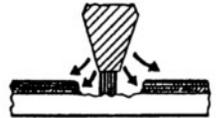

The cartridge can be extended as needed by turning and can be easily retracted when not in use.

Two long-lasting glass fiber cartridges come with every PrepPen, a refill is safely stored in the handle. Additional refills are available in a convenient package.

Clean and Sand Where Others Can't Reach!

Sand paper, being too rigid, only hits the high spots leaving the recesses untouched.

PrepPen is like a sand blaster in a pen point removing rust, wax and dirt from every corner, crevice and pocket.

The PrepPen® contains over 20,000 glass fibers that are thinner than human hair, but stronger than steel when it comes to cleaning and sanding strength. Further, the PrepPen's body is designed for comfortable, secure grip. Each pen comes with two cartridges, one installed and one in the handles storage compartment. The fibers retract into the handle when not in use.

The PrepPen® goes where other tools and sand paper can not reach. Use it like a pencil eraser, but it reacts like a sand blaster.

No. 12-437 - PrepPen® w/ 1 extra cartridge

No. 12-440 - Package of 2 PrepPen® refill cartridges

PrepPen® is a registered trademark of Pro Motor Car Products, Inc.

SOLDERING IRON HOLDER

This heavy duty solder iron stand features a die-cast base, and also a tip cleaning sponge and holder. The iron holder features bakelite iron tip insert. A must for every technician bench. Fits all Philmore Solder Irons.

No. S100

HELPING HAND DOUBLE CLIP HOLDER

The helping hand will hold components while you adjust or solder, and your hands are free. Dual crocodile clips are adjustable so that parts of various sizes can be held at nearly any angle. Indispensable for the service or lab bench.

No. S391

No. S393 - Helping Hand with Magnifier

EDSYN is a world-class manufacturer of soldering, desoldering and SMT (Surface Mount Technology) rework products and systems. Established in 1961, EDSYN invented the industry's first patented desoldering hand tool known as SOLDAPULLT™. This spring-loaded hand held vacuum device launched an industry revolution in soldering and desoldering technology. Today EDSYN's general product line includes a wide array of hand tools, stations, systems and accessories used in the assembly, rework, and repair of all types of electronic assemblies, particularly those that incorporate SMT (Surface Mount Technology). All of the EDSYN products are available through Philmore Manufacturing, some of which include, but are not limited to:

SOLDER STATION SMT TOOLS

DESOLDER STATIONS MULTI TASKING STATIONS

FUME EXTRACTION SYSTEMS GAS POWERED SOLDER TOOLS

LONER

Single & Dual Temperature Controlled Solder Station

EDSYN No. ED-951SX

-Better Tip Life-

This is EDSYN'S most popular station for both production and the service bench. User-controlled temperature ranging from 400° to 800° F., regulation of ±6° F. Solid state controls and designed to avoid ESD problems. Employs a ceramic PTC element for fast heat up. A variety of soldering tips is available. The unique iron holder design reduces tip oxidation, wear during non-use periods and significantly reduces the probability of user burns. This unit complies with MIL spec. 45743E, DOD-STD-2000-1B, WS-6536E AND ESD Spec DOD-STD-1686, DOD-HDBK-263. Operation from 110 Volts, 60 Hz, 15W to 22 Watts. Heater rated @ 120V, 95W. Supplied with No. LT375 tip.

Solder Station No. 951SX order number **ED-951SX**.
Replacement heater assembly for 951SX solder Station (not shown).
Part No. **ED-SR060**

Specifications for 951SX

Power Requirements	120V, 60Hz 205°C-427°C	Temperature Range	400° F-800° F
Power Rating.....	15W-220W	Temperature Regulation	±6° F/ ±3°C
Heater Rating.....	120V 95W	Tip-to-Ground Voltage Leakage/Resistance.....	< 2 mV/ <2 Ω
Dimensions.....	4.1" W x 8.2" H x 10" D 104mm x 208mm x 254mm	Weight.....	2.5 lbs / 1.1kg

LP200 SOLDVAC SMD pick-up tool.

The LP200 SOLDVAC Lifter is a fountain-pen size tool that can pick up small SMD components for moving and positioning them during either assembly or repair of circuit boards. Stops breakage that is common when using tweezers, contamination from fingers. Vacuum is formed with a simple squeeze and released just as easily. Three sizes of suction needle tips included. SOLDVAC Pick-up tool, display packaged. No. **ED-LP200**

EDSYN **SOLDAPULLT** Products.
Setting the Industry Standards for Solder Removal Tools.

SILVERSTAT SOLDAPULLT ESD-Safe, conductive plating, this unit designed for heavy duty solder removal, professional and production usage. Tip and O-ring are replaceable.

L=13" W= 3.5 oz.

Part No.ED-AS196 display packaged.

Deluxe SOLDAPULLT is the original design solder removal tool. For use in heavy-duty, high-volume applications and specifically professional and production usage. Tip and O-ring are replaceable.

L=13" W= 3.5 oz.

Part No.ED-DS017 display packaged.

Low-Static Deluxe SOLDAPULLT is the original design but molded of conductive, static-dissipative materials. For professional and production usage. Tip and O-ring are replaceable.

L=13" W= 3.5 oz.

Part No.ED-DS017LS display packaged.

PT109 SOLDAPULLT III

A smaller "petite" barrel and lighter weight for smaller hands. Weighs 2.5 oz (1/3 less than standard models).

Part No.ED-PT109 packaged for display.

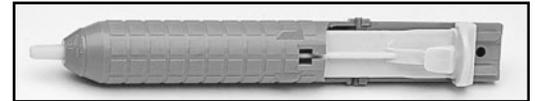

L=12" W= 2.5 oz.

The Universal SOLDAPULLT delivers a powerful vacuum pulse, cocks (or loads) one handed. The loading stroke is adjustable to reduce hand strain.

L=8" W= 2 oz.

Part No.ED-US140 packaged for display.

Low-static Universal SOLDAPULLT Model No. US3440

The above unit but molded of static conductive materials to bleed off static, prevent ESD when used by a person wearing a wrist strap or similar grounding device.

L=8" W= 2 oz.

Part No.ED-US340 packaged for display.

The Challenger Standard Metric Low-static SOLDAPULLT EDSYN Model No. SS350

A high-quality, low cost solder remover molded of static dissipative materials. Features an aluminum barrel for easy cleaning.

L=8.5" W= 1.5 oz.

Part No.ED-SS350 packaged for display.

Replacement Tip **Part. No.**ED-LS363

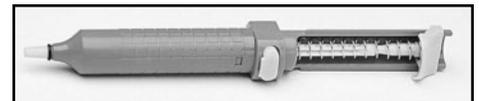

Standard Metric EDSYN Model SS750LS **SOLDAPULLT**

Another of the Challenger series of high quality, low cost units for desoldering basic electronics components. Suggested for the hobbyist and low volume users. Just 8.5" in length and weighs only 1 1/2 ounces.

L=8.5" W= 1.5 oz.

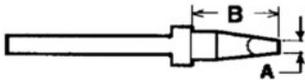

Part No.ED-SS750LS packaged for display.

Replacement Tip **Part. No.**ED-SRT751

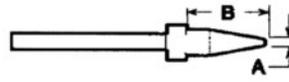

Solder Station Tips for Model 951SX and others.

A wide variety of longer tips makes your EDSYN solder station more versatile, more adaptable to changes as component shapes evolve. The LT375 tip is the standard, and included with the 951SX solder station. EDSYN soldering tips are machined from pure copper and then processed in a series of plating and tinning operations to create more reliable, longer lived tips.

Replacement Parts

Parts For 951SX Solder Station

Replacement heater assembly for 951SX Solder Station (not shown). Part No. **ED-SR060**
 Replacement Sponge for solder stations(not shown). Part No. **ED-RS199**

Replacement tip for SOLDAPULLT

Replacement tip for the DS017, PT109 and the US140

Replacement Tip..... Part No. **ED-SRT12**

Replacement Tip for the PT309

Replacement Tip.....Part No. **ED-LRT14**

Static-Safe Replacement tip for SOLDAPULLT

Replacement tip for the DS017LS, AS196 and the US340

Replacement Tip..... Part No. **ED-LS197**

Replacement "O" rings for SOLDAPULLT

Ring for model numbers AS196, DS017 and the US140, US340

Ring Part No. **ED-ODS31**.

Replacement ring for model numbers SS350, SS750LS etc...

Ring Part No. **ED-OS130**.

Replacement O-ring for PT109.....Part No. **ED-OSB32**

EDSYN O-Ring Lubricant OL111.

An occasional application of lube to the O-ring in solder removal tools will expand the life of the ring and maintain vigorous motion needed to "snap" the solder from PC boards.

O-Ring lube in 0.5 gm tube..... Part No. **ED-OL111**

QUALITEK SOLDERING PRODUCTS

QUALITEK WORLDWIDE

Established in 1980, Qualitek International is the fastest growing manufacturer of soldering materials for the Electronics assembly industry. Their rapid growth has been a result of their commitment to **QUALITY, QUICK SERVICE**, and state of the art **TECHNICAL SUPPORT**. Qualitek now has manufacturing facilities in **Illinois, Singapore, the Philippines, China, Mexico, and the United Kingdom**. Today Qualitek is a major supplier in the International manufacturing market and is currently ranked in the top THREE (3) suppliers. They manufacture solder paste, soldering chemicals, wire solder, and bar solder for the Electronics Industry using **all virgin materials**. LKG Industries is proud to be a Distributor of these Qualitek soldering products which we offer at substantial savings to the distributor and O.E.M. contract manufacturer. The following are the products that are currently available through your local Electronic Distributor.

Quality - Technology - Performance

Quality

- Qualitek is an ISO 9002 certified company
- All incoming raw materials are inspected
- Every manufacturing process is monitored
- Every item carries a lot # for tracking

Technology

- Qualitek has developed a superior solder powder technology that is virtually oxide-free.
- Qualitek solder paste manufacturing technology consistently delivers high quality solder paste.
- Qualitek not only meets or exceeds Industry standards, but excel in performance against competition.

Performance

- Qualitek's application laboratory is equipped with the latest SMT assembly & wave solder equipment.
- Qualitek's application laboratory can build prototypes to suit customer needs.

Electronic Lead-Free Solder

LF217 type

Environmentally safe solder. This solder is designed to replace the standard lead bearing type of solder for electronic connections. The reflow temperature is 217° - 219°C. The alloy is 95.5% Tin (Sn) / 4 % Silver (Ag) / .5% (Cu). This combination is the best for soldering electronic connections while retarding the dissolution of copper. It has excellent wetting and spreading properties. Philmore offers this solder with a No-Clean Flux

50-21750	1/2 LB Spool
50-21700	Dispenser Pack
21 Gauge (.032" DIA.)	.6 oz

Qualitek Rosin Core Wire Solder

Qualitek wire solder is made in the U.S.A. of virgin materials to maintain the highest and most consistent quality **Rosin Core (RA300) Solder**

The RA300 (Rosin Activated) cored solder is one of the most universally used types of solder wire used in the electronics and electrical markets today. It has rapid wetting and spreading properties and leaves little residue which usually needs NO cleaning. LKG Industries offers this solder in several gauges, several alloys, and both 1 LB and 1/2 LB spools

Part Number	Alloy Tin / Lead	Size Gauge	Dia. in.	Percent of Flux	Roll Size
50-30023	60/40	23	.025	3.3	1 LB
50-30523	60/40	23	.025	3.3	1/2 LB
50-30021	60/40	21	.032	3.3	1 LB
50-30521	60/40	21	.032	3.3	1/2 LB
50-30018	60/40	18	.050	3.3	1 LB
50-30518	60/40	18	.050	3.3	1/2 LB
50-30016	60/40	16	.062	3.3	1 LB
50-30516	60/40	16	.062	3.3	1/2 LB
50-33021	63/37	21	.032	3.3	1 LB
50-33521	63/37	21	.032	3.3	1/2 LB
50-33016	63/37	16	.062	3.3	1 LB
50-33516	63/37	16	.062	3.3	1/2 LB

QUALITEK SOLDERING PRODUCTS

Qualitek No-Clean Rosin Core Wire Solder

Qualitek wire solder is made in the U.S.A. of virgin materials to maintain the highest and most consistent quality

No-Clean (NC601) Rosin Activated Solder

This special no-clean flux volatilizes (vaporizes) at soldering leaving minimal clear residue which may be removed with HOT water if desired.

Part Number	Alloy Tin / Lead	Size Gauge	Dia. in.	Percent of Flux	Roll Size
50-60021	60/40	21	.032	1.1	1 LB
50-60521	60/40	21	.032	1.1	1/2 LB
50-63021	63/37	21	.032	1.1	1 LB
50-63521	63/37	21	.032	1.1	1/2 LB
50-63018	63/37	18	.050	1.1	1 LB
50-63518	63/37	18	.050	1.1	1/2 LB
50-63016	63/37	16	.062	1.1	1 LB
50-63516	63/37	16	.062	1.1	1/2 LB

Qualitek Silver Solder

These solders are specially formulated to be used with gold and silver plated contacts to prevent the leaching of precious metals which is easily dissolved into tin. Leaching is the tendency for tin/ lead-bearing solder to dissolve metallizations during reflow operations. The rate at which silver leaches into molten tin/ lead solder alloy is retarded by using solder alloys which contain a small amount of silver. These solders contain 2% silver in the alloy.

Part Number	Alloy Tin/Lead/Silver	Size Gauge	Dia. in.	Roll size	Flux
50-32021	62/36/2	21	.032	1 LB	RA300
50-32521	62/36/2	21	.032	1/2 LB	RA300
50-62021	62/36/2	21	.032	1 LB	NC601
50-62521	62/36/2	21	.032	1/2 LB	NC601

RA300= Rosin Activated core, NC601 = No-Clean core

Qualitek Lead-Free Solder

Environmentally safe solder. This solder is designed to replace the standard lead bearing type of solder for plumbing applications. The reflow temperature is 221° - 230°C. The alloy is 96.5% Tin (Sn) / 3.5 % Silver (Ag). This combination is the best for soldering plumbing or similar connections where excess heat will not destroy components. It has excellent wetting and spreading properties.

50-95505 1/2 LB Spool
50-95500 Dispenser Pack
16 Gauge (.062" DIA.) .9 oz

Dispenser Packs of Wire Solder

These products are a convenient size to carry in your tool box or keep in the rework bench. They are available in several alloys and types of products.

Part Number	Alloy Tin/Lead/Silver	Dia. in.	Roll size	Carton Quantity	Flux Type
50-3000	60/40	.032	.6 oz	50	RA300
50-6000	60/40	.032	.7 oz	50	NC601
50-6200	63/36/2	.032	.7 oz	50	NC601

RA300= Rosin Activated core, NC601 = No-Clean core

50-6322 Bar solder 2.2 LB / bar

50-6301 Q - Bar Chips
1 oz chip (size 1" x .5") for small solder pot.
1/2 lb Package Blister Card Display

Qualitek Bar Solder

Qualitek "Q-Bar" solder is made of the finest virgin metals. The quality standards for ALL Q-Bar products exceed the J-STD-006, ASTM B-32 and QQ-S-571 standards. They are available in 1 Kilogram (2.20 pound) bars and are sold in ten (10) bar packages which weighs 22 LB.

Qualitek Lead Free Supplier

Qualitek understands that implementation of Lead-Free processes can be complex and is prepared to help customers overcome the unique challenges that may arise. Qualitek offers an advanced solution for Lead-Free applications, which include No-Clean and Water-Soluble cored wire, liquid fluxes, and paste.

Lead Free Solder Composition

Several Lead-Free solders have been specified as alternatives for sn/pb alloys used in electronics assembly operations. Qualitek manufactures these alloys to exceed the impurity requirements of J-STD-006 and all other relevant international standards.

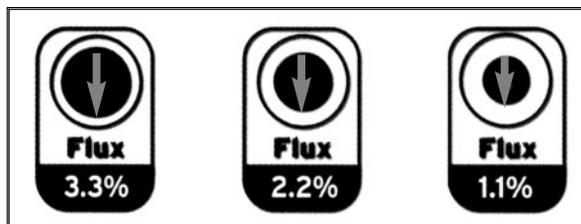

Lead Free Cored Solder Wire

Qualitek has developed a unique flux system designed specifically for high temperature Lead-Free alloys. It provides the fluxing activity levels that promote fast wetting action and maximum wetting spread.

Rosin Core (RA300) Lead Free Wire Solder

Qualitek RA300 is an activated rosin cored solder wire developed for general hand soldering applications. Utilizing refined resin and a very effective activator, RA300 performs extremely well on hard to solder parts and surfaces in conjunction with high temperature lead free solder.

Qualitek RA300 is suitable for use in any commercial hand soldering application that specifies compliance to J-STD-004 ROM1. It is suited to such areas of industry as TV, Audio equipment, Video / DVD, toys and games and all types of household appliances.

SN100^e

Lead Free Alternative

Purity Improves Process

Qualitek's lead free solder SN100^e has been developed as a lead free alternative for those now using costly SAC alloys and for those switching from lead containing Sn63/Pb37 alloys to the lead free process.

SN100^e is manufactured from tin, copper, and cobalt to create solder so pure it far exceeds the most common specification requirements. SN100^e lead-free solder alloy is RoHS compliant and reduces copper dissolution.

This alloy provides brighter, shinier, less grainy solder joints when compared to SAC305 alloy and is much less expensive.

Qualitek's manufacturing process assures batch-to-batch consistency for predictable solder performance.

Mixing Lead Free Alloys

SN100^e is compatible with all SAC and Sn/Cu alloys. SN100^e performs with ENIG, immersion tin, immersion silver, OSP, and hot air leveled board finishes. SN100^e provides ability to standardize on one lead-free alloy for all soldering processes.

Benefit of SN100^e vs SN100C

When nickel gets below .035%, the nickel no longer functions and product performance is negatively affected. The joints become dull in appearance.

Benefit of SN100^e vs SN100C

The Nickel comes out of solution at a much faster rate than cobalt resulting in a duller solder joint.

Since nickel comes out of solution at a much faster rate than cobalt, SN100^e offers greater product throughput.

SN100^e grow smaller, tighter joint crystals compared to other lead free alloys.

Competitors brands contain Nickel and Nickel works by restricting the growth of the Sn/Cu crystals. SN100^e is more uniformly homogenous compared to SAC or Sn/Cu/Ni alloys. Nickel part of the alloy composition of SN100C goes into the boundary of the crystals and is rapidly consumed. The nickel depletes from the alloy. More nickel is used, so a replenishment alloy is needed. SN100^e offers more benefits and better product performance than any other lead free alloy and it is less expensive in comparison to most.

Physical Property And Alloy Comparison

Alloy	Composition	Melting Point °C	Density	Tensile Strength, MPa	Co-efficient Of Thermal Expansion	Electrical Resistivity, (μohm - m)	Thermal Conductivity (J/-m-s-K)
Sn100 ^e	Sn99.5/Cu0.5/Co	228	7.4	28	Pure Sn = 23.5	0.123	82
Sn100C	Sn/Cu/Ni	227	7.4	32	Pure Sn = 23.5	0.13	64
SAC305	Sn96.5/Ag3.0/Cu0.5	217-221	7.39	52	Pure Sn = 23.5	0.15	64
Sn63/Pb37	Sn63/Pb37 Common Lead Alloy	183E	8.42	44	24.7	0.12	58

Rosin Core (RA300) Lead Free Wire Solder

Qualitek RA300 is an activated rosin cored solder wire developed for general hand soldering applications. Utilizing refined resin and a very effective activator, RA300 performs extremely well on hard to solder parts and surfaces in conjunction with high temperature lead free solder.

Qualitek RA300 is suitable for use in any commercial hand soldering application that specifies compliance to J-STD-004 ROM1. It is suited to such areas of industry as TV, Audio equipment, Video / DVD, toys and games and all types of household appliances.

Part No.	Alloy Tin / Copper / Cobalt	Size Gauge	Dia Inches	% of Flux	Roll Size

QUALITEK SOLDERING PRODUCTS

Qualitek Liquid Fluxes

Liquid Fluxes are formulated for general and specific applications. Qualitek offers a large variety of fluxes for the production industry. There are rosin based fluxes, Alcohol Based fluxes, and Water Soluble Fluxes as well. Liquid fluxes can be applied by brush, automation or spray depending upon the requirements. Philmore is offering two of the most popular types in several put ups.

RMA Flux

Rosin Based
50-28532 32oz
50-28501 1 Gal

Rosin Based Flux Mildly Activated, clean with solvent

No- Clean Flux

No-Clean
50-30232 32oz
50-30201 1 Gal

For Lead Free
 Soldering
50-90232 32oz
 (NC381)

No Rosin, Low Solids, needs NO Cleaning, Good wetting

Water-Soluble Flux

Water Soluble
50-73732 32oz
50-73701 1 Gal

For Lead Free
 Soldering
50-93732 32oz
 (WS775)

Highly Active, MUST CLEAN RESIDUE, Distilled Water

Qualitek Super DEOX

This product is specially formulated to convert the oxides of solder (known as dross) that form on solder in solder pots into good solder. Use of **Super Deox** can reclaim over 80% of dross into usable solder. This substantially reduces solder cost.

50-6304 Super Deox 4 oz. jar

Qualitek Paste Flux

Fluxes are intended to be used to reduce solder balling, and bridging. The proper flux allows for proper solder flow and increased wetting of desired areas. Qualitek offers several different types of fluxes including Water Soluble Fluxes, and Rosin Fluxes to name only a few.

50-4002 2 oz container

Qualitek Rework-Wands

The Qualitek rework-wand is a unique tool for rework and touch-up soldering. It allows a controlled application of flux, eliminating the mess from flux bottles. Rework wands are ideally suited for SMT rework, TAB assembly operations, and component applications. There are three formulas available, R.M.A. (rosin mildly active), Water-soluble, No-clean.

Part Number	Description	Carton QTY
50-30233	#302 Low Solids No-Clean	20
50-73733	#737N Neutral PH Water Soluble	20

Delta Tip Tinner by Qualitek

This flux is designed to tin soldering Iron tips. This makes the tips last longer and conduct a more even heat. Philmore offers this in the most popular alloy in a convenient container with mounting tape.

50-63371 1 oz tin 63/37 alloy

LKG Acid & Cleaning Brushes

These brushes have a thousand uses. You may use them for applying flux, remove foreign material from the surface, or to clean parts.

50-5405 5 Pack
50-5400 Bulk Pack

AEROSOL & CLEANER

10 oz. DUSTER AEROSOL Non-Flammable

A high-pressure "air-blast" that will remove dust, lint that is too fine too difficult to simply brush or wipe away from tight places. Non-static and non-residue. Intended for use in office equipment/electronics, test equipment etc. Ten ounce can with extension tube; non-flammable and static-free.

Philmore Part no. 50-8711 ten ounce aerosol Duster

10 oz. FREEZE-SPRAY AEROSOL Non-Flammable

Freeze Spray was developed to cool electronics components, one at a time, to aid in locating intermittent parts that fail when a circuit "warms up"; a quick blast helps find the failing part. The minus 60 degree F spray may also be used to shrink metal parts for press fittings, etc. Sometimes used to cool a component while leads are soldered. A non-flammable, static free aerosol with handy extension tube.

Philmore Part no. 50-8715 ten ounce aerosol Freeze Spray.

14 oz. SuperWASH AEROSOL Non-Residue

SuperWASH is a water-free, liquid bath-blast for degreasing and de-gunking. It is suitable for everything from clockworks and motors to old TV tuners; any mechanics that will benefit from a fast blast of liquid cleaner. Fast evaporating, leaves no residue. Dissolves most oils and grease accumulations. Use on relay contacts, rheostats and potentiometers or degrease an entire PC board. Product is FLAMMABLE so do not spray into operating equipment, running motors, etc. Completely removes oils; be sure to re-lubricate bearings and contacts after use.

Philmore Part no. 50-8720 fourteen ounce aerosol SuperWash Spray.

EXTRA-POWER FLUX CLEAN 11 oz. Aerosol super cleaner

Well above average flux cleaning including fluxes from lead-free solders, no-clean fluxes, etc.; cleans all of them from PC board and leaves no residue of its own. Leaving solder fluxes on PC board can have long-term detrimental effects; always wash them away. This product is safe on most plastics and may also be used in a pinch as a general purpose cleaner/degreaser. FLAMMABLE, never spray near sparks, flame or on a live circuit board.

Philmore Part no. 50-8725 eleven ounce Aerosol Power Flux Cleaner

LCD and PLASMA SCREEN CLEANER

A non-flammable cleaner for the TV and Computer Monitor Screens. The cleaner is safe on non-glare screens and provides streak-free cleaning. Use with a lint-free cloth and never use ordinary window cleaners on your modern video screens. For safety sake, turn power off and be careful not to spray toward face and eyes. Non-aerosol, 6 oz. pump spray.

Philmore no. 50-8730 LCD and PLASMA SCREEN CLEANER

ULTRA-CHEM Isopropyl Alcohol

This is a great General Purpose cleaner which is safe on plastics. It can be used on Audio / Video Tape Heads, PC Boards, Connectors, Fiber Optics Devices, and contacts. LKG Industries offers this product in several forms for your convenience.

Specifications:

FLAMMABLE
Non Ozone Depleting
Safe on Plastics
Zero Residue
Non-Corrosive
Anhydrous Alcohol (contains no water)
Contains: Isopropanol (67-63-0)
VOCs (Volatile Organic Compounds) 787g /L

No. 50-1302 2oz Squeeze Bottle

No. 50-1316 16oz Pint Bottle

ULTRA-CHEM Glass Cleaner

This cleaner removes dirt, oil, fingerprints, nicotine, carbon, ink marks and other such soils from work areas and equipment. It is great for cleaning Monitors, Keyboards, Fax Machines, Photocopying Machines, Bar code readers, and is SAFE ON MOST PLASTICS.

Specifications:

Non-Flammable
Non-Ozone Depleting
Foaming Action
Non-Streaking
Safe on Most Plastics
VOCs: 99g/ L
Contains: Water, Isopropanol,
Butane, Propane

No. 50-9082 18oz Aerosol

ULTRA-CHEM Swabs

No. 50-150

No. 50-288

Chamois 3/8" X 4 1/2" (25 pk)

LOCTITE® GLUES & ADHESIVES

DURO Quick Gel Super Glue

No run Quick Gel Super Glue. Works on wood, metal, rubber, plastics, vinyl, fabrics, and other such materials. The Gel works best on porous and vertical surfaces with small gaps. Bonds in 15 - 30 seconds.

LT- 81954 (2) .07 oz Tubes

DURO SUPER GLUE

America's favorite traditional super glue. Super strong, bonds in seconds. It is permanent & clear. Bonds in 15 - 30 seconds.

LT-81742 (2) .07 oz Tubes

LOCTITE® THREADLOCKER

These products lock and seal threaded parts against vibration loosening, corrosion, and rust lock. They may also be used as an anti-tamper indicator. They are available in several grades and put ups.

**Removable
Medium grade (Blue) # 242**

LT-24200 .20 oz tube

LOCTITE QUICKTITE® SUPER GLUE

This super glue has proven superior performance over ordinary super glues. This works faster and holds stronger than others thanks to a patented additive.

LT-21309
Super Glue Liquid
.18 oz (5g) Bottle

LT-26441
Brush-on Liquid
.18 oz (5g) Bottle

LT-30379
Super Glue Gel
.14 oz (4g)

LT-30622
Super Glue Liquid
.14 oz (4g)

LT-82192
Super Glue Pen
.07 oz (2g) tube

LT-82196
Super Glue Gel
.07 oz (2g) tube

LOCTITE® THREADLOCKER

These products lock and seal threaded parts against vibration loosening, corrosion, and rust lock. They may also be used as an anti-tamper indicator. They are available in several grades and put ups.

**HIGH STRENGTH
(RED) #271**

LT-27100
.20 fl oz (6ml)

LOCTITE® QUICK SET EPOXY

Super high strength, waterproof, sets in 5 minutes, and is solvent resistant. Bonds to wood, metal, ceramic, glass, plastic & tile.

LT-81501
1 oz Syringe

LOCTITE® SUPERFLEX RTV SEALER

These general purpose RTV sealants are usable indoor and out. They seal, bond and secure on metal, glass, rubber, and vinyl. They cure at room temperature, and are safe on ELECTRICAL wiring.

LT-30807

BLUE 3 fl oz (80 ml) tube

LT-30808

CLEAR 3 fl oz (80 ml) tube

LOCTITE® HANDYMANS CHOICE

This all purpose Non-Toxic adhesive sealant is strong, dries clear, water resistant, microwave safe and odor free. Use this product to mend brick, glassware, loose tiles & shoe soles.

LT-25827

2 fl oz (9ml)

LOCTITE® SPRAY SILICONE

This all purpose lubricant is great for many household uses. It will not stain or discolor. It provides an environmentally safe lubricant for locks, hinges, garage door openers, and many other uses.

LT-30809

10.25 oz

LOCTITE® PLASTIX BONDER

This advanced plastic repair kit repairs any plastic---GUARANTEED NO mixing required, just brush the surface with the activator and apply the fast-acting bonding agent. Formulated for vinyl, plexiglass, phenolics, PVC, styrenes, acrylic, ABS & others.

LT-82565

.10 oz Activator
.07 oz Bonder

LOCTITE® GLASS GLUE

This product works well on all glass. It bonds instantly and is dishwasher safe.

LT-29175

.07 fl oz (2g) tube

LOCTITE® MIRROR ADHESIVE KIT

Use this two (2) part kit to attach mirrors to glass, plastic, or metal. Great for attaching mirrors to windshields.

LT-30814

.01 oz Adhesive
.02 oz Primer

LOCTITE® STICK' N SEAL

This waterproof all purpose adhesive bonds all surfaces subjected to water & moisture. Seals leaks, repairs tears, and secures tile. Great on brick, aluminum, fiberglass, pool liners, and rain slickers.

LT-23782

1 fl oz (30ml)

LOCTITE® TAPES

667 Pro Series Vinyl Electrical Tape

This is a complete line of professional grade Electrical Tape. It is designed for performance and value. Manco's professional grade 667 series electrical tapes are UL and CSA approved. They are available in eight (8) colors designed for electrical coding and splicing applications. These tapes have excellent stretch, adhesion and conformability and perform well in both indoor and outdoor applications.

Part #
LT-04140 Green
LT-04141 White
LT-04142 Yellow
LT-04143 Red
LT-04144 Blue
LT-04145 Orange
LT-04147 Gray
LT-04149 Black

Features:
 UL and CSA Listed
 Flame-Retardant
 7 mil Vinyl
 Weather-Resistant
 Up to 600 V rating
 Temperature Range
 -18° C to 105° C
 0° F to 221° F
 Resists Abrasion, Moisture
 Solvents, & UV Rays
 Convenient 3/4" X 66' Size

Economy Vinyl Electrical Tape

This electrical tape is designed to compete with the imports, however, the stretch, adhesion and weather-resistant qualities are far superior. They are packaged in a sleeve of ten (10) rolls and 250 rolls to a master carton.

No. **LT-1219-60** 3/4" X 60'

Double-Sided Mounting Tape

These Manco products are designed for semi-permanent and removable applications. These products are available in several put-ups.

No. **LT-01528** 3/4" X 10' Removable
 No. **LT-HU-1** 1" X 60" Roll
 No. **LT-HU15-6** 3/4" X 15' Roll

Assorted Vinyl Electrical Tape

These assortments are convenient sizes for color coding electrical connections. They are available in two different put-ups.

No. **LT-5CP**
 5 colors (Red, Blue, Green, White, & Yellow)
 3/4" X 12' ea

No. **LT-07205**
 5 colors: Blue, Red, Green, Orange & White.
 1/2" X 20' ea

X-Treme Duck Tape

It is not the same OLD DUCK TAPE anymore. These radically COOL colors are "hot". They are every bit as tough as traditional Duck Tape.

1.88" X 3yd Flat
 No. **LT-02970** Gray

200 mph Reflective Auto Tape

This special tape was first discovered by race car drivers who used it on their vehicles and the tape would adhere to the cars at speeds up to 200mph. It is reflective and is great on mailboxes, bikes, Autos, tree stakes and emergency kits. There are over 1001 uses.

Features:
 Self Adhesive
 Indoor or Outdoor Use
 Use at temperatures above 40° F

No. **LT-07891** 1.5" X 30" RED Roll
 (REPLACES LT-RF-1)
 No. **LT-07892** 1.5" X 30" WHITE Roll
 (REPLACES LT-RF-2)

DUCK Tape

Just because it looks like Duck tape, feels like Duck tape and tears like duct tape does not mean they all are the same. There are as many types of DUCK tape as there are ducks. Manco manufactures several grades depending on usage.

Utility Grade
 No. **LT-DX-660** 1.88" X 55yd Roll

All-Purpose Grade
 No. **LT-B100** 1.88" X 10yd Roll
 No. **LT-B200** 1.88" X 20yd Roll
 No. **LT-B615** 1.88" X 60yd Roll

Adhesive Remover

The only complete solution for adhesive and stick residue removal. This product has a pleasant citrus scent and a built-in scraper top.

No. **LT-01560** 5.45 fl.oz

Features:
 Safe on all types of surfaces
 Sponge Applicator for easy application
 Convenient built-in Scraper Tool
 Removes all types of adhesive residue
 Duct Tape
 Masking Tape
 Carpet Tape
 Labels
 Tar
 Gum
 Caulk
 Easy to handle bottle

DUCT TAPE & ELECTRICAL TAPE

tyco Duct Tape

This **Polyken 203** Duct tape is an indispensable tool of the trade. We offer many colors for multipurpose use. With these colors to choose from it is easier than ever to pick the correct color for color coding, decoration, seat repair, carpet seaming, electrical protection, and caution. Professionals choose the best, **tyco** brand.

meets UL 723

Part Number	Color
12-2000	Black
12-2002	Red

12-2005	Green
12-2006	Blue
12-2009	White

2" x 60YD Roll

tyco / Adhesives Gaffer's Tape

The leading roll on the set

This tape is used by professionals on stages, sets, and on location. This versatile low gloss tape has become indispensable for the arts and entertainment industry. Users appreciate the aesthetics of the matte finish, low residue, and easy tear. Some applications include wire hold down, stack blocking and spiking, audio-electric overhead lighting, set and stage decoration, film canister sealing, carpet hold-down, splicing, bookbinding, seat repair, graphics and design, and waterproof packaging. We offer the tape in several of the most popular colors. **Meets Packard Electric 525-000 Specifications**

Part Number	Color
12-5100	Black

2" X 60YD Roll

tyco Electrical Tape

This high grade electrical tape is made by Tyco Adhesives, and through an exclusive agreement we are able to offer this quality tape at substantial savings over other nationally known brands of tape. The tape is made in the U.S.A. and we offer it in several popular colors.

Part Number	Color
12-8210	Black
12-8212	Red

No. PT2B -bulk packaged

TECHNICIAN AIDS

FLUORESCENT MAGNIFYING WORK LAMP

- UL/CSA Approved
- Steel Balanced 45" Extension Arm
- Adjustment Spring Tension Knobs at all joints
- 3 Conductor AC cord 120V AC / 60 Hz
- Precise 3 Diopter Lens
- Supplied with 22W Fluorescent Circular Tube
- Durable Baked Enamel Finish (White)
- Extra Strength Steel and Die Cast Base and Clamp
- Packaged in Four Color Box

No. SL114

This fine, precision product is excellent for inspection of printed circuit boards and inspection of any fine detail work. A must for the technician, the laboratory and the production line. Will clamp to any drafting board or work surface up to 2-1/4" thickness.

PLASTIC RESTORER REFINISHING KIT

These products will work on Plexiglass®, Lexan®, Lucite®, UVEX® and Acrylite®. Polish #1 will clear up most surface blemishes on meter faces, etc. Polish #2 is for the truly bad situations; it actually removes damage instead of filling it. These polishes are free of any offensive odors and there is no toxic risk. The kit comes complete with handy polishing cloth. It's great for instrument faces, plexiglass windows, convertible rear windows, computer screens, copiers, safety goggles and motorcycle windows.

- No. 10300** - Kit
- No. 10301** - Polish #1
- No. 10302** - Polish #2

I.C. EXTRACTION TOOL

Economical spring steel tool, one-piece construction, insulated, will work on all I.C. devices from 8 pin to 24 pin.

No. 10230

PLCC EXTRACTION TOOL

A tool for removing square I.C.'s such as CPU's, from their sockets without damage. Grips PLCC's by opposite corners; makes removal fast and very easy. Safe for the I.C.

No. 10270

Economy SOLDER WICK

Supplied on 5 ft. spool in .08" (2.0mm) width. Extremely high absorption capacity.

No. HSW15

HOOK-ON Test Prods Completely INSULATED

The injector-type prods that firmly clip onto large or small components for testing purposes. OBJECT: Meter reading for any required length of time while hands are free for other work.

- No. 450** - Our most popular standard size, 2-1/4" long.
Set of two: BLACK and RED
- No. 450B BLK** - bulk, black
- No. 450B BLU** - bulk, blue

MULTITESTERS / CIRCUIT TESTERS

DIGITAL MULTI-TESTER

No. 903-150N

Specifications:

DISPLAY	3 1/2 digit LCD .5" height, with polarity.
OVERRANGE INDICATION	3 least significant digits blanked
MAXIMUM COMMON MODE VOLTAGE	500V peak.
OPERATING ENVIRONMENT	0 to 50 C, less than 80% relative humidity up to 35° C, less than 70% relative humidity from 35° C to 50° C.
STORAGE ENVIRONMENT	-15° C to 50° C
TEMPERATURE COEFFICIENT	(0 to 18 C, 28 to 50), less than 0.1x applicable accuracy specification per C.
POWER	9V alkaline or carbon-zinc battery (NEDA 1604)
BATTERY LIFE	100 hours typical with carbon-zinc cells, 200 hours with alkaline cells.
DIMENSIONS	126mm long x 70mm wide x 24mm thick. (4.96"x2.76"x0.94") Net weight 170g (6 oz)

HIGHER PERFORMANCE POCKET MULTITESTER

No. UM22

SPECIFICATIONS: 2000 OHMS--VOM

Sensitivity: 2000 ohms/volt
 DC Volt Ranges: 2.5-10-50-500-100
 DC Current Ranges: 0.5-10-250ma.
 AC Volt Ranges: 10-50-500-1000
 Resistances Ranges: 5K-50K-500K
 Accuracy: 3%DC, 4%AC

Slip Grip Test Leads, Battery and Instructions are included

HI-VOLTAGE TESTING SCREWDRIVER

No. P5120

For testing 80-250 Volts AC or DC. This handy combination screwdriver/tester is used for testing ground lines, open or shorted circuits.

TEST LIGHT

No. P5100

For testing 80-500 Volts AC or DC. The 5" insulated leads with finger guard insulated tips make testing electrical circuits safe and easy. Red neon bulb glows with increasing intensity with increased voltage.

6 to 12 VOLT CIRCUIT TESTER with HEAVY DUTY PROBE

No. P5128

For testing all 6V and 12V systems: Auto, RV, Marine, Aircraft etc.. Quickly finds short, grounds and open circuit.

TEST LEADS

Plastic test prod handles, 4" long, 3/8" diameter, with prods 1" long. Red and Black. Equipped with 48" kinkless plastic-covered leads .135" O.D. Available with either insulated banana plugs or phone tips at other end, to fit standard American jacks.

No. 466

Phone Tips

No. 467

Banana Plugs

DELUXE UNIVERSAL SOLDERLESS TEST LEAD SET

Two 42" flexible, vinyl-covered test leads, heavily insulated to prevent high voltage breakdown and cut-through. 80 -strand copper conductors eliminate wire fatigue and assure long life. Equipped with adaptor accessories most often used by servicemen, this kit can perform virtually every test requirement. Each lead is attached to a 4-3/4" probe (1-red, 1-black). Banana plugs on each end have nickel-plated phosphor bronze springs to maintain rigid contact through many thousands of insertions. **Heavy plated BRASS Adaptors-Color-coded Spade Lugs**-large enough for lab. instruments (up to 1/4" dia. center post). **Test prod phone tips**(0.180" dia.) **Strong spring action alligator clips**. **NP phone tips**-not insulated. Each insulated adaptor completely covers banana plugs to eliminate accidental contact, avoiding shorts.

No. SA15

TEST ACCESSORIES

JUMPER CABLE SETS 10-piece sets

Color coded lead wires with insulated alligator clips on each end. Each set includes ten leads, two each of five different colors. Indispensable for testing service, during circuit design etc.. We suggest the Tech's set to professional users, or the **No. SA44** below.

Colors: Black, Green, Red,
White and Yellow

- No. SA10** - Economy set, standard (3 strand wire) 14" long
- No. SA22** - Tech's Jumper Cable Set, (12 strand wire), 22" long

IC TEST LEAD SET

- No. 500**
5 color-coded, 16" test leads with miniature hook-on prods at both ends. A must for technicians and experimenters who want temporary interconnects without danger of shorting.
Colors: Red, Black, Yellow, Green, White

HEAVY DUTY JUMPER CABLE SETS

For serious user in the lab or test bench, sets include five tough Jumper Cable, of five different colors, with insulated alligator clips one each end. 20 strand wire and flexible insulation is used for long life.

Colors: Black, Green, Red, White and Yellow

- No. SA44** - Set of five, 22" long leads
- No. SA45** - Set of five, 36" long leads

Test Lead Wire

Perfect for making test leads. This is same quality wire as used on Philmore Nos. 466 and 467 Test Leads. Wire is 18 Gauge tinned and stranded. O.D. of cable is .135". Lead wire is very flexible and guarantees no kinked leads. Available in RED and BLACK.

- No. 472** - 25 ft., black
- No. 476** - 25 ft., red
- No. 474** - 100 ft., black
- No. 478** - 100 ft., red

TEST LEADS

Plastic test prod handles, 4" long, 3/8" diameter, with prods 1" long. Red and Black. Equipped with 48" kinkless plastic-covered leads .135" O.D. Available with either insulated banana plugs or phone tips at other end, to fit standard American jacks.

No. 466
Phone Tips

No. 467
Banana Plugs

ALL-PURPOSE TEST LEAD SET

No. 470

The most useful test leads yet devised. Use them in the conventional manner or adapt them to individual requirements.

- Tiny, sturdy, push-to-clip prods can be firmly attached to hard-to-reach components in chassis-whether large or small terminals. Clip-onto-component feature enables you to test parts for long periods without actually handling the test leads. Hands are free for other work.
- Each prod is connected with solderless, kinkless wire terminating in an insulated banana plug.
- A removable, nickel-plated phone tip (supplied) fits over the banana plug allowing the individual the option of using meters with either banana or phone tip jacks.
- Overall lead length is 36 inches.
- Two unbreakable high dielectric strength prods, black and red

DELUXE UNIVERSAL SOLDERLESS TEST LEAD SET

No. SA15

Two 42" flexible, vinyl-covered test leads, heavily insulated to prevent high voltage breakdown and cut-through. 80 -strand copper conductors eliminate wire fatigue and assure long life.

Equipped with adaptor accessories most often used by servicemen, this kit can perform virtually every test requirement. Each lead is attached to a 4-3/4" probe (1-red, 1-black). Banana plugs on each end have nickel-plated phosphor bronze springs to maintain rigid contact through many thousands of insertions.

Heavy plated BRASS Adaptors-Color-coded Spade Lugs*-large enough for lab. instruments (up to 1/4" dia. center post).

Test prod phone tips(0.180" dia.)

Strong spring action alligator clips.

NP phone tips.-not insulated.

Each insulated adaptor completely covers banana plugs to eliminate accidental contact, avoiding shorts.

TEST ACCESSORIES

4mm Stackable Jumper Leads

These high quality super-flexible jumper leads are made of the finest materials. The plugs are made of Nickel-Plated brass cage springs. They are available in three lengths and colors for use in Labs, by technicians, and do-it yourselfers.

Part Number	Color	Length
28-5110-25	Black	25cm

Shrouded 4mm Test Lead Set

This pair of test leads is made for use with multimeters, and other test equipment requiring 4mm safety plugs. We offer 2 styles; a 180° style with retractable shroud, or a 90° style with a fixed shroud on one end and a rigid probe on the other end. The probe end has heavy duty cage spring tips and includes crocodile adaptor clips.

Specifications
 Material: Nickel-Plated Brass
 Handles: PVC
 Rating: 1000V, 10A
 Compatible w/ IEC1010
 Length: 1M (39.6")
 1 Red + 1 Black/ package
 Red & Black Crocodile Clip
 Cage spring tip on probe

- No. **28-5621** 90° w/ fixed shrouds
- No. **28-5623** 180° w/ retractable shrouds

TERMINAL BLOCKS & KNOBS

TERMINAL BLOCKS

A terminal block designed to be end-stackable on a PC board so that the designer may have any number of contacts needed. The design provides secure wire protection for a broad range of wire sizes (up to 14 ga. max). The housing is molded of 94V-0 fire retardent plastic. Six pieces per package; available in bulk, add "B" suffix to part number. (i.e. TB132B for Bulk)

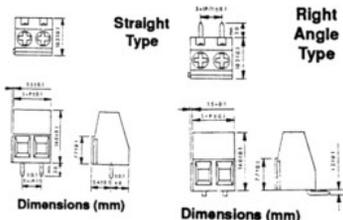

SPECIFICATIONS

Housing: Polymide 66 resin, blue
 Terminals: 0.9 x 0.9 Brass, tin plated
 Screws: M2.6 x 0.45P, steel, zinc plated
 Wire cage: Brass, Nickle plated

Rated: 10 Amp. 300 VAC
 Temperature rating: -55°C to + 125°C
 Wire range: 14 AWG max.

Dielectric Strength: 2000 VAC min.
 for 1 minute
 Insulation Resistance: 500 M ohm min.
 at 500 VDC

Pitch: 5 mm
 Number of pole: 2, 3

Precision Tuning

VERNIER DIAL CONTROL KNOBS

A vernier dial control knob will provide smooth and precise tuning for either a potentiometer or variable capacitor. Planetary drive provides 8 to 1 ratio, allowing for very fine adjustment of standard controls. The metal dial plate is calibrated by etching and paint filling on brushed satin finish for a very attractive appearance. Knob is calibrated over 180 degrees of turn, reading from zero to maximum setting by clockwise rotation. Fits standard 1/4" control shafts and mounts on surface of cabinet or chassis. Very useful with any circuit where fine "tuning" is going to make life easier.

BANANA PLUGS & JACKS

5 WAY BINDING POST

No. 2352 - black
No. 2354 - red

DUAL BINDING POST

Five way binding posts on standard 3/4" spacing to mate with dual banana plugs. Posts accept bare wire, spade lug, tip jack or banana plugs. Both posts are electrically isolated from panel.

No. 2370 - both posts black
No. 2372 - both posts red
No. 2374 - (1) each red and black

DUAL BANANA PLUG

Set screws secure leads of cable or component. Cable guide on rear; stackable. Standard .75" center to center spacing.

No. 2360 - black
No. 2362 - red

BNC MALE to DUAL BANANA PLUG ADAPTOR

Standard .75" center to center spacing. .161" holes in body for side stacking

No. 2380

INSULATED BANANA PLUG

Molded bakelite handle, 1" long, and brass nickel plated spring-type plug, with internal stud. Overall length 1-7/8".

Wire can be soldered to brass stud or plug. Stud locks wire to plug for solderless connection.

Available in (6) colors:

black, blue, green, red, white and yellow.

No. 2349AP - (1) black, (1) red, display packaged

No. 2349A BL - bulk packaged, black

No. 2349A BU - bulk packaged, blue

No. 2349A GR - bulk packaged, green

No. 2349A RD - bulk packaged, red

No. 2349A WH - bulk packaged, white

No. 2349A YL - bulk packaged, yellow

SPRING-TYPE INSULATED BANANA PLUGS

Plastic insulated handle 3/4" long, spring type plug 3/4", overall 1-1/2". Wire connection is made by means of set screw in side of plug. Fits all standard American banana-type jacks and is exactly interchangeable with equivalent American plugs. Available in black and red.

No. 2349GP - (1) black, (1) red, display packaged

No. 2349G BL - bulk packaged, black

No. 2349G RD - bulk packaged, red

Heavy duty INSULATED BANANA JACK

.175", accepts standard banana plugs. Jack mounts in 5/16" dia. hole (or use 1/4" when jack will ground to panel) in panels up to 3/8" thick. Insulator and head is polycarbonate, body is nickel plated brass.

No. 2350AP - (1) black, (1) red, display packaged

No. 2350A BL - bulk packaged, jack w/black insulator

No. 2350A RD - bulk packaged, jack w/red insulator

BINDING POST

Round, knurled grip, removable head with molded-in brass bushing,

Banana plug receptacle in stem. Solder lug termination on mounting stud.

• Mounts in 3/8" dia. hole

• Diameter: 1/2" overall

• Height: 1-3/8" overall

• Height above panel: 5/8"

No. 227 - (1) black, (1) red, display packaged

No. 227B BLK - bulk packaged, black

No. 227B RED - bulk packaged, red

Fully Insulated 5-WAY BINDING POST

Molded plastic bushing prevents shorting. Non-removable fluted head accepts banana plug. Transverse hole in center post for positive wire retention.

• Mounts in 21/64" dia. hole

• Non-rotational flats 9/32" across

• Diameter: 29/64" overall

• Height: 1-7/8" overall

• Height above panel: 1"

No. 229 - (1) black, (1) red, display packaged

No. 229B BLK - bulk packaged, black

No. 229B BLU - bulk packaged, blue

No. 229B GRN - bulk packaged, green

No. 229B RED - bulk packaged, red

No. 229B WHT - bulk packaged, white

No. 229B YEL - bulk packaged, yellow

INSULATED SR. SOLDERLESS PHONE TIP PLUG

Fits all standard phone tip jacks.

Insulated sleeve 3/4" long. Cable opening 3/16". Available in red or black.

• Length: 1-15/16" overall

No. 2348P - (1) black, (1) red, display packaged

No. 2348 BLK - bulk packaged, black

No. 2348 RED - bulk packaged, red

SOLDERLESS TEST PRODS

Made of non-breakable extruded plastic, and available in red and black. Equipped with brass nickel plated solderless phone tips 3/4" long.

No. 912J - Bulk ONLY, red handle, 4" long,

No. 913J - Bulk ONLY, black handle, 4" long

ALLIGATOR CLIPS

ALLIGATOR CLIPS with Plastic Boots

Strong spring sure-grip nickel plated alligator clips, with snug-fitting insulating plastic boots.

Package of 5

SLIK - CLIP® MINIATURE TEST LEAD CLIP

For Wire Sizes 24 to 20 AWG

The Slik-Clip® is definitely intended for the serious user. This well designed new clip is entirely insulated and guards against accidental contact with adjacent wires or component leads far better than other insulated clips. Precise jaws will grip the finest component leads or Hook-Up wire, making a sure connection without slipping intermittent contacts. Fully assembled, clip length is only 1.4" which is comparable to other miniature "alligator clips".

Install on stranded wire (24 to 20 gauge) by crimping with either Philmore No. WS26 crimping tool or similar. Package includes clear assembly instructions. Available in 6 colors: Black, Green, Red, White, Yellow and Blue, and display packages as listed below.

- No. 271 - One Red and one Black Slik - Clip®.**
- No. 272 - Two Red Slik - Clips®.**
- No. 273 - Two Black Slik - Clips®.**
- No. 276 - One Each Black, Green, Red, White, Yellow and Blue**

JUMPER CABLE SETS 10-piece sets

Color coded lead wires with insulated alligator clips on each end. Each set includes ten leads, two each of five different colors. Indispensable for testing service, during circuit design etc.. We suggest the Tech's set to professional users, or the **No. SA44** below.

- No. SA10** - Economy set, standard (3 strand wire) 14" long
- No. SA22** - Tech's Jumper Cable Set, (12 strand wire), 22" long

HEAVY DUTY JUMPER CABLE SETS

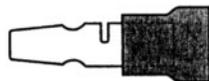

For serious user in the lab or test bench, sets include five tough Jumper Cables, of five different colors, with insulated alligator clips on each end. 20 strand wire and flexible insulation is used for long life.

- No. SA44** - Set of five, 22" long leads
- No. SA45** - Set of five, 36" long leads

SOLDERLESS TERMINALS & CONNECTORS

Male Bullet Connector Terminals

These bullet connectors are made of copper with tin plating. They are available in several wire sizes with receptacles to match.

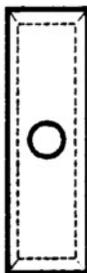

Part #	Wire Size	Thick (in.)	Width (in.)	Insulation Material	Color
65-7521 ^F	22-18	.032	.156	Vinyl	RED
65-7541 ^A	16-14	.032	.156	Vinyl	BLUE
65-7542 ^F	16-14	.032	.195	Vinyl	BLUE
65-7562 ^F	12-10	.032	.195	Vinyl	YELLOW

Package Qty: A = 15, B = 10, D = 8, F = 12, G = 5 Add "C" to # = 100pk

Non-Insulated Seamless Butt Connectors

These butt connectors are braised and seamless for a smoother and more uniform crimp. They are available in several wire sizes.

Part #	Wire Size	Barrel Length
65-3020 ^B	22-18	15.0mm
65-3040 ^D	16-14	15.0mm
65-3060 ^G	12-10	20.0mm

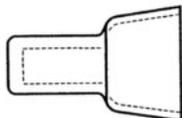

Package Qty: A = 15, B = 10, D = 8, F = 12, G = 5 Add "C" to # = 100pk

Nylon Insulated Close End Connectors

These close end or pigtail connectors are constructed of tin plated copper which has a clear nylon insulator. They are available to accommodate several different wire sizes.

Part #	Wire Range
65-1232 ^F	22-14
65-1237 ^G	18-10
65-1242 ^G	18-8

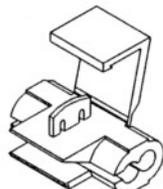

Package Qty: A = 15, B = 10, D = 8, F = 12, G = 5 Add "C" to # = 100pk

Wire Tap Splices

These connectors make it easy to splice into an existing cable in order to add another wire. They are available in three different sizes which are insulated and color coded for wire size identification.

Part #	Wire Range	Color
*65-1280 ^B	22-18	Red
*65-1285 ^B	16-14	Blue
*65-1290 ^B	12-10	Yellow

Package Qty: A = 15, B = 10, D = 8, F = 12, G = 5 Add "C" to # = 100pk

* = Also Available in 50 Pack. Add - 50 After part Number
When ordering EX: 65-1280-50

Female Bullet Connector Receptacles

These bullet connectors are made of copper with tin plating. They are available in several wire sizes with male plugs to match. They are FULLY Insulated.

Part #	Wire Size	Thick (in.)	Width (in.)	Insulation Material	Color
65-6521 ^D	22-18	.032	.156	Vinyl	RED
65-6541 ^D	16-14	.032	.156	Vinyl	BLUE
65-6542 ^D	16-14	.032	.195	Vinyl	BLUE
65-6562 ^D	12-10	.032	.195	Vinyl	YELLOW

Package Qty: A = 15, B = 10, D = 8, F = 12, G = 5 Add "C" to # = 100pk

Insulated Seamless Butt Connectors

These butt connectors are braised and seamless for a smoother and more uniform crimp. They are available in several wire sizes with color coded insulation.

Part #	Wire Size	Barrel Length	Material	Color
*65-1230 ^A	22-18	30.0 mm	Vinyl	RED
*65-1235 ^B	16-14	30.0 mm	Vinyl	BLUE
*65-1240 ^D	12-10	33.0 mm	Vinyl	YELLOW
65-1830 ^B	22-18	30.0 mm	Nylon	RED

65-1840 ^G	12-10	33.0 mm	Nylon	YELLOW

Package Qty: A = 15, B = 10, D = 8, F = 12, G = 5 Add "C" to # = 100pk

* = Also Available in 50 Pack. Add - 50 After part Number
When ordering EX: 65-1230-50

Insulated Solderless Terminal Assortment

This convenient assortment lets you have the most popular terminals and sizes right at your finger tips.

175 Assorted Terminals

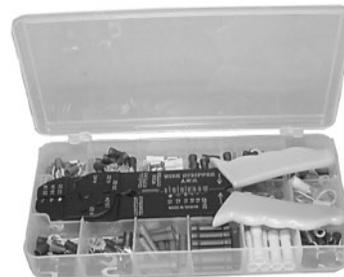

- Butt Splices
- Ring Terminals
- Spade Terminals
- Quick Connects

3 Wire Sizes

- 22-18
- 16-14
- 12-10

H.D. Stripper & Crimp Tool

No. 65-1875

Reusable Case

Professional Ratchet Crimp Tool w/ Interchangeable Dies

- Full cycle ratchet mechanism with quick release safety lock
 - High carbon steel ratchet frame
 - PE insulation grip handle for comfort and maximum crimping force
 - Interchangeable dies for F, BNC, TNC, N, Teflon, Thinnet-PVC / Teflon and Fiber-Optic connectors
- No. WS34** - For Insulated Terminals:
(22-18 AWG, 16-14 AWG and 12-10 AWG)
No. 63-622 Non-Insulated Terminals 8-22 AWG

SOLDERLESS TERMINALS & CONNECTORS

22-16 AWG Ring Terminals

Philmore's ring terminals are constructed of high quality copper that are tin plated. They are available in both non insulated and insulated types.

PANEL LAMPS & INDICATOR LIGHTS

A quality series of indicator lights, offered with a choice of 6" lead wires or .187" quick connect tab electrical terminations. All of the light assemblies on this page are for insertion in a 0.50" diameter round hole in panels with a minimum thickness of .030". The high voltage neon lamps may be connected directly to rated powerline voltages without the need for additional components.

.50" HOLE SIZE - .187 "QUICK Connect"

Note: Green Neon lamps are genuine green light generating lamps and not simply green lenses on ordinary neon bulbs.

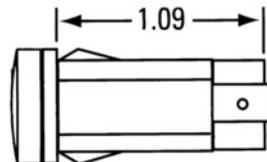

SPECIFICATIONS	
Body Material:	Nylon (white)
Lens Material:	Polycarbonate
Bezel Material:	Stainless Steel
Panel Thickness:	.030" to .093"
Mounting hole:	0.50" diameter
Types:	Neon and Incandescent
Lens Styles:	Cylinder diamond, (except white lens-cylinder translucent) two lens heights.
	(see chart, drawings)

110 - 120 VAC MULTI - LENS, NEON LAMP & LENSES KIT .50" Hole Size - .187 "QUICK Connect"

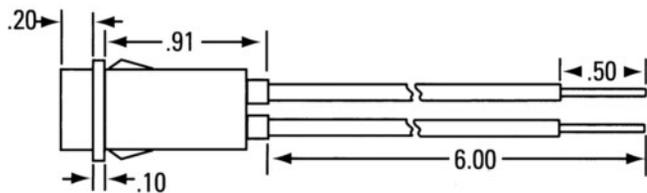

A kit for designers and experimenters to keep on hand at the bench. The kit contains a NEON lamp assembly, with white lens ready to connect to AC power and included are three different colored snap-on/snap-off lenses; red, amber, and clear. The unit fits a .50" hole in panels a minimum of .030" thickness. Snap on the lens for the color that you want. Lamp terminals are 0.187" push-on quick-connect terminals (you could solder in a pinch).

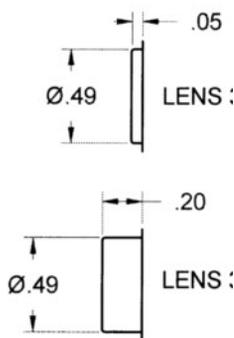

Philmore Part No.	Description
11-1990	NEON multi-lens Lamp Assembly

PANEL LAMPS & INDICATOR LIGHTS

.50" HOLE SIZE - 6" LEADS

Note: Green Neon lamps are genuine green light generating lamps and not simply green lenses on ordinary neon bulbs.

SPECIFICATIONS
 Body Material: Nylon (white)
 Lens Material: Polycarbonate
 Bezel material: Stainless steel
 Terminations: 6" Leads, .50" stripped
 Panel Thickness: .030" to .093"
 Mounting hole: 0.50" diameter
 Types: Neon and Incandescent
 Lens Styles: Cylinder diamond, (except white lens-cylinder translucent) two lens heights (see chart, drawings)

12 - 14 Volt Multi-Lens, Incandescent Lamp & Lenses Kit .50" Hole Size - .187" "Quick Connect"

A fine kit to keep on hand at the bench. The kit contains an incandescent lamp assembly, with white lens ready to connect to AC or DC (12-14 Volts) power and included are several different color snap-on/snap-off lenses: red, amber, green, clear and blue. The unit fits a .50" hole in panels a minimum of .030" thickness. Snap on the lens for the color that you want. Lamp terminals are 0.187" push-on quick-connect terminals (you could solder in a pinch). The assembly is non relampable.

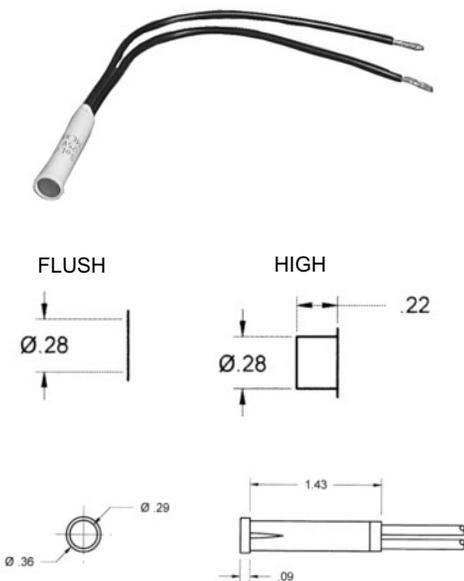

Philmore Part No.	Description
11-1992	12 - 14V Multi-Lens lamp assembly

PANEL LAMPS & INDICATOR LIGHTS

The following indicator light selections, intended for both replacement and OEM usage, provide the buyer with a variety of lamp types for uses ranging from low voltages to direct AC power line connections. The neon lamps in this section do not require additional components when connecting to the rated voltages.

On this page are assemblies for insertion into .312" diameter round holes in panels with a minimum thickness of .030". See the previous pages for larger lamps intended for insertion in .500" diameter holes. Spring clips made to be used in cases where hole size or panel thickness do not provide a tight fit (See below).

.312" Hole Size - 6" Leads

11-2070	Green	Transparent	125V NEON	chrome	High

Note: Green Neon lamps are genuine green light generating lamps and not simply green lenses on ordinary neon bulbs.

All lamps in this series are for press-fit into .312" diameter holes and have the following features:

- Body Material: Nylon
- Lens Material: Polycarbonate
- Lens Style: Flush diamond (except white lens-flush translucent), two lens style. (see chart drawing)
- Bezel: None on flush lens, Chrome plated Brass on high lens.
- Wire gauge: 18awg
- Wire strip: 1/2"
- Termination: 6" wire leads
- Panel thickness: .030" min.
- 125V and 250V lamp assemblies are UL Listed.
- All products made in North America.
- All are Non relampable.

SPRING CLIPS

Spring clips for lamp assemblies. In situations where panel hole size and/or panel thickness does not allow a tight fit, a spring clip may be used to secure the assembly. Spring clips are available for both the .312" and .50" diameter lamp. In most installations, they will not be needed. A correctly sized hole will allow a secure installation.

Philmore Part No.

Description

11-2075	5 -PAK SPRING CLIP FOR .312" Indicator light assemblies
11-2375	5 -PAK SPRING CLIP FOR .50" Indicator light assemblies

add "B" suffix to the part number for the bulk stock purchase; min, 100 pieces.

PANEL LAMPS & INDICATOR LIGHTS LED

Flush Diamond lens and 6" stripped wire leads shown here.

Long Life, Solid State, light emitting diodes make this series of snap-in lamps a very dependable component. Available in popular voltages as well as the standard LED voltage (2 Volt series); use Ohm's law to calculate a series resistor if other voltages are needed. All LED'S on this page operate at 20 mA DC typical.

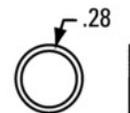

Specifications:
 Body Material: Nylon
 Lens Material: Polycarbonate
 Bezel Material: Brass (plated)
 Wire Gauge: 18 ga.
 Wire Strip: 1/2"
 Terminals: .187 QC
 Panel Thickness: 0.030" min
 Certifications: 2V - cUL, TUV
 12 - 14V - UL, TUV
 24-28V - TUV, CE

LED LAMP ASSEMBLIES are available in two sizes: for .312" diameter panel holes and for .500" diameter panel holes. Lens styles are either flush with the front of the lamp or about 0.30" above the front in the "high rings style".

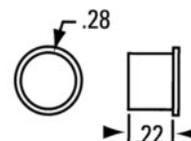

LED LAMPS for .312" diameter mounting hole

PANEL LAMPS & INDICATOR LIGHTS LED

Standard (T1-3/4) and miniature size (T1) LED's mounted in durable nylon cases and ready to speed mount and eliminate additional mounts and parts. Time saving with faster installation; drill a hole and snap-in. Select from several popular voltages that reduce assembly time and the need for extraneous parts. LED's are generally very long life devices and may never need replacing in many applications.

2 Volt Snap-In T1 LED LAMPS for .173" diameter mounting holes

Sub-miniature snap-in panel lamps press-fit into a 0.173" diameter hole. Uses the industry standard T1 size LED. Lead wires are 6" long, (26 Ga.), stripped .380" on ends (red and black insulation indicates polarity). The 2 volt values are regular LED's, use a resistor for voltages that are higher than 2 volts; package includes "how to" calculate resistor values.

Part No.	Voltage	Description	Terminals
11-2400	2-volt	RED	6" stripped leads
11-2402	2-volt	AMBER	6" stripped leads
11-2406	2-volt	GREEN	6" stripped leads

6" Stripped Leads

2 Volt Snap-In LED LAMPS for .250" diameter mounting holes

2 Volt LED Panel Lamp for 1/4" hole size. Considered the "universal" type as it can be used with virtually any DC voltage with a resistor (package shows how to determine resistor value). And it can be used with AC voltages with a diode and resistor. The lamp has 6" long wire lead set (black / red), which is stripped and tinned, ready to solder. Body color black (nylon).

Part No.	Voltage	Description	Terminals
11-2410	2-volt	RED	6" stripped leads
11-2412	2-volt	AMBER	6" stripped leads
11-2414	2-volt	GREEN	6" stripped leads

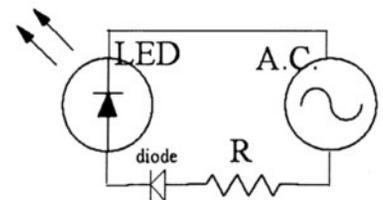

6" Stripped Leads

How to use a 2 Volt LED Lamp Assembly

A 2 volt LED may be used with practically any higher voltage, simply calculate the value of resistor to use in series with the LED.

For DC Circuits: Subtract two volts (needed for the LED) from your circuit voltage and multiply by 50. EXAMPLE: For a 12VDC circuit, subtract the "two" and multiply the answer ten times fifty. So a 500ohm resistor is needed (use a close standard value, such as 470 or 520 etc.)

For AC Circuits: Place a diode in series with the LED. Then, take your circuit voltage and subtract 2.7 from that voltage and then multiply the answer by 25. Example: In a 28 volt circuit, subtract 2.7 which gives you 25.3. Then multiply the 25.3 times 25 and the answer is 632 ohms. Use a close resistor value such as 680 ohms.

Typical voltages used in electronics and resistor values (rounded to nearest standard resistor).

DC Volts	5V	6V	12V	24V	AC Volts	6V	12V	24V	48V	117V
Resistor (ohms)	150	180	470	1200	Resistor (ohms)	82	220	560	1200	3K

PANEL LAMPS & INDICATOR LIGHTS LED

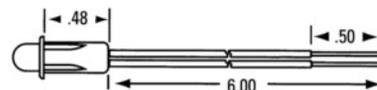

Standard (T1-3/4) LED's mounted in durable nylon cases and ready to speed mount and eliminate additional mounts and parts.

12-14 Volt Snap-In LED LAMPS for .250" diameter mounting holes

12-14 Volt LED Panel Lamp for .25" hole size. This series has typical LED (T1-3/4") Size. Lead wires are 6" long, stripped .380" on ends (red and black insulation indicates polarity).

Part No.	Voltage	Description	Terminals
11-2420	12-14 volt	RED	6" stripped leads
11-2422	12-14 volt	AMBER	6" stripped leads
11-2426	12-14 volt	GREEN	6" stripped leads

6" Stripped Leads

28 Volt Snap-In LED LAMPS for .250" diameter mounting holes

28 Volt LED Panel Lamp for 1/4" hole size. The series has 6" long black/red lead wires. Lead wires are stripped and tinned for quick soldering or adding crimp connectors. Body color and molded bezel is black in color.

Part No.	Voltage	Description	Terminals
11-2430	28-volt	RED	6" stripped leads
11-2432	28-volt	AMBER	6" stripped leads
11-2434	28-volt	GREEN	6" stripped leads

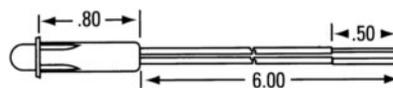

6" Stripped Leads

125 Volt Snap-In LED LAMPS for .250" diameter mounting holes

125 Volt LED Panel Lamp for 1/4" hole size. Use in appliances and similar applications where standard mains voltage is present. The series has 6" long black/red lead wires. Lead wires are stripped and tinned for quick soldering or adding crimp connectors. Body color and molded bezel is black in color.

Part No.	Voltage	Description	Terminals
11-2450	125-volt	RED	6" stripped leads
11-2452	125-volt	AMBER	6" stripped leads
11-2456	125-volt	GREEN	6" stripped leads

6" Stripped Leads

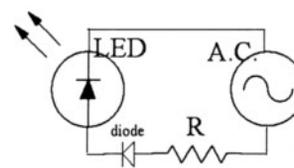

Use of LED Lamp Assembly.

Use this LED Lamp Assembly with the appropriate voltage (see front of card for voltage). NOTE: Correct polarity must be observed for this device to work properly; connect the red colored wire to positive and the black wire to the negative.

The 12-14 Volt Lamp Assemblies are intended for use in automobiles and trucks with about (standard) 13.8 volts (most vehicles). They may, of course, be used in other circuits that provide voltage in the twelve to fourteen volt range. No additional resistor needs to be used.

The 24-28 volt values are generally used in systems such as control panels. If you plan to use the lamp assembly with AC, then connect a diode in series with the lamp assembly. No additional resistor needs to be used.

Two volt LED assemblies are also available from your local supplier. A 2 volt LED may be used with practically any higher voltage, simply calculate the value of resistor to use in series with the LED. The 2-volt LED assemblies are supplied with information on each card describing how to determine the resistor value for both AC and DC with a simple formula or by following a chart.

Above; Typical AC circuit using a diode. The "R", or resistor is not necessary for 12-14 or 24-28 volt assemblies when they are used @ rated voltages.

PANEL LAMPS & INDICATOR LIGHTS

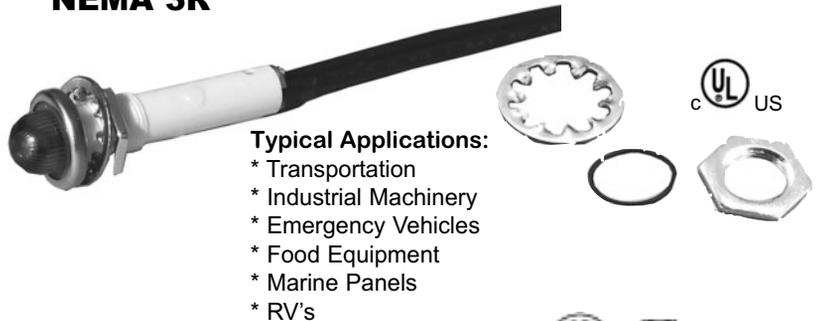

Splash Proof Indicator Lamp (M-Series) for Indoor or Outdoor Harsh Environments .375" Hole Size - 6" leads

The "M" series splash proof indicator light mounts securely to the panel (3/8" Mtg. Hole) with an O-Ring, lock washer and hex nut to provide a weather proof seal. The "M" series is available in 14V and 125V AC rating and illumination is produced with incandescent lamp (14V) or neon lamp (125V). Termination is 6" leads.

The "M" series is supplied with a popular small dome lens in Red, Green, Amber, Blue and White. Stainless steel bezels are specified for an attractive look and durability against the front panel. Splash Proof, ideal for harsh environments and suitable for indoor or outdoor use.

NEMA 3R

Dome Indicator Lights (M-Series)		
12-14V Incandescent	Lens Color	125V Neon
11-2830	Red	11-2840
11-2832	Amber	11-2842
11-2834	White	11-2844
11-2838	Green	11-2848
11-2839	Blue	11-2849

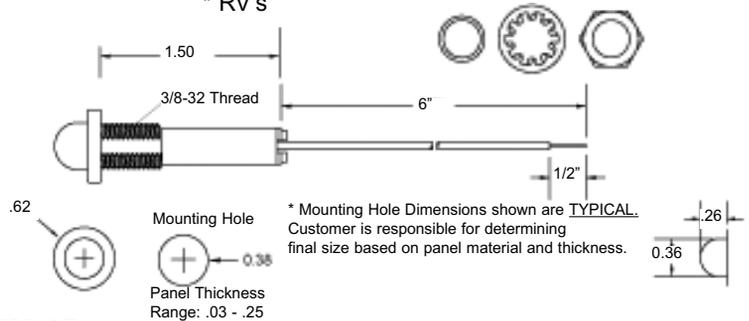

Typical Applications:

- * Transportation
- * Industrial Machinery
- * Emergency Vehicles
- * Food Equipment
- * Marine Panels
- * RV's

Technical Data:

- * Fits into 0.375" panel hole.
- * Incandescent and Neon illumination.
- * Splash proof design
- * Supplied with hex nut, lockwasher and O-Ring.
- * Small dome lens
- * Body Material: Nylon
- * Lens Material: Polycarbonate
- * Bezel Material: Stainless Steel
- * Wire Gauge: 20ga
- * Wire Strip 1/2"

NEMA 3R

1" ROUND SEALED LED's PANEL LAMPS (K - Series)

The K series is a screw based indicator that is mounted in a 22mm (7/8") cut out and is fastened to the panel with a plastic nut and sealed with an "O" ring gasket for a tight panel seal. Nut & "O" ring are included.

Illumination is achieved by means of surface mount LED's on a sealed PCB board which provides bright and even lighting. The K series LED indicator is available in 5 colors with two transparent lens style: flat with diffuser and tapered with diffuser. The K series is available in 12V DC and 28V DC, screw clamp type terminal designed for quick termination for both solid and stranded wires.

Applications:

- * Restaurant kitchen equipment
- * Emergency vehicles
- * Industrial machinery
- * Marine panels
- * Medical equipment
- * Lab equipment

Electrical:

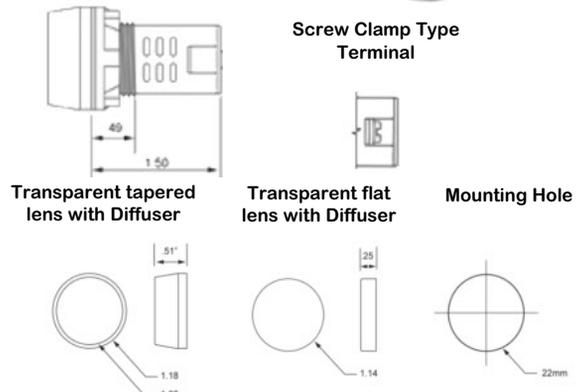

- Dielectric withstanding voltage:** 630V - terminal to housing
- Insulation resistance:** 380V AC - terminal to housing
- Surge protection:** 2000V @ 50 micro seconds

Materials:

- Housing:** PBT w/20% Glass
- Lens:** Polycarbonate
- Diffuser:** POM (polyacetal)
- Hex nut:** Polycarbonate

Part no.	Voltage	Lens Color	Lens Type
11-2630	12-14 Volt	RED	Flat Top with Diffuser
11-2632	12-14 Volt	YELLOW	Flat Top with Diffuser

11-2649	12-14 Volt	BLUE	Tapered with Diffuser
11-2650	28 Volt	RED	Flat Top with Diffuser
11-2652	28 Volt	YELLOW	Flat Top with Diffuser
11-2654	28 Volt	WHITE	Flat Top with Diffuser
11-2658	28 Volt	GREEN	Flat Top with Diffuser
11-2659	28 Volt	BLUE	Flat Top with Diffuser

LED LIGHTING STRIP

HI - BRITE LED FLEX LITE

Hi-Brite (HB) Flex Lite strips employ Surface-Mount LED's on flexible printed circuit board strips. HB Strips use Ultra-bright SMD LED's which have approximately 150 - 200% more light output than average LED's. The Hi-Brite strips may be used to provide lighting in a variety of applications at safe, low-voltage (12 V DC) and energy stingy low current requirements. Hi-Brite Flex-Lite lighting can be ideal for emergency lighting powered by battery as well as for general use with a modest 12 volt DC power supply. The low profile strips may be installed in hundreds of locations where the use of older, incandescent bulbs would be bulky and impractical.

Two types of HB Flex-Lite are available. An economical unsealed type is supplied with an adhesive backing for quick and permanent installations. The unsealed type is not water proof and is less resistant to physical damage when used in areas where the strips may be vulnerable to bumps and scrapes. The Sealed HB Flex-Lite strips are water resistant and impact resistant as well. The Sealed type is a better choice for use in exposed locations such as stairwells and hallways where a physically more durable product is needed; its protective silicone sleeve is IP-67 rated.

HB Flex-Lite strips are long-life, low power usage lights with excellent light output. Available in warm, white light output (3,000-3,500K) as well as in a range of colors (see following charts). Strips are either 12" or 24" in length and supplied with 20 AWG lead wires attached.

FEATURES:

- * CE, UL and RoHS compliant
- * UV resistance
- * IP 67 Sealing (Sealed Model)
- * Working voltage is: 12V DC
- * Cut length every three LEDs (4")
- * Available sealed, unsealed
- * Extremely high luminous flux with a wide viewing angle (120 degrees)
- * PCB Color
 - Sealed: White
 - Unsealed: Brown
- * Very flexible and easily curved to any shape
- * Energy saving, long life and environmentally friendly
- * Wide applicability and easy to install and maintain
- * Flexible Single Color and RGB:
 - Current 20mA per each LED
 - 50/50 SMD LED

Regular LED Flexible Strip	Color	LKG HB Series LED Flexible Strip
250	Red	800
200	Yellow	700
1500	Pure White	4000
1300	Warm White	4000
900	Green	2400
300	Blue	1800

Suggested Applications

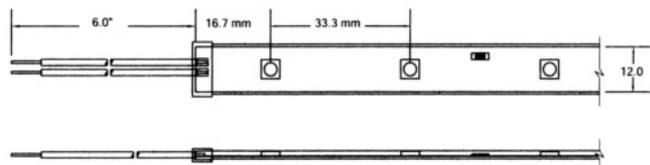

- * Cove Lighting
- * Under-Shelf lighting
- * Signage back-lighting
- * Stairway accent lighting
- * Emergency lighting
- * Vehicle lighting
- * Kitchen cabinet lighting
- * Back-Up radio-room lighting
- * Hobby projects

Sealed

Unsealed

12" Strip Hi - Brite LED Flex - Lite		
Part No.	Sealed Type	LEDs Color
11-2730	12V, 12" Waterproof Strip, 9 LEDs 50/50 SMD	Red
11-2732	12V, 12" Waterproof Strip, 9 LEDs 50/50 SMD	Yellow
11-2734	12V, 12" Waterproof Strip, 9 LEDs 50/50 SMD	Pure White
11-2736	12V, 12" Waterproof Strip, 9 LEDs 50/50 SMD	Warm White
11-2738	12V, 12" Waterproof Strip, 9 LEDs 50/50 SMD	Green
11-2739	12V, 12" Waterproof Strip, 9 LEDs 50/50 SMD	Blue
11-2733	12V, 12" Waterproof Strip, 9 LEDs 50/50 SMD	RGB (Red/Green/Blue)

24" Strip Hi - Brite LED Flex - Lite		
Part No.	Sealed Type	LEDs Color
11-2750	12V, 24" Waterproof Strip, 18 LEDs 50/50 SMD	Red
11-2752	12V, 24" Waterproof Strip, 18 LEDs 50/50 SMD	Yellow
11-2754	12V, 24" Waterproof Strip, 18 LEDs 50/50 SMD	Pure White
11-2756	12V, 24" Waterproof Strip, 18 LEDs 50/50 SMD	Warm White
11-2758	12V, 24" Waterproof Strip, 18 LEDs 50/50 SMD	Green
11-2759	12V, 24" Waterproof Strip, 18 LEDs 50/50 SMD	Blue
11-2753	12V, 24" Waterproof Strip, 18 LEDs 50/50 SMD	RGB (Red/Green/Blue)

NOTE: 24" strips are packaged with additional 6" Leads, plus 1 each of wire cap and end cap.

PANEL LAMPS & LED's

INCANDESCENT PANEL LAMPS

Grain of Wheat Lamps

These miniature lamps have many uses. They are used as dial lights in many consumer products. They are available in several voltages with 15 cm wire leads attached.

- No. 11-706 6V AC / DC - 40mA
- No. 11-712 12V AC / DC - 50mA
- No. 11-724 24V AC / DC - 50mA

12V High Flat-Top Indicator

These panel lamps have a 9 mm high X 12.5 mm diameter lens, a 12V lamp, and wire leads. The indicator will operate on AC or DC voltages and snaps into a 12.7mm (1/2") diameter hole.

- No. 11-202 Red
- No. 11-203 Orange
- No. 11-205 Green

12V Flat-Top Snap-in Indicator

These panel lamps are 8.6 mm in diameter with a 5 mm high flat lens, a 12V incandescent lamp, and wire leads. They mount into a 7.5mm (19/64") hole and will work on either AC or DC voltages.

- No. 11-282 Red
- No. 11-283 Orange
- No. 11-285 Green

SPRING CLIPS

Spring clips for lamp assemblies. In situations where panel hole size and/or panel thickness does not allow a tight fit, a spring clip may be used to secure the assembly. Spring clips are available for both the .312" and .50" diameter lamp. In most installations, they will not be needed. A correctly sized hole will allow a secure installation.

Philmore Part No.	Description
11-2075	5 -PAK SPRING CLIP FOR .312" Indicator light assemblies
11-2375	5 -PAK SPRING CLIP FOR .50" Indicator light assemblies

add "B" suffix to the part number for the bulk stock purchase; min, 100 pieces.

12V High Dome Indicator

Panel lamps with a 13 mm high X 12.7 mm dome lens, a 12V incandescent lamp, and wire leads. They snap into a 12.7mm (1/2") diameter hole. Lamps work on either AC or DC voltages.

- No. 11-222 Red
- No. 11-223 Amber
- No. 11-225 Green

12V Flush Snap-In Indicator

These snap-in panel lamps are constructed to operate at 12V AC or DC with wire leads. The lens is flush with the chrome bezel. The mounting hole is 12.7mm (1/2") mm in diameter.

- No. 11-212 Red
- No. 11-213 Orange
- No. 11-215 Green

LED PANEL LAMPS

Miniature Snap-In Indicator

Miniature snap-in panel lamps with a LED lamp and a built-in resistor for 12V DC operation. The device is 8.6 mm in diameter and snaps into a 7.6mm (19/64") hole.

- No. 11-382 Red
- No. 11-383 Orange
- No. 11-385 Green

3 mm LED in Dome Chrome Bezel

These panel lamps are made to operate on 2V DC and need a resistor for any other voltage. They have a chrome Dome shaped Bezel which hold a 3 mm LED. The lamp mounts into a 5.9mm (15/64") mounting hole with a hex nut.

- No. 11-362 Red
- No. 11-363 Orange
- No. 11-365 Green

5 mm LED in Dome Chrome Bezel

These panel lamps are made to operate on 2V DC and need a resistor for any other voltage. They have a chrome Dome shaped Bezel which hold a 5 mm LED. The lamp mounts into a 7.9mm (15/16") mounting hole with a hex nut.

- No. 11-372 Red
- No. 11-373 Orange
- No. 11-375 Green

3 mm LED Lamp Holder

The holders hold a 3 mm LED (T-1). They are a chrome recessed style holder which mounts in a 5.9mm (15/64") hole with a hex nut.

- No. 11-450

PANEL LAMPS & LED's

LED PANEL LAMPS

3 mm LED in Recessed Chrome Bezel

These panel lamps are made to operate on 2V DC and need a resistor for any other voltage. They have a chrome recessed shaped Bezel which holds a 3 mm LED. The lamp mounts into a 5.9mm (15/64") mounting hole with a hex nut.

- No. 11-302 Red
- No. 11-303 Orange
- No. 11-304 Yellow
- No. 11-305 Green

3 mm LED in Recessed Chrome Bezel

These panel lamps are made to operate on 12V DC and has a built-in resistor. They have a chrome recessed Shaped Bezel which hold a 3 mm LED. The lamp mounts into a 5.9mm (15/64") mounting hole with a hex nut.

- No. 11-312 Red
- No. 11-314 Yellow
- No. 11-315 Green

5 mm LED in Dome Chrome Bezel

These panel lamps are made to operate on 2V DC and need a resistor for any other voltage. They have a chrome Dome Shaped Bezel which hold a 5 mm LED. The lamp mounts into a 7.9mm (5/16") mounting hole with a hex nut.

- No. 11-306 Red
- No. 11-307 Orange
- No. 11-308 Green

Large Rectangular Indicator

These panel lamps have a large rectangular 15.5 mm X 19.5 mm lens, a 120V AC Neon lamp (with resistor) and solder terminals. They mount into a 15.8mm (5/8") hole with a mounting nut.

- No. 11-142 Red
- No. 11-144 Amber
- No. 11-145 Green

Flat-Top Snap-In Indicator

These panel lamps have a built-in resistor and are made to operate on 120V AC. The lens is 12.5 mm in diameter with a chrome bezel. The mounting hole is 12.7mm (1/2") and they have wire leads.

- No. 11-102 Red
- No. 11-103 Orange
- No. 11-105 Green

High Dome Indicator

Panel Lamps with a 13 mm high dome shaped lens, wire leads, and a built-in resistor for operation at 120VAC. The mounting hole is 12.7mm (1/2") in diameter.

- No. 11-122 Red
- No. 11-123 Orange
- No. 11-125 Green

Miniature Bayonet Lamp Holder

These lamp holders can house a standard miniature bayonet based lamp. They have a jeweled lens and mount into a 15.7mm (5/8") hole.

- No. 11-542 Red
- No. 11-543 Orange
- No. 11-545 Green

Miniature Screw Base Lamp Holder

These lamp holders can house a standard miniature screw based lamp. They have a dome lens and mount into a 15.7mm (5/8") mounting hole.

- No. 11-522 Red
- No. 11-523 Orange
- No. 11-525 Green

Midget Screw Base Lamp Holder-Flat Lens

Lamp holders for midget screw based lamps. They have a 9 mm high flat lens and mount into a 9.9mm (25/64") hole.

- No. 11-512 Red
- No. 11-513 Orange
- No. 11-515 Green

Midget Screw Base Lamp Holder-Dome Lens

Lamp holders for midget screw based lamps. They have a 9 mm high dome lens and mount into a 9.9mm (25/64") hole.

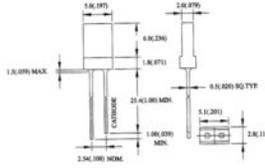

- No. 11-552 Red
- No. 11-553 Orange
- No. 11-555 Green

PANEL LAMPS & LED's

Rectangular LED's

2 mm X 5 mm X 7 mm

Part Number	Forward Current (I _f) ma	Max Forward Voltage	Typical Voltage	LED Color	Viewing Angle
11-642	20 ma	2.0V	1.7V	Red	120°
11-643	20 ma	2.6V	2.0V	Orange	120°
11-644	20 ma	2.6V	2.1V	Yellow	120°
11-645	20 ma	2.6V	2.2V	Green	120°

Square LED's

8 mm X 8 mm X 12 mm

Part Number	Forward Current (I _f) ma	Max Forward Voltage	Typical Voltage	LED Color	Viewing Angle
11-632	20 ma	2.6V	2.2V	Bright Red	140°
11-633	20 ma	2.6V	2.0V	Bright Orange	140°
11-635	20 ma	2.6V	2.2V	Bright Green	140°

Silicon Photo Transistors

These devices are an electronic switch. When this unit is activated current is allowed to flow through the device. These items are used in Optical encoders, Automatic Control Systems, Photo Detectors and other applications where an optical switch is needed.

3 mm (T-1)

Part Number	Max Breakdown Voltage	Typical Voltage	Typical Carry Current	Viewing Angle
11-690	30V	5V	20 ma	30°

5 mm (T-1 3/4)

Part Number	Max Breakdown Voltage	Typical Voltage	Typical Carry Current	Viewing Angle
11-691	30V	5V	20 ma	35°

LED's

The LED (light emitting diode) offered in this section are without mounting hardware, or discrete devices. The LED consists of four components: a lead frame, a dice (or LED chip), and a fine wire bond which is encapsulated in an epoxy base. (see Below) Depending on the chip used, the observer will see a monochromatic red, green, orange, yellow or blue light. There are no moving parts, so these devices are considered a "solid state device". The LED's operate on from 1.7V-2.5V if you need the lamp to operate at a higher voltage a current limiting resistor is needed. The value of the resistor will vary depending upon the desired voltage and whether it is AC or DC volts. Each color of LED works at a different operating current which will change the value of the resistor.

3 mm (T-1) Round LED's

Part Number	Forward Current (I _f) ma	Max Forward Voltage	Typical Voltage	LED Color	Viewing Angle
11-602	20 ma	2.0V	1.7V	Red	35°
11-604	20 ma	2.6V	2.1V	Yellow	35°
11-605	20 ma	2.6V	2.2V	Green	35°

5 mm (T-1 3/4) Round LED's

Part Number	Forward Current (I _f) ma	Max Forward Voltage	Typical Voltage	LED Color	Viewing Angle
11-611	20 ma	2.0V	1.7V	Red	35°
11-612	20 ma	2.6V	2.2V	Bright Red	35°
11-614	20 ma	2.6V	2.1V	Yellow	35°
11-615	20 ma	2.6V	2.2V	Green	35°

12 mm Round LED's

Part Number	Forward Current (I _f) ma	Max Forward Voltage	Typical Voltage	LED Color	Viewing Angle
11-662	20 ma	2.6V	2.2V	Bright Red	50°
11-663	20 ma	2.6V	2.0V	Orange	50°
11-664	20 ma	2.6V	2.1V	Yellow	50°
11-665	20 ma	2.6V	2.2V	Green	50°

Infrared Emitting Diodes

These diodes are used in remote controls, photo detectors, smoke detectors, etc.

3 mm (T-1) @ 50ma

Part Number	Max Forward Voltage	Typical Voltage	Viewing Angle
11-680	1.6V	1.4V	30°

5 mm (T-1 3/4) @ 50 ma

Part Number	Max Forward Voltage	Typical Voltage	Viewing Angle
11-681	1.6V	1.4V	45°

Press in Holders

Press to fit holders, hold flangeless LED's snugly into mounting hole.

No. 11-400

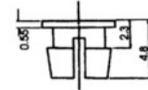

3 mm LED (5.5 mm hole)

No. 11-401

5 mm LED (6.2 mm hole)

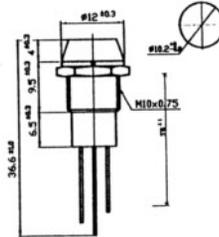

No. 11-404

5 mm LED (6.2 mm hole) with lamp support

Bi-Polar 8 mm LED

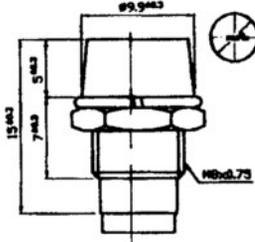

Lamps are in a recessed chrome bezel which holds a 8 mm LED that operates at 2V. The LED glows Red if current is applied in one direction and Green if applied in the other direction, mounting hole 9.8mm (25/64")

No. 11-352 Red / Green

5 mm LED Lamp Holder

The holders hold a 5 mm LED (T-1 3/4). They are a chrome recessed style holder which mounts into a 7.9mm (5/16") hole with a hex nut.

No. 11-480

Blinking LED's

The blinking LED operates on 3 - 10 VDC at 25 milliamps. This series of LED's have internal CMOS (or TTL circuits to drive the LED blinking and no external or additional circuitry is required.

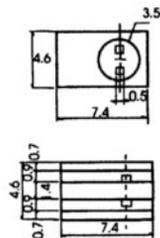

5mm (T-1 3/4)

Part Number	Pulse Rate (VDD=5V)Hz	LED Color	Viewing Angle	Luminous Intensity
11-672	2.4Hz	Bright Red	45°	12.0
11-674	2.4Hz	Yellow	45°	35.0
11-675	2.4Hz	Green	45°	40.0

90° Surface Mt. Holders

Mount LED's at 90° to PCBs

No. 11-409

3 mm Single

No. 11-410

5 mm Single

5 mm Dual

CABLE TIES & MOUNTS

Quick Release Cable Tie

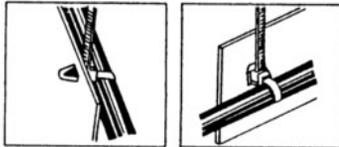

- Quick release cable tie allows multiple use capabilities.

Part No.		Length	Width	Max. Bundle Dia	Min. Tensile Strength
25/pkg.	100/pkg.				
13-254	13-104	4"	.14"	1"	40 lbs.
13-256	13-106	6"	.19"	1-1/2"	50 lbs.
13-258	13-108	7"	.19"	2-1/8"	50 lbs.
13-259	13-109	8"	.19"	2-3/4"	50 lbs.
13-2511	13-1011	11"	.19"	3-1/2"	50 lbs.
13-2514	13-1014	14-1/2"	.19"	4"	50 lbs.

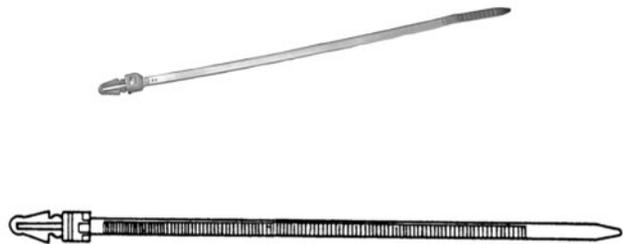

Push Mount Tie

- Material: UL approved NYLON 6/6, 94V-2
- Press cable tie into a pre-drilled hole of 3/16" for simple and secure one-piece harness tying and mounting.

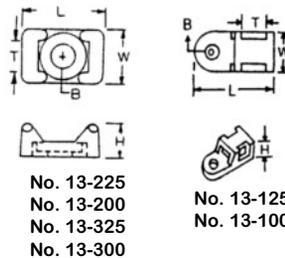

Part No.		Length	Width	Max. Bundle Dia.	Min. Tensile Strength
25/pkg.	100/pkg.				
13-105	13-1005	6-1/8"	.14"	1-9/16"	40 lbs.

Saddle Type Tie Mounts

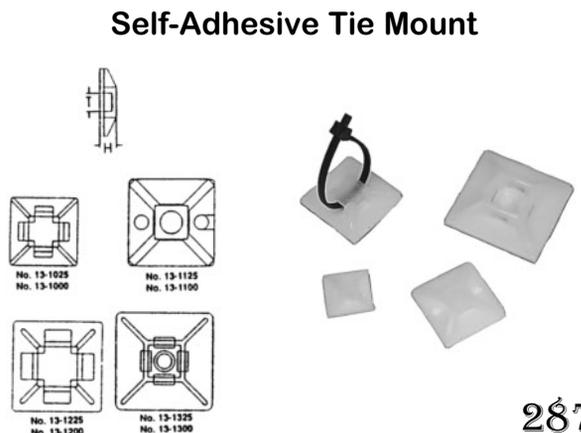

- Material: UL approved NYLON 6/6, 94V-2
- Saddle design provides maximum stability to bundles of wire.
- Attach to surface with a screw and secure wire bundles with cable ties.

Part No.		H	L	W	T	B
25/pkg.	100/pkg.					
13-125	13-100	.197"	.75"	.37"	.197"	.134"
13-225	13-200	.275"	.60"	.40"	.197"	.118"
13-325	13-300	.354"	.90"	.63"	.354"	.236"

- Material: UL approved Nylon 6/6, 94V-2 (Back with adhesive tape)
- SELF-ADHESIVE TIE MOUNT is designed to support light weight wire bundles when properly applied on any clean, smooth, grease-free surface. For heavy support, mounting hole is supplied for screws
- To apply, simply peel off backing paper and apply mount to surface. Now cable ties can be inserted to secure wire bundles

Part No.		L	W	H Without Tape	Mounting Hole	T

* 100 Pcs./PKG

CABLE TIE

- Material: Philmore standard cable ties made from U.L. approved nylon 6/6. Normal service temperature range: - 40° C to 85° C. Flammability rating: UL 94V-2
- Weather resistant nylon: Carbonate "A" was added for greater resistance to ultra violet light in outdoor application.
- Heat stabilized nylon: Service temperature 135° C
- Specification: Made to comply with mil-spec drawing No. MS-3367 tensile strength meets or exceeds MIL-S-23190D Standards.

Part No.		Length	Width	Max. Bundle Dia	Min. Tensile Strength
Natural	Black UV Resistant				
13-2004	13-3004	4"	.10"	31/32"	18 lbs.

3U / 6U & EUROCARD / VME PROTOBOARDS

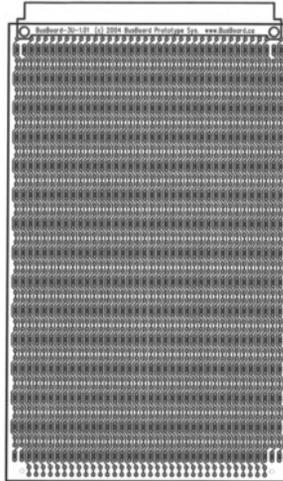

In association with BPS of Canada, Philmore has expanded the prototyping products group with a series of Eurocard style protoboards. Time Saving designs employing etched and drilled FR-4 fiberglass boards with patterns that accommodate just about any normal component. SMD types are available as well as style for leaded components.

The series is precision made, carefully etched and drilled; pads are on 0.10" centers. Solder masks have been applied wherever they are appropriate to reduce solder-bleeding or wicking errors. The entire series is appropriate for analog, digital, or R.F. circuits. Pads for popular, standard multi-pin connectors are included on most of the series.

BusBoard-3U

A standard height (3U) Eurocard/VME size; a zigzag circuit pattern keeps the opposite sides of IC's and connectors properly aligned. This is a FR-4 fiberglass board, solder masked to prevent solder bridges and speed assembly. Holes are drilled on 0.1" center and are .037" diameter to accommodate all IC's, square post headers etc.. Total holes are 38 by 62 holes in 76 separate copper traces. Board size is 3.9" wide, 6.3" long and 1/16" thick (100 x 160 x 1.6mm) and a standard, 1 ounce copper is used.

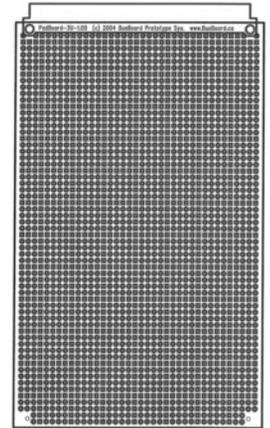

No. 12-300.....BusBoard-3U

PadBoard-3U

A general purpose board with individual pads on 0.10" centers; every fifth pad is square to help with component placement. Holes are drilled .037" to accommodate IC's, square posts and most components. The board accepts a 96 pin DIN-41612 VME connector for backplane or board-to-board connections; holes are provided for latches. The board material is etched FR-4 glass-epoxy with one ounce copper on both sides, tinned for easier soldering. The board size is 3.9" X 6.3 x 1/16" (100 x 160 x 1.6mm). Total holes are 38 rows by 62 columns.

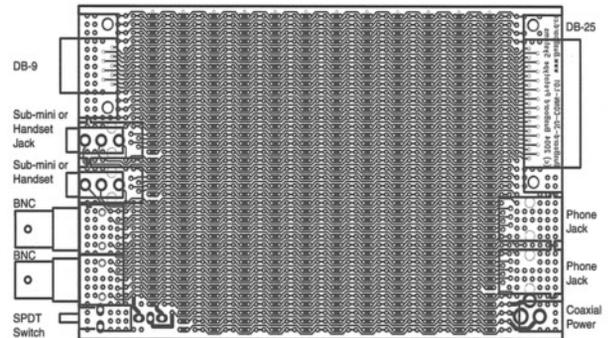

No. 12-308.....PadBoard 3U

BusBoard-3U w/connectors

A busboard much like the 3U but including footprints that will accommodate DB-9, sub-mini and handset jacks, BNC jacks, DB-25 jack, as well as two telephone jacks and a coaxial power jack. There is also a place for an SPDT switch. A standard 3U height, with a zigzag circuit pattern that will accommodate IC's and all standard components. The one ounce copper is precision etched and a solder mask has been added to prevent soldering bridges. There are 76 separate copper traces with .037" diameter holes drilled on 0.10"

Board size 3.9" x 6.3" x 1/16"

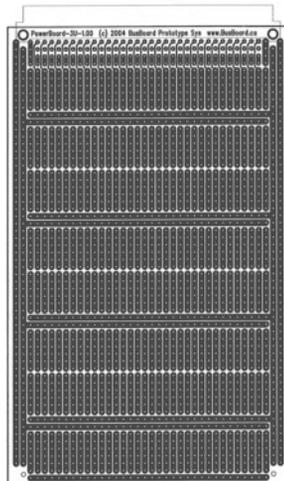

No. 12-303.....BusBoard 3U with connector pads.

PowerBoard-3U

The PowerBoard has interleaved power and ground rails to permit easier distribution of power for your circuit. This general purpose strip board has holes in patterns of six each, arranged for easy insertion of IC's, square post headers and components. Holes are, of course, spaced on 0.10" center and each is .037" in diameter. The board accepts a 96 pin DIN-41612 VME connector for backplane or board-to-board connections; holes are provided for latches. The board material is etched FR-4 glass-epoxy with one ounce copper on both sides, tinned for easier soldering. The board size is 3.9" X 6.3 x 1/16" (100 x 160 x 1.6mm). Total holes are 38 rows by 62 columns.

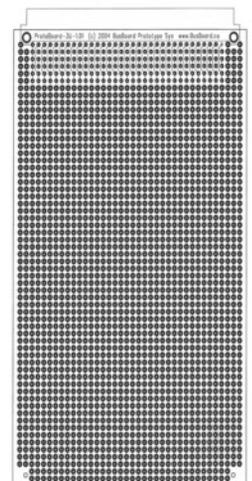

No. 12-311.....PowerBoard 3U

Proto Board-3U

General purpose prototyping board with holes in copper patterns in groups of six. IC's and other DIP components may be placed across gaps and there are plenty of holes for interconnections. Holes are, of course, spaced on 0.10" center and each is .037" in diameter. The board accepts a 96 pin DIN-41612 VME connector for backplane or board-to-board connections; holes are provided for latches.

The board material is etched FR-4 glass-epoxy with one ounce copper on one side, tinned for better soldering. The board size is 3.9" X 6.3 x 1/16" (100 x 160 x 1.6mm). Total holes are 38 rows by 62 columns.

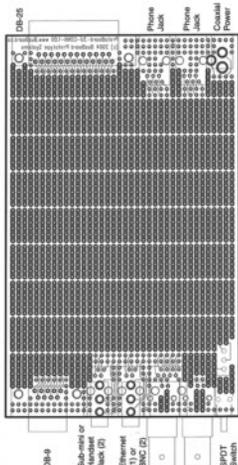

No. 12-313 ProtoBoard 3U

3U / 6U & EUROCARD / VME PROTOBOARDS

Protoboard-3U w/connectors

Pads are connected in groups of six, bridging these groups with dual in-line components can save a lot of assembly time. The board has footprints for standard sized DB-9 and DB-25 connectors as well as BNC's, phone jacks and a coaxial power connector. Pads are also provided to accommodate a SPDT switch. Holes are, of course, spaced on 0.10" center and each is .037" in diameter. The board material is etched FR-4 glass-epoxy with one ounce copper on both sides, tinned for easier soldering. The board size is 3.9" X 6.3 x 1/16" (100 x 160 x 1.6mm). Total holes are 38 rows by 62 columns.

No. 12-315.....Proto Board 3U

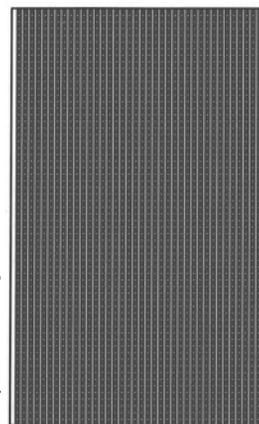

StripBoard-3U

The StripBoard layout is very popular and found in many different (often cheap) materials. This one is much superior as the FR-4 material does not warp or suck up moisture from the environment. It can be recommended for R.F. circuits, digital etc.

Copper thickness is a standard one ounce single sided. Holes are on 0.10" center and are .037" in diameter (for IC's etc.). The strips can be "broken" with your model knife to create separate areas, mount IC's, connectors etc.

The board is a standard 3U Eurocard size at 3.9" X 6.3 x 1/16" (100 x 160 x 1.6mm). Total holes are 38 strips, each with 62 holes.

No. 12-333.....StripBoard 3U

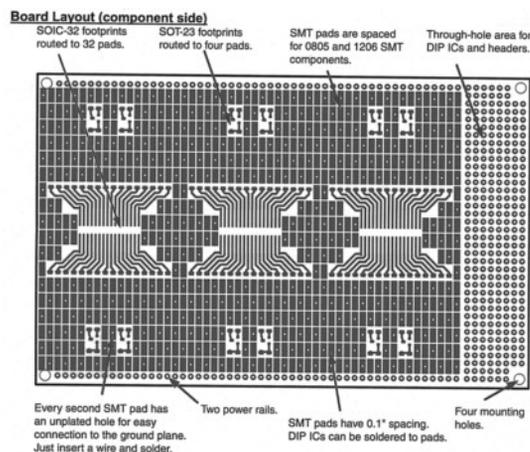

SMT-ProtoBoard-3U SMT ProtoBoard 3u thin

Note that this SMT product is available in a standard 1/16" thickness as well as in the 1/32" thickness that is needed in some applications. See below for part numbers. Surface mount pads are spaced for 0805 and 1206 components. Three SOIC-32 footprints can handle IC's with up to 32 contacts. A solid ground plane on the backside can be reached via drilled holes for connection to the ground plane. The holes are not plated through, allowing the user to choose to make a connection ("via") with a jumper wire or not. A backplane makes this an excellent board for R.F. circuits as well as digital and analog. There are a dozen SOT23 footprints and the rectangular pads will accommodate SOT223 and as well as SOT23 components. As the rectangular pads are spaced on 1/10" centers, leaded components such as DIP IC's will fit well. Mounting holes (4) are in the corners. The board material is etched FR-4 glass-epoxy with one ounce copper on both sides, tinned for easier soldering. The board size is 3.9" X 6.3 x 1/16" (100 x 160 x 1.6mm).

No. 12-320.....SMT Protoboard 3U 1/16" board thickness

No. 12-323.....SMT Protoboard 3U thin 1/32" board thickness

SMTpads-3U thin

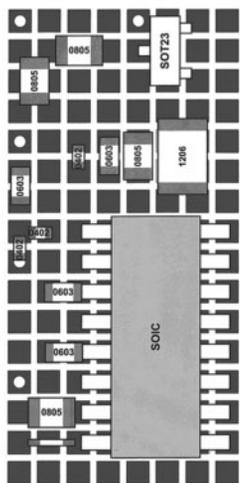

Good as a general purpose board for Surface Mount Technology circuits, the board has 42 mil copper squares on 50 mil centers. SMT components of various sizes and pitch (contacts per inch) may be mounted easily (see illustration). SOIC components, which are a 50 mil pitch and DIP components, which are a 100 mil pitch, can all be used on this board.

A solid ground plane on the reverse side of the board will provide low noise for amplifiers, solid for RF circuits etc. Both sides are one ounce copper. There are .031" holes through to the backside every four pads; holes are not plated through so that the user has the option of creating a via with a jumper wire, or not.

A Flux coating keeps the board prepared for soldering and prevents copper from oxidizing.

The board is a standard 3U Eurocard size at 3.9" X 6.3 x 1/32" (100 x 160 x 1.6mm).

No. 12-325.....SMT pads Board 3U

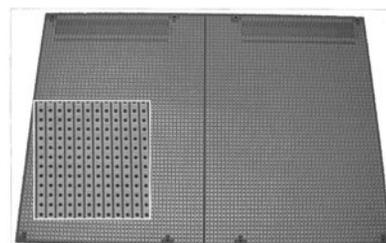

StripBoard-6U

Traces run the full length of the board. The board is single sided, and copper is tinned. Holes are on 0.10" center and are .037" (.94mm) in diameter (for IC's etc.). The strips can be "broken" with your model knife to create separate areas, mount IC's, connectors etc. The copper thickness is a standard one ounce. The board accepts two standard 64-pin or 96 pin DIN-41612 connectors for backplane applications or expansion. The connector footprint gives access to connector rows 1 and 3; row 2 pads are unconnected.

The board is a standard, double-height 6U Eurocard size at 9.2 X 6.3 x 1/16" (233.4 x 160 x 1.6mm). Total holes are in 180 traces, 90 x 62 holes.

No. 12-335.....StripBoard 6U

PROTOBOARDS

In association with BPS of Canada, Philmore brings to you a new series of Printed Circuit Prototyping boards that have been designed by circuit builders. There are two major groups: 3U and 6U boards that can be used in any number of applications where a Eurocard/VME design will simplify integrating your circuit with power supplies as well as with other systems. The next NEW series of Protoboards have been designed to fit into standard (popular styles) of Hammond boxes. The new series of boards are now available either separately OR you can pick up the board and the Hammond box all in one package. All ProtoBox boards will have holes on 0.10" centers and .042" diameter.

All products in this series are manufactured Lead-Free and compliant with RoHS.

ProtoBox Kits with board and Hammond box.

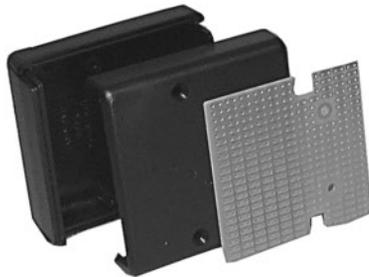

A series of Protoboards that include a well made box from Hammond, one of our industry's leading box makers. If you need to replace the board due to circuit changes, each of the ProtoBox circuit boards included in these kits is also sold separately. Note: please be sure to use the Philmore part numbers when ordering, all of which begin with the 12- prefix (example 12-200 etc.) We do show Hammond numbers on packages for your convenience, but our systems will recognize only the Philmore numbers.

2.3" X 2.3" ProtoBox Kit

The box is the Hammond no. 1593K and the PC board is 2.3 X 2.3 inches. Board material: FR-4 with one ounce copper. Holes are paired and .042" in diameter to accept leads from common components. Board mounts with two 4-40 screws, included. Box; ABS plastic black.

Box size: 3.6" x 2.6" x 1.1 inches.

ProtoBox (includes Box & board) **No. 12-200**
Protoboard only..... **No. 12-100**

3.3" X 2.3" ProtoBox Kit

The box is the Hammond no. 1593L and the PC board is 3.3 X 2.3 inches. Board material: FR-4 with one ounce copper. Holes are paired and .042" in diameter to accept leads from common components. Board mounts with four 4-40 screws, included. Box: black ABS plastic. Box size: 3.6 x 2.6 x 1.1 inches.

ProtoBox (include Box & board) **No. 12-203**
Protoboard only..... **No. 12-103**

1.9" X 2.4" ProtoBox Kit

The box is the Hammond no. 1593P (black) and the PC board is 1.9 x 2.4 inches. Board material: FR-4 with one ounce copper. Holes are paired and .042" in diameter to accept leads from common components. Board mounts with four 4-40 screws, included. Box: ABS plastic color black,

Box size: 3.6 x 2.6 x 1.1 inches

ProtoBox (include Box & board) **No. 12-206**
Protoboard only..... **No. 12-106**

2.4" X 2.7" ProtoBox Kit

The box is the Hammond no. 1593Q (black) and the PC board is 2.4 x 2.7 inches. A "battery door" allows access for one or two AA, up to 4 AAA or a Nine volt battery. (user must supply holder). Board material: FR-4 with one ounce copper. Holes are paired and .042" in diameter to accept leads from common components. Board mounts with four 4-40 screws, included. Box color black, ABS plastic.

Box size: 4.4 x 2.6 x 1.1 inches.

ProtoBox (include Box & board) **No. 12-209**
Protoboard only..... **No. 12-109**

PROTOBOARDS

2.8" X 4.3" ProtoBox Kit Hand-held case design

Designed for hand-held applications, the box is the Hammond no. 1553B (black) and the PC board is 2.8 x 4.3 inches. Board material: FR-4 with one ounce copper. Holes are paired and .042" in diameter to accept leads from common components. Holes are spaced on 0.10" centers. Board mounts with four 4-40 screws, included. Box color black, ABS plastic.

Box size: 4.6 x 3.1 x 1.0 inches.

ProtoBox (includes Box & board) **No. 12-212**
Protoboard only..... **No. 12-102**

2.9" X 5.5" ProtoBox Kit Hand-held case, battery door

The box is the Hammond no.1553DB (black) and the PC board is 2.9 x 5.5 inches. The box has a battery door that will permit the use of two AA cells or a 9V transistor battery. Board material: FR-4 with one ounce copper. Holes are paired and .042" in diameter to accept leads from common components. Board mounts with six 4-40 screws, included. Box color black, ABS plastic.

Box size is 4.4 x 2.6 x 1.1 inches.

ProtoBox (includes Box & board) **No. 12-215**
Protoboard only..... **No. 12-115**

4.05 X 2.05" ProtoBox Kit with Shielded Metal Box

The box is the Hammond no.1590B and the PC board is 4.05 x 2.05 inches. The box is die cast aluminum and a natural aluminum color. Lap joint construction and IP54 dust/water protection provide an enclosure that is EMI/RFI tight. Board material: FR-4 with one ounce copper. Holes are paired and .042" in diameter to accept leads from common components; holes are on .10" centers. Board mounts with two 4-40 screws, included.

Box size: 4.39 x 2.34 x 1.06 inches.

ProtoBox (includes Box & board) **No. 12-218**
Protoboard only..... **No. 12-118**

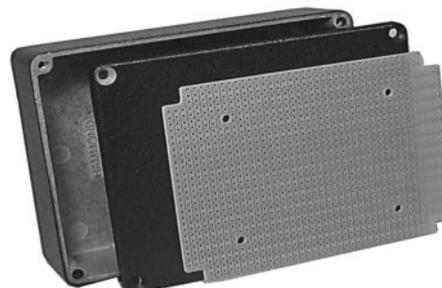

4.25 X 3.20" ProtoBox Kit with Shielded Metal Box

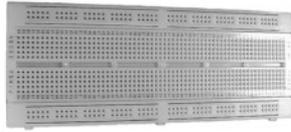

The box is the Hammond no.1590BB and the PC board is 4.25 x 3.20 inches. The box is die cast aluminum and a natural aluminum color. Lap joint construction and IP54 dust/water protection provide an enclosure that is EMI/RFI tight. Board material: FR-4 with one ounce copper. Holes are paired and .042" in diameter to accept leads from common components; holes are on .10" centers. Board mounts with four 4-40 screws, included.

Box size: 4.67 x 3.68 x 1.18 inches.

ProtoBox (include. Box & board) **No. 12-221**
Protoboard only..... **No. 12-121**

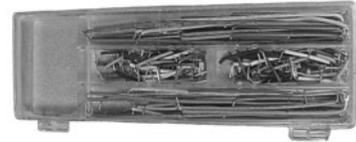

PROTOBOARDS & PHOTO CELLS

No. RH21

No. RH53

No. SWS02

No. RH32

No. RH21B

No. RH74

For prototype design, testing and modification of circuits. These breadboards will accept the leads of nearly any electronic components (up to 0.032") in the 0.1" x 0.1" grid of solderless tie points, dual in-line packages, or DIP's such as I.C.'s plug in for very fast assembly and modification of circuitry. Solid wire jumpers plug in for interconnections. Contacts are a durable alloy with nickel plating; body is made of ABS polymer. Breadboards have indexing numerals on each row and column to speed assembly and eliminate errors. Ideal for the educator and in the designers lab also.

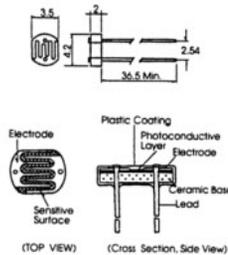

Part No.	Length	Width	Height	Tie Points	Busses of 5	Busses of 25	14 Pin I.C. Count
RH21	6.77"	2.56"	.394"	840	128	8	9
RH21B	7.68"	4.80"	.866"	840	128	8	9

RH53	7.56"	10.0"	.866"	2420	384	20	27
RH74	9.72"	10.75"	.866"	3260	512	28	36

No. SWS02 - Breadboarding Wire Kit

Containing several different colors of insulated solid 22 AWG hook-up wire. Prestripped lengths for use between tiepoints, ten pieces of each color supplied in storage box.

Cadmium Sulfide PHOTO CELLS

The cadmium sulfide photo cell has a high resistance in darkness but resistance is quite low when in light of 100 foot-candles or more. A typical use is for switching on lighting after dark; also used in alarm systems, exposure meters, flame detectors, opto-couplers etc.. All three cells have a dark resistance of 5,000 ohms and 300 ohms in bright light (of 100 cds. or more).

Features:

- Epoxy - Coated Low Profile Cell
- High reliable power dissipation
- Compact dimensions

Applications:

- Auto - Focus Slide Projects
 - Exposure Meters
 - Contrast Control in TV sets
 - Dimmer Switches
 - Dimmers for LED and LCD Displays
 - Flame Detectors in Oil Burners
 - Street Lamp Switching
 - Electronic Toys
 - OPTO - Couplers
 - Electronic Organs
- Electrical Characteristics at Ta=25C

Part No.	O.D.	Max. Power Dissipation	Qty. Per Pkg.
10805	5mm	125 mW	3
10807	7mm	150 mW	3
10810	10mm	400 mW	2

TELEGRAPHERS (CW code) KEY.

An old standard in a very economical design. Travel distance and tension are both adjustable. The key should be attached to counter top, a wood platform etc. Use with code practice oscillators, Ham transmitters.

Code Key No. B53

ELECTRONIC XENON TUBE

- U-Shaped for high FPS timing and signal light
- Ideal for strobe light, photoflash, etc.
- Min. Anode Voltage - 200V
- Max. Anode Voltage - 400V
- Use with No. 486 Trigger Coil

No. 485

TRIGGER COIL

- 4 KV
 - Use with No. 485 Xenon Flash Tube
- No. 486

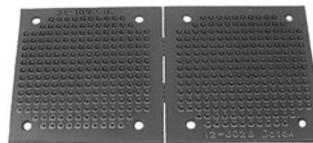

PROTOBOARDS

FR - 4 FIBERGLASS AND PHENOLIC PROTOBOARDS

Datak Protoboards, Available in fiberglass for R.F. and digital circuits. In addition to use at high frequencies, fiberglass provides better characteristics in higher temperature environments, those with exposure to humidity. Choose from phenolic for economy or the new fiberglass substrate.

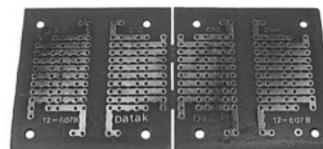

Datak Protoboards have copper one side, and are printed on the (opposite) component side to aid in keeping track of where copper side traces are located. Holes accept standard component leads, including IC's, and are spaced on standard 0.10" centers. Board material is standard 1/16" thickness for both materials. FR-4 material dielectric constant is 4.7 at 1MHz and 4.25 at 1 GHz. typical.

Small General Purpose Protoboard. Size 1.8" wide by 3.6" long. The board is two smaller, identical boards and scored for easy break-apart when only a very small board is needed. This is a simple board with a matrix of (single) holes on 1/10" centers, copper one side.

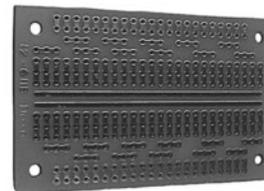

Small general purpose board in Phenolic.....Datak no. 12-602
Small general purpose board in Fiberglass.....Datak no. 12-603

Small IC Protoboard. Size 1.8" wide by 3.6" long. The board accommodates standard DIP (dual inline) IC's. Two smaller, identical boards and scored for easy break-apart when only a very small board is needed. Hole spacing on 1/10" centers, copper one side.

IC Protoboard in Phenolic.....Datak no. 12-607
IC Protoboard in Fiberglass.....Datak no. 12-608

Small Protoboard. Size 1.7" wide by 2.9" long. Features drilled copper pads connected via traces in groups of two and three. A general purpose small board that can accommodate transistors and common passive components well.

Protoboard in Phenolic.....Datak no. 12-611
Protoboard in Fiberglass.....Datak no. 12-612

Medium size Protoboard. Size 5.16" x 1.90" and large enough to accommodate circuits containing several IC's. Forty-five rows of holes are set up so that IC's can straddle the center of the board and each IC pin has five pads for the connection of the IC pin to other components.

Medium Size Protoboard in Phenolic.....Datak no.12-617
Medium Size Protoboard in Fiberglass.....Datak no. 12-622

Large Protoboard 4.30" x 5.50" a board with over 1900 pad/holes and large enough to accommodate some large circuits. The component side pads are imprinted with ink so that the user will know where the copper is on the solder side. Holes are sized to accommodate standard, leaded components on 1/10" centers; bright copper accepts solder readily.

Large Protoboard in Phenolic.....Datak no. 12-600
Large Protoboard in Fiberglass.....Datak no. 12-601

Strip PROTOBOARDS

Copper strips on one side, 0.40" diameter holes are on 0.10" centers to accept common component leads. The strips run full length but user may break them up using an Exacto knife. These are handy for prototyping and may be cut with sheet metal sheer, hack saw etc. to make smaller boards. The board is xpx phenolic material.

No. 12-618...size 3 15/16" wide X 6 5/16" length

No. 12-619...size 3 15/16" wide X 9 13/16" length

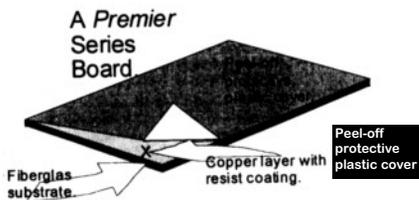

PROTO TYPE & PRINTED CIRCUIT BOARDS

PREMIER PRINTED CIRCUIT BOARDS POSITIVE ACTING, PRESENSITIZED PC BOARDS USING FR - 4 FIBERGLASS SUBSTRATE

These new sizes are in demand in many specialized applications. The thin 1/32" boards are light weight and fit edge connectors designed for that board thickness. And the 2oz. boards have exactly twice the standard thickness of copper; a requirement in applications where higher current will be used or when higher conductivity is imperative.

Like the standard series of 1/16" thickness, 1oz. Premier Printed Circuit boards, the new numbers may be exposed with any ordinary 100 watt lightbulb. Use with either Datak positive acting developer Nos. 12-402 or 12-404.

Board Size (Inches)	Copper Wt.	Copper Sides	Thickness	Premier Number
2 x 4	1 oz.	1	1/16"	14-024
3 x 4	1 oz.	1	1/16"	14-034
3 x 4	1 oz.	2	1/16"	14-234
3 x 6	1 oz.	1	1/16"	14-036
4 x 6	1 oz.	1	1/16"	14-046
4 x 6	1 oz.	1	1/32"	14-446
4 x 6	1 oz.	2	1/32"	14-546
6 x 6	1 oz.	1	1/16"	14-066
6 x 6	1 oz.	2	1/16"	14-266
6 x 9	1 oz.	1	1/16"	14-069
6 x 9	1 oz.	2	1/16"	14-269
6 x 9	1 oz.	1	1/32"	14-469
6 x 9	1 oz.	2	1/32"	14-569
6 x 12	2 oz.	1	1/16"	14-662
6 x 12	2 oz.	2	1/16"	14-762
7 x 10	1 oz.	1	1/16"	14-071
12 x 12	1 oz.	1	1/16"	14-112
12 x 12	1 oz.	2	1/16"	14-312

NOTE: For complete printed circuit board accessories see pages 268 - 275.

COPPER CLAD BOARDS

SMD SOLDERING PRACTICE BOARD for training rework personnel

No. 12-900 - Double Sided SMD Soldering Training Board

Training employees to remove/replace Surface Mount Components is expensive if you have to draw from good inventory. The Datak No. 12-900 practice board provides a range of component pads intended to be used by new employees until they are competent with your desoldering/soldering equipment. Components themselves are not supplied and it is suggested that you use defectives from your inventory or the lowest cost components available from surplus dealers or distributors.

Both sides of the PC board are identical and each side contains the following component footprints: One each PLCC 68 pin and 44 pin, one each 68 pin PQFP Bumper pack, eight SOT-23, two PLCC 28, four PLCC20, one PLCC24, three PLCC18, two SOIC20, two SOIC14 and an assortment of SOT-143, 3216, SOT-89 and 0805 patterns. Employees can learn the job well even if your exact patterns are not on this training board.

PC BOARD MAKING CHEMICALS, ACCESSORIES

NEGATIVE ACTING LIQUID PHOTO RESIST

A liquid, spray-on coating in its own spray bottle. When a coated board is exposed to UV light, it is then developed in the ER-8 liquid developer. A remaining etch resist will protect the copper from an etchant bath, thus producing your circuit. Negative acting. Coats approx. 1700 sq. inches. May be flow coated or brushed.

4 oz. Bottle (Includes Sprayer)-No. ER71

NEGATIVE RESIST DEVELOPER

This developer will develop the ER-71 Negative Acting Resist; resist areas not hardened via UV light are dissolved away. UV hardened areas remain to resist the etchant.

16 oz. Can Developer-No. ER8

PC BOARD ETCHING SOLUTION (LIQUID FERRIC CHLORIDE)

This Ferric Chloride is one of the most popular and safest etching materials for copper clad boards available. A quart of etching solution will etch approximately 960 square inches of PC board.

Caution: use only with plastic or glass trays

12-2038 Quart (32 oz)

12-2039 Gallon (128 oz)

DRY CONCENTRATE ETCHANT (FERRIC CHLORIDE)

Ferric Chloride is the best choice for etching copper PC boards. Datak supplies FeCl in a dry, powder form and the user must add it to water to make the etching solutions. The 1/4 lb. package produces 1 pint which will etch approx. 200 sq. inches of standard copper board.

1/4 lb. FeCl etchant powder-No. ER3
1 lb. FeCl etchant powder-No. ER21
2 lb. FeCl etchant powder-No. ER22

TINNIT™ TIN PLATE

Tinnit™ will plate a copper clad board with a bright tin plate approx. .0004" thick. Enhances solderability, resists oxidation. Also use on card edge contact fingers. Supplied as a dry concentrate; just add water. One pint plates up to 600 sq. inches of copper. May be used to plate some other metals such as brass, bronze, iron; anything more active than tin.

Plating is complete in about 10 minutes in a fresh solution.

Tinnit™ is supplied as a dry mixture with indefinite shelf life.

When mixed with water, the solution has approximately a 2 month life.

TINNIT 1 Pint Size - No. ER18

TINNIT 1/2 Gallon Size - No. ER181

POWER ETCH PUMP

The etch pump and distributor tubing may be used to accelerate etching and free you from some of the constant agitating of the etch solution. Bubbles provide both agitation and also some oxygen which enhances the process

Etch Pump Set - No. ER12

TINNIT™ KIT

This handy kit contains package of No. ER-18 Tinnit (sufficient to make 1 pint and plating 600 sq. in. of copper), plastic tray (8" x 6" x 2"), 16 oz. plastic bottle for storing tinnit between uses and tool for handling P.C. board during tinning process.

No.12-800

DATAK SYSTEM INSTRUCTION MANUAL

A manual that gives detailed instructions for most of the Datak PC board making products including: NEG-FAST film, Negative Photo Resist, Presensitized PC Boards, Tinnit™ Tin Plating, Etching. A complete guide for PC board making via DATAK products.

No. 12-760A

PC BOARD MAKING CHEMICALS, ACCESSORIES

REPLACEMENT HEATER

Replacement heater for No. 12-700 etch tank system.

No.12-702

Also DATAK offers air pump as supplied with etch tank system as Part No. ER12.

PC DEVELOPING & ETCHING TRAYS

These are lightweight, tough, stain resistant developing trays. They are designed for use with printed circuit board developing solution such as Datak No. 12-402 & 12-404 and etching solution such as 12-2038, 12-2039 & ER-3, ER-21 & ER-22. We offer several sizes for your convenience.

12-515 8" x 6"

12-570 5" x 7"

12-810 8" x 10"

12-1114 11" x 14"

ALUMINUM TRAYS

8" x 8" x 1-3/4" aluminum trays for use with negative method developing chemicals.

Pkg. of 2

No.12-520

EXPOSURE BULB

UV source for Datak Neg-Fast film, Presensitized PC Boards, and Negative Acting Photo Resist

No.ER2000

HI-SPEED TOOL STEEL DRILL BITS

No.12-564 - #52 (.064" dia.) pkg 2

No.12-552 - #55 (.052" dia.) pkg 2

No.12-540 - #60 (.040" dia.) pkg 2

No.12-535 - #65 (.035" dia.) pkg 2

No.12-532 - #67 (.032" dia.) pkg 2

No.12-528 - #70 (.028" dia.) pkg 2

DATAK offers 6 popular size of hi-speed bits for drilling PC boards. 2 per pack

No.12-530-contains 1 each dia. .028/.032/.035

No.12-550-contains 1 each dia. .040/.052/.064

Replacement Hose For Nos. ER12 & 12-700

NO. 12-704

POSITIVE TYPE DEVELOPER CONCENTRATE

For developing Philmore precoated PC boards. Developer is mixed 10 parts tap water to 1 part concentrate. Ten fully diluted ounces will develop between 12 and 22 square feet of precoated board (depending upon circuit density). This mild sodium hydroxide solution with additives may be flushed down drain after use.

No. 12-402 - Two ounce concentrate

No. 12-404 - Four ounce bottle concentrate

Neg-Fast® Generation II Film

Allows user to quickly create a negative from their paper or transparent positive artwork. This film is U/V sensitive and should be handled under subdued light; we recommend a yellow 'bug' light of about 25 watts. For exposure, the Datak ER2000 is recommended. For developing, use only Datak No. 12-710. Use Neg-Fast film negatives with ER-71 negative acting Photoresist for quick and easy production of your PC Boards. Complete instructions are enclosed

Neg-Fast film is available in:

Cat No. 12-710 is 4 oz. each of developer and fixer concentrates.

Cat No. 12-720 is a package of six Neg-Fast sheets, 5"x6".

Cat No. 12-730 is a package of two Neg-Fast sheets, 8"x11".

Cat No. 12-740 is a package of four Neg-Fast sheets, 5"x6", and 4 oz. each of developer and fixer

SPECIALTY BOARD-LEVEL PRODUCTS

CIRCUIT-FIX™ PC BOARD TRACE MAKER

The CIRCUIT-FIX system has been designed to allow you to cut accurate, burr-free copper foil traces for PC boards for the purpose of adding to or repairing a circuit board. CIRCUIT-FIX is a handy system whether for prototype modifications or for circuit repairs.

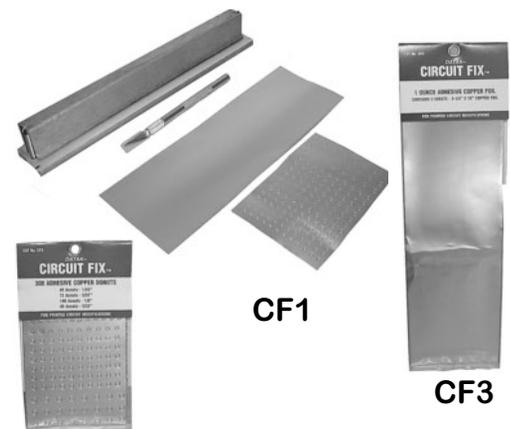

The system centers on a spring-loaded clamp and cutting guide that permits excellent trace cutting with a modeling knife. Both the knife and a sheet of self adhesive copper trace material are included. Also included is a sheet of (assorted sizes) pure copper self-adhesive donut pads. The cut trace and donuts are burnished to the board and then soldered to component leads.

CIRCUIT-FIX SYSTEM complete - No. CF1

Copper Donuts refill (308 pcs. assorted) - No. CF2

Copper Foil refill (2 sheets, 3.25" x 10") - No. CF3

(Note: Copper donuts and foil are 1 oz. copper, .0016" thickness. The copper is passivated to retard corrosion and permit easy soldering.)

CF2

PROTECTIVE COATINGS & PCB ACCESSORIES

All dry transfers have limited resistance to abrasion and handling; they should be given a protective coating. A great deal of development has gone into creating Datak's protective coatings, which we believe to be the best that you can use on any brand of transfers.

DATAKOAT™ for Hard Surfaces

Protects dry transfers with a tough, clear, weatherproof shield. Water clear and will not yellow with age.

RESISTANCE: unaffected by methanol, ethanol, isopropanol, hexane, naphtha and mineral spirits. Unaffected by most lubricating oils and hydraulic fluids. But soluble in; Freon, methylene chloride, butanol, higher alcohols, acetone, ketones, toluene, xylene and glycol ethers.

Supplied in a brush-on package for local application to dry transfers. The dried brush-on leaves a shiny coating;

DATAKOAT brush-on liquid w/thinner (1 oz.) - No. 04176

UN No. 1294

HARDKOAT™ for Paper or Cardboard...

Clear sprays protect dry transfers on absorbent surfaces such as paper. Abrasion resistance is superior to DATAKOAT, but resistance to weathering and UV is not as good.

One coat over paper will completely protect a dry transfer from scuffing and abrasion. Matte coats give a pleasing frosted effect. Heavy multiple spray coats may have a perceptible yellowish tint, so use DATAKOAT where an absolutely water-clear coat is essential. HARDKOAT films dry tack-free within a few minutes, but require several days to fully harden.

When coating a large area, the gloss spray can produce a pleasing, somewhat shiny appearance. If using on local area, the matte finish tends to be less visible.

HARDKOAT gloss spray (12 oz.) - No. 04170

HARDKOAT matte spray (12 oz.) - No. 04171

PC BOARD MAKING CHEMICALS, ACCESSORIES

COPY CLEAR SHEETS

For use in laser printers and most dry toner copy machines to make film positives. Great for copying circuits from magazine or printing out circuits designed on PC DATAK

Pkg. of 5 sheets
(8-1/2" x 11")
No.12-500

1/10" GRID SHEETS

1/10" Grid Sheets printed in non-repro blue. Perfect for circuit layout when used under DATAK clear lay-out film (No. MS-21)

Pkg. of 3 sheets
(8-1/2" x 11")
No.12-505

NITRILE DISPOSABLE GLOVE

These gloves are perfect for use when working with chemicals involved with making P.C. boards. Good for use with photo chemicals (negative or positive) and ferric chloride etching solution.

-1 Pair
No.12-510

LAB PC BOARD ETCHING TANK SYSTEM

This handy etching tank system will handle P.C. boards up to 8" x 9" and 2 at a time. The tank holds 1.35 gallons of etching solution. The system is supplied with air pump for etchant agitation, heater for keeping etchant at optimum temperature and convenient board holder. Tank has tight fitting top to prevent evaporation when not in use.
No. 12-700

PLASTIC STORAGE BOTTLES

DATAK offers 2 sizes (8 oz. and 16 oz.) plastic bottles for safe storage of your chemicals.

Pkg. of 2 Bottles
No.12-506- 8 oz.
No.12-516- 16 oz.

PCB DRAFTING ACCESSORIES

BURNISHING TOOLS

A quality stylus burnisher will give you a better, easier job with dry transfers than using a ball point pen. Polished metal tips provide even transfer, even if you use too much pressure.

STANDARD TOOL for characters and lines from .080" up to 1/4". The other end is a 3/8" felt, flexible burnisher. **No. 04158**

SPOON TIP burnisher tool with tip suitable for transfers 1/4" and larger. Other end a 3/8" felt, flexible burnisher. **No. 04159**

DRAFTING KNIVES

A standard No.1 modeler's knife, indispensable for drafting and printed circuit design; includes five assorted blades.

No. 1. knife and blades-No. 12161
Refill package of five No.11 blades-No. 12182

STAINLESS TWEEZERS

Precision stainless steel tweezers with hand-ground, polished needle points. Handy in all PC, drafting work and also for handling tiny electronics components.

Stainless Steel Tweezer with #3C point-No. 04160
Stainless Steel Tweezer with #5 point- No. 04161

DIRECT ETCH™ RESIST PENS

These pens are filled with lacquer ink that is resistant against aqueous PC etch solutions. Ideal for photo resist pattern touch-up or for direct-etched boards with tight spaces. Board must be clean for best results.

Fine Point-No. ER15
Extra Fine Point-No. ER25

PRECISION KNIFE SET

This kit is a must for hobbyist or anyone working with PC artwork. Very handy for many uses in the lab.

Precision Knife Set-No. 10250

Kit contains:

- 3 Knife Handle
- 1 Blade Holder
- 10 Assorted Blades
- Durable Solid Case for easy storing

DRAFTING FILM for PC ARTWORK (Carrier Film)

A translucent polyester film for use as a carrier film on which drafting symbols can be placed to make original artwork. One side is a matte finish to accept pencil or ink.

Drafting Film (2 Sheets) 8.5"x11"-No. MS21

CONTACT EXPOSURE FRAMES

A contact frame is needed to hold film and PC Boards during the exposure. Spring loaded, steel frame comes complete with glass, backboard, and complete instruction manual.

9"x12" EXPOSURE FRAME-No. ER10
5"x6" EXPOSURE FRAME-No. ER56

PROJECT CASES

Project Case w/ Battery Compartment

These are low profile hand held cases with such internal features as PCB (printed circuit board) standoffs, slots for PCB, and battery compartment. These cases are ideal for Remote Controls, Audio/Video Transmitters, Security Systems, etc. Made of high impact ABS plastic. Available in Black or Light Gray. Dimensions: 4.37" L X 3.25" W X 1.5" H. 9V battery compartment

No. **PB520** Black
No. **PB524** Gray

Project Case w/ Battery Compartment

This convenient sized case has a sloped face area which measures 4" X 2.5" with a precut hole. There is a solid insert for the cutout on which you can mount your own components. The case has internal PCB standoffs, & rubber feet. These cases are ideal for keyboards, controllers, test instruments, etc. They are constructed from High Impact ABS plastic and are available in Black or Gray. Dimensions: 7.44" L x 4.11" W x 1.30" H (at the main part of the case.). 9V battery compartment

No. **PB530** Black
No. **PB534** Gray

Plastic Boxes with Aluminum Lids

Black ABS plastic boxes with aluminum lid. Resists breaking and easy to drill.

Part No.	L	W	H
PB140	3.0"	2.0"	1.0"
PB145	4-5/16"	2-1/4"	3/4"

With internal PC Board slots

Part No.	L	W	H
PB160	4-1/8"	2-1/8"	1-1/2"
PB165	5.0"	1-3/8"	1-1/2"
PB150	4.0"	3.0"	1-1/2"
PB170	5-3/4"	3-5/16"	2.0"
PB155	5-7/8"	4.0"	2-3/16"
PB175	7.0"	4-5/16"	2-3/8"

Plastic Instrument Cases with Plastic Lid

These instrument cases are made of ABS plastic with plastic lid and internal slots to hold PC boards.

Black

Part No.	L	W	H
PB100	3-1/4"	2-1/8"	1-1/4"
PB110	5-1/8"	2-3/4"	1-3/4"
PB120	6-1/4"	3-3/4"	2-1/8"
PB130	7-3/4"	4-3/8"	2-3/8"

Grey

Part No.	L	W	H
PB180	4.0"	2.0"	1-1/2"
PB185	5.0"	2-1/2"	1-1/2"
PB190	5-3/4"	3-5/16"	2.0"
PB195	7.0"	4-5/16"	2-3/8"

Sealed ABS Enclosures

These versatile cases have many uses in the electrical and electronic industries. They are easily drilled or punched, making them ideal as circuit enclosures and junction boxes.

External Dimensions

Part No.	L	W	H
PB404	4.5" x	2.55" x	1.158"
PB411	4.5" x	3.54" x	2.165"
PB413	6.75" x	4.75" x	2.165"

Features

- >High impact ABS material molded in dark grey color.
- >Lids & bases have tongue and groove seal ing system with a neoprene gasket.
- > Wall mounting holes and lid fixing screws are outside sealing area thus preventing the ingress of dust and moisture.
- >Designed to meet IP65 of IEC529 and NEMA 4 specifications for dust & moisture.
- >Internal guide slots for mounting PC boards vertically
- >Bosses on internal base allows fixing of PC boards horizontally or for connection of terminals, etc. into threaded brass inserts.
- >Lid fixing screws are M4 stainless steel (non-magnetic) into threaded brass inserts.
- > Operating temperatures: -20°-+80°C

Sealed Die-Cast Aluminum Enclosures

These enclosures are ideal for housing sensitive electronic assemblies, pneumatic, hydraulic and electrical devices in commercial and industrial environments providing effective shielding of EMI & RFI signals.

External Dimensions

Part No.	L	W	H
PB306	4.5" x	2.55" x	1.180"
PB313	4.5" x	3.54" x	2.165"
PB320	6.75" x	4.75" x	2.165"

Features & Specifications

- >Die-cast aluminum alloy, resistant to atmospheric and marine corrosion. In natural finish
- >Lids incorporates a recessed oil resistant neoprene gasket.
- >Wall mounting holes and lid fixing screws are outside the sealing area thus preventing the ingress of dust & moisture.
- >Designed to meet IP65 of IEC529 and NEMA 4 specifications for dust & moisture.
- >Internal guide slots for mounting PC boards vertically
- >Bosses on internal base allows fixing of PC boards horizontally or for connection of earth grounding terminals, etc.
- >Lid fixing screws are recessed captive screws, M4 stainless steel (non-magnetic)
- >Screw holes for lid mounting are roll threaded.
- >Ground screw and washer provided are copper-plated.

PROJECT CASES & RUBBER FEET

Deluxe Molded Project Box

This fine project box provides user with professional finished product. The unit features threaded brass inserts in top & bottom for security circuit board assemblies. The case is secured together with 4 screws and threaded brass inserts for non stripping reuse. The front and back panes are removable for easy machining and drilling. Case top and bottom are light grey. The front and back are dark grey.

Part No.	L	W	H
PB275	7-1/2"	4.0"	2-7/8"
Removable front & back Dimensions 2-3/8" x 3-5/8"			

Test Equipment & Instrument Cases

These deluxe instrument cases feature separate front and back panels, internal slots to hold PC boards in place and internal mounting posts for securing PC boards. Case has metal studs for non stripping of screws holding the case together. Front & back panels are plastic and are easily machined and drilled. PB250 has grey case top and front & panels are black. PB200 is all black.

Part No.	L	W	H
PB200	8.0" x	6-1/4"	2-1/2"
PB250	10-1/8" x	7-3/8"	3-3/8"

RUBBER BUMPERS & PLASTIC FEET

For use on chassis boxes and equipment cabinets

Rubber feet/bumpers are self-adhesive and supplied on a backing sheet. Application simply requires peeling individual foot from the backing and sticking it to your cabinet or chassis box. Soft rubber but will not leave marks on hard surfaces.

Soft but firm, these three items make good bumpers, feet for chassis boxes and spacers for PC boards. All are black in color and about 70 durometer hardness.

Dome Shaped RUBBER FOOT or BUMPER

Dome shaped, self adhesive foot. Peel off of backing and apply to any clean, smooth surface. Semi-soft rubber does not normally leave marks.

Diameter at base: .630" Height: .317"

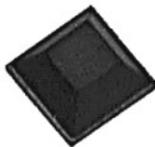

No. 10-605 12 pack

Tapered Square RUBBER FOOT or BUMPER

Self adhesive and will stick well to a chassis box. Semi-soft rubber will not easily leave marks.

Width at base: 0.50" Height: .237"

No. 10-610 12 pack

Tapered Cylinder RUBBER FOOT or BUMPER

Shaped like a tapered cylinder, self adhesive and will stick well to a chassis box. May be used with a no. 8 wood screw or machine screw, if necessary. Semi-soft rubber will not easily leave marks.

Diameter at base: .870" Height: .40"

No. 10-602 12 pack

Plastic Cabinet Feet

Molded of durable, high-impact plastic. Generally used in sets of four on the bottoms of chassis boxes, equipment cases and cabinets. All are packaged four per display package and are also available in bulk.

"Tall" PLASTIC FOOT.

A standard style foot, tapered. Made of hard, high-impact plastic. Mount with no. 8 screw (not supplied). Color black.

No. 10-647 4 pack

"Low Profile" PLASTIC FOOT

Semi-hard, molded plastic foot with just enough softness to improve durability and that softens the sound and shock a bit. Mount with a No.6 machine screw and nut or with wood screw. (not included) Diameter: .986" Height: .235"

No. 10-650 4 pack

Collet Mounting Plastic Foot

A clever design, the foot can be mounted on a cabinet from the outside. Drill a 5/16" hole and place the foot into the hole. Then press a plastic pin (supplied) through the center of the foot; the pin spreads the integral collets and the foot is attached.

Diameter: .775" Height: .388"

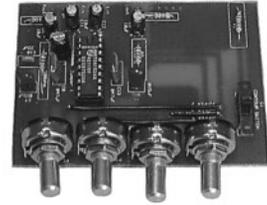

No. 10-644 4 pack

KITS - AUDIO PROJECTS

The Tone-Volume-Balance Control Kit

A serious audio (stereo) circuit; used much like a preamp (eliminates the need for one); that is, between the audio source and your stereo amplifier. Use with your amp or with our kit No. 80-088 ten watt stereo amplifier or with the No. 80-050 44-watt stereo amp (etc.). The kit has separate Bass, Treble, Balance and Volume controls; with loudness contour switch as well. Designed to run on 12 volts DC (@35mA), the circuit will work on "clean" DC voltage from 7.5 to 16 volts ("clean" means low ripple or using battery power). You will need to furnish the power supply and phono connectors and/ or cables.

No. 80-075

RIAA Equalized PreAmplifier Stereo Kit

The grooves in phonograph records could not handle the deep bass and high treble in live music. The industry developed a standard recording curve and the missing sounds were compensated for by circuitry in playback preamplifiers. The R.I.A.A. (Recording Industry Association of America) set the standard for the "RIAA curve".

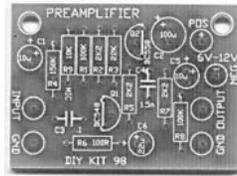

Today amplifiers are designed for flat response and they make the old phonograph recordings sound very flat. Using an RIAA preamplifier compensates for today's flat amplifiers exactly as the old phonographs were able to do. This kit duplicates the RIAA curve accurately; at a kit price. Operation on 9 to 12 V. DC.

No. 80-007

MONAURAL PREAMPLIFIER

Our audio amplifier kit works very well, but if your input is a tape head, magnetic phono cartridge or electric mike, the input level may be too low to do the job.

(PHOTO SHOWS BOARD ONLY)

This small preamp can be used in these applications; plus, we have included a mike that may be used with the circuit. Power at 6V to 12V (current at 12V is 3mA, only 2mA at 9V). The gain is more than 40 dB.

No. 80-980

STEREO VU METER

This is a very eye appealing audio accessory.

Displays an approximate output level for each channel of stereo amplifier.

Connects to the speaker terminals; levels are displayed in ten discrete steps. User may select a moving dot bar appearance. Uses two LM3915 IC's; includes a discussion of measuring audio power.

No. 80-880

Audio Amplifier Module

A good, variable gain amp to use with other projects, amplify radio circuit etc.. Uses the National

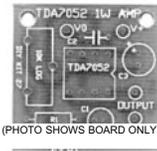

Semiconductor LM386 Integrated Circuit; a well known and quality IC. Kit includes the data sheets from NS. Battery powered, may be operated from 4 to 12 volts DC. Powers a small speaker for personal listening.

No. 80-170

One Watt Audio Amplifier (monaural)

While one watt is plenty for personal use (most small radios that have speakers produce less than 1/4 watt) the size is quite small and easy to fit into a case with other projects.

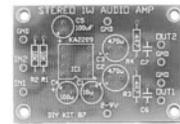

(PHOTO SHOWS BOARD ONLY)

Battery operated from 3 to 15 volts, six volts is optimum. Output into an eight ohm speaker. The PC board is just 1-13/16" square; tallest component about 5/8" tall.

No. 80-270

1 Watt Stereo Amplifier

An amplifier designed with portability in mind; ideal for battery applications. A full watt from each channel, excellent

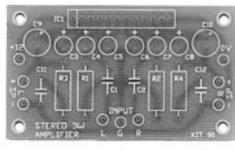

(PHOTO SHOWS BOARD ONLY)

fidelity. Uses a Samsung KA2209 IC. Small size: the board is 1-3/8" by 2". All basic parts supplied, including PC board; you supply two 8-ohm speakers. We suggest a six volt or nine volt battery pack using AA cells; use D cells if extra long battery life is required. Amplify your CD or Walkman etc..

No. 80-870

3 Watt Stereo Amplifier

The Rohm BA5406 IC is used to make this powerful little stereo amplifier. The entire circuit is on a 1-1/2" x 2-1/2" circuit board.

(PHOTO SHOWS BOARD ONLY)

You'll need to allow added space of 1-1/2" x 1-1/2" x 2-1/2" for the heat sink, plus ventilation for same. In addition to a 12 VDC power supply (batteries), you will need to provide 4 or 8 ohm speakers, cables and a heatsink compound to put between the IC and the heatsink.

No. 80-900

8 Watt Audio Amplifier

Low voltage operation does not mean low-power. This amplifier can produce a full eight watts into a standard four or eight ohm "load", such as a speaker. Actually, it can deliver up to 11 watts if you use a 16 volt supply. You may use this amplifier with a wide range of power supplies, from 5 volts to 20 volts. The IC has built-in current limiting and over-heating protection. An ideal building block for use with many other projects. The audio quality is excellent.

No. 80-470

10 Watt x 10 Watt Stereo Amplifier

Employs the TDA2009 class AB audio power amplifier IC for quality stereo applications.

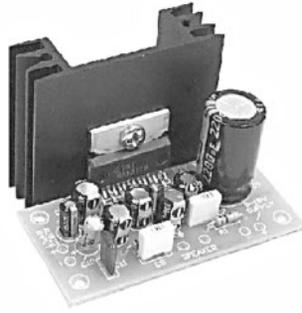

May be operated on a supply voltage of 8 to 22 volts DC. This is a very straight forward stereo amplifier; complete with a PC board about (1-3/4" x 3"). Powerful enough to power your stereo for a mid-sized room and more than enough for use in an automobile.

No. 80-088

17-1/2 Watt Mono Amplifier

A high quality audio amp that can operate on a low voltage, 12 V DC recommended. Uses the Hitachi HA13001 IC and a dozen external components for a compact and powerful monaural amplifier. Builder must supply his choice of speaker (4 or 8 ohm) and some heatsink grease to apply between the IC and the heatsink. Includes PC board and all parts. Build two for stereo.

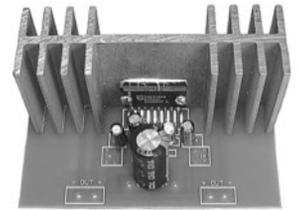

No. 80-1105

44 Watt Stereo Power Amplifier

The circuit is a gem; a TDA1554 IC is the heart of an amplifier that will output up to 22 watts per channel with excellent sound quality. (Typical THD less than 0.1%!).

Originally intended for automobile use, but can be used as a home amplifier if you have a good power supply. Operates on 13 to 14.4 volts (typical automobile voltages with engine on) and can draw as much as five amps at 13.8 V DC.

No. 80-050

BIG EAR AMPLIFIER

SNOOP ON WILDLIFE IN YOUR NEIGHBORHOOD.

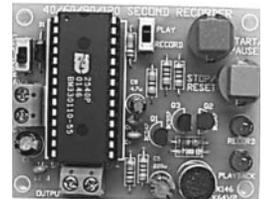

The circuit can do for your ears what a telescope does for your eyes. A sensitive dynamic microphone element feeds a high gain audio circuit that can drive headphones or a small speaker. Instructions tell how to make a "dish" from poster board or even a lampshade. (Poster board not included.) Listen in remotely on wildlife from a huge distance. Can hear a conversation from a block away!

No. 80-272

40 Second Message Recorder with Looping Option.

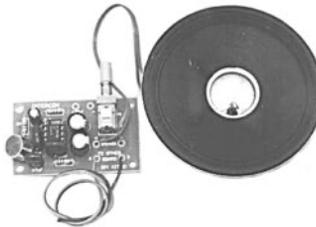

The circuit uses an information Storage Devices Corp. No. ISD2540 chip to store one or more audio/voice messages up to forty seconds (maximum time). If desired, the first message can be looped so that it plays repeatedly. Non-volatile; the message(s) is retained even when the power is removed. Output is to a User-supplied four or eight ohm speaker. The output is small, you may wish to add an LM386 amplifier kit (No. 80-170) or another amp to increase the volume for your application. The same circuit could be used with any of the ISD25xx chips in the series up to 120 seconds record time. Operates on 6 volts at 100mA maximum.

Message Recorder Kit.....Part No. 80-146

Two Station Intercom (or hard wired Listener)

Two units employ LM386 IC's in each station. These need to be connected using a pair of wires (about 22 or 20 gauge solid). you could power the remote from the base unit if you run four wires. Each station has its own mike, speaker and amplifier. May be set up to monitor baby's room etc..

No. 80-210

Fiber Optic Audio Link

Uses a matched transmitter / receiver pair from either Motorola or Industrial Fiber Optics Co. Allows you to send sound through plastic 1mm fiber optic cable. Two circuit boards with a microphone at one end and a speaker at the other; (14' fiber optic cable included). The maximum range is about 220 yards. This can be a Science Fair winner.

(PHOTO SHOWS BOARDS ONLY)

No. 80-260

Voice Changer

Your voice can be changed to add a vibration, like those used to disguise secret witnesses. Or, you may change your voice tone upward or downward; women sound like men and vice versa. Includes a very ROBOTIC voice as well. A microphone and speaker are included on the PC board, all that you need to add is a nine volt, transistor battery. This is a very novel and entertaining circuit.

No. 80-105

Sound Effects Generator

Another novel circuit, that might be useful for special theatrical effects. Or, if you are simply a practical joker. The circuit can produce sounds such as the tick-tock of a grandfather's clock, a heart monitor (as in the hospital), water on a tin roof, a motor boat, cricket, etc.. Requires a 9 volt battery. Includes its own speaker.

No. 80-106

KITS - R.F. PROJECTS

Sound Activated FM Transmitter

Sound turns on the transmitter, which operates in the FM radio band. A neat way to catch a thief in another room or garage. The volume of sound needed to trigger the circuit is adjustable. The two stage transmitter has good range and the circuit powers down unless it "hears" sounds; reactivates with a sound.

No. 80-280

FM Telephone Transmitter

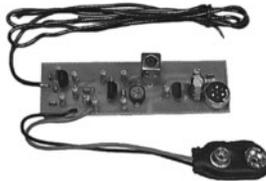

Miniature transmitter attaches to the phone line and transmits the conversation. Transmits 200 yards and more in most installations. Tunable to clear spot on the FM band of your radio. Completely parasitic; i.e. uses the power from the telephone line and needs no battery. The circuit might be used to share or record conversations, but please do not use illegally.

No. 80-160

Varactor Tuned FM Transmitter Wireless Mike Kit

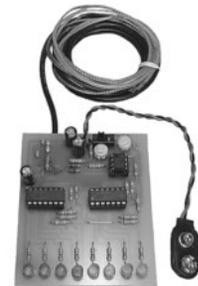

This is the Cadillac of FM transmitters, and wireless mikes. Transmits in the standard FM radio band; tune to open frequency. Varactor tuning results in stable signal, free from stray capacitance and drifting. Sensitive, picks up conversations from several feet. Powerful operation on a nine volt battery but could use 12V DC if you are going for distance. Easy to build, good for teaching beginners with just a bit of supervision.

No. 80-065

R.F. Bug Sniffer (Locator)

If someone put a BUG (listening device) in your meeting room, would you know it? Today's small circuits make listening devices too easy to conceal to ignore. You may want to assemble this one for resale to nervous and needy users. A high quality circuit, should be considered even by the professional. It will detect any transmitter sending A.M. or F.M. or just C.W. at frequencies anywhere from ten to 450 MHz; peak sensitivity is in the 80 to 120 MHz portion where many bugs would be found. The signal strength is indicated on a bargraph, so the closer to the source you get, the higher the indication. With some practice, you should be able to find a covert transmitter to within a few inches of its location. "Professional" bugs, placed by serious operators can be found easily. Operation on 9 Volt battery for portability.

No. 80-990

FM Stereo Transmitter

This is a circuit that will broadcast CD quality sound to your FM Walkman, home stereo or automobile radio. It produces a strong signal that will generally cover the average home and yard. It is stable enough to use even with digitally tuned FM receivers. Typical uses include broadcasting your own music to a receiver at pool-side or in the garden. Or, you could broadcast from a personal, portable CD player to a car radio that has no CD player. School uses include running a "broadcast station" from another room as a speech class exercise. The unit is powered by a 9V transistor battery, or you could use an AC wall adaptor.

No. 80-060

3 Volt FM Transmitter

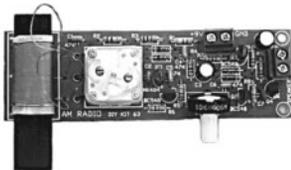

The most powerful circuit we've seen that operates on such low voltage (just two AA cells). A range of 100 meters can be expected and given a good antenna and good conditions, 500 meters is not unusual. Can be operated on up to about 9 volts. Transmits to the FM radio band. Teaches basics of transmitters. Microphone is included.

No. 80-070

One Chip AM Radio

This is a complete AM radio for the standard broadcast band, most of which is on a single IC. Other components, such as the coils and variable capacitor to make a finished radio, are included. The IC is the RF amp, detector and AGC circuitry. The IC's output drives a two stage, transistor audio amplifier and 3" speaker. Operates from 9 volt battery. A good kit for beginners to see and build.

No. 80-630

Two-Stage FM Transmitter, or Wireless Microphone

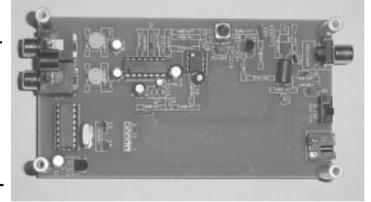

A powerful little circuit with surprisingly good audio quality. Can transmit up to about 1/2 mile in open country. This is probably the most powerful FM transmitter that you can legally purchase. An electret microphone is used to add sensitivity. The circuit can run on six volts, greatest output is at 12 volts, but use 9 volts and short antenna wire to stay legal.

No. 80-320

PLL controlled FM Stereo Transmitter Kit - top of the line. The finest in Stereo transmitters, and latest technology.

A two board FM Stereo Transmitter kit with the best possible features that our designers could think of. In addition to very clean, accurate stereo reproduction, the PLL tuning provides stability that is simply not available in most transmitters. Unit has an LCD display with an EPROM memory to retain frequency setting even if powered down. Listen on your Walkman, or any stereo FM radio in your home or car. The top board is the controller, with the keypad switches and LCD readout. The bottom board is the transmitter, employing an NJM2035 for the stereo generator, buffered tuning from the PLL for quiet performance and an RF amp stage on the output. The circuit can be tuned in 5K steps, for fine tuning.

You will want to use a very "clean" power supply for this circuit; batteries (12 volts DC, at least 75mA.) are a perfect source of power. Or, a well filtered power supply to be sure to eliminate power line hum.

This circuit can broadcast any line-level input, such as a computer sound card, CD player, tape player etc. far enough to provide excellent reception around an average house and yard. Instructions for a low cost FM antenna are included.

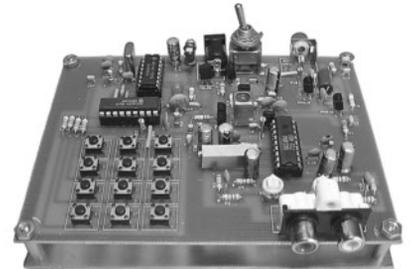

The top board size is 5 1/2" long and 3.3" in width; the finished unit fits neatly into a Philmore No PB170 plastic case (which is not in the kit, sold separately). The unit will function on voltages as low as 9 volts and as high as 14.9 volts; at the suggested 12 VDC the unit needs up to 75mA supply. While assembly is easy and straight forward, we suggest the kit only for builders with some experience in kit building.

No. 80-057

PLL Tuned FM-Stereo Transmitter

Try this with your computer to re-transmit Internet radio!

This is truly a slick product! The PLL (phase locked loop) tuning means stable broadcasting, which results in big advantages. Being on frequency and drift-free equals much better transmit distance and receive quality. Frequency is "entered-in" on a keypad, and the unit stays exactly on frequency. Transmit to your portable radio! For input use your CD player or tape player or your computer so that you can broadcast programming on the Internet to your portable radio; listen anywhere around the home. Operates on 9 to 12 Volts DC.

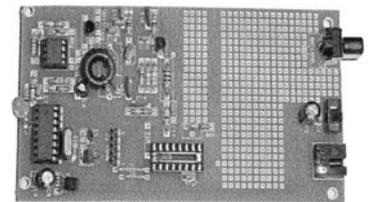

NO. 80-055

PLL-VFO Experimenter Package

(experienced builder only) 440Khz to 185MHz.!

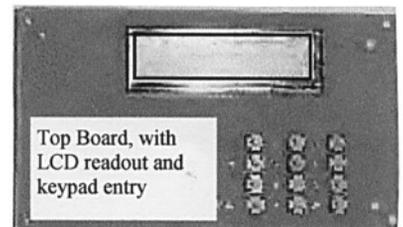

This new VFO Circuit is a two part (two board) system for the experimenter. The "Bottom Board" is the PLL and VFO, complete with an area for the experimenter to add whatever circuit he desires; such as a transmitter, receiver, transceiver etc.. The "Top Board" is a controller with a keypad for frequency entry and an LCD digital readout that displays frequency. The Top Board controller communicates with the MC145170 chip on boards may be stacked with spacers and will mount neatly in a Philmore No. PB170 plastic case (not included).

Not intended to be a complete kit, this circuit pair is intended to provide a highly-flexible platform for the experimenter, student or Ham radio builder etc.. The circuits provide Rock-Solid frequency control with a very easy to use human interface (that's fancy for push-bottom keypad and readout).

Included are circuit ideas, in schematic form, including a forty-meter transmitter and a radio receiver circuit. The prototyping area is large; the user can build a simple or multi-stage AM or FM receiver, CW rig, signal generator etc. The circuit may be used with various oscillator designs from 440Khz to 185Mhz.

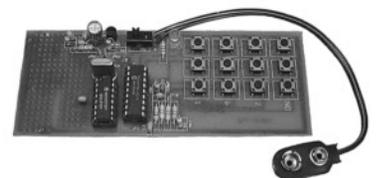

The circuit employs an MC145170 PLL IC which provides drift-free tuning with considerable stability. Operates on 12 volts DC. You will need up to 100mA to power the kit plus don't forget to add enough current capability to handle your own addition to the PC board.

No. 80-1401

PLL Experimenter Kit from KHz to 185MHz

An exciting circuit, the PLL Experimenter kit may be used for making a stable AM or FM transmitter, a Signal Generator (from low KHz to about 185MHz), a QRP Ham transmitter, circuit diagrams for all of these are included. What you get is a very high quality PLL circuit module, with touch-tone style keyboard (to set frequency) and you will have to add the components for the circuits mentioned above. Crystals can be expensive; here is the answer. Not a beginners kit; intended for the serious experimenter, Hams or very advanced beginner. Operation from 8 to 12V DC; a nine volt battery is ideal. Fine tuning in 10 KHz steps. Extra room on board for added components. This circuit is really worth having!

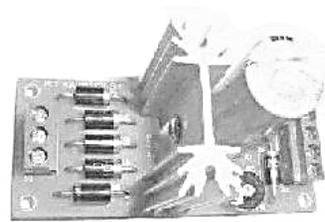

No. 80-035

KITS - POWER SUPPLY, SWITCHERS, TIMERS & COUNTER PROJECTS

Positive Adjustable Power Supply Module Kit Negative Adjustable Power Supply Module Kit

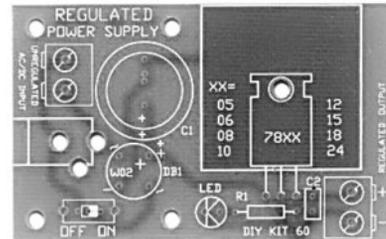

These two kits can be used separately; or assembled together to create a dual rail power supply. Current up to 1.5 ampere output. Both kits feature; reverse polarity protection, LED power ON indicator, IC regulator, variable output voltage, low noise, AC or DC input and up to 37 volts output. Complete details for selecting a transformer (transformer is not included; you must supply input voltage of 3 volts more than desired output) are included. A thorough description of assembly options is included with each kit.

NO. 80-124- Positive Adjustable Power Supply Module

78XX Regulated Power Supply

This circuit can be made into a regulated power supply for voltages from five volts up to twenty-four volts. The user must add any of the standard 78xx TO-220 positive voltage regulators (7805 or 7806 or etc...thru 7824) and the voltage will equal whichever part you select (the last two digits of the number indicates voltage; 7805 = five volts etc.) . Input AC or DC (unregulated) about three volts greater than desired output voltage; complete instructions included. The 7800 series outputs up to 1 ampere typically. LED indicator and on-board on/off switch. You could use this with a junk box AC or DC power supply or supply your own transformer etc..

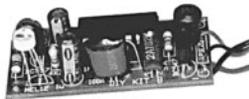

(PHOTO SHOWS BOARD ONLY)

No. 80-600

Light Alarm

A sensitive photo Darlington transistor is used with CMOS nand gate. The circuit detects light and triggers a siren.

You could add your own triac or relay and switch practically anything. The kit uses the MEL12 Darlington superalpha phototransistors, typically about ten times more sensitive than a normal phototransistor. The circuit usage includes burglar alarms, medicine cabinet alarm, automobile trunk alarm etc..

No. 80-080

Photo Sensor with Control Relay

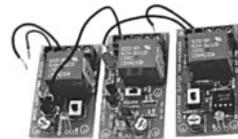

The most popular usage for this kit is to make your own night-light. But, you could switch just about any appliance either on or off with either darkness or daylight. Light sensitivity is adjustable over quite a range. The relay can handle up to 10 amps AC. You need to add a nine volt transistor battery or a nine volt, 25 mA supply.

No. 80-103

Three Light/Dark Activated Relay Switches

This kit is one of our three separate circuits in one; three separate PC boards etc.. This one will give you both useful circuits and experience in different approaches, circuit-wise, to doing the same thing; controlling a device with a change to either light or darkness. Each kit is equipped with a relay rated up to 240VAC @ 5 Amps. You may either turn "on" or turn "off" the controlled device. A good kit for the student learning electronics.

No. 80-790

Mini-VOX & Relay Kit (Sound Activated Switch)

For the uninitiated, VOX = Voice Activated Switch. This is a switch (relay) that may be activated with any sound, including the human voice. A very sensitive circuit that may be adjusted to react to very low volume sounds or a yell or hand clap. While a VOX is often used to activate a sound recorder, it may be used to trigger an alarm (the mike easily picks up vibrations in windows, wall or door), activate a video camera, radio transmitter or simply turn on a light. The relay will release after a few seconds of silence, holding as long as sound continues. (Hold time may be changed up to 30 seconds)

Operates on 12V DC very low current.

No. 80-126

Sound Activated Switch for Tape Recorder (VOX Switch)

Turn on any tape recorder that has a remote on/off jack (most cassettes).

The circuit has a feed back and delay circuit for robust operation. You could add a relay for switching heavy loads; and tape recorders are not the limit. How about turning on lights via voice or a whistle? Circuit switches off after six seconds of silence.

(PHOTO SHOWS BOARD ONLY)

No. 80-130

KITS - SWITCHERS, TIMERS & COUNTER, POWER SUPPLY PROJECTS

Touch Switch with Relay Kit

The Touch switch may be used to turn on almost anything with a light touch of 'plate'. The circuit pulls in a relay which remains engaged for anything from five seconds to about a full minute, depending upon you changing just one resistor to set the time amount (default is five seconds). One of the unique features of this circuit is that the touch-plate may be located up to several yards away from the circuit board if necessary. It may also be battery powered if an AC supply is not convenient. An LM555 is used in the heart of the circuit.

The relay can handle up to 12A in its contacts. A 12V battery pack or AC power supply is recommended although we've used the circuit on an unregulated 9V supply.

No. 80-137

Touch or Contact Switch

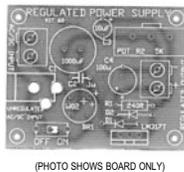

Both a touch and a contact switch are built onto one PC board so that the builder can see how each works. A battery can power the contact switch but you'll need an AC power supply for the touch switch to work well (use No. 80-040) for reasons explained with the kit. The circuit switches a relay with a 3 amp, 110 volt rating. Use to switch lamps, other appliances.

No. 80-100

Variable Power Supply

A very basic power supply that can be adjusted over a range of about 1.5 to 35 volts DC. If you add a heat sink (included), you can run it as "hot" as 2 amps output; otherwise about 60mA @ 12 volts. This is a text book circuit using an LM317, which is a 3 terminal regulator in a TO-220 package. Input can be either AC or DC; DC input must be at least 2.5V above the required voltage output. You could use a surplus transformer from 12 volts up for input

(PHOTO SHOWS BOARD ONLY)

No. 80-680

Three Timer Circuits

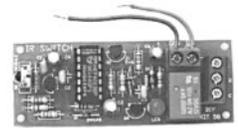

Timer circuits are handy for many experimenters' laboratory functions, not to mention the photo or PC lab. This kit is another three-in-one in that all three circuits are complete and separate; simply using different types of circuits to do exactly the same job. All come complete with 5 amp relays for controlling pretty significant loads. All may be operated on battery or light weight (9V DC) supply. The advantages and disadvantages of each design are discussed in the text.

No. 80-850

Infrared Toggle Switch

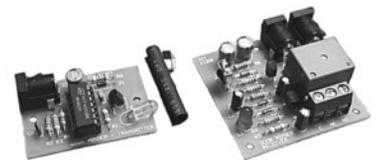

Control about any device using the remote control from just about any TV set. The circuit switches an on-board SPDT relay; turn it on with the remote, and turn it off with another signal. The relay contacts are rated one amp at 125 volts AC. The circuit operates on any DC supply from 8 to 15 volts; use an old calculator supply etc.. This circuit can have some very practical applications, such as turning on a light by an invalid. Your imagination is the limit.

No. 80-580

INFRARED BEAM DOOR MINDER

A transmitter sends an I/R beam up to 75 feet to a receiver (on separate PC boards); break the beam and a relay is tripped. Use the relay to control a bell or light or other device ; even a video recorder and camera. Operation requires 9 to 12 VDC, a wall adaptor is fine and you may want two units (provision is made to power both boards with one supply via a two conductor wire). Use to watch a hallway or driveway, across the doors to a three or four car garage etc. and we know of a photographer taking wildlife photos this way. The uses for alarms, photography, door minding and so on are numerous. You could make weatherproof hoods to use out-of-doors but be sure to protect from moisture.

NO. 80-013

Variable Power Supply

The kit comes "complete", which means the transformer A.C. power cord and a fuse holder are included. Most power supply kits leave finding such things to the builder. Output via screw terminals, making this a good bench supply for kit builder. Voltage may be varied from a volt up to about

24 volts DC and is well regulated and voltage is very stable. Using the LM317T I.C. and including the Philmore TR241 (24 volt, 1 amp) transformer permits an output range from about a volt to 21 volts. Higher current is available at the higher voltages but lower voltage are at lower currents; for example, around 5 volts output maximum is around 350 mA. Maximum current is available in the 18 to 22 volt range. Ripple (on line noise) is finite, making this a good kit for those audio and R.F. projects where you do not care to hear power line noise. Note: We do not recommend a beginner build this kit unless he has some experienced help. Any kit that connects to the A.C. power line is potentially dangerous to the inexperienced.

NO. 80-970

PC Board Mounted Relay

The output of many circuits have an alarm signal which must be connected to a remote switching device. Or, sometimes you will have a kit to test which needs a relay connected to it. For this purpose, this kit is perfect. A 12 volt (coil) relay mounts on the PC board which includes a protective diode and terminal blocks. The terminal blocks make for fast, easy screw-connection of wires to the coil and to the contacts.

If you prefer a different relay coil voltage, the boards are available separately. Either use Philmore TB132, TB133 terminals or solder to the board. Board accommodates any Philmore relay from 3V to 24V coils (all ten amp contacts).

NO. 80-043 Relay kit with 12 volt, ten amp relay, PC board and hardware.

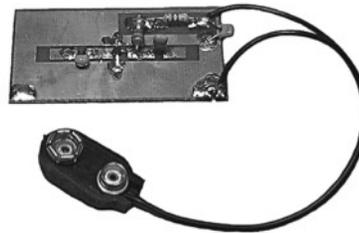

NO. 12-605 Blank boards, Package of two.

KITS - SWITCHERS, TIMERS & COUNTER, POWER SUPPLY PROJECTS

R.F. Amplifier Kit

A small circuit, using the Mar-6 Amplifier IC, this kit will provide as much as 20 db gain. Connect at receiving antenna input; will boost signals from 1 Mhz to 1000MHz; two RF amplifier kits may be cascaded for even greater gain. Instructions tell how to substitute a couple of capacitors for use at low, broadcast-band frequencies. Use with Scanners, Ham receivers, SWL receiver etc. You could add a metal case and RF connectors for permanent use. May be used to boost signal for 'scope or frequency counter as well.

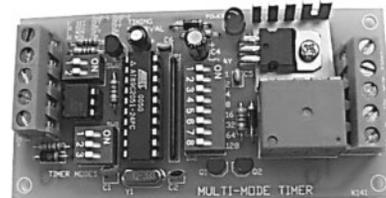

No. 80-045

High Accuracy Multi-MODE TIMER

Using a programmable IC, the circuit revolutionizes timers in terms of flexibility and accuracy. A number of triggering options are available, ranging from tripping a switch or a voltage or a relay.

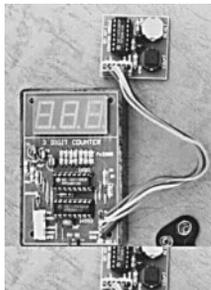

Output relay is capable of handling up to ten amps. Time delay is simple selected (and accurately) with on-board dip switches. May be programmed from seconds up to 42 hours. Turn something on or off; seven different timing modes available to the user. The heart of the circuit is an Atmel 89C2051 IC, already preprogrammed for you. A versatile circuit may be used to open the relay after a time period, close the relay or even toggle the relay on for a time and off for that same amount of time (toggling).

Multimode Timer Kit.....Part No. 80-141

Three Digit Counter Module

An event counter; this economical counter module may be ganged for six or nine digits. Has count and reset switches with debounce built-in. Operates on a nine volt battery. This is a two board kit with the count and reset switches along with the debounce circuitry on one board, the LED digits and circuit on another.

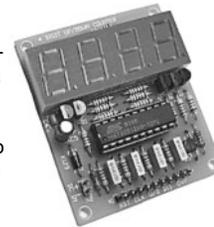

No. 80-010

4 digit UP/DOWN COUNTER

The kit is a low cost counter, counting from 0000 to 9,999 or down from 9,999 to 0000. The overflow output pulses low when the count wraps to zero; so, two counters could be connected together to make an eight digit counter. The clock input is debounced to prevent problems when using external mechanical switches.

Operation on anywhere from 9 to 15 volts DC and 20 to 40 mA (depends upon how many display segments are lighted). The AT90s1200 is preprogrammed; builder is not required to program anything. There are five pairs of pins for external connections: RESET, CLOCK, DOWN, DISABLE, OVERFLOW. A Down connections sets the unit to count down. A Disable prevents counting at all; Resets sets the counter at zero (0000), Overflow outputs a pulse low when the counter reaches 0000. The Clock contact will pulse a 'count', and each time a switch connected to Clock is 'on' the unit increments a digit. The maximum speed of counting is a bit more than thirty (30) per second. The display is red LED digital 0.6" high.

No. 80-129

Parallel Port Relay Board,

for the IBM PC
(software
included)

With each advance in personal computers, a surplus of unwanted older machines increases, either at give-away prices or you may have one sitting on a shelf. Thus you can have a low cost, sophisticated "dedicated controller" to turn on or off devices in the home or lab or radio shack etc..The circuit includes eight relays controlled with (included) software for either DOS or Windows 3.1. Connects to the parallel port of any IBM-PC.

No. 80-740

Introduction to a Power Supply (Practical hobbyist power supply)

A practical battery eliminator for circuit projects at the bench. This is a basic power supply using two IC's (7805) regulators.

User needs to supply a transformer up to 20V AC for input (we suggest scrounging from old radio or surplus catalog). Outputs are regulated, one variable and one constant 5V DC. A good introduction to power supplies.

No. 80-040

Ultrasonic Movement Detector

The circuit uses a matched pair of 40Khz transducer elements to detect movement

out to about 22 feet. You may add a relay (not included) to switch a heavy appliance etc.; the unit switches just an LED as supplied. The circuit can be switched to latch "on". An ideal alarm circuit that can't be easily fooled.

No. 80-200

KITS - SECURITY, TEST & MEASUREMENT PROJECTS

PIR Movement Detector

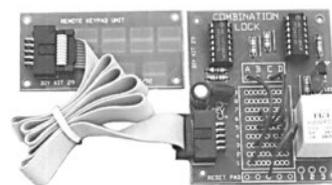

One of our favorite circuits. The circuit sees infrared heat, such as from an intruder's body. The kit uses a late development in movement IC's and employs a very sophisticated circuit. You may set it to non-trigger in day-light hours. When tripped, an LED indicator lights and relay is tripped. "Sees" up to about eighteen feet. Operation on 9 or 12 volt battery with very long life.

No. 80-300

Electronic Combination Lock

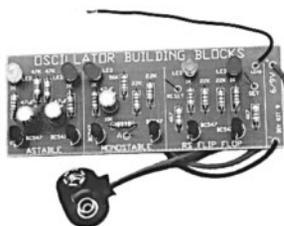

This really is an excellent introduction to electronic security systems. Set your own four digit code, a wrong sequence simply resets the lock. The correct code will activate a relay that can handle up to 240 volts AC. The nine digit key-pad is on a separate board connected to the circuit via a ribbon cable (30"), so a variety of mounting ideas are possible. Requires a 9 or 12 volt battery or supply.

No. 80-290

Oscillator Building Blocks

Build and experiment with astable, monostable and RS flip-flop multivibrators on one PC board with six LED's. See and understand exactly how each works. This is a very educational kit and an excellent introduction to electronics. Operates on 9V battery.

No. 80-090

(Loud) 9 Volt Siren

A simple circuit with a lot of output. Uses a voltage controlled oscillator; and includes a half watt speaker. Connect it to an alarm system, sound switch or whatever you dream up. 9 volt battery operation.

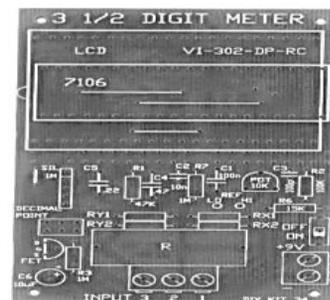

No. 80-310

General Purpose, 3-1/2 Digit LCD Panel Meter

A versatile meter, which may be set up for any one of many ranges; for voltage or current. The decimal point is selectable too (i.e. you may put it where you want it). Space is provided on the circuit board for scaling and shunt resistors. Runs on nine volts; very low current drain. Easy to read.

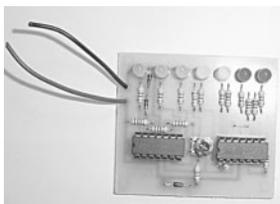

No. 80-340

(PHOTO SHOWS BOARD ONLY)

BATTERY VOLTAGE MONITOR CIRCUIT

Assemble this kit for use with either 9V or 12V. Seven LED's indicate if the battery is fully charged, partially charged, or getting weak. The circuit could be wired permanently into an automobile or used with just about any circuit where charge condition is important information. Monitor that Gel cell used for radios during camping trips.

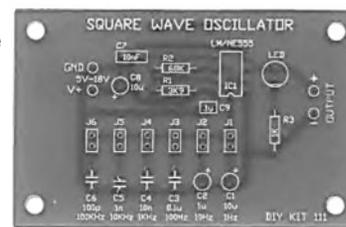

Voltage Monitor Kit CatalogNo. 80-700

Square Wave Oscillator Kit

This is a very simple circuit, generating square waves for use with test equipment, teaching, etc. Generates square waves of approximately 1Hz, 10Hz, 100Hz, 1KHz, 10KHz, & 100KHz.

This is a good teaching PC Board Only pictured, but ALL parts included in aid kit, both for the instructor and the DIY user.

No. 80-111 Oscillator Kit

KITS - TEST, MEASUREMENT, & MOTOR CONTROLLER PROJECTS

Serial Port Temperature Data Logger

An 8 pin microcontroller based circuit for temperature data logging via the serial port or any PC; a good way to put that old 386 or 486 to work! Uses the Dallas Semiconductor DS1820 sensor (one supplied, will handle up to four). Assemble for either "C" or "F" temperature scales. Sensors may be located remotely, up to 200 yds. away from the PC. System provides real-time data via the serial port. Accuracy to .5o C.

No external power is required. The data stream is easily logged and processed. You must use a terminal program set at 2400 baud, 8 bits, no parity and 1 or 2 stopbits. Information is given about a free Term.exe program that you can download from our associates web site.

No. 80-145

DC Electric Motor Kit

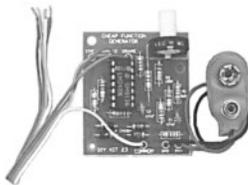

An introduction to the workings of an electric motor. A few pieces of metal, some wire and then add your own 1.5 volt AA battery and the whole concept of what makes an electric motor run will be yours. A number of experiments are included in the instructions, which the teacher could use to get young minds really wrapped up in this project. Snaps together, no soldering required. (Kit shown in knocked-down form.)

No. 80-077

OpAMP Function Generator

A very low cost and simple circuit to generate square, pseudo-sinewave and triangular waveforms in the audio frequency range. Uses a quad OpAMP type LM384. This is an educational kit and recommended to instructors and to the person wanting to understand electronics more thoroughly.

No. 80-230

Logic Probe

An indispensable piece of equipment for testing and measuring digital equipment. Normally used for fault finding and testing but can also be a great help in design work or to see how digital equipment works. Switch for use in both TTL and CMOS. Detects very fast pulses. Output is 3 LED's and audio indicator.

No. 80-240

LCD Temperature Meter (Celsius Only)

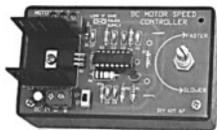

Designed around a single IC, the Harris No. 7106, is this temperature meter with excellent accuracy. All parts needed, even a case, are included except a nine volt transistor battery. Instructions also explain how to use this kit to make a volt or amp meter in various ranges. The circuit board has room for additional components if you use it to make a digital panel meter.

No. 80-020

DC Motor Speed Controller

Vary the speed of DC motors the very best way with this kit. Gear boxes can be costly and series resistors may cause stalling.

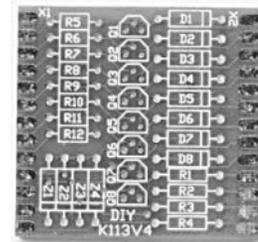

This circuit delivers the voltage to the motor with pulses and the speed is controlled via pulse width modulation (PWM). The speed control is a potentiometer, for DC motors up to 100 Volts at a maximum of five amps.

No. 80-670

PC DUAL STEPPER MOTOR CONTROLLER

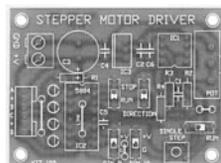

The kit enables user to control two unipolar stepper motors via the parallel port. Four digital inputs are also included (these may be used for monitoring external switches, inputs etc.). The kit does not require a power supply. Included, an extended D-shell plastic case (RS-232 style) and all parts. A DOS based program written specifically to drive 'steppers' is included on diskette, complete with C source code. (Above, only the PCB is shown.)

Stepper Controller Kit.....Part No. 80-113

Unipolar Stepper Motor Driver Kit

A stepper may be used to orient a video camera, antenna, spotlight etc.. or used for table position in production. This driver will control a 5, 6 or 8 lead unipolar stepper motor (often available from surplus dealers). The circuit permits fast or slow run rate and even single stepping into final position; uses the UCN5804B IC. Four LED's indicate movement if motor is remotely controlled (input from 6 to 35 volts). The kit is supplied with quite a bit of good information, how to identify motor connections, spec sheets and a list of references for reading about steppers etc.

(PHOTO SHOWS BOARD ONLY)

No. 80-109

STAIRWAY TO HEAVEN Game

Pressing the switch while a dual LED is green advances you to the next stage; but mess-up and press while red, and you go back to the beginning. It can be tricky and a challenge. Fun and teaches some practical basic electronics. Operates on 9V battery.

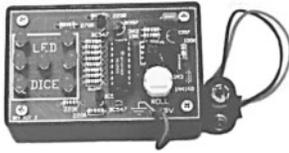

No. 80-005

KITS - GAMES, & FLASHER PROJECTS

LED Dice with Slow-Down

This is an excellent kit for use as an introduction to electronics and circuit analysis. Seven LED's arranged like a real die

face. Push the switch and the die rolls and then slows down and then stops. Uses an ingenious circuit design to minimize parts count. Uses a 555 and 14017 integrated circuits. Includes plastic case; battery operation.

No. 80-030

Programmable Dice

The idea of an electronic dice game of one kind or another is almost as old as glaciers. But this one is very clever, plus a huge manual describing how such things work, software for other projects etc.. This may be the most educational kit in the line.

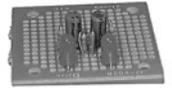

(PHOTO SHOWS BOARD ONLY)

No. 80-710

Two-LED Flasher Kit

The Two-LED Flasher kit is a very basic kit and it does nothing more (or less) than blink one LED and then the other. The back and forth flashing is reminiscent of a railroad cross signal light, and many times it is used by model railroaders for that purpose. Simple bi-stable oscillator circuit; operates on 3 VDC and two AA Cells will last for weeks. You can change out some of the components for faster and slower, details in the instructions.

No. 80-012

5 LED Sequential Flasher

The circuit flashes five LED's in sequence repeatedly until you turn it off. Flash rate is user adjustable. The circuit uses an IC chip-on-board which you will then mount on the included motherboard; battery holder is included. Powered by a 3 Volt supply or battery; good for a child's toy or for those "high-tech" looking special effects for stage plays etc.

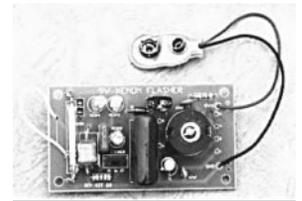

(PHOTO SHOWS BOARD ONLY)

No. 80-525

Xenon Tube Flasher (6 volt)

Bright, variable flash rate strobe light can serve as a beacon, signal etc.. A small circuit, easily transported for camping. Uses could include photography, spooky fun house etc.. (Try turning it on with the VOX switch No. 80-130). Flash rate may be varied to between 1 and four flashes per second.

No. 80-162

ION Generator

Are there some healthful positive benefits caused by being in an environment that contains negative or positive ions?

Some reports suggest a wide range of benefits. This

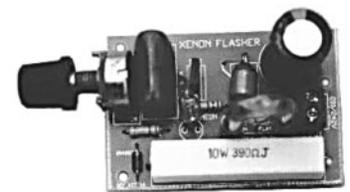

generator can be set up to generate either negative or positive ions; the builder's choice. Operation is from 117 Volts AC power line. You will need to find a case or box for the final assembly, about 2" x 4-1/4" and an inch depth; and an AC power cord from an old lamp (or buy new). You can actually feel the flow of ions from the unit.

No. 80-570

110 Volt AC Strobe Light Kit

Usually more practical than a battery operated strobe, runs on standard house current. The flash rate is adjustable from about one every three seconds to about three per second. Uses are as signal beacon, trade show kiosks, discos, etc.. Very bright flash can be seen for miles at night, like those on airplanes. AC cord and plug not included.

NO.80-140

For Fun, C.O.B. Project Kits

C.O.B. means "Chip on Board"; and most of the electronics are inside a tiny, application-specific chip, or integrated circuit, on a PC board. These circuits are fun but won't be much of a challenge or education as they are so simple; you add a battery and the circuit is ready to go.

No. 80-910 - Four Train Sound Effect. Ideal for model railroads; produces the whistle, train chugging sound, crossing bell and the 'clickety-clack' of crossing a bridge.

TRANSFORMERS

CLASS 2 TRANSFORMERS

For security Cameras / Panels Primary: 120 Volt, 60 Hz

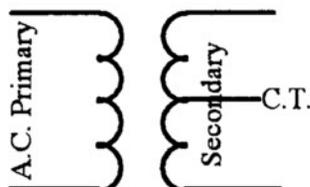

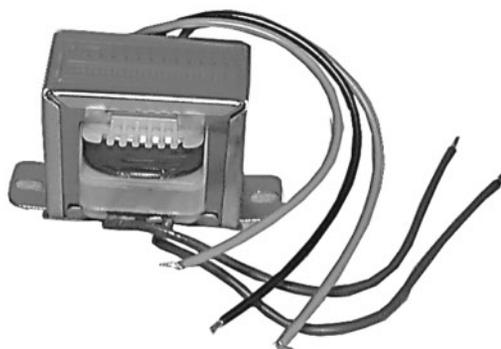

- No. 48-1220 - 12V AC-20V A
- No. 48-1240 - 12V AC-40V A
- No. 48-1620 - 16V AC-20V A
- No. 48-1640 - 16V AC-40V A
- No. 48-2420 - 24V AC-20V A
- No. 48-2440 - 24V AC-40V A

INPUT: 2 FLAT PINS
OUTPUT: SCREW TERMINALS

WITH LED INDICATOR LIGHT

Center-tapped, power supply or filament transformers.

Primary wires are black, secondary are red with green insulation on the center tap.

Transformer voltage will vary with the circuit load; or: how much will be drawn by the circuit following the power supply. The following transformers will produce the "rated" voltage when loaded near its rated maximum current. Example: a 12 Volt transformer with a 120 VAC input will have an output around twenty volts A.C. when no load is attached. When a "test load" that draws close to the rated current is attached to the secondary, the output will be very close to the rated voltage. For reference, in the chart (below) we show the voltage at the secondary with no load and also with a resistive load that will draw the maximum rated current. Philmore transformers' "catalog voltage" is generally the target voltage that can be expected after rectification, allowing for voltage drop through diodes. Finally, it is common practice to use a power supply that can deliver twice the current that the circuit will require during its operational average current usage. See the Notes section on next page. The chart below shows not only the "catalog" voltage rating, but open circuit (no load) voltages and full load voltages for each transformer. The full, or "resistive load" is the value connected across the secondary, and the Output VAC w/load is the actual voltage from the test transformer. Any transformer will heat up considerably if constantly run at the full current rating. The "W" is the width of the frame and the "D" is the depth dimension measured at widest part of the coil.

Part Number	Rated (catalog) Voltage	Rated Current In mA	Secondary VAC with no load	Resistive load in Ohms	Output VAC w/load	Mounting hole center to center	Height (Inches)	W/D (Inches)
TR004	4.5	300	5.5	15	4.7	1.90"	1.20	1.47/1.3
TR006	6	300	7.4	20	6.3	1.90"	1.20	1.47/1.3
TR012	12.6	300	17.45	42	13.5	1.90"	1.24	1.47/1.3

TRANSFORMERS

Center-tapped, power supply or filament transformers.

NOTES:

It is the users responsibility to determine which transformer is appropriate for his use, as well as which circuit provides an adequate and safe power supply. These notes are given as general guidelines and are not intended for use by persons lacking technical expertise.

The current rating is the absolute maximum current output at the rated voltage. The transformer's rated current should be about twice your circuit's current needs. This will assure plenty of reserve power and a cool running power supply. Only for brief and infrequent peaks of a few seconds should your circuit draw as much current as the peak rating.

In short, if you have an amplifier (for example) that requires 250mA current during normal operation, then use at least a 500mA or larger transformer. Audio circuits in particular will require power above the circuit's average and there must be spare power to prevent distortion as well as over-heating.

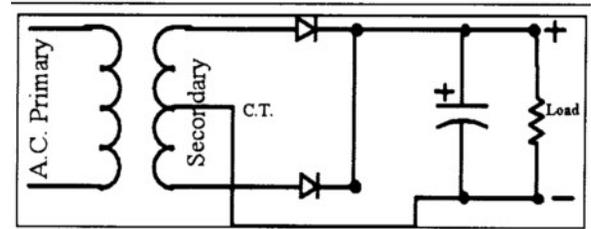

DIODES; the current rating of diodes used in a full wave rectifier circuit should be at least twice the secondary current to be able to handle turn-on surge current. The reverse voltage rating of diodes should be at least 1.5 times the voltage of the secondary; most engineers prefer a bit more than that.

In half wave circuits, the diode's reverse rating must exceed 2.8 times (or more) the AC rating.

Don't forget to take into account voltage drop in your chosen components, especially diodes which can drop a half volt each.

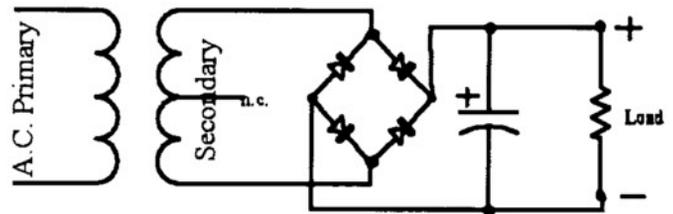

Capacitors; the voltage rise in a capacitor will increase due to transformer regulation; use a capacitor rated about three times the DC load current.

DC REGULATORS; probably one of the best devices ever to come from the semi-conductor manufacturers are voltage regulators. Connected at the output of your power supply, a regulator can provide a fixed DC voltage. Look for the 78L series for small regulators (100mA) and the 78XX series can provide one amp at a fixed voltage. (7805=five volts, 7812=twelve volts etc.) The LM317T IC can provide an adjustable voltage; see industry texts for typical circuits.

FULL WAVE Capacitor Input Load.

A typical power supply circuit using two diodes. As a general rule of thumb, multiply the transformer's secondary AC voltage times 0.45 to determine output average DC voltage.

FULL WAVE BRIDGE

Typical full wave bridge rectifier; multiply the secondary ACV output by 0.90 to determine DC voltage. DC current is about 0.94 of the secondary current, or "rated current" in the part numbers chart on the preceding page.

POWER SUPPLY COMPONENTS available in this catalog.

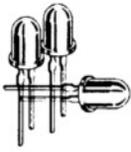

86-1105 5V regulator 78L05 100mA
86-1112 12V regulator 78L12 100mA
86-1117 LM317T variable regulator IC
86-1100 2 amp bridge rectifier
86-1217 Zener diode assortment
86-1225 1N4001 50V PIV diodes
86-1230 1N4004 400V PIV diodes
86-1235 1N4007 1000V PIV diodes
86-1137 5V regulator 7805 1Amp
86-1140 12V regulator 7812 1Amp
86-1237 3Amp diodes 1N5400
86-1239 6Amp diodes 6A05
86-1280 1Amp bridge rectifier.
85-1401 Electrolytic ass't 50V
SPT1182-6 series power cord w/plug
FH55 or 526 Fuse holders
FH503 Fuse holders
3AG series fuses
Switches-, binding posts etc. hundreds to choose from in this catalog.

COMPONENT PARTS

Philmore Component Parts program is a collection of electronic components intended to be of greatest interest to the experimenter. In addition to assortments of mundane but essential parts such as capacitors, LED's etc. the product group contains dozens of semiconductors and IC's that are truly exciting, 'gotta-try-it' products. Look for the items listed in this brochure on displays in your local distributor's store;

LED ASSORTMENT

Five LED's in a package; 2 red, 2 green, 1 yellow; diffused light type size 1 3/4. Typical output @ 10 mA as follows: red 10 mcd, green and yellow 80 mcd.

Part No. 85-100

SUPER BRIGHT RED LIGHT

Very HIGH light output from an LED (600mcd @ 20mA): use where you must have a strong indicator light. Standard, 1-3/4 size LED with a diffused output.

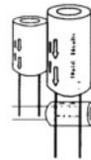

Part No. 85-105

16 VOLT ELECTROLYTIC ASSORTMENT

The best values at this voltage, 3 each of 1uFd, 4.7uFD, 22uFd, 47uFd 220uFd.

Part No. 85-1404

RESISTOR ASSORTMENTS

Handy package of resistors in common values. 1/4 watt, +/-5% tolerance. Part No. 85-1005 LOW OHM values, 3 each of: 10, 47, 100, 150, 220, 270, 330, 390, 470, 680, 1.5K, 2.2K, 3.3K, 4.7K, 5.1K, 5.6K, 6.8K

Part No. 85-1008 MID and HIGH OHM values, 3 each of: 8.2K, 10K, 12K, 15K, 22K, 27K, 33K, 47K, 68K, 100K, 220K, 330K.

Part No. 85-1014

contains 5 each hottest values: 47, 100, 470, 1K, 4.7K, 10K, 47K, 100K, 470K, 680K, 1meg.

uFD. values CERAMIC DISK CAPACITOR ASSORTMENT

Five pieces total, 2 each of .01uF, 3 each of .1uF; commonly used as by pass capacitors.

Part No. 85-1453

pFd. values MONOLITHIC CAPACITOR ASSORTMENT

50 Volt bypass capacitors, COG Temperature stable type. Contains 2 each 10pf, 22pf, 47pf, 100pf, 220pf (the values most used in RF circuits).

Part No. 85-1460

uFd. values MONOLITHIC CAPACITOR ASSORTMENT

50 Volt bypass capacitors, Z5U Temp coefficient. Contains five each of .01uFd (103) and 0.1uFd (104).

Part No. 85-1464

Mylar CAPACITOR ASSORTMENT

A selection of Mylars based upon those called for the most in various circuits. The package contains 2 each: .001uf, .01uf, .1uf, 1each .22uf, .047uFd.

Part No. 85-1469

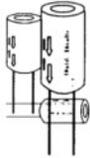

Tantalum CAPACITOR ASSORTMENT

The most called for Tantalums in one assortment, the package contains 2 each: .1uf/35V, 1uf/35V and 1 piece 10uf/25V.

Part No. 85-1473

50Volt ELECTROLYTIC ASSORTMENT

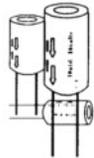

Package contains one each of 10uF, 100uFD, 470uF, 1000uF all @ 50V. Temperature range:-40 to 85 C. Tolerance: +20% to -10%. Polarity clearly marked on cases.

Part No. 85-1401

most popular ELECTROLYTIC ASSORTMENT

Contains the following electrolytics, one each: 100 @ 25V, 470 @ 25V, 10uF@16V, 1000uF all @ 50V. Temperature range: -40 to 85 C. Tolerance: +20% to -10% Polarity clearly marked on cases.

Part No. 85-1407

pFd. values CERAMIC DISK CAPACITOR ASSORTMENT

Twelve pieces total, two each of very popular "pico values" used in many circuits. Content two each: 10pf, 47pf, 100pf, 220pf, 470pf, 1000pf

Part No. 85-1450

Voltage Regulators 78L series

Small regulators with a 100mA output, TO-92 case. These are fixed voltage regulators with very good regulation and ripple rejection (important for audio, RF circuits).

Part No. 86-1105 type 78L05 @5V. regulator
Part No. 86-1112 type 78L12 @12V. regulator

SHIELDED TUNABLE RF COILS

Useful for tuning RF circuits, filtering etc. Available in a wide range of values. All are enclosed in a square metal "can" dimensions are a 0.30" X 0.30" foot print, 0.435" nom. height and leads are spaced on .0265" centers.

PART #	min. (uH)	max. (uH)
86-1400	.032	.035
86-1402	.048	.059
86-1404	.066	.079
86-1408	.109	.132
86-1410	.130	.159

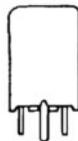

455 kHz IF TRANSFORMERS

Use as a 1st IF transformer. Primary: 50K. Secondary 500 ohms.

Part No. 86-1440

10.7 MHz IF TRANSFORMER

Commonly used for the second IF in receivers. Primary: 15K, Secondary: 300 ohms.

Part No.86-1444

Popular Crystals

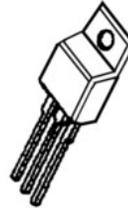

The package style is HC-49/u. Most circuits will specify if Xtal needs to be series or parallel. Parallel resonant xtals are 20 pF loading capacitance (not important for series xtals). Generally, series or parallel types are specified by the circuit and not interchangeable.

Part No.	Frequency	Type
86-1380	3.58 mHz	color burst
86-1384	4 mHz	series
86-1385	4 mHz	parallel
86-1391	10 mHz	series
86-1393	10 mHz	parallel

LM317T 1.5 Amp Variable Regulator I.C.

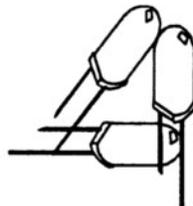

Typically used in one amp variable power supplies, will produce as much as 1.5 amps but be sure to heatsink very well. Many circuits in books and magazines; used in Datakits projects tool

Part No. 86-1117 type LM317T I.C.

Hi Efficiency Red LED, 5pk.

Red LEDs do a good job at reduced current, such as in the 5 to 10 mA range; much brighter than other red LEDs at standard 10 to 20mA current. Unlike the highly directional super-bright types, these are bright when viewed from a wide angle, making them excellent indicator lamps. Five per pack.

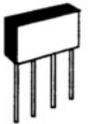

Part No. 85-102 Red LED five pack

2 AMP Bridge Rectifier

BR805 2 AMP Bridge Rectifier.

In line SIP 4 lead package. This package equals the four diodes used in a full wave bridge circuit; may also be used on battery powered circuits to protect against accidental reverse polarity etc.

Part No. 86-1100 type BR805 bridge

Bright WHITE LED

LED, White Light This is an exceptional bright LED with a white light. If operated in its rated range, it should never burn out, ever. Current 10mA to 20mA. Use for power indicator or even for small, light-weight and low current flashlight, keyhole finder etc.. Millicandle power 7,000, 3.5-4.0 VDC.

Part No. 85-107 white LED

TOROID (FERRITE) BEADS

A package of a dozen small beads to slip over wires for RF noise suppression. For wire sizes up to 20 gauge insulated

Part No. 86-1570

COMPONENT PARTS

500 mw AUDIO AMPLIFIER IC (Type LM386N)

This robust little amplifier is the heart of many audio devices such as radios, intercom's etc. Produces up to a half watt of output into a 4-ohm speaker. Operates on, low voltages for portable use (4 to 12 VDC, max. 15). Voltage gain up to 200!

Part No. 86-1050

VHF DOUBLE BALANCED MIXER IC (Type NE602AN)

This is an extremely flexible low power IF mixer. Noise is under 5.0 dB @ 45MHz; excellent gain and sensitivity. Useful in direct conversion receivers or mixer/oscillator application., portable radios, VHF transceivers etc. etc.

Part No. 86-1059

CMOS TIMER IC (Type ICM7555)

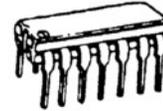

Because it is CMOS, this variation on the 555 timer is a very low power IC and ideal for battery operation. (It may not be plug-compatible for the 555 in all cases; pinouts are the same, however.) Usage is same as the popular 555 timer.

Part No. 86-1070

Popular CMOS IC's, 4000 series

The most popular of this CMOS logic family of IC's. Called for in projects, magazine articles etc.. Packaged one per package

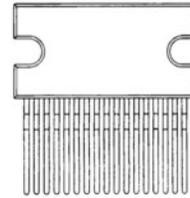

IC type	Description	Package	Part no.
CD4001	Quad 2-input Nor Gate	14-pin DIP	86-4001
CD4011	Quad 2-input NAND Gate	14-pin DIP	86-4011
CD4013	Dual D-Flipflop	14-pin DIP	86-4013
CD4017	Decade Counter/Divider	16-pin DIP	86-4017
CD4046	Phase-locked loop	16-pin DIP	86-4046
CD4049	Hex Buffer, Inverting	16-pin DIP	86-4049
CD4066	Quad Analog Switch	16-pin DIP	86-4066

STEREO POWER AMPLIFIER IC 44 watts (type TDA1554)

Originally designed for hi-end automotive stereo applications, this is a top quality product for any hi-fidelity use. The case is a 17 lead single in-line (SIL) (every other pin bent to DIL) plastic power package. The circuit contains four 11 watt single-ended or two 22 watt bridge amplifiers. It features low harmonic distortion, excellent ripple rejection and no "pop" with power on/off.

Among the many extras are Mute facility, ESD protection, reverse polarity safe and thermal overload shut down. The operation range is from six to eighteen volts but typical is 14.4 volts DC. The circuit requires very few external components. Use with four ohm speakers is recommended; circuit diagram included

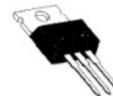

Part No. 86-1056

POWER MOSFET TRANSISTORS

Popular N-channel MOSFETS; available in several power ratings; 100 V breakdown.

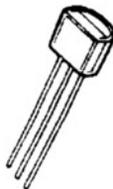

Part no.	Type	Amps	R
86-1273	IRF510	5.6	.54ohms
86-1275	IRF520	9.2A	.27
86-1277	IRF540	28A	.077

All Philmore components parts are prime devices and meet standard industry specifications.

NPN RF AMPLIFIER TRANSISTOR (Type PN918)

A package of five NPN transistors, 15V, 50mA, Ft 600MHz, H_{FE} P 20 minimum. For VHF and UHF use.

Part No. 86-1250

JFET TRANSISTOR (Type MPF102)

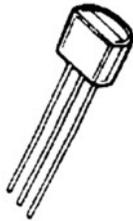

An N-channel JFET transistor; depletion mode VHF amplifier; 25V, 20mA. A very popular, general purpose FET.

Part No. 86-1268

AM RADIO RECEIVER on a CHIP (type ZN414)

In a tiny (to-92) transistor size case, a ten transistor tuned RF circuit that requires no setup or alignment. Nearly a complete circuit; add battery (1.1 to 1.6 volts), tuning coil and capacitor and crystal earphone.

Part No. 86-1007

Low-power AUDIO AMPLIFIER IC (type MC34119P)

A low power amp that may be used with two to six volts DC. Drives an 8 ohm speaker and up; maximum output power is 1/4 watt. Adjustable gain up to 46db, minimal external parts required. This IC is very useful in small, portable battery-powered circuits

Part No. 86-1047

NOTE: The IC's in this product group are packaged with pinout information and a circuit diagram. Your stocking distributor has a detailed manual so that you may photocopy technical information, circuits etc. .

"White" Toroids

These toroid cores are very commonly called for in radio matching circuits, QRP transmitters and receivers as well as radio frequency amplifiers. These are color coded with white enamel. 1MHz - 25MHz. Temperature stability 30, Magnetic tolerance +/- 5%.

Toroids are packaged one per display package.

7-Segment LED Display. LED .52" (height of digit) display

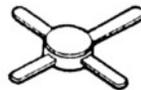

Standard, common anode red readout. A quality unit assures that several used together will have a uniform appearance. Pins on common centers with 0.30" between rows. One unit per package.

Part No. 85-1180 LED 7-Seg. display

MICROWAVE AMPLIFIER IC (type MAR-6)

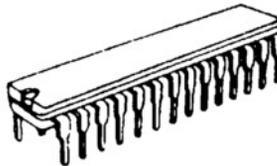

A hybrid amplifier, typical gain of 11 dB at 2 GHz; may be cascaded for increased gain. Tiny device with four leads.

Part No. 86-1026

STEREO TONE, VOLUME & BALANCE CONTROL IC (type TDA1524)

Active balance, volume, bass and treble control for audio systems. All functions may be controlled by single, non-critical potentiometer.

Part No. 86-1044

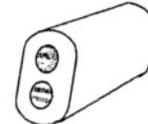

STANDARD TOROID CORES

Useful for inductors in HF and VHF circuits, these are donut shaped cores of pressed ferrite; typically hard to find.

Part No.	Type	Freq. range (mHz)	Color	Size O.D.
86-1555	T50-2	2-30	red	0.5"
86-1557	T50-6	10-50	yellow	0.5"
86-1559	T68-2	2-30	red	0.68"
86-1561	T50-10	30-100	black	0.5"

Two Hole Balun Cores

Most commonly used for broadband transformers in transmitters.

Part No. 86-1575 type BN43-202 two hole balun

Part No. 86-1577 type BN43-2402 two hole balun

WIDE-BAND TOROID CORES

Use for inductors and wide band transformers. Use for antenna matching etc.

Part No.	Type	Size O.D.
86-1563	FT37-43	.37"
86-1565	FT50-43	0.5"

Type T-37 Toroid Ferrite Cores

Used for baluns and RF toroidal transformers and frequently used for filtering.

Part No.	Industry Type	Marked
86-1554	T37-2	red
86-1556	T37-6	yellow
86-1560	T37-10	black

0.80" Type T-80 Toroid Core

Type T-80 is 0.8" diameter (RED) Ferrite core, commonly used in transformers between 2MHz and 30 MHz. Often used in filters.

(.486" I.D.)

Part No. 86-1567 Toroid T-80

Type	Part No.
T50-7	86-1550
T68-7	86-1552

COMPONENT PARTS

TUNING DIODES

The capacitance varies with voltage; so you can use voltage change to tune an RF circuit in place of using a (mechanical) variable capacitor. Current consumption is negligible

The following values are the nominal capacitance value at 45 volts; capacitance varies with voltage.

Part No. **86-1303** 6.8pF type MV2101
Part No. **86-1309** 33pF type MV2109

TUNING DIODE type MV209 has a capacitance of 450pF @ 1.6 volts, 5pF @ 12 volts
Part No. **86-1300**

Silicon Rectifier Diodes

1N4001 series Industry standard Silicon Rectifier Diodes rated 1 ampere, axial lead. Used in thousands of practical circuits.

Part No. **86-1225** type 1N4001 50V PIV
Part No. **86-1230** type 1N4004 400V PIV
Part No. **86-1235** type 1N4007 1000V PIV

ZENER DIODES Assortment

ZENERS low cost voltage regulation. These are the most needed values; one each of five values per package. Included are: 1N4733 5.1V zener, 1N4735 6.2V, 1N4739 9.1V diode, 1N4740 10V diode, 1N4742 12V diode. DO-41 type case.

Part No. **86-1217** five piece Zener assortment

1N4148/1N914 DIODES

DIODES ten-pack. Industry standard hi-speed silicon switching diodes called for in many circuits. Ten pieces per package

Part No. **86-1210** diodes ten pack.

TL082 Dual JFET Input OpAmp TL084 Quad JFET Input OpAmp

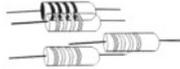

Both OPAMps feature Internal compensation, high impedance inputs, and the TL082 is pin compatible with older types such as MC1458, MC4558, LM358. Bandwidth=3.0 mHz. The TL084 is a Quad version of the TL082.

Part No. **86-1065** Dual OpAmp 8-pin Dip
Part No. **86-1066** Quad OpAmp 14-pin Dip

Epoxy Conformal Coated R.F. CHOKES

Small chokes, slightly larger than resistors and marked with the same code as resistors to indicate value. Epoxy coating makes them nearly impervious to moisture, humidity etc...

Part No.	value uh	current mA DC	"Q" min.
86-1422	1	920	45
86-1420	2.2	750	55
86-1421	4.7	620	70
86-1424	10	500	65
86-1423	22	410	50
86-1425	47	340	40
86-1426	100	275	30
86-1427	220	155	60
86-1428	470	126	60
86-1430	1000	100	100

LM741 OpAMP

The LM741 is the most used single OpAmp, featuring differential inputs. Has provisions for external compensation and offset nulling. This is a general purpose workhorse and a direct replacement for LM709, LM201, and MC1439. Slew rate .5V/us., 1.5MHz bandwidth.

Part No. **86-1062** OpAmp LM741

MC33171 OpAmp

A single OpAmp optimized for single supply operation. The MC33171 has a lower power, wide bandwidth at 1.8MHz. Especially useful in low power circuits and modern PLL circuits; with provision for offset nulling if required. Wide supply range, from 3V to 44V operation.

Part No. **86-1063** OpAmp

TL072 Dual JFET OpAmp TL074 Quad JFET OpAmp

A low noise, high impedance Operational Amplifier with a 4 MHz bandwidth. A favorite in audio designs. Has internal compensation and features very low harmonic distortion. The TL074 is the Quad version of the TL072 with same features. One per package

Part No. **86-1067** Dual JFET OpAmp 8-pin Dip
Part No. **86-1068** Quad JFET OpAmp 14-pin Dip

LM 324 OpAMP

LM324 Operational Amplifier. Most useful for DC voltage gain blocks, active filters and low frequency oscillators. The LM324 is an industry standard low-power Quad Op AMP, featuring differential inputs, and is optimized for single-ended power supply, +3.0V to 32V DC operation. Bandwidth-Unity gain at 1 MHz. 14pin DIP.

Part No. **86-1060** OpAmp LM324

NE555 TIMER

IC 8-pin TIMER. one of the most frequently used, industry standards. Timing from u/Seconds to hours. Can be used in astable or monostable modes. Adjustable duty cycle and frequency.

(See CMOS 555 elsewhere in this section.).

Part No. **86-1069** NE555 Timer IC NE555

78XX Series Voltage Regulators

These are the industry standard in voltage regulator IC's for power supplies with a fixed voltage. Rated at 1 amp (use heat sink), the last two digits indicate the voltage. Ripple rejection, load & line regulation are excellent.

Part No. **86-1137** type 7805 5V. regulator
Part No. **86-1140** type 7812 12V. regulator

MC33172 dual Op Amp

This is the Quad version of the MC33171 OpAmp and will operate from a single supply, which is probably its most important feature. This is a good low power unit with a wide bandwidth. Use with 3V to 44V.

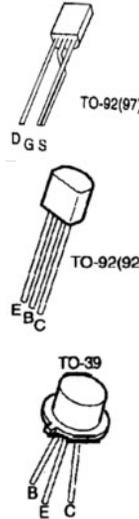

Part No. **86-1064** type MC33172 OpAmp

COMPONENT PARTS

TRANSISTOR PACKAGES

Popular transistors with broad applications; these numbers are both used in place of many industry types and called for by these numbers as well. All transistors are exactly the industry number shown, not fall-out tested, general replacements. Thousands of circuits call for these numbers. Note that packages contain anywhere from one to five pieces.

Philmore No.	Industry No.	Qty. per	TYPE	Outline Type
86-1604	2N3904	5	NPN	TO-92(92)
86-1606	2N3906	5	PNP	TO-92(92)
86-1622	PN2222A	5	NPN	TO-92(92)
86-1641	2N4401	5	NPN	TO-92(92)
86-1642	2N4403	5	PNP	TO-92(92)
86-1670	2N7000	3	FET n-channel	TO-92(92)
86-1673	BS170	3	FET n-channel	TO-92(97)
86-1650	2N2219A	1	NPN	TO-39

LM358N OpAmp

A popular IC used in many circuits ranging from Pre-amps to voltage monitors. I.C. is standard 8-pin package, pins on tenth inch centers.

No. 86-1072.....Pack of 2 LM358N

1 Amp Bridge Rectifier

A compact package containing the four diodes needed for a full-wave bridge rectifier circuit. Typical use is in power supplies for DC from an AC, 110V transformers. Rated 1 ampere at 50 volts.

No. 86-1280.....Package 1 bridge rectifier

Power Rectifiers

Commonly used for power supplies. These are four-packs so that the user can make a full-wave bridge, if needed.

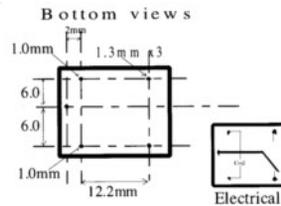

No. 86-1237.....4-pk of 3AMP 1N5400
No. 86-1239.....4-pack of 6AMP type 6A05

MINIATURE POWER RELAYS High Capacity (10 Amp)

This series of PC board mounting relays has high contact capacity (10 amps) in a very small package. They are completely sealed and protected from dust and solder flux. These relays can be used for flow soldered.

- Power Consumption - 0.36W
- Pull-in Voltage 75% max.
- Contact Capacity 10A 24V DC
- Resistive Load 10A 120V AC
- UL Recognized, CSA Certified

Part No.	Coil Voltage (V DC)	Normal Current (mA)	Coil Resistance (ohm)
86-103	3	120	25
86-105	5	73	70
86-106	6	60	100
86-109	9	40	225
86-112	12	30	400
86-118	18	20	900
86-124	24	15	1600

NOTE: Packaged Only, Not Available in Bulk.

Ceramic Trimmer Capacitors

Ceramic trimmer capacitors are used in all types of analog and digital electronic equipment. Typical uses may include setting time-out function, changing frequency, adjusting voltage and adjusting switching delay. We offer Vertical mount (screw on top of capacitor) which is encapsulated and color coded for easy identification.

3 per package

Features

A Variety of capacitance ranges up to 70pf
Linear capacitance change excellent moisture-proof characteristics

Part Number	Capacitance (pf)		Temp. Coeff. (XPPM/°C)	Color Code
	Min.	Max		
87-605	2.0	5.0	NP0	Blue
87-610	2.7	10	N470	White
87-620	4.2	20	N750	Red
87-630	5.5	30	N750	Green
87-640	6.8	40	N1200	Yellow
87-650	9.1	50	N1200	Brown
87-660	10.2	60	N1200	Brown
87-670	12.0	70	N1200	Blue

Specifications

Working Voltage: 50V DC
Maximum Voltage: 110V DC
Insulation Resistance: 100 Ohms @ 50V DC
Operating Temperature: -30°C - +85°C
Q Factor: >500

10,000,000pF	10,000nF	10.0uF	106

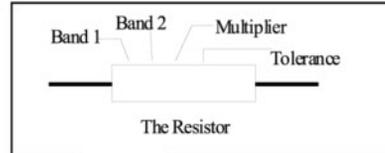

Simple Ohm's law Circle.

Cover the letter that represents the unknown value and calculate it with the other two values. Example, if you cover "E" then you would multiply I x R. If you cover "I", then you would divide E by R.
 E=Voltage, I=Amps, R=Resistance.

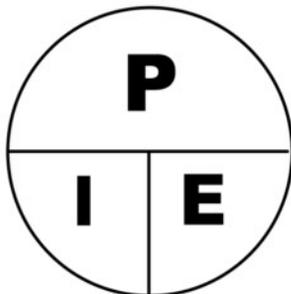

10 the underline indicates Picofarads, so 33 means thirty-three picofarads etc.

FILE: 2MA OHM SHEET RCR
 COPYRIGHT 2004

Simple POWER CIRCLE.

Cover the letter that represents the unknown value and calculate with the other two values. Example, cover "E" then you divide I into P.
 E=Voltage, I=Amps, P=Power in watts.

POWER CIRCLE

RESISTOR VALUES COLOR CODE CHART

Band three is the "multiplier band", the X means to multiply by the number shown in that column. A resistor with three brown bands is 110 ohms and so on.

Gold fourth band, 5% tolerance. Silver fourth band, 10% tolerance
 No fourth band, 20% tolerance.

Color	Band 1	Band 2	Band 3	tolerance band 4
Black	0	0	X1	
Brown	1	1	X10	1%
Red	2	2	X100	2%
Orange	3	3	X1,000	3%
Yellow	4	4	X10,000	4%

Abbreviations common in Electronics

A (amp) - Ampere	cw - Continuous transmission	<i>I</i>_{max} - Maximum current
AC - Alternating current	d - Deci (10^{-1})	<i>I</i>_{min} - Minimum current
AC/DC - Alternating current or Direct current	D/A or D-A - Digital to analog	I/O - Input/output
A/D - Analog to digital	DC - Direct current	IR - Infrared
ADC - Analog-to-digital converter	<i>Δi</i> - Change in current	IR - Resistor current
AF - Audio frequency	DIP - Dual in-line package	<i>I</i>_S - Secondary current
AFT - Automatic fine tuning	DMM - Digital multimeter	<i>I</i>_T - Total current
AFC - Automatic frequency control	DPDT - Double pole double throw	JFET - Junction field effect transistor
AFC - Automatic flow controller, used in controlling the flow of gasses under pressure into a vacuum system	<i>Δt</i> - Change in time	K - Coefficient of coupling
AGC - Automatic gain control	DTL - Diode transistor logic	k - Kilo (10 ³)
Ah - Ampere hour	<i>Δv</i> - Change in voltage	kHz - Kilohertz
Ai - Current gain	DVM - Digital voltmeter	kV - Kilovolt
AM - Amplitude modulation	<i>E</i> DC or <i>E</i>_{rms} - Difference in potential	kVA - Kilovoltampere
AM/FM - Amplitude modulation or Frequency modulation	<i>e</i> - Instantaneous difference in potential	kW - Kilowatt
AMM - Analog multimeter	ECG - Electrocardiogram	kWh - Kilowatt-hour
antilog - Antilogarithm	ECL - Emitter coupled logic	L - Coil, inductance
Ap - Power gain	EHF - Extremely high frequency	LC - Inductance-capacitance
apc - Automatic phase control	EHV - Extra high voltage	LCD - Liquid crystal display
Av - Voltage gain	ELF - Extremely low frequency	L-C-R - Inductance-capacitance-resistance
AVC - Automatic volume control	EMF - Electromotive force	LDR - Light-dependent resistor
AWG - American wire gauge	EMI - Electromagnetic interference	LED - Light emitting diode
B - Flux density	EW - Electronic warfare	LF - Low frequency
BCD - Binary coded decimal	<i>f</i> - Frequency	L_M - Mutual inductance
bfo - Beat frequency oscillator	FET - Field effect transistor	LNA - Low noise amplifier
BJT - Bipolar junction transistor	FF - Flip Flop	LO - Local oscillator
BW - Bandwidth	fil - Filament	LSI - Large scale integration
c - Centi (10^{-2})	FM - Frequency modulation	L_T - Total inductance
C - Capacitance or capacitor	<i>f_r</i> - Frequency at resonance	M - Mega (10^6)
CAD - Computer aided design	fsk - frequency-shift keying	M - Mutual conductance
CAM - Computer aided manufacture	FSD - Full scale deflection	MI - Mutual inductance
CATV - Cable TV	G - Gravitational force	m - Milli (10^{-3})
CB - Common base configuration	G - Conductance	mA - Milliampere
CB - Citizen's band	G - Giga (10 ⁹)	mag - Magnetron
CC - Common collector	H - Henry	max - Maximum
CE - Common emitter	H - Magnetic field intensity	MF - Medium frequency
cm - Centimeter	H - Magnetizing flux	mH - Millihenry
cmil - Circular mil	h - hecto (10 ²)	MHz - Megahertz
CPU - Central processing unit	h - Hybrid	min - Minimum
C (Q) - Coulomb	HF - High frequency	mm - Millimeter
CR cr - Junction diode	hp - Horsepower	mmf - Magneto motive force
CRO - Cathode ray oscilloscope	H_z - Hertz	MOS - Metal oxide semiconductor
CRT - Cathode ray tube	<i>I</i> - Current	MOSFET - Metal oxide semiconductor field effect transistor
C_T - Total capacitance	<i>i</i> - Instantaneous current	MPU - Microprocessor unit
	<i>I</i>_B - DC Base current	MSI - Medium scale integrated circuit
	<i>I</i>_C - DC Collector current	mV - Millivolt
	IC - Integrated circuit	mW - Milliwatt
	<i>I</i>_e - Total emitter current	
	<i>I</i>_{eff} - Effective current	
	IF - Intermediate frequency	

N - Number of turns in an inductor	Q - Charge, also quality	V_{av} - Voltage (average value)
N - Revolutions per minute	q - Instantaneous charge	V_{BE} - DC voltage base to emitter
n - Nano (10^{-9})	R - Potentiometer	V_c - Capacitive voltage
N - Negative	R - Resistance	V_{CE} - DC voltage collector to emitter
nA - Nanoampere	RAM - Random access memory	VCO - Voltage controlled oscillator
NC - Normally closed	RC - Resistance-capacitance, also Radio controlled	VHF - Very high frequency
NC - No connection	rcvr - Receiver	V_{in} - Input voltage
NEG , neg - Negative	rect - Rectifier	V_L - Inductive voltage
nF - Nanofarad	ref - Reference	VLf - Very low frequency
nH - Nanohenry	rf - Radio frequencies	V_m, V_{max} - Maximum voltage
nm - Nanometer	RF - Radio frequencies	VOM - Volt ohm milliammeter
NO - Normally open	RFI - Radio frequency interference	V_{out} - Output voltage
NPN - Negative-positive-negative	R_L - Load resistor	V_p - Primary voltage
ns - Nanosecond	RLC - Resistance-capacitance-inductance	V_s - Source voltage
nW - Nanowatt	RMS, rms - Root mean square	VSWR - Voltage standing wave ratio
OP AMP - Operational amplifier	ROM - Read only memory	V_T - Total voltage
P - Pico (10^{-12})	rpm - Revolutions per minute	W - Watt
P - Power	SCR - Silicon controlled rectifier	X_c - Capacitive reactance
p - Instantaneous power	SHF - Super high frequency	X_L - Inductive reactance
P - Positive, also peak	SIP - Single in-line package	Y - Admittance
PA - Public address or power amplifier	SNR - Signal-to-noise ratio	Z - Impedance
pA - Picoampere	SPDT - Single pole double throw	Z_{in} - Input impedance
PAL - Programmable Array Logic	sq cm - Square centimeter	Z_o - Output impedance
PAM, pam - Pulse amplitude modulation	SSB - Single sideband	Z_p - Primary impedance
P_{ap} - Apparent power	SW - Short wave	Z_s - Secondary impedance
P_{av} - Average power	SWR - Standing-wave ratio	Z_T - Total impedance
PCB - Printed circuit board	SYNC, sync - Synchronous	
PCM, pcm - Pulse-code modulation	T - Tera (10^{12})	RCR - 03132012
PDM - Pulse-duration modulation	T - Torque	
pF - Picofarad	T - Transformer	
PLD - Programmable Logic Device	t - Time in seconds	
PLL - Phase locked loop	TC - Time constant, also temperature coefficient	
PM - Phase modulation, also Permanent magnet	TE - Transverse electric	
PNP - Positive-negative-positive	temp - Temperature	
POT, pot - Potentiometer	THz - Terahertz	
P-P - Peak to peak	TM - Transverse magnetic	
PPM - Pulse-position modulation	TR - Transmit-receive	
PRF - Pulse repetition frequency	TTL - Transistor-transistor logic	
PRT - Pulse repetition time	TV - Television	
pw - Pulse width	TWT - Traveling wave tube	
PWM, pwm - Pulse width modulation	UHF - Ultra high frequency	
	UHV - Ultra high voltage	
	UJT - Unijunction transistor	
	UV - Ultraviolet	
	V - Vacuum tube	
	V, v - Volt	
	v - Instantaneous voltage	
	VA - Volt ampere

Holmium	Ho	67	164.93	
Hydrogen	H	1	1.008	0.076
Indium	In	49	114.82	7.42
Iodine	I	53	126.9	4.89
Iridium	Ir	77	192.2	22.42
Iron	Fe	26	55.847	7.85
Krypton	Kr	36	83.8	3.708
Lanthanum	La	57	138.91	6.16
Lawrencium	Lw	103	257	
Lead	Pb	82	207.19	11.4
Lithium	Li3	3	6.939	0.59
Lutetium	Lu	71	174.97	
Magnesium	Mg	12	24.312	1.74
Manganese	Mn	25	54.938	7.39

Name	Symb*	Atomic number	Atomic Weight	Spec. gravity
Mendelevium	Md	101	256	
Mercury	Hg	80	200.59	14.19
Molybdenum	Mo	42	95.94	10
Neodymium	Nd	60	144.24	7.05
Neon	Ne	10	20.183	0.9
Neptunium	Np	93	237	
Nickel	Ni	28	58.71	8.9
Niobium	Nb	41	92.906	8.5
Nitrogen	N	7	14.007	1.027
Nobelium	No	102	254	
Osmium	Os	76	190.2	22.48
Oxygen	O	8	15.999	1.426
Palladium	Pd	46	106.4	11.9
Phosphorus	P	15	30.974	1.83
Platinum	Pt	78	195.09	22.5
Plutonium	Pu	94	242	
Polonium	Po	84	210	
Potassium	K	19	39.102	0.859
Praseodymium	Pr	59	140.91	6.6
Promethium	Pm	61	147	
Protactinium	Pa	91	231	
Radium	Ra	88	226	
Radon	Rn	86	222	
Rhenium	Re	75	186.2	
Rhodium	Rh	45	102.91	12.1
Rubidium	Rb	37	85.57	1.525
Ruthenium	Ru	44	101.07	12.26
Samarium	Sm	62	150.35	7.7
Scandium	Sc	21	46.956	
Selenium	Se	34	78.96	4.8
Silicon	Si	14	28.086	2.49
Silver	Ag	47	107.87	10.47
Sodium	Na	11	22.99	0.972
Strontium	Sr	38	87.62	2.54
Sulfur	S	16	32.064	2.1
Tantalum	Ta	73	180.95	16.6
Technetium	Tc	43	99	
Tellurium	Te	52	127.6	6.24
Terbium	Tb	65	158.92	
Thallium	Tl	81	204.37	11.85
Thorium	Th	90	232	12.16
Thulium	Tm	69	168.93	
Tin	Sn	50	118.69	7.3
Titanium	Ti	22	47.9	5.17
Tungsten	W	74	183.85	19.3
Vanadium	V	23	50.94	6
Xenon	Xe	54	131.3	5.85
Ytterbium	Yb	70	173.04	5.5
Yttrium	Y	39	88.91	4.57
Zinc	Zn	30	65.37	7.1
Zirconium	Zr	40	91.22	6.53
