

*“Major Custom Cable is the industry leader in cable assembly manufacturing. At MCC our goal is to exceed your expectations for cable products and customer service.”*

## At Major Custom Cable:

- Real people answer your calls, not automated attendants
- Quotes and orders are processed by professional Account Managers
- Our experienced and knowledgeable Customer Service and Technical Representatives are ready to assist you
- Custom assembly projects are welcome
- Competitive prices
- No minimum or maximum orders
- Orders ship in three days or less
- Every cable is 100% tested
- Free blind drop shipments
- Modern production facility is ISO 9001:2008 Certified
- Quality and experience since 1990

If you are a MCC customer we sincerely thank you for your business and look forward to working with you again soon. If you are not a MCC customer we encourage you to call today. See for yourself the difference quality products and great service from the professionals at MCC will make for you.

# MULTIMODE FIBER OPTIC CABLE

## Check List:

- SIMPLEX or DUPLEX?
- FIBER TYPE (62.5/125, 50/125 or 50/125 10gig)?
- CONNECTOR TYPE?
- JACKET (PVC, PLENUM or LSZH)
- LENGTH?
- PULLING EYE?
- CUSTOM LABELS (SHRINK or LABEL)?
- JACKET OD (3.0MM, 2.0MM, 1.6MM)?

- **Fiber optic patch cables connect fiber optic equipment to optical cross connects, patch panels, and data outlets within the telecommunications closet, equipment rooms and work areas.**
- **Total immunity to electrical interference**
- **Multimode fiber assemblies are 100% tested**
- **Can be factory installed in innerduct**
- **Variety of jacket colors available**
- **Your choice of name brand or globally sourced components.**

# LASER OPTIMIZED FIBER OPTIC CABLE

## Check List:

- GRADE (150, 300, or 550)?
- CONNECTOR TYPE?
- JACKET (PVC or PLENUM)?
- LENGTH?
- PULLING EYE?
- CUSTOM LABELS (SHRINK or LABEL)?
- JACKET OD (3.0MM, 2.0MM, 1.6MM)?

- Laser Optimized 50/125 is designed to utilize VCSEL lasers in the 850nm window to allow transmission speeds up to 10 Gigabits per second (Gbps) over greater distance.
- Laser Optimized patch cords work with the Laser Optimized horizontal cable to achieve a 10-Gbps up to 550 meters depending on the grade of the horizontal cable.
- It is important to remember that Laser Optimized patch cords are backward compatible and can be factory installed in innerduct.
- Your choice of name brand or globally sourced components.
- 100% tested

**EXPRESS**  
.... AT THE SPEED OF LIGHT

Major Custom Cable now offers a new line of fiber optic cables we call our Express series. This product line consists of high quality, value based jumpers in a variety of connector configurations and cable lengths. Call your MCC sales representative today to learn more.

### The *Express* advantage:

- Large inventory
- Same day shipping
- Free drop shipping to your customers
- No minimum order

*Your fast track to more sales.*

# MODE CONDITIONING PATCH CORDS

- Adapt to Gigabit Ethernet using existing multimode cable plant
- Simply plug the singlemode connector into the Transmit side of the 1000Base-LX equipment and the multimode connector into the receive side of the equipment
- Mode conditioning patch cords provide the overfill launch condition required by multimode cable plants
- Use mode conditioning patch cords in place of standard equipment-to-patch panel for 1000 Base-LX systems where multimode horizontal cable is used
- IEEE-802.3z compliant

- SC/SC Connectors
- 62.5/125 micron
- Duplex
- PVC

## Check List:

- FIBER TYPE (MULTIMODE 62.5/125 or 50/125)?
- CONNECTOR TYPE?
- CONNECTORS (COMPOSITE POLYMER or CERAMIC)?
- JACKET (PVC or PLENUM)?
- LENGTH?
- CUSTOM LABELS (SHRINK or LABEL)?
- JACKET OD (3.0MM, 2.0MM, 1.6MM)?

Our mode conditioning patch cords are designed to eliminate DMD effects which can occur when a single mode signal is launched into a multimode fiber. Mode conditioning patch cords are especially suitable for applications where new Gigabit 1000 BASE-LX routers or switches are being deployed into existing multimode plants.

# OTDR LAUNCH BOXES

## Check List:

- FIBER TYPE (SINGLEMODE, MULTIMODE 62.5/125, 50/125, or LASER OPTIMIZED)?
- CONNECTORS?
- BARE GLASS LENGTH?
- NUMBER OF SPOOLS?
- LASER ENGRAVED FACE PLATE?

- Design your Launch Box your way
- All fiber types and connector types are available

### Uses:

Fiber network troubleshooting – Used with an OTDR, (Optical Time Domain Reflectometer) a break in a fiber run can be detected within a few feet. The launch box provides a known length of cable. The events that show on the OTDR screen will indicate every connector, every splice, and any microbend with the last event being the end of the cable.

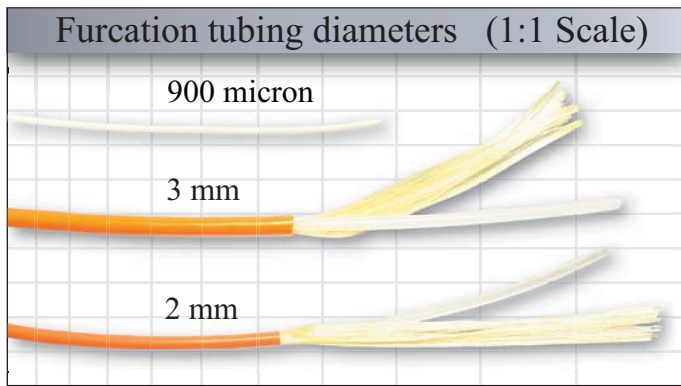

# MULTIFIBER ASSEMBLIES

MCC fiber optic cables have been designed to allow for a high degree of flexibility and customization. By providing virtually limitless options, we are able to ensure that you receive a fiber optic cable designed for your specific needs. Our development and manufacturing teams work closely together to guarantee the highest level of precision each and every time.

- Can be factory installed in innerduct
- 100% tested, results shipped with multifiber assemblies
- Your choice name brand or globally sourced components
- Available in indoor/outdoor solutions

## 900 Micron Pigtail Kit

- Ideal for fusion splicing with an installer friendly, easy strip buffer.
- New packaging keeps work organized for labor savings.
- Packaged as either a single strand or in color coded 6 and 12 pack versions.
- Available with SC, ST, LC, or FC connectors. PC, UPC, and APC performance options available.

## Features Corning™ Glass:

- Singlemode SMF28e™
- 50/125 Infinicor®600
- 62.5/125 Infinicor®300
- 50/125 Infinicor®SX+

# AMW1 WALL BOX WITH 1 LGX SLOT

1 x LGX Slot  
Various adapter plates available

## Description

MCC now offers a wide range of indoor wall mounted splice enclosures. The AMW1 enclosure offers a compact solution to the end user. This enclosure has been designed to accept 1 LGX style adapter plate.

With the ability to use a full array of adapter types, this enclosure offers a flexible solution to the end user. It enables them to incorporate a multifunctional enclosure that allows easy access during installation or rework with no disturbance of the existing cable or fibers.

In addition to the array of adapters, the enclosure also offers multiple cable entry solutions. Fiber cable can be spliced or preterminated, making this enclosure one of the most flexible on the market.

### Features/Benefits

- ▶ Up to 1 LGX component
- ▶ Wall mountable
- ▶ Multiple adapter options available
- ▶ Splicing option available.
- ▶ Multiple fixing points
- ▶ Hinged door
- ▶ Accepts loose tube and distribution cable
- ▶ ROHS, REACH SvHC. compliant

### Applications

- ▶ Data centers, premise installations, telecommunication networks
- ▶ Ethernet, Fiber Channel, ATM, LAN, MAN and WAN
- ▶ Data communication and telecommunication networks
- ▶ Indoor applications.

## Technical Specification

1 Slot Wall Box	
Height	140mm
Width	161mm
Depth	32mm
Net weight	0.6kg
Packaged weight	0.7kg
Packaged dimensions	180mm (W) x 180mm (L) x 55mm (H)
Suitable for Adaptor type	LGX / MTP Cassettes
Number of module positions	1
Material	Cold- rolled steel
Material thickness	1.2mm
Material finish	Powder coating
Color	RAL 9004
Operating temperature	-40 º to +50ºc
Designed in accordance with	TIA/EIA 568.C, ISO/IEC 11801, EN50173, IEC60304, IEC61754,EN297-1
Compliant to	RoHS, Reach/SVHC

# W24 6 POSITION UP TO 12 FIBERS

## W24 6 Position up to 12 fibers

This lockable IP65 distribution box offers the ability to terminate 12 fibers housed in a strong robust ABS enclosure for indoor and outdoor applications. With the ability to use a full array of adapter types this enclosure offers a flexible solution to the end user. It enables them to incorporate a multifunctional enclosure which allows easy access during installation or re-work with no disturbance of the existing cable or fibers.

In addition to the array of adapters then enclosure also offers up to 12 exit points for patching cables and 1 standard cable entry point for looSetube, tight buffer, pre-terminated and steel tape armored cable.

Each enclosure has integrated strength member tie positions and bend radius protection with the addition of a removeable front door allowing for quick and easy installation.

- ▶ Up to 12 fibers
- ▶ Multiple adapter options available
- ▶ 6 adapter positions
- ▶ IP65
- ▶ Accepts loose tube, distribution and pre-terminated cables
- ▶ Integrated bend radius protection
- ▶ Sealing glands for up to 12 cables
- ▶ Lockable door
- ▶ Removable door for ease of installation
- ▶ ROHS, REACH SvHC compliant
- ▶ Supplied with 12 heatshrink splice protectors
- ▶ Supplied with transit tubing
- ▶ Supplied with wall fixings and tie wraps

## Speedway 6 Segment Fiber Management Spool

Introducing the revolutionary Speedway bend radius spool with its unrivalled ease of use and flexibility. Designed to accommodate a number of cable diameters up to 3mm. This incredibly versatile accessory allows the installer to use the complete unit for fiber storage or break it down in to 6 individual components suitable for fiber management/routing. These can then be mounted via adhesive foam pads or via screws. The individual spools are designed to stack up into as many units as you may require through a simple snap fit system.

### Features

- ▶ Fiber pathway allows easy storage of excess fiber and multi-directional routing of entry and exit fibers
- ▶ Allows storage of 250um, 900um, up to 3mm fiber cabling
- ▶ Minimum 30mm bend radius
- ▶ Can be split in to six separate sections
- ▶ Clips together allowing multiple stacks to be formed
- ▶ Mountable via central hole by screw, or double sided foam adhesive pad

### Applications

- ▶ Fiber management
- ▶ Internal and external
- ▶ Wall Boxes
- ▶ Patch Panels

### Technical Specification

Fibre Management Spool	
Diameter	Max 96mm
Height - Individual	22mm with Adhesive pad, 21mm without
Height - 2 Stacked	37mm with Adhesive pad, 36mm without

# SPEEDWAY FIBER SPLICE TRAY

## Speedway Fiber Splice Tray For Up To 24 Fibers

Introducing the revolutionary new Speedway splice tray with unrivalled ease of use and flexibility. Featuring a unique external fiber pathway and pivoting splice holder arrangement, this tray redefines the concept of splice management, combining fiber management and splicing control in one product. Due to its accommodating internal dimensions the Speedway splice tray is able to comfortably hold 24 splices with either heatshrink or crimp style splice protectors with up to 900um fibers.

### Features

- ▶ Unique external fiber pathway allows easy storage of excess fiber and multi-directional routing of entry and exit fibers
- ▶ Spacious interior maintains 30mm fiber bend radius and allows storage of either 250um or 900um buffered fiber
- ▶ Internal management allows multiple fiber routing options including crossover
- ▶ Pivoting splice holders allow uninterrupted control of fiber prior to splicing and during rework
- ▶ Built in fiber pick can be used to withdraw individual fiber and can be stored in the try after use
- ▶ Will hold up to 24 splices with either heatshrink or crimp style splice protectors
- ▶ Supplied with tray hinge to maintain access to splices with stacked trays
- ▶ Transparent clip in lid supplied with every tray
- ▶ Cable tie points to secure fiber on entry and exit
- ▶ Mountable via central hole, DIN style holes or double sided foam adhesive pad

### Applications

- ▶ Fiber management
- ▶ Internal and external
- ▶ Wall boxes
- ▶ Patch panels

### Technical Specification

Splice Tray	
Width	168mm
Depth	124mm
Height	13mm
Net weight	81g

# SPEEDWAY FIBER SPLICE TRAY

## Technical Drawing

All dimensions in mm

# MTP CASSETTE MODULES

## Description

MCC MTP Cassette Modules provide a secure transition between MTP and LC or SC discreet connectors. They are used to interconnect MTP backbones with LC or SC patching.

Modular system allowing for rapid deployment of high density data center infrastructure as well as improved troubleshooting and reconfiguration during moves, adds, and changes. Cassettes can be mounted in 1U or 3U 19" multi-slot chassis.

MTP Cassettes contain factory controlled and tested MTP -LC or SC fanouts to deliver optical performance and reliability. Low Loss MTP Elite and LC or SC Premium versions are offered featuring low insertion loss for demanding power budget high speed networks.

## Features

- ▶ **MTP® (US Conec) brand MPO standard compliant multifiber connector**
- ▶ **LC (SFF Data Centre standard), SC discreet interface**
- ▶ **OS1/2, OM3, OM4 fiber grades (OM1 and OM2 available)**
- ▶ **12 and 24 fiber versions - 12 LC (Duplex) / SC (Simplex) optical parts**
- ▶ **Polarity A (standard), B or C**
- ▶ **Factory Terminated and Tested**
- ▶ **High performance zirconia sleeve adaptors**

## Benefits

- ▶ **Rapid Deployment-** factory terminated modular system saves installation and reconfiguration time during moves, ads and changes.
- ▶ **MTP® Interface-** MTP® US Conec brand components feature superior optical and mechanical properties.
- ▶ **Optimized Performance-** low loss MTP® Elite, discreet Premium connectors and OM4 fiber assures low insertion losses and power penalties in tight power budget, high speed network environments.
- ▶ **High Density-** 12 or 24 fiber cassettes can be mounted in 1U scaling up to 72 or in 3U scaling up to 336 discreet connectors.
- ▶ **Reliability-** 100% Tested- combination of high quality components and MCC manufacturing quality control guarantees product to the highest standards.

## Application

- ▶ **Data Center Infrastructure**
- ▶ **Storage Area Network- Fiber Channel**
- ▶ **Parallel Optics**

## Standards Compliance

- ▶ **TIA/EIA-568-C.3 and ISO/IEC 11801 - cable**
- ▶ **IEC-61754-7 & EIA/TIA-604-5 - MTP®**
- ▶ **Compliant to Directive 2002/95/EC (RoHS) and REACH SvHC**
- ▶ **IEC-61754-20 (LC) & IEC-61754-14 (SC)**
- ▶ **IEC-60793**

### MTPM24LCOM3CASS

This part number refers to 24 fibers OM3 cassette with MTP male rear and LC front interface, polarity method A or C.

# 1U AM STYLE SLIDING MODULAR PATCH PANEL

## 1U AM Style Modular Patch Panel

MCC offers a complete range of innovative, robust optical panels, designed in high-grade steel and aluminum with a hinged, smoked Plexiglass front safety door. The Panels have been designed to accept MTP Cassettes or LGX-style adaptor plates in a wide variety of configurations.

This line of panels offers a highly flexible solution, enabling the installer to incorporate a multi-functional chassis which allows easy access during installation or re-working with no disturbance to the existing cable or fibers.

This family of panels also offers multiple cable entry solutions allowing MTP trunks, pre-terminated cables or LT/TB/breakout cables to be easily connected internally via the highly flexible internal management spools or splice cassettes, making this panel one of the most flexible on the market.

### Features

- ▶ High grade steel and aluminium construction
- ▶ Hinged front plexiglass door
- ▶ Aluminium slide rails
- ▶ Powder coat finish in standard black
- ▶ Flexible internal cable management
- ▶ Fully flexible for 19" and 23" applications
- ▶ Sliding tray for ease of installation
- ▶ Integrated spring loaded tray retainer
- ▶ Holds up to 3 cassettes or LGX style adaptor plates
- ▶ Multiple adaptor options available, loaded or unloaded
- ▶ Splicing option available
- ▶ Side patch cord exit points
- ▶ Removable quick access top covers
- ▶ Removable front
- ▶ Accepts loose tube, distribution cable and MTP trunk cable

### Technical Specification

1U Modular Patch Panel Chassis	
Height	1U (44.4mm)
Width	432mm
Depth	356mm
Net weight	5.9kg
Packaged weight	6.3kg
Packaged dimensions	444mm (W) x 508mm (L) X 102mm (H)
IP rating	Not Applicable
Suitable for Adaptor type	LGX / MTP Cassettes
Number of ports	3
Material	Cold-rolled steel
Material coating	Powder coating
Material thickness	1.2mm
Colour	RAL 9004
Operating temperature	-40°C to +60°C
Designed in accordance with	TIA/EIA 568.C, ISO/IEC 11801, EN50173, IEC60304, IEC61754,EN297-1
Compliant to	RoHS, Reach/SVHC

# SEBR REEL

## The "SEBR"

Standby Emergency Backup Reel

### Reel Specifications

- **Flange Diameter: 18-3/4" Drum Diameter: 11-1/4" Traverse length: 12-3/4"**
- **Weight: 62 lbs. in the box**
- **Frame Dimensions: 25"H X 16-1/4"W X 25-1/2" Bottom Length X 20-1/2" Top Length**
- **300 foot Capacity with 5/8" tubing**
- **Reel plate will accommodate 1 to 18 duplex or 1 to 36 simplex couplers, as specified by the customer**
- **4 locking casters**
- **Rugged frame that is easily transported**

### Check List:

- DUPLEX or MULTIFIBER?
- FIBER STRAND COUNT (2 to 36)?
- FIBER TYPE (SINGLEMODE, MULTIMODE 62.5/125 or 50/125 or LASER OPTIMIZED)?
- CONNECTOR TYPE (FC, LC, MTRJ, SC, ST)?
- CONNECTORS (COMPOSITE POLYMER or CERAMIC)?
- SINGLEMODE ULTRA or ANGLE POLISH CONNECTORS?
- LENGTH?

### Tubing Specifications

- **18 to 36 inch breakout available**
- **Clear PVC tube with braided reinforcement**
- **ROHS compliant FDA formula**
- **Temperature Range: -10 to +130F**
- **Weight: 10.3 lbs/100ft.**
- **Lengths available from 100 to 300 ft.**
- **Crush proof up to 3000 lbs.**
- **A copper version of the "SEBR" can be designed - Call for details**

Interface panel will accommodate up to 36 couplers. All common coupler types are available.

Quick retrieval handle

- For temporary use
- Not for permanent installations

## HDMI Extender Reel

- For portable HI definition needs
- What's on the reel
  1. Plate with 4 LCD and 1 Cat 5E RJ45 Jack
  2. 4 Strand LCD/LCD Multimode Cable up to 100 meters
  3. 1 Cat 5E Solid 24 Gauge 4 pair Terminated Jack to Plug
  4. 1 Transmit unit HDMI to Fiber converter

## Ruggedized LC

- Up to 1000 feet
- Multiple 2 Strand Tactical Grade Fiber Cables Under TechFlex
- LC Duplex Ruggedized Connectors Options
  1. Tyco Electronics ODVA
  2. Neutrik OpticalCon
- LC Duplex Ruggedized Coupler Options
  1. Tyco Electronics ODVA
  2. Neutrik OpticalCon

**Custom Configurations Available!**

## SMPTE 304M Connectors by Kings

Winchester's **KINGS**® brand Fiber Optic Tri-Loc® Camera Connectors set a new standard in SMPTE 304 connectors. Extremely rugged, reliable, and intermateable with all connectors in the field.

### Benefits/Features

- Quick Disconnect Push/Pull self-latching system
- ARIB (BTA S-1005B), ANSI/SMPTE (304-2009 & 311-2009), and EBU (R100-1999) compatible
- Heaviest gage stainless steel shell on the market
- Fiber optic endface geometry per Telcordia® GR-326 core.
- Custom reels options available (see page 30)
- Customers can choose from Belden, Furukawa, or Major Custom Cable brand wire

The only 100% **MADE IN THE USA** camera cable on the market

# HMA EXPANDED BEAM

The HMA connector series is a small hybrid connector suited for a vast array of applications, including broadcast, military communications, industrial and petrochemical. The innovative designs ensure its ability for deployment in the toughest environments where high performance and total reliability are critical.

Benefiting from Stratos expanded beam technology, with a long and proven industry track record, the precision optical alignment system creates immunity from water, mud, dust, oil, and other contaminants.

The HMA Hermaphroditic coupling eliminates the need for adaptors or male and female mating halves. Hermaphroditic housings allow for rapid deployment, creating Singlemode, Multimode, and Hybrid daisy chained links in a variety of plan forms ranging from simplex fiber to a copper Hybrid. The HMA is ideally suited for environmental extremes where low maintenance and quick repair times are necessary.

## Key Features & Benefits

- ☒ Advanced expanded beam technology
- ☒ Hermaphroditic interconnection
- ☒ 1 to 4 Fiber channels Single mode or Multimode
- ☒ Hybrid electrical & fiber channel options Available
- ☒ Rugged field repairable connector design boot for 'Blind Mating'
- ☒ Best optical performance available
- ☒ No adaptors necessary
- ☒ Inexpensive, low downtime field repair
- ☒ Easy clean, no special tools
- ☒ Designed to meet requirements of MIL83526/MIL20/MIL21

# PIERSIDE HERMAPHRODITIC

## About Pierside

The Pierside fiber optic connector is for harsh environment, broadcast, and pierside applications. This connector is available in either singlemode or multimode and uses field-proven MIL-PRF-29504 termini.

The 6 & 12-channel Pierside connector designs provide flexibility for current and future Navy communication requirements both afloat and ashore. This connector is also ideal for high fiber-count tactical broadcast networks.

Removable termini, qualified to MIL-PRF-29504 specifications, enables quick connector reconfiguration and field maintainability.

## Applications

- Umbilical cables used to interface between shore and ship networks
- Broadcast
- U.S. Army, Navy, Air Force and Marine Corp tactical and strategic deployments
- Oil, gas and geoscience industries
- Industrial

## TFOCA II Connectors

Second generation TFOCA connectors feature a PC (physical contact) style ceramic-zirconia termini and may include 4, 6, or 12 fibers. These newer designs support 50/125, 62.5/125, singlemode fibers (9/125) or hybrid combinations.

The hermaphroditic TFOCA-II connector series was designed specifically for use in harsh environments. In fact, the U.S. Army has standardized on the 4-channel TFOCA-II connector as the next generation fiber optic connector for military tactical deployable network applications.

### Applications:

- Broadcast Industry
- Satellite Ground Station
- Industrial Harsh Environment
- Emergency Fiber Restoration Service
- Tactical Harsh Environment
- Mobile Communications
- Oil/Gas /Geological Industries
- Mining

# Schill

Schill utilizes state of the art manufacturing and quality control process (DIN EN ISO 9001:2008) at their plant in Laichingen/Baden-Wuerttemberg, Germany. The design team is constantly striving to improve every aspect of the product, often relying on direct customer input to deliver the highest quality. The central item is customization, and that's why they are Major Custom Cable's partner of choice.

We normally stock open reels and then accessorize the unit based on the customer's needs. We always keep the most popular reels in stock in our Midwest warehouse, servicing all of the USA and Canada. If a particular reel is not in stock, we can have it shipped from the plant in Germany in as little as 5 working days.

GT 235

**GT Professional Series**  
Unbreakable synthetic rubber and heavy-duty steel construction, high-quality fittings, spool brake, completely customizable.

#### HT Classic Line

Heavy-duty steel constructions, interchangeable disks, high-quality fittings, spool brake, folding crank, completely customizable.

#### SL Series Stage Line

Industrial-duty powder coated steel and polycarbonate construction, stackable, high-quality fittings, folding carry handles, spool brake, folding cranks, hinged hub access hatch.

#### SK Series Stage Line

Industrial-duty steel frame and spool, stackable, high-quality fitting, tri-flange 3rd disk, spool brake, heavy-duty folding crank.

Ruggedized LC

Ruggedized RJ45

LC Wall Plate

Ruggedized LC Array

### APPLICATIONS:

- Harsh environments where chemicals, corrosive gases and liquids are commonplace
- Inside and outside industrial plant and equipment that interface with industrial Ethernet networks
- Remote interface applications such as towers and antennae as well as FTTX in PON and at the home applications
- Mobile routers and internet hardware

### SPECIFICATIONS:

- IP67 rated to ensure protection from dust and water immersion
- Temperature range of -40°C to 85°C
- Bayonet-style mechanical lock
- Flame retardant materials per UL 94 V-0
- Dual mounting bulkhead design
- Singlemode and multimode fiber
- Can be used with cable types 9/125, 50/125 and 62.5/125
- ODVA Conforming Plug to X interface on tactical with break out
- ODVA Conforming Plug to Plug on tactical cable
- Build to customer need

## Z Stack

### Pre-Terminated All-purpose Patch Panels

- Rugged, multi-environment design
- 18awg steel chassis with a 16awg Z-stringer for maximum durability
- Available in either ST, SC, FC or LC configuration
- Choices include PC, UPC or APC performance levels
- Indoor/Outdoor, riser or plenum rated configurations available
- 2, 4, 6, 8 and 12 port options
- Custom and hybrid configurations available

SFP+ (Small Form-Factor Pluggable Plus) copper cable assemblies are a high-performance I/O computing connectivity solutions supporting 10Gb Ethernet and Fiber Channel applications. SFP+ copper modules provide a high port density, configurability, utilization at very low cost and reduced power budget.

### Product Features:

Available for 10Gb Ethernet and Fiber Channel applications  
Available in .5m, 1m, 2m, 3m, 5m, 7m, 10m and 15m lengths  
Assembled with premium Madison 24AWG cable  
100 Ohm impedance  
Support for 1x, 2x, 4x, and 8x Fiber Channel data rates  
Passive Ethernet cable  
RoHS compliant  
Pull-to-release latching  
Compliant to SFP+ MSA  
Low power consumption  
Low crosstalk

## Microphone Cables

- 20 gauge, 24 gauge conductors, and quad cable available
- Switchcraft®, Neutrik®, Amphenol®, or Precision® connectors
- Custom lengths available

### The "CJ" Series

- 24 gauge RSMCA mic cable
- 95% shielded
- Low impedance
- Metal XLR connectors
- 3 to 100 foot lengths

### Road Hog

- 24 gauge conductors
- 95% serve shield
- Heavy-duty jacket
- Black Neutrik® connectors
- 3 to 100 foot lengths

### The Gold PRO Series

- Black Neutrik® connectors with gold-plated contacts
- 20 gauge cable
- Braided shield
- Professional grade
- 3 to 100 foot lengths

### Road Hog

- Gold-plated connectors
- 20 gauge conductors
- 95% serve shield
- Heavy-duty jacket
- Right-angle connectors available

## Speaker Cables

- Round black matte jacket
- Bare copper inner conductors
- Available with Amphenol®, Neutrik®, Switchcraft®, or Precision connectors
- Custom lengths available

12 Gauge

14 Gauge

### The "Commercial" Series

- Professional grade speaker cable
- Round black matte jacket
- Bare copper inner conductors
- Twisted pair inner conductors to reduce inductance
- Available with Amphenol®, Neutrik®, Switchcraft®, or Precision® connectors
- 3 to 100 foot lengths (50 foot maximum for 18 gauge)
- 10, 12, 14, 16, and 18 gauge available

### The "SP" series

- Heavy-duty, multi-conductor 13 gauge speaker cable
- Rugged, black matte finish
- Neutrik® Speak-On connectors
- Available in 4 or 8 conductors

### Y-Cables

- One conductor, two conductor, and 18 gauge speaker cable options available
- TRS, XLR, RCA, and banana plug connectors available

## Instrument Cables

- High Z cables available with Switchcraft®, Neutrik®, or Precision® connectors
- Available in color or cloth covered cables
- Custom lengths available

## Devices

### Audio/Video Interface

- Designed to interface laptops and projectors into low Z inputs
- Includes hi/low attenuation and ground lift
- Constructed of 18 gauge steel with recessed connectors for added durability

### TDIBLOX Consumer to Pro Interface

- Converts input from consumer grade equipment (tape decks, CD player) to mic level balanced output
- Gives operator volume control of the outgoing signal
- RCA male inputs, XLR male output

### Direct Box

- Transforms Hi-Z 1/4" input to balanced Lo-Z output
- Heavy-duty steel box
- Superior connectors
- High performance transformer
- Special jack for ground lift eliminates 60 cycle hum
- Parallel 1/4" output jack for on-stage monitoring

### CVPBLOX

#### Variable Pad with Mute

- Continuously variable pad via potentiometer on top
- Pull out the knob to mute the outgoing signal "pop" free
- XLR female input, XLR male output

## Snakes

- Eliminates clutter on stage
- Perfect for drum kits and keyboard rigs

### 6 X 6 Dual Box Sub-Snakes

- Side entry reduces cable clutter
- Heavy-duty metal strain reliefs on boxes
- 2 stage boxes
- Twice as many channels
- Allows input boxes to be placed in independent locations

### 6-Pack & 8-Pack Sub-Snakes

- Low profile stagebox 3-3/4" X 5" X 1-7/8"
- Neutrik® XLR connectors
- Formed steel boxes
- Heavy-duty, flexible PVC cable jacketing
- Heavy-duty wire mesh strain relief at box
- Heavy-duty wire mesh hanger at the fanout

### ISOBLOX

#### 1 to 1 Isolation 600ohm

- Allows signal and ground isolation
- Retains a 600ohm load source impedance
- XLR female input, XLR male output

### DBBLOX

#### Direct Injection Box

- Converts high impedance source to low impedance load
- 1/4" input, XLR male output

### PADBLOX

#### -10, -20, or -30db Inline Pad

- Attenuates incoming signals in -10db, -20db, and -30db versions
- Retains impedance
- XLR female input, XLR male output

- IEEE 802.11a thru IEEE 802.11g
- Wireless Internet
- Any standard outdoor installation where RG-type 50 ohm coax is required.
- Riser and plenum options are available.

Coax cable diameters (1:1 Scale)

- **Low halogenated, UV and weather resistant PE jacket material.**
- **Tinned copper braided shield coupled with an aluminum tape ensure maximum shielding from EMI/RFI.**
- **The foam PE dielectric coupled with copper clad aluminum center conductor ensure maximum flexibility with similar performance attributes to less installer friendly corrugated products.**
- **Compared to standard RG type cables, these low loss cables offer the best in signal clarity, and better RF Shielding.**

# I/O CONNECTOR SYSTEMS

- For Cisco 7000, 2500, & 4000 NP-4T Series Routers
- For Cisco 2509 through 2512 Series Routers, use Octal Cables
- We make Cisco Router Cable Assemblies for each series listed: 7000 • 4000 • 3800 • 3600 • 2600 • 2500 • 1600 • 1500 • CS500
- Console Cables for all Cisco hardware

Providing OEM solutions for hardware manufacturers such as: Nexterna, 3COM, HP, SEL, IBM

## Check List:

- ROUTER MODEL?
- ROUTER TYPE (DCE or DTE)?
- STANDARD SUPPORTED (V.35, RS232, ...ETC.)?
- JACKET (PVC or PLENUM)?
- CONNECTOR TYPE (DB25, V.35, ...ETC.)?
- CONNECTOR GENDER (MALE or FEMALE)?
- LENGTH?
- CUSTOM IMPRINTING (SHRINK, LABEL)?

HD60 to DB25

V.35 to HD60

MD50 to MD50

V.35 to DB50

HD200 to 8 V.35

# DB CABLE ASSEMBLIES

## Check List:

- ROUTER MODEL?
- JACKET (PVC or PLENUM)?
- CONNECTOR TYPE (DB9, DB25, DB37, or DB50)?
- HOOD (METAL, PLASTIC, or METALIZED PLASTIC)?
- CONNECTOR GENDER (MALE or FEMALE)?
- LENGTH?
- CUSTOM IMPRINTING (SHRINK, PDL, SEQUENTIALLY NUMBERED)?

DB9 Male  
Metal Hood

DB9 Female  
Metalized Plastic Hood

Thumb Screws  
available

DB25 Male  
Metalized Plastic Hood

DB25 Female  
Metal Hood

Thumb Screws  
available

DB37 Male  
Plastic Hood

DB37 Female  
Metal Hood

DB50 Male  
Metal Hood

DB50 Female  
Plastic Hood

Thumb Screws  
available

## Check List:

- CONNECTOR TYPE (DB9, DB15, DB25, etc.)?
- CONNECTOR GENDER (MALE or FEMALE)?
- MODULAR JACK (RJ11 or RJ45)?
- COLOR?
- PIN-OUT?

- **DB assemblies are used for many different applications in the telecommunication industry**
- **The data interface for each DB connector:**  
**DB9 - RS232**  
**DB15 - X.21**  
**DB25 - RS530/232**  
**DB37 - RS449**

## ADAPTERS

Modular adapters eliminate the need for conventional, bulky, data communications cabling in RS232/X.21 environments, relying instead on standard UTP wiring schemes. Perfectly suited for moves, adds, and changes, once attached to your hardware, changing out cables is as simple as plugging, and un-plugging an RJ45.

RJ45 to DB9 Male  
Adapter Yellow

DB25 Adapter

RJ45 to DB25 Female  
Adapter Blue

- MCC's Ethernet Assemblies are fully IEEE 802.3 compliant
- Boots available upon request
- AUI Assemblies with 90° hoods available upon request

## V.35 ASSEMBLIES

- V.35 - high speed modem cable assembly used to interconnect controllers (pc's, etc....) to high speed modems
- Available with 19 or 34 pins

## DIN

- Standard sized DIN connectors (originated by the Deutsches Institut für Normung of Germany) per IEC 60130-9, IEC 60574-3 are 13.2mm in diameter. These connectors are available in 3, 4, 5, 6, 7, 8, and 9 pin configurations including a 270 degree axial offset version of the 8pin. All are available in either male or female.
- Mini-DIN connectors are 9.5 mm in diameter and come in seven patterns (originated by the Deutsches Institut für Normung of Germany) . 3, 4, 5, 6, 7, 8, and 9 pin configurations available. All are available in either male or female.

# USB / FIREWIRE

Type B USB

Type A USB

Mini USB

Mini USB

FireWire - Male

FireWire - Female

USB = Universal Serial Bus

- Designed for connections between electronic devices and personal computers. Mini USB's are now common on digital cameras, MP3 players, and cell phones.
- MCC can offer a wide range of port convertors such as RS232 to USB and Ethernet to USB.
- Ask about our line of active and passive extenders to push the maximum length tolerance past the 5 meter threshold.
- IEEE 1394 Firewire 400 is available in traditional 4 and 6 pin varieties and standard lengths.

# SCSI CABLE ASSEMBLIES

Centronics 50 Male

Micro D68 Male

Micro D50 Male

DB50 Male

- Small Computer System Interface (SCSI) is a parallel interface standard used by Apple Macintosh computers, PCs, and many UNIX systems for attaching peripheral devices to computers
- SCSI interfaces provide for faster data transmission rates (up to 320 megabytes per second) than standard serial and parallel ports
- In addition, you can attach many devices to a single SCSI port, so that SCSI is really an I/O bus rather than simply an interface

**NEW!**

## HD15 with Audio

- Max length 180 meters (590 ft.) with 1 Zero Skew Cat 5E patch cord
- USB powers PC side connector
- DC power supply powers monitor/projector side connector
- LED indicators
- Resolution: 1080p

180 m

## HDMI Extender

- Max length 60 meters (196 ft.)
- Uses 2 Cat 5E patch cords
- HDMI cables not included
- Power required on PC side via DC power supply
- Riser or Plenum rated
- Resolution: 1080p

60 m

## HDMI Shuttle

- Max distance 30 meters (100 ft.)
- Requires 2 Cat 5E or 6 patch cords
- Color coded inputs and hoods
- No power required
- Resolution: 1080p

30 m

## HDMI Extender Wall Plate

- Max distance 30 meters (100 ft.)
- Requires 2 Cat 5E or 6 patch cords
- No power required
- Resolution: 1080p

30 m

Wall Plates!

## HDMI over Fiber

- 4 Fiber 50/125/ LCD/LCD
- 1 Cat 5E Patch Cord
- Power required on PC side up to 100 meters
- Power on both ends over 100 meters up to 1200 meters
- Reel option available
- Resolution: 1080p

1200 m

## HDMI Amplifier

- Uses 2 PVC HDMI cables and 1 extender
- No power required
- Covered in heat shrink
- Resolution: 1080p

30 m

## USB 2.0 over Cat 5E

- Max length 45 meters (150 ft.)
- Uses 1 Cat 5E patch cord
- A Male / A Female
- Extra USB cable not included

45 m

## USB 2.0 Keystone A Female

- Max Length 20 meters (65 ft.)
- Uses Cat 5E cable
- Available in any Keystone wallplate

20 m

# TOKEN RING ASSEMBLIES

- A popular type of Local Area Network (LAN) utilizing a token passing access method and a ring topology

**Check List:**

- ASSEMBLY TYPE (PATCH, PC ADAPTER, ...etc.)?
- CONNECTORS (TRDC, DB9M or SHIELDED RJ45)?
- GENDER (MALE or FEMALE)?
- JACKET (PVC or PLENUM)?
- LENGTH?

TRDC

DB9 Male

RJ 45 Shielded

Twinaxial

# RIBBON CABLE

- A flat, thin cable containing many parallel wires
- Their shape makes ribbon cables ideal for situations where space needs to be conserved
- They're used within a computer chassis to connect disk drives to the disk drive controllers
- All ribbon cable assemblies may be custom made to any length and with any configuration

66 pair block with a Telco Connector on each side

300 pair block with 12  
25 pair legs to Telco  
Connectors

66 pair block with 25 pair  
leg to Telco Connector

- 110 Type punch blocks make it easy to configure a compact and adaptable wall or backboard
- Designed to support voice and high speed data application
- Available in 50, 100, 300, 600 and 900 pairs
- 66 Blocks terminated with either 1 or 2 25-pair cables.
- Legs available for your specific needs

# SECURITY CABLES

**NEW!**

## SURVEILLANCE • SAFETY • SECURITY

Our Cables support POE and are POE + Ready

PoE Ethernet Switch

**Fire Alarm Cable**

- 2 and 4 conductor
- PVC and Plenum
- Shielded and non-shielded

**Major Custom Cable provides Connectivity Cable and Cross Connect Solutions for:**

- Access control systems
- Alarm systems
- Business security systems
- Card access systems
- CCTV systems
- Commercial security systems
- Security equipment
- Security solutions
- Security systems
- Small business security systems
- Surveillance systems
- Video surveillance systems

Security Camera Connectivity

# Terms and Conditions

## Warranty

A limited lifetime workmanship warranty is provided on all products manufactured by MCC, Inc. The warranty is limited to repairing or replacing, at MCC's discretion, any product proven to be defective upon inspection. MCC is not responsible for components or workmanship provided by outside suppliers. Abuse, alteration, or misuse invalidates all warranties.

## Terms

Pre-approved credit terms are net 30 days. All orders must include a purchase order number. All orders should be emailed or faxed to MCC.

## Purchase Order Cancellation

1. All PO cancellations must be requested by email or fax.
2. All PO cancellations must clearly state company name, contact name, date, purchase order number, and part number(s) of the merchandise.
3. All cancellations must be acknowledged by email by a representative of MCC.
4. The customer who requests the order cancellation is responsible for all costs related to any cut or spent materials, freight, penalties and restocking fees incurred by MCC up to the time of the cancellation.
5. Orders for custom manufactured products are non-cancellable and non-returnable.

## Quotes

All quotes are good for 30 days. After 30 days, MCC reserves the right to make price adjustments to the quote due to market driven price increases. All lead times are subject to material and production availability at the time the order is placed.

## R.M.A. (Returned Merchandise Authorization)

1. R.M.A.'s should be requested by email or fax.
2. R.M.A. requests should clearly state company name, contact name, date, purchase order number, and part number(s) of the merchandise.
3. All R.M.A.'s should be submitted to an MCC representative within 30 days of the invoice date.
4. All R.M.A.'s require an R.M.A. number. The number is issued by MCC after initial review of the R.M.A. request.
5. R.M.A.'s require the R.M.A. number clearly displayed on the outside of the carton. Merchandise returned to MCC without an R.M.A. number will be refused.
6. R.M.A. numbers are valid for 30 days from issue date.
