

LUTZE SUPERFLEX® sets Industry standards: Longevity, Reliability, Flexibility

LUTZE offers a variety of high flexing cables specifically designed for use in continuous motion applications such as drag chains. LUTZE SUPERFLEX® and LUTZE SUPERFLEX® Plus cables include high flexing control and motor supply cables, as well as electronic and network cables.

All LUTZE SUPERFLEX® cables are compatible with all major brand drag chains.

LUTZE SUPERFLEX® N is designed for moderate to higher performance flexing in short to medium length drag chains.

LUTZE SUPERFLEX® N is offered with PVC or High Glide Insulation (TPE) insulation and with specially formulated PVC jacket.

LUTZE SUPERFLEX® Plus PUR is designed for high performance flexing or longer drag chains. LUTZE SUPERFLEX® Plus PUR contains high grade premium materials such as High Glide TPE insulation and PUR jackets for high performance applications in modern high speed machine tools.

All high flexing cables require special handling and installation techniques which are different from those of standard flexible control cables. To ensure the longest possible life span for your cable, it is important to follow installation procedures precisely.
