

R-Loc Stainless Steel Ladder Cable Ties.

Description:

R-Loc Ladder Type Ties are made of non Magnetic 316 grade stainless steel and have no sharp edges. Thanks to their high Mechanical and Chemical durability – they are ideal for applications requiring extreme strength.

Used in hazardous environments, in mining, off-shore, power stations, petrochemical industry and in ship building.

They are available in uncoated version, which is absolutely Fire proof and in coated version – with Pure Polyester.

Technical Information:

Material: 316 Grade Stainless Steel.

Coating: Pure Polyester.

Temperature Range:

Un Coated: - 80 Deg C to 500 Deg C

Coated: -30 Deg C to 150 Deg C.

Colour : Black Coating.

Flammability Rating: Fireproof.

Loop Tensile Strength:

7.0 mm Regular Width: 445 N. (100 lb)

12.00 mm Heavy Duty Width: 1112 N. (250 lb)

Other Properties: Coating- Halogen Free, Low Smoke, Non Toxic.

Thanks and Best Regards.
