

KYNAR/HMWPE

Cathodic Protection Cable

Abrasion & chemical resistant with an increased durability.

The insulation is extremely resistant to chlorine, sulfuric acid and hydrochloric acid.

SPECIFICATION

Conductor:	Tinned annealed copper
Insulation:	PVDF Fluoropolymer (KYNAR)
Sheath:	HMWPE (high molecular weight polyolefin) to ASTM spec D-1248
Voltage:	600/1000v
Operating Temp:	max 150°C – minimum bending - 15°C
