

Extend VGA up to 150 Feet

EXT-VGA-141SRN

Extends any VGA Monitor up to 150 feet using a Single CAT-5 Cable

This product allows users to extend video signals far beyond the A/V rack, up to 150 feet or 45 meters. Industry-standard CAT-5e cable is used for the extension.

How It Works

The VGA extender SRN sender unit connects to your computer using the supplied VGA cable. The SRN receiver connects to your monitor - up to 150 feet away. One CAT-5 cable connects the sender and the receiver to each other, extending your video. The video transmitter and receiver boxes are small and unobtrusive, allowing installation in small space

Features:

- Extends any VGA or high definition component display up to 150 feet (45 meters)
- One CAT-5e cable for extension
- Supports resolutions up to 1080p, 2K, and 1920 x 1200

Specifications:

- Video Amplifier Bandwidth: 350 MHz
- Input Video Signal: 1.2 volts p-p
- Input Sync Signal: 5 volts p-p (TTL)
- Horizontal Frequency Range: 15-70 KHz
- Vertical Frequency Range: 30 - 170 Hz
- Video In: HD-15 male
- Video out: HD-15 female
- Link Connector: RJ-45 Shielded
- Power Supply: 5V DC
- Power Consumption: 5 watts (max.)
- Dimensions: 1" W x 1" H x 4" D each module
- Shipping Weight: 3 lbs.
