Load. Click. Print.

High Performance Printing Made Faster And Simpler.

The Brady IP Printer redefines power and ease-of-use in thermal transfer printing. Our most popular benchtop solution, the IP utilizes smart chip technology allowing the printer, ribbon, material roll and PC software to communicate which significantly reduces set up time, reduces change-out time and reduces calibration label waste. Get ready for an easier printing.

Faster Change-outs and Less Waste

- Load Brady material and the software automatically recognizes it
- No more calibration or material waste required for notched, gapped or continuous materials
- Super-easy ribbon and material loading with center-justified guides and straight feed path
- Hassle-free drop-in material rolls install in a snap

More Performance

- Designed for up to 5000 labels per day at 12hrs / 5 days per week operation
- Fast print speed – up to 8 inches per second
- Prints on a vast selection of material varieties and materials, including custom-made parts
- LCD display shows correct material/ribbon match, visual sensor position and “material and ribbon remaining”

Hassle-Free Operation

- Fast hassle-free change-outs makes IP ideal for high-mix users (those using multiple material parts & put-ups)
- Perfect for users who are new to thermal transfer printing
