

THERMAL MANAGEMENT

# FyreJacket® Industrial

## Product Highlights

- Operating temperature  
-54°C to +260°C  
(-65°F to +500°F)
- Highly flexible

**FyreJacket® Industrial** is a thickwall, knitted fiberglass sleeving with an external coating of flame retardant silicone rubber. This product can be easily installed on cables and hoses.

FyreJacket Industrial provides effective protection against sustained high temperatures, flames and molten metal splashes that can seriously damage electrical cables and hydraulic, gas and lubricant supply lines.

This product is used in the steel and petrochemical industries to protect against internal and external hazards, especially to prevent hand touching from hot lines.

Our manufacturing sites are certified ISO 9000, QS 9000 or ISO/TS 16949 and ISO 14001
