
High Temperature Mil. Spec. Grommet

Fits 5/16" Diameter Hole & 1/4" Thick Panel, MS-35489-91

For ID (A)	5/16"
For Material Thickness (B)	1/4"
ID (C)	3/16"
Flange Diameter (D)	7/16"
Overall Height (E)	3/8"
Material	Silicone Rubber
Hardness	Durometer 50A
Temperature Range	-60° to 500° F
For Use Outdoors	Yes
For Use With	Wire, Cable, and Cords
Mount Type	Push In
Flexibility	Flexible
Specifications Met	MIL-G-3036, MS-35489-91, AN931-C3-5
Color	Red
RoHS	Compliant

These grommets withstand temperatures of 450° F or greater—about twice as much as standard grommets. Use them to protect wires, cables, and cords by turning rough-edged and uneven holes into smooth, insulated holes. They are flexible and push into place.
