## **Ever Wonder How Many Labels Per Ribbon?**

Have you ever wondered approximately how many labels you can print from one TLS 2200 Ribbon? Try this formula: (Note: Our standard TLS2200 ribbons are 900 inches long (75 ft).)

Step 1: label height + 0.10 = X

Step 2: 900 inches  $\div$  X = total labels per ribbon **Example:** Part Number PLT-19-422 is 1.0" tall.

1.0 inch label height + 0.10 = 1.10

900 inches  $\div$  1.10 = 818 labels per ribbon
