

LUTZE Product Overview

Cable Solutions

LUTZE specializes in flexible and continuous flexing industrial control, power and network cables, such as LUTZE Silflex®, LUTZE Superflex®, and DRIVEFLEX® VFD cables, for various applications in factory automation. Wire and cable management components for industrial automation complement the offering.

Connectivity Solutions

In addition to industrial flexible and high flexing cables, LUTZE offers servo cable assemblies according to SIEMENS 6FX, Allen-Bradley® 2090 and Bosch Rexroth Indramat standards. As a special service LUTZE offers each cable assembly in custom lengths of 0.5m increments.

Cabinet Solutions

LUTZE LSC Wiring System saves space, time and cost. LSC is an aluminum frame that replaces the traditional back panel and wire duct for mounting and wiring of electrical components in a control enclosure. LSC shortens wiring times and improves heat dissipation within the cabinet to enhance component longevity.

Control Solutions

LUTZE offers din rail mountable compact power supplies, industrial Ethernet switches, LCIS relays and intelligent control circuit protection with the LUTZE LOCC-Box.
