STP-300 SQUIX THERMAL PRINTER

**HIGH PERFORMANCE THERMAL PRINTER
FOR SUMITAG RANGE**

sumitag

PRODUCT DATA

APPLICATION METHOD - NONE

A robust range of universal thermal thermal transfer printers manufactured for industrial applications and offering excellent print definition and mark permanence. Designed to work in high volume environments whether standalone or as part of a 'print and apply' application. This printer is suitable for a wide range of media including heatshrink sleeves (both ladder and continuous format), high specification tie-on cable labels, adhesive panel labels, as well as self laminating labels and polyester labels.The Squix range of printers work best with our market leading SumiLabel Software which is optimised for harness building, cable and asset marking.

- Colour Touch Screen Navigation Panel

- Movable, See-through and Reflective Sensor

- 300 & 600 Dpi models available

- Robust housing, with media window

- Mid-centered automatic print positioning

- Memory card for standalone use (non PC reliant)

- Ethernet & WiFi as standard for network printing

- Fully compatible with SumiTag System
