# Total Technologies, Ltd.®

## Confirmation of ATC Compliance Testing

The following HDMI Licensed Product has successfully completed ATC Compliance Testing in accordance with the HDMI Compliance Test Specification, revision 1.1, at the HDMI Authorized Testing Center designated below.

### Adopter Information

Contact Name:	David Gutierrez
Company Name:	Total Technologies, Ltd.
Company Address:	9 Studebaker Irvine, CA 92618
Tel:	949-465-0200
Email:	dgutierrez@total-technologies

### Product Information

Category (i.e., Source or Sink):	Cable
Product Name:	HDMI Cable
Model Number:	HDMI-3M-1.5M

### Confirmation of Authorized Testing Center

Date of Issue:	September 29, 2004
Authorized Testing Center:	Silicon Image
Confirmed by:	Michael Schumacher

Attachment: Test Results Form

Notes:  
 1. This confirmation of test results does not guarantee the quality or functionality of your product, its compliance with the HDMI Specification (including the High-Definition Multimedia Interface), or its interoperability with other HDMI products.  
 2. The information in the attached report is subject to the NDA between your company and the Authorized Testing Center at which the testing was performed.

## Version 5

## New Product Introduction

CERT NO.: Q12452

Registration Number 005

Your Reliable Manufacturing Partner Since 1982

# Total Technologies, Ltd<sup>®</sup>

*"Cost Down and Quality Up<sup>™</sup>"*

Total Technologies, Ltd. (TTL) is a highly diversified manufacturer of various OEM/ODM cable assemblies, adapters and multimedia interfaces, since 1982. With over 1,200 employees for Global support, 15 worldwide patents, and 60,000 designs, TTL is a promising and outstanding cable supplier. TTL currently produces 7 million assorted cable assemblies and adapters per month. TTL provides high quality products to many of the largest multimedia, telecommunication and computer related peripherals, components and accessories manufacturers in the world. TTL's ECO-Friendly products are designed to meet worldwide requirements such as RoHS, EPA, and California Proposition 65. TTL has been certified by Sony as their first Green Partner with a perfect rating in the cable and connector category. TTL offers excellent R&D design and engineering services, quick lead-time, plus sales and customer support at its offices in Irvine, California, Taiwan, China, Japan, and Germany.

## Why Choose TTL's HDMI Cable?

### ■ **HDMI<sup>™</sup>** ATC Compliance testing approved.

On **October 6, 2004**, Total Technologies, Ltd. is proud to announce that its HDMI to HDMI (5 meter) cable has passed Silicon Image's ATC compliance testing. TTL's HDMI licensed product successfully completed ATC compliance testing in accordance with the HDMI Compliance Test Specification, revision 1.1.

### ■ **Benefits of the Patented RF-BLOK<sup>™</sup> shielded design:**

1. ECO design.
2. Reduced interference from one piece seamless EMI/RFI shielded metal can.
3. No requirement of ferrite cores as signal loss and degradation are greatly reduced giving enhanced signal sharpness. Without the ferrite cores the cables is less stressed and more flexible.
4. No soldering requirements as interconnect design needs no 360° soldering - eliminating the possibility of human error and/or cracking of the solder that causes grounding intermittence and the use of the most hazardous waste material - soldering flux.
5. Increased insulation resistance up to 45%.
6. No inner mold-avoids the potential damage that can be occurred during injection molding process.
7. Smaller overall dimensions which allows more room behind the host or peripheral.

**RF-BLOK<sup>™</sup>**

**Patent US 6,287,148 B1**  
**US 6,776,665 B2**  
**US D483, 373 S**  
 Other worldwide patents pending

## TTL *Hi-PQ*<sup>™</sup> (*Hi-PQ Series-High Definition Picture Quality*) HDMI Cables

### *Hi-PQ*<sup>™</sup>

(*Hi-PQ Series-High Definition Picture Quality*)

In 2004, Total Technologies, Ltd.<sup>®</sup> announced its HDMI and HDMI to DVI product line. Listed below are the reasons why your company should choose TTL's HDMI/DVI cables and adapters.

**HDTV Resolutions Supported:** 1080i and 1080p! TTL's *Hi-PQ*<sup>™</sup> series cables incorporate a High Quality Wire Construction that maintain high definition resolutions up to 1080p plus multi-channel digital audio, including HDCP (High Bandwidth Digital Content Protection) compliance.

**Computer Resolutions Supported:** TTL's *Hi-PQ*<sup>™</sup> series cables are good for resolutions up to 1920x1200. Long length (10 meter, 15 meter and 20 meter) cables are good for resolutions up to 1280x1024.

In 2005, TTL's HDMI 10 meter *Hi-PQ*<sup>™</sup> cables "PASSED" Silicon Image's Data Eye Pattern compliance testing. The objective of the below listed data is to ensure the differential data has adequate "eye-opening" to enable effective recovery at the sink (Display) device after transmission. Comparison to MASK determines "PASS" or fail and analysis of data jitter provides useful information on "Signal Integrity"

*Hi-PQ*<sup>™</sup>  
(*Hi-PQ Series-High Definition Picture Quality*)

### TOTAL TECHNOLOGIES LTD.<sup>®</sup> HDMI 10M CABLE PERFORMANCE

## TTL's *SSAC*<sup>™</sup> (HDMI TYPE-A -DVI 19 PIN Super SLim And Compact Adapters) HDMI Adapters

### *SSAC*<sup>™</sup>

(Super SLim And Compact Adapters)

A complete line of Super Slim and Compact (*SSAC*<sup>™</sup> HDMI-DVI adapters, DVI-HD15 adapters, and M1-D adapters) are available to meet requirements of legacy systems. This patented one piece, seamless, all metal solder-less design, results in superior shielding, low resistance, and extremely high reliability. TTL's current HDMI connecting design is under patent pending, not only in the U.S., but worldwide.

**BENEFITS:**

1. **Super Slim And Compact (SSAC™)** size adapters provide an interface that is easy fitting, at the same time preventing interference with other connectors. **HMDF** adapters available in right or left angle designs.
2. The **SSAC™** series adapters provide the least amount of tension to board mounted **HDMI (female)** connectors.
3. **Patented RF-BLOK™ (Patent No.: US 6,278,148 B1)** design provides the best **EMI/ EMC** results and product reliability, avoiding potential high pressure / temperature damage during the injection molding process.
4. **Luxurious all metal design** provides a very **ROBUST** solution.
5. **Super light weight design** saves overall freight costs.
6. **Environment protection (ECO-Friendly)** products are manufactured to meet **Worldwide** requirements.

*ATC compliance testing Approved cables!*

# Digital All-In-One cables

## DVI/IEEE1394/USB All-in-One Multi-Functional Cable

1. All-In-One zipcord design solution for digital devices transmissions.
2. Easy-handling zipcord design provides excellent "cable management".
3. Available as an extension cable, or a standard male to male cable.
4. Available for various connections such as HDMI, DVI, M1-D/A IEEE 1394-a, 1394-b, i-Link, USB AM-AF, AM-BM.
5. (Hi-PQ™ Series) Hi-Definition Picture Quality cables are available in various lengths up to 20 meters.
6. Patented RF-BLOK™ (Patent No.:US 6,278,148 B1) shielding design provides the best EMI/EMC results and product reliability.
7. HDMI ATC, DVI DDWG, IEEE1394, USB2.0 high speed certified product.
8. Various colors are now available.

**Zipcord Design**

**Male-Female Extension cable**

**Male-Male Standard cable**

## DVI with Coaxial Audio Zipcord

1. High quality low attenuation Mini Coaxial cable design provides crystal clear audio for AV applications that require long distance transmissions.
2. (Hi-PQ™ Series) Hi-Definition Picture Quality cables are available in lengths up to 20 meters.
3. Patented RF-BLOK™ (Patent No.:US 6,278,148 B1) shielded design provides the best EMI/EMC results and product reliability.
4. Easy-handling zipcord design provides excellent "cable management".
5. Available in Gold plated RCA and DVI connectors
6. Various colors are now available.

# SCART To ANALOG Converter Cable

*Smart Solution for SCART Composite Sync Signal Conversion.*

Analog IC conversion inside!

- Existing SCART VIDEO system to connect with new analog (M1-A, DVI-A, VGA, R.G.B.) applications.
- Switch selectable combined, separated sync and sync on Green condition.
- For projectors, plasmas, HDTVs, Flat Panel Monitors...etc.
- (RF-BLOK™ Die-Cast Metal can, fully shielded design provides the best EMI/EMC results and product reliability, avoiding potential high pressure/temperature damage during the injection molding process.
- For inputting analog signal to SCART system converter cable are also available.

# Serial ATA- I and -II Cables

## Serial ATA 7-I and -II PIN AND 15 PIN CABLES

● SATA-I Latch Type

● SATA-I 90 Degree

● SATA Power with latch

● SATA Power without latch

**new!**

Serial ATA-I / II with overall metal shielding also available!

● SATA Power with latch

● SATA II

### Serial ATA -- Enabling the Future

Serial ATA is an evolutionary replacement for the Parallel ATA physical storage interface. Serial ATA is scalable and will allow future enhancements to the computing platform.

- Scalability—Serial ATA is a **point-to-point connection** and allows multiple ports to be aggregated into a single controller that is typically located either on the motherboard or as an add-in, RAID card
- Performance—Serial ATA technology will deliver **1.5 Gbps (150 MB/sec)** of performance to each drive within a disk drive array.
- Cabling—Serial ATA specifies a thin, point-to-point connection which allows for easy cable routing within a system. **This avoids master/slave, "daisy-chaining", and termination issues.** Also, better airflow can be realized compared to systems with wider ribbon cables.
