

SRB Series

seismic certified riser bases

seismic certified riser bases provide advanced cable management and are ideal for use in seismic applications

features:

- 11-gauge fully welded construction
- 940 lb. weight capacity for single bay, 1,635 lbs. for 2 bay and 2,250 lbs. for 3 bay
- Seismic certified bases allow for field rough-in prior to arrival of racks and enclosures
- Seismic certified with an Ip value of 1.5
- Offered in single bay to three bay configurations
- Seismic certified bases act as a lower cable chase for passing cables between racks in multi-bay installations
- Ideal for use in raised floor installations and in environments that require seismic certification
- Durable black textured powder coat finish
- Only 4 feet per riser base to save on installation time
