Innovative Flat Filament Braided For High Abrasion Resistance

The latest innovation in Techflex material design is the concept of using different shaped filaments to create strength, stiffness or a variety of other effects.

Gorilla Sleeve is engineered from flat filaments of tough and strong 6-6 Nylon to achieve a thick abrasion guard for use on hoses. This type of sleeve has been tested against competitor's abrasion guards that mix materials in an effort to gain slight abrasion advantages.

Gorilla Sleeve achieves better results without sacrificing great looks or flexibility.

- **Constant abuse from road hazards, abrasion and vibration make Gorilla Sleaving the choice to protect hoses in over road vehicles.**

- **Colors Available:**
 Black (BK)
