

C5 SERIES CREDENZA RACKS

C5 Series credenza racks match console finishes to complement the installation and provide capacity for additional functionality.

1. Choose from 1, 2 or 3 bay models. Choose the Contemporary style, with clean lines and smooth hardware, or the Traditional style, with ogee curved edges and brushed hardware. Choose from the standard finishes shown below. It's that easy!
2. The core structure of the credenza ships from stock at one of our five North American warehouses, so you can start integration immediately.
3. Outer surfaces, doors and trim ship separately to your shop or directly to the installation site and are quickly and easily fastened to cover all the metal and complete the installation.

Key Advantages of This Installation-Friendly Approach:

1. **It's FAST.** Get integration started fast – frames ship from stock.
2. **It's SAFE.** Wood shipments are well protected from shipping damage.
3. **It's REPAIRABLE.** If a panel gets damaged on jobsite, it can be easily replaced.
4. **It's FUTUREPROOF.** Changing colors or styles in the future is easy

27-1/2" Deep Credenza Racks					
Frame**		Finishing Kit, Traditional Style		Finishing Kit, Contemporary Style	
# of Bays	Model	With Smoked Plexi Door(s)	With Solid Door(s)	With Smoked Plexi Door(s)	With Solid Door(s)

1 Bay	C5F1-D	C5K1-D-TPD-xx *	C5K1-D-TSD-xx *	C5K1-D-CPD-xx *	C5K1-D-CSD-xx *
2 Bay	C5F2-D	C5K2-D-TPD-xx *	C5K2-D-TSD-xx *	C5K2-D-CPD-xx *	C5K2-D-CSD-xx *
3 Bay	C5F3-D	C5K3-D-TPD-xx *	C5K3-D-TSD-xx *	C5K3-D-CPD-xx *	C5K3-D-CSD-xx *

Note: A complete system includes the frame & the finishing kit – when ordering a finishing kit the frame must also be ordered. **Frame does not come with finishing kit.

*Replace 'xx' with DS = Darkstone, GS = Graystone, PS = Pepperstone, SG = Shark Gray, EA = Ebony Ash, WG = Wenge, DC = Dark Cherry, DP = Dark Pecan, AG = Aged Cherry, HM = Honey Maple, LW = Light Walnut, MP = Maple.

Standard Work Surface Finishes

C5 SERIES CREDENZA RACK ACCESSORIES

C5 Depth Extender

Extender kit adds 2.84" useable depth

Install Deeper Equipment in C5 Credenza Racks

The Depth Extender Kit is field-installable and extends the rear depth of any single bay of any standard depth C5 Credenza model to accommodate deeper components and their cables. The extender adds nearly 3" to the frame's useable depth (while staying within the overall depth of the wood surface) and accommodates the unit's standard rear panel. Fits all models and installs with an included wrench.

Millwork Kit for Customizing C5 Series Credenza Racks

Using the C5 Millwork Kit lets a custom millworker provide matching outer surfaces. (Not a standard offering)

The millwork kit supplies all hardware & specifications to allow customized woodwork to be used with our credenza frame kit.

Each kit includes:

- A USB Flash Drive pre-loaded with shop plans, drawings, & instructions.
- A complete Hardware Kit including:
 - Fasteners for door installations, including hinges (Note: door knobs/pulls are NOT included)
 - Fasteners for attaching the top panel, side panels, & toe kick

Ordering a Millwork Kit

To order a Millwork Kit, simply choose the model below that matches the number of bays in your C5 Series Frame.

Part #	Description	Order w/ 27-1/2" Deep Frame	Order w/ 31-1/2" Deep Frame
C5-MK1	C5 millwork kit, 1 bay	C5F1	C5F1-D
C5-MK2	C5 millwork kit, 2 bay	C5F2	C5F2-D
C5-MK3	C5 millwork kit, 3 bay	C5F3	C5F3-D
