Workstation Outlets (continued)

Multi-User Outlet Box, Adapter Strips and CAT5E BIX DVO Outlets

The Multi-User Outlet Box design allows for mixed media installations with a choice of connection strips. The box can accept either one or two 12-port MDVO Adapter Strips, CAT5E Connector Module Strips (BIX or 110), or a combination of both for a maximum of 24 connections.

The CAT5E BIX DVO Workstation Outlets are robust and installer-friendly products, combining punch-down connectors with standard modular

jacks. The outlet's unique, completely enclosed housing protects the connectors and allows the wires to be front-terminated on BIX Insulation Displacement Connectors (IDC). The snap-on cover plate allows easy access and eliminates visible mounting screws.

CAT5E BIX DVO Workstation Outlets offer headroom over the Category 5e cabling standard.
