

compact In-Line models great for one or two outlets

RackLink™ Networked Power Management System

The RackLink™ Power Management System provides integrators with system monitoring and control and is accessible locally, over the web, and through available apps for iOS and Android™ mobile devices. It is designed to help ensure system reliability and uptime through the use of intuitive setup and operation, pre-emptive problem notification and automatic problem resolution.

Now with patented Series Protection™!

RLNK-SW415R-SP

RLNK-SW715R-NS

- Individual outlet control for up to 8 outlets
- Monitor power and temperature
- Autoping network device diagnostic/utility
- Event logging and notification
- User defined thresholds
- IP and RS-232 connectivity
- Emergency power off with automatic recovery option
- Models available with series surge protection (non-sacrificial, non-degrading)

Part #	Form Factor	Max Load	Rated Load	Surge Protection	Sequencing	# of Outlets		Controlled Dry Contacts	Integrated Web Server
