what **great systems** are built on.™

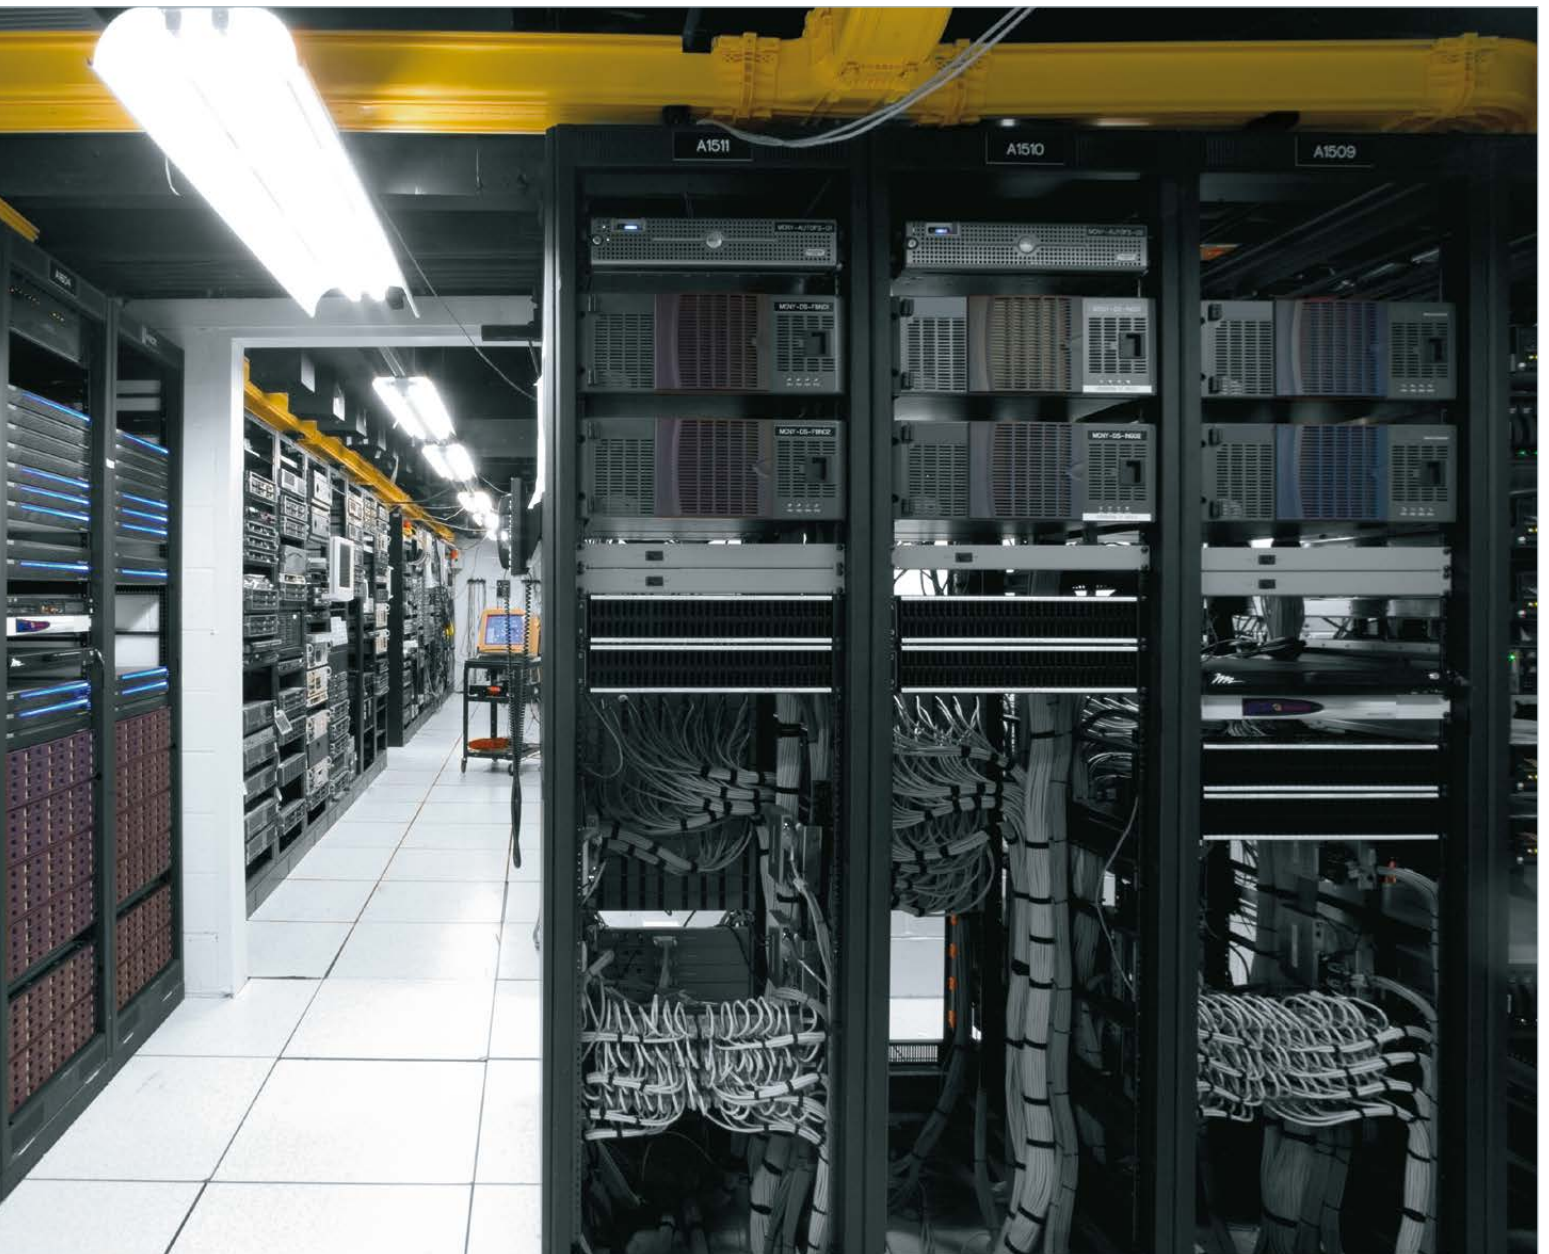

what great systems
are built on.™

Middle Atlantic Products, a Group Brand Legrand® has manufactured exceptional support & protection products to mount integrated AV systems in Residential, Commercial, Broadcast and Security applications since 1979.

All of our products are designed and engineered in the US to maximize system reliability and to meet the needs of installers; from thermal considerations and built-in cable management, to pre-installed

washers on our rack screws, we build in ways to save time and simplify the job.

At the heart of every installation, you'll find Middle Atlantic Products - what great systems are built on.

A Group brand |  legrand®

customer first philosophy

Our philosophy began as, and will always be, Customers First. Middle Atlantic's customer service team, technical support group & custom division are fully dedicated resources to ensure that we provide the right product and solution at the right time to meet our customers' needs.

Our 425,000 square foot headquarters is equipped with manufacturing capabilities such as laser-fabrication cells which produce smooth edges

that are friendly to both cables and contractors, automated forming lines, robots and high-speed turret presses that provide quick throughput.

It's these resources that allowed us to revolutionize the industry by stocking products nationwide to be ready on a moments notice.

We've developed the broadest and deepest product lines in the industry – maximizing our customers'

options, helping them consolidate vendors all while staying close to our core offering and expertise to ensure a value added experience.

Racks and enclosures form the primary structure of an installation, and provide the “frame” to support electronic equipment, power, cooling and cable management.

Middle Atlantic offers the broadest and deepest range of rack solutions in the industry to meet the needs of almost any application and maximize your options. Explore the products in the following pages or visit middleatlantic.com to find the perfect solution for you.

racks and enclosures

gangable floor-standing enclosures

Gangable racks are designed for larger installations where more than one rack is needed. Normally, they are floor-standing and feature large openings on the sides as well as front and back, and have holes or pre-installed nuts that allow the racks to be bolted together side-to-side.

(Some installers also prefer them for single-rack jobs because the open sides provide unrestricted access during installation.)

Attaching the racks firmly together provides strength, stability, and allows cabling to pass between racks. Side panel sets are available to cover the sides once the installation is complete; one set of side panels will close off an entire row of gangable racks.

Most floor-standing gangable racks range in capacity from 19 to 44 or 45 spaces, with the Extra Tall VMRK having up to 54 spaces.

Solutions are also available to close off one or more sides in the middle of a row of gangable racks – perfect for blocking airflow from one rack to the next.

highest level of integration flexibility

The **BGR Series** innovative rack delivers the highest level of integration flexibility and space efficiency.

BGR-4532

- Designed to accommodate evolving AV systems
- Breakthrough design provides high strength without extra weight
- Wide open top and bottom offer many cabling and cooling options
- Standard front and rear adjustable 10-32 threaded rackrail with numbered spaces
- Includes standard vented rear door that accepts optional fans (except LRD models)
- Accepts Lever Lock™ system tool free cable management accessories, see pg. 206
- Accepts extender bay to add 3" of useable depth to the front or rear at any time
- Accepts brush grommet rear door kit for a large cable passage passage without fishing

Certifications

- Seismic Certification
- UL/ETL Listed

Additional Options:

most advanced rack enclosure

The **SNE Series** is the most advanced security rack enclosure available.

- Four available configurations fit your system type, wiring needs, cooling requirements and rack location
- Thermal options built for unconditioned or conditioned environments with active or passive ventilation
- Adaptable equipment mounting threaded rail, cage nut rail or innovative adapter for both
- Raised-floor ready with seismic and standard riser bases
- Accepts Lever Lock™ system tool free cable management accessories, see pg. 206
- Versatile cable management and routing included
- Lockable, flush mount side panels
- Doors accommodate industry standard electronic locks
- Customized solutions available

Certifications

- Seismic Certified

multi-bay space saving rack

The **MRK Series** is designed for large-scale multi-bay jobs.

- Fully welded construction for strength
- Racks gang together when fully loaded
- Multiple lacing points and slotted rail brackets for cable management flexibility
- Standard front and rear adjustable 10-32 threaded rackrail with numbered spaces
- Racks with PRO suffix include two pairs of cage nut style rackrail
- Comes with standard configurable rear door; see pg. xx for thermal management kits
- Preconfig version available see pg. 57
- Seismic certified up to 1,050 lbs.

strong & narrow broadcast enclosure

The **VRK Series** was specifically designed for mounting video and AV equipment in a broadcast-standard 22" wide enclosure.

- Built-in horizontal lacing bars are ideal for quick tie-and-slide lacing of video cable bundles
- Fully welded construction for strength
- Racks gang together when fully loaded
- Standard front and rear adjustable 10-32 threaded rackrail with numbered spaces
- Includes partially vented locking rear door (except LRD models)

Certifications

- Seismic Certification
- UL/ETL Listed
- RoHS
- GREENGUARD

VMRK-54

rugged, space-saving design

The **VMRK Series** adds extra height to take full advantage of taller spaces.

- Specify a VMRK to maximize your racking capacity, and where seismic certification and open or removable sides are required or preferred
- Fully welded construction for strength
- 54 spaces of racking height
- Racks gang together when fully loaded
- Multiple lacing points and slotted rail brackets for cable management flexibility
- Standard front and rear adjustable 10-32 threaded with numbered spaces
- Includes standard solid locking rear door (except LRD models)

Certifications

- Seismic Certification
- UL/ETL Listed
- RoHS
- GREENGUARD

Note: Due to flipping hazard, there is no caster base available for this rack.

mixed-application multi-bay server

The **WMRK Series** is designed for deep equipment (servers & NVR) with large cable capacity.

- Comes standard with cage nut mounting rails and perforated doors and tops to meet server manufacturer warranty specifications
- Pre-configured models are available
- Fully welded construction for strength and stability
- 24" overall width optimized for use on raised floors
- Racks gang together when fully loaded
- Includes two pair of adjustable cage nut rackrail and one pair of z-rail sidemount adaptors configured to accept servers and slide kits from all leading manufacturers
- Includes leveling feet and 100 qty of 6mm cage nuts and hardware
- Preconfig version available see pg. 57

wide av multi-bay rack enclosure

The **WRK Series** is designed for multi-bay jobs that require large cable capacity and greater air-flow.

- Fully welded construction for strength
- 24-1/4" overall width provides space for side cabling or cooling airflow
- Convenient lacing points and slotted rail brackets for cable management
- Standard front and rear adjustable 10-32 threaded rackrail with numbered spaces
- Extra-wide rackrail features cable pass-throughs to facilitate front-to-rear cabling
- Comes with standard configurable rear door see pg. 227 for thermal management kits (except LRD)

For stand-alone model, refer to pgs. 36-37.

DRK19-44-31

wide networking rack enclosure

The **DRK Series** is designed to support high-density patching.

- DRK Series rack enclosures have a 30" wide footprint for abundant internal cable space
- Pre-configured models are available
- Accommodates 19" panel width equipment
- Use in network patching and other cable-heavy applications
- Fully welded construction for strength
- Racks gang together when fully loaded
- Includes pre-installed cable ducts with hinged steel doors and magnetic closures
- Cable duct is factory mounted in front, can also be mounted to rear
- Cable ducts accommodate copper and fiber cables equally well
- Standard front and rear adjustable 10-32 threaded or cage nut rackrail
- Includes 100 rack screws
- Includes partially vented locking-rear door
- Includes MW-10FT

Duct for DRK Enclosures

Adds cable duct when rear cable management in a DRK installation is required.

- One or two ducts can be added in rear of rack
- Steel construction with black powder coat finish
- Sold in single pieces

Part #	Description
DRK-44DUCT	44 space cable duct

DRK-44DUCT

cost effective versatile multi-bay rack

The **Slim 5 Series** is designed for multiple AV applications and locations.

- Available in 12 standard sizes and any height from 8 to 43 spaces
- Ships ready to assemble
- Strong steel construction with wide open access for easy integration
- Lightweight, open design is easy to work with
- Knock down design allows for flat shipment via UPS
- Unique interlocking corner joint for exceptional strength and easy assembly
- Accepts optional removable steel side panels for security and to control airflow
- Accepts optional attractive thermolaminate top and side panels (19 colors)
- Top includes two laser knockout locations to mount cooling fans
- Standard front and rear fixed 10-32 threaded rackrail with marked spaces

Certifications

- UL/ETL Listed
- RoHS
- GREENGUARD

5-BAVTRIM

stand-alone floor-standing enclosures

Stand-alone racks are designed to house all types of electronic systems in smaller installations where one rack is sufficient for the need, or for where multiple racks are used but are not standing together in a row.

Racks in this section are floor-standing and have solid sides for strength, security, and to control cooling airflow. For most models, a variety of options are available, including front and rear doors, solid, vented and fan tops, and caster and riser bases.

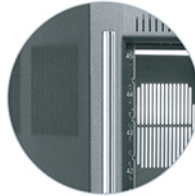

Stand-alone racks range in capacity from 18 to 45 rack spaces at multiple depths.

BGR-SA Series	32 - 33
BGR Series Presentation Enclosure	34 - 35
WRK-SA Series	36 - 37
WRK-24MDK Series	38 - 39
ERK Series	42 - 43
ERK-KD Series	44 - 50
Options	51
SRB Series Riser Bases	52 - 53
Raised Floor Enclosure Support System™	54 - 55
Configured Enclosure Systems	56 - 57

highest level
of space efficiency

The **BGR-SA Series** has the highest level of space efficiency, strength and flexibility.

BGR-45SA-32

- Designed to accommodate evolving AV systems
- Breakthrough design provides high strength without extra weight
- Wide open top and bottom offer many cabling and cooling options
- Fixed solid side for security and to control airflow
- Standard front and rear adjustable 10-32 threaded rackrail with numbered spaces
- Includes standard vented rear door that accepts optional fans (Except LRD models)
- Accepts Lever Lock™ system tool free cable management accessories (see pg. 206)
- Accepts extender bay to add 3" of useable depth to the front or rear at any time
- Accepts brush grommet rear door kit for a large cable passage without fishing

Certifications

knock down & cost effective

The **ERK-KD Series** stand-alone rack with multi-bay capabilities in a knock-down version for ease of transportation.

- Knock down design allows for flat shipment
- Electrical knockouts on rear plates
- Laser-cut 1/8" thick internal steel braces for strength
- Standard front adjustable 10-32 threaded rackrail with numbered spaces
- Open, configurable top knockouts

Certifications

- UL2416
- RoHS
- GREENGUARD

Inner Platform Base

Provides a handy platform, flush with bottom rackspace, for supporting heavy equipment and mounting electrical boxes. Fits inside rack.

BS-MRK-31

Part #	Fits	Rack Depth
BS-BGR	BGR	all
BS-MRK-26	MRK	26"
BS-MRK-31	MRK	31"
BS-MRK-36	MRK	36"
BS-MRK-42	MRK	42"
BS-WRK-27	WRK	27"
BS-WRK-32	WRK	32"

5WR

Swivel Casters

Bolt to bottom of all ERK and Slim 5 series rack systems adding 3-7/8" overall height.

Part #	Description	Weight Capacity	Fits
5W	set of 4 commercial grade casters	1,300 lbs.	ERK, Slim 5
5WL	set of 4 commercial locking grade casters	1,300 lbs.	ERK, Slim 5
5WR	set of 4 fine floor casters	700 lbs.	ERK, Slim 5
5WLR	set of 4 locking fine floor casters	700 lbs.	ERK, Slim 5

Skirted Caster Bases

Adds 3-3/4" overall height. Commercial grade casters are UL Listed and have a weight capacity of 1,300 lbs. Fine floor casters protect flooring with a weight capacity of 700 lbs.

CBS-ERK-20R

Commercial Grade Caster Base Part #	Fine Floor Caster Base Part #	Fits	Rack Depth
CBS-5	CBS-5R	Slim 5	20"
CBS-5-26	CBS-5-26R	Slim 5	26"
CBS-ERK-20	CBS-ERK-20R	ERK	20"
CBS-ERK-25	CBS-ERK-25R	ERK	25"

Recessed Caster Bases

Adds 15/16" overall height. Wheels come pre-installed and work with LF leveling feet. Commercial grade casters are UL Listed and have a weight capacity of 1,300 lbs. The fine floor casters protect flooring with a weight capacity of 700 lbs.

CBS-MRK-31

see rack series pgs. for more options

Seismic Floor Anchor Brackets

Anchoring bracket set supports a seismic-certified installation and can be used to reinforce any mission-critical application. One set required per rack.

Part #	Fits
BGR-Z4	BGR
WRK-Z4	WRK
MRK-Z4	MRK, DRK, VMRK
VRK-Z4	VRK
ERK-Z4	ERK
SNE24-Z4	24" wide SNE
SNE27-Z4	27.6" wide SNE
SNE30-Z4	30" wide SNE
WMRK-Z4	WMRK

WMRK-Z4

Leveling Feet

Adjustable leveling feet fit Middle Atlantic floor standing steel racks that can be adjusted with a flat blade screwdriver or hex driver. One set required per rack.

Part #	Description	Fits
LF	3/8" leveling feet	DRK, ERK, WRK, WRK-SA, VMRK, MRK
LF-HD	1/2" leveling feet	BRG, BGR-SA, WMRK, SNE
LF-ISO	isolation leveling feet	DRK, ERK, WRK, WRK-SA, VMRK, MRK

LF

Ganging Hardware

Time-saving ganging hardware provides easy field alignment and joining of multi-bay enclosures.

Part #	Description
DRIFT	set of two tapered drift pins
MAG-1/2	set of two 1/2" magnetic sockets
GANG-10	5/16" nuts/bolts to gang 10 racks or consoles
GANG-10T	5/16" bolts for ganging BGR and SNE via threaded inserts
TDRIFT	ganging drift pins, non-tapered

DRIFT

Spike, Rack Bonding Kits

Combines ganging and electrical bonding in one step by piercing powder coat finish at bonding points without removing paint.

- Eliminates bonding wires between racks
- Provides low impedance ground
- Displaces powder coat finish without corrosion protection of painted surface
- Does not require anti-oxidant protection
- Durable and visible green finish

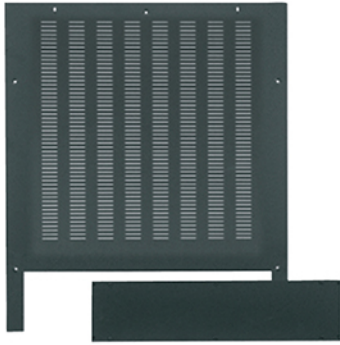

Part #	Description
BOND-G24	24 sets, 1 installation tool, 4 sets recommended per rack

BOND-G24

see rack series
pgs. for more
options

MW-VT

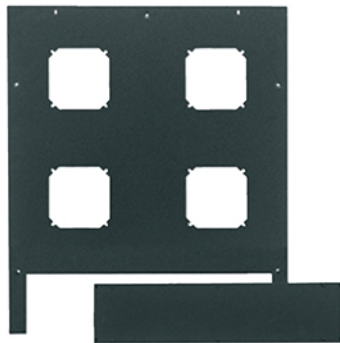

Solid and Vented Top Options

Select solid, slot pattern vented, or large perforated vented top options to address your thermal management needs.

Part #	Fits	Style
BGR-STP	BGR	solid
ERK-ST	ERK, WMRK	solid
ERK-VT	ERK, WMRK	slot pattern vented
ERK-LVT	ERK, WMRK	vented, 64% open area
MW-ST	DRK, MRK, VRK, VMRK, WRK, WRK	solid
MW-VT	DRK, MRK, VRK, VMRK, WRK, WRK	slot pattern vented
MW-LVT	DRK, MRK, VRK, VMRK, WRK, WRK	vented, 64% open area

- Organize cables
- Brush grommet panel pg. 213

MW-4FT

Fan Top Options - Non-Populated

Top options accept 4-1/2", 6" or 10" fans for active thermal management. See pg. 226 for fans.

Part #	Fits	Fan Openings	Style
ERK-4FT	ERK, WMRK	laser knockouts	mounts up to four 4-1/2" fans (MW-4FT) or three 4-1/2" fans (ERK-4FT)
ERK-6FT	ERK, WMRK	laser knockouts (MW-6FT) & finished holes (ERK-6FT)	mounts up to three 6" fans (MW-6FT) or two 6" fans (ERK-6FT)
ERK-10FT	ERK, WMRK	finished hole	mounts one 10" fan
MW-4FT	DRK, MRK, VRK, VMRK, WR, WRK	laser knockouts	mounts up to four 4-1/2" fans (MW-4FT) or three 4-1/2" fans (ERK-4FT) or up to 4 grommets (GK-4G) for cable pass-through
MW-6FT	DRK, MRK, VRK, VMRK, WR, WRK	laser knockouts (MW-6FT) & finished holes (ERK-6FT)	mounts up to three 6" fans (MW-6FT) or two 6" fans (ERK-6FT)
MW-10FT	DRK, MRK, VRK, VMRK, WR, WRK	finished hole	mounts one 10" fan

Top Options - Including Fans

Ships assembled. Integrated fan tops include 4-1/2", 6" or 10" fans, fan guards.

MW-6FT-660CFM

Part #	Fits	# of Fans	Free Air CFM
BGR-276FT	BGR	four quiet 4-1/2" fans	276
BGR-552FT	BGR	eight quiet 4-1/2" fans	552
ERK-4FT-285CFM	ERK, WMRK	three 4-1/2" fans	285
ERK-6FT-440CFM	ERK, WMRK	two 6" fans	440
ERK-10FT-550CFM	ERK, WMRK	one 10" fan	550
MW-4FT-380CFM	CBS-MRK-26R	four 4-1/2" fans	380
MW-6FT-660CFM	CBS-MRK-31R	three 6" fans	660
MW-10FT-550CFM	CBS-MRK-36R	one 10" fan	550

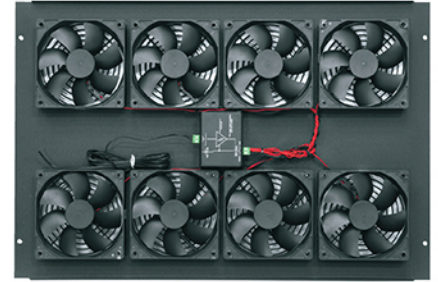

see rack series pgs. for more options

Thermostatically Controlled Integrated Fan Top Options

Fan tops ship fully assembled and include 4-1/2", 6" or 10" fans, fan guards and proportional speed fan controller that increases fan life, reduces noise, saves energy, and reduces dust build up. ETL Listed in the US and Canada.

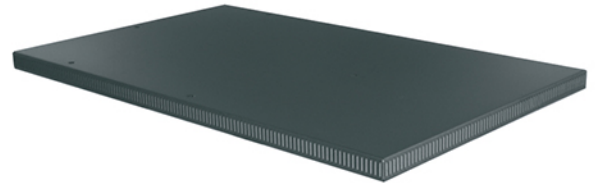

Part #	Fits	# of Fans	Free Air CFM
BGR-276FT-FC	BGR	four quiet 4-1/2" fans	276
BGR-552FT-FC	BGR	eight quiet 4-1/2" fans	552
ERK-4QFT-FC	ERK, WMRK	three quiet 4-1/2" fans	165
ERK-10FT-FC	ERK, WMRK	one 10" fan	550
MW-4QFT-FC	DRK, MRK, VRK, VMRK, WRK	four quiet 4-1/2" fans	220
MW-10FT-FC	DRK, MRK, VRK, VMRK, WRK	one 10" fan	550

Vented Pagoda Top Options

Maintain enclosure temperatures through natural convection while minimizing the amount of dust and debris that can fall into the rack, and adds 1-1/2" to the top of the rack.

Part #	Style
MW-PVTxx	vented pagoda top, MRK, VRK, VMRK only
xx = depth of MRK, VRK and VMRK only (26", 31", 36" or 42")	

MV-PVT

Duct-Cool™ Adapter Top Options

Adapter top option to allow the Duct-Cool to be mounted to the top of select racks. Includes top and adapter only. Duct-Cool is a complete remote cooling solution that allows you to manage the heat in closets in racks.

Part #	Fits
ERK-DT	ERK, WMRK
MW-DT	DRK, MRK, VRK, VMRK, WRK
BGR-DT9	BGR

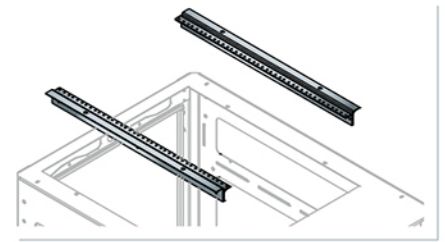

ERK-DT

Top Rail Kit

Convert the top into useable rackspace. Can be used in conjunction with our connector panels to allow for customizable connections in the top of the rack.

Part #	Fits	Description
MW-TR	WRK, MRK, VRK, VMRK, or DRK	13 space top rail kit

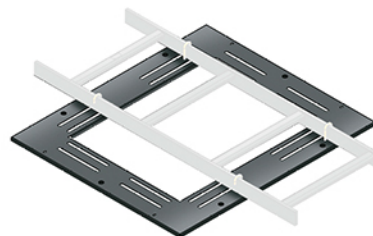

MW-TR

Ladder Adapter Top Option

Adapter used to connect cable ladder to the top of racks or cabinets.

Part #	Fits	Cable Ladder Sizes
MK-LA	MK, RLA, RL	12"
MW-LA	DRK, MRK, VRK, VMRK, WRK	6", 9", 12"

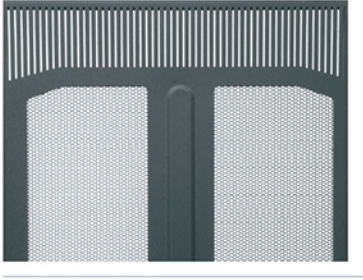

MW-LA

see rack series
pgs. for more
options

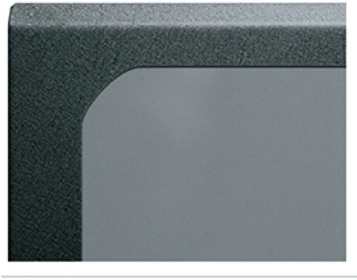

Locking Front Doors

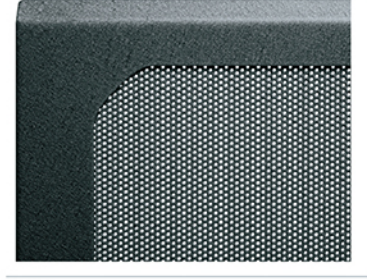

Offered in lightly smoked plexi, 25% open area perf, 64% open area perf, plexi-vented and solid configurations. Beveled corners provide a stylish modern appearance while hinging either left or right. Black textured powder coat finish. Includes keylock.

Rear Doors

Substitute a vented rear door for a solid rear door in selected sizes. Black textured powder coat finish. Fully vented rear doors have 64% open area. Split rear doors with 3 point latch offer 79% open area and require less floor space when accessing rear equipment connections.

High CFM Split Rear Doors

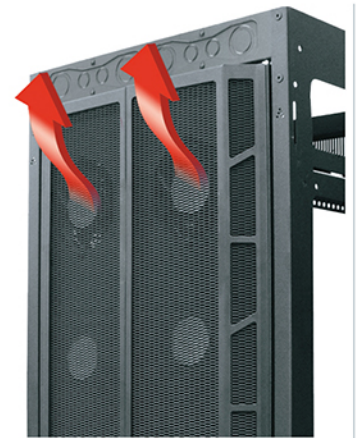

Protect equipment from the damaging effects of heat from servers, NVR's and DVR's with the adjustable 6 fan High CFM Rear Door. This cupboard style split rear door pulls hot air from the rear of the cabinet and directs it up towards return air ducts. Fan placement is adjustable for optimal airflow and up to 10 additional fans can be added for 3,520 CFM of free air movement. Two adjustable half blank panels included for versatile fan arrangement. Additional half blank panels are available for greater control of fan placement.

- Removes heat from high density installations such as servers and DVRs
- Split rear door design pulls hot air from rear and directs it upwards
- Fan placement is adjustable to match project needs
- Comes with 6 fans, together rated at 1,320 CFM in free air
- Up to 10 additional fans can be added for up to 3,520 CFM of movement

Complete Raised Floor Enclosure Support System™ shown in typical raised floor installation

simplifies installation

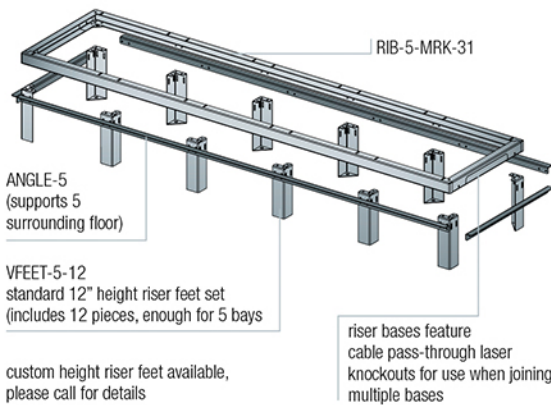

The **Raised Floor Enclosure Support System™** provides the ability to perform field rough-in procedures prior to the arrival of racks and enclosures.

- Timesaving and practical system to rough-in rack installations
- Heavy-duty welded construction with black powder coat finish
- System includes 2-1/2" high bases, riser feet and support angles
- Base matches rack sizes, and allows cables to pass underneath
- Riser feet raise the base to match raised floor installations
- Support angles support floor tiles surrounding the racks
- Custom sizes and heights are available

RIB Series Riser Base shown with MRK racks and custom cable chase

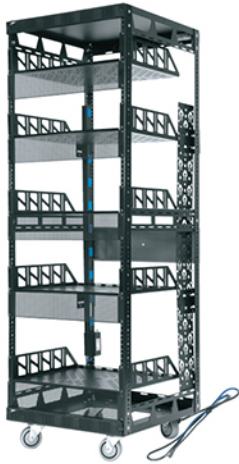

Certifications

- RoHS
- GREENGUARD

MRK-4426-AV-AB

wall mount racks and cabinets

Wall racks save floor space and are ideal for smaller installations or to house system distribution points. Many wall rack styles are available to meet a wide range of project needs.

Open-frame styles are great for controlled spaces such as utility rooms and some models can be mounted over conduit and similar obstructions.

Enclosed models provide security to protect equipment in more open spaces from tampering,

dust, and other hazards, and many styles have hinged center sections to provide enhanced rear access to equipment and wiring.

Wall racks range in capacity from 2 to 35 rackspaces, with the hybrid wall/floor mounted SR models up to 46 spaces.

SR Series	58 - 59
DWR Series	60 - 61
EWR Series	62 - 63
CWR Series	64 - 65
SWR and SBX Series	66 - 67
TOR and WRS/WRP Series	68 - 69
SFR and WM Series	70 - 71
HDR and SPM Series	72 - 73
VPM and PPM Series	74 - 75
HPM and DLBX/VLBX Series	76 - 77

pivoting sectional wall/floor cabinet

The **SR Series** provides access to rear equipment connections for large to medium systems.

- Patented tool free Quick-Mount™ system for center section mounting
- Pivots 90° on floor base for access to rear equipment connections
- Standard adjustable front 10-32 threaded rackrail
- "Bonus" 4 rackspace in base is ideal for mounting a UPS or other equipment
- 500 lb. weight capacity

Certifications

- Seismic Certification
- RoHS
- GREENGUARD
- UL2416

SR-UPS-BKT
UPS support bracket for SR Series supports mounting of Middle Atlantic UPS in SR base section

pivoting sectional wall cabinet

The **DWR Series** provides access to rear equipment connections for medium to small systems.

- Robust welded steel construction
- Patented tool free Quick-Mount™ system for center section mounting
- Center section swing is reversible, and can be both keylocked and padlocked
- Center section is keyed differently from optional front door for security
- Designed for choice of active or passive cooling

*allows fully adjustable rail

CWR-26-22PD

swing open wall cabinet

The **CWR Series** is designed for structured cabling/high cable capacity.

- Welded steel construction for strength
- 26" width provides extra space for cables and patching
- Comes standard with adjustable wide-face rackrail
- Locking swing open center section for front and rear access
- Includes a locking/latching plexi front door for added security
- Front door can be easily reversed for left or right hand swing
- Engineered for passive thermal management; optional fan kit available
- Bag of 50 mounting screws included
- Includes vertical cable rings

CWR racks and offset rail kits come with D-Ring managers for additional cable management

*allows 19" EIA mounting width to be shifted to the left or right of the 26" width CWR enclosure to allow for large cable bundles on one side

shallow pivoting versatile wall cabinet

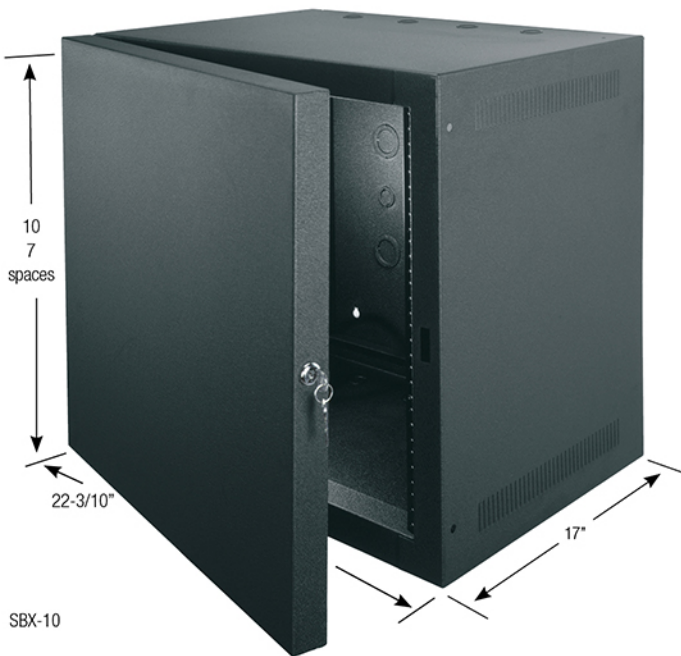

The **SWR Series** is ideal for wall mounting interconnect panels.

- Front section can be easily reversed for left or right hand swing
- Latch can be mounted top or bottom to allow side-by-side mounting
- Backpan features conduit entry laser knockouts at the top and bottom
- Standard front adjustable 10-32 threaded rackrail with # spaces

Certifications

- RoHS
- GREENGUARD
- UL2416

economical fixed wall rack

The **SBX Series** is ideal for use when seeking an economical solution for wall mounting smaller systems.

- Removable backpan simplifies installation
- Includes locking front door that swings open a full 180° on a rugged hinge
- Ventilation slots on each side promote passive thermal management accepts optional fans for active thermal management
- Laser and electrical knockouts at top, bottom, and rear for cable pass-through
- Standard heavy-gauge, 10-32 threaded rackrail with marked spaces

Certifications

- RoHS
- GREENGUARD
- UL2416

Part #	Description
SBX-FAN-K	4-1/2" low-profile fan for sbx series, 57 cfm (120 vac) cord, hardware, guards and vent blocker included

Market Solutions

tilt out wall out

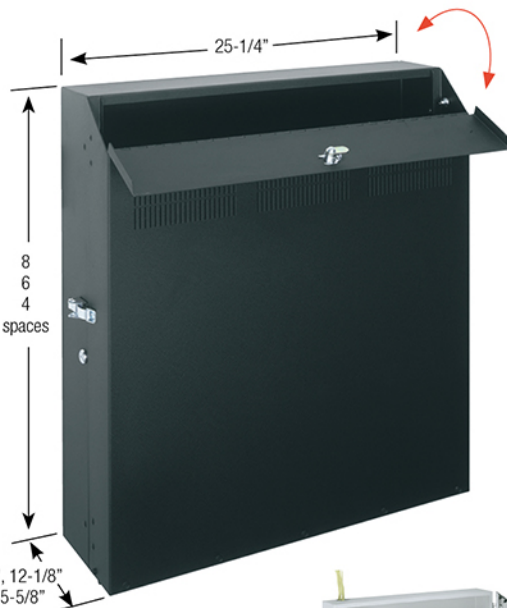

The **TOR Series** is ideal for small sound systems, paging and patching applications.

- Mounts between studs, flush with wall surface
- Tamper resistant design ideal for use in non-secure areas
- Mount non-rackmount equipment using included clamp bars
- 10-32 threaded rackrail is adjustable to accommodate handles & knobs
- Vented for effective passive thermal management
- Decora® and UCP knockouts provided to mount connectors & devices
- 100 lb. weight capacity

Certifications

- RoHS
- GREENGUARD
- UL2416

low-profile wall mount cabinet

The **WRS/WRP Series** is ideal for vertically mounting equipment on a wall surface in a protective enclosure.

- Holds equipment up to 23" deep in a vertical fashion
- Hinged, angled plexiglass (on WRP Series) or solid top (on WRS Series) cover allows user access to controls
- Body swing can be set to either right or left
- Both cover and body are lockable and keyed separately for security
- Vented for passive cooling, accepts optional fans if needed
- Available in putty or black finishes
- 150 lb. weight capacity

Certifications

- RoHS
- GREENGUARD
- UL2416

swing frame wall rack

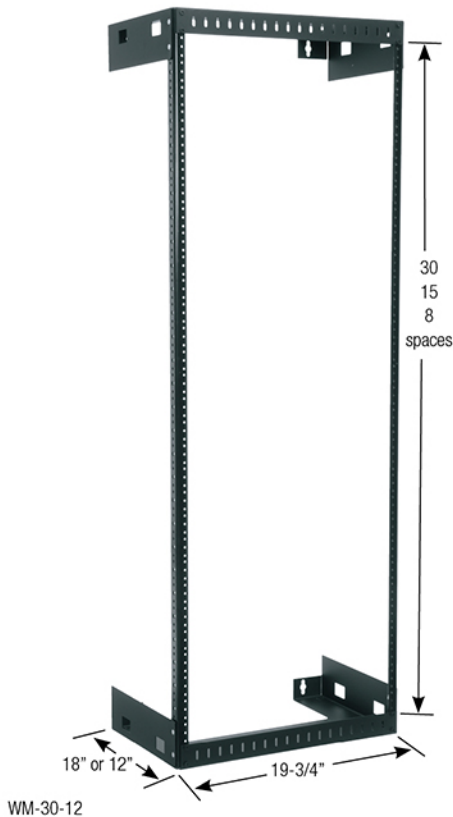

The **SFR Series** is ideal for patch panels, hubs, switches and other network equipment in a secure room or closet.

- Rugged steel construction provides the greatest strength in its class
- Unique design uses pivot points and can be inverted left or right swing
- Open-back design maximizes useable wall space
- 90° opening with positive stop for punching down
- Ready-to-assemble design allows for flat shipment via UPS
- Standard 10-32 threaded rackrail with marked spaces

Certifications

- RoHS
- GREENGUARD

open frame wall mount rack

The **WM Series** is designed for quick and easy assembly, self squaring wall mount rack for all types of components.

- Rugged steel construction
- Ready-to-assemble design allows for flat shipment via UPS
- Self-aligning design for fast assembly
- 10-32 threaded rackrail
- Includes rack screws

Certifications

HDR-4

low-profile horizontal distribution cabinet

The **HDR Series** is ideal for a secure way to wall mount of structured cabling systems.

- Provides two equipment areas
- Upper bay mounts patch panels and pivots 100° with stop for punch-downs
- Lower bay mounts switches and routers and pivots 15° for access to connections
- Beveled front door with flanges on all sides for increased security
- Hinged door is reversible and vented, with lock and padlockable latch
- Laser knockouts on the top, bottom and sides for cable entry
- 150 lb. weight capacity

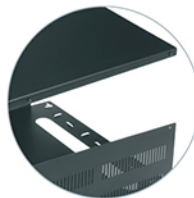

Certifications

- UL/ETL Listed
- RoHS
- GREENGUARD
- UL2416

SPM-4

versa-rack sideways mounting system

The **SPM Series** is designed to mount equipment on the wall vertically, under table or sideways.

- Rugged steel construction
- Abundant rear cable lacing points
- 10-32 threaded rackrail is adjustable to 3 positions to accommodate D-Ring cable managers
- Includes rack screws

Certifications

- UL/ETL Listed
- RoHS
- GREENGUARD

VPM-4

vertical panel panel mount

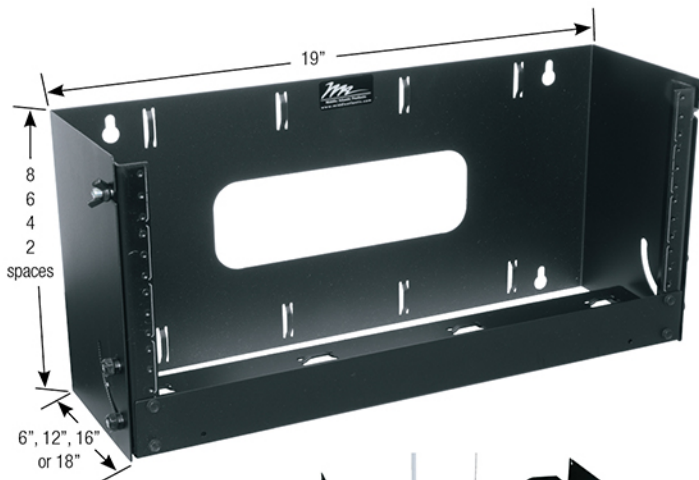

The **VPM Series** is ideal for applications where a protective enclosure is not required.

- Accommodates all depths of equipment
- Heavy duty 10-32 threaded rackrail
- Use two to provide 4-point mounting
- Includes hole for safety screw (for under desk mounting)
- 200 lb. weight capacity

Certifications

- RoHS
- GREENGUARD

PPM-4

pivoting panel mount

The **PPM Series** is designed for rear access of patch panels and network equipment with 90° positive stop drop down.

- Open back design for wall obstructions such as conduits or raceways
- Abundant internal tie points for cable management
- Standard 10-32 threaded rackrail
- Includes hook and loop cable fasteners and rack screws
- Optional security covers and doors available

hinged panel mount

The **HPM Series** provides simple wall mounting of components and can be rackmounted to any 19" open frame rack.

- Rugged steel construction
- Hinged to provide rear access to mounted components
- Universal keyhole mounting for left or right swing
- Standard 10-32 threaded rackrail
- Optional dust cover/modem shelf is available
- Includes rack screws and hook & loop fasteners

Certifications

- RoHS
- GREENGUARD

lockbox wall mount

The **DLBX/VLBX Series** is designed to keep digital recording equipment secure in open public spaces or other unsecure locations.

- Optimized for active or passive thermal management
- Wall mounts vertically or horizontally, can also be used as a monitoring shelf
- Extensive cable management tie points, electrical knockouts and cable pass-throughs
- Interlocking top for added security; top removes easily for servicing
- Standard keylocked vented hinging front door, two fans

DLBX-FSK security cover kit prevents tampering with equipment while keeping airflow

slide out racks

Slide out racks, pioneered by Middle Atlantic Products, solve a common challenge by providing rear access to equipment and connections where a rear open aisle is not possible.

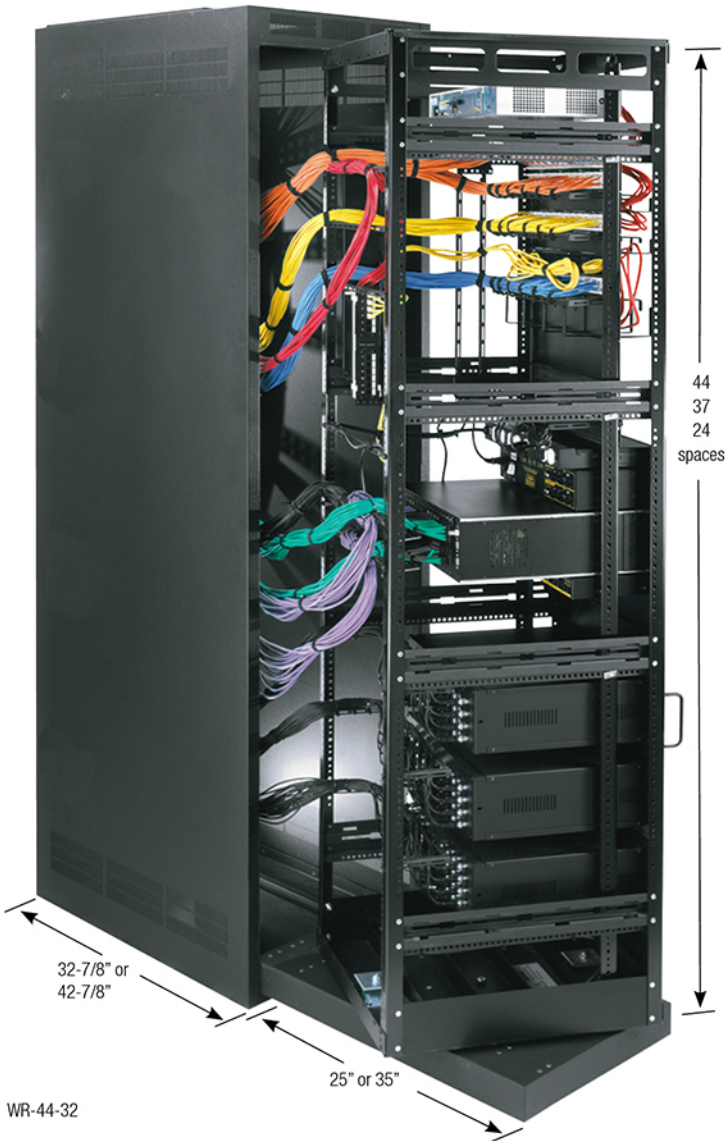

They are ideal for cramped utility spaces, systems built into residential or commercial millwork and small systems in AV furniture.

All styles have robust weight capacities and pull forward to provide rear access; some styles also rotate to further increase accessibility.

Installation by Intra Home Systems.

WR Series	80 - 81
AXS Series	82 - 85
AX-SXR Series	86 - 87
ASR-HD Series	88 - 89
ASR and REB Series	90 - 91
SRSR and SRS Series	92 - 93

roll out rotating system

The **WR Series** provides secure rear access to equipment connections for larger audio, video and security equipment installations.

- Host enclosure can be pre-installed on-site
- Detachable rack frame can be integrated with equipment and tested off-site
- Requires no additional accessories to roll out and rotate
- Engineered ventilation is optimized for passive thermal management
- Rack frame features built-in cable management tie points
- 4" laser knockouts provided for cable pass-through and ganging multiple racks
- Standard front and rear 10-32 threaded rackrail with marked spaces
- Frame locks in closed position

ASR-60-HD

heavy-duty slide out rotating shelving system

The **ASR-HD Series** provides slide out and rotating functionality while enhancing access to rear equipment connections.

- Designed for more visible installations where aesthetics are important
- Shelves are simple to install and adjustable in 3/4" increments
- Pulls out, rotates 60° in either direction and locks for easy access to connections
- Self-centering base speeds installation
- Ships fully assembled to save time
- Locking detent protects millwork
- Included cable management system facilitates a clean, organized installation
- Up to a 250 lb. weight capacity depending on model

Market Solutions

SRSR-4-16

slide out rotating shelf

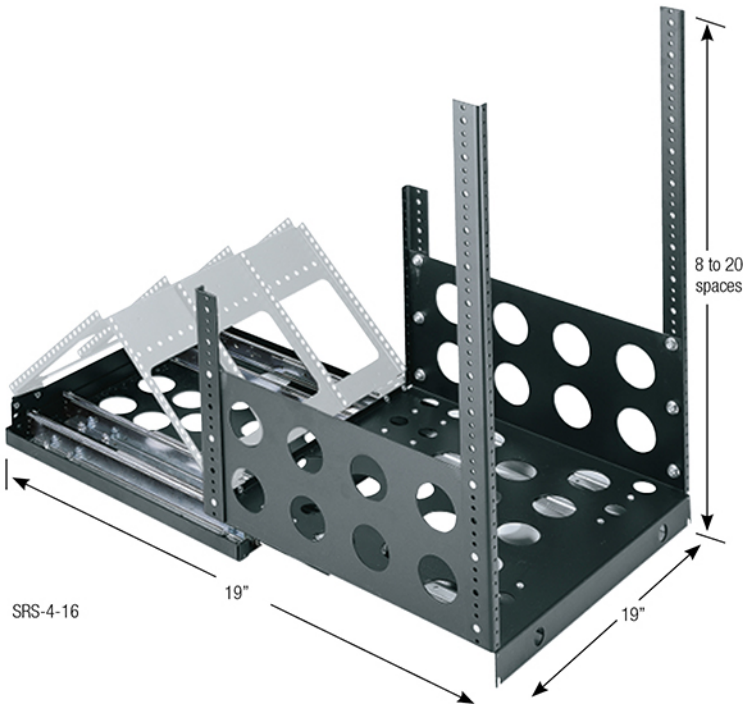

The **SRSR Series** allows the rack frame to pull out and rotate for rear access to equipment in millwork or in-wall applications.

- Removable rack frame allows in-shop integration and on-site installation of equipment
- Locks in the extended position for simplified equipment integration
- Rotating equipment bay locks in place at 0°, 60° and 90° for easy installation and servicing
- Self-centering mounting base makes it simple to align system within cabinet opening
- Rear cable support works in conjunction with rear rackrail for effective cable management

Certifications

- UL/ETL Listed
- RoHS
- GREENGUARD

SRS-4-16

slide out rotating rail system

The **SRS Series** is designed for rear access to equipment connections in millwork and cabinets.

- System pulls out a full 19", providing rear access to equipment with shallow depths
- Trim panel secures unit closed
- Accepts optional triple-hinged, full-width cable carrier for additional cable management
- Standard front (8-20 spaces) and rear (7 space) 10-32 threaded rackrail with marked spaces

Certifications

- UL/ETL Listed
- RoHS
- GREENGUARD

specialty racks

Middle Atlantic Products offers a wide range of equipment mounting solutions that were purpose-engineered for special installation challenges, and we call these models "Specialty Application Racks".

This section includes racks designed to roll from room to room, racks designed to fit into AV furniture, and more – even racks designed to hang from the ceiling.

Photo courtesy of Savant Experience Center.

And every solution features the same robust construction and attention to detail that you expect from Middle Atlantic.

We welcome your installation challenges – if you don't find a solution for your installation project needs, please call us for assistance.

MFR and RFR Series	96 - 97
RK/BRK, OBRK and MBRK Series	98 - 99
OSR and SRK Series	100 - 101
Slim 2 and DR Series	102 - 103
PTRK and ISRK Series	106 - 107
HRF Series	106 - 107
CFR Series	108 - 109
IDF and DTRK Series	110 - 111

rugged and reliable

The **MFR Series** racks are engineered and rigorously tested to provide years of trouble-free service, these racks feature premium bolt-through casters and rigid construction for reliability.

MFR-2027GE

- Cost-effective furniture rack
- Bolt-through casters (3") and internal steel bracing for strength (4" casters on 20 space rack)
- Designed for passive cooling; optional fan kit is available
- Includes 10-32 threaded adjustable front rail
- Locking plexi front door is standard
- Ships fully assembled
- Optional flat screen mount holds most monitors up to 32"

Certifications

- UL/ETL Listed
- RoHS
- GREENGUARD

elegant mobility

The **RFR Reference Series** combines our most elegant design and highest reliability.

RFR-2428TR

- Mobile presentation furniture rack, with wide, stable design
- Bolt-through casters (3") and internal steel bracing for strength
- Designed for passive cooling; optional blower kit is available
- Includes 10-32 threaded adjustable front rail
- Ships fully assembled
- Optional flat screen mount holds most monitors up to 32"
- Efficient mounting Lever Lock™ system compatible (see pg. 206)

Certifications

- UL/ETL Listed
- RoHS
- GREENGUARD

portable rolling racks

The **PTRK Series** rack is ideal for serving a variety of applications with smooth rolling 4" casters, advanced cable management and secure doors.

- Fully welded steel construction for strength
- Spring-loaded recessed side handles for rack transport
- Keylocked front and rear doors standard for security
- Side panels are vented for passive thermal management
- Rear door accepts 4" fans, see pg. xxx for options
- Slots in bottom of rack for cable strain relief & security equipment
- Includes heavy-duty commercial grade locking casters

Certifications

- UL/ETL Listed
- RoHS
- GREENGUARD

under desk rolling mobile presentation racks

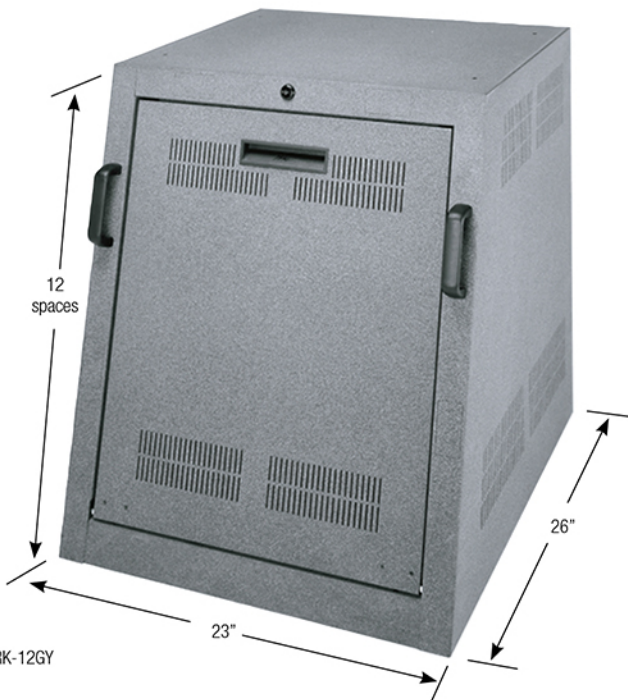

The **ISRK Series** racks are ideal for all applications where an under-desk or mobile presentation rack is required, including control desk, mixing, testing and recording desks.

- Rolls under all standard height desks
- 15° slope provides an ergonomic viewing angle when used under-desk
- Scuff resistant Glide-Away™ front door stores in rack base
- Decora® knockouts accept RPS Series remote power switch
- Designed for passive thermal management

Certifications

2 and 4 post racks

Open frame racks, also called 2-post or 4-post racks, are widely used for cabling and patching frames, intermediate distribution points, and similar large installation purposes.

Middle Atlantic offers several styles to meet project needs, including aluminum and steel 2-post models, as well as steel 4-post and cable management racks.

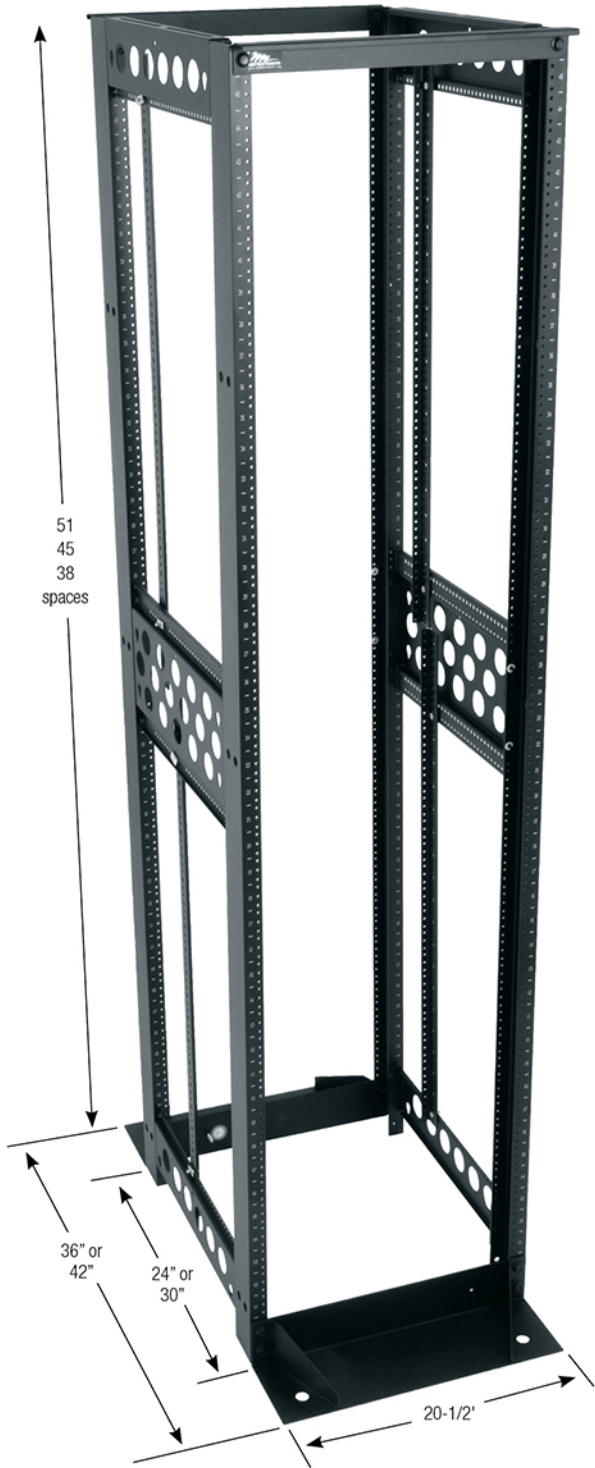

Models are available in 10-32 and 12-24 threaded styles, and some models are provided with cage nut rail. Note that the R2 series 2-post rack and the MK Series Cable Management Rack are both Seismic Certified.

Open frame racks range in capacity from 38 to 51 rackspaces.

R4 Series	114 - 115
MK Series	116 - 117
RL/RLA and R2 Series	118 - 119

R412-4524B

most advanced rack enclosure

The **R4 Series** is designed to accommodate deeper, heavier components than a two post frame rack.

- Mount networking, telephone, VOIP equipment, routers, switches and more
- Two styles are available, one with 12-24 threaded and one with cage nut
- Open top accepts direct mounting of optional cable ladder pg. 217
- Versatile base mounts inward to save space or outward for stability
- Rack gangs to additional 4-post or 2-post open frame racks
- Optional 3rd rail
- Open frame design facilitates unrestricted air flow
- Sturdy construction from heavy gauge steel or aluminum (depending on model)
- Efficient mounting Lever Lock™ system compatible (see pg. 206)
- Knockdown design allows for flat shipment
- Includes 100 pcs. of suitable fasteners
- Includes additional split rackrail to provide up to three mounting depths

MK-1945-24

cable management rack

The **MK Series** is ideal for applications with massive cable bundles

- Sturdy steel construction
- Unique indexed swiveling front-mount cable rings
- 6" or 14" deep channels for massive cable bundles (depending on model)
- Integral top cable ladders and cable trays in the front and rear
- 10-32 threaded front and rear rail
- Includes hook and loop fasteners and front cable feed-through hole plugs
- Includes 100 rack screws
- Includes 2 J-bolts
- 500 or 800 lb. weight capacity, depending on mounting method, see tech spec.

Certifications

- UL/ETL Listed
- RoHS
- GREENGUARD

RL10-45

RLA19-1245

2 post steel open frame rack

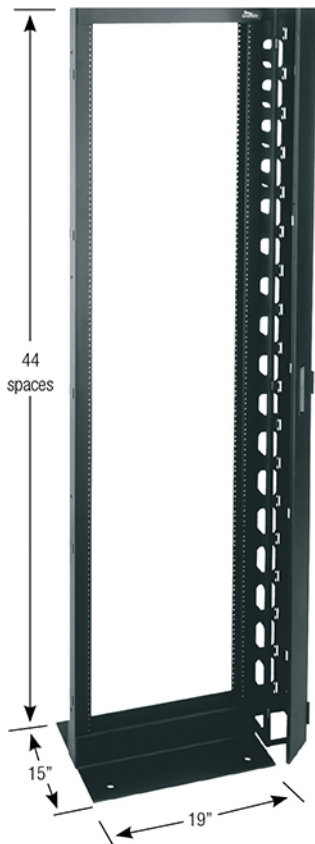

The **RL/RLA Series** incorporates a self-squaring, self-leveling design for easy assembly.

- Top rail accommodates standard cable ladders
- Threaded 10-32 or 12-24
- RL Series channels constructed from 11-gauge steel to provide extra strength
- Knockdown design allows for flat shipment via UPS
- Self-aligning design for fast assembly
- Includes 50 rack screws

Certifications

- UL/ETL Listed
- RoHS
- GREENGUARD

R2-44S

seismic certified

The **R2 Series** two post rack incorporates a heavy duty 3/8" thick steel base that adds structural integrity to the steel frame.

- Top pattern holes accept a variety of cable ladders with no frame
- Fully welded all steel construction, ships assembled and ready to install
- Seismic certified for strength and reliability
- Heavy duty 3/8" thick steel base
- 10-32 threaded front and rear, with numbered spaces
- Includes 50 rack screws
- 850 lb. weight capacity

Certifications

- Seismic Certification
- UL/ETL Listed
- RoHS
- GREENGUARD

multi mount rack

The **MMR Series** is the industry's most versatile and flexible fully welded rack that can be desktop, floor-standing or wall mounted.

- Multiple wall mount options provide flexibility for budgets and workflows
- Easy access pivot, hang bracket for mounting fully integrated rack, direct-to-wall for tighter budget installations
- Ideal for installation in closets, basements, equipment rooms and other areas in the home
- Fully welded, ready-to-integrate design
- Ideal for installation in closets, basements, equipment rooms and other spaces in the home
- Attractive design with sleek metallic grey finish
- Options include casters for mobility, leveling feet for fixed installation, locking solid and plexi doors that install in seconds
- Passive ventilation designed into rack top and sides; optional quiet DC fan tops move up to 276 CFM
- UL Listed, up to 250 lb. weight capacity

pre-configured rack system

The **RCS Series** pre-configured rack system is integration-ready and is fully assembled.

- Assembled with:
 - Glass front door
 - Side and rear access panels
 - Shelves and vent panels
 - Casters and leveling feet
 - Top mounted DC fans
 - Accessory bracket for vertical power strip or lacing strips
- Fully welded, ready-to-integrate design
- Ideal for installation in closets, basements, equipment rooms and other spaces in the rooms
- Attractive design with sleek metallic grey finish
- Quiet, efficient cooling with integrated, 138 CFM DC fans
- Includes accommodations for vertical power strip and thermostatic fan controller (see pg. 227)
- UL Listed, up to 1,200 lb. weight capacity

technical furniture

Technical furniture and mounting systems from Middle Atlantic are built for user ergonomics and system reliability. Just like our racks, they incorporate the best equipment mounting technologies that are:

- Optimized for Audio-Video and Security applications
- Engineered for fast, labor-saving installation

- Innovative solutions, promoting best practices for system reliability
- Designed and manufactured with the highest quality and standards
- The industry's highest customer service levels and quick delivery

Trust your AV installs to the furniture systems built from the rack up and certified for AV – only from Middle Atlantic Products.

rack foundation with a furniture finish

Middle Atlantic Products is expanding its **C5 Series** Credenza offering to address the latest trends in commercial interior design.

- Frame to Furniture™ design complements an integrator's installation workflow
 - Frames are in stock guaranteeing quick delivery while allowing the integrator to immediately start the installation (the custom finishing kit is manufactured to order)
- Attractive styles, finishes and options reflect current design trends
- Frames are in stock guaranteeing quick delivery while allowing the integrator to immediately start the installation
- Built-in high static pressure MAP blower
- Veneer, high-pressure laminate and thermolaminate finishing options
- Available in 1, 2 or 3-bay models with standard or extra depth
- Vent finishes in white, black, silver or off-white
- Door hardware, locks and plexi door options available
- Push-touch latch included

Certifications

- UL Listed in the US and Canada
- RoHS
- GREENGUARD

integration friendly lectern

The **L5 Series** lectern is the industry's most integration-friendly lectern.

- Frame to Furniture™ design complements an integrator's installation workflow
 - Frames are in stock guaranteeing quick delivery while allowing the integrator to immediately start the installation (the custom finishing kit is manufactured to order)
- 3 sizes, 2 top styles, 2 designs
- Easy to integrate: frames ship from stock to quickly get you the foundation you need to start your install
- Future proofing: damage panels can be individually replace or the entire outer shell can be refinished without removing equipment

Turret Top Style

- Customize your solution: Presenter's Panel™ is equipped with the knockouts you need and a variety of finishes & accessories are available to make each product unique
- Ideal for adding touch screens and/or controllers
- Efficient mounting Lever Lock™ system compatible (see pg. 206)

Flat Top Style

- Large work surface area for laptops
- Accommodates Wiremold® Integrate Cable Retractors – visit middleatlantic.com for more info

furniture for mission critical installations

The **ViewPoint™ Series** is specifically designed for reliability, flexibility and ergonomics.

- Ideal for:
 - Security and monitoring
 - Command and control
 - Network operating center
 - Front of house controls
- Console bays are rugged, fully welded steel construction
- Engineered for fast assembly and effective equipment cooling
- Built-in cable management functions
- Certified for mission critical installations
- Built and shipped for installation that is 35% faster than the competition

Certifications

- UL/ETL Listed
- Seismic Certified
- BIFMA International
- GREENGUARD

VC-FC-2

File Cabinet

Fits underneath peninsula. Swivel casters provide ease of movement.

Part #	Description
VC-FC-2	file cabinet

VC-B24-RR10

ViewPoint™ Rackrail

10 space front-to-rear adjustable rackrail available for horizontal equipment mounting in the front/rear of any 24" section of a 24", 36", 48", or 72" bay.

Part #	Description
VC-B24-RR10	10 space front-to-rear adjustable rackrail

VC-TRK

ViewPoint™ Top Rail Kit

The optional top rail kit enables vertical mounting of a UPS or similar equipment. Can be added to any full width bay and allows rackmounting of components near the workspace.

Part #	Description
VC-TRK	6 rackspace optional top rail kit

For additional ViewPoint™ options visit our website for more info.

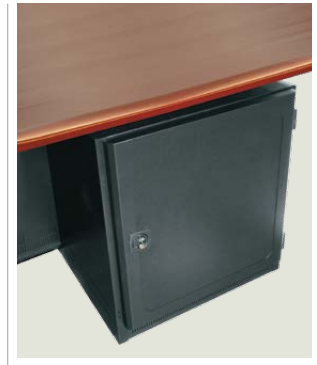

ViewPoint™ Bay Extender

Versatile 18" and 24" extender cabinets integrate seamlessly with system, are ideal for mounting deep DVR's, NVR's and servers and include either a plexi or vented front door (provides 33" & 39" rackmount useable depths).

Part #*	Door Type	Usable Depth	Depth
VC-2418X-PD	plexiglass	18"	33"
VC-2418X-VD	vented	18"	33"
VC-2424X-PD	plexiglass	24"	39"
VC-2424X-VD	vented	24"	39"

* Please note: parts cannot be ordered individually, please call for details.

VC-2418X-VD

ViewPoint™ Desktop Turrets

Turret racks can be mounted behind 18" work surfaces to hold equipment where it can be easily manipulated.

Part #*	Height	Mounts To
VC-TR2419-4	4 space	24", 48", 72" bay
VC-TR3619-4	4 space	36" bay
VC-TR2419-9	9 space	24", 48", 72" bay
VC-TR3619-9	9 space	36" bay

* Please note: parts cannot be ordered individually, please call for details.

Premium Series UPS Backup Power System

Premium Series UPS Backup Systems are the ideal solution for protecting high end and sensitive electronics. Featuring pure sine wave technology and IP capability.

front

rear

UPS-2200R

- Pure sine wave technology provides the best power for sensitive devices
- Non-critical load shedding and high capacity batteries extend run time for critical loads
- Fast 4 millisecond transfer time ensures no system disruption or equipment lockup
- Expansion battery pack option - connect up to 10 to a single UPS for extended half-load run times up to 20 hours
- Hot swappable battery for easy service
- Both auto and scheduled shutdown/start-up/reboot to protect servers/workstations from data loss due to power failure
- 3 year warranty
- 2 rackspaces

All Premium Series UPS models offer IP capability either built-in or optionally via UPS-IPCARD. Benefits of IP Capability:

- Real time UPS monitoring, remote management & configuration via web browser or NMS (Network Management System)
- Supports TCP/IP, HTTP/SNMP*, NTP, DNS and SMTP protocols
- User upgradeable firmware via FTP and security management features included

*SNMP version 1.0

Select Series UPS Backup Power System

Select Series UPS Backup Systems are a competitively priced option for ensuring uptime of electronic components in the event of a power outage. Select Series UPS models are available in compact form factors when space is at a premium, in capacities to support a wide range of installations. All models are available with web-enabled IP control.

- Value priced
- 1RU models available for one-person installation and space savings
- Remote monitoring and control of power with optional IP card
- Designed for AV and Security applications
- Simulated sine wave output waveform (on battery)
- 8 ms transfer time

compact In-Line models great for one or two outlets

Now with patented Series Protection™!

RLNK-SW415R-SP

RLNK-SW715R-NS

RackLink™ Networked Power Management System

The RackLink™ Power Management System provides integrators with system monitoring and control and is accessible locally, over the web, and through available apps for iOS and Android™ mobile devices. It is designed to help ensure system reliability and uptime through the use of intuitive setup and operation, pre-emptive problem notification and automatic problem resolution.

- Individual outlet control for up to 8 outlets
- Monitor power and temperature
- Autoping network device diagnostic/utility
- Event logging and notification
- User defined thresholds
- IP and RS-232 connectivity
- Emergency power off with automatic recovery option
- Models available with series surge protection (non-sacrificial, non-degrading)

Dry Contact Controlled Power, Ideal for Simple Reboot

A simple way to control system or component power. Ideal for rebooting components or providing easy user access to power-down capability.

- Either 2 or 6 contact-closure controlled outlet banks on rear depending on model
- Settings for momentary or maintained control style, normally open or normally closed
- Built-in 2-stage surge suppression with remote notification
- No computer required; use existing control system or remote power switches

Part #	# of Circuits	Amperage	Front Outlets	Rear Outlets		Surge Protection	Cord Length	Chassis Depth	Front Power Switch
				# of Controlled Outlets	# of Non-Controlled Duplex Outlets				
PDC-915R-2	1	15 Amp	1	2	6	Yes, 2-stage w/ remote notification	9'	9"	Yes
PDC-915R-6	1	15 Amp	1	6	2	Yes, 2-stage w/ remote notification	9'	9"	Yes

6-Step Sequencing

Power units that feature sequencing allow you to control the order the equipment is powered on & off. This reduces the possibility of circuit overload due to excessive in-rush current. Additionally, powering on amplifiers after source or processing equipment protects speakers from damage.

- Local or remote control with notification
- Adjustable sequencing delays up to 6 second
- Daisy chain up to three units together

Part #	# of Circuits	Amperage	Channels of Sequencing	# of Sequenced Outlets	# of Non-Sequenced Outlets	Surge Protection	Cord Length	Chassis Depth	Front Power Switch

Series Protection™ Power Distribution

Middle Atlantic's Series Protection™ Power Distribution products feature the industry's fastest-responding surge protection technology.

This patented non-degrading protection won't contaminate the system ground, automatically disconnects devices to protect from sustained over and under voltage events and provides automatic recovery after these events to minimize system downtime.

- Engineered with non-sacrificial and non-degrading protection that absorbs surges without contaminating ground
- 100% MOV-free design – offering superior protection
- Automatic recovery – does not require hard reset after an over or under voltage event
- Single circuit, 15A and 20A models available
- Hardwired model available

Multi-Mount™ Rackmount Power

Offering the flexibility to place outlets where they are needed, the Multi-Mount™ series incorporates versatile mounting options into its compact design. Features mixed outlet orientation that enables various plug types to be accommodated.

- 15, 20 Amp models available
- Can also be mounted vertically
- Models available with two-stage surge protection and remote notification
- 3-step sequencing models feature 6 sequenced outlets (2 per channel) and 10 non-sequenced outlets

PowerCool™ Series Power & Cooling Solution in One

These power distribution units provides integrated rackmount power distribution and cooling solution in convenient one rackspace package.

- Blower exhausts 50 CFM while providing high static pressure to maintain airflow
- Thermal sensing with proportional blower speed
- Multi-stage surge protection with surge status notification
- Ultra quiet operation (max sound level 29 dB) with a unique space saving design
- Multiple models for residential and commercial applications
- Key-lock switch model for additional security

Compact Surge Devices

Designed to provide protection where space is at a premium, Compact Surge Protection units are ideal for installation behind flat panel displays.

PD-28-SP

Series Protection™ Compact Surge Device

Series Protection™ Compact Surge products offer the same industry leading fast response technology in the most compact stand alone device in the industry.

- Engineered with non-sacrificial and non-degrading protection that absorbs surges without contaminating ground
- Safeguards against both over and under voltage events
- Features automatic recovery – does not require hard reset after a surge event

Part #	Circuits	Rated Load	Input Type	Output Type	ComboBreaker ON/OFF	Protection			
						Surge	Overload	Over/Under Voltage Notification LED	Power On LED

PDT Strips for Every Rack System

PDT Series Low Profile Power Strips take up minimal space inside a rack and feature a unique design that allows for isolated ground configurability. Dual circuit models can be configured to operate as a single circuit and all models are factory assembled for easy installation.

PDT 15 Amp dimensions

PDT 20 Amp dimensions

- Unique design allows field configurability for 1-2 circuits or isolated ground (hardwired models only)
- Slim profile from 6-20 outlets uses a minimum of space
- Easy clip mounting for faster install
- Outlets are spaced to provide enough room for plug-in power supplies

- Hardwired top feed models with J-Box on the top of the power strip, available to meet code requirements in select areas
- 15 Amp models are prewired with 12-gauge wiring and can be attached to a 20 Amp branch circuit
- Surge-protected models include LEDs for convenient local status indication, and also have dry contact closure for remote status notification
- Metered models include high-visibility red LED display; indicates current to tenths of Amps

Pre-Configured MPR Series Power Distribution

Designed to save installation time, the factory-assembled MPR raceways utilize six power modules. These twelve outlet vertical strips connect to one or two 20 Amp circuits* and feed six 20 Amp duplexes (12 outlets).

- Each duplex can be independently controlled with the USC-6R Universal Sequencing Controller, or with any other sequencing controller that provides a maintained switch closure output
- 56" long, terminated in an integral junction box

prepopulated with modules

PCR-2X320A

Part #	Circuit*	Termination	Overall Length
PCR6	20 Amp (1)	J-Box	56"
PCR-2X320A	20 Amp (2)	J-Box	56"

*capable of up to 6 circuits when used with additional T Series tails.

Configure it yourself:
see pg. 178

custom power solution

Design and build an ETL-Listed custom power solution by mixing and matching components ideal for the system's individual power requirements with the **MPR Series**. Featuring the broadest selection of circuit and control options interconnected via a proprietary pre-terminated system.

choose modular power raceways

- Lightweight raceway with versatile back-mount support clip
- Open design for easy module installation

outlets available in various colors for identification or other purposes

permanent laser etched designations

custom laser etched markings can be specified such as a logo, message, or contact information

PDW Series Multi-Circuit, High Capacity Power Distribution

Custom power made to your specifications and shipped within 4 days.

- Large standard capacity: up to twenty 15A or 20A circuits, or up to eight 30A circuits
- Custom lengths up to 84"
- Mix circuit types on one strip
- Choose outlet color and orientation, ground type (including individual or common conductors), and termination
- Custom tail lengths
- Specify your circuit numbers for permanent laser markings
- 15 Amp, 20 Amp, 30 Amp and IEC receptacles available

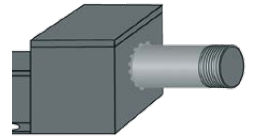

Available termination choices include:

1. Flexible custom length greenfield conduit

2. Junction Box

3. Or pipe nipple termination

Additional sized boxes and adapters available

IsoCenter™ Rackmount Isolation Transformer & Load Center System

High efficiency toroidal transformer – greater than 98%

- Integrated load center with four 20A circuits, all on the same phase
- Optional 100,000 Amp 2-stage surge and spike protection
- Patented “soft start” technology to allow safe turn on without tripping breakers
- Eighteen receptacles for load distribution
- Input voltage monitoring with auto shutdown functions
- 208V or 240V (depending on model) input voltage, single phase

CORE-25-240-U2

PowerCore™ Isolation Transformer with Integrated UPS

Centrally located hardwired UPS units back up branch circuits to replace local UPS units.

- Centrally located hardwired UPS units back up branch circuits to replace local UPS units
- Remote IP outlet monitoring and control allows web-based troubleshooting and rebooting of specific devices
- System-wide surge and spike protection is built in
- All branch circuits are same-phase
- System is expandable and can be tailored to have the needed backed-up circuits & runtimes

Call for modification and custom requests

IEC Power Cords

Simplify the system's power cord management by replacing excess bundles with IEC power cords. Purpose-length power cords free up space to give the rack better organization and less-impeded airflow.

SignalSAFE™ IEC Power Cords

- Featuring tightly twisted conductors to reduce the effects of AC magnetic fields, allowing closer integration of power and signal cables
- Sold in packs of 4, 20 and 100
- Straight and angled plugs

USC-6R

Sequencing Controller for Contact Closure - Triggered Devices

Rackmount USC-6R provides six-step sequencing to any AC power distribution system that can be controlled by low voltage switch closure.

- Sequencing may be initiated locally via convenient front panel switch or remotely by any momentary contact closure switch (single pole, double throw, center off)
- Interval delay selector of 1, 3 or 6 seconds between steps and four different start delay settings to allow up to three USC-6R units to be interconnected to operate as a single, 18-step unit

Part #	Description	Steps	Control Options	Interval Delay
USC-6R	rackmount sequencing controller	6 individually sequenced	contact closure	1, 3, or 6 seconds

RPS

RPS Series, Remote Power Control

The Remote Power Switch allows complete 15 Amps systems to be powered on and off without the need to access equipment. Mounts in the face of select racks, single space panel or UCP Series Universal Connector Panel.

- Switch and keylock models available
- Fits in any Decora® device opening

RPS-KEY

Part #	Description
RPS	15 Amp remote power switch
RPS-K	15 Amp remote power switch, keylocked
RPS-KEY	additional set of 2 keys

UL File #: E232496 UL Standard #: 244A: Appliance Controls 120 VAC, 15 Amps, 60 Hz

Copper Bus Bars

Copper bus bars are 1/8" thick and threaded 10-32.

- Various heights and widths available
- Supplied mounting hardware includes nylon isolation washers, bolts and nuts

Part #	Racking Height	Width	Qty
BB-5254-1	79"	1"	1 bar
BB-44-1	77" (44 space)	1"	1 bar
BB-40	70" (40 space)	2"	1 bar

S-DEC

Power Mounting Brackets

PB-90 bracket orients power outlets on any vertical power strip to the front or back of the enclosure.

- Allows mounting of power strips alongside mounted equipment in wider WRK Series racks
- Use PB-5A brackets to mount Middle Atlantic Products power strips in AXS, Slim 5, RL, RLA and MK Series racks, or to the rackrail of any rack
- To mount power strips in the SR & DWR Series wall racks, use PB-DWR brackets

Part #	Description
PB-90	brackets mount vertical power to face front or back of any rack* (pair)
PB-5A	brackets to mount vertical power strips on rear rackrail (pair)
PB-DWR	brackets to mount vertical power strips in DWR & SR Series wall racks (pair)
PB-XS	bracket mounts PD-815SC and PD-815SC-NS power strips between rackrail

*Requires LBFR-5A-xx to mount inside Slim 5 or AXS Series Racks

PB-90

PB-XS

Middle Atlantic Products has the best selection of Rack System Accessories in the industry – in stock and ready for immediate shipment.

These great products add the finishing touches to rack installation appearance, but also maximize system utility and play an important role in system reliability and life.

accessories

All Middle Atlantic Products Accessories are:

- Purpose-designed for the application
- Manufactured to the highest quality standards

Shelves & Storage	190 - 203
Custom Rackshelves	190 - 191

RSH Series Custom Rackshelves

Custom Rackshelves from Middle Atlantic are the first choice of professional installers for mounting and trimming non-rackmount components. With these innovative shelves virtually any component can be installed in a standard 19" enclosure without modification. The result is a neatly-trimmed installation with a perfect fit and no gaps because the shelf is sized for the selected component and the face plate is custom cut to provide a perfect opening.

- 1-2 day lead time
- Assembles easily in minutes
- Includes rear brackets to keep components from sliding backward
- Fully ventilated ears and bottom
- Choice of durable powder coat, brushed or anodized finishes
- Depths are automatically provided in 11-1/2", 14", 15-1/2", 17-1/2", or 20-1/2" styles based on dimensions of your component
- Accepts any component up to 17-3/4" wide
- Perfect fit both looks great and promotes proper thermal management
- Individual custom faces (less rack ears and shelf bottom) are also available
- LCD rackmounts also available
- Works great with rear-mount power like PD-815SC-PBSH on pg. 176

*Note: Custom faces do not work with standard shelves

RSH

RSH with iPad®; database includes "in-wall" style docks for iPads and Control Systems

- Visit middleatlantic.com/resources/rsh-lookup.aspx

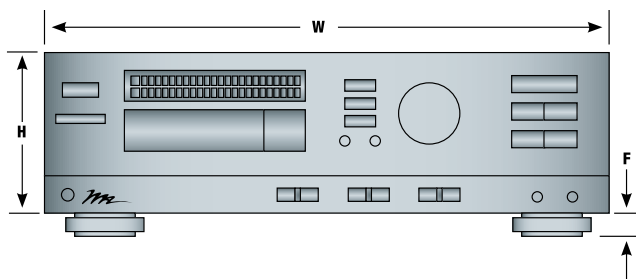

- Search the over 10K components on file

ordering instructions

- Select your finish and place your order!

If your component is not on file, you can either send it to us for measurement or send us the dimensions as seen in the diagram. Contact customer service for assistance.*

*MUST be accurate within 1/32", depth can be within 1/8". The dimensions provided in the component's owner's manual are NOT always accurate. Please measure carefully as RSH units are custom-made and non-returnable.

Adjustable and Sliding Rackshelves

Middle Atlantic Products offers a wide range of adjustable and sliding shelves to support your project needs. Most models in this section are designed for 4-point mounting and are adjustable to fit a range of rack sizes. Note that unlike lower-quality offerings, Middle Atlantic shelves in this section include heavy-duty models designed with weight capacities up to 200 lbs. for sliding models and 400 lbs. for fixed models.

SS

SSHD-28

Sliding Shelf

Sliding shelves allow for easy maintenance of your components right on the shelf, and access to connections and cabling from the front of the rack. Middle Atlantic offers several styles of sliding shelves, including low profile, standard and heavy-duty to meet project needs and budgets.

- Adjustable 4-point mounting to fit in many rack models
- SS and SSHD-28 models include cable tie points at rear of shelf

Part #	Racking Height	Shelf Area	Material	Base	Rear Ear Adjustable Range	Shelf Extension	Weight Capacity
SS	1-2/5" (less than 1space)	17-1/2"w x 14-3/4"d	black powder coat, steel	solid	15-1/8" – 23-7/16"	14"	50 lbs.
SSL	1-2/5" (less than 1space)	16-3/4"w x 14"d	black laminate	solid	15-1/8" – 23-7/16"	11-3/8"	35 lbs.
SSHD-28	3-1/2" (2 space)	16-7/8"w x 28"d	black powder coat, steel	vented	21" – 30"	28"	200 lbs.

VDS

AS3-22

Adjustable Rackshelf

These vented 4-point mounting shelves were designed specifically for heavy equipment and adjust to allow 4-point mounting in many available rack depths.

- Partially vented bottoms to allow some cooling airflow
- Weight capacity up to 300 lbs., depending on model
- Steel construction with durable powder coat finish

Part #	Racking Height	Shelf Area	Weight Capacity
VDS	3-1/2" (2 rackspace)	17-3/8"w x 25-1/2"d	100 lbs.
AS3-22	5-1/4" (3 rackspace)	17-3/8"w x 21-1/2"d	300 lbs.

Heavy-Duty VTR/CPU Sliding Shelf

This full extension lockout shelf system was designed to hold VTRs in Broadcast applications, but can hold any similar equipment where access for maintenance or use is desired.

- Mounting ears are pre-installed for quick installation
- Adjustable 4-point mounting to fit in many rack models
- Optional front cover panel

Part #	Racking Height	Description	Area	Rear Ear Adjustable Range	Weight Capacity
SS4-23VTR	7" (4 space)	sliding shelf	15-7/8" x 23"d	12-1/2" – 29"	75 lbs.
SS5-23VTR	8-3/4" (5 space)	sliding shelf	15-7/8" x 23"d	12-1/2" – 29"	75 lbs.
SS-VTR-CVR4	7" (4 space)	removable cover			
SS-VTR-CVR5	8-3/4" (5 space)	removable cover			

Telescoping Heavy-Duty Rackshelf

Unlike standard adjustable shelves, the entire VSA Series shelf telescopes to reach rear rail.

- 4-point mounting for a high 400 lb. weight capacity
- Fully vented bottoms with cable management tie points
- Steel construction with durable powder coat finish

Part #	Racking Height	Overall Depth	Weight Capacity
VSA-1626	1-1/2" (less than 1 rackspace)	17.25"w x 16" (min.) to 26" (max) d	400 lbs.
VSA-2744	1-1/2" (less than 1 rackspace)	17.25"w x 27" (min.) to 44" (max) d	400 lbs.

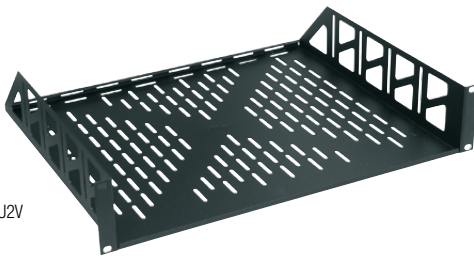

Rackshelves

Middle Atlantic Products offers a wide range of adjustable and sliding shelves to support your project needs. Note that unlike lower-quality offerings, Middle Atlantic shelves in this section include heavy-duty models designed with weight capacities up to 200 lbs. for sliding models and 400 lbs. for fixed models.

- Choice of solid bottom and fully vented shelves
- Choice of ready-to-use and ready-to-assemble models
- Choice of models that accept optional clamps, or have clamps included
- Some popular models are available in Contractor packs
- All types are finished in a durable black powder coat

Ready-To-Assemble Rackshelves

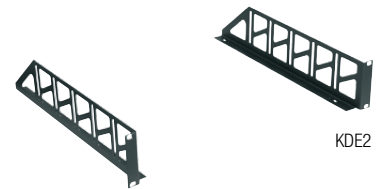

Vented KD Series rackshelves ship ready-to-assemble to minimize freight costs & save storage space.

- Ear heights range from 2 to 6 spaces
- Sold in pairs
- All assembly hardware included
- UL Listed

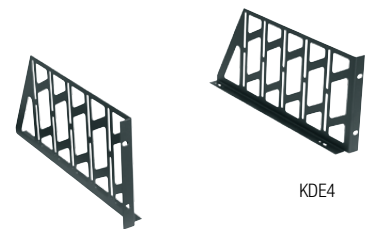

Ear Part #	Racking Height	Depth	Weight Capacity
KDE2	3-1/2" (2 rackspace)	15-1/2"	50 lbs.
KDE2S	3-1/2" (2 rackspace)	11-1/2"	50 lbs.

VRS

Sat-Cable Box Rackshelves

These unique shelves use minimal shelf structure to provide the maximum open area around the supported component – ideal for high-heat components such as satellite and cable boxes. Perfect for installations with multiple video sources such as sports bars, gyms, and hotels.

- Universal fit accommodates most popular cable and satellite box sizes
- Sturdy steel construction with durable black powder coat finish
- OCAP Series: rubber-lined clamps on top and bottom
- VRS Series: holds up to 6 boxes vertically, eliminates need for individual shelves

Part #	Equipment Orientation	Racking Height	Depth	Weight Capacity	Useable Height
OCAP-2	horizontal	3-1/2" (2 rackspace)	14"	25 lbs.	2-5/8"
OCAP-3	horizontal	5-1/4" (3 rackspace)	14"	25 lbs.	4-3/8"
VRS	vertical	3-1/2" (2 rackspace)	15"	35 lbs.	

Vented Center Mount Shelves for Open Frame Racks

This center-mount shelf was designed for use with 2-post racks but can be used with other racks to provide support in front of the rackrails. Front and rear edges have cable management tie points built in.

- Fully vented bottom aids equipment cooling
- Steel construction with durable powder coat finish

Part #	Racking Height	Useable Shelf Area	Weight Capacity
U2MS	3-1/2" (2 rackspace)	17-1/4" x 18"d	50 lbs.

U2MS

Wide Unit Shelf System

Some components are too wide to fit the 17-3/8" inside width of standard rackshelves. These shelf systems adjust to hold units up to 22-1/2" wide.

- Fully vented bottom aids equipment cooling
- Steel construction with durable powder coat finish
- Saves room by requiring no rackspaces
- UL Listed

Part #	Useable Shelf Area	Weight Capacity
WUSS11.5	17-3/8" (min.) to 22-5/8"w x 11-3/8"d	50 lbs.
WUSS14*	17-3/8" (min.) to 22-5/8"w x 14"d	50 lbs.
WUSS15.5	17-3/8" (min.) to 22-5/8"w x 15-1/2"d	50 lbs.
WUSS17.5	17-3/8" (min.) to 22-5/8"w x 17-1/2"d	50 lbs.
WUSS20.5	17-3/8" (min.) to 22-5/8"w x 20-1/2"d	50 lbs.

*Available in 14" depth - fits DWR Series and other shallow racks! NOTE: this rackshelf works with all Middle Atlantic enclosures except those that use 'Z-Rail.'

WUSS

WUSS typical usage of mounting with adjustable width

Small Device Mounting Shelves

These innovative shelves are designed to mount multiple small devices while providing cable management and tie down points.

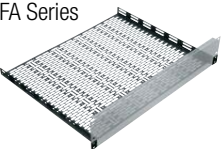

- Fully vented bottoms with flexible device mounting patterns
- Steel construction with durable powder coat finish

MS Series

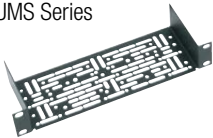

- Holds small items in front or rear of rack

UFA Series

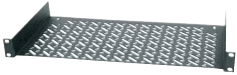

- Available faceplate that easily mounts after install to conceal devices

UMS Series

- Patented design includes counter sunk holes to match popular Extron® devices up to 19"
- Available in half rack size

UTR Series

- Includes hook and loop strips for component mounting

RM-KB

Fixed Writing/Computer Keyboard Shelves

The FWS fixed single bay writing/computer keyboard shelf bolts quickly to any rack to create a convenient work surface. Occupies 2 rackspaces below and comes complete with special rail-mounting hardware.

- Black laminate top work surface made from 3/4" furniture-grade MDF board

Part #	Depth	Weight Capacity
FWS	18"	100 lbs.

FWS typical usage

LCD Rackmounts

Now it's easier than ever to rackmount LCD monitors! Middle Atlantic gives you a choice of five mounting styles, including fixed, tilting, and fully articulating models.

- Sturdy steel construction
- Generous front to back adjustment
- Versatile screen mounting using standard VESA 75 and VESA 100 patterns
- Holds LCD screen sizes from 15" to 19", and some 20" monitors

Part #	Racking Height	Style	Weight Capacity
RM-LCD-MV	15-3/4" (9 rackspace)	backpan style, fixed mount	35 lbs.
RM-LCD-MK	15-3/4" (9 rackspace)	backpan style, tilt mount	35 lbs.
RM-LCD-MT	15-3/4" (9 rackspace)	backpan style, articulating mount	35 lbs.
RM-LCD-PNLV	5-1/4" (3 rackspace)	open panel style, fixed mount	35 lbs.
RM-LCD-PNLK	5-1/4" (3 rackspace)	open panel style, tilt mount	27 lbs.

Wall Mount Shelf

Wall mounting non-rackmount components is much easier with our WMS wall mount shelf. Furniture version features attractive wooden side panels with rounded outside corners for safety.

- Vented bottoms
- Metal parts have durable powder coat finish

Part #	Finish	Weight Capacity
WMS-20	Black (steel)	200 lbs.
WMS-1614NA	Napa	100 lbs.
WMS-1614GS	Graystone	100 lbs.

Chassis Support Brackets

Chassis support brackets are a simple way to support heavy equipment within the rack and facilitates ventilation of high heat-generating equipment.

- Holds equipment without attaching the rack screws – ideal for fast swap outs
- Compatible with MRK, VRK, and VMRK when used with Z-rail or Z-rail adapter

Part #	Overall Depth	Pre-Pack Qty	Weight Capacity
CSA-18	18"	2	100 lbs.
CSA-20	20"	2	100 lbs.
CSA-20-H	20"	2	200 lbs.

Multi-Bay Laminate Work Surface

Designed to provide an ergonomic work space, work surfaces are available for select WRK, MRK and VRK Series enclosures. Offered in two, three, and four-bay sizes to span multiple ganged racks, these shelves feature an attractive 1" thick graphite-marbled laminate surface with a durable black T-mold edging.

- Includes cable pass-through with grommets providing effective cable management
- Each work surface requires the use of two front and two rear rackspaces
- Sturdy steel tubing supports work surface

WS

Rackmount Storage

Middle Atlantic offers a broad selection of utility and special-purpose storage products to support your project needs. Many installers find that storing documents, manuals, or tools at the installation site increases efficiency and service speed. Models in this section include standard and heavy-duty drawers and lockboxes, as well as inserts for storing media and protecting sensitive contents.

Universal Mounting Drawers

The universal mounting drawer was designed with our patented pattern to mount small devices traditionally located outside the rack to the bottom of the drawer.

- Smaller components typically mounted to the wall can now be mounted securely within the rack
- Bottom of drawer can be removed before installation to mount small devices and can be screwed into place
- Articulating cable arm keeps wires from getting pinched
- Pattern of holes and slots accommodates nearly any mounting hole pattern, and can also be used for wire tie or other cable fastening methods
- Provides abundant cable management and device tie down points
- Drawer locks for added security
- 4-point mounting for added strength
- Black powder coat finish

Part #	Useable Mounting Area	Racking Height	Weight Capacity
D2-UMS-28	13"w x 21"d	3-1/2" (2 space)	45 lbs.

Heavy Duty Drawers

These drawers have a fully enclosed top and generous inside dimensions measuring 15-7/8" wide by 14-1/2" deep. 2, 3 and 4 space models include drawer mat and rear cable grommet.

- Spring-loaded latches; installed keylock option available
- Steel construction with a 50 lb. weight capacity
- Choice of black textured or brushed and anodized face finish
- TD8FLK model includes file hanging kit
- UL Listed

lever lock™

Finally! A place to mount non-rackmount and small devices without sacrificing rackspace. Lever Lock™ is a unique and patented system that allows integrators to maximize space in a rack by mounting small devices in the “no man’s land” area between the rackrail and the side panel or rear. Also great for routing cables!

This tool-free system is comprised of plates and bars that can mount vertically and horizontally to

accommodate virtually any system. To date- over 9 product families accept Lever Lock and Middle Atlantic continues to add products each year. Just look for the "Lever Lock™ Ready" badge throughout the catalog or reference the chart on the following page.

Lever Lock™

206-207

Internal Management System

The patent-pending Lever Lock™ internal management system maximizes space utilization within a rack or furniture. Uniquely designed to facilitate Lever Lock™ cable management and device mounting within the rack through the use of unique tool-free bars and accessory mounting plates.

- Maximizes space within a rack or furniture system
- Universal mounting pattern accommodates most small devices
- Locks in place without tools in Lever Lock™ compatible products (see chart below)
- Offered in a variety of sizes for vertical and horizontal mounting

cable management

System needs for cabling & connectivity is growing exponentially. The more cables, the more critical it becomes to manage the cable entry, exit and within the enclosure to obtain a neat, organized system- but more importantly, allows for proper airflow & thermal management. Middle Atlantic Products offers a range of cable support products to meet any system needs including vertical & horizontal options, ducts, ladders and all the accessories.

Horizontal Cable Management	210 - 213
Vertical Cable Management	214
Cable Ducts & Chases	215 - 216
Cable Ladders	217 - 218
Accessories	219

Horizontal Cable Management

Middle Atlantic Products offers a range of horizontal cable support products prevent cable strain by organizing and routing cables from rear component connections to the side of the rack.

LBP Series, Horizontal Lacer Bars

Horizontal lacer bars provide cabling support in the region of the mounted equipment itself, carrying cables horizontally from the sides of the rack to the connection points.

- Choice of round, rectangular, and "L" shaped profiles
- Choice of straight and offset styles
- Steel construction with black powder coat finish (except rectangular lacing bars of aluminum construction)
- Sold in packs of 10 pieces

HCM Series, Horizontal Cable Managers

Organize patch cords and similar cabling while maintaining the a required bend radius. Available in a wide variety of styles to suit most applications. For optimal performance, do not exceed a 50% fill rate when passing cables through cable rings.

- Choice of styles including "D-ring" and "micro-clip"
- Choice of one and two space sizes
- Steel construction with black powder coat finish

HCM-1

HCM-2DV

D-RING

HHCM shown open

HHCM shown closed

HHCM Series, Hinged Horizontal Cable Managers

Conceal patch cables while providing cable strain relief with the hinged horizontal cable managers.

- Hinged front panel has a magnetic closure
- Helps maintain the required bend radius
- Steel construction with black powder coat finish

Part #	Racking Height	Depth
HHCM-1	1-3/4" (1 rackspace)	3-5/8"
HHCM-2	3-1/2" (2 rackspace)	3-5/8"

PHCM typical

PHCM Series, Horizontal Cable Managers

Ample cable pass-throughs provided for dressing cables above, below, to the sides and behind the cable manager.

- Matches and integrates well with PCD Series duct pg. 216
- Available in single and 4-packs

Single Piece Part #	4 Pack Part #	Description
PHCM-1-2	PHCM-1-2-P4	1 rackspace (1-3/4") plastic finger horizontal cable manager, 2" deep
PHCM-1-4	PHCM-1-4-P4	1 rackspace (1-3/4") plastic finger horizontal cable manager, 4" deep
PHCM-2-3	PHCM-2-3-P4	2 rackspace (3-1/2") plastic finger horizontal cable manager, 3" deep

HCT application

HCT Series, Horizontal Cable Tray

Handy horizontal cable tray mounts on any 19" rack or cabinet and neatly routes cable bundles from side to side.

- Turn-downs on sides help maintain the required cable bend radius
- Steel construction with black powder coat finish

Part #	Racking Height
HCT-1	1-3/4" (1 rackspace)
HCT-2	3-1/2" (2 rackspace)

HCT-1

BR Series, Brush Grommet Cable Pass-Through Panel

The brush grommet panel provides a clean, organized cable entry method when mounted above any work surface. Also fits in opening on all MW Series top options.

- Built-in cable management tray
- Steel construction with black powder coat finish

Part #	Racking Height
BR1	1-3/4" (1 rackspace)
BR2	3-1/2" (2 rackspace)

BR1 application

PCS Series, Horizontal Fiber/ Cable Spools

These spools are designed to protect system performance by maintaining the bend radius of fiber and other high-speed cables within a rack or at a patching/distribution location.

- Ideal for managing excess fiber or copper cable slack within a rack
- Durable black resin construction
- 2 space panels include 2 spools which can rotate in 90° intervals
- 4 piece models include mounting hardware and brackets to make a complete circle

Part #	Depth	Type
PCS-1-2H	1-3/8" deep	2 space panel
PCS-1-4	1-3/8" deep	4 pieces
PCS-3-2H	3" deep	2 space panel
PCS-3-4	3" deep	4 pieces

PCS-3-2H

PCS spools

Vertical Cable Management

Middle Atlantic Products offers a range of vertical cable support products to prevent cable strain by organizing and routing cables along side the rack. Properly dressed installations not only look better, but better support the thermal management strategy and make ongoing maintenance and changes easier.

External Vertical Cable Ducts

Every model has plenty of cable egress points for control of cable locations and bend radius. Plastic models are economical and fingers can be easily removed for larger bundle exit. Metal models are sturdy steel construction for years of dependable service.

VCD Series, Vertical Steel Wire Cable Ducts

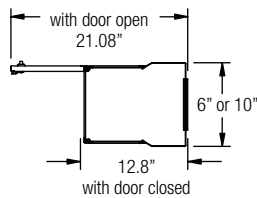

Designed to organize and protect cabling next to or between racks. Smooth, steel cable fingers are placed in rackspace increments for complete control of access locations.

- Organizes cable pathways while protecting bend radius
- Choice of single and dual duct (front and rear channels)
- Sturdy all-steel construction with black powder coat finish, incl. locking steel doors
- UL Listed

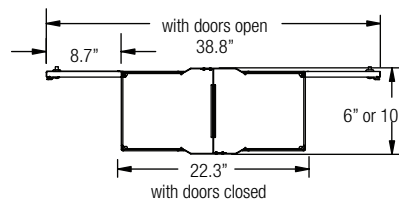

10" Wide Part #	6" Wide Part #	Description	All VCD Ducts Work with

PCD single duct

PCD-1.5X2-4BK

PCD Series, Vertical Plastic Cable Ducts

Plastic cable ducts provide a cost-effective solution for protecting, routing, and organizing cables and cords.

- Slotted plastic finger design for horizontal cable access exactly where needed
- Fingers can easily be removed to create larger openings
- Plastic covers are included
- Matches and integrates well with PHCM Series horizontal cable managers pg. 212

Part #	Racking Height	Size	Type	Application

*Plastic cable ducts can mount in between two racks, for 38 rackspace and higher sizes only

CC Series, Vertical Steel Wire Cable Ducts

Steel cable chases are designed for use between ganged racks to provide ample space for routing cables.

- 4" width provides ample space for cable routing
- Steel construction with black powder coat finish
- Accept SPN Series side panels
- Custom width chases available, call for details
- Kits include front & rear vertical channels and solid top cover

Cable Ladders

Cable ladder systems are the gold standard for managing cable-heavy installations. Middle Atlantic offers a complete cable ladder system to keep large overhead bundles neat and organized while preventing unnecessary cable strain.

A complete line of fully welded cable ladders. Cable ladder sections ship fully boxed, which minimizes product damage and simplifies shipping and storage. Highly durable finish consists of 2 layers of black powder coat and is exceptionally scratch resistant. Compatible with most popular brands and accessories of cable ladders, these will work on both new and retrofit installations.

- Available in 12", 18", and 24" widths
- UL Listed

Cable Ladder Hardware and Accessories

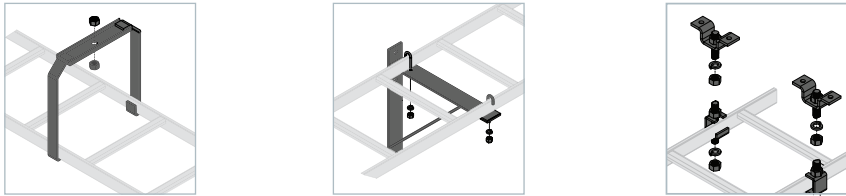

- A complete line of splice hardware, cable ladder drops, support brackets, and other compatible fittings to complete a cable support ladder installation

Cable Management Accessories

Products in this section provide additional support and protection to cable management systems.

Cable Management Straps

Reusable cable management straps are made from Velcro® and are perfect for managing cables that are sensitive to strain. This is because they are wider and softer than common wire ties, and therefore are less likely to cause pinching damage to the cables.

- Wide straps fasten cables without pinching
- Genuine Velcro® construction
- Straps are 8" long
- Sold in packs of 12 pieces

TW12

Part #	Description	Quantity
TW12	8" cable/wire management Velcro® straps	12

Protective Grommets

Grommets protect cables passing through knockouts or any possible pinch point.

- Protects cables when passing sharp edges
- Available in several styles to match rack knockouts
- Flexible grommet material can also be used on most metal edges up to 1/8" thick

GK4 grommet ring

Part #	Description	Quantity
GK-1X7G	1" x 7" gland grommet ring	4
GK-3G	3" gland grommet ring	4
GK-4G	4" gland grommet	4
GK4	4" grommet ring	4
GR-30	Flexible black grommet material	30 ft.

GR-30

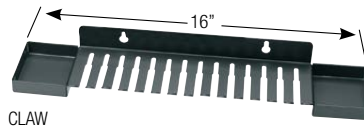

GK-4G gland grommet

Cable Claw Cable Hanger

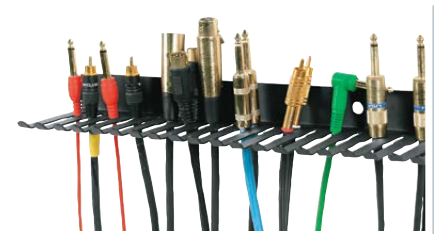

The unique dual-size "claw" configuration of this versatile wall mount cable hanger provides efficient storage for all cables large and small.

- Hanging cable storage is fast and convenient
- Available with or without side trays for storing small items
- Steel construction with black powder coat finish

Part #	Dimensions
CLAW	16" w x 3-1/2" d, with side trays

TSW-15 application

thermal management

Thermal Management plays a critical role in overall system reliability because heat has been proven to substantially reduce the service life of most equipment. Maintaining the recommended constant operating temperature for most equipment (max 85°) will help provide a long service life for the equipment inside an enclosure. Why 85°? Most studies have shown that for every 10° rise, digital equipment life is reduced by approximately 40%!

Middle Atlantic offers a wide range of cooling products to meet the needs of nearly any environment. We offer a full selection of quiet, thermostatic and proportionally controlled cooling options that save energy.

UQFP-4D

UQFP-4RT

UQFP-4DRA
designer look and finish

UQFP Series, Ultra Quiet Fan Panels

These award-winning premium cooling panels are quiet and effective. Ideal for cooling smaller systems in visible locations such as living spaces and AV studios. Designer versions also feature dimmable displays and have a black brushed and anodized finish.

- Compact two-space size saves rackspace
- Thermostatic, proportional speed fan control is quiet and saves energy
- Includes local and remote overtemp notification for system reliability
- Choice of black powder coat or black brushed and anodized finish

FTA Series, Fan Tray System

Locates fans directly above hot equipment to help supplement rack cooling systems by moving hot air in the right direction.

- Uses 4" DC fans for quiet operation
- 8 fan mounting positions and optional add-on fan to position fans where needed
- Energy-saving thermostatic control
- Adjustable mounting range of 18"-32"
- Compact one-space unit saves rackspace
- Ideal for use with VRS vented rackmount shelf, pg. 196

FTA-3

120V Part #	220V Part #	Description	Free Air Rating
FTA-3	IFTA-3	3 fan tray	207 CFM
FTA-6	IFTA-6	6 fan tray	414 CFM
FT-FAN	-	add-on 4" DC fan	69 CFM

Decora® Mount Temperature Display

These displays monitor internal enclosure temperature, providing an LED readout.

- Includes plug-in power supply
- Includes temperature sensor with 5' cord to monitor desired location
- Mounts in any Decora® style opening
- Bright three digit, green LED display
- Adjustable overtemp setting with local and remote notification

T1P	1 space rackmount panel pre-configured w/ 1 TEMP-DEC temperature display

Quiet-Cool Series™, Component, Cabinet and Closet Cooling

Middle Atlantic offers this unique set of products called Quiet-Cool Series™, which was designed to provide effective thermal management for several specific installation environments. Every product in this series employs smart thermostatic control to save energy and reduce unnecessary noise.

Component Cooler

- Lays on top of hot components to move air

120V Part #	220V Part #	Description	Free Air Rating	Max Sound Level
COMP-COOL	ICOMP-COOL	1 fan, power supply	8 CFM	19 dB

Fans, Fan Kits and Accessories

Middle Atlantic offers a range of high quality fans and fan kits to let installers implement their selected thermal management strategy. Fan kits include fans, guards, and necessary vent blockers, and are designed for specific racks or usage locations such as for rear doors as noted. Some kit models also include intelligent thermostatic controls to save energy and minimize unnecessary noise.

- Fans are ball-bearing design for long life and quiet operation
- Fans include mounting hardware and cords
- Fan kits include fans, guards, and necessary vent blockers

FC Series, Thermostatic AC Fan Control

These controllers extend both equipment and fan life and reduce service calls by varying the fan speed of up to four fans based on temperature.

- Control up to four fans, depending on model
- 3 user-selected temperature ranges
- Includes temperature sensor with 5 ft. cord
- ETL Certified

FC-2-215-1CA

High Definition Rackmount Consoles

High Definition LCD Rackmount Consoles are designed for the needs of the AV system, with a 100% digital platform that maintains complete digital signal integrity. This results in data that remains intact between source and display with no compatibility issues and no need for specialty cabling or accessories. Supporting a broad range of applications, rackmount consoles are ideal whenever rackmount control and system monitoring is required.

- High definition (1080p), widescreen (16:9)
- Designed for digital video, featuring an HDMI® certified 100% digital platform including HDMI/DVI inputs and HDCP compliance
- No special cables required – compatible with industry standard cables and extenders
- KVM model is IP-enabled for remote monitoring and management
- Models available in standard console configuration for single systems or console with 8 Port KVM for managing multiple systems from a single station
- Compact, 1-rackspace design includes 17" widescreen display, keyboard and touchpad
- Dual rail design allows monitor to reside in open position for system monitoring while keyboard is recessed
- Fast one-person installation with quick-install rails
- Front USB port

Lighting

Middle Atlantic offers a range of rackmount lighting and work lights to meet a variety of needs. Rackmount lighting is there when you need it; we offer styles for both back-of-the-rack and end-user front accessible lighting. And, we offer several styles of work light to meet installer and maintenance needs. Explore the offerings below to find the most appropriate model.

LT-GN Series, LED Gooseneck Light

- Portable lights can be powered by USB port or standard 120V outlet
- Rackmount panel version has two independently positionable lights
- Lights have off/on switch
- Long-lasting LED sources stay cool and bright

Part #	Description	Powered By
LT-GN	gooseneck LED light with USB connector	PDLT-815RVA, PD-915RV-RN, LT-1Rx or any computer w/ standard USB port
LT-GN-PL	gooseneck LED light with USB 120V adapter	Any 120V power outlet, including vertical power strips
LT-GN-PNL	one rackspace rackmount panel with dual gooseneck LED lights	
LT-GN-WL	magnetic worklight, gooseneck, includes 32 LED lights	

PDLT Series, Rack Light and Power

- One-space design to save space
- 15 Amps; single circuit
- ETL Listed

Part #	Rear Outlets	Surge Protection	Cord Length	Chassis Depth	Finish
PDL-815RVA	8	Yes	9'	13-1/2"	black brushed and anodized
PDL-815RV-RN	8	Yes, two-stage with remote notification	9'	13-1/2"	black powder coat

LT-1R Series, Rackmount Light

Rackmount lighting features retractable LED light for evenly distributed illumination of the rackmounted components below.

- One-space design to save space
- Choice of black powder coat or black brushed and anodized finish

Part #	Cord Length	Chassis Depth	Finish
LT-1R	9'	13-1/2"	black powder coat
LT-1RA	9'	13-1/2"	black brushed and anodized

WL Series, Magnetic Work Light

- Powerful magnets keep lights in place and attach to any steel rack surface
- Cool, efficient fluorescent bulb
- UL Listed

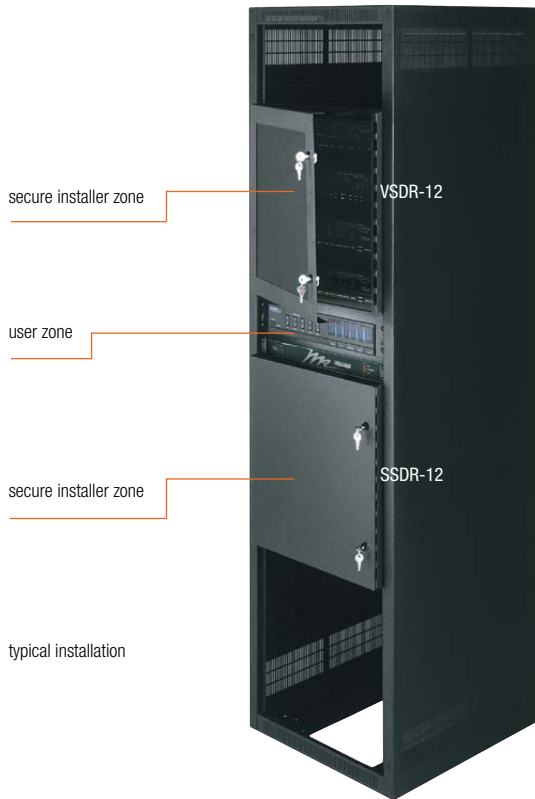

Part #	Description	Powered By
WL-60	magnetic work light, jointed arm, v13W fluorescent bulb, long 18' cord	Any 120V power outlet, including vertical power strips

Security Options

Middle Atlantic Products knows that many systems are installed in semi-accessible or accessible locations and so we offer a selection of security covers, doors and rackscrews to protect valuable equipment and critical connections. Models in this section include solid and vented covers as well as lockable solid and plexi doors to match the needs of the project.

Security Doors

Hinged, keylocked security doors allow front access to a select portion of rackmount equipment. Mount equipment which needs to be secured behind these doors in the “installer zone” to keep unauthorized users from tampering. Keep equipment which needs to be client-accessed in the open portion of the rack in the “user zone.”

- Choice of plexiglass, vented, and solid styles
- Sturdy steel construction with black powder coat finish

Solid Part # Knob Clearance 1-3/8"	Plexi Part # Knob Clearance 1-1/8"	Vented Part # Knob Clearance 1-1/8"	Racking Height
SSDR-8	PSDR-8	VSDR-8	14" (8 rackspace)
SSDR-12	PSDR-12	VSDR-12	21" (12 rackspace)
SSDR-15			26-1/4" (15 rackspace)
SSDR-16	PSDR-16	VSDR-16	28" (16 rackspace)
SSDR-20	PSDR-20	VSDR-20	35" (20 rackspace)
SSDR-21			36-3/4" (21 rackspace)

Hinged Security Covers

Cover specific equipment while allowing access with a key. Smoked plexiglass doors allow visibility to protected equipment.

- Steel frame with keylocked 3/16" smoked-gray plexiglass door
- 1-1/2" depth easily clears controls on most equipment
- Use with security screws for additional security (pg. 240)
- Available in 2, 3, 4, and 8 rackspace sizes

Part #	Racking Height
SECL-2	3-1/2" (2 rackspace)
SECL-3	5-1/4" (3 rackspace)
SECL-4	7" (4 rackspace)
SECL-8	14" (8 rackspace)

SECL-2

SECL-3

SECL-4

Fixed Security Covers

Fight equipment tampering with these tough fixed security covers. Secure and cost-effective.

- Choice of regular or fine metal perforation or fixed plexiglass window for easy equipment viewing
- 1" depth clears controls on most equipment
- Use with security screws for additional security

Type	Part #	Racking Height
Regular Perf Allows unobstructed view of knob settings, 64% open area	S1	1-3/4" (1 rackspace)
	S2	3-1/2" (2 rackspace)
	S3	5-1/4" (3 rackspace)
	S4	7" (4 rackspace)
Fine Perf Allows sight of LEDs, most secure, 25% open area	SF1	1-3/4" (1 rackspace)
	SF2	3-1/2" (2 rackspace)
	SF3	5-1/4" (3 rackspace)
	SF4	7" (4 rackspace)
Plexiglass	SL-1	1-3/4" (1 rackspace)
	SL-2	3-1/2" (2 rackspace)
	SL-3	5-1/4" (3 rackspace)

Blank Panels

Blank panels cover open areas on an installed rack face, providing a clean, professional appearance. Blank panels also serve an essential thermal management function by blocking unwanted airflow.

- Completes a finished, professional appearance
- Supports thermal management by preventing recirculation of hot air
- Sizes from 1/3 space up to 6 space panels
- Matching finishes are available

Economy Blank Steel Panels

- 1/3 and 1/2 space panels ideal for non-fullspace components
- Panels in contractor packs are individually poly-bagged for protection

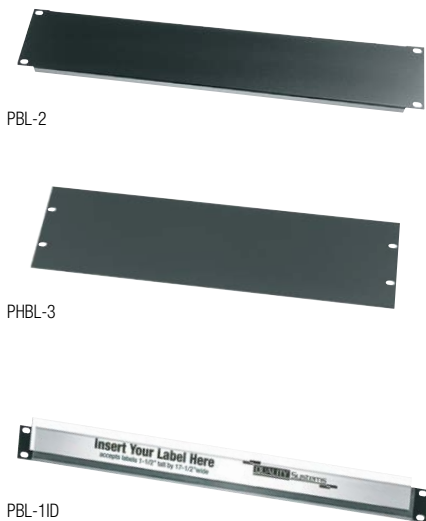

Flanged Part #	Flat Part #	Racking Height

Connector Panels

Middle Atlantic Products offers a wide selection of utility and special-purpose chassis and connector panels to support your project needs. As is the case with our other products, each of these models was designed with speed and effectiveness in mind to provide installers with excellent installation results, and work with all our rack systems.

UNI-1

UNI-1-C

Universal Connector Panel

The UNI Series laser-cut connector panels feature knockouts designed to accept a number of connectors, including XLR and Neutrik.

- Design allows mounting of both male and female connectors to the same holes simply by knocking out the correct pattern
- Incorporates a 2-5/8" strain relief shelf with tie-points for cable management (UNI-1)

Part #	Laser-Cut Knockouts	Racking Height
UNI-1	16	1-3/4" (1 rackspace)
UNI-2	32	3-1/2" (2 rackspace)
UNI-1-C	16	1-3/4" (1 space) - includes cable management

AVIP-FK1

AVIP-FK2

shown with plates installed

More AVIP plates from Wiremold® at middleatlantic.com

AVIP Rackmount Panel System

This great solution provides rackmount connectivity without the wait or expense of custom panels.

- Holds industry-standard modular AV connector plates including Wiremold® AVIP, Extron® MAAP, and FSR IPS
- Works with single, double, and triple size plates
- Fixed and easy-access hinged styles are available for standard racks
- Fixed styles are also available for half-rack applications

Fixed Part #	Swing Out Part #	Description
AVIP-FK1	AVIP-SF1	1 space, 19" width
AVIP-FK2	AVIP-SF2	2 space, 19" width
AVIP-HFK1		1 space, 10" width

UCP Series, Modular Panel System

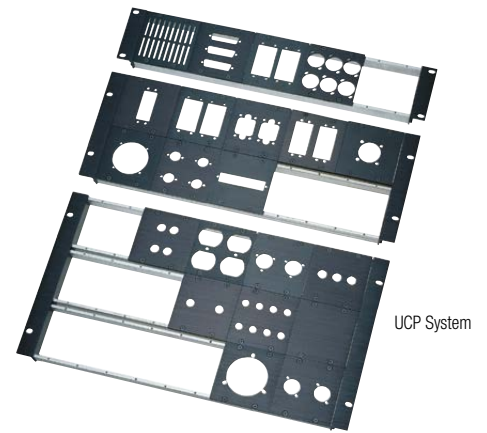

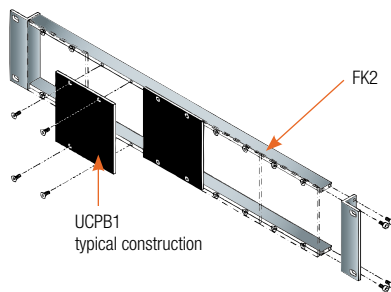

Build Your Own Custom Connector Panel Using Off-The-Shelf Components! Middle Atlantic Products UCP Series modular custom panel system assembles quickly and easily using either a 2 or 4 space frame kit and your selections from an extensive collection of prepunched modules.

- Modules accept popular connectors such as XLR, Neutrik, Elco, Canare and more
- UCP modular assemblies simply bolt together using supplied hardware
- When completed, all hardware is flush to create a professional appearance
- Visible parts have a black brushed and anodized finish
- Blank and vented panels are also available to fill unused spots
- All modules are constructed of aluminum

UCP Series Frame Kit

- Bolts modules to them in any combination

Frame Kits Part #	Racking Height
FK2	1-3/4" (1 rackspace)
FK4	3-1/2" (2 rackspace)

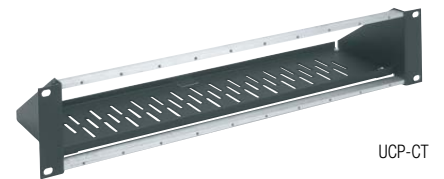

UCP Series Chassis

The 2 space UCP chassis holds five modules in the front, and five modules in the rear. Shipped fully-assembled, each unit is comprised of four threaded FK bars, a pair of ears 9" deep, top and bottom, and all necessary module mounting hardware. The top & bottom can be easily removed, leaving the frame intact.

UCP Series Cable Tray, 2 Space

The UCP cable tray includes FK2 bars, mounting ears and bottom. 5" deep tray provides superior cable strain relief with a multitude of wire-tie slots. Occupies 2 rackspaces (3-1/2").

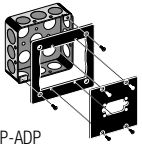

UCP Series Hinged Frame Kit, 2 Space

This hinged version of the FK2 frame kit allows rear access to modules. Captive 10-32 threaded thumbscrews hold the frame closed and require no tools to open. Kit includes a pair of threaded FK bars, hinged ear, captive thumbscrew ear, and all module mounting hardware.

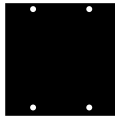

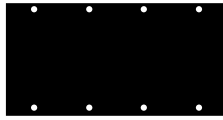

UCP Series, Modular Panel System

UCP-ADP
UCP Adapter, 1900 Electrical Box
Adapts any single UCP module to a standard 1900 electrical box

UCPB1
UCP Blank Module, Single Width
Fills unused spots or drill your own connector mounting pattern

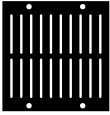

UCPB2
UCP Blank Module, Double Width
Fills unused spots or drill your own connector mounting pattern

UCPB3
UCP Blank Module, Triple Width
Fills unused spots or drill your own connector mounting pattern

UCP-FAN
15 CFM Fan, Mounts to UCP Frame Kit
Fan rated to move 15 CFM at 25 dBA

UCP-VT
UCP Vent
Fills unused space while providing ventilation

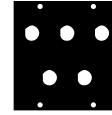

1/2BNC1
UCP Module, One 1/2" BNC Punchout
Fits 1/2" diameter BNC shells

1/2BNC2
UCP Module, Two 1/2" BNC Punchouts
Fits 1/2" diameter BNC shells

1/2BNC4
UCP Module, Four 1/2" BNC Punchouts
Fits 1/2" diameter BNC shells

1/2BNC5
UCP Module, Five 1/2" BNC Punchouts
Fits 1/2" insulated BNC connectors for RGBHV

1/2BNC6
UCP Module, Six 1/2" BNC Punchouts
Fits 1/2" diameter BNC shells

1/4X4
UCP Module, Four 1/4" Punchouts
Fits RCA jacks, some switches and LEDs

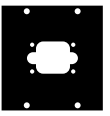

1DB25
UCP Module, One DB25 Punchout
Fits the popular data multipin connector

1DB9
UCP Module, One DB9 Punchout
Fits the popular data multipin connector

1ELCO90
UCP Module, EDAC/ELCO 90 Pin Punchout
Fits 90 pin Elco/Edac connectors

1G1
UCP Module, G1 Punchout
Fits "G" Series AMP connectors

1W1
UCP Module, 39 pin Whirlwind Punchout
Fits 39 pin Whirlwind

1W2
UCP Module, 61 pin Whirlwind Punchout
Fits 61 pin Whirlwind

2DB15
UCP Module, Two DB15 Punchouts
Fits the popular data multipin connector

2DB25
UCP Module, Two DB25 Punchouts
Fits the popular data multipin connector

2DB37
UCP Module, Two DB37 Punchouts
Fits the popular data multipin connector

2DB50
UCP Module, Two DB50 Punchouts
Fits the popular data multipin connector

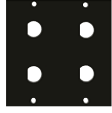

2DB9
UCP Module, Two DB9 Punchouts
Fits the popular data multipin connector

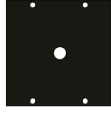

2ELC090

UCP Module, Two EDAC/
ELCO 90 Pin Punchouts
Fits 90 pin Elco/Edac connectors

3/8BNC4

UCP Module, Four 3/8"
BNC Punchouts
Fits 3/8" diameter BNC shells

3/8X1

UCP Module,
One 3/8" Punchout
Fits attenuators, "F" connectors,
phone jacks, some switches

4DB9

UCP Module,
Four DB9 Punchouts
Fits the popular data multipin
connector

4SC1

UCP Module, One
Circular Flange Punchout
Fits Cannon AP and EP, Neutrik,
NL8MPR, NL4MPR ("Speakon")

4SC3

UCP Module, Three
Circular Flange Punchouts
Fits Cannon AP and EP, Neutrik,
NL8MPR, NL4MPR ("Speakon")

7/16X4

UCP Module, Four
7/16" Punchouts
Fits Switchcraft #11, insulated
phone jacks, and some switches

AVIP-UCP

UCP Module,
One AVIP Punchout
Accepts 3 single, 1 dual, or 1
triple connector plates

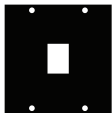

CANARE4

UCP Module, Four
Canare Punchouts
Fits regular and feed-through
types

COMB04

UCP Module, Four Mixed
Gender XLR Punchouts
Fits mixed genders within a
module

KEY-1

UCP Module, One
Keystone Punchout
Holds varied connectors (RCA, RJ-45,
Fiber, etc.) in keystone insert bezel

KEY-2

UCP Module, Two
Keystone Punchouts
Holds varied connectors (RCA, RJ-45,
Fiber, etc.) in keystone insert bezel

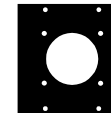

KEY-4

UCP Module, Four
Keystone Punchouts
Holds varied connectors (RCA, RJ-45,
Fiber, etc.) in keystone insert bezel

KEY-6

UCP Module, Six
Keystone Punchouts
Holds varied connectors (RCA, RJ-45,
Fiber, etc.) in keystone insert bezel

SPX-19

UCP Module, Socapex
19 Pin Punchout
Fits Socapex 19 pin connector

TW2B

UCP Module, 2 Bolt
Twistlock Punchout
Fits most brands with oval hole
pattern, including Hubbel Bryant

TW3B

UCP Module, 3 Bolt
Twistlock Punchout
Fits most brands with oval hole
pattern, including Hubbel Bryant

UNIV1

UCP Module, One XLR
Female Punchout
Fits Neutrik FP, MP, MDL, FDL,
Speakon, XLRs, and more

UNIV2

UCP Module, Two XLR
Female Punchouts
Fits Neutrik FP, MP, MDL, FDL,
Speakon, XLRs, and more

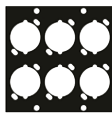

UNIV3

UCP Module, Three XLR
Female Punchouts
Fits Neutrik FP, MP, MDL, FDL,
Speakon, XLRs, and more

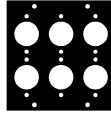

UNIV4

UCP Module, Four XLR
Female Punchouts
Fits Neutrik FP, MP, MDL, FDL,
Speakon, XLRs, and more

UNIV6

UCP Module, Six XLR
Female Punchouts
Fits Neutrik FP, MP, MDL, FDL,
Speakon, XLRs, and more

XLRM6

UCP Module,
XLR Male Punchouts
Fits Neutrik MP, LNEMP,
Switchcraft, Cannon

Hardware and Fasteners

Don't forget the rack screws! Professional installers know that sometimes the smallest products and details can make the difference in appearance, function, and speed. Don't let an inferior screw mar your installation – insist on Middle Atlantic hardware.

Rack Screws, Security Screws and Fasteners

- Choice of head designs and finishes (rust-resistant finish is available)
- Most models are 3/4" long with pre-installed washers and self-guiding pilot points
- Cable-friendly screws are 3/8" long with rounded tip to resist chafing
- Security screws, including the patented high security Guardian Series™, provide additional equipment protection

Shoulder Washers,
100 Pieces

Works with pre-installed washers
on our screws to isolate equipment

SW

	Series	Type	# of Pieces	Head Type	Length	Finish	Factory Installed Washer	Self Guiding Pilot Points	Security Accommodations	Compatible Bit	Recommended & Primary Use(s)
 HG	HG	10-32 threaded	100 500 (HG500)	truss-head	3/4"	black gloss, salt spray resistant	yes	yes	no	no	premium rack screws provide best bit engagement in the industry

 CN6MM-100	CN6MM-100	cage nut hardware, for use with 6mm rackscrews	100	cage nut hardware	n/a		n/a	n/a	no	no	slide out servers with square hole rail

Trim Strips

As a final aesthetic complement to any installation, add our finishing trim strips.

- A quick, clean and effective method of covering rack screws once the job is complete
- Each channel-shaped trim strip measures 45 spaces (78-3/4" long)
- Features internal grooves that fit into the supplied snap washers
- Offered in black brushed and anodized or black powder coat finish
- Cut easily to size with a hacksaw
- Sold in individual strips.

without trim strip installed

without trim strip installed

Part #	Finish	Includes
TA	black brushed & anodized	mounting screws (16), snap washers (16), end caps (8)
TS	black powder coat	mounting screws (16), snap washers (16), end caps (8)

Panels for Decora® Devices

Mount any low-voltage Decora device directly onto rackrail of standard 19" enclosure. Great mounting solution for RPS Series remote power switches (pg. 186) and TEMP-DEC temperature displays (pg. 224).

- Panels take up only one rackspace
- Available models hold from one to four devices
- Flanged steel construction with durable black powder coat finish

Part #	Description
DECP-1X1	1-3/4" (1 space) mounts up to 1 Decora device
DECP-1X2	1-3/4" (1 space) mounts up to 2 Decora devices
DECP-1X3	1-3/4" (1 space) mounts up to 3 Decora devices
DECP-1X4	1-3/4" (1 space) mounts up to 4 Decora devices

DECP-1X1

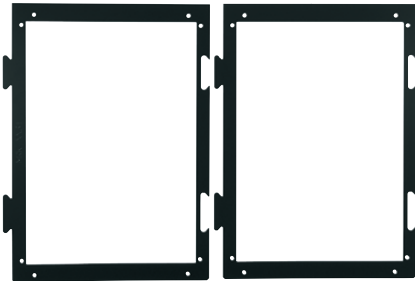

DECP-1X3

Other Hardware

This section includes useful hardware that solves specific installation challenges, including such varied items as rail bracket adapters to touch-up paint. Browse the products in this section – you might find a solution you have been hoping for.

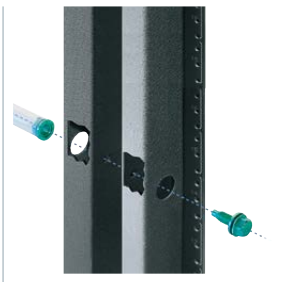

BGR-TEMP-27

Multi-Bay Floor Layout Template

- Template allows accurate installation planning and mounting
- Ideal for pre-drilling floor anchor bolts, etc.
- Designed for accurate single and multi-bay layouts

Multi-Bay Floor Layout Template	Accommodates
BGR-TEMP-27	BGR 27" depth racks
BGR-TEMP-32	BGR 32" depth racks
BGR-TEMP-38	BGR 38" depth racks
MRK-TEMP-26	MRK 26" depth racks
MRK-TEMP-31	MRK 31" depth racks
MRK-TEMP-36	MRK 36" depth racks
WRK-TEMP-27	WRK 27" depth racks
WRK-TEMP-32	WRK 32" depth racks

BOND-G24

Spike, Rack Bonding Kits

Combines ganging and electrical bonding in one step by piercing powder coat finish at bonding points without removing paint.

- Eliminates bonding wires between racks
- Provides low impedance ground
- Displaces powder coat finish without corrosion protection of painted surface
- Does not require anti-oxidant protection
- Durable and visible green finish

Part #	Description
BOND-G24	24 sets, 1 installation tool, 4 sets recommended per rack

ACC-KEY

Keys

Part #	Description
ACC-KEY	additional set of keys for drawers and LBX
SFD-KEY	key for front door
SRD-KEY	key for rear door

DOC

Document Holder

Part #	Description	Fits
DOC	document holder for rear door	fits on most rear doors
DOC-SACK	document holder for rear door	compatible with BGR enclosures

RRF Rackrail

All-steel RRF rackrail is threaded for 10-32 screws and is finished in a durable black e-coat finish. With EIA standard spacing, they are sold in pairs and designed for use with 19-1/8" wide rough openings.

- Sturdy 1/8" thick steel construction

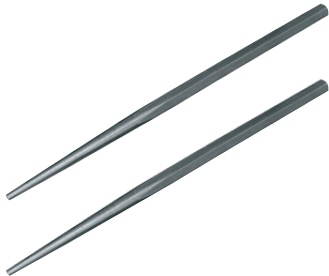

Part #	Racking Height
RRF2	3-1/2" (2 space)
RRF4	7" (4 space)
RRF6	10-1/2" (6 space)
RRF8	14" (8 space)
RRF10	17-1/2" (10 space)
RRF12	21" (12 space)
RRF14	24-1/2" (14 space)
RRF16	28" (16 space)
RRF18	31-1/2" (18 space)
RRF21	36-3/4" (21 space)
RRF27	47-1/4" (27 space)
RRF45	78-3/4" (45 space)

Drift Pins for Ganging

- Easily align racks while ganging*

Part #	Description
DRIFT	set of two tapered drift pins
TDRIFT	ganging drift pins, non-tapered

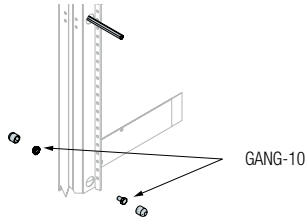

*not compliant with BGR

DRIFT

Ganging Hardware

- Kit of 5/16" flange nuts and bolts to gang up to 10 racks

Part #	Description
GANG-10	5/16" nuts/bolts to gang 10 racks or consoles
GANG-10T	5/16" bolts for ganging BGR and SNE via threaded inserts

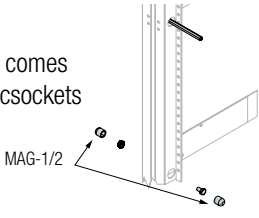

GANG-10

Ganging Hardware

- Makes ganging racks easier, comes as a set of two 1/2" magnetic sockets

Part #
MAG-1/2

MAG-1/2

Touch-Up Paint

- 0.6 fluid oz. of paint and applicator for minor finish touch-ups

Part #
WRINKLE

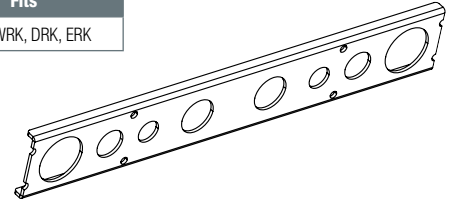

WRINKLE

Rack Electrical Isolation Knockout Panel

- Replaces standard rear electrical knockout plates to isolate connections from rack

Part #	Fits
ISO-KOP	MRK, WRK, DRK, ERK

ISO-KOP

Micro Fiber Cloth, Anodized Panels

- Reuseable, non-abrasive and lint free cloths to keep installations clean

Part #
PNL-CLN

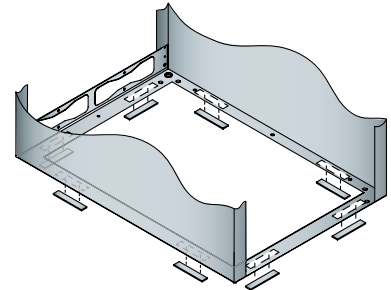

PNL-CLN

Rack Ground Isolation Kit

- Isolate the rack from conductive flooring materials
- Consists of eight 4" long strips of 1/8" thick non-conductive polycarbonate

Part #
ISO-1

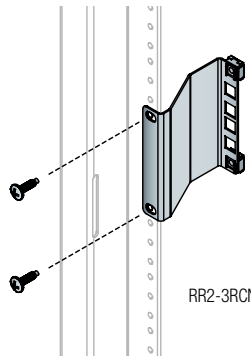

ISO-1

2 Space Rackrail Recessor, 3" Depth

- Enables installer to recess equipment 3" behind rackrail
- Comes as a pair

Part #
RR2-3RCN

RR2-3RCN

Rear Hanging Brackets

- Additional support for equipment with rear mounting ears

Part #	Racking Height
RH2	3-1/2" (2 rackspace)
RH3	5-1/4" (3 rackspace)
RH4	7" (4 rackspace)

RH-2

Rack Sack™ Equipment Cover

- Rack Sack™ protects an installation in progress from dust and contact

Part #	Dimensions
RS-6036	60"h x 20"w x 36"d
RS-8436	84"h x 25"w x 36"d

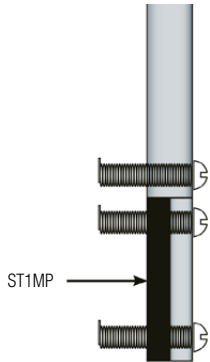

RS-6036

Shim Tabs, 100 Pieces

- 1/16" thick shims can be used to make faceplates flush

Part #	Racking Height
ST1MP	1-3 /4" (1 rackspace)
ST3MP	5-1/4" (3 rackspace)

Rackspace Ruler

- 16 foot tape measure with traditional measurement, rackspace markings and audio/data formulas

Part #
RULER

RULER

New web-based configuration tool provides a simple and personalized experience to design great systems. Available 24/7 on middleatlantic.com, this new platform allows users to quickly and efficiently select the right products and accessories for any system.

- Create a personalized configured solution with a priced materials list
- Export CAD and other design documents
- Built-in intelligence only recommends products & components that fit the chosen host enclosure
- 24/7 access
- Visit middleatlantic.com to get started

Middle Atlantic Designer™

Free 3D layout software for creating full consoles, video walls and room layouts.

- Quickly and easily create full system designs in 3D
- Includes commonly used room elements; including doors and windows
- Creates Retail quotes
- Delivers design specifications
- Features include:
 - Line-of-site tool
 - Note tool
 - Exports to AutoCAD in 2D and 3D
 - Automatic software updates & Full color design
- Only works on PC

RackTools®

Middle Atlantic Products is pleased to announce the release of RackTools® 3.5. We've updated RackTools® to make creating a system layout even faster and easier than before. Through improved navigation, smaller files sizes and faster running, this is the easiest way to lay out an enclosure system.

RackTools® software increases the efficiency of your business by allowing engineers and salespeople to quickly and easily specify Middle Atlantic Products, and create accurate rack elevation, plan, side and rear view drawings, purchase orders, and quotes in minutes.
