B-427 Self-Laminating Vinyl Labels continue on next page.

Finding the correct label height for your self-lam labels

If you know your wire diameter or wire circumference, you can easily determine the correct label height:

Step 1: Wire Diameter x 3.147 (pi) = Wire Circumference

Step 2: Wire Circumference x 1.5 = Total Label Length
(this allows the label to wrap 1.5 times around wire)
