DEEPER C5 SERIES CREDENZA RACKS

Improved for a Wider Range of Applications

- Extended depth accommodates deeper equipment, such as Middle Atlantic UPS models and AV matrix switchers.
  Allows greater flexibility for drop-in connection boxes
- Enhanced cooling includes 50 CFM energy-saving, thermostatically-controlled DC blowers in each bay.
  Quiet and powerful: 50 CFM 29 dB (see A&E spec #96-01180 for measured values)
- Additional options for conferencing include flat screen (42" – 70") and multi-position camera mounts
