

Hinged fittings Introduction

Hinged fittings are designed to protect against ingress, excessive cable strain and mechanical abrasion.

Quality approvals and standards

Manufacturing is controlled in accordance with BS EN ISO 9001 whilst ongoing testing & approval to international standards, provides additional confidence in specifying Harnessflex products across a variety of automotive applications.

All components comply with End of Life Vehicle (ELV) directive EU2000/53/EC. Harnessflex also comply to ISO14001 - Environmental Standard.

Design features include:

1. Radiussed internal form of conduit protects cables from abrasion
2. Internal backstop (found on all hinged fittings) alleviates any potential problems caused by unevenly cut conduit and ensures correct assembly.
