HAMILTON PRODUCTS SPECIFICATION

Hamilton Part Number: **6167**

Customer: N/A

Description: Tinned copper tubular braid

Material: Tinned Copper

Construction: 24 - 10 - 36

lbs/1000': 21.0 lbs

Dimensions (nom.):

I.D.:	5/32" (.1562")	inches
Width:	N/A	inches
Thickness:	N/A	inches

Braid Coverage: 95.6 %

AWG Equivalent: 12 **Drawing Number:** N/A

CMA: 6000 **Revision Level:** N/A

Amps: 40

Other: N/A

Product Spec: AA-59569A R36T0156 / QQB575 R36T0156

Core: No **Material Spec:** ASTM-B-33

Note: Flat form width and thickness are given for information only and are not requirements (spec A-A-59569, Page 2, Note 5). Individual use, operating conditions, and environments can affect values shown.
